MOSCOW (APRIL 10) UPI - Soviet leader Mikhail Gorbachev said Tuesday he hopes to avoid imposing direct presidential rule in Lithuania, but did not rule out a Kremlin takeover of the rebellious Baltic republic.

President Bush said in Washington that Moscow has been told ''loud and clear'' to refrain from force in dealing with Lithuanian demands for independence.

Gorbachev told delegates to the Young Communist League congress in Moscow that the Soviet leadership was still trying to persuade the Lithuanian parliament to reverse its March 11 declaration of independence.

The Soviet president said he believes Lithuania should hold a referendum

on its future and told the congress he was confident residents would vote to remain part of the Soviet Union, the news agency Tass reported.

''This problem should be resolved by reforming the (Soviet) federation, not dividing it,'' Gorbachev said.

The Sajudis nationalist movement dominated Feb. 24 elections for Lithuania's new parliament, and the legislature declared the republic's independence at its first meeting.

Asked about the possibility of imposing direct presidential rule in Lithuania, Gorbachev said he hoped a political solution could be reached.

''At the same time, he did not rule out the possibility of introducing presidential rule, but only as an extreme measure, if the situation there develops into a civil conflict,'' Tass reported.

Under new powers granted him last month, Gorbachev could dissolve the Lithuanian parliament and impose presidential rule in an emergency. The Supreme Soviet would have to approve the move.

''It is obvious that the president and the government have sufficient powers to take other measures to defend the constitution ... if events develop in an undesirable way,'' Gorbachev's press secretary, Arkady Maslennikov, said at a news conference.

Bush, speaking with reporters aboard Air Force One before leaving Washington for Toronto Tuesday, was asked about reports the Soviets are tightening the screws on Lithuania.

''We keep hearing that,'' the president said, adding, ''I've made our position very clear: peaceful resolution of this question, because we do not recognize that the use of force would accomplish anything other than to set back relations.

''And I think they know that loud and clear by now, very clear,'' said Bush, who has been criticized in some quarters for declining to recognize Lithuania's claim to have seceded from the Soviet Union.

Lithuanian President Vytautas Landsbergis, meanwhile, in a telegram to Gorbachev, accused the Soviet leader of taking a hard line against the republic in reaction to pressure from the extreme right.

On Monday, the conservative Soyuz group of about 300 members of the central Supreme Soviet proposed that the Lithuanian parliament be dissolved, new elections be called and direct central rule be imposed in the republic.

''Esteemed president, we are very concerned that ultra-rightists (and) imperial forces are compelling you to take wrong steps, to continue the wrongs of the 1940s in the Baltics,'' Landsbergis said in his telegram, referring to the incorporation during World War II of Lithuania, Latvia and Estonia into the Soviet Union.

''Do not further this, please. ... Do not do this,'' he wrote.

The central government Tuesday intensified its warnings of economic hardship for Lithuania if the republic secedes. On Monday, Gorbachev's new presidential council called for new unspecified economic sanctions against the republic.

Gorbachev's spokesman said Tuesday that the Lithuanian economy may be hurt even before achieving full secession.

''The point in issue is not a blockade. Many enterprises in other regions of the U.S.S.R. doubt the expediency of concluding new contracts with partners in Lithuania, which shows an obvious desire to secede,'' Maslennikov said.

He added that Soviet figures showed Lithuanias independence would require it to trade at world prices and result in a deficit of the equivalent of $5.9 billion for the republic.

Alexander Troshin, deputy chairman of the Soviet state planning committee, said Lithuania would have to pay more for Soviet oil as an independent nation and would not be able to earn as much for selling agricultural products as it does now.

BY VERNON SCOTT

HOLLYWOOD (APRIL 10) UPI - It's been a dozen years since Marlo Thomas appeared in a movie, but the high-energy writer-producer-actress - and wife of TV's Phil Donahue - ends her hiatus as co-star in the new film, ''In The Spirit.''

As befits one of the country's most visible feminists, Thomas teams with a group of women: Jeannie Berlin, Olympia Dukakis, Melanie Griffith and Elaine May. And, briefly, with Peter Falk.

The film is Thomas's first big-screen appearance since the forgettable ''Thieves'' in 1977.

She is better known for TV comedy, documentaries and drama, and for her

social activism.

Since her years of stardom in the bright TV sitcom ''That Girl'' (1966-71) Thomas has formed her own company, Hart, Thomas and Berlin Productions. Its first feature film will star Marlo in ''Reunion'' for 20th Century-Fox.

In addition to her considerable and successful professional endeavors, Thomas is a founding director of the Ms Foundation for Women and Children, a member of the board of the National Women's Political Caucus and a trustee of the Museum of Broadcasting.

Her new movie, ''In The Spirit,'' combines comedy and social awareness as it deals with female bonding and the plight of middle-aged women on their own.

Thomas plays a widowed wacko who runs a small New York City health food store, subscribes to the magic qualities of crystals and heeds voices from distant celestial bodies and defunct human beings - beliefs the actress is not ready to dismiss.

''Underneath all the film's zany and crazy stuff there's a grain of truth '' she said. ''That's true of any joke, even a cartoon.

''Our picture is about two women, my character and Elaine May's. They feel they can't make it on their own and finally learn that they can be responsible for themselves without relying on a husband.

''When a murderer tires to kill them, they set a series of traps and kill the murderer. But the fun is between the two women. It's sort of a Laurel-and-Hardy relationship,'' she said.

''We have a fight and Elaine's character keeps telling mine how much she hates her. It's very funny.

''This is a woman buddy picture, but it could have been written for Paul Newman and Robert Redford as a male buddy picture.''

Thomas is aware that women moviegoers are being short-changed in gender-oriented films. ''In The Spirit'' is one of those rare movies loaded with leading actresses rather than actors.

''We talk about things in the picture that deal with male-female relationships that get laughs,'' she said.

''At one point when the two women are hiding from the murderer, I say to Elaine, 'At a time like this it would be good to have a man around.'

''And she says, 'I don't know; Roger would need a lot of tending to in a

situation like this.' And the women in the audience just scream. It's true. You have to take care of your husband before you can take care of yourself,'' Thomas said.

Hear that, Sylvester? Arnold?

''It's like the old saying,'' Thomas continued. '''When a woman has a cold it's an inconvenience. When a man has a cold, it's a catastrophe.'''

Thomas would like to develop female-oriented films, saying such projects must begin with writers.

''It's not that producers and directors don't want to make films about women,'' she said. ''There just aren't that many women writers producing scripts.

''The industry is pushing for bigger, more expensive movies that will gross at least $50 million. Small movies don't gross over $50 million, excepting such unusual pictures as 'Driving Miss Daisy,' or 'Steel Magnolias,' which was packed with a lot of stars.

''A movie shouldn't have to make $100 million in order to be made,'' she said.

''There is an audience out there for women's stories, but there aren't that many women running things in the movie industry. The big money-makers are male-driven adventure films like 'Indiana Jones.' There's a place for such movies. But there's also a place for smaller pictures about women.

''It's a little disturbing that more pictures aren't being produced with modest budgets dealing with relationships and social questions.

''I'm not an authority on the subject, but great writer-directors like Oliver Stone write about their own experiences,'' she said. ''Unless more women write about subjects they know, we're not going to see many women-oriented movies.''

#90100u1732 04/10/1990 ~United Press International
BEIRUT, LEBANON (APRIL 10) UPI - A French woman, her Belgian boyfriend and their young daughter who were held hostage for more than two years by a radical Palestinian group were freed early Tuesday and departed for Paris on a French jet.

The release came after the group run by the notorious terrorist Abu Nidal negotiated with Belgian and French officials. It also came six days after

Libyan leader Col. Moammar Gadhafi called for the release of Western hostages to mark the Moslem holy month of Ramadan.

Five gunmen in two cars dropped Jacqueline Valente, 31, Fernand Houtekins, 42, and their 2 1/2-year-old daughter, Sophie, near the main gate of the tree- shaded French Embassy in Syrian-patrolled west Beirut shortly after daybreak.

Hours later, the three were rushed to Beirut International Airport in a heavily guarded French embassy convoy. French Ambassador Rene Ala hugged the three, who then waved to reporters, boarded a white Falcon 900 jet provided by the French government and left for Paris.

''We thank every one who participated in making this happy end,'' said French presidential envoy Georgina Dufoix, sent to Beirut to accompany the three on the flight to Paris.

Abu Nidal's Fatah Revolutionary Council said it snatched Valente, two other daughters and five Belgians from a pleasure boat off the coast of the Israeli-occupied Gaza Strip Nov. 8, 1987. The group accused the captives of spying for Israel.

In December 1988, Valente's two other daughters, Marie-Laure Betille, 6, and Virginie, 5, were released in Libya and rejoined their father, Pascal Betille.

Valente told reporters inside the embassy after her own release Tuesday, ''I kiss all my relatives. I'm fine along with my baby girl.''

The blue-eyed Sophie, who was born in captivity, wore a blue and white dotted dress, held her mother's hand and smiled to photographers.

"We are all in a good condition, but we are tired of traveling," Valente said.

She acknowledged she also had a baby boy in captivity, named Palestine, but said he lived only a year. Ala said the boy died despite treatment from doctors. In Paris, French state-owned television network Antenne 2 reported the boy died of intestinal complications.

Houtekins said the remaining four Belgian captives have high morale and added, ''We keep high hopes that they will be freed too.''

The others are Houtekins' brother, Emmanuel, 44, the brother's wife, Godelieve Kets, 39, and their two children, Valerie, 18, and Laurent, 19.

Ala, who said he did not take part in talks to free the captives, said, ''Let's hope that all hostages will be freed as soon as possible.''

Besides the hostages seized off the Gaza coast, 18 other Westerners, eight of them Americans, were kidnapped in Lebanon and are believed held by pro-Iranian extremist groups demanding the release of hundreds of Palestinians in Israeli jails and freedom for 17 Arabs convicted of terrorist activities in Kuwait.

The Fatah Revolutionary Council said Sunday it would respond to the appeal by Gadhafi by freeing Valente's family. The group said it had made contact with representatives of the French government.

It was not certain why Gadhafi made the appeal. But in Paris, diplomatic sources agreed with reports indicating Tuesday's release might be related to France's decision to return three Libyan Mirage jets in March.

The French had held the jets, in France for maintenance, since 1986 under a military embargo against Tripoli after Gadhafi's invasion of northern Chad in 1983. Gadhafi reportedly retaliated by closing Libyan ports to French ships.

In Washington, State Department spokeswoman Margaret Tutwiler said the United States welcomed the release of the hostages but she declined to comment on the France's release of the impounded jets.

''The United States has not and will not make any deals,'' she added.

France thanked Gadhafi Tuesday for his role in freeing the three hostages and indicated relations between Paris and Tripoli would improve.

Tuesday's releases also follow a Belgian delegation's negotiation with the Palestinian group regarding an Abu Nidal group member jailed in Belgium since 1983 for a grenade attack on a Brussels synagogue, officials said Monday.

''It is true that (at) one point we have been discussing the release of Mr. Saeed Nasser, who is imprisoned in Belgium,'' Jan Hollants Van Loocke, political affairs chief at the Belgian Foreign Ministry, said after meeting with Walid Khaled, spokesman for Abu Nidal's group.

#90100u1742 04/10/1990 ~United Press International

EAST BERLIN (APRIL 10) UPI - Negotiators battled against time Tuesday to finalize arrangements for the establishment of an East German grand coalition government before the second session of Parliament Thursday.

''We are under time pressure because there is still a great deal to be decided,'' said an exhausted Richard Schroeder, the Social Democratic

Party's parliamentary floor leader.

Negotiators for the SPD, three conservative parties and a three-party liberal alliance had agreed Monday on the general principles of a broad-based coalition government.

Speaking during a pause in the coalition talks Tuesday evening, Schroeder said the negotiators had not discussed all policy reports prepared earlier by working groups.

''We enter this session tired but we hope the talking will not last too long now,'' he said.

When newsmen suggested there seemed to be frequent disagreements among SPD members, Schroeder said, ''We in the SPD have rid ourselves of the Fuehrer principle. Our faction does not lack in inner-party democracy.

''The party's parliamentary faction decides if we enter into a coalition. While it is possible that the faction could reject the coalition agreement in my opinion, this is most unlikely,'' he said.

The parliamentary factions of the seven parties involved in the talks will hold separate meetings Wednesday to decide whether they should approve the coalition agreement worked out by their respective negotiating teams.

Under the agreement reached Monday, Prime Minister-designate Lothar de Maiziere's Christian Democratic Union will hold 11 ministerial posts, the SPD seven, the liberals three, the German Social Union two and the Democratic Awakening party one.

The new government will work out a formula to unify the country with West Germany.

#90100u1748 04/10/1990 ~United Press International

NEW YORK (APRIL 10) UPI - ABC's ''Twin Peaks'' was the highest rated movie of the 1989-90 television season, but that did not stop NBC from winning the ratings race for the week, it was reported Tuesday.

Not even the one-two wins for the week of ABC's ''America's Funniest Home Videos'' - an original edition in first place and a rerun edition tied for second - was enough to unseat NBC.

The intriguing, on-going mystery ''Twin Peaks'' earned a 21.7 rating and a 33 share, putting it in fifth place and making it the highest rated single part network movie presentation since May 21, 1989, when ABC aired ''Everybody's Baby: The Rescue of Jessica McClure.''

The combination of ''Videos'' and ''Twin Peaks'' gave ABC its second consecutive Sunday night win, the first time that has happened since October of 1987 when the network aired World Series games on consecutive Sundays.

''Twin Peaks'' now movies to Thursday nights, when it must compete against ''Cheers'' and ''Grand.''

Another new show made the top 10 - NBC's ''Carol & Company'' came in 10th in its second ''preview'' airing before it joins the regular schedule on April 14.

ABC had two new entries on Wednesday night. The premiere of ''The Marshall Chronicles'' came in 27th, and a close second to the second half of ''Jake and the Fat Man,'' the CBS time period winner. The competition on NBC, the revived ''FM,'' tied for 54th.

ABC's ''Equal Justice'' in its regular Wednesday time period tied for 41st with ''Quantum Leap,'' its NBC rival, while ''Wiseguy'' on CBS tied for

72nd with ''Sydney,'' one of CBS's new comedies.

CBS's ''Bagdad Cafe'' tied for 37th and won its time period, but its team-mate, ''Sugar & Spice,'' tied for 54th.

Among the new shows that are not scoring well are Robert Mitchum's ''Family for Joe'' (NBC) in 61st and CBS's ''Normal Life,'' tied for 80th place on a list of 84 shows.

''Twin Peaks'' was by far the top Sunday movie. On NBC a rerun of ''Jesus of Nazareth'' - the third coming of the film on network TV - came in 52nd, and CBS's ''Crossing to Freedom'' was 56th.

On a day-by-day basis, NBC was No. 1 on Tuesday, Wednesday, Thursday and Saturday nights, ABC took Friday and Sunday, and CBS won Monday.

NBC won the ratings race for the week ending April 8 with a 13.7 rating and a 23 share, according to the A.C. Nielsen Co. ABC narrowed the usually wide gap with a 12.8 rating and a 22 share, while CBS was third with an 11.6 rating and a 20 share.

The 29-week-old season-to-date ratings show NBC with a 14.7 rating and a 24 share, ABC with a 12.9 rating and a 21 share, and CBS with a 12.2 rating and a 20 share.

In the evening news ratings, ABC's ''World News Tonight'' with Peter Jennings continued in first place with a 10.2 rating and a 21 share. ''NBC Nightly News'' with Tom Brokaw and ''CBS Evening News'' with Dan Rather tied in the ratings, each with an 8.9. NBC had a 19 share and CBS an 18 share, because of differences in time periods.

Each ratings point represents about 921,000 households and a share is the percentage of TV sets tuned to a particular show.

The top 10 programs for the week ending Sunday, Apr. 8, according to the A.C. Nielsen Co., were:

1. America's Funniest Home Videos (ABC)
2. (tie) Cheers (NBC)
3. America's Funniest Home Videos special (ABC)
4. The Cosby Show (NBC)
5. Twin Peaks (ABC)
6. NCAA basketball championship (CBS)
7. A Different World (NBC)
8. Unsolved Mysteries (NBC)
9. Roseanne (ABC)
10. Carol & Company (NBC)

VIENNA (APRIL 10) UPI - Train robbers shot and killed a postal worker and stole $30 million in Austrian currency from a mail car in what police said Tuesday was the biggest heist in the history of Austria's postal service.

The dramatic robbery late Monday on a regional train near Vienna prompted postal authorities to post a $25,600 reward for the thieves.

The three unidentified bandits broke into the locked mail car through a bathroom window and surprised four postal workers inside, police said.

Without warning, one of the bandits shot one of the workers, a 50-year-old

man, in the head and stomach, killing him. The three other workers were bound with masking tape and handcuffs.

The robbers stole money bags containing about 35 million Austrian schillings and walked off the train unnoticed when it stopped in the suburb of Huetteldorf.

(APRIL 10) UPI - The huge engines of the shuttle Discovery will remain idle for at least two more days following the decision to scrub this morning's blast-off. NASA officials put on hold the historic flight to launch the Hubble Space Telescope because of trouble with the ship's hydraulic steering system.

A French government plane left Paris today, headed for Beirut to pick up three hostages released by members of the Abu Nidal extremist group. A French woman, her Belgian boyfriend and their baby daughter were dropped off in front of the French Embassy. They were kidnapped from a pleasure boat off the Gaza Strip coast on November 8th, 1987.

President Bush travels to Toronto today to discuss mutual concerns with Canadian Prime Minister Brian Mulroney and then attend a baseball game. Bush and Mulroney are to meet at the SkyDome, where they will talk and then attend the game between the Blue Jays and the Texas Rangers, who are partially owned by Bush's son.

The official Tass news agency says conservative Soviet lawmakers are proposing to dissolve Lithuania's parliament and impose direct central rule on the rebel republic. Tass says Soviet leader Mikhail Gorbachev's new presidential council was to meet today and intends to review the proposal.

The leader of the conservative New Democracy Party in Greece was appointed the nation's new prime minister today and was asked to form the next government. The conservatives won national elections on Sunday, and sources expect their administration to quickly improve strained relations with the United States.

#90100u1826 04/10/1990 ~United Press International

DAYTON, OH (APRIL 10) UPI - A chemist who has developed the technology for a ''smart dipstick'' says it would prevent engine wear and tear by telling when to change a car's oil with a flashing message on the dashboard.

Bob Kauffman said Tuesday the technique measures the quality of oil in the

car by calculating how much remains of the antioxidant in it.

Antioxidant is an additive that keeps oil from degrading too fast. Without it, oils will oxidize, turning thick and black and building up acid. Once the antioxidant is depleted, oil loses its ability to lubricate parts.

Prolonged use of bad oil can cause engine damage or failure and corrosion from the accumulation of acid.

Kauffman, a research chemist at the University of Dayton Research Institute, said the technique needs only a single drop of oil that is placed into a vial containing a common solvent such as acetone or rubbing alcohol. A microcomputer is instructed to test the sample by passing a voltage through the solution, which produces a measurable electric current.

Within 6 seconds, the percent of antioxidant remaining in the samples is displayed on the computer screen.

The method was originally developed under a $135,000 grant from the Air Force in connection with gas turbine engine oils used in military airplanes.

But the technique can now be applied to hydrocarbon oils used in cars, trucks, buses, trains and even French fryers, Kauffman said.

He explained that some cooking oils contain antioxidants that, when they are depleted, allow sour-tasting acids to develop.

Kauffman has already designed an ''off-line'' oil tester for industrial use and is working on a probe that would go into the fryer. He expects that will be marketed within three years.

The outlook for a built-in car probe is less bright, though Kauffman believes one could be marketed in two to three years.

Asked whether the idea would be picked up by the auto industry, Kauffman said, ''probably not,'' citing the equipment's cost and resistance from auto makers who have developed their own versions of oil-change technology.

But taking the guesswork out of when to change oil has great potential for helping not only the Air Force, but commercial and private aircraft companies, truck and bus fleets, industrial plants and restaurants, he said.

In researching the technology for hydrocarbon oils, Kauffman went to garages and lube shops to collect several hundred samples of used car oils that had reportedly been changed anywhere from 3,000 to 15,000 miles.

In 95 percent of the cases, the oils were depleted of antioxidants. But oil samples from a bus fleet showed up to 40 percent of the antioxidant remaining, meaning oil in some of the buses was being changed too soon.

If smart dipsticks were available, Kauffman predicted, the outcome would be smoother running vehicles, but more oil changes.

#90100u1827 04/10/1990 ~United Press International

(APRIL 10) UPI - By Thursday, things are expected to be back to normal at Kaiser Permanente hospitals and clinics in Los Angeles and Orange Counties. The first several hundred of 12-thousand striking employees returned to work this morning. The workers walked picket lines for a week until they approved a new contract yesterday.

The fire chief in the Milwaukee suburb of Glendale, Wisconsin, says there's NO way firefighters can put out a huge blaze at an oil company packaging warehouse. The fire broke out early this morning and quickly spread to boxes in the warehouse. Billowing black smoke has prompted authorities to evacuate a four-block area and close a 20-block stretch of nearby Interstate 43.

Family members say private funeral services will be held tomorrow in Austin, Texas, for John Henry Faulk, the man credited with defeating the blacklisting system during the McCarthy era. Faulk died yesterday of cancer at the age of 76. He filed a lawsuit against the blacklisters, who terrorized entertainers during the 1950's.

#90100u1828 04/10/1990 ~United Press International

INDIANAPOLIS (APRIL 10) UPI - The story of Ryan White's battle with AIDS will be told in a children's book its publisher hopes will help better educate the nation's youth about the deadly disease.

White, who was the subject of persecution at his Indiana grade school five years ago when he was diagnosed as having the disease, died Sunday a hero among his peers. The 18-year-old White spent much of his time near the end of his life answering volumes of mail from children wanting to know more about AIDS.

"He got maybe 1,000 letters a week from kids. Every time he appeared somewhere the volume doubled, said Toby Sherry, a senior editor with Dial Books for Young Readers, a division of E.P. Dutton in New York City. "Dial considered it an important book, because kids will listen to another kid about AIDS.

White collaborated on the book with a writer who wished to remain anonymous, Sherry said. "We have not done a very good job educating our country about how AIDS is transmitted - especially with young people; who think they're immortal. It's the first time a child who has AIDS is talking to other children" through a book, she said. "Hopefully, they will listen. To me, that's what's important about this book." Sherry said.

"Ryan was an important spokesperson," Sherry said. "I've never met him, but I've seen him on TV and he was remarkable - you were riveted. I think part of it was because he had so much presence and his feet were on the ground and he was so sensible and I think kids really listened to him.

"Kids really responded to him. They liked him in person - they liked seeing him on television. He wasn't threatening, he appealed to them." "It was supposed to be sort of Ryan's legacy to kids," Sherry said.

The book will be Ryan's story of the past five years, from the time he was denied the opportunity to attend classes at a Russiaville, Ind., school near Kokomo after he was diagnosed as having contracted acquired immune deficiency syndrome. He got the virus, as hundreds of hemophiliacs have, through a tainted blood clotting agent.

The book will be for eight to 14-year-olds and Ryan's collaborator hopes to include first-person answers as Ryan would have given them to questions children most commonly asked him:

"Does AIDs hurt? Why isn't there a cure? What does it feel like to have AIDS? How can I catch AIDS? How can I not catch it? Can you get it from kissing, mosquitoes, swimming pools? If I am a 'blood brother' or 'blood sister' with someone will I catch AIDS?"

The writer visited Ryan several times at his home at Cicero, Ind., since January, conversing with him at length as part of her research, Sherry said. She said the book, which was proposed by the Whites, is expected to run about 100-130 pages and have lots of photographs, which they felt will help keep kids turning the pages.

#90100u1849 04/10/1990 ~United Press International

KUWAIT (APRIL 10) UPI - A Saudi Arabian newspaper warned Tuesday that the Organization of Petroleum Exporting Countries could face a new crisis unless member states stopped flooding a glutted world oil market.

The warning came one day after crude oil prices reached their lowest level in eight months amid reports that OPEC states had produced over 24 million barrels of oil a day in March, about two million barrels above the cartel's self-imposed output ceiling.

"The continuation of some member states in exceeding their quotas, will not allow OPEC to reach its target - defending the prices at a level not less than $18 a barrel," the official Saudi Press Agency, monitored in Kuwait, quoted the Saudi daily Al Bilad as saying.

"OPEC will face another oil crisis with bad consequences by saturating the market with huge quantities of oil in a world that is already satiated," the newspaper said in an editorial.

"The violation of the accord which governs production policies will lead to a setback that could be avoided, if we know that demand for oil will be high during the next few years," it said.

The 13-nation cartel, which pumps more than a third of the world's oil, agreed in November to limit its collective output to 22 million barrels a day for the first six months of 1990 in an effort to support higher world prices.

Output has remained above the OPEC ceiling over the past year largely because Kuwait and the United Arab Emirates have cheated on quotas. In the past, Saudi Arabia has used its large production capacity to keep violators in line.

Last week, however, the knowledgeable Petroleum Ingelligence Weekly said Saudi Arabia was raising production and cutting prices in order to maintain is market share in the face of the overproduction by the other two members.

Oil industry sources said the UAE, which is seeking a higher quota, was pumping more than double its former June quota of 1.1 million barrels a day, while Kuwait was still producing 400,000 barrels daily over its OPEC-decreed quota of 1.5 million barrels a day.

The UAE refused to accept any quota in the November OPEC meeting. Kuwait has since said it would only abide by its quota when the average price of seven Mideast crudes falls below the $18 a barrel target.

Saudi Arabia, the cartel's biggest oil producer, is pumping about 5.71 million barrels daily compared to its OPEC quota of 5.38 million barrels a day, the sources said.

#90100u1850 04/10/1990 ~United Press International

BOGOTA, COLOMBIA (APRIL 10) UPI - Leftist rebels attacked a village in northeastern Colombia, killing six police agents and destroying the police station before elite force reinforcements retook the town early Tuesday,

authorities said.

Authorities say they have no information on civilian casualties, but a military spokesman told United Press International seven rebels died in battles with the police agents after the nightlong occupation.

Unconfirmed radio reports said more than 200 rebels of the leftist National Liberation Army staged the attack on San Calixto Monday night.

The rebels destroyed the police barracks with rocket and grenade attacks, killing five police agents and wounding four others, and dynamited the telephone office, severing communication links from the village about 255 miles north of Bogota.

The rebels also took over the town church and semenary, and fired at incoming helicopter reinforcements from the bell-tower. Radio reports said the rebels looted stores during the occupation.

Early Tuesday, an elite force of the National Police shot their way into the town, forcing the rebels to retreat but leaving one agent killed in a gunbattle with the guerrillas.

The National Liberation Army, led by Spanish ex-priest Manuel Perez, is the fastest growing rebel group in the country. There are about 10,000 armed leftist guerrillas in Colombia, belonging to four major groups. The April 19 Movement recently gave up the war and signed a peace pact with the government.

In February, the National Liberation Army kidnapped three Americans, later released unhurt, to protest President Bush's attendence at an anti-durg summit in Cartagena.

The presidential candidate for the Social Conservative Party, meanwhile, retracted a call for a pardon for suspected drug traffickers innocent of terrorist attacks.

Rodrigo Lloreda Caicedo told reporters Monday he would pardon cocaine smugglers who were not involved in the countless drug cartel bombings and assassinations of recent years.

Tuesday, the candidate said he had changed his mind.

''I have reflected over this, and I have decided to rectify the idea I offered yesterday to the journalists in Medellin,'' Lloreda Caicedo told RCN Radio in Bogota. ''Although there is a distinction between the behavior involved ... in purely economic and social crimes like drug trafficking as opposed to other (crimes) like murder or terrorism, it's evident that it is very difficult to make the distinction in practice.''

The powerful drug cartels, which reportedly supply 80 percent of the cocaine consumed in the United States, have asked to be considered under a government pardon offered to leftist rebel groups willing to turn over their arms.

Lloreda Caicedo will face Liberal Party candidate Cesar Gaviria Trujillo and independent runner Alvaro Gomez Hurtado in presidential elections on May 27. Gaviria Trujillo is expected to win.

All the candidates have called for a flexible legal treatment for traffickers who hand themselves in, suggesting they would not be extradited to the United States to stand trial.

Lloreda Caicedo also said if elected he would put more pressure on the United States to cut consumption.

''Look at the case of the mayor of Washington, Marion Barry, who for 10 years has been a habitual buyer of cocaine, who has not been tried, and is 10 blocks from the DEA,'' he said.

''For the United States, the fight against drugs is the fight against the Colombian traffickers, but paradoxically not against their own traffickers.''

Barry faces trial in June for cocaine charges.

#90100u1857 04/10/1990 ~United Press International

JAKARTA, INDONESIA (APRIL 10) UPI - Outraged villagers destroyed four brothels that ignored the Moslem holy month by entertaining customers, serving liquor and blaring loud rock music, a newspaper reported Tuesday.

The Indonesian Observer said about 750 residents of the village of Sawah, 12 miles outside Jakarta, demolished the brothels with hammers and iron bars following evening prayers Sunday.

The makeshift dwellings were leveled in about 90 minutes after the operators ignored repeated warnings to tone down nocturnal activities during the holy month of Ramadan, the newspaper reported.

No deaths occurred in the incident but some male patrons and female employees were slightly injured in the rush to escape from the tin-roofed buildings being ripped apart by the angry villagers. Damage was estimated at $5,000, the paper said. No arrests were made.

About 85 percent of Indonesia's 178 million people are Moslems, making it

the world's largest Islamic nation.

Millions of Moslems do not take food or liquid from 4:30 a.m. until 6 p.m. each day for the entire fasting month, which began March 28 this year. After the evening meal, mosques are filled to overflow with women covered head to toe by white robes and veils, and men wearing sarong wrap skirts.

#90100u1871 04/10/1990 ~United Press International

CICERO, IN (APRIL 10) UPI - The town of Cicero will rename Tri-Town Park in memory of AIDS victim Ryan White.

White died Sunday at Riley Hospital in Indianapolis from an AIDS-related respiratory infection. He contracted AIDS through blood transfusion. White's family moved to Cicero from Russiaville in 1987.

Spencer Davis, Cicero town council president, said town officials hope to have a plaque or tablet to unveil in time for the May 30 dedication ceremonies at the park on the south side of the town.

Davis said town officials had hoped to rename the park while White was still alive. "This was something we thought might bring him some good cheer," Davis said.

"We've been thinking about this and talking about it for awhile," he said. "We were in hopes Ryan would have another remission period so he would be around for this to happen. But it just didn't work out that way." White was marshal of the town's Fourth of July celebration and parade last year.

Davis said the town is seeking donations to fund improvements to the park. Any surplus funds could be used to create a trust to maintain the park or be donated to AIDS research, he said.

#90100u1877 04/10/1990 ~United Press International

JOHANNESBURG, SOUTH AFRICA (APRIL 10) UPI - The African National Congress Tuesday named a negotiating team for talks with the government next month, and said the delegation will be led by Nelson Mandela and include the Lithuanian-born South African Communist Party chief and a white anti-apartheid cleric.

The ANC also said Mandela, 71, would visit the United States, the Soviet Union, Canada, West Germany, France, the European Community, Egypt, Algeria, Nigeria and Angola prior to July ''subject to agreement with the governments concerned.'' No precise dates were given.

ANC Secretary-General Alfred Nzo announced the composition of the negotiating team following a special session of the ANC's National Executive Committee in Lusaka, where Mandela briefed the exiled ANC leaders on his talks last week with President Frederik de Klerk.

That three-hour meeting put the peace process back on track and secured May 2 for the start of three days of preliminary talks between the ANC and the government aimed at removing obstacles standing in the way of formal power-sharing negotiations.

The original talks scheduled for Tuesday were suspended by the ANC to protest the deaths of 11 anti-government demonstrators in police gunfire in the black township of Sebokeng last month.

The NEC said it welcomed de Klerk's assurances to Mandela that he would ''address as a matter of urgency the issues of state violence against peaceful demonstrations and renewed detention of members of the ANC and the mass democratic movement.''

De Klerk's all-white negotiating team will face a multi-racial ANC delegation composed of seven blacks; two whites - including SACP Secretary-General Joe Slovo and Johannesburg-based church leader Beyers Naude; Ahmed Kathrada of Indian descent; and Cheryl Carolus, a mixed-race ANC leader from the Cape Province.

''To achieve speedy movements towards the abolition of apartheid, it is vital that this meeting achieve the necessary results in terms of removing the obstacles that continue to stand in the way of negotiations,'' the NEC said in a statement.

The obstacles include the ANC's demand for the release of an estimated 300 political prisoners, the lifting of a nearly 4-year-old state of emergency a halt to all political trials and the removal of army troops from black townships.

Five of the ANC negotiating team delegates are in exile and will be returning home for the first time in more than 20 years, including the Lithuanian-born Slovo, ANC Foreign Affairs Director Thabo Mbeki and Nzo.

The commander of the ANC's military wing, Joe Modise, and Mandela's former secretary from his Johannesburg law firm in the 1950s, Ruth Mompati, also will return from exile to participate in the May 2 talks.

The NEC statement, distributed in Lusaka, London and Johannesburg, said the ANC officials expressed ''serious concern'' over the government's failure to establish legislation that would provide safe passage for the ANC exiles.

Mandela told reporters de Klerk had informed the ANC that a bill is being prepared for the South African parliament providing for a ''temporary amnesty.''

''But we have expressed that we would like to have a permanent one,'' Mandela said.

In another development Tuesday, unidentified gunmen ambushed a mini-bus carrying commuters through the black township of Dwengu in strife-torn Natal province at dawn, killing seven passengers and wounding three others police said.

Police said the van stopped to pick up passengers and suddenly was blocked around the corner by a barricade placed across the road. About 22 blacks then opened fire with at three different caliber weapons.

One man was arrested, but police said it was unclear whether the killing was linked upsurge in fighting between supporters of the Zulu movement Inkatha of Mangosuthu Buthelezi and ANC-linked groups that has left an estimated 3,000 dead since 1987.

#90100u1886 04/10/1990 ~United Press International

GENEVA (APRIL 10) UPI - Surging West European air traffic has caused air and airport congestion that is near unmanageable levels, the International Air Transport Association warned Tuesday.

''Congestion already produces unacceptable levels of delay, inconvenience and widespread penalty costs,'' air traffic experts said in a report commissioned by IATA.

''The proportion of flights delayed by more than 15 minutes almost doubled between 1986 and 1989,'' the report said, noting that 24 percent of flights are at least 15 minutes late.

''The cost of these delays to the airlines and the traveling public has been estimated at $1.5 billion annually,'' it said. ''Total loss due to delay, inefficient routings arising from poor route structure and military airspace restrictions ... has been estimated at $5 billion.''

It said commercial aviation in Western Europe provides 2.5 million jobs and represents around $75 billion in annual economic activity - equal to the economies of Greece and Ireland combined.

Passenger growth has jumped 10 percent annually in the past several years and European airlines spend some $5 billion on new planes each year to meet the growing demand.

''To provide supporting infrastructure, governments are annually spending $1.5 billion in capital resources,'' the report said. ''This level of government investment is inadequate to support the present system or to permit significant growth.''

Despite efforts to improve flow management, the report said, the current air traffic system ''will be unable to cope with increases in air travel past 1995.''

''Similarly, without capacity enhancements, travel through at least 10 major European airports will be seriously constrained by insufficient capacity between 1995 and 2000,'' it said.

By the year 2000, annual losses to national economies due to constrained air travel growth will be almost $10 billion, it predicted.

The losses can be avoided, the report said, with ''selected increases in government capital expenditure'' and if there are the ''operating

efficiencies needed to meet public demand for air travel.''

''Sufficient airspace capacity exists to accomodate likely growth to the year 2010 if it is efficiently organized,'' it said. ''Beyond that time, new technologies will be required.''

-30- 2527

#90100u1899 04/10/1990 ~United Press International

WASHINGTON (APRIL 10) UPI - An international airline pilots' group said Tuesday it added seven U.S. airspaces to its "critically deficient" list because of a change in federal rules on the allowable distance between aircraft.

In a news release, the International Federation of Air Line Pilots Associations said it put the seven locations on its Black Star list after the Federal Aviation Administration reduced an air traffic separation standard in those areas.

The locations added to the list are terminal control areas over these airports: Charlotte, N.C.; Cleveland; Dallas-Fort Worth; Los Angeles; Memphis, Tenn.; Philadelphia; and Phoenix. Before the group's decision Monday, the only U.S. Black Star location was Cyril E. King International Airport in St. Thomas, U.S. Virgin Islands.

"Note that this is not a ban or boycott. It simply is an advisory to pilots. The fact that no ban or boycott is involved, however, should not obscure the seriousness of our concerns," said Henry Duffy, president of the Air Line Pilots Association, a member of IFALPA.

"We view the FAA's action as a serious deficiency in our nation's aviation safety structure. We will continue to communicate our views to the FAA and work toward an immediate end to this unacceptable erosion of safety standards," Duffy said.

Because of the change in the FAA standard, controllers in the seven airports need no longer apply "positive separation" of aircraft and many instead apply "conflict resolution," he said.

"In other words, instead of maintaining a three-mile separation, the controller can now let aircraft get as close as he wants, as long as in his judgment they will not collide," Duffy said.

The FAA said the change was a test of new procedures that have been in place for two years without any trouble. "It is a test and has been going on for quite some time, and we have had no accidents nor any indications of hazardous situations," FAA spokesman Fred Farrar said. Farrar said identical separation standards have been in place for 125 smaller control

areas for six years without any safety problems.

#90100u1927 04/10/1990 ~United Press International

FORT WORTH, TX (APRIL 10) UPI - TNP Enterprises Inc. said Tuesday the decline in the price of its common stock in recent days may have been caused by uncertainty over the two power plants the company has under construction.

A spokesman said that uncertainty over the generating plants might have heightened following sell recommendations issued by two brokerage firms. Other than that, the parent company of Texas-New Mexico Power Co. said it knows of no other development contributing to the price decline, which occurred on Friday and Monday.

Volume in TNP stock on the New York Stock Exchange continued Tuesday to be extremely heavy, but the price had stabilized by midafternoon at $16.75 a share, up 50 cents on the day.

TNP has some eight million common shares outstanding. Typically, trading volume average about 50,000 shares a week. "It has always been thinly traded, nowhere near the volume of the past few days," said spokesman M.N. Davies.

TNP is building two 150-megawatt power plants in Robertson County,Texas, at a cost of about $600 million. The plants, designed to burn lignite, coal and natural gas, have not received official building permits from the Texas Public Utility Commission.

A state court in February ruled that a previous PUC order granting permits for the two units was not final because of certain conditions to the order relating to building them so they can burn both lignite and coal.

TNP said it has complied with the condition and has asked for court and PUC confirmation of the permits. The PUC will hold a workshop on Friday for all involved parties.

MOSCOW (APRIL 10) UPI - Britain and the Soviet Union signed an agreement Tuesday calling for prompt notification of nuclear accidents and exchanges of information about the use and control of nuclear installations.

The Soviet Union was criticized for its delay in notifying other countries of the 1986 Chernobyl accident, which was detected by Western monitors long before any Soviet announcement.

The official Soviet news agency Tass said the agreement signed Tuesday provides for ''prompt notification'' about nuclear accidents in the two countries, but did not give details.

The agreement came on the first of three days of talks between British Foreign Secretary Douglas Hurd and Soviet Foreign Minister Eduard Shevardnadze.

Hurd later met with Soviet leader Mikhail Gorbachev, who told him relations with Britain ''are progressing in principle, which makes it possible to find new possibilities for discussing various problems,'' Tass said.

Before the official talks began Tuesday, Hurd and Shevardnadze held a private 40-minute conversation.

The talks started with a discussion of European security issues at Hurd's suggestion, Tass said. Specific topics to be covered included the unification of Germany and disarmament.

In addition to the agreement on notification of nuclear accidents, the two sides also signed a pact on cooperation in culture, education, and science.

#90100u1973 04/10/1990 ~United Press International
WARSAW, POLAND (APRIL 10) UPI - Solidarity leader Lech Walesa said Tuesday he will run for president in the next elections, the Polish news agency PAP said.

''I confirm,'' Walesa told PAP in a telephone conversation from Gdansk regarding an interview in the newspaper Zycie Warszawy with Solidarity Sen. Jaroslaw Kaczynski, who said Walesa would run.

President Wojciech Jaruzelski, the former Communist Party leader, was narrowly elected to a six-year term by Parliament on July 19, 1989.

A parliamentary spokesman said a new election for president would be held only if the current president resigned, died or if he faced charges brought by the Parliament.

However, it is widely expected the current Parliament may not serve out its term. In that case, the political arena could be expected to change dramatically - and could lead to Jaruzelski's resignation.

''The Kaczynskis have done me an ill turn,'' Walesa told PAP, referring to both the senator and the senator's brother Lech, another prominent Solidarity activist. ''They said it too early and I may lose due to that. Well, we have freedom of the press. I confirm.''

Walesa said there are ''many clever and worthwhile people in the government.''

''We must, however, speed up the pace of reforms and eliminate old arrangements,'' he said.

The announcement came on the eve of Jaruzelski's official visit to the Soviet Union. The four-day trip will be particularly significant because Moscow is expected to admit culpability for the murder of thousands of Polish officers in the forest of Katyn during World War II. The issue has been the main irritant in Soviet-Polish relations for four decades.

The timing of Walesa's announcement was seen by some political observers as an attempt to diminish the political capital Jaruzelski would gain from the visit.

Earlier, Walesa led some 2,000 workers on the first protest rally against Solidarity Prime Minister Tadeusz Mazowiecki, charging him with implementing economic reforms too slowly.

Walesa toyed with the idea of running for both president and prime minister as Solidarity was setting up its government last year, but then took himself out of the running, preferring a behind-the-scenes role. However, his influence on Mazowiecki, his former adviser, has been waning in recent months as the latter's own popularity has grown.

The Solidarity leader is also known to be somewhat envious of the international attention gained by his Czechoslovak counterpart, Vaclav

Havel, since he was inaugurated as president last December following that country's peaceful revolution. ''Mr. Prime Minister, I was right saying that it (the pace of reforms) has lasted too long,'' Walesa said during the rally at which workers drew up a statement calling for the firing of directors who are impeding progress.

Walesa on March 31 had warned Mazowiecki of a possible shipyard workers' strike, but last week reversed himself, saying the threat was only a ''slip of tongue.''

Solidarity sources said the workers in the historic Gdansk shiyard, where the East bloc's first independent labor movement was born in 1980, are disgruntled over wage increases that are not coming as quickly as in other sectors of the economy.

Walesa expressed his bitterness at the pace of events in the shipyard, where there have been no immediate benefit from the government's economic stabilization plan.

He drew an ovation when he said shipyard workers struggled for the rights of all of Poland during a bloody revolt in 1970 and in 1980, and now they were rewarded with nothing.

''This yard fought for the whole country and thanks to it the tranformations in the country were initiated ,'' he said. ''May Poland understand that we struggled for everybody and we got nothing for it.''

The protest took place as favorable economic figures were released showing that for the first time since the economic stabilization program was put into effect Jan. 1, wage increases were higher than price increases in March.

Exports to the West grew by 32 percent in the first quarter of 1990 compared with a year earlier, bringing more badly needed hard currency for Poland's painful reforms.

PARIS (APRIL 10) UPI - The Church of England has asked Libya to help it secure the release of British hostage Terry Waite, the Libyan ambassador to the United Nations said Tuesday.

Waite has been held hostage in Lebanon since January 1987, when he was captured while on a mission for the archbishop of Canterbury to try to free Western hostages being held in Beirut.

''The British church contacted us so we can help in the liberation of Terry Waite,'' Ambassador Ali Triki told a French radio station. ''We have made some contacts and we hope that those who hold the hostages will accept this appeal and free all the hostages.''

He said Libya had used its contacts with certain Palestinians to help free three European hostages that were released Tuesday.

CAMBRIDGE, MA (APRIL 10) UPI - Dozens of Harvard Law School students occupied the dean's office overnight in the second sit-in in less than a week, and students said Tuesday they would continue to protest the lack of women and minority professors.

About 70 students remained overnight in Dean Robert Clark's office, but left without incident at 8:30 a.m. Tuesday after restating their concerns in a letter to the dean, officials said.

In the letter, the students asked that they be allowed to explain their position at a routine faculty meeting scheduled for Wednesday, officials said. A spokesman for Clark said the dean would give an answer to the request late Tuesday afternoon.

Some 200 students, organized by the Harvard Law School Coalition for Civil Rights, held a rally outside Harkness Commons at about noon Monday before about 60 of the demonstrators moved into the reception area of Dean Robert Clark's office about 1:30 p.m. By midnight, organizers said there were at least 70 protesters inside occupying two floors of the building.

Campus police blocked the doors Monday night to prevent other protesters from entering, but made no move to end the occupation and said the students would be allowed to stay until Tuesday.

The demonstration, which followed a 20-hour sit-in last Thursday and Friday, was sparked by a letter Clark sent the students Monday morning, in which students charged he did not agree to hire more women and minorities.

Clark promised in his letter to ''make certain that all members of the Appointments Committee are made aware'' of the protesters' demands and said the panel was ''already taking the issue of diversity very seriously.''

He also agreed to meet with the protesters later this week, but criticized the sit-ins, saying they are not ''the most effective way to encourage progress.''

Five of the 60 full professors on the school's faculty are women and three are black men, school officials said.

By contrast, 22 percent of the school's 1,650 students are from minority groups and 40 percent are women.

TORONTO (APRIL 10) UPI - Blending business with baseball, President Bush held a Skydome summit Tuesday with Canadian Prime Minister Brian Mulroney to review East-West relations.

America's national pastime, played under the lights in Canada's largest city, provided an unusual backdrop for talks on superpower relations and where their countries' interests will fit into the new political map of Europe.

Though such issues as acid rain and trade also were on the agenda, the absence of major bilateral disputes and a watch-and-wait attitude toward events in Europe removed any sense of urgency or drama from the leaders' meeting.

Without the previous sources of contention, Bush and Mulroney focused on events abroad in the aftermath of high-level superpower talks last week in Washington that ended with what both sides called a disappointing lack of progress on arms control.

Bush, however, told reporters before leaving Washington that he did not share that disappointment. While recognizing that ''there's an awful lot to be done,'' he remained hopeful the scheduling of a May 30-June 3 summit will drive the two sides toward agreements he and Mikhail Gorbachev want

completed at least in principle.

''This obviously will serve as a bit of a catalyst or goal in getting things done,'' Bush said. ''But I don't want to over-promise and suggest that we're going to have all the details worked out by the time of the summit.''

Bush again urged ''peaceful resolution'' of the crisis in Lithuania, which looms as a potential complication for the summit, and said the Soviets have heard ''loud and clear'' the U.S. message that the use of force would only ''set back relations.''

Official denials aside, sports provided a convenient excuse for substance.

Bush, captain of his team at Yale, had made no secret of his desire to mark the delayed start of baseball season. The byproduct was an opportunity to brief Mulroney on talks last week with Soviet Foreign Minister Eduard Shevardnadze and plans for the summit.

Accompanied by Baseball Commissioner Fay Vincent, Bush said the game between the Toronto Blue Jays and the Texas Rangers ''seemed a wonderful'' time to meet with Mulroney.

Bloodlines, if not nationalism, left little doubt about where their loyalties fell. Bush's son, George W., is a part-owner of the Rangers.

Held in the $452 million Skydome, the world's only fully retractable domed stadium, the meeting still was one for the record books. In joining Mulroney to throw out a first pitch to a season that opened Monday, Bush, opting for a slider, became the first American president to carry out that ceremonial rite of spring outside the United States.

For Bush, the Skydome summit fit a familiar pattern of frequent consultations with allied leaders, the pace of which has quickened since spinoffs from the Soviet orbit have left the future makeup and mission of NATO somewhat in doubt.

The prospect of a unified Germany, taking a place of dominance in an emerging all-European common market, has raised questions about future relationship between the North American neighbors and their European allies.

Linked to Western Europe for 45 years by common security interests and ideals, a sharply diminished threat of war and the collapse of communism in Eastern Europe are spurring discussion of how the United States and Canada will retain their stake in Europe's future.

That was among the many questions for which Bush and Mulroney, in the

words of Canadian Ambassador Derek Burney, had ''no magic answers'' as they met among the skyboxes and concession stands of the 50,516-capacity Skydome.

It also is among the concerns that will remain on the agenda as Bush moves his diplomatic roadshow from the sports arena of chilly Toronto to the sandy beaches of the balmy Atlantic for talks this weekend in Bermuda with British Prime Minister Margaret Thatcher and next week in the Florida Keys with French President Francois Mitterrand.

(APRIL 10) UPI - Fire officials in Louisiana say six children died early this morning in a fire that swept through a mobile home in Larose. The father and mother and two other children survived the fire. Both parents were injured trying to rescue the children, who ranged in age from nine months to 12 years. The family had just set up their trailer in the park yesterday.

Four prison guards were injured today at Strangeways Prison in Manchester, England, during an inmate uprising that's now in its 10th day. The guards were injured when prisoners threw debris at them as they tried to clear wreckage from the inmates' takeover. One prisoner has died in the protest against conditions. Sympathy uprisings were put down yesterday at eight other jails.

#90100u2095 04/10/1990 ~United Press International
LOS ANGELES (APRIL 10) UPI - Walt Disney Co., defending its controversial policy of prohibiting advertisements on theater screens showing Disney movies, released a study Tuesday showing that nearly 90 percent of

filmgoers support the ban.

''The policy we've adopted appears to be on the side of the customers,'' said Jeffrey Katzenberg, chairman of Walt Disney Studios. ''Our customers have spoken clearly and we should be listening.''

The study commissioned by Disney sampled 18,772 moviegoers on Mar. 31 in 10 areas across the country. Of 17,664 respondents, 15,838 - or 89.7 percent - said they did not like to see films preceded by product commercials.

Disney told its exhibitors in February that it would initiate a no-commercials policy beginning with the release of ''Pretty Woman'' in March. Theater chains that did not comply faced being denied further Disney releases.

Disney said the same study, conducted by The National Research Group, found 95 percent of moviegoers favored seeing clips of coming attractions before feature films. Coming attractions are not included in the ban.

''One has to wonder why advertisers would want to show commercials and have people boo them,'' Katzenberg told a news conference. ''We just sensed that there were too many commercials and people were getting annoyed by it.''

Katzenberg said that Disney commissioned the study in response to criticism that the ban was not based on actual research.

He also said that although theater chains have complied with the ban, the move has been attacked by advertisers and industry observers on the grounds it was ''high-handed'' and ''dictatorial.''

''In the long run, our policy will help the exhibitors make money because they won't lose customers,'' said Richard Frank, president of the studio.

But Disney is the only major studio that has instituted such a ban, and other studios are not likely to follow suit, according to Alex Ben Block, editor of Show Biz News.

''It's a good public-relations ploy, but I don't really think that people are going to decide to see a movie just because there aren't any commercials with it,'' Block said.

Disney does not own movie theaters, while several competititors - Paramount, Warner Bros. and MCA's Universal - all have some kind of ownership, so the impact of banning ads is far less for Disney, Block noted.

He also said that Disney's move has come at a time when MCA is starting a heavy promotion of its new movie studio theme park in Orlando, Fla., which will compete directly with Disney's MGM Studios park, which opened last year. Also, Disney and the Cineplex Odeon theater chain, in which MCA is a major stockholder, have a history of disputes, Block noted.

''So Disney is able to present itself as a company that cares about family entertainment, while at the same time pursuing a hidden agenda,'' Block said.

Frank denied the ban is aimed at MCA. ''That was never a consideration,'' he said.

Katzenberg also responded to criticism that Disney's stance on commercials has been compromised through its taking payments for products used in its movies.

''We think product placement should be dictated by creativity, not commercial considerations,'' he said, adding that Disney will not accept payment for product placement of tobacco and alcohol.

WASHINGTON (APRIL 10) UPI - There were 105,265 cases of worker exposure to radiation at U.S. nuclear power plants in 1988, the highest number of incidents ever in one year, an anti-nuclear group reported Tuesday.

Public Citizen, a group created by consumer activist Ralph Nader, said its review of federal documents showed workers at the nation's 107 commercial nuclear plants were exposed to 41,077 person-rems of radiation, a dose the group estimated as equivalent to 2 million chest X-rays.

The group said the average worker received a dose of about 390 millirem, roughly equal to 20 chest X-rays. There are 1,000 millirem in a rem.

More than 12,000 workers in 1988 received at least one person-rem of radiation, a dose equivalent to 50 chest X-rays.

Public Citizen said its review of Nuclear Regulatory Commission records for 1988, the most recent year available, showed the total number of worker radiation exposure incidents has increased 31 percent since 1980, when there were 80,389 reported cases.

''The problem of radiation exposure at commercial nuclear power plants has continued unabated for more than three decades,'' Public Citizen said in its report, ''Glowing on the Job: Worker Exposure to Radiation at Nuclear Power Plants.''

Th group said the large number of worker exposure incidents ''represents one of the ongoing, but hidden costs of nuclear power.''

Public Citizen called on the NRC to lower its regulatory limits for radiation exposure in the nuclear industry, which prohibits any plant worker from receiving more than 3 rem every three months or 5 rem every year.

Nuclear industry officials criticized the Public Citizen report as distorted, saying the group only publicized those statistics that fit

their biases.

''Public Citizen has proven once again that they don't let the facts stand in the way of their determined anti-nuclear diatribe,'' said the U.S. Council for Energy Awareness, the nuclear industry's trade association.

The council said the total number of worker exposure incidents has increased over the past decade because more nuclear plants have begun operation.

But it said the number of workers per plant exposed to radiation has declined 22 percent in the period 1984 through 1988.

The council also noted that the average worker dose of 390 millirem cited by Public Citizen was just slightly higher than the 360 millirem dose absorbed by the average American over a year from natural radiation sources such as radon gas and cosmic rays. The 360 millirem figure was calculated by the National Academy of Sciences in a December 1989 report.

NRC officials said their statistics also showed a decline in worker exposure at nuclear plants, with the collective dose to workers at the average plant falling from 714 person-rem in 1984 to 398 person-rem in 1988.

Of individual plants, the Pilgrim plant in Plymouth, Mass., had the highest number of worker exposures from 1980 to 1988, recording 27,701 incidents, almost three times the industry average of 10,271 per reactor.

Other reactors with the worst track records over that eight-year period were Oyster Creek in Forked River, N.J., which had 20,486 worker contamination incidents, and San Onofre, San Clemente, Calif., 20,472.

For 1988, Oyster Creek had the largest number of incidents, with 2,875, followed by Nine Mile Point Unit 1, Scriba, N.Y., 2,626; Peach Bottom Units 2 and 3, Peach Bottom, Pa., 2,102 each; and Pilgrim, 2,073.

In contrast, the average number of contamination incidents per reactor in 1988 was 983.

Here are the 20 plants identified by Public Citizen as having the poorest overall worker exposure records, with the worst plants first:

Oyster Creek; Nine Mile Point Unit 1; Peach Bottom Units 2 and 3; Surry Units 1 and 2, Gravel Neck, Va.; Fitzpatrick, Scriba, N.Y.: Palisades, South Haven, Mich.; LaSalle Units 1 and 2, Seneca, Ill.; Robinson Unit 2, Hartsville, S.C.; Brunswick Units 1 and 2, Southport, N.C.; Hatch Units 1 and 2, Baxley, Ga.; Maine Yankee, Wicasset, Maine; Dresden Units 2 and 3, Morris, Ill.; Arkansas Units 1 and 2, Russellville, Ark.

#90100u2156 04/10/1990 ~United Press International
MOSCOW (APRIL 10) UPI - With the Soviet budget spiraling out of control, President Mikhail Gorbachev said Tuesday two top government councils will meet this weekend to work on speeding up radical economic reforms expected to include sharp price increases.

Last week, the Izvestia government newspaper revealed that national income declined for the first two months of 1990 by up to two percent - the first negative growth registered in Soviet history - while money supply increased by 15 percent.

The budget deficit last year was $192 billion, and other figures released recently showed that the government in 1988 printed twice as much money as in 1987 with no corresponding increase in goods and services that were available.

Because the ruble is not convertible, the budget deficit cannot be financed by foreigners buying into the economy, as in the United States. Similarly, the absence of a money market of stocks and bonds means the deficit cannot be financed internally.

Gorbachev told delegates to a congress of the Young Communist League Tuesday he wanted to speed up reforms to "improve the situation which poisons the whole atmosphere of public life and unsettles people." Reforms designed to eventually improve the consumer market, however, are expected in the short run to be felt in drastically higher prices.

Newspapers all this month have spoken of an impending "shock therapy" to halt the printing presses and the hemorrhaging of worthless rubles to cover the budget deficit.

"Unprofitable enterprises will be closed and unemployment will increase fast," the official news agency Tass said last week. "It is unclear whether the population will reconcile itself to such a shock therapy."

Gorbachev said his presidential council of advisers and the federation council of representatives from the nation's republics will meet Saturday to look into speeding up the reforms.

"The situation allows us to predict that these will be very difficult, but necessary, decisions," he said. "We shall need the national agreement on this question."

"The president and the presidential council intend to adopt an early package of measures to give fresh impulse to economic transformations," he

said.

He did not spell out exactly what measures would be taken besides saying "the basic steps initially planned for 1992 and 1993 should be taken instead this year and early next year." Those are the years vast price hikes were planned.

Gorbachev said he expected some opposition, at one point switching from Russian to use a Spanish battle cry to make his point. "It is a paradox," he said. "At one time we are criticizing the slow speed of the reform, indecisiveness, and half-measures, and call for their speeding up. Then, without learning about the suggestions for speeding up, we cry with enthusiasm, 'No Pasaran,"' which means "They will not pass."

In addition, a total overhaul is being planned to bring prices into line with costs of production. Rents in the Soviet Union, averaging about $18 a month, have not been raised since 1928. Bread, sugar and egg prices are the same as in 1954 and meat in state stores costs $1.50 a pound, the same price as in 1964.

Food subsidies alone account for 15 percent of the Soviet budget but, beyond the losses to the governnment in subsides, the lack of a true price structure stymies any reforms to make state enterprises self-supporting and ease the move to a market economy. At present, failing state enterprises - 13 percent of the total - are bailed out by the government in form of credits.

"Today, the budget deficit has reached almost ten percent of the gross national product," the Economic Life newspaper reported. "We have lived not according to our means. For 1986-88, the revenues of the state budget grew only 6.3 billion rubles and its expenditures increased by 73 billion."

Gorbachev's chief economic advisers, and the minister in charge of economic reform, Leonid Abalkin, have said that the chief obstacle to radical price increases are the 40 million people living below the mininum living wage, defined as from 100 to 120 rubles a month, or the equivalent of $160 to $192.

#90100u2175 04/10/1990 ~United Press International

MOSCOW (APRIL 11) UPI - The Communist Party Central Committee said in a letter to party members Tuesday there is danger of a split in the party and suggested a consolidation to eliminate some dissenters.

The letter, read on the evening television news show ''Vremya,'' took a tough tone in criticizing dissident party members.

''Many communists and party organizations express serious concern about the fact that some party members are making insistent attempts to divert discussions from a constructive path into the path of factional struggle, and thus provoke a split in the party,'' the official Tass news agency said.

''Such attempts must be assessed, and party ranks should be consolidated.''

Soviet President Mikhail Gorbachev, asked about the possibility of a split in the party by delegates to a Young Communist League congress, said some members might leave but the leadership was hoping to avoid a rift.

''The party is now being purified,'' Gorbachev said, according to an account of the meeting carried by Tass. ''Discussion before the 28th Party Congress and the results of the Congress will open prospects for the consolidation of party forces around the CPSU platform, perhaps creating the opportunity to avoid a split.''

The possibility of a split in the Soviet Communist Party and the suggestions of a possible purge of dissident members came in the aftermath of a split of the Lithuanian Communist Party into two branches, one loyal to Moscow and the other favoring independence, as well as rifts in other local party organizations.

CAIRO, EGYPT (APRIL 11) UPI - Police arrested a 38-year-old porter for selling his son to buy a video cassette recorder, the semi-official Cairo daily Al Ahram reported in early Wednesday editions.

The daily said Mohammed el Mahdi Essa sold his 3-year-old son Mahmoud to a plainclothes detective for $700 to buy the recorder. Essa has two other children and earned $30 a month.

''I have never stolen in my life, so the only solution to get extra cash seemed to be to sell my son,'' Essa told police.

WASHINGTON (APRIL 10) UPI - The Department of Veterans Affairs - the nation's largest single employer of registered nurses - urged Congress Tuesday to pass legislation intended to make salaries for VA nurses more competitive.

Under a proposed bill drafted by his agency, VA Secretary Edward J. Derwinski said the current pay system would be changed to improve local salary adjustments and add pay incentives for nursing supervisors.

Currently, the 35,000 registered nurses employed at VA hospitals, clinics and nursing homes are paid according to a national scale, which provides some additional pay in certain locations. But even with the extra pay, VA nurses' salaries sometimes lagged behind nurses' pay at other hospitals, Derwinski said.

Derwinski said the proposed bill should make VA salary rates more competitive and improve its ability to recruit and retain nurses, particularly in regions where nurses are in short supply.

The proposal includes:

-Using federal data on nurses' pay at non-VA hospitals to establish ''community rates,'' and paying nurses those rates if they exceed the VA's national scale.

-Lifting pay limits for certain nursing executives.

-Premium pay increases of 6 percent for head nurses.

-Emergency authority to re-employ retired VA nurses on a temporary or fee basis with no reduction in their retirement payments.

(APRIL 10) UPI - An astronomer working on the Hubble Space Telescope project summed up today's launch delay by saying- ''The universe is 15-BILLION years old. What's a few more days?'' The planned launch of the shuttle Discovery to put the telescope into orbit was scrubbed this morning because of a problem with the shuttle's hydraulic steering unit. The lift-off has been set back until at least Thursday morning, but sources who requested anonymity said engineers recommended replacing a suspect hydraulic power unit, which would delay blast-off a week or more.

The Polish news agency says Solidarity leader Lech Walesa has confirmed that he will challenge Polish President Wojciech Jaruzelski in the nation's next elections. A parliamentary spokesman said a new election will be held only if the current president resigns, dies or faces charges by the Parliament. However, it's expected that the current Parliament may NOT serve out its term. In that case, the political arena would change dramatically, and could lead to Jaruzelski's resignation.

Voters in Texas are choosing whether Attorney General Jim Mattox or Treasurer Ann Richards will run against Republican Clayton Williams in November's gubernatorial election. The Democratic run-off race has been marked by charges of illegal drug use in years past against both

candidates. Mattox today told a Houston radio station that he wished the campaign had been carried out on a higher plane.

ANALYSIS BY JOAN HANAUER

NEW YORK (APRIL 10) UPI - Shrimpers in Texas and the upwardly mobile in Manhattan are the basis of NBC's latest sitcoms, and the only thing these wildly different series have in common is that each focuses on a woman.

As the song says, make mine Manhattan.

''Down Home,'' to debut on NBC Thursday, Apr. 12, 10:30-11 p.m. Eastern time, takes place in Hadley Cove, a small fishing village on the Texas Gulf Coast, where the folks are just too folksy for words and speak with more twangs than an accoustical guitar.

''How's the fishing treatin' you?'' a local character named Grover is asked and he replies, ''A little better than the missus - they ain't bitin'.''

The shrimpsboats are a-comin' to dock at McCrorey Landing, where Dakin Matthews owns the dock and runs a combination cafe and convenience store with the help of his son, Eric Alan Kramer, who is good-natured but almost as muscle-bound between the ears as around the biceps. Also helping out is a partially Americanized teenage Vietnamese refugee.

Judith Ivey comes home for a visit, back from her successful New York career as a management consultant. The home folks are unimpressed until they learn she has a wet bar in her office.

She discovers her father's business has been in a three-year seasonal slump. He is about to sell out to her old boyfriend, Ray Baker, who is fronting for developers who want to put up resort hotels, condos, mini-malls and a theme park. When she turned him down and left town 15 years earlier, he went to Houston to work, trading in his pickup truck for a BMW.

She decides to stay and help keep the family home from being Disney-ized - although it is never clear why her sticking around would make any difference. All she seems to do is sweep up and - in the second episode - catch a very big fish. ''You could put a saddle on it,'' she says.

''Down Home'' presents a cartoon kind of comedy, and the cast of local characters are two-dimensional stick figures. There may be a place on television for these folksy types, but ''Down Home'' just makes you want to leave home.

The show gets its first airing on Thursday night, after a special, extra showing of ''Cheers,'' then moves to its regular time period on Saturday, Apr. 14, 10:30-11 p.m. Eastern time, teaming up with ''Carol & Company'' in the time period vacated by ''Hunter,'' which goes to Monday night.

''Working Girl'' is a sitcom that asks the question - What's a nice girl like Tess McGill from the secretarial pool doing out among the corporate sharks at Trask Industries?

She's getting ahead, that's what.

''Working Girl,'' the TV series, airs on NBC, premiering Monday, Apr. 16, 8:30-9 p.m. Eastern time, and it takes up where the movie left off.

Tess, played with verve and charm by Sandra Bullock, comes from a blue collar family on Staten Island, New York City's fifth borough and the home of many of its cops and firemen.

Her father runs a convenience-grocery store, but she wants to succeed among the towers of Manhattan.

In the first episode, her sour boss is going on vacation and so she must assume extra duties - picking up the cleaning, washing the car and taking care of Patches, the shaggy dog.

''Gee, I got off lucky this time,'' she tells her buddy, Lana, a secretary more resigned to the secretarial pool. ''Usually he asks me to carry his luggage.''

Personnel sends her to help out in marketing, where an immaculately groomed blond holds sway in a swank office with white leather-upholstered furniture. She's Bryn Newhouse (Nana Vistor), who thinks secretaries are office machines, not people.

Bryn tells Tess to set up interviews and test assignments for candidates to fill a junior executive position. When she decides to add herself to the list, her mother encourages her but her father does not.

A. J. Trask (Tom O'Rourke), the self-made head of Trask Industries, unwittingly maneuvers Bryn into giving Tess the job and the series is off and running - and so is Tess.

''Working Girl'' is a pleasant show, thanks in large part to Bullock's fresh and winning performance. The show breaks no new ground, but it covers some familiar territory pleasantly.

#90100u2274 04/10/1990 ~United Press International

NEW YORK (APRIL 10) UPI - The stock market closed mixed Tuesday with the Passover holiday keeping trading very light, but technology issues rallied after a favorable earnings report from Motorola.

The Dow Jones industrial average, which rose 4.95 Monday, gained 9.01 to close at 2731.08.

Among broader market gauges, the New York Stock Exchange composite index added 0.28 to 187.63 and Standard & Poor's 500-stock index rose 0.70 to 342.07. The price of an average share gained five cents.

Declines narrowly led advances 730-727 among the 1,963 issues crossing the NYSE tape. Big Board volume was 136,020,000 shares, compared with 114,970,000 shares traded Monday.

The market chalked off another quiet day in what was expected to be a low-keyweek before the Good Friday holiday, when the market will be closed. Many players were out of the market Tuesday to observe the Passover holiday.

While prices closed mixed with gains clustered in the blue chips, the main feature of trading was a rally in technology issues sparked by a first-quarter earnings report from Motorola that was at the high end of analysts' estimates. The company posted earnings of 98 cents a share compared with 95 cents a year earlier.

Also bolstering stocks late in the session, analysts said, was apparently adequate demand for the $3.5 billion in 40-year bonds sold by the Resolution Funding Corp., the federal agency funding the savings and loan bailout. The agency said the yield on the bonds was 8.89 percent. The news boosted bond prices, analysts said, which were up as much as a 1/4 point in afternoon trading.

"The 40-year offering went reasonably well, which bolstered stocks," said A.C. Moore, director of research at Argus Research Corp. "But while the Dow moved up, the market's breadth was poor and momentum is not good."

Moore said that at these levels, stocks are as expensive as they've been in the last few years relative to interest rates and earnings. "Earnings have to go up or rates have to come down. We had a firming trend in the bond market today," he said, adding that he thought that was the major reason for the strength in the blue chips. "We're in a holding pattern," he said. "The market's looking for a stimulus." On the trading floor.

Ames Department Stores was the most active issue, sinking 3/4 to 2 1/2. Late reports Monday said the company, hurt by the results of its Zayre stores, expects a 1990 loss of $228 million after a special charge against earnings and plans to close 74 stores.

Telecom USA followed, off 1/8 to 38 after agreeing Monday to be acquired by MCI Communications. TJX Cos. was third, tumbling one to 15 1/8 amid concerns that its holdings of Ames' stock may not be worth face value. In 1988, TJX, then called Zayre Corp., sold the Zayre discount department store division to Ames for a combination of cash and stock.

Among the blue chips, AT&T lost 1/4 to 41 7/8, IBM gained 1/2 to 105 7/8 in connection with strength in the technology sector, Philip Morris added 1/4 to 42 1/4, American Express rose 5/8 to 27 3/8, Merck gained 5/8 to 74, and Coca-Cola jumped one to 80 1/4.

Other technology issues rallied. Motorola surged 4 1/4 to 68 1/2, Digital Equipment climbed 1 7/8 to 81 7/8, Compaq jumped 2 1/8 to 96 1/2, Texas Instruments moved up 2 1/8 to 37 1/2, and Hewlett-Packard tacked on 1 3/8 to 45 1/8.

General Development lost 1/8 to 1 3/4 after laying off 239 additional employees at four of its Florida communities. Also, a bankruptcy judge Monday rejected the company's request to post all its assets as collateral and borrow $10.5 million.

Volume of NYSE-listed issues, including trades in stocks on regional exchanges and in the over-the-counter market, totaled 163,853,000 shares, compared with 143,583,820 shares traded in the previous session.

Prices closed slightly lower in moderate trading on the American Stock Exchange. The Amex Market Value index fell 0.16 to close at 359.52. Declines led advances 298-283 among the 826 issues traded. The price of an average share lost one cent. Composite volume totaled 13,389,000 shares, compared with 14,440,600 shares traded Monday. Hillhaven led the Amex issues, up 1/8 to 1 1/8.

The National Association of Securities Dealers composite index added 1.72 to 431.90.

#90100u2299 04/10/1990 ~United Press International

WASHINGTON (APRIL 10) UPI - Charles Keating, former chairman of the failed Lincoln Savings and Loan Association, testified Tuesday that there would have been no losses to taxpayers had the government not taken control of the thrift.

Federal regulators, who seized the Irvine, Calif., thrift last April, have said protecting Lincoln's depositors from losses could cost taxpayers as much as $2.5 billion.

The former thrift executive said regulators seized Lincoln when "we were just getting started" to market the thrift's real estate assets. "We were just getting these properties ready to go to market ... To take raw land to being fully zoned takes time," Keating said during his second day of testimony at a pretrial hearing on a government motion seeking to dismiss a lawsuit Keating filed in May seeking to regain control of Lincoln. "Given a five-year workout period, there wouldn't need to be a loss at Lincoln," he said.

The thrift, formerly owned by Keating's Phoenix-based American Continental Corp., was seized by regulators after it was found to be virtually insolvent operating in an "unsafe and unsound" manner.

Federal regulators have filed a $1 billion fraud and racketeering lawsuit against Keating and other American Contintenal executives involved in Lincoln's failure.

"I don't think today the U.S. taxpayer need take the hit," Keating said. "What they need is competent leadership and a new (regulatory) structure and they'd be spared the expense."

Keating also criticized the government's management of Lincoln's assets, namely the luxurious Phoenician resort in the desert outside of Phoenix. Regulators ousted Keating from control of the resort last September.

Keating said Lincoln invested $275 million in the resort and recouped $170 million from the sale of a 45 percent stake to a Kuwaiti investment group. Keating valued the property at a minimum of $350 million.

The government is shopping the Phoenician around with a fair market value of $99 million. "That's sick," he said. "It hurts me that this asset could be sold at this price."

Keating said the Resolution Trust Corp., the government agency responsible for selling the assets of failed thrifts, is not getting the best price for the assets it sells, which in turn adds to the cost to taxpayers of bailing out the thrift industry.

James Murphy, an attorney representing the Office of Thrift Supervision, defended the government's writedown of Lincoln's assets, including the resort near Phoenix.

"It was done in a systematic way," Murphy said outside the courtroom. "We don't look at what might happen in ten years. We look at the assets today."

Murphy said he would call a witness from the Federal Deposit Insurance Corp. to verify the accuracy of the writedowns.

Keating denied Lincoln was insolvent when it was taken over by regulators and maintained that the thrift he acquired in 1984 for $50 million was worth between $500 million and $700 million when it was seized.

Keating testified that Lincoln was not financially healthy when he acquired it, but began posting improved profits under his command to increase direct investments and diversify its investment strategy.

Lincoln posted earnings of $17 million in 1984, Keating said, followed by earnings of $100 million in 1985, $82 million in 1986, $63 million in 1987 and a loss of $24 million in 1988. He attributed the loss to adverse publicity and his constant struggle with federal regulators.

#90100u2319 04/10/1990 ~United Press International

PITTSBURGH (APRIL 10) UPI - The Pittsburgh Pirates Tuesday traded catcher Joe Szekely to the Toronto Blue Jays for outfielder Brian Morrison.

Morrison, 23, has been assigned to the Pirates' extended spring training program.

Last season, Morrison hit .243 with 15 home runs and 52 RBI in 117 games with Dunedin of the Florida State League. Morrison was the Blue Jays' ninth-round selection in the June 1984 free agent draft.

Szekely, signed by the Pirates as a six-year minor league free agent last November, appeared in two games for the Pirates' Buffalo AAA farm club this season, going 0 for 4 with an RBI. He has been assigned to Toronto's Syracuse AAA farm club.

In other minor league transactions, the Pirates placed infielder Rico Rossy of Buffalo on the seven-day disabled list with a jammed left thumb. Shortstop Jeff Richardson was assigned to take his spot on the Bisons' roster.

#90100u2369 04/10/1990 ~United Press International

(APRIL 10) UPI - U.S. crude oil prices plunged to their lowest level in 14 months Tuesday as excess supplies drove prices down another 76 cents a barrel, bringing their six-day drop to $2.85 a barrel, or 13.8 percent.

Unleaded gasoline fell nearly 3 cents a gallon, bringing its six-day Merc decline to 7.65 cents a gallon, and foreign crudes dove nearly a $1 a barrel on the European cash market.

Prospects for a rescue from rising refinery demand also appeared to dim with a narrowing of the ''crack spread'' between the price of gasoline and the crude from which it is made, giving refiners less incentive to make gasoline.

Two major U.S. oil companies - Sun Co., of Radnor, Pa., and the Marathon Oil subsidiary of USX Corp. in Findlay, Ohio - also cut their wellhead crude price by $1 to $16.50 a barrel for the U.S. benchmark West Texas Intermediate crude, its lowest price since Feb. 10, 1989.

On the New York Mercantile Exchange, WTI for May delivery plummeted 76 cents to $17.68 a barrel, the lowest price since the $17.42 closing of Feb. 14, 1989, the Merc said.

Over the last six Merc sessions, WTI has dropped $2.85 a barrel, or 13.8 percent.

Tuesday's price-killing juggernaut wiped out the psychologically important $18-a-barrel level and strong support levels at $17.85 and $17.80 a barrel said Bill Hinton of Stotler & Co. in New York.

Around 2 p.m. EST, prices failed in an attempt to move back up through $18 and ''it was all selling from then on,'' Hinton said.

The analyst noted that the last time crude inventories reached their current high levels was the spring of 1988, when WTI crude prices fell to a range of$17.40 to$17.50 a barrel.

On the U.S. Gulf Coast spot market, where crude is bought and sold for cash, WTI was quoted at $17.50 a barrel, a loss of 95 cents.

Some analysts were looking for gasoline demand to rescue the situation by absorbing the excess crude as refiners upped production.

But, Tuesday's trading dampened these hopes as the crack spread ''basically collapsed,'' said Mary Haskins of Paine Webber Inc. in New York. She said the crack spread had been holding relatively firm until Tuesday.

For May gasoline-crude, the spread fell from $7.15 to $6.86 a barrel; for June gasoline-crude it dropped from $6.40 to $6.05 a barrel, the analyst said.

''We're still in a crude oversupply situation and it looks like there's not enough demand for gasoline to turn it around,'' Haskins said.

She said the market's general expectation is that the weekly survey of the American Petroleum Institute would show a 2 million-3 million barrel drawdown in U.S. gasoline supplies.

Unless the API report shows at least that decline in gasoline stocks, there will be renewed downward pressure on crude prices, the analyst said.

Released after the Merc's closing, the API reported gasoline stocks declined 2.8 million barrels last week.

On the Merc, unleaded gasoline for May delivery nosedived 2.46 cents to 58.43 cents a gallon, a decline of 7.65 cents a gallon, or 11.6 percent, over the last six trading sessions.

June, July and August delivery fell the Merc's 2 cent limit for later delivery contracts.

Prompt delivery gasoline fell 2.05 cents on the New York Harbor cash market to 59.05 cents a gallon.

On the European spot market, Britain's widely traded North Sea Brent plummeted 94 cents to $15.85 a barrel, a loss of $2.45 over the last six days.

United Arab Emirates' Dubai light - the key OPEC crude from the Middle

East shipped mainly to the Far East - dropped 88 cents to $13.40 a barrel, a drop of $2.40 over the last six-day period.

On the Merc, heating oil for May delivery finished the day at 52.40 cents a gallon, down 0.67 cent on the day and 2.87 cents from Monday of last week.

Prompt delivery heating oil lost 0.95 cent on the New York Harbor spot market to 58.15 cents a gallon.

#90100u2373 04/10/1990 ~United Press International

SAN FRANCISCO (APRIL 10) UPI - A federal appeals court ruled Tuesday the Constitution's free speech guarantee exempts street vendors peddling merchandise with political or religious messages from a unique San Francisco ordinance requiring them to get commercial sales permits.

The 9th U.S. Circuit Court of Appeals struck down a 1986 ordinance that required the street vendors for charitable groups to get permits to sell trinkets in the popular tourist haunts around Fisherman's Wharf and Union Square.

Deputy City Attorney Burk Delventhal said the city will appeal the decision to the Supreme Court.

The decision is a victory for such groups as Greenpeace Pacific-Southwest Inc., which sold T-shirts with slogans such as ''Save the Whales.''

The Gaudiya Vaishnava Society originally filed the lawsuit in 1986 and was joined by Greenpeace, San Francisco Nuclear Weapons Freeze Campaign, the Lesbian-Gay Freedom Day Parade Committee and CISPES, the Committee in Solidarity with the Peopel of El Salvador.

The appeals court said there has been a longstanding tradition of protecting the free speech rights of people who use the public streets to promote their message or cause.

When that message is conveyed through the sale of items in a commercial transaction it must still be considered protected by free speech, according to the court.

Judge Melvin Brunetti wrote, ''We hold that when nonprofits engage in activities where pure speech and commerical speech are inextricably intertwined the entirety must be classified as noncommercial speech.''

Barry Fisher, attorney for the five groups involved in the suit said, ''This is the first attempt by a city to gerrymander the sidewalk. No city

has tried to do that.''

The city was attempting to restrict charities from selling merchandise such as T-shirts, jewelry and stuffed animals on the street in competition with merchants.

This issue has been hotly debated in the past by the city and lead to the licensing of street artists who must certify that they make all the goods they sell.

Delventhal complained that much of the merchandise for sale by the nonprofit groups has only a small, camouflaged or removable ideological message on the items themselves. He said there has been a ''horrendous proliferation'' of groups that are, in reality, simply competing with established stores in the area.

The appeals court refused to address the specific situations involving the nature of the messages.

The street peddler permits cost $300 each and involve a yearly tax. The city also limited the number of permits available.

Brunetti was joined by Judges John Noonan and visiting Judge Harry Hupp.

DETROIT (APRIL 10) UPI - Mayor Coleman Young, citing ''a number of urgent priorities,'' Tuesday took Detroit out of the race as the site of the 1992 Democratic National Convention.

The brief announcement did not specify the priorities, but the city is fighting a budget deficit of more than $100 million.

A former civilian deputy police chief and confidant of Young is also under investigation in an alleged police secret fund scandal.

Young said he has notified the Democratic National Committee of the city's decision. Delegates were due later this month to survey Detroit and make a recommendation to the national committee.

''We are dealng with a number of urgent priorities in Detroit which require our immediate attention,'' Young said. ''It is just not possible to devote the time and attention to this effort that would be required if we were to have a chance of success.''

Other cities offering to host the convention are New York, New Orleans, Houston and Cleveland.

The last time Detroit hosted a national party convention was in 1980, when the Republican National Convention nominated Ronald Reagan for president.

#90100u2442 04/10/1990 ~United Press International

TORONTO (APRIL 11) UPI - Frank Russell Co. is offering investors a new real estate index covering more than $10 billion in Canadian property, the investment firm said Tuesday.

The Tacoma, Wash.-based firm said its Russell Canadian Property Index will track quarterly the income and capital growth of 841 properties in Canada with a market value of $10.32 billion.

The properties, which include apartments, hotels and office buildings, are classified as investment-grade and income-producing and held in insurance company, pension fund and other accounts.

The reading for the first quarter of 1990 will be available in late May or early June.

Len Brennan, vice president of Frank Russell Canada Ltd., said, ''The key investment decisions being made by institutions involve asset allocation among different classes in various world economies.''

Brennan added that ''only by looking at the historical and ongoing performance of an asset class in a particular locale and comparing it to other options can (an investor) make intelligent investment decisions.''

The RCPI computes total return on a property-by-property basis as the sum of net operating income and change in appraised market value.

The property's income, appreciation or depreciation and total return are calculated using time-weighted analyses.

The index was arbitrarily set at 100, using market values as of Dec. 31, 1984. The index was valued at 193.9 as of Dec. 31., 1989.

Frank Russell first became involved in real estate investing 10 years ago when it introduced the Russell-National Council of Real Estate Investment Fiduciaries (Russell-NCREIF) property index for measuring U.S. real estate portfolio performance.

SAN FRANCISCO (APRIL 10) UPI - Bechtel has signed an agreement with the Hong Kong government to help manage the building of a new international airport and numerous related projects valued at $16 billion, the company said Tuesday.

The entire project consists of a collection of infrastructure projects, including an airport serving greater Hong Kong, two major harbor crossings expressways and a passenger rail transit system, Bechtel said.

Bechtel said the contract signed Tuesday was for management services for phase one of the Hong Kong Airport Works Project.

''This promises to be one of the most exciting megaprojects in the world '' said Stephen D. Bechtel, Jr., chairman and chief executive officer of Bechtel Group, Inc., of San Francisco.

Michael Stephenson, who is in charge of Bechtel transportation projects, said the scope of the job was enormous.

''As a comparison to an area many people know, it's like building a new airport the size of San Francisco International, a new freeway stretching from San Francisco to the Silicon Valley, a new transit system similar to BART from San Francisco to San Rafael, plus a new water crossing with a span longer than the Golden Gate Bridge.

''And all of it has to be substantially finished in less than seven years.''

BUENOS AIRES, ARGENTINA (APRIL 10) UPI - A U.S. Congressional delegation hashed out trade issues with Argentine officials and businessmen Tuesday in a visit that could mean more north-south economic cooperation in the future.

Chairman of the House Ways and Means Committee Dan Rostenkowski, who led the nine member bi-partisan group, underlined Argentina's importance to the United States by noting President George Bush plans to visit in September.

Vice President Dan Quayle visited Argentina in March during a Latin

American tour.

Rostenkowski also told a news conference Tuesday that Argentina should negotiate a trade agreement with the United States similar to the one with Canada.

''There is no reason why the Americas shouldn't form a closer policy,'' Rostenkowski said.

''There is no reason why the Argentine government and the U.S. government and the Canadian government should not form an agreement as partners,'' he said.

The Illinois Democrat said he does not anticipate trade problems with the new unified European economic community, scheduled to be formed in 1992.

''The world is shrinking and trade will possibly be the commodity that will be the instrument of continued peace in the world,'' Rostenkowski said.

The group of congressmen and aids met with President Carlos Menem, the president of the Argentine, and congressional and business leaders during a three-day stop in Buenos Aires on a South American tour.

Rostenkowski said the delegation reached a ''mutual understanding'' with businessmen and officials. He said the U.S. group asked the Argentine government to reduce the fees for air couriers.

The Argentine delegation, in return, asked for limits on trade restrictions in the agriculture and the steel industry, Rostenkowski said.

The visit comes at a critical moment for Argentina's economy. Despite extremely high inflation and a growing deficit, President Menem has sworn off controls on prices and foreign currency exchange and has promised to sell money-losing public companies to the private sector.

Inflation rose 95.5 percent in March, but trading of the U.S. dollar remained stable, and analysts predict the rate will drop in April.

Rostenkowski said the United States is committed to supporting the Menem administration and its economic plan.

''If we can help with the liberalization and privatization that this administration is committed to, then we should be Argentina's servant,'' he said.

The congressmen in the delegation were Rep. Bill Archer, R-Texas; Rep. Pete Stark, D-Calif.; Rep. Guy Vander Jagt, R-Mich.,; Rep. Marty Russo,

D-Ill.,; Rep. Dick Schulze, R-Pa.,; Rep. Barbara Kennelly, D-Conn.; Rep. Raymond McGrath, R-N.Y., and Rep. George Miller, D-Calif.

#90100u2534 04/10/1990 ~United Press International

NEW YORK (APRIL 11) UPI - Standard & Poor's Corp. said Tuesday it was putting the debt of the leveraged entertainment and publishing company Time Warner Inc. and subsidiaries on its CreditWatch list.

The bond rating agency said it was placing Time Warner's long-term debt, rated BB, as well as its subordinated debt and preferred stock, both rated B-plus, on CreditWatch ''with negative implications, indicating the possibility of a downgrade of the paying ability of the company.

The CreditWatch listing covers $1.5 billion in long-term debt and $5.6 billion in preferred stock and applies to the parent company as well as subsidiaries American Television & Communications Corp. and Lorimar Telepictures Corp.

S&P said the decision was triggered by Time Warner's recent announcement it will guarantee $650 million debt to be incurred by Pathe Communications Corp. in Pathe's bid to acquire MGM/UA Communications Co.

The debt guarantee agreement ''is expected to increase Time Warner's already substantial financial risk,'' S&P said. ''In addition, Time Warner's own bank agreement calls for sizable repayments in March 1992, extendible to March 1993, which will require financing in a now more difficult environment for financing highly leveraged deal.''

Time Inc. bought Warner Communications Inc. in July 1989 in a leveraged acquisition which boosted revenues of the new company to $7.6 billion but resulted in a loss of $256 million, the fifth-largest incurred by a major U.S. corporation last year.

S&P said, however, that it ''continues to view Time Warner's business position, cash-generating capacity and asset values favorably despite the company's aggressive financial profile.''

S&P affirmed Time Warner's B rating for commercial paper.

#90100u2551 04/10/1990 ~United Press International

ANCHORAGE, Alaska (APRIL 11) UPI - Recent oil spills have taught the industry some lessons, but the need for double hulls is not one of them and there can be no guarantees against future spills, the chief of BP America said Tuesday.

James H. Ross, president and chief executive officer of BP America, said BP ''pulled out all the stops to respond and carry out the cleanup right'' when the American Trader suffered puncture wounds that released 400,000 gallons of Alaska crude into waters at Huntington Beach, Calif. Feb. 7.

Although authorities believe the tanker's own anchor acted like a battering ram smashing into the tanker, Ross said double hulls were not necessarily the way to prevent spills. But he conceded they are the wave of the future.

''We are going to have double hulls of some sort,'' Ross predicted, ''and I think the only question remaining is to make sure that is done in the most sensible cost effective way.''

The congressional move toward requiring double hulls is a political response to oil in the water, Ross said, and not based on objective analysis, which he said has yet to be done.

Double hulls can prevent spills in some cases, but also can cause problems if vapors or oily liquids get between the two hulls, he said.

Most of BP's American production comes from Alaska and is shipped in chartered tankers to refineries in the Lower 48.

Almost inviting comparison to the Exxon Valdez spill - where the oil industry took days and weeks to mount an effective response and by then the runaway spill was beyond containment - Ross boasted that BP conducted a full-fledged disaster drill one month before the American Trader spill

and ''within minutes after the accident, BP America was mobilizing to respond to the spill.''

Ross said the stricken tanker was boomed off immediately, the first skimmer was on the scene 2 hours and 15 minutes after the accident, and many viewed the response as ''a textbook case of how a cleanup should be run.''

But Ross said, ''Try as we might, and no matter how much we learn, we'll never escape the need to constantly work for more prevention and protection.''

He said, ''We need all the training we can get. That's the main lesson I think we learned at Huntington Beach.''

Ross told Commonwealth North in a speech, ''No one can absolutely guarantee there will never be another spill. I wish we could, but we can't. Yet when it comes to oil spills, our fondest wish is to never again get any more training on the job.''

The Cleveland-based oil executive for BP America denied that British Petroleum had a double standard, offering greater tanker protection at British oil ports. Next month Alaska Gov. Steve Cowper travels to Scotland to inspect operations at the Sollum Voe oil port to see if BP has a safer system there than in the Alaska oil port of Valdez - a double standard alleged by environmentalists and a recent television documentary.

#90100u2562 04/10/1990 ~United Press International

NASHVILLE, TN. (APRIL 10) UPI - For the first time in Tennessee, a judge ruled Tuesday that physicians may act without any court's permission to honor a disabled patient's wish to die.

Davidson County Chancellor Robert Brandt ruled in a right-to-die lawsuit filed by Nancy Gamble, 50, who is paralyzed by the incurable Lou Gehrig's disease.

Gamble has been kept alive by a respirator for the past 14 months at Baptist Hospital in Nashville. She filed suit after Baptist Hospital refused to let her physician remove her respirator.

Disabled rights activists protested Brandt's decision, calling it ''further movement down the slippery slope of euthanasia of individuals whom society may perceive as unwanted burdens.''

But Brandt said, ''This case does not involve suicide and it does not involve euthanasia. This case does not belong in court.''

The judge ruled that physicians may unhook the respirators of disabled patients as long as the patients are mentally competent, fully informed of their condition and voluntarily deciding to die.

Brandt called it discriminatory to ''impose the cumbersome legal process'' on the disabled.

''This court finds they should have the same right to decide their future as those who are not totally disabled,'' the judge said. ''A disabled patient has the right to decide what medical treatment he or she wants. If this woman were not hooked up to a respirator, she could simply walk away and do what she wants.''

A lawyer for ADAPT, or American Disabled for Attendant Programs Today, urged the court to assure Gamble is offered suicide prevention counseling.

''I feel like I'm living in Alice in Wonderland,'' said ADAPT member Diane Coleman, who also suffers from a degenerative muscle disease and attended Tuesday's hearing in a wheelchair.

''The judge doesn't want to discriminate but he's denying her suicide prevention counseling. He's turning the law upside down,'' Coleman said.

After the ruling, Gamble's physician, James Sullivan, said no time has been set aside yet to remove her respirator.

Sullivan testified that Gamble, who could not attend the hearing, has been paralyzed and kept alive by respirator since February 1989. Over the past two months, she repeatedly has indicated she wants to die by mouthing the words, Sullivan said.

''She can't even swallow anymore,'' he testified. ''So she is fed by tube. Her secretions have to be sunctioned from her mouth. She finally realized she wasn't going to get better and indicated she wanted to die.''

ADAPT argued in court papers that Gamble could live independently with attendants to care for her at home, and she could operate a computer with her mouth to communicate better.

ADAPT said Gamble's civil rights have been violated because she has been denied ''the same qualfied crisis intervention and suicide prevention services that would be provided to anyone else.''

''Terminal illness should not be used to justify a wholesale abandonment of society's policies designed to protect human life,'' the group said.

But Gamble's lawyer, Mary Martin Schaffner, said, ''At some point, one

accepts there truly is no hope and death is inevitable. I think she's ready to accept that.''

Schaffner said Brandt's ruling is the first in Tennessee to say disabled patients no longer must seek court permission to have respirators removed.

#90100u2650 04/10/1990 ~United Press International

WASHINGTON (APRIL 10) UPI - The manufacturer of aldicarb said Tuesday it is temporarily halting sale of the pesticide for use on potatoes because recent testing has detected residue levels on produce above federal health limits.

Rhone-Poulenc Ag Co., the sole maker of aldicarb, said testing of treated potatoes taken from fields in the Northeast and Northwest found ''an unexplained isolated incidence of residue levels higher than acceptable in a few potatoes.''

Company officials said the problem was confined to one field, but they refused to say where it was or where fields were tested.

The company said it was voluntarily withdrawing aldicarb from use on potatoes because it wanted to conduct research to determine the cause of elevated residue levels.

''While we believe the continued use of aldicarb is safe, we have a responsibility to the public to conduct additional research on our time, not theirs,'' the company said in a statement. ''We also have an obligation to take this action now because farmers are beginning to plant this year's potato crop.

Rhone-Poulenc said it was issuing an immediate recall notice to all potato farmers with unused stocks of aldicarb. It promised refunds for all stocks returned.

The company said it was acting to avoid a ''needless and damaging 'food scare,''' such as that occurred last year over the apple pesticide Alar.

Aldicarb is widely used by farmers to control nematodes, mites and other pests on potatoes, citrus fruits, peanuts, cotton and other crops.

Rhone-Poulenc officials said it was applied to 14.7 percent of last year's domestic potato crop, most of which is grown in Maine, Idaho and Washington.

The pesticide is manufactured in granular form and is absorbed through roots. As a result, aldicarb residues are incorporated in plant tissues

and cannot be washed off.

Aldicarb does not cause cancer or birth defects, but it is highly toxic to the nervous system and can cause nausea, blurred vision and, in extreme contamination incidents, unconsciousness.

The Environmental Protection Agency has been conducting a special review of aldicarb because of concerns about residue levels on food and contamination of ground water. Aldicarb has been found in the ground water of at least 16 states.

The EPA is expected to announce the results of its review and any resulting regulatory action in late spring or early summer.

Stephen Schmotzer, director of environmental, regulatory and public affairs for Rhone-Poulenc, said the withdrawal of aldicarb for use on potatoes was taken after discussions with the EPA, but that the company was not taking action in anticipation of any EPA action.

Schmotzer declined to identify the location of the potato field where the elevated aldicarb residues were discovered nor would he specify which states had fields tested.

He also refused to disclose the specific residue levels causing concern, saying only that they were above the EPA limit for aldicarb residues on potatoes of one part per million.

#90100u2656 04/10/1990 ~United Press International

ST. LOUIS (APRIL 10) UPI - Two striking Greyound drivers were arrested Tuesday and charged with shooting at two company buses in which no one was injured, a spokesman for the Bureau of Alcohol, Tobacco and Firearms said.

The arrests of Roy Simes, 35, and Harry Lewis, 42, were believed to be the first in a series of snipings that have marred the 40-day strike against the nation's largest intercity bus line. The men were arrested at their St. Louis County homes at about 3 p.m., said FTA spokesman Jerry Miller.

Miller said the FTA developed information from an outside source and that led to the arrests. He would not say whether the source would be eligible for a $100,000 reward offered by Greyhound.

The two were each charged with endangerment of persons on a vehicle used in interstate commerce, commission of a felony with a firearm that has been used in interstate commerce and use of a firearm during commission of a violent crime, Miller said. If convicted on all three charges, the two men each face 35 years in prison and a $10,000 fine.

A conviction on the first charge carries a term of 20 years in prison; the second charge conviction could mean 10 years in prison and a $10,000 fine and conviction of the third charge is a mandatory five years in prison, Miller said.

The two appeared before a U.S. magistrate Tuesday afternoon, Miller said.

They allegedly shot at two Greyhound buses on March 22. The shootings came a day after the company's announcement that it had expanded passenger service to about half the routes it operated before the strike.

The first shooting occurred at 1:30 a.m. on Interstate 55 south of St. Louis. Two shots hit the windshield and one hit the driver's side of the bus carrying 19 passengers.

The second shooting took place an hour later on a highway 15 miles east of St. Louis near Collinsville, Ill. The driver had told Illinois State Police that a passing vehicle occupied by two people pulled alongside the bus and four or five shots were fired.

No injuries were reported in either of the shootings.

Greyhound Monday filed a $30 million suit against the union representing Greyhound drivers, claiming the violence in the walkout was a union effort to take by force what workers can't win in negotations.

According to the suit filed against the Amalgamated Transit Union, there have been 26 shooting incidents involving Greyhound buses and three incidents where shots were fired into company terminals since the strike by the company's more than 9,000 employees began March 2. The only death has been that of a picketer crushed by a bus driven by a strikebreaker.

#90100u2686 04/10/1990 ~United Press International

NORRISTOWN, PA (APRIL 10) UPI - The Plowshares Eight, peace activists who hammered on missile nose cones at a General Electric Co. plant nearly 10 years ago, were sentenced Tuesday to time served by a judge who said he was swayed by their testimony.

''It is crystal clear that this was a non-violent affair and the defendants were expressing very deeply felt convictions,'' visiting Senior Judge James Buckingham said in delivering the sentences in Montgomery Common Pleas Court.

''The defendants were very persuasive,'' said Buckingham, who is from York County.

Buckingham told the eight anti-war activists that they would be on probation for the rest of the sentences from their 1981 convictions, which varied from 1 1/2 to 10 years in jail, plus five to 10 years' probation.

He also warned the eight, including the Rev. Daniel Berrigan of New York, and his brother, Philip Berrigan of Baltimore, that further acts such as the GE protest would violate their parole.

The eight were arrested Sept. 9, 1980, at the GE plant in King of Prussia, 15 miles west of Philadelphia, after they hammered the nose cones of two nuclear-capable missiles and poured their own blood onto GE documents.

The eight served from five days to more than 14 months in prison for the protest.

The Plowshares Eight derives its name from a biblical passage in the Book of Isaiah that urges beating swords into plowshares.

Some 100 supporters cheered and sang ''Ain't Going to Study War No More'' when the Berrigans and the other defendants emerged from the courtroom.

Plowshares defendant Molly Rush, a suburban Pittsburgh grandmother, said she was not expecting the judge to listen to their views and was ready to go to prison. ''I had my bag packed,'' she said. ''It was in the trunk and I was ready to go.''

Rush said despite the judge's warning, she would not rule out participating in expressive anti-war protests again.

Daniel Berrigan, who rose to prominence as an anti-war activist during the Vietnam War, called the judge's ruling ''decent. ... I think its really nice, but when you see three of us being taken away in handcuffs and the rest of us walking free you have a mixed soul.''

Co-defendants Elmer Maas of New York, nun Anne Montgomery of New York and the Rev. Carl Kabat of Baltimore are serving jail terms for other acts of protest.

In their statements before sentencing, the defendants spoke of peace and the insanity of nuclear weapons.

''We were speaking out against omnicide - the destruction of all life,'' said defendant Dean Hammer of New Haven, Conn.

John Schuchardt of Madison, Conn., added, ''We were concerned about the fate of the earth and our children.''

The prosecutors made no sentencing request, and GE declined to make a statement.

The judge acknowledged that the defendants had been under strain as their cases plodded through the legal system for nearly a decade.

''I know it's been hard on them,'' Buckingham said. ''My feeling is that further incarceration wouldn't do that much good.''

During their highly publicized trial in 1981, the Plowshares Eight argued their acts were justified because of the threat that the United States' nuclear industry posed to the world.

A new trial was ordered in 1984 after the state Superior Court ruled that the trial judge had failed to allow the defendants to properly present their defense.

The state Supreme Court later upheld the convictions but ordered a resentencing on the grounds that trial judge was biased against the defendants.

#90100u2752 04/10/1990 ~United Press International

SEATTLE (APRIL 11) UPI - A union representing scientists, engineers and technical workers at The Boeing Co. said Tuesday the aerospace giant plans to begin a comprehensive drug testing program and said it will resist any such program.

A release issued by the Seattle Professional Engineering Employees Association said Walter Baer, executive director of the union, had learned Boeing developed the drug testing program and that it would ''go into effect in the immediate future.''

SPEEA also said Baer had obtained a briefing document that Boeing planned to use to explain the drug testing program to management and employees.

''A review of these documents by SPEEA officials combined with previously conducted detailed research on the subject of workplace drug testing programs has caused SPEEA to take the position that the imposition of the program by Boeing is both per se unacceptable and a violation of the Labor Management Relations Act,'' the union said.

Boeing spokesman Paul Binder said Boeing ''is developing a (drug) policy'' but said no details will be released until the company holds negotiations on it with all its unions, including SPEEA.

''We are in the process of updating our drug and alcohol abuse policy to

come into compliance with various governmental regulations and to re-emphasize the rehabilitation aspects of our policy,'' Binder said. ''We have not announced any implementation and would not implement such a policy without first bargaining with the unions.

''We want to have a drug-free workplace. That's in everyone's interest,'' Binder said.

Officials from the International Association of Machinists and Aerospace Workers, Boeing's largest union, were not available to comment.

SPEEA represents about 27,600 employees at Boeing sites in Washington, California, Florida, Oregon, Texas and Utah. The vast majority work in the Puget Sound area.

SPEEA said it objected to the planned program for several reasons, including:

-A lack of ''persuasive evidence'' that use of drugs is or has been a problem that seriously affects operations at Boeing.

-Boeing is not under any mandate to begin such a program. SPEEA said while it accepts defense contracts from the government, Boeing is only obliged by federal law to include the issue of drug testing in collective bargaining sessions.

SPEEA said Boeing withdrew the issue of drug testing during negotiations last year after the union objected. SPEEA added that federal labor law requires Boeing to negotiate with the union if it wants to implement a testing program.

-A suspicion that Boeing wants to ''bargain to an impasse'' on the issue and then ''unilaterally impose what it knew in 1989 it could not achieve when the contracts were open for negotiations and subject to a membership vote.''

(APRIL 11) UPI - TRANSACTIONS:

Baseball

Pittsburgh - Traded catcher Joe Szekely to Toronto for outfielder Brian Morrison, who they assigned to their extended spring training program; assigned shortstop Jeff Richardson to Buffalo of the American Association.

St. Louis - Signed pitcher Tom Niedenfuer to a minor-league contract.

Toronto - Assigned catcher Joe Szekely to Syracuse of the International League.

Basketball

Detroit - activated guard Joe Dumars from the injured list and released guard Ralph Lewis from his 10-day contract.

Phoenix - Released guard Tim Legler.

College

Brooklyn College - Named Jim Sullivan men's assistant basketball coach.

Fordham - Announced freshman basketball forward Brendan Kenney has left school for personal reasons.

Geneva (Pa.) - Named David Murray soccer coach and Robert Razzano assistant football coach.

Harvard - Named Ronn Tomassoni hockey coach.

Kansas State - Named Ken Turner assistant basketball coach.

Mississippi - Named Ed Nixon men's basketball coach.

National Junior College Athletic Association - Elected Lea Plarski president.

University of the Pacific - Named Nick Gotovac football recruitingcoordinator.

Football

Green Bay - Signed free agents Tony Champion, Stan Shiver and Tracy Martin.

#90100u2780 04/10/1990 ~United Press International

(APRIL 10) UPI - A disappointing day at Cape Canaveral... the power struggle over Lithuania continues... three released French hostages go home... and mourners pay their respects to AIDS victim Ryan White. Those stories and more, next from U-P-I.

Yet another delay for the shuttle Discovery and the Hubble Space Telescope.

NASA officials say the the launch will be delayed one to two weeks because

of last-minute trouble with the ship's power steering system.

Discovery was scheuled for lift-off this morning.

The shuttle countdown proceeded smoothly to the T-minus-five-minute mark, when the shuttle's three hydraulic power units were started. But 20 seconds later, commander Loren Shriver reported problems with an auxiliary power unit.

Launch director Robert Sieck says Discovery must be delayed eight days or so because of required work to open the shuttle's payload bay doors to re-charge the one-point-five-BILLION-dollar Hubble Space Telecope's batteries.

The delay is equally frustrating for scientists associated with the telescope, which is expected to revolutionize scientific thought on the origins of the universe.

But one astronomer took the delay in stride. As he put it... ''The universe is 15-BILLION years old. What's a few more days?''

The Kremlin is refusing to budge on its rejection of Lithuania's declaration of independence.

Soviet President Gorbachev told delegates to the Young Communist League congress in Moscow that that Soviet leadership is still trying to persuade the Lithuanian parliament to reverse its March 11th declaration.

Gorbachev says the solution to the issue is to reform the federation of Soviet republics... NOT divide it.

Gorbachev says he's hoping for a political solution... but did NOT rule out the possibility of imposing direct presidential rule in the republic.

In Washington, President Bush said that Moscow has been told ''loud and clear'' to refrain from force in dealing with Lithuanian demands for independence.

The Soviet central government also intensified its warnings of economic hardship for Lithuania if the republic secedes. Yesterday, Gorbachev's new presidential council called for economic sanctions against the republic.

#90100u2786 04/10/1990 ~United Press International

LOS ANGELES (APRIL 10) UPI - A Mexican physician indicted in the torture-slaying of U.S. drug agent Enrique Camarena pleaded innocent to murder charges Tuesday and told the judge, ''I want to prove I am a good

man.''

U.S. District Judge Edward Rafeedie ordered Humberto Alvarez-Machain, 42, a gynecologist from Guadalajara, held without bail.

Alvarez was arrested last week in El Paso, Texas, where he arrived in a rented aircraft and was accompanied by Mexican law enforcement officials. In arguing for bail, Alvarez told Rafeedie he surrendered to authorities because ''I can't live like this.''

Assistant U.S. Attorney Manuel Medrano would not comment on whether Alvarez's arrest was voluntary, and the defendant's newly retained attorney, Bob Steinberg, said he could not immediately confirm the claim.

The judge said Alvarez would stand trial May 1 along with four other men in federal custody in connection with the murder of Camarena, a U.S. Drug Enforcement Administration agent.

In arguing against bail, Medrano said that Alvarez was present when Camarena was tortured and administered a drug to revive the agent when he passed out during a long interrogation by his captors.

Through an interpreter, Alvarez told the judge he surrendered because ''I do not want to run away. If I am here I want to take care of this. I want to prove that I am a good person.''

Alvarez is among 19 people indicted in the web of crimes surrounding the Camarena slaying. He told the judge he was a gynecologist and had worked for the Mexican government in Guadalajara, where ''I am known as an honest person.''

Medrano, however, told Rafeedie the doctor also was employed by notorious drug kingpin Rafael Caro-Quintero, now serving a prison term in Mexico in connection with the Camarena slaying.

Medrano said Alvarez had told an informant in a tape-recorded conversation that he was at the house outside Guadalajara on Feb. 7, 1985, where Camarena was tortured for more than 24 hours before being killed by several blows to the head.

The bodies of Camarena and his pilot, Alfredo Zavala Avelar, were found about a month later in a shallow grave on a ranch 60 miles outside Guadalajara.

Medrano said Alvarez told the informant he went to the house twice, first to administer drugs to revive Camarena after the agent passed out during the torture.

''This was done so that the interrogation could continue,'' Medrano said, adding that a syringe containing the drug was found at the house.

The second time Alvarez went the house, Camarena was dead, Medrano alleged.

Alvarez also allegedly told the informant he was present at an airport in Mexico in 1989 when Caro-Quintero tried to escape on a Falcon jet. Medrano said Alvarez was a practicing physician in Mexico in 1984 and 1985, ''at the time the Guadalajara (drug) cartel was at its apex,'' and that he administered medical treatment to members of the marijuana cartel.

''When co-conspirators out in the marijuana fields would be shot at, they would be taken to Mr. Alvarez-Machain,'' Medrano said.

Camarena, assigned to the DEA's office in Guadalajara, was kidnapped in broad daylight and tortured in an effort to make him reveal which drug traffickers and Mexican government officials were under investigation.

According to various sources, Caro-Quintero was angry at Camarena, 37, because of a raid at a huge marijuana farm near Chihuahua that cost more than $5 billion in lost street sales.

Caro-Quintero, his alleged chief aide, Ernesto Fonseca-Carrillo, and many other defendants were convicted last year in Mexico in Camarena's slaying.

Federal officials consider several others suspects in Mexico - including two high-ranking Mexican law enforcement officials - fugitives, and the Mexican government has refused to extradite them for trial in the United States.

Three other men, including a Mexican police officer and a Mexicali businessman, were sentenced to long prison terms for the Camarena murder afer being convicted in Los Angeles in 1988.

#90100u2813 04/10/1990 ~United Press International

AUSTIN, TX (APRIL 10) UPI - Attorney General Jim Mattox and Treasurer Ann Richards Tuesday encouraged their grass-roots workers to get voters to the polls for their bitter Democratic gubernatorial runoff election.

The mud-splattered runoff campaign, marked by charges of illegal drug use in years past against both candidates, ended when the polls closed at 7 p.m. CDT.

The winner will face Republican Clayton Williams in November.

Richards, 54, who became nationally known after delivering the keynote

address during the Democratic National Convention in Atlanta in 1988, spent Tuesday in her headquarters in Austin giving pep talks to county chairmen. Richards needs a good turnout in the urban areas and among women where her support is strongest.

Mattox, 47, served breakfast to campaign volunteers in his Austin headquarters and pushed for a good turnout by his strongest supporters, conservative men and rural residents.

Former Gov. Mark White, who placed third in the primary election last month, voted at an elementary school in Houston and said he believed Mattox would be the best opponent for Williams.

''I just think he doesn't have the unanswered questions hanging out there that Ann Richards does,'' White said.

He referred to allegations by Mattox that Richards, who was treated for alcohol addiction in 1980 and says she has been dry since, also used illegal drugs. The Dallas Morning News last Friday published charges by a former Dallas police officer and a Houston lawyer saying they had seen Mattox smoking marijuana during the 1970s.

Mattox pressed his accusations through the final days of the campaign that Richards used illegal drugs, including cocaine, 10 years ago when she was a member of the Travis County Commissioner's Court. He has released no evidence supporting his charges.

Richards has refused to directly answer if she ever used illegal drugs, saying it might discourage addicts from seeking treatment.

''Mr. Mattox has been unable to present any form of proof - and what possible difference does it make?'' Richards said. ''It has mattered only to the news media and to Jim Mattox.''

Mattox Tuesday told a Houston radio station he wished the campaign had been carried out on a higher plane.

''I would have much preferred for us to have had a long series of debates and to have talked about such things as my support for a lottery and opposition to income taxes,'' he said. ''But it just didn't seem like it was going to be.''

Houston political analyst Neil Spelce predicted the election would be very close.

''But there is a big, big caveat on that, and that is, are the citizens actually going to turn out and vote this time?'' he said.

Voting officials in Houston and Dallas said turnout so far was low, as had been predicted by election officials. Mark Toohey, a spokesman for the Texas Secretary of State's office, estimated between 850,000 and 1 million voters would vote in the Democratic runoff.

A poll for the Dallas Morning News-Houston Chronicle released Sunday showed Richards leading Mattox 44 percent to 38 percent, with 16 percent undecided. Two percent said they would not vote for either candidate. The poll had an error margin of 4 percentage points.

Williams's convincing victory in the GOP primary last month enabled him to bypass a party runoff. Several polls have shown that if the general election were held Tuesday, Williams - a West Texas millionaire making his first run for public office - would easily defeat either of the Democratic candidates.

Republican Gov. Bill Clements, 72, who is serving a non-consecutive second term, decided not to seek re-election.

#90100u2844 04/10/1990 ~United Press International

(APRIL 10) UPI - Mourners disregarded dreary skies today to pay last respects to AIDS victim Ryan White.

They are making their way to a funeral home in suburban Indianapolis, where the 18-year-old White died on Sunday after a five-year fight against AIDS.

Police and special security officers are on hand at the funeral home to handle the expected large crowd of people paying their respects to White's parents.

Funeral Director Brian Buchanan says numerous telephone calls have been received requesting information on visting hours.

Buchanan said the funeral home is expecting what he termed ''several celebrities.''

Funeral services will be held tomorrow in Indianapolis.

Israeli Labor Party leader Shimon Peres predicts that the Middle East peace process will move forward once he becomes prime minister.

The Israeli parliament... the Knesset... has scheduled a vote of confidence tomorrow on the Labor coalition government assembled by Peres. The center-left Labor Party appears to have at least 61 votes in the 120-seat legislature.

If he wins a majority during the special session, Peres will take over the government from Prime Minister Shamir, leader of the right-wing Likud Party.

Peres said in an interview yesterday that he would move rapidly to advance the peace plan proposed by Secretary of State Baker.

Shamir had refused to accept the Baker proposal, which called for the participation of Palestinian deportees and Arabs living in East Jerusalem. This refusal led to last month's break-up of the Likud-Labor coalition and a vote of NO confidence that brought down Shamir's government.

Peres has served in many senior government posts, including defense minister and prime minister from 1984 to 1986 under a Labor-Likud coalition government.

#90100u2879 04/10/1990 ~United Press International

(APRIL 10) UPI - An anti-nuclear group reports a rise in the number of workers exposed to radiation at nuclear plants across the nation in 1988.

The total is placed at 105-thousand 265... the highest number of radiation exposures at U-S plants ever in one year.

The report comes from Public Citizen, a group created by consumer activist Ralph Nader. It says the tally is based on a review of federal documents.

The study says more than 12-thousand workers in 1988 received at least one person-rem of radiation... equivalent to 50 chest x-rays.

Public Cizen says its study showed the total number of worker radiation exposure incidents has increased 31 percent since 1980. There were 80-thousand 389 reported incidents that year.

A study released today says East Germany has the worst atmospheric pollution of any European country.

The report says that every year, East Germany pumps two-point-two-Million tons of dust and five-point-two Million tons of sulfur dioxide into the atmosphere. The study... released by the West German Statistical Office... says that during the years, the East German government did little to combat the contamination.

It says that in 1987, 31-point-seven percent of East Germany's forested area was damaged. In 1988 the figure shot up to 54-point-three percent.

The West German study also said one-fifth of all water in East Germany is so polluted that it could NOT be purified into drinking water. The study said 67 percent of all factory waste water was still polluted when released into lakes and rivers.

It said East German authorities spent far too little money to rectify the situation. The study said the high level nf,pollution was the direct result of decades of environmental neglect.

#90100u3032 04/10/1990 ~United Press International

LAS TABLAS, PANAMA (APRIL 11) UPI - A high-ranking U.S. military official, saying his troops ''can't stay here forever,'' Tuesday predicted the withdrawal by June of some 500 U.S. servicemen patrolling streets in Panama City and other towns.

Gen. Marc Cisneros, the commander of the U.S. Army in Panama, said the level of U.S. troops in Panama has been reduced from a peak of 26,000 to about 13,000, the number present before the Dec. 20 invasion that ousted military strongman Manuel Antonio Noriega.

About 400 U.S. troops continue to patrol with local police in Panama City, and 100 Army special forces are stationed in provinicial capitals, Cisneros told United Press International during a visit to Las Tablas, an agricultural community 175 miles southwest of Panama City.

As Panama's new police force develops and obtains more equipment, the need for U.S. troops on the streets will decline, Cisneros said.

Cisneros said he wants to maintain one or two U.S. soldiers in each police district for the next year to assist with cases involving Americans.

''We can't stay here forever,'' Cisneros said. ''We're going to do an assessment in June. By that time we'll probably be able to do another reduction down to the point of having some liaison people.''

Many Latin American nations have called for all U.S. troops to return to their Panama bases but Cisneros said he is under more pressure to maintain the U.S. troops in policing roles than to withdraw them.

In Panama City, crime has soared since the invasion, and many residents distrust the Public Force, built almost entirely from the Panamanian Defense Forces, a now-defunct army long run by Noriega.

Cisneros said common crime is the biggest problem in Panama, while the security threat to the Endara government from Noriega allies or subversive groups is small.

A group calling itself the 20th of December Movement, or M-20, claimed responsibility for a grenade attack on a nightclub in Panama City last month that killed one U.S. serviceman and wounded 15. The bombing is under investigation.

Cisneros criticized Latin American countries such as Mexico and Peru that have questioned the legitimacy of Endara's government.

Seven Latin American nations that make up the Rio Group last month suggested that Endara hold elections, and called for all U.S. troops in Panama to return to their bases.

''That to me is a lack of brotherhood among Latin countries,'' Cisneros said. ''From my perspective, this government is very legitimate. ... Elections are very costly and at this point could be very detrimental'' to the country in its state of crisis.

''They themselves (the government) will have to make that decision,'' he said.

Endara is widely believed to have won a May 7, 1989, presidential election in a 3-to-1 landslide over Carlos Duque, a Noriega ally. The election was quickly annulled by the Noriega-controlled electoral tribunal.

Endara was installed as president on the basis of the May 7 elections.

#90100u3090 04/10/1990 ~United Press International

PANAMA CITY, PANAMA (APRIL 11) UPI - A U.S. military light plane ditched into the sea Tuesday less than 24 hours after an Army helicopter hit a tree while trying to land, U.S. military officials said.

The pilot of the plane, an OA-37 Dragonfly, managed to parachute safely from the aircraft before it fell into the Pacific Ocean near Howard Air Force base at 3:30 p.m., a U.S. Air Force communique said.

The communique said the plane, assigned to the 24th Wing based at Howard, was returning from a training mission and carried only the pilot.

At 8 p.m. Monday night, a U.S. Army pilot brought his damaged helicopter into a safe landing at Fort Sherman on the Atlantic Coast after hitting a tree. The five crew members were not injured.

The U.S. Southern Command said the helicopter, a CH-47D Chinook, also was returning from a training mission when it struck the tree on the approach to the landing strip.

The chopper and the crew are assigned to the First Battalion, 228th Air Regiment based at Fort Kobbe in Panama.

U.S. officials in Panama were investigating both incidents.

-30- 1292
#90100u3100 04/10/1990 ~United Press International
BY UNITED PRESS INTERNATIONAL

(APRIL 11) UPI - New Democracy leader Constantine Mitsotakis, Greece's first conservative prime minister after eight years of Socialist rule, comes from a political family from the south Aegean island of Crete.

Born in Hania in 1918 on Crete's northwestern shore, Mitsotakis is the son of a prominent politician on the island. His maternal uncle, Eleftheros Venizelos, was a three-time premier, serving between 1910 and 1932.

Mitsotakis studied law and economics at the Athens University and fought Hitler's troops during World War II, both as a soldier and a member of the Greek resistance. Arrested twice by the Nazis, he narrowly escaped execution because of a prisoner exchange.

After the war, he managed to keep left- and right-wing guerrillas on Crete from fighting each other as the rest of Greece drifted into a civil war.

In 1945, Mitsotakis entered politics and won election to parliament on a Liberal Party ticket from Hania. In subsequent years he held various government posts, becoming a minister in the Cabinet of Prime Minister George Papandreou, chief of the Center Union Party and father of Mitsotakis's later archrival, Andreas Papandreou, who also was a minister in the same government.

In 1965 Andreas Papandreou was accused of involvement in a military conspiracy against King Constantine. When the elder Papandreou refused to act against his son, Mitsotakis quit the Center Union with a group of 40 parliamentary deputies.

After the 1967 military coup, Mitsotakis fled Greece, returning only after democracy was restored in 1974.

He set up the New Liberal Party the same year, but joined Constantine Caramanlis' New Democracy party the following year, becoming economic coordination minister and later foreign minister to New Democracy Prime Minister George Rallis.

In 1984 he became party chief, leading New Democracy through three general

elections against the Socialists in 1985 and 1989 (June and November), before winning in the fourth on Sunday.

Mitsotakis is married and has three daughters and one son.

His son-in-law, Pavlos Bakoyannis, a Parliament deputy, was killed by the November 17 terrorist organization in Septenber 1989. Bokoyannis's wife, Dora, Mitsotakis eldest daughter, was elected in his place in November 1989 and again Sunday.

#90100u3127 04/10/1990 ~United Press International

(APRIL 10) UPI - NASA officials say it will be at least one week before they can try again to launch the Discovery shuttle and the one-point-five-BILLION-dollar Hubble Space Telescope. This morning's scheduled blast-off was delayed because of a last-minute problem with the shuttle's power steering system.

The American League may sneak into bilateral talks today between President Bush and Canadian Prime Minister Mulroney. The two leaders will attend a baseball game in Toronto between the Blue Jays and the visiting Texas Rangers.

A European couple who were abducted more than two years ago were released today in Lebanon with their daughter, who was born in captivity. The French woman and her Belgian boyfriend were immediately flown to Paris.

In Miami Beach, Florida, firefighters and search dogs are poring over rubble from the Fontana Hotel for a sixth day... in hopes of finding signs of five people still missing after last week's fire. Nine bodies have been recovered.

President Bush has named former assistant defense secretary Richard Armitage as the special negotiator for lease-renewal talks on American bases in the Philippines. The talks are expected to be difficult.

House ways and Means Committee Chairman Dan Rostenkowski says the taxpayer bill for the U-S Savings and loan bail-out will be high. Spaking to reporters in Argentina, the Illinois Democrat said his latest estimates indicate that the government will spend at least 130-BILLION dollars to save the thrift industry.

Solidarity leader Lech Walesa has thrown his hat into Poland's presidential ring. Walesa says he will be a candidate for the presidency in the next election. It is now held by former Communist Party leader Wojciech Jaruzeski.

Education Secretary Cavazos says Hispanic parents must change their attitudes about the value of education and begin to reverse high drop-out rates among their children. He told a San Antonio audience today that Hispanic students had the nation's highest drop-out rate during the 1980's... more than 35 percent.

#90100u3641 04/10/1990 ~United Press International

(APRIL 10) UPI - NASA officials say a faulty power steering system aboard the shuttle Discovery will delay the launch of the Hubble Space Telescope for at least one week. Discovery and its five-member crew were grounded this morning, just four minutes before lift-off when one of three hydraulic power units malfunctioned. Engineers at Cape Canaveral, Florida, plan to work through the night to remove and replace the system, but the launch will be delayed at least one week and possibly two.

President Bush is holding talks with Canadian Prime Minister Mulroney today in Toronto. Such issues as East-West relations... acid rain... and trade are on the agenda. Both leaders appear to be taking a watch-and-wait attitude toward events in Europe. Tonight, Bush and Mulroney are attending a baseball game between the Blue Jays and the visiting Texas Rangers at the Toronto Skydome.

Three European hostages... a couple and their child... arrived in Paris this evening after being freed in Lebanon, where they were held captive for more than two years. French President Mitterrand thanked Libyan leader Moammar Gadhafi for what he called Gadhafi's ''determining role'' in freeing the hostages. Last week, Gadhafi called for the release of Western hostages in Lebanon.

Britain and the Soviet Union today signed an agreement calling for prompt notification of nuclear accidents in the two nations. The Soviet Union was criticized for its lenghty delay in notifying other countries of the 1986 Chernobyl nuclear accident. The accord came on the first of three days of talks in Moscow between British Foreign Secretary Hurd and Soviet Foreign Minister Shevardnadze .

-30- 1834

#90100u3885 04/10/1990 ~United Press International

(APRIL 10) UPI - Engineers at Cape Canaveral plan to work through the night gearing up to remove and replace a faulty steering system aboard the shuttle Discovery. The unit malfunctioned today, just minutes before the launch of the shuttle and its payload... the one-and-one-half-BILLION-dollar Hubble Space Telescope. NASA officials say they do NOT have ''a specific target'' date for a new launch, but say the mission will be pushed back at least one or possibly two weeks.

Soviet President Gorbachev says he is NOT ruling out using his expanded powers to impose direct Kremlin rule in Lithuania. In Washington today, President Bush says he told the Kremlin- in his words- ''loud and clear'' NOT to use force in dealing with the rebellious Baltic republic's demands for independence. Gorbachev says he is still hoping for a political solution.

Three European hostages were freed in Beirut today... ending a drama that began on Mediterranean vacation cruise two and one-half years ago. The release of a French women, her Belgian boyfriend and their baby daughter born in captivity came after a group run by the notorious terrorist Abu Nidal negotiated with Belgian and French officials. Freedom for the captives came six days after Libyan leader Gadhafi called for the release of Western hostages to mark the Moslem holy month of Ramadan.

A steady stream of mourners are paying their respects to 18-year-old AIDS victim Ryan White. The courageous young man died Sunday at an Indianapolis hospital after a five-year struggle against AIDS. After contracting the disease, White traveled the world to help lessen fear, ignorance and panic about AIDS. First Lady Barbara Bush will be among the mourners at tomorrow's funeral in Indianapolis.

-30- 1914

#90100u3916 04/10/1990 ~United Press International

(APRIL 10) UPI - The Census Bureau says two Western states had the most dramatic population increases and decreases between 1985 and 1989. In a report on state population estimates, the department says Nevada's population grew fastest among the states... jumping 18 percent during the five-year period. Wyoming led the losers with a six-point-eight-percent decline in population.

A psychiatrist testifiying at the New Jersey trial of John List says the defendant was legally sane when he killed his wife, mother and three children 18 years ago in their heavily mortgaged home. List headed for Denver after the slayings and carved out a life as Robert Clark, attending a Lutheran church, working as an accountant and dating the woman he eventually married. List was arrested in Virginia one year ago after evading police since the 1970 killings.

A federal judge in Charlotte, North Carolina, today dismissed the perjury charge against P-T-L pastor Sam Johnson. U-S District Judge Robert Potter called the government's case against Jim Bakker's spiritual successor circumstantial. Potter was acting on a defense motion to dismiss the case... and said he spent much of the afternoon agonizing over his decision.

About 70 Harvard Law School students occupied the dean's office overnight in the second sit-in in less than one week over the lack of women and minority professors. In a letter, the students asked that they be allowed to explain their position at a faculty meeting scheduled for tomorrow. Officials say Dean Robert Clark will answer the request.

-30- 1729

#90100u4046 04/10/1990 ~United Press International

(APRIL 10) UPI - Two striking Greyhound drivers arrested for shooting at buses... NASA makes repairs... President Bush says Lithuania will NOT postpone summit... and U-S-Canadian talks at Toronto's ball park. U-P-I has it all, next:

The Bureau of Alcohol, Tobacco and Firearms says two striking Greyhound drivers were arrested today and charged with shooting at two company buses.

The arrests are believed to be the first in the series of snipings in the 40-day-old strike against the nation's largest inter-city bus line.

35-year-old Roy Simes and 42-year-old Harry Lewis were taken into custody at their St. Louis County homes. Each driver faces 35 years in prison and a 10-thousand-dollar fine.

An F-T-A spokesman says the bureau developed information leading to the arrests from an outside source. But he refused to say whether the source is eligible for a 100-thousand-dollar reward offered by Greyhound.

The two separate shootings occured near St. Louis, Missouri, on March 22nd... one day after the company announced expanding passenger service to about half the routes it operated before the strike. NO one was hurt in either incident.

Greyhound yesterday filed a 30-Million-dollar suit against the union representing company drivers. Greyhound claims the violence in the walkout is a union effort to take by force what it canNOT win in negotations.

-30- 1539

#90100u4072 04/10/1990 ~United Press International

(APRIL 10) UPI - NASA officials are huddling at Cape Canaveral... trying to figure the next launch date for the shuttle Discovery and its scientific payload, the Hubble Space Telescope.

This morning's scheduled launch was halted with less than five minutes to go before lift-off because of a faulty power steering system.

Officials are projecting a delay of at least one week, and maybe two.

Engineers are expected to work through the night to remove and replace the steering system. A new launch date will NOT be announced until they have a better idea of how long it will take to make repairs.

Engineers must completely drain the shuttle's fuel tan... work out plans for replacing the 185-pound hydraulic unit... and recharge the Hubble Space Telescope's six high-tech 520-pound nickel-hydrogen batteries.

The delay was frustrating for hundreds of scientists and engineers with the one-point-five-BILLION-dollar Hubble Space Telescope project. Said NASA astronomer Edward Weiler... ''I doN'T know how many days of this we can take emotionally.''

Launch of the precious instrument already is running seven years behind schedule and some one-BILLION dollars over budget.

President Bush says he intends to go ahead with plans for a U-S-Soviet summit in the United States next month despite tensions in Lithuania.

Bush made his comments in Toronto after emerging from an afternoon meeting with Canadian Prime Minister Mulroney.

Bush and Mulroney went out of their way to praise Soviet President Gorbachev for his commitment to peaceful change in the Soviet Union. But Bush added that he's told Gorbachev a deterioration of the situation in Lithuania would make it difficult to move forward on arms control and other issues.

Both leaders view Gorbachev's political survival as key to continued improvement in East-West relations and the erosion of post-war divisions in Europe.

Bush and Gorbachev will hold a summit at the end of May.

In addition to business... Bush and Mulroney are taking in a little baseball tonight as the Toronto Blue Jays play host to the Texas Rangers in the Skydome. There's NO question where Bush's loyalty lies. His son, George W. Bush... is a part-owner of the Rangers.

-30- 2420

#90100u4100 04/10/1990 ~United Press International

(APRIL 10) UPI - The Communist Party of the Soviet Union is showing signs of strain.

The party Central Committee said today in a letter to party members there is danger of a split in the party... and it suggested a consolidation to

eliminate some dissenters.

The letter was read on the evening T-V news show in Moscow... and took a tough tone in criticizing wayward party members.

Soviet President Gorbachev addressed the issue in a speech before delegates to a Young Communist League congress. He said some members might leave... but the leadership is hoping to avoid a rift.

The possibility of a split in the Soviet Communist Party and the suggestions of a possible purge of dissident members followed the split of the Lithuanian Communist Party into two branches. One remains loyal to Moscow... while the other favors independence.

Gorbachev also said he's trying to avoid imposing direct presidential rule in Lithuania... but he refused to rule out a direct Kremlin takeover of the rebellious Baltic republic.

President Bush said today he's warned Moscow NOT to use force in dealing with Lithuanian demands for independence.

Solidarity leader Lech Walesa says he will run for president in the next Polish election.

The Polish news agency says Walesa today confirmed a newspaper report that he plans to seek the presidency.

Former Communist Party leader Wojciech Jaruzelski was narrowly elected to a six-year term as president by Parliament last July.

A parliamentary spokesman says a new election would be held only if the current president resigned, died or if he faced charges brought by the Parliament. But it is widely expected the current Parliament may NOT serve out its term. In such a case, the political arena could be expected to change dramatically and lead to Jaruzelski's resignation.

Walesa's announcement came on the eve of Jaruzelski's official four-day visit to the Soviet Union. The timing of Walesa's declaration is seen by some political observers as an attempt to diminish the political capital Jaruzelski might gain from the Soviet trip.

-30- 2279

#90100u4144 04/10/1990 ~United Press International

(APRIL 10) UPI - Three fired Northwest Airlines crew members pleaded innocent today in Minneapolis to federal charges they flew a jetliner while under the influence of alcohol.

The felony charges arose from allegations that the three piloted a Boeing 727 with 91 passengers aboard on an early morning flight from Fargo, North Dakota, to Minneapolis on March 8th after a night of drinking.

The three men... Captain Norman Proust... first officer Robert Kirchner... and flight engineer Joseph Balzer... were arrested after landing the aircraft without incident. Authorities say that tests showed all three had blood-alcohol levels above legal limits for pilots. An attorney representing Balzer says it's likely the defense would challenge the results of those tests... and that the defendants probably would ask to be tried separately.

In Daytona Beach, Florida, Federal Aviation Administrator James Busey called for a lifetime ban of any commercial pilot who tests positive for drugs or alcohol. Said Busy... ''There's NO place for booze in the cockpit and NO place for drugs in the cockpit.''

Jury selection began in Los Angeles today in the re-trial of Raymond Buckey, the sole defendant left in the McMartin Pre-school Molestation case.

Buckey and his 62-year-old mother were acquitted at the first trial of 52 other molestation counts after the longest and costliest criminal prosecution in U-S history. Buckey still faces eight charges on which jurors at his first trial deadlocked. He is accused of sexually abusing three students at his family's now-closed Virginia McMartin Pre-School in Manhattan Beach, California. Buckey steadfastly denies the charges.

Attorney John Wagner was appointed by the presiding judge to help Buckey's lawyer, Danny Davis, defend the former pre-school teacher. Wagner was appointed because recurring back problems suffered by Davis are expected to prevent him from attending the re-trial on a full-time basis.

The selection of 12 jurors and alternates is expected to take about one month. Lawyers estimate the re-trial will last from six months to one year.

-30- 2292

#90100u4174 04/10/1990 ~United Press International

(APRIL 10) UPI - Federal officials say two striking Greyhound drivers were arrested this afternoon in St. Louis and charged with shooting at two company buses. The two allegedly shot at two buses last month. NO one was injured in either incident.

President Bush says he'd be pleased if Libya had anything to do with today's release of three European hostages in Beirut. But, Bush says the United States continues to have what he terms ''major differences with Libya.''

Today's delay in the launch of Discovery disappointed the shuttle crew and hundreds of scientists associated with the Hubble Space Telescope aboard the ship. But- in the words of one scientist- ''this universe is 15-BILLION years old. What's a few more days?''

America's national past-time is providing an unusual backdrop for a meeting between President Bush and Canada's Prime Minister Mulroney . But Bush isN'T just watching tonight's ballgame between the Blue Jays and Rangers in Toronto. Bush threw out the first pitch, opting for a slider.

The polls are closed in Texas following a mud-splattered runoff campaign between Attorney General Jim Mattox and Treasurer Ann Richards. The winner of today's balloting will face Republican Clayton Williams in November.

-30- 1411

#90100u4215 04/10/1990 ~United Press International

(APRIL 10) UPI - Family members, friends, classmates, well-wishers and AIDS activists paid their respects today to Ryan White, who died Sunday at age 18. First lady Barbara Bush will attend White's funeral tomorrow in Indianapolis.

New Hampshire Governor Judd Gregg has vetoed a bill that would have legalized abortion in the state. Gregg dismissed the proposed law, saying it would have been the most liberal measure in the nation- quoting Gregg- ''in allowing the taking of human life.''

A Mexican doctor pleaded innocent today in the torture-slaying of U-S drug agent Enrique Camarena, telling a judge in Los Angeles- ''I want to prove I am a good man.'' A total of five suspects are charged in Camarena's murder.

High winds swept Pensacola, Florida, today, breaking windows and ripping loose sheet metal at a bank. Thunderstorms whipped up two funnel clouds in the Corpus Christi, Texas, area... but NO damage is reported.

California will try and convince smokers to kick the habit with a campaign unveiled today. The 28-point-six-MILLION-dollar series of radio, T-V and newspaper ads is being paid for by smokers through a 25-cent-a-pack tax.

-30- 1322

#90100u4401 04/10/1990 ~United Press International

(APRIL 10) UPI - In Texas, State Treasurer Ann Richards appears headed for victory tonight over Attorney General Jim Mattox in their runoff election for the Democratic gubernatorial nomination. With 26-and-one-half percent of the precincts reporting, Richards had 53-point-four percent of

the vote... compared to 45-point-seven percent for Mattox. The winner will face Republican nominee Clayton Williams in the November general election.

President Bush says he'd be happy to hear that Libyan leader Moammar Gadhafi played an instrumental role in today's release of three European hostages in Lebanon. Bush says he doesN'T know whether the release has any implications for the eight U-S hostages in Lebanon. France has acknowledged what it called Gadhafi's ''determining role'' in freeing the hostages.

The anti-nuclear group Public Citizen reports 105-thousand-265 cases of worker exposure to radiation at U-S nuclear power plants in 1988. That's the highest number of incidents ever in one year. The group says federal documents show workers at the nation's 107 commercial nuclear plants were exposed to radiation doses it estimates were equivalent to two-Million chest X-rays.

Republican leader Robert Dole and four other senators are in Egypt today, where Dole announced that the delegation will visit Iraq's Saddam Hussein on Thursday. Dole says the mission is in an effort to defuse tension over Iraqi threats against Israel. However, there was NO immediate confirmation from Baghdad of plans for the meeting.

(APRIL 10) UPI - President Bush says the crisis in Lithuania will NOT imperil next month's summit with Soviet President Gorbachev in the United States. Bush spoke after today's meeting in Toronto with Canadian Prime Minister Mulroney. Both western leaders view Gorbachev's survival as key to continued improvement in East-West relations. Bush and Mulroney seem willing to give the Soviet president more time to work out his problems at home.

Labor Party leader Shimon Peres is anticipating approval in tomorrow's vote of confidence in the Israeli parliament for his new coalition government. The center-left Labor Party appears to have the support of at least 61 members of the 120-seat legislature. If Peres gets the required parliamentary majority... he will take over the government from transitional Prime Minister Shamir .

Defense Secretary Cheney wants an explanation from the Air Force. Cheney was told two one-ton bombs dropped in the December 20th U-S invasion of Pamana hit their marks. But, Cheney learned one of the bombs carried by the FA stealth fighters fell ''way off target.'' Immediately after the invasion, Cheney defended the use of the high-technology fighters, saying their pinpoint bombing accuracy probably saved American and Panamanian lives.

A children's book is planned about Ryan White's battle with AIDS. Publishers are hoping White's story will help better educate the nation's youth about the fatal disease. White was the victim of bias at his Indiana grade school five years ago when he was diagnosed with AIDS. He responded by answering volumes of mail from children wanting to know more about the disease. When AIDS claimed his life Sunday, the 18-year-old White was a hero among his peers.

#90101b0006 04/11/1990 ~Business Wire

LOS ANGELES (APRIL 11) BUSINESS WIRE - Paul M. Harris, chairman of the board of Guardian Bancorp (ASE:GB), Wednesday announced that the company reported net earnings of $1,476,069 (or 43 cents per share), an increase of 26 percent over the $1,172,286 (or 36 cents per share), reported for the first quarter in 1989.

The 1989 per-share amount reflects the 3-for-2 stock split in May 1989.

Total assets increased to $432 million at March 31, 1990, compared with $377 million at March 31, 1989, an increase of 15 percent. Total loans were $266 million, compared with $178 million at March 31, 1989, an increase of 49 percent.

Total deposits were $396 million compared with $352 million at March 31, 1989, an increase of 12 percent. Book value per share was $10.15 at March 31, 1990, compared with $7.25 at March 31, 1989. No loans were charged off during the first quarter.

Harris said profitability remained strong in the first quarter as earnings increased, credit quality remained excellent and the company significantly enhanced its capital position through its public offering of common stock.

Guardian Bancorp is the holding company for Guardian Bank, which has its head office at 800 South Figueroa St., Los Angeles.

#90101b0020 04/11/1990 ~Business Wire

SEATTLE (APRIL 11) BUSINESS WIRE - Burlington Resources Inc. (BR) Wednesday reported first quarter 1990 net income from continuing operations of $69 million or 47 cents per share compared with $52 million or 34 cents per share during the same period in 1989.

Net income from discontinued operations is set out in the accompanying financial statement.

First quarter 1990 Gas and Oil operating income was $56 million compared with $39 million a year ago. The improvement in operating income reflected substantial increases in the sales volumes and prices of both natural gas and crude oil. This improvement would have been greater except for the favorable impact of a take-or-pay settlement, offset by non-recurring reorganization expenses, which increased first quarter 1989 operating income by $9 million. Natural gas sales volume increased by 7 percent from the prior year quarter to 610 million cubic feet per day and average natural gas prices were up by 7 percent to $1.64 per thousand cubic feet, reflecting significant pricing strength early in the quarter. Crude oil sales volume improved by 18 percent from the 1989 quarter to 33,100 barrels per day and average oil prices were up by $3.37 per barrel to $20.08.

First quarter 1990 operating income from the Interstate Natural Gas Pipeline was $65 million compared with $71 million a year ago. The reduction was primarily due to increased reserves for regulatory issues. Pipeline throughput increased by 8 percent to 4 billion cubic feet per day.

Capital expenditures increased to $117 million from $113 million in the same peirod last year, largely reflecting increased development of gas and oil properties.

Stock Repurchase Program

During the first quarter of 1990, BR repurchased approximately 4.5 million shares of its common stock. BR began buying its stock in late 1988 under a 10 million share repurchase authorization and, to date, has acquired a total of 9 million shares at an average price of $41.67 per share. At its meeting yesterday, the Board of Directors approved another repurchase authorization, giving the company authority to buy an additional 10 million shares in the open market from time-to-time depending on market conditions.

Asset Sales

In October 1989, BR announced plans to sell the real estate assets held by Glacier Park Co., a wholly owned subsidiary, for an estimated value of $450 million. To date, BR has sold or agreed to sell properties totaling $125 million and, in conjunction with Morgan Stanley and Co., is actively marketing the balance of the real estate portfolio.

BR has also negotiated sales agreements for its remaining timber and forest products assets with proceeds from these transactions totaling approximately $45 million.

SUNNYVALE, CA (APRIL 11) BUSINESS WIRE - Lockheed Integrated Solutions Co. won the CRESCENT project to integrate new technologies that will improve the productivity and safety of commercial vehicle operations.

Lockheed's work will also increase the efficiency and effectiveness of traffic management by transit agencies, and state and local governments.

A data collection system consisting of weigh-in-motion, automatic vehicle identification and automatic vehicle classification equipment will be installed in a number of locations along a crescent-shaped route of western states.

The project's location extends along I-10 through Texas, New Mexico, Arizona and California to the greater Los Angeles area, then north along I-5 through California, Oregon, and Washington to the international border.

The CRESCENT Demonstration Project is an extensive integrated test under day-to-day operating conditions in which approximately 4,500 commercial vehicles will be tested in four phases during a two and one-half year period.

The CRESCENT project represents the culmination of five years of research by the Heavy Vehicle Electronic License Plate (HELP) program. CRESCENT will be implemented under the direction of a project steering committee -- the CRESCENT Implementation Group.

Subcontractors Motorola Inc. and EVEREX will work with Lockheed on the CRESCENT project.

SAN FRANCISCO (APRIL 11) BUSINESS WIRE - Barneyscan Corp. made two major announcements at MacWorld Expo in San Francisco Tuesday that makes its Color Imaging Systems product family more attractive than ever.

The announcements, made at Moscone Convention Center, included the introduction of the CIS 3515 Professional 35mm Scanning System (replacing the CIS 3510 model) and an industry-first ''Image Trade-in Program'' that rewards new customers for exchanging designated scanners for the CIS 4520 Multi-Format Production Scanning System.

On Mar. 6, Barneyscan introduced its new Color Imaging Systems product family to a standing-room only news conference at the Seybold Professional Publishing Conference in Boston.

The product family included: the CIS 4520 Multi-Format Production Scanning System; the CIS 3510 First Professional 35mm Scanning System; CIS XP Extended Image Processing Software; CIS ColorAccess Calibrated Color Separation Software; and CIS Gallery Image Cataloging Software.

The Color Imaging Systems product family is designed to provide the publishing industry, and other strategic markets, with high-quality color design and pre-press system capabilities at desktop affordability.

The CIS.3515 Professional 35mm Scanning System scans high-resolution images with a rigidly controlled fiber optic light source. It produces accurate, distortion-free images that are true to the color of the original picture.

The CIS.3515 has the same suggested retail price as the CIS.3510 -- $9,495 for the Macintosh II version and $9,095 for the PC/AT version. CIS.XP Extended Image Processing Software with QuickScan is included for the Macintosh II version only.

Barneyscan's Image Trade-In Program enables end-users to trade in any qualifying 35mm scanner and receive up to $6,500 toward the purchase of the CIS.4520 Multi-Format Production Scanning System. The offer is in effect until June 30 and proof-of-purchase is required.

Color Imaging Systems from Barneyscan Corp. is a family of fully integrated products designed to provide the publishing industry, and other strategic markets, with high-quality color design and pre-press system capabilities at desktop prices.

Barneyscan Corp., founded in 1986, is an established developer and manufacturer of market-driven system solutions that manage the integration of images into computer applications. The company is headquartered in Alameda.

TOKYO (APRIL 11) BUSINESS WIRE - Novell Inc. (NASDAQ:NOVL), developer of NetWare systems software products, Wednesday launched a Tokyo-based joint venture with SOFTBANK Corp., Japan's leading software and peripheral distributor and technical publishing house.

The announcement caps five months of negotiations involving Novell, SOFTBANK and five Japanese development partners: Canon, Fujitsu, NEC, Sony and Toshiba.

Operating as Novell K.K., the joint venture has been legally registered to do business in Japan since March 30, 1990, with Novell as the majority stockholder.

Novell K.K. will market and support Japanese versions of Novell's NetWare products, adapted to run on Japanese computer systems and featuring screen displays and technical documentation translated into Japanese.

Novell and its development partners will collaborate on porting and translation issues. As end-user products emerge, Novell's IMSP (Independent Manufacturers Support Program) hardware certification program will test them to ensure compliance with NetWare performance and reliability standards.

Service and support will also be Japanese. ''Our technical support will be local,'' Gemassmer said. ''Novell K.K. will have Certified NetWare Engineers here on staff, fully trained by Novell, who can deal with technical problems directly, with no time-zone conflicts and no language barriers.

Through its support staff, Novell K.K. will also sponsor the NetWare Consortium, a group founded to encourage development of applications on NetWare. The consortium will offer information, training and user group meetings to qualified software developers. Availability

Japanese NetWare 386 will be available from Novell K.K. in the Fall of 1990. Novell K.K. will use the time between now and initial product shipments to complete training of its technical support staff and develop relationships with potential Japanese customers.

SOFTBANK Corp. is Japan's largest distributor of software and computer peripherals. The company is also the largest publisher of computer-related books and magazines in Japan, among them Japanese editions of PC Week and PC Magazine.

Founded in 1981, SOFTBANK maintains offices in major Japanese cities and has an American subsidiary, SOFTBANK America Inc., located in Santa Monica Calif. The company's 1989 fiscal revenue was 28 billion Yen.

Novell Inc. is the leading independent provider of open, high-performance systems software products. The company's NetWare network operating system has become a standard for personal computer-based local area networks. Novell had revenue of U.S. $422 million for fiscal 1989.

#90101b0077 04/11/1990 ~Business Wire

OAKLAND, CA (APRIL 11) BUSINESS WIRE - ''In changing the name of 'Citicorp Savings California' to 'Citibank,' we become part of Citibank's drive to revolutionize the banking industry--where community banking comes with a national network,'' commented David A. Brooks, division executive for Citicorp's U.S. Consumer Banking Group in the West, in announcing the name change.

Effective Monday, April 16, the 132 Citicorp Savings California branches will officially change their name to Citibank, Federal Savings Bank (F.S.B.). The change occurs simultaneously with other Citibank savings banks in Illinois, Florida and the District of Columbia, which will begin providing customers with increased access to community banking services nationwide.

Innovations for Citibank, F.S.B. California customers include 24-hour CitiPhone banking, with a toll-free ''800'' number that makes banking as easy to do in the middle of the night as it is in the middle of the day. With CitiPhone, customers can check balances, move money between accounts and do other transactions in their California accounts from anywhere in the United States, seven days and nights a week.

And Citibank California customer can access their money with their Citicards through more than 30,000 ATMs nationwide.

In California, the official name change will be marked by celebrations at each branch. In addition, a major promotional campaign will offer new customers two years of free checking when they open a Cit-One Regular Checking account between April 16-21, followed by a six-week promotion that includes special product offers and a sweepstakes.

Citibank, F.S.B. is a subsidiary of Citicorp, one of the world's largest and most diverse financial organizations, with assets of more than $200 billion. Citicorp conducts consumer (retail) banking activities at 600 locations in Arizona, California, District of Columbia, Florida, Illinois, Maine, Maryland, New York, Nevada and Utah.

Today, one in five households nationwide does business with the company. Citicorp has had consumer banking operations in California since 1982, as a result of the acquisition of Fidelity Savings of San Francisco.

FRESNO, CA (APRIL 11) BUSINESS WIRE - WestAir Holding Inc. (ASE:WAH)

announced that a special edition of VISaVIS, United Airline's inflight magazine, will be produced for its United Express airline operations beginning with the May 1990 issue.

VISaVIS is published by East/West Network Inc.

Starting in May, WestAir/United Express, NPA/United Express and Atlantic Coast Airlines/United Express will all receive an edition of VISaVIS identical to United's version, with an additional ''United Express'' section in the center of each issue. Each of the three WestAir Holding airline units will share a common version of the United Express VISaVIS with a few pages of each issue devoted to regional advertising and editorial copy.

''East/West Network publishes one of the finest inflight magazines in the industry, and their United Express version of VISaVIS should further enhance our inflight service throughout our system,'' said Timothy P. Flynn, chairman of WestAir Holding.

WestAir Holding Inc. is the largest regional airline company in the United States serving 53 cities in 12 states with a fleet of over 90 jet and jet-prop aircraft. The company's major hubs are in Los Angeles, San Francisco, Portland, Seattle, Fresno, Sacramento and Washington D.C.

WestAir/United Express serves cities in California, Nevada and Arizona. NPA/United Express serves the Pacific Northwest, and Atlantic Coast Airlines/United Express serves 10 cities in five eastern states from its Washington-Dulles hub.

The company's airlines operate as United Express through marketing agreements with United Airlines.

SAN FRANCISCO (APRIL 11) BUSINESS WIRE - Del Monte Foods announced Wednesday the appointment of Jacqueline A. Bogard as director of Environmental Programs as another step in its ongoing commitment to environmental issues.

Bogard, 38, had been director of Environmental Programs for the Santa Clara County Manufacturing Group since 1986, prior to joining Del Monte Foods last month.

At Del Monte Foods, Bogard will be responsible for developing new, and

managing existing environmental programs that impact all areas of the business.

In addition, she will act as Del Monte's environmental issues representative in the areas and communities where the company has operations. Del Monte Foods has been a food industry leader in environmental compliance, having initiated environmental management activities at the corporate level since 1970.

''Personally, it is my belief that the condition of our environment is of paramount importance,'' said A. Ewan Macdonald, president and chief operating officer. ''Jacqueline, in her new position will ensure that our systems, programs, and procedures are not just meeting, but exceeding current environmental standards, and will serve as a model for our industry.''

Bogard received her bachelor of science degree in Wildlife Ecology from the University of Wisconsin. She began her career in 1976 in project management at the geotechnical engineering firm of Woodward-Clyde Consultants.

After receiving her master of business administration degree in 1984 from the University of California, Berkeley, Bogard joined Intel and held various marketing positions before joining the Santa Clara Manufacturing Group in 1986.

Del Monte Foods is a privately held, multinational company headquartered in San Francisco. Del Monte Foods manufactures and markets foods and beverage products under the Del Monte brand.

MILLBRAE, CA (APRIL 11) BUSINESS WIRE - Homestead Financial Corp. (NYSE:HFL, HFLB) reported strong first quarter 1990 net income of $4.5 million or 40 cents per share compared to a net loss of $21.5 million or $1.90 per share for the first quarter of 1990.

The company also announced that Wednesday it received approval of the Capital Plan of Homestead Savings, the company's savings and loan subsidiary, from the Office of Thrift Supervision. The goal of the Capital Plan is to be in compliance with the regulations as early as the end of 1990.

''The benefits of the company's restructuring actions over the last two

years are beginning to result in improved core earnings for the savings and loan subsidiary while our real estate development subsidiary continues to produce strong results,'' commented Lawrence Weissberg, chairman and chief executive officer, when making the announcement.

This announcement is being made at this time because of a recent potentially misleading article which appeared in the news. Additional information concerning the subject matter of this announcement will be released next week.

FORT WAYNE, IN (APRIL 11) BUSINESS WIRE - New responsibilities for two

executive vice presidents and a series of corporate organizational changes were announced today by Ian M. Rolland, president and chief executive officer of Lincoln National Corp.

P. Kenneth Dunsire will assume responsibility for all of Lincoln National's holding company operations, while Robert W. Crispin will assume the duties of a newly formed insurance and investments operating unit.

Reporting to Dunsire will be the Technical and Staff Services Division, Financial Division, Treasurer's Department and Corporate Secretary's Office. He will also work with Rolland on issues involving corporate strategic direction.

Crispin will be in charge of the Individual Life & Health Group, Savings Products and Pension Investments while continuing to oversee the corporation's investment operations.

Operating units of Lincoln National will continue to report to Rolland.

Lincoln National Corp. is the nation's seventh largest holding company whose subsidiaries are engaged primarily in insurance and investment management. Lincoln National has assets of more than $25 billion and revenues exceeding $8 billion.

SCHENECTADY, NY (APRIL 11) BUSINESS WIRE - Environment/One Corp. posted record 1989 revenues of $10,440,198, a 20.7 percent increase from 1988's $8,643,947.

Major reinvestment in product development, personnel and facility upgrades offset net earnings to $213,905, or 5 cents per share, compared to $636,592, or 16 cents per share, in 1988.

Angelo Dounoucos, president and chief executive officer, described 1989 as the ''beginning of a new phase of renewal, progress and growth. Three new products were introduced in 1989, two in Pressure Sewer Systems and one in Energy Systems. These new products will make the company even more competitive in the 1990s.''

Due to a major order in Pressure Sewer Systems received during the first week of January, 1990 began with a record backlog of $4,680,000.

Shareholder equity also increased to $2,543,521 in 1989 (from $2,328,726 in 1988).

Dounoucos sees the profit picture improving in 1990, and the near future as an extraordinary opportunity for growth, and gain in shareholders value as the company's products and services continue to become more attractive in an increasingly environment-conscious market.

Environment/One Corp., based in Niskayuna, N.Y., is a high-technology, manufacturer of environment products and provider of environmental testing and measurement services.

Company stock is listed on the Boston Stock Exchange under the trading symbol EON.

Annual meeting will be Thursday, May 24, at 2 p.m., RAMADA Conference Center, Schenectady.

#90101b0126 04/11/1990 ~Business Wire

SANTA CLARA, CA. (APRIL 11) BUSINESS WIRE - Applied Materials Wednesday announced that AT&T Microelectronics has purchased a second Precision 7700 Epi system, after extensive production evaluation of their original unit.

AT&T was a beta site for one of the early 7700s, a system that has since been phased into full production at the company's Allentown, Pa. advanced wafer fab facility.

''The initial Precision 7700 Epi was one of the most successful product evaluations we have conducted. That system met and exceeded all our most advanced epi requirements. The new 7700 will further extend our epi layer fabrication capability by providing advanced epi films in a highly cost-effective system,'' said Alex Mackiewicz, works director at AT&T.

The systems are being used both to provide mass-production ''foundry'' epitaxial layers on silicon wafers that AT&T sells worldwide and in AT&T's own highly advanced ASIC and SRAM devices. AT&T is one of the few U.S. merchant suppliers of epitaxial deposition services, supplying wafers to numerous companies, including SEMATECH.

''AT&T already has a large installed base of other Applied Materials' radiantly heated epitaxial reactors, primarily the AMC 7810/20 series systems.

The Precision 7700 Epi system, introduced in May 1989, combines the latest generation of Applied Materials' industry standard radiant heating

technology with significantly larger batch sizes than Applied Materials AMC 7810/20 series of epi reactors, and in addition offers fully automated wafer handling and exceptional particulate performance.

Applied Materials Inc. based in Santa Clara, is the leading independent supplier of wafer fabrication systems to the worldwide semiconductor industry. It is a global growth company with market leadership in chemical vapor deposition, dry plasma etching and silicon deposition, and is rapidly increasing market share in ion implantation, its fourth product technology.

AGOURA HILLS, CA (APRIL 11) BUSINESS WIRE - Bishop Inc. (OTC/NASDAQ:BISH) announces an innovative product strategy incorporating its entire product line into the engineering center of the '90s.

By combining the product and marketing strategy of traditional Bishop products with the advanced products and services offered through InterCad, Bishop's Santa Clara, Calif., subsidiary, Bishop creates an integrated distribution channel unparalleled in the industry.

Within a single facility Bishsop offers the most advanced system integration services including networking, design automation through CAD, custom software development and a wide range of value-added services. In

addition, the same facility will service traditional engineering requirements including reprographic equipment, a wide range of output devices, engineering supplies and furniture.

The entire Bishop sales force will be integrated into regional engineering centers offering a full-service approach to the engineering marketplace.

Bishop, with headquarters in Agoura Hills, was founded in 1965 and operates numerous businesses established to serve the engineering, architectural, drafting and design communities.

In addition to its chain of Design and Drafting Supply Centers, it also owns Bishop/InterCad, the number one value-added reseller of Sun Microsystems and Digital Equipment Corp. engineering workstations, Accupress, a format/title block printing company.

Bishop also maintains 135 dealers in 72 countries throughout the world.

SAN JOSE, CA. (APRIL 11) BUSINESS WIRE - Anthem Electronics Inc. reported net sales, net income and earnings per share for the first quarter ended March 31.

The company's net sales for the first quarter were $100,006,000 compared to $70,020,000 for the first quarter a year ago, a 43 percent increase. Net income was $5,683,000 for the first quarter compared to $3,012,000 for the like quarter last year, an 89 percent increase.

Earnings per share for the first quarter were 48 cents compared to 27 cents for the like quarter last year, a 78 percent increase. The percentage increase in earnings per share is lower than the net income increase due to the dilutive effect of stock options.

Anthem Electronics Inc. distributes a broad range of semiconductors and subsystems to original equipment manufacturers throughout the United States.

WASHINGTON (APRIL 11) BUSINESS WIRE - Airlines serving Florida said Wednesday an increase in the state tax on aviation fuel was not only unwise but unnecessary in helping to finance a $600 million transportation package that is being considered by the state legislature.

The plan would be partially funded by a 60 percent increase over six years in the state's aviation fuel tax, from the present 5.7 cents per gallon to 9.1 cents in 1996.

''The state's aviation fuel tax is already the highest of any state in the nation,'' said Robert J. Aaronson, president of the Air Transport Association (ATA), the Washington trade association for the airline industry. ''In addition, the airlines and their passengers pay -- either directly or indirectly -- for virtually all of the state's airport development costs.

The current system of developing Florida's airports, primarily through negotiation between the airport authorities and the airlines, has resulted in as fine an airport system as can be found anywhere in the world, with

very little burden to Florida's taxpayer. Why now shift the burden of funding airports to the state, and raise taxes to boot?''

Airport development costs are currently underwritten by airline landing fees and rental payments made by the airlines and airport concessions. For example, current construction projects at four major Florida airports (Orlando, Miami, Tampa and West Palm Beach) total approximately $1.2 billion, with $710 million underwritten by the air carriers.

Federal dollars collected from airline passengers and shippers through airline ticket taxes add $350 million, and the remaining $120 million comes from state revenues, which include the present jet fuel tax.

ATA expressed concern that further increases in the fuel taxes would result in decreasing rather than increasing expansion of scheduled airline service and general aviation activity within the state.

''With airlines offering frequent service between 18 major airports in the Sunshine State and to 1,210 cities outside the state, Florida consumers enjoy a quality and value of airline service that is equal to or better than any state in the nation,'' Aaronson said.

''The airline industry directly and indirectly generates jobs for more than 760,000 Florida residents and has a $40 billion annual impact on the state's economy.''

SAN FRANCISCO (APRIL 11) BUSINESS WIRE - Beginning Friday, April 13, Pacific Bell customers can set up an 800 number over regular business telephone lines and specify where they want the toll-free number to be available, from throughout the state down to a single community.

Statewide coverage will be provided in tandem with a long-distance carrier selected by the customer.

''Our new Custom 800 service allows businesses of all sizes to tailor an 800 number arrangement that meets their specific needs, at 20 to 60 percent less cost than our existing 800 services,'' said Gail Nugent, Pacific Bell product manager for Custom 800.

''In addition to choosing from where they want to receive calls, businesses can route their calls to different locations based on time of day, day of week, where the call originates or several other factors.''

Businesses typically use 800 numbers to provide callers with toll-free access for such purposes as placing orders, responding to advertising, making reservations and inquiring about products and services.

Pacific Bell is the first local telephone company to offer an 800 service with the ability to customize calling areas and call routing. ''This feature should make Custom 800 especially attractive to small businesses, who may feel that other types of 800 service cover too much territory or are too expensive to set up and maintain,'' said Nugent.

Nugent added that Custom 800 also allows a business to establish contingency routing in case a fire, power failure or other emergency makes it impossible to receive calls at the normal location.

Custom 800 subscribers can request information on the 800 calls they receive, such as the geographic areas where calls originate, the time and date of calls, the percent of calls completed and the number and originating location of calls attempted from outside the subscription area.

''A business can manage its customer service and marketing operations better if it has useful information about the nature of the 800 calls it receives,'' said Nugent. ''The Call Data feature of Custom 800 can help customers evaluate advertising effectiveness, test new marketing plans, maximize call handling resources and plan expansion.''

Pacific Bell will handle all Custom 800 calls that originate and terminate within one of its 10 regional Service Areas. If a customer also wants to receive calls from other Service Areas or from throughout the state, Pacific Bell can arrange for complementary service with the same 800 number from one or more participating long distance carriers chosen by the customer.

Pacific Bell is a subsidiary of Pacific Telesis Group, a diversified telecommunications corporation based in San Francisco.

DALLAS (APRIL 11) BUSINESS WIRE - American Medical International Inc. (AMI) and the Perot Systems Corp. have signed a preliminary agreement under which Perot Systems will assume responsibility for the data processing operations and systems technology of AMI and its hospital subsidiaries.

The total value of the contract is over $100 million over a five-year

period. The arrangement is expected to provide AMI's hospitals with access to newer, more efficient hospital data processing products and will reduce AMI's overall operating costs by at least $20 million annually.

Under the terms of its agreement with Perot Systems, AMI will turn over its data processing operations and telecommunications services to Perot Systems. In addition, AMI will rely on both Professional Health Care Systems (PHS), which is 40 percent owned by AMI and Perot Systems for support and development of technology products and services.

According to AMI's chairman and chief executive officer, Harry J. Gray, ''This arrangement with Perot Systems is another important step toward focusing AMI on the delivery of the highest quality health-care services through our domestic acute-care hospitals and making our overall organization more cost efficient.''

''Together with our advisor, Price Waterhouse Consulting Group, AMI evaluated a full range of potential partners over a four-month period. We feel that Perot Systems understands the importance of technology in the delivery of those services and has convinced us of their commitment to this industry and to AMI.''

In a related transaction, PHS and the Perot Systems Corp. entered into a marketing agreement under which Perot Systems will have the right to market the hospital systems products developed by PHS to non-AMI hospitals.

Perot Systems chairman and founder, H. Ross Perot, stated: ''We are excited about our new relationship with AMI. This relationship will not only help AMI to achieve significant technology cost savings, it will also help AMI benefit from the development of newer, more efficient hospital technology products for use by its hospital subsidiaries.''

AMI owns and operates over 50 acute care and psychiatric hospitals in the United States as well as several facilities in Europe.

Perot Systems was founded by H. Ross Perot on June 1, 1988. They are recognized as a leader in the area of general contracting of information systems, enterprise integration and automation, systems integration and project management. Perot Systems has major contracts in the financial services, insurance, communications, publishing and health-care industries.

CHICAGO (APRIL 11) BUSINESS WIRE - United Airlines announced Wednesday it will reduce its deepest discount fares between points in the Northeast and California by an average of 15 percent for travel May 1 through June 11.

''These fare reductions are designed to stimulate additional east- west travel across the country during a traditionally slack demand period between the Easter/Passover holidays and summer,'' said John C. Pope, executive vice president-marketing and planning.

The new round-trip fare levels will be $358 off-peak and $398 peak, which represent a reduction of $60 to $70 from current fares. Off-peak is defined here as travel between noon Monday and noon Thursday; peak applies to the rest of the week.

Customers traveling on the new fare levels must meet the standard conditions that govern use of deep discount fares, such as 14-day advance

purchase, round-trip purchase and payment within 24 hours of making a reservation. The fares also require a Saturday night stay, are non-refundable and seats are limited.

Markets in the Northeast where the new fares will be offered are Allentown/Bethlehem; Albany; Baltimore; Bangor; Boston; Burlington; Buffalo; Harrisburg; Hartford; Manchester; Newark; New York; Philadelphia; Providence; Portland, Maine; Rochester; Syracuse; Washington, D.C.; and White Plains.

Markets in California where they will be offered are Burbank, Long Beach, Los Angeles, Oakland, Ontario, Orange County, Sacramento, San Diego, San Francisco and San Jose.

#90101b0232 04/11/1990 ~Business Wire

HOUSTON (APRIL 11) BUSINESS WIRE - Continental Airlines on Wednesday said it has agreed to a $215,000 settlement with the FAA in the final step of the government's one-and-a-half-year-old ''white glove'' inspection.

The findings did not involve a single safety of flight violation and the settlement is one of the lowest in recent aviation inspections. In the settlement, there has been no admission of violation of any of the Federal Aviation Regulations by Continental.

When the report was issued, the FAA flight standards service director said: ''Although the agency conducted over 350 en route inspections, I am not aware of a single safety-of-flight related discrepancy. This speaks well of your (Continental) commitment to safety.''

The original 100-page report stated that the FAA inspectors were ''very impressed with the professionalism displayed by Continental cockpit and cabin crews while conducting enroute inspections. Cockpit resource management was evident on all flights.'' Additionally, station personnel ''were found to be well trained.''

The National Aviation Inspection Program (NASIP), a regularly scheduled inspection, was conducted during the Fall of 1988 by 50 FAA inspectors. The Continental inspection was the most comprehensive inspection ever conducted by the FAA and performed by the largest national inspection team ever assembled.

The inspection included the observation of approximately 800 pilots and 1,000 flight attendants, 200 ramp inspections and 70 spot inspections. Inspectors flew on 359 Continental flights during the inspection.

The team examined 12 operations areas, including cabin safety, dispatch/flight release, crew training records, flight and duty time records, airport analysis and performance data, and station facilities.

#90101b0258 04/11/1990 ~Business Wire

LOS ANGELES (APRIL 11) BUSINESS WIRE - Teledyne Inc. Wednesday reported that net income for the first quarter of 1990 was $58.3 million, or $1.05 per share, compared to $70.5 million, or $1.26 per share, for last year's first quarter.

Sales were $836.9 million for the first quarter of 1990, compared to $864.3 million for the first quarter of 1989. Sales for the first quarter of 1990 decreased from the same period of the prior year in all segments except aviation and electronics.

Income of continuing operations was $32.7 million for the quarter ended Mar. 31, 1990, compared to $35.2 million for the same period in 1989. Operating profit in 1990 decreased from last year's first quarter in all segments except the consumer segment.

Income of continuing operations in 1990 includes a reversal of $7.7 million provision for income taxes which had been recorded in prior years on undistributed earnings of insurance and finance subsidiaries and which is no longer necessary as a result of the spin-off of Unitrin Inc.

Income of discontinued operations, primarily Unitrin Inc., was $25.6 million for the quarter ended Mar. 31, 1990, compared to $35.3 million for the same period of 1989. As previously announced, Teledyne is distributing to its shareholders all of the outstanding common stock of Unitrin Inc., which is comprised of Teledyne's former insurance and finance subsidiaries.

It is anticipated that the Unitrin Inc. stock certificates will be mailed this month.

Total revenue of Unitrin Inc. and subsidiaries for the three months ended Mar. 31, 1990, was $298.6 million compared to $272.1 million for the first quarter of 1989. Net income of Unitrin Inc. and subsidiaries for the three months ended Mar. 31, 1990, was $25.6 million, or 46 cents per share

compared to $34.7 million, or 63 cents per share, for the first quarter of 1989.

The casualty insurance companies experienced a decrease in underwriting results during the first quarter of 1990 as compared to the prior year primarily due to adverse experience from storms and in personal lines.

Per-share amounts for Unitrin Inc. were computed using 55,412,845 as the average number of shares as of Mar. 31, 1990, and 1989, as if the shares of common stock had been outstanding for the periods presented.

A cash dividend for the quarter ended Mar. 31, 1990, of 20 cents per share was paid on Feb. 21, 1990, to shareholders of record Feb. 7, 1990. Teledyne Inc. net income and cash dividend per-share amounts have been adjusted for the 5-for-1 common stock split distributed Mar. 1, 1990.

PHOENIX (APRIL 11) BUSINESS WIRE - Robert Stallings, chairman of First Western Partners Inc., Wednesday announced that First Western Partners would not be submitting a bid for Western Savings from the Resolution Trust Corp.

First Western was informed on Apr. 9 by its planned lead investor that they had decided to pursue an alternative transaction.

''Naturally, we are disappointed to be unable to pursue the Western acquisition, especially given the tremendous time and effort invested by many people on this project,'' said Stallings. He went on to say that ''I am hopeful that the winning bidder for Western will continue to operate the company in a manner which best serves the needs of the community in the 1990s and beyond.''

First Western Partners will continue to seek out special investment strategies and opportunities from its new offices located in the First Interstate Bank Plaza in downtown Phoenix.

The primary focus of the group will be unique situation assets and operating companies now controlled by the RTC. The group believes that the thrift problems in both Arizona and elsewhere are much larger and more complex than anyone had previously imagined.

Stallings concluded by saying that, ''as a result, tremendous opportunities will be available to those who effectively follow the resolution process closely in the months and years ahead.''

SAN FRANCISCO, CA (APRIL 11) BUSINESS WIRE - A new agreement to deliver comprehensive, client-server-based information-management solutions to corporate customers was announced Wednesday by Claris Corp. and Exis, at the MacWorld Expo in San Francisco.

Exis is a strategic alliance of KPMG Peat Marwick and Apple Computer Inc.

The development strengths of Claris and service capabilities of Exis will be combined to serve corporate customers' total information-management needs, including strategic systems assessment, executive-information software, consulting, training and post-sales support.

Under the agreement, the recently shown Claris database query technology, a Macintosh-based tool for accessing corporate databases, will become a jointly labeled product for Claris and Exis. Claris will continue development to turn the query technology into a commercial product before the end of 1990, and will generate market awareness and customer demand.

Exis will provide corporate sales and support, while supporting Claris' development and marketing efforts.

Announced in February, Exis is a strategic alliance focused on creating executive-information and decision-support systems built on the advantages of the Macintosh in client-server environments. Exis consists of more than 25 Macintosh programmers and about 60 consultants.

First shown in February, the Claris query technolgoy enables Macintosh users to access, browse and download data from corporate databases using the standard, intuitive Macintosh interfaces.

The query technology lets users transparently log onto and browse through large databases and select and download data to their applications -- for example, the new FileMaker Pro from Claris -- where the power of Macintosh can be put to work formatting and publishing information.

Claris Corp., one of the top two vendors of Macintosh software, is a subsdiary of Apple Computer Inc., and develops, markets and supports application software for Macintosh and Apple II.

Exis, a technology firm of KPMG Peat Marwick, provides a full range of systems integration services, including project management, systems

planning and analysis, application and database development system configuration, training and support.

COSTA MESA, CA (APRIL 11) BUSINESS WIRE - ICN Biomedicals Inc. (AMEX:BIM) Wednesday annnounced an offer to holders of Swiss francs 5-1/2 percent exchangeable certificates 1987 - 2002 of Bio Capital Holding, Guernsey, C.I., established by ICN Biomedicals Inc., Costa Mesa.

ICN Biomedicals Inc. offers holders of certificates, which are exchangeable into the common stock of ICN Biomedicals Inc. an amendment to the exchange price to reflect the current market price of the stock.

Present exchange conditions are 225 shares per certificate of Swiss Francs 5,000 at an exchange price of US $ 14.43. The improved terms will be set on April 17, and the new number of shares will equal the par value of the certificate on the basis of the stock's market price on that date. All other conditions remain unchanged. The offer is valid from April 19, to May 4.

For those holders who do not accept the offer, the exchange price of US $ 14.43 will be applicable. Principal acceptance agent for this transaction is DG Bank (Switzerland) Ltd.

The 5-1/2 percent exchangeable certificates have not been and will not be registered under the Securities Act of 1933 and may not be offered, sold or delivered directly or indirectly in the United States or to any U.S. person as part of the distribution of the certificates.

The common stock of ICN Biomedicals Inc. is listed on the American Stock Exchange and traded under the symbol ''BIM.''

Common stock resulting from this exchange and subsequent conversion will be registered under U.S. securities laws.

ICN Biomedicals Inc. is a major worldwide supplier of research chemicals and related products to the biotechnology research and clinical diagnostic marketplaces.

PORTLAND, ME (APRIL 11) BUSINESS WIRE - UNUM Corp. (NYSE:UNM) Wednesday announced creation of a long term care insurance division. The new division will unite the company's three long term care products, currently designed and marketed from multiple divisions within the firm. David E. Hughes, current general counsel and senior vice president of the company's marketing and communications division, will head the new division.

''Creating this division is the next step toward realizing our vision of becoming the leader in long term care insurance,'' said James F. Orr, III, UNUM chairman and chief executive officer.

Orr said Executive Vice President Stephen B. Center will oversee the new long term care division in addition to Center's other responsibilities as head of the company's employee benefits division.

In a related move, UNUM also announced that its retirement products, including 401(k) and tax-sheltered annuity plans, will transfer to the company's employee benefits division. Currently, retirement plans are designed and marketed, along with one of the company's long term care initiatives, from the retirement products division.

''This organizational change allows UNUM to offer a more consolidated employee benefits package to our customers and provides an opportunity to build upon existing distribution strength,'' Orr said.

The changes are expected to take place by June 1, 1990.

UNUM Corp. is a specialty insurance holding company with $8.6 billion in assets. Headquartered in Portland, Maine, UNUM is the nation's leading provider of group long term disability and a major provider of employee benefits and individual disability insurance. The company also markets retirement plans and long term care insurance.

IRVINE, CA (APRIL 11) BUSINESS WIRE - Western Digital Corp. (AMEX:WDC) Wednesday announced that it had signed a patent cross- license agreement with IBM.

The agreement provides Western Digital with a five-year license covering a broad range of its products including integrated circuits, disk and video controllers, and other circuit boards. Western Digital will license its patents to IBM.

Roger W. Johnson, chairman, president and chief executive officer of Western Digital, said, ''We are pleased to have reached this agreement with IBM because it further strengthens our relationship with this important industry leader. The agreement gives us access to IBM's extensive patent portfolio and includes patents covering leading process and product technologies in the semiconductor and computer industries.''

Under the agreement, Western Digital will make a series of fixed payments to IBM. The payments are consistent with the company's expectations. Neither the initial payment nor the remainder of them over the license period will have a material impact on earnings. Specific terms of the agreement are confidential.

Western Digital Corporation, headquartered in Irvine, California, is a multinational company that designs, develops, manufactures and markets semiconductor devices, subsystems, and intelligent disk drives for original equipment manufacturers and resellers which serve the microcomputer industry.

The Storage Products unit provides a broad range of intelligent disk drives and storage controllers. The Microcomputer Products unit provides communications, imaging, systems logic, and integrated systems products.

#90101b0647 04/11/1990 ~Business Wire

LOS ANGELES (APRIL 11) BUSINESS WIRE - Security Pacific Corp. (NYSE: SPC) Wednesday reported net income of $188.4 million for the first quarter of 1990, up 5 percent from the $179.3 million earned in the first quarter of 1989.

On a per common share basis, earnings of $1.54 were unchanged from a year ago.

Robert H. Smith, president and chief executive officer, said, ''The continuing growth and strength in our primary markets in California produced the second best quarterly net income in Security Pacific history, and we are working diligently to expand our customer base in those markets. Overall, our basic earnings sources are balanced and diversified and we expect continued growth for the Corporation throughout the year''.

Fully taxable equivalent net interest income for the first quarter was $746.6 million, up $12.8 million, or 2 percent from the year-ago quarter. This increase reflected an 8 percent increase in earning assets, partially offset by a decline in the net interest margin to 3.95 percent from 4.21 percent in the year-ago first quarter.

The decline in the net interest margin was due to various factors including the impact of the year-end 1989 securitization and sale of certain credit card loans and abnormally high spreads between loan yields and the cost of retail deposits in the first quarter of 1989. The 8 percent increase in earning assets from a year ago reflected a 13 percent increase in domestic loans. Real estate loans increased 29 percent, primarily in the 1-4 family residential category. Ready ReservAccount/ charge card loans decreased 46 percent reflecting the year-end 1989 credit card securitization and sale, while other consumer credits increased 18 percent.

Domestic business loans increased 7 percent and lease financing was 12 percent higher. International loans increased 4 percent. Lower rate other earning assets declined 15 percent compared to the year- ago quarter, primarily in the due from banks--interest bearing and investment securities categories.

Non-interest income for the quarter was $479.6 million, up $48.0 million, or 11 percent, from the 1989 first quarter results. Benefiting non-interest income were increases in fiduciary and investment management fees of $9.6 million, service charges on deposit accounts of $7.1 million, and the all other category of $17.8 million, reflecting, in part, increased gains from loan sales which were minimal in the year-ago quarter.

HUNTINGDON VALLEY, PA (APRIL 11) BUSINESS WIRE - FPA Corp. (ASE:FPO) announced Wednesday that it had consummated an exchange agreement with certain holders of its 12 5/8 percent senior notes and 14 1/2 percent subordinated debentures under which the company transferred various Florida real properties, securities and other assets of the company to such holders or their nominee in exchange for $21,319,000 principal amount of senior notes due August 15, 1993 and $18,460,000 principal amount of subordinated debentures due Sept. 1, 2000, constituting 82 percent of the outstanding senior notes and 87 percent of the outstanding subordinated debentures, respectively.

The properties transferred by the company include undeveloped tracts aggregating approximately 585 acres at the company's Palm-Aire Country Club at Sarasota development, a commercial tract at Sarasota of approximately 16 acres, 47 lots at the company's Bocaire Country Club development, 47 undeveloped acres at the company's Boca Golf and Tennis Club development, and other miscellaneous Florida real estate assets and related personal property.

In connection with the transaction, the company also issued subordinated notes in an aggregate principal amount of $4 million, bearing interest at prime, maturing April 1, 1997, and providing for prepayment out of future procees to be received by the company from specified Florida real estate transactions.

The company also granted to the nominee for the exchanging holders, which are two insurance subsidiaries of First Executive Corp., an option to acquire 400,000 shares of FPA common stock at a nominal price. The exercise of the option would have the effect of increasing the aggregate ownership interest of First Executive and its affiliates in the company

from 22 percent to almost 30 percent.

Under certain circumstances, the company or its designee would be entitled to reacquire the option of the 400,000 shares of stock issuable pursuant to such option. If the option is exercised, the shares will be placed in a voting trust for which the board of directors of the company will designate the voting trustees.

The agreement anticipates that two directors nominated by a First Executive affiliate will serve on FPA's 8-person board of directors and its 4-person executive committee.

SYRACUSE, NY (APRIL 11) BUSINESS WIRE - Eric Mower and Associates Inc., the Syracuse-based marketing communications agency, and principals of Levy King & White, the Buffalo-based advertising and public relations firm, Wednesday announced an agreement in principal to form a new company in Buffalo called, LKW/Eric Mower and Associates Inc.

The announcement was made by Eric Mower, president and chief executive officer of Eric Mower and Associates.

With its new Buffalo office, Eric Mower and Associates Inc. of Syracuse becomes by far the largest independent advertising agency in New York State outside Manhattan.

The new Buffalo agency, which will be a separate corporate entity of Eric Mower and Associates Inc. of Syracuse, will be part of a two-office upstate New York network with combined billings of $75 million and 150 employees.

Mower will serve as chief executive officer of both the Buffalo and Syracuse corporations.

Peter King, previously chairman and chief executive officer of LKW and now a senior partner of the new agency, said formation of the new company was a necessary step to service and enhance an existing $25 million business.

Eric Mower and Associates of Syracuse was founded in 1959 and brings to the affiliation of its own staff of 100 people and a 1989 gross billings total of over $50 million. The respected agency is the largest privately held advertising agency in New York State outside Manhattan.

Eric Mower and Associates' two-office network will place the firm among the United States' 100 largest advertising agencies, as ranked by the Advertising Age trade publication.

Strattan S. White, formerly LKW president and chief operating officer and now a senior partner of the new agency, said Levy, King & White's clients would immediately enjoy the benefits of the agency's increased dimensions.

Other LKW officers named partners in the new agency are: Carmen R. Fasula senior partner, general manager for finance and operations; Michael R. Cunningham, partner, executive creative director; Judith C. Hojnacki, partner, client services manager; and Douglas Bean, partner, management supervisor.

All six partners will comprise an executive committee which, along with Mower, will manage the new agency.

Mower is a member of the national board of directors of the American Association of Advertising Agencies (AAAA), an officer of the Eastern Region board of directors of the AAAA, and a past president of the New York State Council of the AAAA. He is also president of the board of directors of the Syracuse Symphony Orchestra and serves on numerous community organization boards.

King said that all clients of the former LKW agency, which was founded in 1948, are being notified of the affiliation with Eric Mower and Associates.

CHICAGO (APRIL 11) BUSINESS WIRE - A high-speed, digital engineering printer/plotter that accepts electronic input from a variety of computer-aided-design and engineering, and drawing management systems, and outputs plain-paper prints up to C size was announced here Wednesday by Xerox Corp.

The Xerox 4018 Electronic Graphics Printing System was announced at the Show and Conference of the Association for Information and Image Management (AIIM) by the Xerox Engineering Systems Division (ESD).

The 4018 is the newest in a family of Xerox printers and Versatec plotters that output plain-paper prints up to E size from digital input.

''More and more, our customers are storing information on aperture cards

and in digital form,'' said Edward P. Ryan, vice president and general manager, engineering and graphics product, a unit of ESD.

''The 4018 gives them a way to easily print those images onto paper.''

The 4018, designed for high-volume demands, accepts input from optical-disk storage devices, aperture card and hardcopy scanners, and computer-aided-design workstations. Speeds range from eight prints per minute for 18 x 24-inch prints and up to 20 prints per minute for 8-1/2 x 11-inch prints.

Equipped with a fixed-array recording head, the 4018 prints at a resolution of 400 dots per inch (dpi). The 400 dpi array reproduces fine lines while also producing solid black areas with uniform density. Even diagonals and curves are faithfully reproduced.

The 4018 operates unattended and is designed as a peripheral for a drawing management system, as a network resource in an engineering department and as a remote printer for an engineering reproduction department.

An optional Stacker/Sorter, which holds up to 840 sheets, adds to the productivity of the printer, especially when batch printing.

The 4018 is priced at $39,900. The cost of the stacker is $7,995. Order-taking begins immediately. Availability is scheduled for third quarter 1990.

SHELTON, CT (APRIL 11) BUSINESS WIRE - TIE/Communications Inc. announced that it has repurchased from HCR Partners (an entity controlled by Pritzker family interests) the shares of TIE preferred stock held by HCR.

HCR had excercised its contractual right to cause the company to repurchase the preferred shares for an aggregate amount of approximately $46.5 million in cash. Under the agreement signed today, the purchase price for the shares will be paid through delivery of a TIE note for approximately $46.5 million and six-year warrants to purchase 1,000,000 shares (approximately 3 percent) of TIE common stock at prices ranging from $1.25 to $3.

Upon the closing of the previously announced sale of the company's

European operations to Chinteik Electronic Systems Co. Ltd., $15 million of the note will be prepaid. An additional prepayment of $4 million will be made on May 1, 1991; the balance of the note will be paid in equal monthly installments through Nov. 1, 1996.

The note will bear interest at 10 percent per annum, which rate will increase after Nov. 1, 1994. The note is secured by substantially all of the assets of the company and its subsidiaries.

The company intends to file this Friday its annual report on Form 10-K to reflect the repurchase of the preferred stock. The company had earlier notified the Securities and Exchange Commission of its intention to file the report prior to April 15, 1990.

Thomas L. Kelly Jr., chairman and president of the company stated, ''I am delighted that we have been able to reach this agreement with the Pritzker family interests. It will give us the opportunity to complete the restructuring of the company which started last year and improve the prospects of the company in the years ahead.''

The company is the second largest supplier of key telephone systems in the United States and has been a pioneer of innovative products in the telephone terminal equipment industry for 19 years.

#90101b0711 04/11/1990 ~Business Wire

BOSTON (APRIL 11) BUSINESS WIRE - The Sierra Club has filed a motion seeking a summary judgment in its suit to force Boston's controversial Central Artery/Third Harbor Tunnel project to comply with air pollution control laws.

The announcement was made Wednesday by Blossom Hoag, chair of the club's Greater Boston group.

If granted, the motion could delay construction on the project until it complies with the Air Pollution Control Regulations of the state's Department of Environmental Protection (DEP).

''It was time for us to act,'' Hoag said. ''Governor Dukakis attended a much-publicized groundbreaking ceremony for the project in March. Yet the law clearly states that an air-quality-plans application must be submitted to the DEP before construction begins. No such application was submitted. We feel that the state, in its enthusiasm for the project's imagined benefits, is failing to enforce its own environmental laws.''

As previously announced, the Sierra Club filed a suit against the state in February to ensure that existing air-quality laws are applied to seven large ventilation towers planned for the project. The towers are intended to remove auto exhaust fumes from the depressed Central Artery and vent them into Boston neighborhoods. The club contends the towers are ''facilities,'' as defined by state law, and will vent into areas that already exceed federal and state air-quality standards.

Thomas Bracken, attorney for the club, noted, ''The state has not contested our contention that the ventilation towers are facilities subject to the DEP regulations and review process.''

Hoag added that if the project is carried forward to an advanced stage, a meaningful review of the ventilation towers may no longer be possible. ''Or,'' she said, ''it may show that a major redesign is needed, leading to a huge economic waste that the state can ill afford. Entirely apart from the fact that the law requires it, taking action now is clearly more prudent than paying the cost of a retrofit.''

ALEXANDER CITY, AL (APRIL 11) BUSINESS WIRE - Russell Corp. (NYSE:RML) Wednesday announced a record first quarter in sales and earnings for the 13-week period ended April 1, 1990.

Sales for the first quarter were $159,062,000, an increase of 8 percent over the similar period in 1989. Net income increased 11 percent to $14,215,000 from the previous year's $12,849,000. Earnings per common share were 35 cents for the quarter, vs. the 32 cents posted the previous year's first quarter.

According to a company spokesman: ''Improved margins and production increases confirm that Russell's modernization and expansion plans continue to provide increased capacity and improved efficiencies. We will continue to push for these increases in production as demand for our products remains strong for the year.''

Russell Corp. is an integrated manufacturer and marketer of leisure apparel, activewear, athletic uniforms, better knit shirts and a comprehensive line of lightweight, yarn-dyed woven fabrics. The company's common stock is listed on the New York Stock Exchange and several regional exchanges under the symbol RML.

CINCINNATI (APRIL 11) BUSINESS WIRE - CBIS, Cincinnati Bell Information Systems Inc., announced Wednesday it has signed a contract with Digital Equipment Corp. to provide a complete cellular support system to Deutsche Telepost Consulting GmbH (DETECON), for the Pan-European digital mobile telecommunications network, D1.

The German network is the first step toward the establishment of an integrated European infrastructure for mobile telecommunications, which will allow mobile communications subscribers to use their cellular telephones across Europe with a single phone number. The Pan-European network will begin service in 1991.

CBIS, through its contract with Digital Equipment Corp., is providing information management software for the German network, which will run on more than 100 Digital computer systems. CBIS has already begun work on the project, which will be implemented in stages over the next two years. The CBIS software will incorporate European GSM (Group Special Mobile) standards as they are approved.

Richard Licursi, CBIS president, said, ''This contract with Digital to provide software support for the German network is extremely important to CBIS strategically. One of our major corporate goals is to expand our presence in Europe, and this assignment is a tremendous step toward meeting that goal. To that end, and to increase our ability to better serve our customers, CBIS has established a joint venture -- CBIS-Kingston Ltd. -- currently headquartered in London. This joint venture will allow

us to develop and serve the European market.''

Digital vice president for telecommunications and networks, William R. Johnson, added, ''With the profound changes taking place in Europe, a modern telecommunications infrastructure based on networked computer systems, digital switching and signalling technology, is a very real way to help each country realize the vision of a unified Europe.''

CBIS is a leading information services provider to the U.S. mobile industry, with approximately 70 percent of the mobile subscriber phone bills produced using CBIS software. CBIS, a subsidiary of Cincinnati Bell Inc., is a worldwide information services company. It develops management systems for financial, commercial, and telecommunications entities, as well as management systems used by the federal government.

LAS VEGAS, NV (APRIL 10) BUSINESS WIRE - Unisys Corp. (Blue Bell, Pa.) Wednesday announced Easy access Data Interchange plus (EaDIplus), a major addition to its portfolio of Electronic Data Interchange (EDI) software products.

EDI is the computer-to-computer transfer of common business documents using pre-defined standards.

Unisys new EaDIplus product acts as a centralized EDI server providing EDI data mapping and communications functions in a multihost/multivendor environment.

EaDIplus electronically reformats or maps business documents (such as purchase orders and invoices) provided by an application on the company's host system into a standard format which allows the documents to be transmitted via an EDI translator. EaDIplus is designed to run on a Unisys U 6000 UNIX-based platform.

EaDIplus works as part of an open systems architecture that enables communications with a multitude of hosts using SNA, TCP/IP, and other transfer utilities.

EaDIplus menus and screens were developed using ALLY, a Unisys CASE/4GL (Computer-Aided Software Engineering/Fourth Generation Language) tool.

Along with the EaDIplus data mapping utility on the Unisys U 6000 Series,

TELINK/osa (open systems architecture), developed by EDI, Inc. (Gaithersburg, MD), provides the systems management, translation, and communications capabilities for EDI operations. Unisys also offers extensive EaDIplus customer support services.

EaDIplus software is priced by the size of the hardware. The software ranges in price from $14,000 to $40,000 in the United States.

DALLAS (APRIL 11) BUSINESS WIRE - Just in time for the Easter holiday, Greyhound Lines will expand its passenger service network Thursday by another 28 percent, restoring service to 286 communities that have been without Greyhound bus travel since the strike began, Frank J. Schmieder, president and chief operating officer, said.

Tomorrow's expansion means that the company will be back up to almost three-fourths of its pre-strike miles of scheduled service.

''Greyhound is ready for the Easter holiday,'' Schmieder said. ''We're going to more places more often. This means quicker connections, and we've been able to add this service without increasing prices.''

Greyhound will add 100,734 miles of scheduled service. That addition will increase the total to 459,685 miles of scheduled service daily, or 71.9 percent of pre-strike levels. The additional service includes 120 new schedules.

The Amalgamated Transit Union (ATU) called a strike against Greyhound on March 2. The ATU represents 9,435 Greyhound drivers, maintenance workers and office workers.

LAS VEGAS (APRIL 11) BUSINESS WIRE - EDI Inc. (Gaithersburg, Md.) and Unisys Corp. (Blue Bell, Pa.) Wednesday announced that EDI Inc.'s TELINK/osa (open systems architecture), a UNIX-based translation capability for Electronic Data Interchange (EDI), will be available on the Unisys U 6000 Series.

The new product provides EDI systems management, translation, and communication capabilities and was specifically designed for use on the industry-leading Unisys UNIX-based family.

TELINK/osa, when used on the Unisys U 6000 Series, with Unisys new Easy access Data Interchange plus (EaDIplus) data mapping utility, also announced today, allows seamless integration with a wide variety of mainframes and LANs, including Unisys or IBM mainframes, Digital Equipment Corpo. VAX platforms, and Hewlett-Packard systems.

The development cost of the new EDI translator was partially underwritten by a grant from Unisys Corp.. The two companies will also co-market the product.

TELINK/osa prices start at $9,000. The initial price includes the first year's maintenance. Training, full EDI Standards update service, and a customer service hot-line are provided by EDI Inc.

NASHVILLE, TN (APRIL 11) BUSINESS WIRE - Small businesses and branch offices can now get many of the same call coverage features previously reserved for large corporations with StarTalk, a new application for Northern Telecom's Meridian Norstar digital key telephone system.

''Unanswered phone calls can be a dilemma in the small office setting,'' said John Losier, vice-president, Meridian Key division, Northern Telecom Inc. (NYSE:NT). ''StarTalk addresses this problem by providing complete call coverage. This means calls won't go unanswered.''

StarTalk provides call answering, call routing, and voice mail capability. Users are presented with step-by-step instructions via the liquid crystal display (LCD) that is standard on every Norstar digital telephone set, or by verbal prompts.

''Not only does StarTalk ensure that every call will be answered, it handles each call in a very friendly fashion,'' said Losier. ''StarkTalk is as easy for your callers to use as making the initial call.''

In-bound callers receive verbal prompts to assist in routing their calls, or for leaving a voice mail message, when a line is busy or unanswered. The LCD on each Norstar digital set notifies users of messages received by displaying ''STARTALK CALLED.''

Users simply press a single key to access StarTalk features, including one-touch ''call back'' or ''return message'' for internal calls; internal ''group distribution'' for general announcements; and ''dial-by-name'' calls to co-workers.

StarTalk, with its pre-configured system, is designed for quick installation and operation. The touch of a key can asssign mailboxes and extensions, delete subscribers and change mailboxes and extensions.

StarTalk is the latest application available for Meridian Norstar, a digital telephone system for businesses, branch offices and departments with fewer than 100 employees.

Suggested list price for StarTalk is $10,000 - $20,000 depending on the

size of the system.

Northern Telecom is the leading global supplier of fully digital telecommunications systems. The company provides products and services to the telecommunications industry, businesses, universities, governments and other institutions worldwide. CHICAGO (APRIL 11) BUSINESS WIRE - American National General Agencies Inc. (ANGA), a managing general agent of Aon Risk Services, and the CNA Insurance companies have signed a letter of intent to work toward the establishment of a special insurance program for the entertainment industry.

The new CNA-ANGA venture would offer insurance programs for organizations involved in motion pictures, television, cable, music and live entertainment.

CNA has underwritten insurance coverages for entertainment programs for many years. These will continue to be made available in addition to the CNA-ANGA program.

''We are very excited about the business opportunities which will result from this relationship,'' said Michael D. O'Halleran, chairman and chief executive officer of Aon Risk Services.

''We are proud to have CNA Insurance Companies involved in the program.'' ''This program will allow CNA to expand its presence in the special risk entertainment market,'' said Kevin McHugh, vice president, CNA Specialty Operations Department. ''CNA's diverse experience in these complex lines of insurance and its financial stability will combine well with ANGA's underwriting capabilities.''

The CNA Insurance Companies is the 12th largest all-lines insurance organization in the country, based on 1988 premiums (the latest available data) and is the 10th largest property-casualty insurance operation. CNA has received the highest ratings possible from A.M. Best Co. and the highest claims-paying rating from Standard & Poor's and Duff & Phelps. The Chicago-based company has assets of $28.7 billion as of Dec. 31, 1989.

ANGA is the entertainment underwriting manager of Aon Risk Services. ANGA is a leading underwriting manager in the entertainment industry, with offices in Los Angeles, New York, London and Montreal.

Aon Corp. is an insurance holding company listed on the New York, London and Midwest stock exchanges, with assets in excess of $9 billion. Aon Risk Services' major subsidiaries, located throughout North America and in London, provide reinsurance brokering, reinsurance management, reinsurance and insurance consulting, insurance for the entertainment industry, wholesale brokering and third party administration throughout North America and Europe.

#90101b0797 04/11/1990 ~Business Wire

CHICAGO (APRIL 11) BUSINESS WIRE - Michael D. O'Halleran, chairman and CEO of Aon Risk Services announced that its wholesale brokerage arm, Hayden Insurance Services, has opened two new offices in Chicago and Hoboken, N.J.

The Chicago office will be managed by Thomas S. O'Brien, former president and CEO of Thomas S. O'Brien and Co. Inc. All of O'Brien's former employees will join Hayden. O'Brien will be a senior vice president of the firm. Before setting up Thomas S. O'Brien and Co., O'Brien was president of both Swett and Crawford of Illinois and Stewart Smith Mid-America Inc.

In addition, O'Halleran announced that the wholesale brokerage entity would network its resources with its faculative reinsurance arm, Aon Reinsurance Agency, to provide expanded services and dual marketing forces for the retail brokerage community.

Paul Dreuth, senior vice president of ARA, Rand Renwall, vice president of ARA, and Ned Garmoe, assistant vice president of ARA, will coordinate with O'Brien in the solicitation and placement of wholesale brokerage business.

Hayden also announced that they have opened a wholesale brokerage office in Hoboken, staffed by Al Frezza, Barry Holden, Leon Gonzalez and Bob Van Derhoef -- all senior vice presidents of Aon Reinsurance Agency. They will have identical titles with Hayden.

''The combining of the talents of these people to distribute a wholesale product, combined with our faculative reinsurance resources, will add a new dimension to the wholesale brokerage field. These are very talented individual risk brokers who will bring creative solutions to the wholesale brokerage marketplace,'' O'Halleran commented.

''We will continue to offer separate facilities on both the faculative and wholesale marketplace, while networking the resources to avail our clients with maximum market penetration.''

O'Halleran will be the chairman, president and CEO of Hayden.

Aon Corp. is an insurance holding company listed on the New York, London and Midwest stock exchanges, with assets in excess of $9 billion.

#90101b0803 04/11/1990 ~Business Wire

NEW YORK (APRIL 11) BUSINESS WIRE - The Dun & Bradstreet Corporation announced Wednesday that it plans to seek buyers for Neodata Services, Petroleum Information and Zytron.

Neodata Services, headquartered in Boulder, Colo., is the leading provider of subscription-fulfillment services for more than 270 publications.

Petroleum Information, headquartered in Littleton, Colo., is the leading supplier of drilling, production and gas-transportation data to the oil and gas industries.

Zytron, headquartered in Menlo Park, Calif., is a leading supplier of computer-output services and products to large computer users.

Dun & Bradstreet said the divestitures result from its previously stated strategy of sharpening the company's focus on key markets for D&B's information services.

In making the announcement, Charles W. Moritz, chairman and chief executive officer of The Dun & Bradstreet Corporation, said, ''While these are all profitable businesses, we believe that it is in the best interest of D&B's shareowners to simplify D&B's business mix and focus our investments and resources on those key markets in which D&B's participation and leadership positions are strongest. The largest of these include the markets for risk-management information services, marketing information services, directory information services and business-applications software.''

The absence of operating income from Neodata Services, Petroleum Information and Zytron is expected to be offset by investing and redeploying the cash proceeds from the sales. Actions such as restructuring to produce improvements in cost positions and to discontinue

product lines will be considered. Mr. Moritz said the company continues to expect that 1990 earnings per share will be in the range of $2.80.

On March 5, 1990, Dun & Bradstreet announced plans to sell Datastream International and Interactive Data, leading providers of historical investment information and related services. In announcing the planned sales of Datastream and Interactive Data, the company cited reasons similar to those associated with the planned sales of Neodata Services, Petroleum Information and Zytron.

The Dun & Bradstreet Corporation is the world's largest marketer of business information and related services, with worldwide operating revenue of $4.3 billion in 1989.

DAYTON, OH (APRIL 11) BUSINESS WIRE - Audio/Video Affiliates Inc. (NYSE:AVA) Wednesday reported revenues and net income for the fourth quarter and year ended Jan. 31, 1990.

For the 12 months ended Jan. 31, 1990, the company reported a net loss of $2,577,000, or 36 cents per share, compared with net income of $3,056,000, or 27 cents per share, for the prior fiscal year. The average number of shares outstanding during fiscal 1990 was 7,194,000, compared to 11,226,000 for the prior fiscal year. Revenues for the year totaled $143,660,000, compared with $194,347,000 in 1989.

For the fourth quarter ended Jan. 31, 1990, the company reported net income of $47,000, or 1 cent per share, compared with net income of $1,802,000, or 16 cents per share, for the fourth quarter of the prior year. The average number of shares outstanding during the fourth quarter of fiscal 1990 was 6,461,000, compared to 10,950,000 for the prior year's fourth quarter. Revenues for the quarter totaled $48,335,000, compared to $68,204,000 for the prior year's fourth quarter.

Commenting on the results, Stuart A. Rose, chairman and chief executive officer of Audio/Video Affiliates Inc., said, ''Fiscal 1990 has been a transitional year for the company. During fiscal 1990 the total number of stores decreased by 52, bringing the total to 73 stores, compared to 125 stores in the prior fiscal year.'' Rose attributed the company's decrease in sales and net loss in fiscal 1990 to the store closings and competitive market conditions. However, Rose commented that for the first two months of fiscal 1991, same store sales increased 29 percent as compared to the same period in the prior year.

Audio/Video Affiliates Inc. is a leading specialty retailer of consumer electronics products and appliances. The company, headquartered in Dayton operates stores in 17 midwestern and Sunbelt states under the trade names ''Rex,'' ''TV & Stereo Town'' and ''Kelly & Cohen.''

DAR ES SALAAM (APRIL 11) - Heavy rains and floods over the past nine days described as the most severe in almost 50 years, have claimed at least 54 lives in southeastern Tanzania, according to reports here Wednesday.

Quoting officials, the reports said the death toll could rise much higher since communications with the affected regions of Lindi and Mtwara are interrupted.

The rains and floods have rendered 4,000 families homeless. Rivers burst their banks and flooded maize and paddy fields. Two major bridges across the Lukuleti river, linking Lindi and Mtwara with the rest of the country, were swept away.

Official sources estimated that 72,000 people were in urgent need of food aid. Prime minister and first vice-president Joseph Warioba will fly Thursday to the region for a personal assessment of damage.

He has already sent a ship with fuel for power supplies. The chief health inspector and a doctor have been sent to Lindi with some quantities of preventive medicines. Amref (African Medical and Research Foundation), the East African flying doctor service, has also flown medicines to Lindi and Mtwara to forestall the outbreak of diseases.

In the northern Tanzanian region of Tanga, 255 people in two villages were made homeless when their houses were destroyed by heavy rains and floods.

Meteorologists are not holding out hope for the suffering population.

The department of meteorology in Dar es Salaam has warned that a new depression is lurking over the Indian Ocean which might develop into a cyclone with thunderstorms, heavy rains and strong winds.

PARIS (APRIL 11) - The French cabinet on Wednesday approved a bill designed to increase the protection of the South Pacific environment and its natural resources and to ban any "immersion" of radioactive matter in the zone.

The bill, signed by France, the United States and New Zealand in November, 1986 after a diplomatic conference in the New Caledonian capital, formalizes France's membership in the so-called Noumea convention.

Its two main protocols cover cooperation among states for emergency intervention in potentially polluting accidents or incidents and the prevention of pollution from the dumping of waste into the South Pacific.

The convention aims at stepping up the fight against atmospheric or terrestrial pollution or that engendered by ships.

The South Pacific has been the traditional French nuclear weapon testing zone.

PARIS (APRIL 11) - Ministers of the Organization of Petroleum Exporting Countries (OPEC) consulted Wednesday about whether to hold an emergency meeting before their regular conference slated for the end of May in Geneva, an OPEC source said.

The meeting would be for the purpose of discussing and countering the recent sharp drop in oil prices, the source said.

"Intense consultations are going on" about whether to hold a meeting in the near future, said the source, who requested anonymity.

North Sea Brent crude fell sharply in London Wednesday morning, to 16.40 dollars a barrel for June delivery from 17.10 at the Tuesday close. The downward trend began a week ago.

West Texas Intermediate, the U.S. marker crude, was down to 17.44 dollars for May delivery Wednesday morning, off 24 cents.

MOSCOW (APRIL 11) - Polish President Wojciech Jaruzelski arrived in the Ukraine on Wednesday at the start of an official visit to the Soviet Union.

Jaruselski flew to Lvov where he visited a Polish cemetery and then travelled on to the Ukraine capital of Kiev.

On Friday, the Polish leader is due to confer with Soviet President Mikhail Gorbachev in Moscow where the two men are expected to sign a joint declaration.

The talks are expected to cover the issue of German unification and the continued presence of Soviet troops on Polish soil.

Another topic is expected to be the question of responsibility for the wartime massacre of of 4,250 Polish officers in the Katyn forest near Smolensk in the Soviet Union.

The Soviet Union had long sought to pin the blame for the killings on the Germans, but new evidence suggests the officers were killed by Soviet troops who occupied Polish territory in 1939.

LIMA (APRIL 11) - Eight policemen have been killed and 16 others wounded in two separate guerrilla ambushes in northern Peru as they were carrying ballot boxes from Sunday's general elections, officials reported Wednesday.

The attacks occurred Monday and Tuesday in the northeastern villages of Nuevo Progreso and Acomayo, where security had been beefed up to prevent leftist rebels from disrupting the polls.

Hundreds of guerrillas firing submachine guns and hurling grenades attacked the policemen in both villages as they were taking ballot boxes overland to Tingo Maria for a vote count, the officials said.

Five policemen died in Nuevo Progreso, three in Acomayo and a total of 16 were wounded in both attacks.

Vote counting was suspended Tuesday at the National Electoral Commission headquarters here because of the slow delivery of ballot boxes from isolated voting districts.

Novelist Mario Vargas Llosa, the candidate of the Conservative Democratic Front, and Alberto Fujimori, the candidate of the independent group Change-90, finished in a virtual tie in Sunday's presidential poll and were to face off in a runoff scheduled for late May or early June.

In other reports of violence Wednesday, police said Maoist Shining Path guerrillas had killed two civilians in the northeastern town of Aucayacu because they had taken part in Sunday's balloting.

PARIS (APRIL 11) - The mayor of Bretigny sur Orge, outside Paris, protested to French aviation authorities Wednesday after a Boeing-747 belonging to Egypt Air landed by accident on the town's military airstrip, mistaking the runway for a Paris airport.

Mayor Jean de Boishue said that two 747s had already landed in Bretigny "by mistake" before Monday's incident involving the Egypt Air jet, which he said had been "kept secret for 24 hours".

"Such negligence" not only puts the lives of several hundred passengers in danger, but also those of the Bretigny residents, he said.

The Egypt Air pilot, on a flight from New York to Cairo via Paris, believed he was landing at nearby Orly airport. Alerted to his mistake by traffic control, he took off from Bretigny straight away and landed normally at Orly.

NAIROBI (APRIL 11) - The speaker of the Ivory Coast parliament has been chosen to succeed President Felix Houphouet-Boigny whose sixth five-year term of office expires in October, the British Broadcasting Corperation reported Wednesday.

The report said 58-year-old Henri Konan-Bedie had been selected at a secret meeting of chiefs and leaders of the ruling Ivory Coast Democratic Party.

Houphouet-Boigny, whose age is officially given as 84, has ruled the West African nation since its independence from France in 1960.

The Ivory Coast has been rocked by unrest for the past two months with many demonstrators calling for the resignation of the aging head of state.

#90101d1470 04/11/1990 ~French/German News Agency
PORT MORESBY (APRIL 11) AFP - Papua New Guinea and Indonesia on Wednesday signed an agreement for the creation of a joint security commission to settle disputes along their 800 kilometre (500 mile) frontier, officials said.

At a joint media conference later, Papua New Guinea's foreign minister Michael Somare and his Indonesian counterpart Ali Alatas avoided suggestions of joint military operations against freedom fighters who refuse to recognize Indonesia's sovereignty over Irian Jaya.

Mr. Alatas said that under the agreement, "the two territories are not used for actions ... inimical to the interests of the other."

"For the first time, we agreed to form a joint committee on security matters," Mr. Alatas said shortly after returning to Jakarta from a three-day visit to Papua New Guinea.

Mr. Alatas said the planned committee was included in a basic border agreement, extending the current five-year accord for 10 years.

Mr. Somare said the position of his government had not changed as it did not recognise the insurgents and would not allow them to use Papau New Guinea's territory to conduct their activities.

Indonesian military operations against the insurgents in the mid-1980s forced refugees to flood into Papua New Guinea from Irian Jaya. Jakarta later complained that the border camps were harbouring guerrillas.

Border violations by Indonesian troops claiming to be in pursuit of guerrillas have often caused friction between the two nations.

In Jakarta, Mr. Alatas said that an Indonesian consulate would be opened in the Papua New Guinean town of Vanimo "within the next three to four months."

Last year, Port Moresby opened a consulate in Jayapura, capital of Indonesia's easternmost province of Irian Jaya, under a 1988 accord.

Indonesia took control of predominantly Melanesian Irian Jaya from the Dutch in 1963 and formally incorporated it in 1969 but the Free Papua Movement has since fought a sporadic battle for independence.

A small separatist uprising in 1984 saw some 10,000 Irianese flee into Papua New Guinea, souring bilateral ties which only improved in 1986 with the signing of a friendship treaty between Port Moresby and Jakarta.

Tribes people have traditionally moved freely across the border which lies in some of the world's wildest territory.

#90101d1650 04/11/1990 ~French/German News Agency

LUANDA (APRIL 11) - Angolan Foreign Minister Pedro de Castro van Dunem called Wednesday for immediate and direct talks with the UNITA movement, saying that the rebels' stated readiness to end hostilities was "positive".

In an interview published by the semi-official paper O Jornal de Angola,

Colonel van Dunem said that the mediation efforts of Zaire were now of secondary importance.

He also asserted that UNITA (National Union for the Total Independence of Angola) had implicitly recognized the Angolan government.

Col. van Dunem said he would prefer to negotiate with UNITA inside Angola, but saw "no obstacle" to holding talks in Portugal, the former colonial power, in the former Portuguese colony of Cape Verde, or in another African country.

The conflict in Angola was, however, "an internal" one, and it would be "a proof of maturity" to negotiate a settlement on Angolan territory, he said.

Col. van Dunem said that mediation efforts by President Mobutu Sese Seko of Zaire had been "relegated to the second rank and set to disappear" because Marshal Mobutu had since December failed to transmit ceasefire and other proposals which he should have passed on and circulated to South Africa and the United States.

O Jornal de Angola last Friday cast doubt on Zaire's impartiality as a mediator, referring to reports that military supplies for UNITA were being shipped via Zaire.

The Kinshasa authorities have said nothing in response to the reports, but Col. van Dunem said the allegations had embarrassed Zaire and the Angolan government felt fully justified in seeking direct contacts with UNITA to end the 15-year war "without foreign interference".

#90101d1710 04/11/1990 ~French/German News Agency

NEW DELHI (APRIL 11) - India on Wednesday denied a statement from Pakistan's army chief that it had deployed a strike force near Pakistan.

The Press Trust of India (PTI) quoted "official sources" here as saying that Indian troops were in their usual peacetime location, about 80 kilometers (50 miles) from the Pakistani border.

Pakistan Army Chief General Mirza Aslam Beg earlier told a conference of corps commanders in Rawalpindi that an Indian strike force was concentrated within 80 kilometers of the border.

Gen. Beg said the Indian troop concentration in some border areas, including Suratgarh and Bikaner in the desert state of Rajasthan was "most threatening ... (and was) an act of intimidation..."

He made the remarks referring to a warning by Indian Prime Minister

Vishwanath Pratap Singh Tuesday that Islamabad would have to pay a "very heavy" price if it pursued with alleged territorial designs on India.

Mr. V.P. Singh urged his countrymen, after accusing Islamabad of encouraging insurgency in India, to be "psychologically prepared" for a war with Pakistan.

India in such an eventuality was capable of inflicting "a very heavy cost for Pakistan's territorial goals against India," he said.

JOHANNESBURG (APRIL 11) - ANC Deputy President Nelson Mandela said he had an "informal" meeting here Wednesday with Justice Minister Kobie Coetsee to discuss "the question of removing all the obstacles to negotiations."

Mr. Mandela, just back from a four-day meeting with the National Executive Committee of the African National Congress in Lusaka, spoke to reporters at Jan Smuts airport immediately after his talks in the VIP lounge with Mr. Coetsee.

In Lusaka, Mr. Mandela briefed the NEC on his meeting with President Frederik de Klerk last Thursday in Cape Town, at which the two leaders had agreed to talks-about-talks between the government and the ANC on May 2-4.

That new date ended five days of limbo following the ANC's decision on March 31 to postpone preliminary talks which would have taken place Wednesday.

Asked about obstacles to talks proper, Mr. Mandela said Wednesday they hinged on the ANC's demands for the release of political prisoners, the return of exiles, and the lifting of the three-year-old state of emergency.

The ANC "continues to address the problem informally, in informal meetings", he said.

The ANC was "determined to have negotiations take off as soon as possible" and this was "one of the questions we were addressing" with Mr. Coetsee, who has the job of tabling legislation to amnesty ANC exiles in Lusaka so that they can take part in talks.

"As soon as the obstacles have been removed the way will be open to substantive talks," Mr. Mandela said. "There ought to be no delay. I will push for early talks in this regard."

Mr. Mandela also counter-attacked the far-right Conservative Party (CP), which on Tuesday released what it said was an official intelligence report on a supposed ANC strategy document calling for the surveillance and possible assassination of right-wingers, policemen, soldiers and their families.

Without making it clear whether he was accusing the CP of forging the document, Mr. Mandela accused CP leader Andries Treurnicht of "exploiting the racialism of certain sectors of the population in this country".

JERUSALEM (APRIL 11) - Arab residents of Jerusalem demonstrated and called for a tradesmen's strike after about 20 Jewish families settled Wednesday in the city's Christian quarter near the Church of the Holy Sepulchre.

Israeli sources said that about 100 Jewish men, women and children moved into some 60 rooms above the old city's marketplace in a building which was sub-let without permission of the owner, Jerusalem's Greek-Orthodox patriarch.

The religious organization Atereth Kohanim, which aims at Judaizing the old city, finalized the deal, the sources said.

The families were welcomed to the old city by the hardline former defense minister Ariel Sharon, who stirred up a controversy when he bought a house in the Moslem sector a few hundred meters (yards) away in December 1987.

Arab east Jerusalem, formerly under Jordanian administration, was occupied by Israeli forces in the 1967 Arab-Israeli Six-Day War and annexed in 1980.

JAKARTA (APRIL 11) - Indonesia, a major oil producer, has imported some 1.6 million barrels of fuel oil to cover increased demand at the end of Ramadan, the Moslem fasting month, the Kompas daily said Wednesday.

Citing officials in the state oil company Pertamina, Kompas said the March imports from Singapore brought total stocks to 5.75 million barrels.

The officials gave no reason why Pertamina had to import the oil but the newspaper noted that Indonesia's refineries were only producing 765,000 barrels per day, below their designed capacity of 830,000 bd.

Mines and Energy Minister Ginanjar Kartasasmita has warned that the government may end subsidies on fuel oil so as to moderate demand which threatens to outstrip normal supplies.

Indonesia currently produces some 1.4 million bd, about half of which is exported, but officials have warned the country could become a net importer by the turn of the century as domestic consumption soars.

#90101d7470 04/11/1990 ~French/German News Agency

BEIJING (APRIL 11) - China reported a 1.63-billion-dollar trade surplus Wednesday for the first three months of this year, due in part to a sharp decline in imports.

Customs figures carried in the official China Daily newspaper said there was a 13.4 percent increase in exports in January through March to 8.95 billion dollars.

Imports totalled 7.32 billion dollars, a drop of 20.2 percent when compared to the same period last year.

On a monthly basis, imports fell 18.3, 11.5 and 27.9 percent in January, February and March respectively, again compared to the same months of 1989.

China earlier reported a 6.5-billion-dollar trade shortfall in 1989, more than double the 3.09 billion dollar deficit of 1988.

In another report, the State Statistical Bureau said first-quarter retail prices in 35 major Chinese cities rose 3.3 percent over the same period last year, the lowest such increase in two years.

Inflation would be held under 10 percent in the first half of the year "thanks to tough measures to control prices and ceiling prices adopted by the government on the means of production," a bureau official said, quoted by the New China News Agency.

To curb inflation which soared to double-digit levels in 1988, prices have been set for 40 commodities and seven services, including grain, cooking oil, salt, vegetables, poultry, transport, housing, water and electricity.

#90101d7860 04/11/1990 ~French/German News Agency

LONDON (APRIL 11) - Generale Sante International plc (GSI) has succeeded in a takeover bid for leading British private hospital group AMI Healthcare, it was announced here.

GSI, a 100 percent owned subsidiary of French group Generale des Eaux, had acquired a 64.92 percent stake in AMI last month from U.S. group American Medical International for 160 million pounds (266.6 million dollars) and said it wanted to acquire the rest of the capital.

It had now acquired acceptances taking its stake to 98.85 percent, it was announced here late Tuesday.

GSI, which has about 40 clinics in France, is expecting a turnover of some 1.3 billion francs (228 million dollars) this year.

The AMI acquisition gives it 18 private hospitals and clinics in Britain - 23 per cent of the market - with an expected turnover of 1.5 billion francs (263 million dollars) and taxable profit of 157 million (27.5 million dollars) in the year to August.

#90101d7940 04/11/1990 ~French/German News Agency
TOKYO (APRIL 11) - Japan's Nippon Telegraph and Telephone Corp. (NTT) said Thursday that American architect Cesar Pelli and a Japanese partner had been chosen ahead of six rivals to design its new office building in western Tokyo.

The announcement followed a move by the telecommunications giant in June to accede to Washington's request to allow foreign participation in the project, estimated to cost some 34 billion yen (219 million dollars).

NTT, which has been partly privatised but is still majority-owned by Japan's Finance Ministry, is to sign a contract with Mr. Pelli's Connecticut firm and Yamashita Architects and Engineering Inc. later this month, the spokesman said.

The two companies have formed a joint venture for the design project which also involves supervising contruction and is estimated to be worth between one billion yen (6.5 million dollars) and 1.5 billion yen (9.7 million dollars.)

The six unsuccessful candidates all involved joint ventures between Japanese and U.S. partners, the spokesman said.

Mr. Pelli has designed several skyscrapers in the United States, including the World Financial Centre in New York, as well as the U.S. Embassy in Tokyo.

Yamashita, one of Japan's leading engineering companies, counts the Imperial Hotel and the NHK Broadcasting Centre in Tokyo among its major projects.

The spokesman said the design for the new building, to be located in the Shinjuku area of western Tokyo with a total floor area of 85,000 square metres (935,000 square feet), was due to be completed in July next year.

The building itself is due to be completed by 1995 although its future role is not yet clear. NTT currently has three major buildings in Tokyo housing its corporate headquarters, its Tokyo operations and its eastern Japan operations,

The Japanese government last month froze debate on the controversial break-up of NTT into three separate companies, delaying the decision for five years.

A government advisory panel had earlier called for the company to separate

its local, long-distance and mobile-telephone activities.

#90101d7980 04/11/1990 ~French/German News Agency
PARIS (APRIL 11) - Japanese retail group Seibu is to take control of French couture house Jean-Louis Scherrer, the French company said here Wednesday.

Seibu has for the past 10 years been the sole Japanese distributor of Scherrer products under licence.

The Japanese group and French luxury goods maker Hermes, with which it also has long-standing ties, have set up a joint venture which will hold a 76.5 per cent stake in Scherrer and Scherrer Boutique, its ready-to-wear operation, Mr. Scherrer told a press conference.

He will retain a 13.5 percent stake, while French financial group Worms et Cie will hold 10 percent.

Seibu has a 65 percent stake in the joint venture with Hermes which has taken the controlling stake in Scherrer, while Hermes holds the remaining 35 per cent.

Mr. Scherrer, whose customers include Queen Noor of Jordan and Anne-Aymone Giscard d'Estaing, wife of the former French president, said that after a major surgical operation two years ago he realised he was "not superhuman" and decided to seek a partner.

He will retain control of fashion design but a manager will be appointed to run the group, a Seibu spokesman said. Seibu already has interests in France, holding a three per cent stake in holiday and leisure group Club Mediterrannee.

Hermes will bring its know-how in the accessories market, where Scherrer has had little involvement, and its distribution network in the Asia-Pacific region, notably in Hawaii, Hong Kong and Singapore.

The Scherrer group has an annual turnover of some 150 million francs (26.3 million dollars) and made a profit of six million francs (one million dollars) in 1988.

In addition the group has sales under licence of some 300 million francs, of which Scherrer receives royalties of six or seven percent.

Mr. Scherrer, 54, began his career with Dior in 1956 and set up his own fashion house in 1962.

#90101d8850 04/11/1990 ~French/German News Agency
PRAGUE (APRIL 11) - At least 1,000 firms across the country came to a standstill Wednesday as workers poured into the streets to observe a 10-minute warning strike againt the Czechoslovak communist party, the radio said.

The strike was initiated by the Civic Forum group at the CKD Polovodice mechanical construction firm in the capital. Its employees, once a spear head in the communist workers movement, were among the first to join the November demonstrations that brought down the old regime.

They are demanding that the communists return goods accumulated during the 42 years they held control over the state.

It is the first general strike in the country since the key, two-hour work stoppage on November 27, which helped bring a quick end to the communist monopoly.

Even regional Czech and Slovak government ministers and employees at the presidential chancellery joined the stoppage, the CTK news agency said.

Sirens and horns blew for 10 minutes up to noon, as the capital's subways, trams and busses ground to a halt. Merchants stopped sales for the strikes, and thousands of salespeople and office workers poured out onto the sidewalks.

CTK said miners in Bohemia in the north also downed tools, and at least 1,000 firms elsewhere in the country stopped work.

The television and CTK broke off reports for the 10 minutes, while

Czechoslovak radio broadcast interviews with strikers and directors of companies that took part in the action.

#90101d9340 04/11/1990 ~French/German News Agency

PARIS (APRIL 11) - The Bank of France added liquidity to the money market on Wednesday, but kept its guideline interest rates unchanged.

The central bank announced in connection with a regular money market call for tenders that it had allocated 75 billion francs (about 13 billion dollars) to credit establishments, on total tenders amounting to 192.4 billion francs. With 60.6 billion francs' worth expiring, a net 14.4 billion francs were added to the money market.

The injection had no effect on short-term interest rates, as the call-money rate remained at its morning level of 10-116 to 10-316 percent.

The central bank's intervention rate has been 9.75 percent since April 2, and the rate on five to 10 day securities repurchase agreements 10.50 percent. Those two interest rates set the top and the bottom of the interest rate range.

#90101d9470 04/11/1990 ~French/German News Agency
TOKYO (APRIL 11) - Eastern European economic reconstruction was a central issue in three days of meetings here between Japanese and European financial institutions that specialise in long-term credit, delegates said.

"We all feel that long-term credit institutions could play a very important role" in Eastern Europe, M.J.L. Jonckhart, president of the Netherlands' Nationale Investeringsbank NV, told reporters Wednesday.

He was speaking at the end of a meeting organised by six Japanese long-term credit specialists, which played a major role in Japan's recovery after the Second World War.

Mr. Jonckhart said the opening of Eastern Europe and German reunification would lead to developments in long-term credit operations but should not affect other investment sites: "the money for unification of Germany is available and must have no negative effect on other countries."

The institutions meeting in Tokyo "agreed to cooperate more and exchange information" and discussed likely implications of European unification in 1992, the deregulation of Japanese financial markets and Japanese capital exports.

Paul Mentre, president of France's Credit National, said the future of specialist long-term credit institutions, as for other financial sectors, was "towards globalisation, deregulation and internationalisation."

Other European establishments at the meeting included the European Investment Bank and West German Kreditanstalt fur Wiederaufbau.

Long-term credit institutions meet about every two years. The Tokyo meeting was organised by Japan Developement Bank, Exim-Bank of Japan, Industrial Bank of Japan, Long Term Credit Bank of Japan, Nippon Credit Bank and Bank of Tokyo.

#90101d9690 04/11/1990 ~French/German News Agency
PERTH, Australia (APRIL 11) - Alan Bond's troubled flagship Bond Corp. Holdings Ltd. reported Wednesday a loss of 758 million Australian dollars (577 million U.S.) for the six months to December 31.

This was compared with the 153 million dollar (117 million U.S) profit for the previous corresponding period.

Mr. Bond said group debt remained at 6.77 billion dollars (5.2 billion U.S.) despite heavy asset sales in the half-year, and group survival depends on support from its bankers.

Mr. Bond said the group's continued operation is also dependent on completion of its asset sales programme, which included sale of its brewing assets to Bell Resources.

Mr. Bond blamed the loss on very unfavourable economic and market conditions and bad publicity surrounding the group, especially various threats to wind it up.

Bond Corp. was engaged in legal battles with the Western Australian government over the failed Kwinana chemical plant and a disputed indemnity payment.

The wrongful appointment of a receiver for Bond Brewing Holdings Ltd. on December 29 - it was removed on February 28 - was another blow to the company image.

The company's pre-tax loss was 963 million dollars (734 million U.S.). Revenue fell 22 percent to 3.8 billion (2.9 billion U.S.).

Bond Corp. said that during the period it had sold off assets worth 1.63 billion dollars (1.2 billion U.S.). This figure did not include the recently announced sale of its investment in the Compania de Telefonos de Chile, and proposed sale of its brewing operations, Mr. Bond said.

He said the Western Australian government had advised him it would drop its wind-up action against the company. He hoped the sale of the brewing assets would inspire the National Australia Bank Ltd.-led syndicate to drop its legal action.

PARIS (APRIL 11) - Societe Generale bank scored a 17.1 percent rise in group-share consolidated net profit last year with 3.56 billion francs (about 630 million dollars), against 3.04 billion the previous year, Chairman Marc Vienot announced on Wednesday.

He said the over-all net result was four billion francs, compared with 3.4 billion the previous year, a 15 percent rise. Net accounting assets at the end of the year amounted to 23.3 billion francs, and revalued net assets to 42.1 billion.

Net banking income for the private bank for 1989 was up 6.1 percent to 32.2 billion francs, while management costs were 22 billion. Hence gross

operating revenue was 10.2 billion francs, up 8.2 per cent for the year, Mr. Vienot said.

All of these figures are on the basis of comparable structures, i.e., allowing for the sale of part of the shares of Banque Internationale de Placement.

The bank continued its policy of setting aside provisions to cover sovereign risks, and the chairman said that the 10 main risk countries, accounting for more than three-fourths of the bank's country risks, are almost 61 percent covered by provisions.

The Board will propose payment of a dividend of 15 francs net per share, up 15.4 percent. The proposal will be voted on at the next shareholders' meeting.

Total assets (balance sheet total) at the end of 1989 exceeded a trillion francs for the first time, at 1.017 trillion, against 942.1 billion a year earlier.

DARWIN (APRIL 11) - An Australian navy patrol boat Wednesday detained a fishing vessel believed to be Taiwanese after shooting across its bow during a chase into Indonesian waters, a navy spokesman said.

He said the Hmas gladstone encountered the unlicensed fishing boat in Australian waters north of Arnhem Land.

When the foreign vessel, identified as the Hai-Chang No 11, did not stop when requested, the Australian navy boat fired warning shots across the bow and the fishing vessel hove to.

The Hai-Chang was being escorted to Darwin where its captain and crew were likely to be charged, the spokesman said.

ASUNCION (APRIL 11) EFE - The Paraguayan government has hiked gasoline and diesel prices by between 23 and 46 percent as part of a plan to eliminate state fuel subsidies.

The latest increase, announced Tuesday by Industry Minister Antonio Zuccolillo, brings the total rise in petroleum fuel prices over the past 11 months to between 51 and 74 percent.

The government hiked petroleum fuel prices by 12 percent in January, and simultaneously ended import and sale restrictions on liquid petroleum gas, alcohol fuel, fuel oil, airplane gasoline and kerosene.

Paraguay began phasing out fuel subsidies last May, claiming they were incompatible with the free market policies pledged by President Gen. Andres Rodriguez, who was sworn in the same month.

QUITO (APRIL 11) - The recent discovery of seven condors killed by pesticide poisoning has sparked pleas from Ecuadorean ecologists for an emergency campaign to avert the extinction of world's largest predatory bird, regarded as an inherent symbol of Andean culture.

Although no comprehensive studies have been carried out, the Ecuadoran Ornithologists Corporation estimates there are only between 80 and 100 condors left in the 44,000 square km region of the country's Andean ranges.

But only two mating pairs of the mostly monogamous bird, which can grow to have a wingspan of up to three meters, have been sighted by Ecuadorean birdwatchers in recent years.

Meanwhile, in Peru numbers have declined steadily while the bird has been virtually wiped out of existence in Argentina and Venezuela.

The Condors can live up to 100 years, but hunting, death from pesticides and the destruction of its habitat are threatening the species' survival.

Ecologists say the recent finding of seven condors killed by poisoning indicates the threat pesticide useage on Andean cattle ranches represents for the predator.

The condor, with its bald neck and feet, jet-black feathers and white crown and wingtips, features on the Ecuadoran coat of arms.

It is also a national symbol of Colombia, Bolivia and Chile, while in the past, the golds coins of Ecuador, Colombia and Chile were named after the bird.

The condor remains today the chief protagonist of myths, legends and festivals of the indigenous Andean peoples, who revere it as the most vital link with their Pre-Columbian heritage.

In one typical ceremony, known as the +Yaguar Fiesta+, (Festival of Blood) Ecuador's Andean indians capture a condor and tie it to the back of a wounded bull, which symbolizes oppression.

Once the bird has pecked the beast to death, it is adorned with ribbons and set free from a high peak.

The condor's last free domains in Ecuador are reckoned to be in the highlands surrounding the volcanic peaks of Antisana, Cotopaxi, El Chimborazo and El Sangay, south of Quito.

Those who have been privileged enough to witness a lone condor circling the snow-capped peak of El Chimborazo, at 6,267 meters the highest active volcano in the world, describe the sight as a marvel.

But ecologists warn that only the memory will remain if urgent steps are not taken to protect the last survivors of the species.

MADRID (APRIL 11) EFE - Prices rose by 0.4 percent during March, bringing inflation over the last twelve months to 7 per- cent, according to figures released Wednesday by the National Institute of Statistics.

Inflation for 1990 is running at 2 percent, with prices rising 1 percent in January and 0.6 percent in February.

The Socialist government of Prime Minister Felipe Gonzalez has promised to keep 1990 inflation down to 5.7 percent, limiting wage increases to 7.5 percent in order to meet this target.

In 1989, prices rose by 6.9 percent, more than double the government's original projection.

BUENOS AIRES (APRIL 11) EFE - Argentine President Carlos Menem Wednesday lambasted striking train drivers as the stoppage entered its fourth day and the state-run railway sacked 40 strikers.

Menem termed the strike "true extortion of the government and an act of arrogance towards the people" and said he would remain "inflexible" against the railway workers' opposition to his privatization plans.

The strike has paralyzed the rail network around Buenos Aires, stranding more than a million commuters.

The state railway Ferrocarriles Argentinos sacked 40 train drivers, bringing to 70 the number of workers fired for joining last week's strike

to press for a 150 percent wage hike and to oppose plans to sell off the company.

Hundreds of thousands of state workers, including teachers, doctors and judicial employees, have staged walkouts to protest Menem's privatization and budget-cutting plans to battle inflation that hit 95 percent last month.

Railway signalmen went back to work Wednesday after their one-day walkout, following the reinstatement of a dozen of their sacked colleagues. But the drivers vowed to continue the action until all those dismissed were taken back.

Vice president of the drivers' union La Fraternidad, Tomas Guerrero, said Tuesday night as he left a meeting with Labor Ministry officials "Unfortunately, the strike will continue because our claims are not being met."

Union members overruled their leadership in a stormy session Tuesday, voting to continue the strike despite the government revoking the unions' legal status the day before.

The revocation means the unions will no longer receive monthly dues taken by the company from workers' paychecks.

CARACAS (APRIL 11) EFE - Elite Venezuelan troops were placed on alert Wednesday along the border with Colombia amid reports that Colombian cocaine cartel boss Pablo Escobar may try to slip out of the country, military sources said.

Colombian officials asked neighboring Venezuela, Ecuador, and Peru to watch their borders closely to apprehend Escobar who was reportedly fleeing the country.

The military sources said Venezuelan commando units, along with intelligence and police services, were on alert along the 1,650-km frontier with Colombia.

Colombian President Virgilio Barco launched a crackdown on the cocaine gangs in August of last year after they allegedly killed a ruling party presidential candidate, and has since extradited 15 suspected traffickers for trial in the United States.

Escobar, said to be one of the richest men in the world, is the chief of the Medellin Cartel, responsible for producing most of the cocaine

consumed in the United States.

"The Extraditables", as the Medellin Cartel leaders call themselves, responded to the crackdown with a wave of bombings and killings in which hundreds of people died.

Last week the cartel broke off an informal 70-day truce after the government extradited one of their members, a move the gang claims went against a secret agreement with the government.

The Colombian authorities say they have never negotiated with the cartel.

LIMA (APRIL 11) EFE - The chastity belt is alive and well and still being used in Peru, a Lima newspaper reported Wednesday.

Doctors at a hospital in Matucana, 100 kms east of the captial, used a hammer and chisel to remove a steel chastity belt a jealous husband had placed on his young wife, the daily Extra said.

The woman, 22, who was identified only by her first name Teodolinda, wore the belt for 15 days and had been "unable to attend to her most pressing needs".

Her jealous husband had the belt made by a local ironmomger and told his wife she "could say goodbye to this world," if she was not wearing it when he returned from work each day.

After the belt was removed, Teodolinda was kept in hospital and treated for kidney damage, the paper said.

#90101e0019 04/11/1990 ~Latin America New Agency

BRASILIA (APRIL 11) EFE - The Brazilian Congress prepared Wednesday to debate the most controversial part of President Fernando Collor de Mello's radical anti-inflation plan, a measure freezing some 80 percent of the money held in banks.

The freeze, imposed by Collor de Mello a day after he took office March 15 is part of a plan aimed at curbing inflation which topped 4,000 percent over the past 12 months.

Congress has already ratified several other decrees announced in the plan, including the closure of 20 state firms, the reduction of government ministries from 23 to 12, and the imposition of a new property tax and a

stock market tax.

But the bank deposit freeze, which economists warn may trigger a deep recession, is expected to encounter the most opposition in Congress.

The measure is part of a monetary reform decree which also substituted a new currency, the cruzeiro, for the old cruzado novo.

It sets a limit of 50,000 cruzeiros (some dlrs 1,000) on the amount that can be withdrawn from most bank accounts for the next 18 months.

The decree drastically curtails the money supply, blocking some dlrs 95 billion of total bank deposits estimated at dlrs 120 billion.

The liquidity squeeze has dried up sales and prompted businesses to lay off thousands of workers.

Industrial production was down 20 percent in March from the previous month with some sectors especially hard hit, such as automobiles, whose sales fell by 93 percent.

The biggest party in Congress, the Brazilian Democratic Movement Party (PMDB), has proposed easing Collor de Mello's decree by allowing depositors to withdraw 200,000 cruzeiros immediately and portions of the balance beginning in July.

The government has tried to marshal the public to its side this week to protect the monetary measure, which it says must remain intact for the anti-inflation program to succeed.

Meanwhile, the president of the National Economic and Social Development Bank, Eduardo Modiano, predicted that inflation for April would be less than 5 percent, compared to 84 percent in March.

Modiano, one of the architects of the austerity program, said, "Our data point to a very low inflation in April, lower than 5 per- cent.

"Whether it will be 4 percent, 2 percent or zero, we can't say yet," he said.

A study of consumer prices in Sao Paulo, Brazil's largest city, by a university economic research institute said prices declined by 0.26 percent in that city in the first two weeks the austerity plan was in effect.

The government has also announced it would sell off 400 cars used by bureaucrats and 10 official residences, in what observers said was an effort to publicize the seriousness of its intentions.

The sale is to take place April 19, which the government has named National Day of the End of Privileges.

A huge sign reading "Unpopular Houses For Sale" has been placed at the entrance to the Ministers' Peninsula in the South Lake of Brasilia, where the 10 official houses to be sold are located.

Administration Secretary Joao Santana said some 2,000 state-owned cars, motorcycles and boats will eventually be sold.

GUATEMALA CITY (APRIL 11) EFE - Seven Guatemalan security agents have been killed in a spate of murders throughout the country in the past three days, police officials said Wednesday.

The tortured bodies of a police officer, an Army intelligence officer and a military commissioner were found hanged Monday on a roadside outside the capital.

The bodies of two civilians, who had also been tortured, were found alongside the murdered security force members.

A second police officer and his official driver were shot dead Tuesday in their patrol car on the Pan-American highway in the southeastern part of the country, while another Army officer died in a machinegun attack in Tecun Uman on the Mexican border and a second Army intelligence officer was shot dead in the northwestern department of San Marcos.

At least twenty people, including security agents, have been murdered in the past three days.

Police officials gave no further details on the murders but ruled out the possibility that they were the work of leftist guerrillas who have been fighting a series of U.S.-backed governments for thirty years.

The umbrella rebel group, the Guatemalan National Revolutionary Movement, Tuesday declared a unilateral cease-fire for the four-day Easter break which begins Thursday.

TOKYO (APRIL 11) KYODO - A SENIOR OFFICIAL OF JAPAN'S TOP AUTOMAKER TOYOTA MOTOR CORP. SAID WEDNESDAY THE COMPANY IS STUDYING THE POSSIBILITY OF IMPORTING AND SELLING CARS MADE BY THE GENERAL MOTORS CORP. OF THE UNITED STATES.

TSUTOMU OSHIMA, VICE CHAIRMAN OF THE NAGOYA-BASED COMPANY, TOLD A NEWS CONFERENCE GENERAL MOTORS CORP.'S LATEST PASSENGER MODEL ''SATURN'' MAY SELL WELL IN JAPAN.

TOYOTA AND GM OPERATE A JOINT CAR MANUFACTURING VENTURE IN FREMONT, CALIFORNIA.

OSHIMA SAID TOYOTA'S IMPORT PROMOTION PROGRAM CENTERING ON AUTO PARTS WILL

HAVE LIMITED EFFECTS ON IMPORT EXPANSION AND THE COMPANY SHOULD STUDY THE IMPORT AND MARKETING OF CARS MADE BY THE U.S. ''BIG THREE'' AUTOMAKERS.

IT HAS NOT YET BEEN DECIDED, HOWEVER, WHETHER THESE CARS WILL BE MARKETED BY TOYOTA OR ITS DEALERS, THE OFFICIAL SAID.

OSHIMA SAID IT HAS YET TO BE SEEN WHETHER GM WILL TRY TO STRENGTHEN ITS RELATIONSHIP WITH TOYOTA UNDER THE LEADERSHIP OF ITS NEW CHAIRMAN ROBERT STEMPEL. HE SAID GM CHAIRMAN ROGER SMITH WILL RESIGN FROM HIS POST AT THE END OF JULY TO BE REPLACED BY STEMPEL.

OSHIMA ATTENDED NEGOTIATIONS BETWEEN JAPANESE AND U.S. AUTOMOBILE AND AUTO PARTS INDUSTRIES IN LAS VEGAS, NEVADA, APRIL 5-6. HE SAID THE NEGOTIATIONS DEALT WITH TOYOTA'S SHOPPING LIST OF 83 ITEMS.

THE TALKS WERE SUCCESSFUL, PROMPTING TOYOTA TO STUDY POSSIBLE PURCHASES OF 43 ITEMS AND EXCHANGE INFORMATION WITH U.S. SUPPLIERS ON 40 OTHERS, HE ADDED.

TOKYO (APRIL 11) KYODO - A SENIOR VIETNAMESE FOREIGN MINISTRY OFFICIAL WILL PAY A WORKING VISIT TO JAPAN ON APRIL 18-20, JAPANESE FOREIGN MINISTRY SOURCES SAID WEDNESDAY.

THE SOURCES, WHO SPOKE ON CONDITION OF ANONYMITY, SAID THE VISITING OFFICIAL WILL BE FIRST VICE FOREIGN MINISTER DINH NHO LIEM.

THE VIETNAMESE OFFICIAL WILL BE MEETING FOR TALKS WITH HIS JAPANESE COUNTERPART TAKAKAZU KURIYAMA ON BILATERAL AND INTERNATIONAL ISSUES, WITH A PARTICULAR FOCUS ON THE CAMBODIAN PEACE PROCESS.

THE TWO SIDES ARE ALSO EXPECTED TO DISCUSS THE TIMING OF THE ANTICIPATED VISIT TO JAPAN WITHIN THE YEAR OF VIETNAMESE FOREIGN MINISTER NGUYEN CO THACH.

KURIYAMA WILL LIKELY SOUND OUT DINH NHO LIEM ON A RECENT VIETNAMESE PROPOSAL FOR THREE-WAY TALKS ON THE CAMBODIAN QUESTION BETWEEN VIETNAM, CHINA AND THAILAND.

THE TWO SIDES ARE ALSO EXPECTED TO TOUCH ON VISITING THAI PRIME MINISTER CHATICHAI COONHAVAN'S PROPOSAL HERE SATURDAY THAT TOKYO PLAY HOST TO A MEETING OF THE LEADERS OF TWO WARRING CAMBODIAN FACTIONS -- RESISTENCE LEADER PRINCE NORODOM SIHANOUK AND PHNOM PENH GOVERNMENT HEAD HUN SEN.

THE VIETNAMESE SIDE, MEANWHILE, WILL PRESS JAPAN FOR GREATER INVESTMENT AND BUSINESS TIES, AS WELL AS A RESUMPTION OF ECONOMIC ASSISTANCE SUSPENDED SINCE VIETNAM'S INVASION OF CAMBODIA IN 1978, WITH THE EXCEPTION OF HUMANITARIAN AND CULTURAL AID.

VIETNAMESE LEADER NYUYEN VAN LINH TOLD KYODO NEWS SERVICE LAST WEEK THAT IN RETURN HIS COUNTRY IS READY TO PROVIDE JAPAN WITH NATURAL RESOURCES AND

LABOR.

AMID CHATICHAI'S CALL FOR JAPAN TO RESUME ITS AID TO HANOI, OFFICIALS SAID THERE IS NO CHANGE IN JAPAN'S STAND THAT IT IS CONTINGENT ON A ''COMPREHENSIVE SETTLEMENT'' TO THE CAMBODIAN CONFLICT.

DINH NHO LIEM'S VISIT RECIPROCATES VISITS TO HANOI BY KURIYAMA IN NOVEMBER 1988 AND LAST FEBRUARY BY SAKUTARO TANINO, DIRECTOR GENERAL OF THE FOREIGN MINISTRY'S ASIAN AFFAIRS BUREAU.

#90101p0746 04/11/1990 ~PR Newswire

NEW YORK (APRIL 11) PR NEWSWIRE - Quotron Systems, Inc. and Chapdelaine Government Securities Inc. today announced that the Chapdelaine Automated Trading System (CHATS) began live trading on March 29, with 33 primary and aspiring dealers directly linked to the system and the remaining dealers linked via voice brokering.

The first automated interdealer trading system for U.S. Government securities, CHATS allows primary and aspiring dealers of U.S. Government securities to execute trades automatically via their CHATS terminals, which show firm bids and offers, as well as last trade information on all securities traded on the system. The terminals are linked to an automated order-matching host computer, and tickets confirming each trade are generated as soon as the trade is executed.

"CHATS is the technology of the future," said Michael Franzese, president of Chapdelaine. "Because it reduces commission costs by 50 percent and also reduces transaction costs, CHATS is the most cost- effective and efficient way to trade U.S. Government securities.

Chapdelaine plans a phased introduction of U.S. Government securities on the system, with the short coupon spectrum going live in May of this year.

"We are pleased to be part of this innovative new trading system for the fixed-income market," said Leland H. Amaya, Quotron chairman and chief executive officer. "CHATS is directly in line with Quotron's strategy to expand our fixed-income services."

Quotron Systems, Inc., a leading provider of financial information services for more than 30 years, delivers real-time prices for more than 120,000 investment instruments through an international network of more than 100,000 terminals in 23 countries. Quotron also provides sophisticated trading and decision-support systems, analytical software, integrated services for brokerage operations, and highly reliable communications network services to its customers worldwide.

#90101p0755 04/11/1990 ~PR Newswire

OMAHA, NE (APRIL 11) PR NEWSWIRE - Wedding Information Network Inc. (NASDAQ: WINN) announced today the company had signed a letter of intent to acquire K/R & Associates Inc., an Omaha, Neb., printing company. Under the terms of the proposed agreement, Wedding Information Network Inc. (the company) will acquire K/R & Associates Inc. for cash and an exchange of common stock. The letter of intent, which is subject to final agreement, provides for the issuance of 20,000 shares of company common stock, plus payment of cash, in exchange for 100 percent of the outstanding stock of K/R & Associates. K/R & Associates Inc. will remain as a wholly owned subsidiary of the company. Up to 250,000 shares of the company common stock are issuable in the future if K/R & Associates achieve certain income goals over the first three years.

Sanford Friedman, president of the company, stated: The acquisition is intended to provide the company with a continuing source of quality printed product at a stable price while providing it with an opportunity to create new areas of profitability.

K/R & Associates Inc., which has been in the printing business since 1979, had revenues of $1,900,000 for the fiscal year ended June 30, 1989, with a profit of $23,000 (unaudited). As of Feb. 28, 1990, it reported assets of $500,000 and liabilities of $516,000. As part of the acquisition, the

company has agreed to loan sufficient funds to its subsidiary to pay off existing bank indebtedness, approximately $300,000. The company has been one of the biggest customers of K/R & Associates, with printing jobs of approximately $500,000 paid to K/R by the company during the past calendar year.

Existing management of K/R & Associates will continue with Larry L. Reding as president, and Dorothy M. Goodrich as vice president and general manager.

#90101p0757 04/11/1990 ~PR Newswire

OAKLAND, CA (APRIL 11) PR NEWSWIRE - Safeway Inc. today issued the following statement:

Some 16 months ago, allegations were brought against Safeway that it mislabeled meat products in its stores. The company was accused of selling as choice beef meat that did not qualify for the choice grade.

Today we were informed by the U.S. Attorney's office that they have concluded their investigation and determined not to bring any charges against Safeway. We are delighted to have this matter behind us. Safeway has built its reputation on honesty and integrity.

If there had been wrongdoing, Safeway would be as much a victim as anyone else. Our corporate policy could not be clearer. If any employee ever attempts to take advantage of our customers, Safeway will take strong disciplinary action.

We are grateful to our customers who have never lost their confidence in our business ethics and the honesty of our employees.

LOS ANGELES (APRIL 11) PR NEWSWIRE - Craig Corp. (NYSE: CRA) announced today that it was restating its results of operations for the three-month period ended Dec. 31, 1989, to reflect its share of a non-recurring loss at Reading Co. (NASDAQ: RDGC) in the month of December 1989.

The company's share of the Reading loss (based upon its ownership of approximately 20 percent of the capital stock of Reading) amounted to

$278,000 thereby reducing net earnings from the previously reported $1,728,000 or $.38 per share to $1,450,000 or $.32 per share.

The company's equity in earnings of unconsolidated affiliates and investment in affiliates were also reduced by $278,000.

The results of operations as previously reported were based upon results of Reading for the months of October and November 1989, the December results not being available at the time the company was required to release its first quarter results.

Reading's results for the month of Dec. 1989 were just released in connection with the release of the audited results of operations for Reading for the year ended Dec. 31, 1989.

Edward Kane, president of the company, stated that he anticipated that "results of operations for Reading Company would be positive in the future."

CRAIG CORP.
Statement of Earnings
Three Months Ended Dec. 31
(In thousands except per share amounts)

	1988	1989 (as restated)
Total Revenues	$1,187	$1,981

PEORIA, IL (APRIL 11) PR NEWSWIRE - Three incumbent directors and a fourth new director were elected today to Caterpillar Inc.'s (NYSE: CAT) board of directors at the annual meeting of stockholders held in Wilmington, Delaware. Each sought election to a three-year term expiring in 1993. The incumbents are:

Robert E. Gilmore, former president and chief operating officer of Caterpillar Inc.;

Rawleigh Warner Jr., former chairman of Mobil Corp.;
James W. Wogsland, executive vice president and vice chairman-elect of Caterpillar Inc.

The new director is James P. Gorter, chairman of Baker, Fentress & Co. Gorter also is a limited partner of Goldman, Sachs & Co.; a director of Consolidated-Tomoka Land Co.; and a director of Foremost Corporation of America.

In a meeting before the stockholder meeting, all current company officers were reelected by the board.

In other action at the annual meeting today, stockholders rejected proposals to withdraw from South Africa and to stop equipment sales to South African energy production and supply firms. Stockholders also turned down a proposal to require secret balloting in stockholder voting.

#90101p0764 04/11/1990 ~PR Newswire

MONTVALE, NJ (APRIL 11) PR NEWSWIRE - Federal Paper Board Company, Inc. (NYSE: FBO) today announced increased sales for the first quarter of 1990, although earnings declined compared to last year.

For the 12 weeks ended March 24, 1990, sales were $316,810,000 compared to $284,724,000 last year. Net income was $38,786,000 compared to $47,096,000. Earnings per share on a fully diluted basis were $.84 compared to $1.03 for the first quarter 1989.

The increased sales reflect revenue from both Thomas Tait & Sons Ltd., the Scottish paper mill acquired during the second quarter last year, and Imperial Cup Corp., the cup operation acquired in October of 1989. John R. Kennedy, president, noted that the Tait Paper and Imperial Cup operations contributed to first-quarter earnings.

Kennedy said the reduced earnings for the first quarter were not unexpected. The lower earnings reflect reduced market pulp prices; production scheduling at the company's bleached paperboard mills due to backlogs and product mix; higher wood costs; and the shutdown of the Sprague, Conn., recycled paperboard mill to complete its modernization.

Kennedy stated that, although there has been a reduction in pulp prices, demand for market pulp has remained reasonably stable. "Demand for bleached paperboard has softened," he said. "But we believe that demand will again increase when customers have worked off their buildup of inventory."

With the completion of the modernization of two lumber mills and with increased lumber prices in evidence, those mills -- and the entire wood products division -- are expected to show increased profitability next quarter. Operating profits overall for the company's folding carton plants were higher in the 1990 first quarter than in the 1989 first quarter. In a move to consolidate this business, the company recently announced the phase-out over the next few months of its Beacon, N.Y., carton plant.

During the first quarter, the company renegotiated its revolving credit agreement with its banks, which will substantially reduce interest costs on funds borrowed under the agreement.

Kennedy further stated that the second phase of the Augusta expansion program is on schedule and expected to be completed in the 1991 first quarter. After the expansion, bleached board capacity at Augusta will increase from its present 1,370 tons per day to 1,860 tons per day. The total cost of Phase II is estimated at $575 million. The final decision on the scope and timing of Phase III will be made at year-end.

Federal Paper Board Company, Inc. manufactures and sells solid bleached paperboard, bleached market pulp, recycled paperboard, folding cartons, lumber, paper cups, and in the European market, uncoated free sheet paper. The company operates two bleached kraft paperboard and pulp mills, one recycled paperboard mill, nine folding carton plants, five wood products mills, four paper cup converting plants and one uncoated free sheet mill in the United Kingdom. Federal has approximately 6,600 employees.

CONTACT: Quentin J. Kennedy, executive vice president of Federal Paper Board Company, 201-391-1776. will address a variety of writing genres: nonfiction (including writing nonfiction books and magazine articles), fiction (novel writing and short story writing), poetry writing and screenwriting. Each of these topics will be presented in both lecture and hands-on workshop sessions.

Rounding out the conference offerings will be presentations by a literary agent who also will review manuscripts of full-conference participants, and a lawyer who will discuss copyrights. There also will be an opportunity for conference attendees to 'sample' a variety of other writing and writing-related topics, ranging from corporate writing to word processing.

The nonfiction faculty includes Paris and Evan Pattak. In addition to his book on Louise Brooks, Paris's work was published in The New Yorker, Art & Antiques, and Vanity Fair last year. His session at the LVW conference will address "How to Write Nonfiction Books." Pattak will teach the "Mechanics of Nonfiction." Pattak is the owner of his own Pittsburgh-based public relations firm. He is a two-time Golden Quill winner, and he teaches journalism at Seton Hill College.

Fiction will be addressed by David Walton and Christine Conklin. Walton, who currently has writing fellowships from both the Pennsylvania Council on the Arts and the National Endowment for the Arts, will discuss "The Novel." Conklin's topic is "Crafting the Short Story." Her credentials include an M.F.A. in writing from the University of Pittsburgh where she also teaches fiction, journalism and composition.

Poets Rina Ferrarelli and Margaret Anderson will discuss "The Education of the Poet" and "Techniques for Poetry Writing," respectively. Ferrarelli's poems have been published in journals, anthologies and poetry magazines. She is an instructor of English at the University of Pittsburgh, a translator of poetry, and coordinator of the Mount Lebannon Library Poetry Workshop. Anderson likewise has been published in a number of anthologies and magazines. She is an assistant professor of English at Kent State University, and has been the recipient of poetry fellowships from the Pennsylvania Council on the Arts and the National Endowment for the Arts.

Rudolph Ricci, best known for his work on the movie "Night of the Living Dead," will teach "Screenwriting." Writer, producer, director and actor, Ricci has won top writing awards from the Houston International Film Festival and Atlantic Monthly.

The Ligonier Valley Writers Conference will begin on Friday evening, July 6, with a reception, dinner and faculty readings at the Town House in Ligonier.

CONTACT: E. Kay Myers, 412-238-5190 or 412-238-5749, or Karen Jurkovic, 412-393-6069, both for Ligonier Valley Writers.

SEATTLE (APRIL 11) PR NEWSWIRE - The Internal Revenue Service (IRS) said today that 1989 individual income tax returns are due April 16 this year because April 15 falls on a Sunday. The Seattle District of the IRS has announced special telephone assistance hours on Saturday, April 14, and Monday, April 16.

The Tax Information Line will be available on April 14 from 9 a.m. to 2 p.m. and on April 16 from 8:15 a.m. to 5:30 p.m.

The filing and processing of returns are still running at a 3.5 percent increase over the same period of time last year, said Judy Monahan, Seattle District IRS spokesperson.

In addition, Monahan reminded taxpayers who have not yet filed their federal income tax returns that they can designate one dollar of their tax to help fund presidential elections by checking a special box on their tax forms. For a married couple filing a joint return, each spouse may check a box to designate a dollar to the fund.

"In 1989, over 22 million tax returns -- or approximately 20 percent -- showed designations totaling over $32 million to the presidential election campaign fund. This brings the amount credited to the fund since it began in 1972 to $567 million," said Monahan.

The presidential election campaign fund designation does not change the amount of tax or reduce the amount of the refund.

CONTACT: Judy Monahan of the IRS, 206-442-5515.

#90101p0773 04/11/1990 ~PR Newswire

DALLAS (APRIL 11) PR NEWSWIRE - For the first quarter of 1990,

Kimberly-Clark Corp. (NYSE: KMB) today reported record operating results.

First quarter sales of $1.6 billion, operating profit of $191.1 million, pretax income of $172.8 million, net income of $117.2 million and earnings per share of $1.46 represent increases of 10.7 percent, 11.3 percent, 8.3 percent, 13.7 percent, and 14.1 percent, respectively.

Darwin E. Smith, chairman of the board and chief executive officer, said that revenue increases, manufacturing cost reductions and decreases in marketing expenses in several of the company's North American consumer product lines contributed significantly to the improvement in first quarter results.

North American newsprint markets continued to be weak. Operating results of the company's two newsprint facilities were slightly below the break-even level, Smith said.

Particularly difficult problems were encountered in Brazil where the gains from improved operations were eliminated by currency translation losses which had the effect of substantially increasing other expense.

The new business paper machine at Whiting, Wis., is now fully operational and is exceeding all expectations, both as to quality and rate of production. As the quarter ended, the first tissue machine at the new facility at Jenks, Okla., was undergoing preliminary start-up trials, he said.

During the quarter, a special committee of the board of directors visited Korea to evaluate the company's continuing opportunities in that country. The acquisition of a new mill site, the first phase of a $100 million expansion program there, was approved.

Kimberly-Clark is a manufacturer of household, personal care and health care products, as well as newsprint, groundwood, business, correspondence, technical and specialty papers. The company's well- known consumer products include Huggies disposable diapers, Kleenex facial tissue, Kotex and New Freedom feminine pads, Hi-Dri household towels and Depend incontinence products.

SEATTLE (APRIL 11) PR NEWSWIRE - Maersk Air, the independent Danish scheduled and charter airline, is buying one more Boeing 737-500 and three more Boeing 737-300s with a value of about $127 million, Boeing Commercial Airplane Group has confirmed.

The airline last week took delivery of its first of four previously ordered Boeing 737-500s.

Maersk Air President Bjarne Hansen said his airline, one of the launch customers for the new-technology 737-500, selected it as the best advanced twinjet available for the carrier's system. "These new aircraft share most parts and systems with the -300s we already operate, including flight deck and engines. When our 737-200s are phased out later this year, the Maersk fleet will be one of the youngest worldwide".

Since 1976, Maersk Air has taken delivery of 25 Boeing 737s, 14 of them -200s, 10 of them -300s and one -500.

The -500, the shortest version of the advanced-technology 737s, provides operators a quieter, more fuel-efficient replacement for the 737-200. In Maersk's configuration, the 737-500 will accommodate 132 passengers in a single-class cabin. The 737-500 complements the Maersk 737-300, which seats up to 149 passengers.

Boeing has received orders for 193 Boeing 737-500s and 951 of the 737-300s.

ATLANTA (APRIL 11) PR NEWSWIRE - Delta Air Lines (NYSE: DAL) and Singapore Airlines have requested authorization from the U.S. Department of Transportation to begin a code-sharing arrangement.

The arrangement will allow Singapore Airlines to offer round-trip air

transportation on two routings, using its designator code (SQ) on selected Delta flights, and will allow Delta to sell Singapore a limited number of seats on a blocked space basis.

The two separate routings will include: Singapore-Tokyo (Narita)-Los Angeles-Dallas/Fort Worth and Singapore-Tokyo (Narita)- Los Angeles-New York (Newark). Singapore Airlines will operate its aircraft between Singapore and Los Angeles via Narita, while Delta will operate its aircraft on the Los Angeles-Dallas/Fort Worth and Los Angeles-New York (Newark) routings.

Service will be provided daily, with connections scheduled for maximum passenger convenience. Delta and Singapore Airlines plan to begin the code-sharing operations on the Dallas/Fort Worth routing on June 1, with the Newark operation to follow on Nov. 1.

JERICHO, NY (APRIL 11) PR NEWSWIRE - Getty Petroleum Corp. (NYSE: GTY) today announced that the convenience food store operations in the company's recently acquired locations in Pennsylvania will be integrated with the operation of Hop-In Food Stores, Inc., headquartered in Roanoke, Va. The formation of the three companies will be named Kwik Farms, Inc., a subsidiary of Getty Petroleum Corp.

In making the announcement, Leo Liebowitz, Getty's president and chief executive officer, said that the move "combines the three divisions into one organization and makes for a more efficient and productive operation. We expect this new organization to benefit from the combination of convenience food experience, management, and field marketing and

merchandising expertise.

As part of the consolidation, William Chase has been appointed to the position of vice president and chief operating officer of Kwik Farms, Inc. headquartered in Roanoke, Va. He reports to James R. Craig, Getty's vice president of retail marketing.

In his new position, Chase will be responsible for overseeing the three companies into one integrated unit. Chase, with many years of experience in the convenience food store industry, had also serves as vice president of marketing for Hop-In Foods, Inc.

Liebowitz said that the restructuring will be effective on April 22, 1990. The combined number of properties, headed by Chase, totals 162 convenience food stores, most of which sell gasoline, in the central Pennsylvania and Virginia markets.

The combined Kwik Farms operation will have a total of approximately 1130 employees, after staff reductions of 27 persons in the Lancaster, Pa. office and 18 persons in the Reading, Pa. office resulted from the consolidation of office and administrative personnel to the Roanoke, Va. headquarters. Convenience food store and field marketing personnel will not be effected by the consolidation.

Getty Petroleum Corp., one of the nation's largest marketers of gasoline and petroleum products, markets in a thirteen state area, Maine through Virginia. The company is also a leader in the convenience food store business, a major marketer of heating oil, and is a wholesale distributor of petroleum products through its east coast petroleum storage and distribution network.

HAUPPAUGE, NY (APRIL 11) PR NEWSWIRE - KNOGO Corporation (NYSE: KNO), the pioneer in the worldwide marketing of Electronic Article Surveillance (EAS) systems to prevent shoplifting, today announced that it had acquired the assets of Jensen Video Sonics, Inc., of Villa Park, Chicago. Jensen's Data Display Interface gives users of Closed Circuit Video Systems (CCVS) a state-of-the-art method of detecting and deterring thefts which occur at retailers' points of sale, by collecting cash register data and converting it from digital signals to video.

Since its incorporation in 1966 (the same year KNOGO was founded), Jensen Video Sonics has been credited with a number of technological developments including time-lapse VCRs. Jensen Video Sonics designed and installed

protective CCVS surveillance for the Chicago Transit Authority, as well as for thousands of bank Automatic Teller Machines (ATMs). Its quarter-century of experience gives the company "approved vendor" status with point-of-sale suppliers.

When linked to KNOGO's Surveillor CCVS, already gaining wide acceptance with retailers, Jensen Data Displayers increase their usefulness exponentially, according to Arthur J. Minasy, president of KNOGO Corporation. "We've made it much easier for merchants to protect themselves against employees who steal cash or who treat their friends or relatives to 'sweetheart' pricing, such as under-rings, voids, or no-sales. Now, as Surveillor cameras videotape each customer and each cashier, Jensen Interfaces superimpose the SKU, price, and actual ring- up onto a permanent video record," says Minasy.

Users of the Jensen technology in North America include Sears, Roebuck and Co., Bonwit Teller, T.J. Maxx, Marshall's (a division of Melville Corp.), Filene's Basement, Publix Super Markets, Inc., Child World Stores and J.C. Penney Co., Inc. As increasing numbers of retail stores install ATMs for customer-convenience and VCRs to curb internal and external thefts, the Jensen Interface will be useful in creating permanent videos of the data transactions compiled.

KNOGO Corporation founded the EAS industry in 1966. Headquartered in Hauppauge, with manufacturing facilities there as well as in Belgium (its European headquarters), and in Puerto Rico, it has sales and service facilities across North America, and in more than 20 countries around the globe.

CONTACT: James R. Dellomo, vice president-finance of KNOGO Corporation, or Thomas A. Nicolette, president of KNOGO North America, 516-232-2100 or 800-645-4224.

NEW YORK (APRIL 11) PR NEWSWIRE - Guilford Mills, Inc. (NYSE: GFD) announced today that the company has consolidated its GuilKnit Circular Knit Business Unit with its Elastomeric and Gilbert Frank Business Units. This combination is a natural union of the company's performance, fashion, and printed fabric businesses. Alfred A. Greenblatt will serve as president of this new Fashion Apparel Fabric Business Unit.

Greenblatt has announced the appointment of Tony Freeman as vice president of operations. He will be responsible for supervising all manufacturing support for this business unit's wide width circular knits and elastomeric warp knits. Freeman was formerly vice president of operations for the company's GuilKnit Business Unit. He will now be located at Guilford's

headquarters in Greensboro, N.C. and will report to Greenblatt.

Larry Eisenberg will continue to serve as vice president of Gilbert Frank's/Guilford's printing operations and will remain in the company's New York location. Eisenberg will also report to Greenblatt.

This newly organized and integrated Fashion Apparel Fabric Business Unit will better serve the market with a broad range of quality fabrics for the sportswear, dresswear, swimwear and athleticwear apparel industries.

GREENSBORO, NC (APRIL 11) PR NEWSWIRE - Guilford Mills, Inc. (NYSE: GFD) announced today that, effective April 1, 1990, the company will establish its Guilford international marketing headquarters in the United States. It will continue to be headed by Peter Fowkes, who now serves as managing director of the Guilford international marketing group. Fowkes will be located at the company's corporate headquarters in Greensboro.

Fowkes will be responsible for the direction of all international product sales for Guilford's broad and diverse product lines sourced both in the United States and in Great Britain, where the company has several manufacturing facilities. He has been involved in the marketing of Guilford's products in Europe for the past 25 years.

Fowkes will supported in the United States by Jon Kates, newly appointed director of international sales located in Greensboro, and by Peter A. Milne, director of sales-Europe based at Guilford Europe headquarters in England.

Kates was formerly the vice president of marketing for home furnishings for Guilford's warp knit apparel and home furnishings business unit. Milne has been involved in establishing Guilford international in Europe and elsewhere around the world.

These relocations and appointments will serve to confirm that Guilford Mills has a global commitment to establishing and building a major international trading position.

CAMDEN, NJ (APRIL 11) PR NEWSWIRE - Campbell Soup Co.'s (NYSE: CPB)

frozen food plant in Pocomoke City, Md., will close Thursday, April 12, at 4 p.m., following the completion of the second shift's production.

Campbell announced last August it was closing the plant and shifting production of its "Great Starts" breakfasts and entrees to its facility in Salisbury, Md. Some employees from the Pocomoke City plant will be transferred to Salisbury, which has been expanded.

Linda M. Gabell, Pocomoke City plant manager, said the more than 200 employees there will receive their final paychecks, vacation and severance pay on April 19.

Since the plant closing was announced, a $950,000 grant from the U.S. Department of Labor to the Lower Shore Private Industry Council and the Maryland Department of Employment and Economic Development has been used to provide retraining and job counseling assistance to employees.

The Pocomoke City plant closing was part of a worldwide restructuring program undertaken by Campbell. The program included the closing of the Mrs. Paul's frozen food plant in Crisfield, Md., a soup manufacturing plant in Camden, N.J., as well as reductions in the company's International operations.

The plant consolidations resulted in an overall workforce reduction of 2,800 employees. Last year Campbell had a worldwide workforce of 55,412.

#90101p0831 04/11/1990 ~PR Newswire

PHILADELPHIA (APRIL 11) PR NEWSWIRE - Philadelphia Electric Co. (NYSE: PE) announced today that its board of directors has approved a number of top management changes which will be effective on April 16, 1990.

Corbin A. McNeill Jr., 50, was elected president and chief operating officer by the board of directors immediately following the Shareholders Annual Meeting.

McNeill, who was also named a director of the corporation, has served as executive vice president of Nuclear Operations since 1988.

Other related management changes also announced today: -- Dickinson M. Smith, 56, currently vice president of PE's Peach Bottom Atomic Power Station was promoted to senior vice president- Nuclear, assuming McNeill's former responsibilities as head of all the company's nuclear operations.

-- Donald B. Miller, 48, currently station manager of the Connecticut

Yankee Nuclear Station of Northeast Utilities, was elected as vice president for Peach Bottom, replacing Smith.

-- Raymond F. Holman, 62, was named senior vice president of Corporate Planning and Performance, a new position. He most recently served as PE's senior vice president of Operations for the non-nuclear portion of the company, a position which is being eliminated.

-- David R. Helwig, 38, vice president of Nuclear Services will move to the newly created position of vice president, Nuclear Engineering and Services. Helwig will assume the responsibilities of Joseph F. Kowalski, 61, who is retiring as vice president of Nuclear Engineering after a 40-year career with Philadelphia Electric.

Joseph F. Paquette Jr., 55, remains chairman and chief executive officer of Philadelphia Electric, the fourth largest utility in the Northeastern United States and one of the largest utilities in the nation.

McNeill, a U.S. Naval Academy graduate, served 20 years in the U.S. Navy where he was commanding officer of a nuclear powered submarine and also directed the Naval Nuclear Power School. Since retiring in 1981, McNeill has gained a national reputation in the utility industry for his "hands-on" management of delicate and complex nuclear power issues.

From 1981 thru 1985, McNeill was employed by the New York Power Authority where he was former Resident Manager of the James A. Fitzpatrick Nuclear Power Plant, Oswego, N.Y., and became senior vice president of nuclear generation for the entire organization.

From 1985 through March 1988, McNeill was employed at Public Service Electric & Gas Company of Newark, N.J., the third largest electric utility in the Northeast, as senior vice president-Nuclear.

McNeill is married with five children. He and his wife, Dorice, reside in Kennett Square, Chester County, Pa.

Smith joined PE in 1987 after the NRC shutdown of Peach Bottom. A U.S. Naval Academy graduate, he is a retired Navy Rear Admiral and served as senior military staff assistant to Admiral H. G. Rickover, the father of the U.S. nuclear Navy.

Smith and his wife, Luanne, live in Lancaster Township and have three children.

Miller will start at Peach Bottom on May 1. He is a Penn State graduate and has held nuclear engineering and management positions with General Dynamics Corp., Consumers Power Company and Northeast Utilities.

PE has a major commitment to nuclear power, which generates two- thirds of the company's electric production. PE is one of the largest nuclear utilties in the U.S. with more than 4,000 megawatts of nuclear capacity and an investment of more than $7 billion in nuclear facilities.

FEDERAL WAY, WA (APRIL 11) PR NEWSWIRE - Nearly 70 franchise and corporate Domino's Pizza locations have joined together in an effort to gather canned food for Northwest Harvest, a statewide hunger response program, between now and April 29. Northwest Harvest serves people in need through a network of nearly 240 food banks and mission/meal programs.

The Domino's Pizza stores, ranging from Olympia to Bellingham, are offering a 50-cent discount on any pizza order when one or more canned food items are given to the delivery person. The 50-cent discount will also be valid in conjunction with all other coupon offers. Not all stores are participating, so customers are advised to inquire when placing their pizza order.

Through the month-long food drive, the company expects to collect literally tons of food for Northwest Harvest. "We are happy to do what we can to give something back to our community. It will be a great feeling when we make this huge donation to Northwest Harvest on behalf of our customers," said Bill McLaughlin, director of the Domino's Pizza Regional office.

#90101p0833 04/11/1990 ~PR Newswire

TAUNTON, MA (APRIL 11) PR NEWSWIRE - GTE Government Systems Corp. today announced receipt of an $879.2 million U.S. Army contract for continued work on a tactical communications system, known as Mobile Subscriber Equipment (MSE), bringing the total value of GTE's contract to $4.2 billion.

The award was made by the Army's Communications and Electronics Command (CECOM), Fort Monmouth, N.J., to fund the fifth option year of the contract.

The company received its initial contract on the MSE program in December 1985, and performance continues through December 1993. The MSE system

supplies secure voice, data and facsimile capabilities to U.S. Army communicators at corps and division levels. It replaces existing conventional battlefield communications equipment.

"GTE has met its performance and schedule goals to date on MSE," said Bernard Resnick, vice president and general manager of GTE's Mobile Subscriber Equipment Division. "We have successfully demonstrated that MSE meets government functional, operational and logistical requirements based on field verification tests conducted by the Army at Fort Hood, Texas, in January and February and on Army user acceptance of the system as it is fielded and operated."

Communications on the Move MSE, a secure, digital system -- similar in concept to cellular- mobile phones in automobiles -- allows military personnel moving quickly through a battlefield to communicate without interruption. As all options of the contract are exercised, GTE will provide more than 1,400 mobile switching centers, 8,000 mobile radios and 25,000 telephones in addition to training and logistics support for fielded systems.

Resnick said, "The MSE program is one of the most successful major acquisitions of the U.S. Army. It proves that a major communications program need not require 12 to 14 years to achieve initial operational capability in the field. We can provide the combat commander with state-of-the-art tactical communications support in far shorter time."

GTE will deploy MSE to all five corps of the U.S. Army. In 1989, the company deployed systems to the Army III Corps in the U.S.; over the next two years GTE will deploy MSE and train the Army's V and VII Corps in Europe. Plans call for deployment of the system in 1992 to the Army XVIII Corps in the U.S.; in 1993 the system will be deployed to the Army I Corps in the Pacific.

Last year, GTE opened a Resident School at Fort Gordon, Ga., to train U.S. Army personnel in the operation and maintenance of the new tactical communications system. In addition, GTE fielded MSE at Fort Hood, Texas, and trained III Corps active units and supporting Reserve and National Guard units. The III Corps units are located in seven states: Arkansas, Colorado, Georgia, Louisiana, Mississippi, Oklahoma and Texas.

Under its contract, GTE will train more than 45,700 U.S. Army personnel on MSE; to date GTE has trained more than 7,400 of this total.

GTE's Mobile Subscriber Equipment Division, headquartered here, is prime contractor to the Army for the MSE program. The division is part of the Command, Control and Communications Systems Sector. GTE Government Systems Corp. is a leading supplier of command, control, communications and intelligence systems for defense, governments and industry in the

United States and abroad.

GTE's subsidiaries operate in 46 states and 41 countries, with combined revenues and sales of $17.4 billion and net income of $1.4 billion in 1989. GTE is a leader in its three core businesses -- telecommunications, lighting and precision materials -- providing products and services worldwide.

SIMSBURY, CT (APRIL 11) PR NEWSWIRE - Kollmorgen Corporation (NYSE: KOL) announced today that its electro-optical division was awarded an international contract for over $20 million to deliver several shipsets of Model 76 periscopes from mid-1991 to 1993.

Kollmorgen, the sole designer since 1916 of all operational periscopes used by the U.S. Navy, is widely recognized as the pre- eminent international designer and manufacturer of military periscopes for the free world. According to a company spokesman, a Model 76 shipset consists of an attack periscope system and a search periscope system that is completely modular, allowing for customer variation, specialization and easy retrofit. Kollmorgen has been selling periscopes to international customers since the early 1970s.

Kollmorgen Corporation has continuing operations focused in two business segments: special purpose servo motors and controls and electro-optical instruments.

CONTACT: James A. Eder of Kollmorgen, 203-651-3757, or Kathy Liebmann of Doremus Public Relations, 212-964-0700, for Kollmorgen.

#90101p1484 04/11/1990 ~PR Newswire

PRINCETON, NJ (APRIL 11) PR NEWSWIRE - The United States tobacco industry closed January 1990 with a trade surplus of nearly $301.6 million up 3.5 percent ($10.1 million) when compared to January 1989, according to the Tobacco Merchants Association of the U.S. Inc. (TMA).

The January surplus was led by exports of tobacco products valued at almost $296.8 million, including shipments of nearly 11.1 billion cigarettes, valued at $276.5 million, according to Dr. Thomas C. Slane, director of research for the association. The balance of trade in leaf tobacco for the same period was down 33.1 percent ($50.7 million) over 1989, excluding

imports of oriental leaf, a type of leaf tobacco that is not grown in the U.S. but is needed in the production of American Blend cigarettes.

Tobacco products, comprised of cigarettes, cigars, little cigars, smoking tobacco, chewing tobacco and snuff, represent the majority of all U.S. tobacco exports. The value of American-made tobacco products shipped to foreign consumers reached nearly $296.8 million in January 1990, up 47.5 percent ($95.6 million) over January 1989.

Japan and Taiwan were the most significant foreign markets for American-made cigarettes in January 1990, accounting for 29.4 percent and 19.3 percent, respectively, of all cigarettes exported. Other significant buyers of cigarettes manufactured in the U.S. were Belgium (15.6 percent), United Arab Emirates (12.7 percent) and Saudi Arabia (5.6 percent).

Leaf tobacco exported from the United States in January 1990 was worth almost $121.8 million, nearly $42.2 million (-25.7 percent) less than January 1989.

As with cigarettes, Japan was the strongest buyer of U.S. leaf tobacco during January 1990, with purchases of 5.7 million kilograms valued at nearly $36.8 million, down nearly 46.8 percent and nearly 51.4 percent, respectively, compared to January 1989. Over 68 percent of U.S. leaf exports were bought by the top half-dozen foreign markets -- Japan, Thailand, West Germany, Netherlands, Belgium, and the United Kingdom compared to almost 81.9 percent during the same month last year.

Shipments of flue-cured tobacco to customers abroad, representing 65.5 percent of total leaf exports for the month, decreased 5.6 million kilograms (-29.7) in volume compared with January 1989. The dollar value of these exports was also down $42.2 million (-33.8 percent). Exports of unstemmed flue-cured were up nearly 2.6 times and 2.9 times in quantity and value, respectively, compared to January 1989, while stemmed flue-cured shipments, declined 32.2 percent in weight and 35.8 percent in value.

SAN DIEGO (APRIL 11) PR NEWSWIRE - BSD Bancorp Inc. (AMEX: BSD) today reported that first quarter earnings rose 33 percent to a record $1 million, or $.27 per share, for the period ended March 31, 1990, from $750,000 or $.21 per share for the first quarter of 1989. Assets also rose year-to-year, up 17 percent to $437 million at March 31, 1990, from $372 million at March 31, 1989.

Commenting on the very good first quarter results, Chairman James S. Brown attributed the performance to the on-going benefits of the company's community bank-oriented strategy. "Each of our units performed well during the quarter," said Brown, "as they continue to focus successfully on their respective market opportunities for profitable expansion."

During the first quarter, BSD Bancorp also spun off Datatronix Financial Services, its item processing unit, to shareholders and announced the sale of its 34 percent position in Borrego Springs Bank.

BSD Bancorp Inc. is a diversified holding company serving banking and trust markets predominately in Southern California.

#90101p1512 04/11/1990 ~PR Newswire

PITTSFORD, NY (APRIL 11) PR NEWSWIRE - SelecTronics, Inc. (NASDAQ: SELE) and Amway Corporation today announced a multi-million- dollar marketing and development agreement for personal electronic publishing products.

Amway has given SelecTronics an initial order for SelecTronics' WordFinder 220 handheld electronic speller/dictionary/thesaurus. In addition, Amway plans to order other English and European language dictionary and translator products. The products will be marketed through Amway's one million independent distributors worldwide.

For its part, SelecTronics has acquired Xiamax, Inc., of Signal Hill, Calif., for an undisclosed amount. Amway had forged a partnership with Xiamax to develop a "paperless book" which would allow the user to read and reference thousands of pages of text from a handheld unit. SelecTronics will complete work on the project. Key to SelecTronics electronic publishing products is a powerful and exclusive text compression technology developed by Xerox Corporation (NYSE: XRX) at its renowned Palo Alto Research Center (PARC).

Steve Van Andel, vice president-marketing for Amway Corporation, said, "This agreement exemplifies our commitment to developing high-tech household and personal products. We expect to see additional new and innovative products emerge through this partnership."

Mike Weiner, chairman and CEO of SelecTronics, said, "This agreement should benefit both companies, as our current and new products will also be marketed through independent Amway distributors. One of the best ways to market our products is through the Amway approach of direct, person-to-person marketing. As Amway operates in more than 40 countries

and territories and our products feature more than 20 languages, the potential is especially exciting."

Independent Amway distributors have been successfully marketing other high technology products such as the Amway Water Treatment System, Pureflow Air Treatment System, and Amgard Security Systems. Founded in 1959 and based in Ada, Mich., Amway is one of the world's largest network marketing companies with sales of $1.9 billion at estimated retail for the fiscal year ended Aug. 31, 1989.

Independent Amway distributors market over 300 items carrying the Amway name in such fields as home care, personal care, hometech, health and fitness and commercial lines. Additionally, Amway distributors market 4,000 brand-name goods through the Personal Shoppers(R) catalog, plus a variety of services and educational products.

SelecTronics, Inc. manufactures and markets handheld electronic publishing devices including the Electronic Bible licensed from the Zondervan division of Harper & Row; the Electronic Encyclopedia licensed from Random House; multi-language translators licensed from Berlitz, and a line of English and European language WordFinder dictionaries, thesauruses, and spelling checkers. The WordFinder 220 contains 4.5MB of information packed on a 256K chip in a unit the size of a handheld calculator. It features the correct spelling of 100,000 words, 220,000 synonyms, and a full QWERTY keyboard.

CONTACT: Mike Weiner of SelecTronics, 716-248-3875 or Beth Cloyd or Kim Bruyn of Amway, 616-676-6445, or for SelecTronics: product: Connie Connors of Connors Communications, 212-431-9300, or financial: Gary Fishman of Reynolds Associates, 212-661-1830

#90101p1523 04/11/1990 ~PR Newswire

CHICAGO (APRIL 11) PR NEWSWIRE - Image Business Systems Corp. (IBS) today announced a series of strategic business developments, including availability of ImageSystem(TM) Version 2.0; a contract with Humana Inc. for a 24-station pilot of ImageSystem and ClaimStation(TM); appointment of Andersen Consulting as the first approved systems integrator for ImageSystem; and appointment of NYNEX Business Centers as an authorized supplier and installer of equipment for ImageSystem.

IBS also said it had completed the initial port of ImageSystem to the new IBM RISC System/6000(TM) serving as the central server. The announcements coincide with the AIIM Show in Chicago running through April 12.

ImageSystem is IBS' product line for comprehensive document image management system. Version 2.0, available this month from IBS, provides

solutions for a wide range of business problems, and can be combined with a number of IBS-developed industry-specific applications. In addition, ImageSystem provides a software platform for the creation of additional customized and vertical market applications using the Application Program Interface.

The initial port of ImageSystem to the RS/6000 so soon after its announcement, indicates that IBS is at least on-schedule to deliver ImageSystem using the enhanced AIX(TM) product as the central server in fourth quarter 1990. The RS/6000 will provide the power necessary for the heavy loads involved in imaging.

In joining with Andersen Consulting and NYNEX Business Centers, IBS chose organizations proven at providing quality product and service to customers. Andersen has worked as systems integrator and application developer with IBS in a number of implementations, including RegiStation(TM) at the Monroe County (New York) board of elections and ARStation(TM) at Pfizer Inc.

NYNEX will supply, install and maintain all the OEM equipment associated with ImageSystem. As the choice of hardware increases rapidly, it was key that IBS work with a nationwide chain that could provide broad, quality service.

IBS is an IBM Business Partner-Cooperative Software Program Supplier for ImageSystem and related software. Headquartered in New York, IBS is owned by its employees and private investors, including IBM and Warburg, Pincus Capital L.P. IBS also has offices in Austin, Texas, Wilmington, Del., Westport, Conn., and Stillwater, Okla.

MALVERN, PA (APRIL 11) PR NEWSWIRE - Systems & Computer Technology Corp. (SCT) (NASDAQ: SCTC) and AT&T Computer Systems today announced an agreement to market an advanced software/hardware combination for administrative computing at colleges and universities.

The SCT software, called the BANNER(TM) Series, includes five integrated applications: student, finance, human resources, alumni/development and financial aid (financial aid is still under development and has not yet been released). BANNER is now available on the new AT&T System 7000(R) Series computers, leveraging the strengths of the BANNER software with AT&T's (NYSE: T) communications, networking and connectivity solutions. "We are pleased to be partnering with AT&T in higher education," said Michael D. Chamberlain, SCT vice president. "Their commitment to open

systems architecture and the higher education marketplace is consistent with SCT's direction of continuing to provide the best functional and technical solutions to higher education."

BANNER incorporates the ORACLE(R) relational database management system, SQL, rule-based architecture and other advanced features to give executives and end-users greater control over their administrative information systems. SCT has licensed more than 130 BANNER systems nationwide.

"We are excited to be working with SCT to enhance our education software offerings and demonstrate our continuing commitment to our education customers," said Eric Nahm, AT&T Computer Systems' industry marketing director.

SCT is a leading provider of applications software and computing management services for educational institutions and government jurisdictions nationwide. The company is headquartered at 4 Country View Road, Malvern.

AT&T Computer Systems, based in Morristown, N.J., designs, manufactures, sells and services a full line of networked computing systems and solutions based on open system architecture, including UNIX(R) System V.

TAMPA, FL (APRIL 11) PR NEWSWIRE - Hillsborough Holdings Corporation today announced that Chief Bankruptcy Judge Alexander L. Paskay of the U.S. Bankruptcy Court for the Middle District of Florida, Tampa Division, has recommended that the District Court deny motions to dismiss or abstain from deciding a declaratory judgment action filed by Hillsborough and

certain of its affiliates. The declaratory judgment action seeks to determine, among other things, whether or not Hillsborough and its subsidiaries are liable for asbestos-related claims against The Celotex Corporation, a former Hillsborough subsidiary. The motions to dismiss or abstain were brought on behalf of certain asbestos claimants.

If the District Court adopts the recommendation, the bankruptcy court will rule on, among other things, whether Hillsborough and its subsidiaries are liable for these asbestos-related claims. The Bankruptcy Court stated that it will separately issue an order on a Hillsborough motion for a preliminary injunction against the prosecution of certain pending asbestos-related lawsuits.

#90101p1551 04/11/1990 ~PR Newswire

DAYTON, OH (APRIL 11) PR NEWSWIRE - Mead Corporation (NYSE: MEA) today reported first quarter net earnings for 1990 of $39.5 million or $.62 per share. Net earnings for the same period in 1989 were $52.6 million or $.81 per share. Sales for the quarter were $1.141 billion, up slightly over 1989 sales for the period, which were $1.129 billion.

Mead noted that some prices declined during the period, with uncoated papers and corrugating medium suffering the most price erosion and prices for carbonless papers down only slightly. Prices for pulp and coated board were slightly above year-ago levels.

The company said that operating results were negatively impacted by disruption caused by construction activity to expand its Coated Natural Kraft(TM) mill in Alabama, a planned shut-down to modernize Mead's number one machine in Escanaba, Mich., and a variety of short-term production difficulties at various manufacturing locations.

Burnell R. Roberts, chairman and chief executive officer, reported that Mead is ahead of schedule on its Alabama CNK(R) expansion, which will come on stream late in the third quarter. "About half of this additional tonnage will be sold to international markets," he said. "Pre-startup costs associated with this expansion continued to have a negative impact on our bottom line." Mead is investing $560 million to create the world's largest coated board mill, adding 370,000 tons capacity for an overall annual capacity of 800,000 tons.

"Mead Packaging achieved excellent results in the quarter, primarily due to strong demand in beverage markets here and abroad," said Roberts. "We are making good progress in expanding our operations to serve the global

packaging market."

Earnings were up slightly over the prior year for Mead Data Central, Inc., the company's electronic publishing subsidiary, and for Zellerbach, its distribution arm.

CONTACT: Sharon Williamson of The Mead Corporation, 513-495-3535.

#90101p1552 04/11/1990 ~PR Newswire

LEXINGTON, MA (APRIL 11) PR NEWSWIRE - Raytheon Company (NYSE: RTN) reported an 8.4 percent increase in earnings and a 9.3 percent increase in earnings per share on a sales increase of 7.3 percent for the first quarter of 1990 compared with the same period last year.

Earnings for the quarter were $130.9 million, or $2.00 per share, and sales were $2.225 billion. In the first quarter of 1989, the company earned $120.8 million, or $1.83 per share, on sales of $2.073 billion.

"Raytheon continues to grow on the strength of its diverse government and commercial business base," said Thomas L. Phillips, Raytheon's chairman and CEO. "During the first quarter, our Electronics segment -- led by government electronics -- performed well, the Aircraft and Energy Services segments continued a rapid profit growth, and all five business segments remained profitable."

Total backlog at the end of the quarter was $9.490 billion, including funded U.S. government orders of $6.839 billion. Total backlog at the end of last year's first quarter was $8.878 billion, including a government backlog of $6.781 billion.

In Electronics, the company's largest segment, Raytheon continued to benefit from a strong diversified backlog. During the quarter Raytheon received initial funding for the Tacit Rainbow missile system and an $83.7 million contract award from the U.S. Navy to produce 21 extremely high frequency (EHF) satellite communications terminals and related equipment.

Beech Aircraft enjoyed increased sales and better margins. Beech has a strong product mix, with demand continuing to be strong for commuter and business turboprops. During the quarter, a derivative of the new Beechjet 400A was chosen by the Air Force as a new pilot training aircraft. The visibility of this win quickly resulted in a significant number of additional commercial orders for the light business jet.

The profit improvement in Energy Services was supported by good markets for a wide range of services. Each subsidiary in the segment gained in profitability. Energy Services' broader business base has positioned the

segment to take advantage of additional growth opportunities in new market areas such as environmental services.

The Major Appliances segment, paced by Amana, recorded higher sales than in last year's first quarter. Profitability was down, principally due to continued high start-up costs associated with Caloric's new South Carolina manufacturing facility.

Earnings per share are based on the average number of shares outstanding during the period. In this year's first quarter, average shares outstanding were 65.4 million compared with 66.0 million in the same period last year. The company purchased 406,800 shares of its stock during the first quarter of 1990, bringing total purchases to 21.7 million shares since the inception of the stock purchase program. The board of directors has authorized the purchase of up to 25 million shares.

Provisions for federal and foreign income taxes in the first quarter were $64.5 million in 1990 and $53.3 million in 1989. The effective tax rate was 33.0 percent in 1990 versus 30.6 percent in 1989, both below the statutory rate of 34 percent. The effective rate for 1990 is higher than 1989 due to lower deferred tax benefits and foreign tax credits.

On March 28, the quarterly dividend was raised 9 percent from 55 cents to 60 cents.

CONTACT: Larry McCracken of Raytheon Company, 617-860-2431.

PITTSBURGH (APRIL 11) PR NEWSWIRE - Chambers Development Co. Inc. (AMEX: CDVB) announced today that it has appointed Jeanne C. Caliguiri director of consumer affairs.

Caliguiri will serve as the company's consumer affairs spokesperson in her new position.

She will be responsible for community and media relations on consumer topics including recycling, delivering speeches to consumer organizations, making public appearances, leading tours of the company's facilities and a number of other consumer-oriented activities.

"I am very pleased that Mrs. Caliguiri is joining our company," said John G. Rangos Sr., president and CEO of Chambers. "She continues to make many contributions to the region today as she did during her years as first lady of Pittsburgh. I look forward to her working with us and know she will make a great contribution to our organization."

"I'm very excited about this new and challenging position and I look forward to working at Chambers," said Caliguiri.

A native of Pittsburgh, Caliguiri is affiliated with a number of groups in the city. Presently, she is a board member of The Pittsburgh Foundation, Salvation Army of Pittsburgh, where she is presently co-chairperson of Project Bundle-Up, St. Joseph Nursing Home, the Allegheny Intensive Treatement Program at Shuman Center and the Children's Museum.

A few of the many organizations she has been involved with in western Pennsylvania include the American Heart Association, Goodwill Industries, Leukemia Society, March of Dimes, Three Rivers Regatta, St. Peter's Child Development Center, Special Olympics, Spina Bifida, Western Pennsylvania Heart Association and the Zoological Park Commission.

Caliguiri was also the founder of the Richard S. Caliguiri Amyloidosis Research Fund. She resides with her two sons, Gregg and David, in the Squirrel Hill section of Pittsburgh.

Chambers Development Co., headquartered in Pittsburgh with offices in Atlanta, Providence, R.I., Richmond, Va., Charlotte, N.C., Dallas and Indiana, is a leading environmental firm offering services in collection, hauling, disposal, recycling and landfill development. The company also provides security services through a wholly owned subsidiary, Security Bureau Inc., which is among the 20 largest U.S. security firms.

MILWAUKEE (APRIL 11) PR NEWSWIRE - Universal Foods Corporation (NYSE: UFC) announced today that it has completed the previously announced sale of its Cheese Division. The sale price was $70 million in cash.

Commenting on the sale, Guy A. Osborn, president and chief executive officer, said, "We are very pleased to have completed this transaction. An excellent price was received for the business and we have many opportunities to use the proceeds to support the growth of our other businesses. One example is the recent announcement of our acquisition of the international flavor business of Felton Worldwide. This addition to Universal's Flavor business fits very well into our plans for continued international expansion. We are also pleased that the continued international expansion. We are also pleased that the buyer, International Cheese Company, Inc., a subsidiary of R.T. Holdings International, a privately owned Belgian company, intends to keep the division's headquarters operations in Milwaukee, and has retained all the division's current management and employees."

The sale of the Cheese Division, combined with the planned redeployment, disposition, and reduction in carrying values of certain company assets, will result in an after-tax increase in earnings of $1.2 million to $2.5 million, which equals 5 cents to 10 cents per share, in the third quarter.

Universal Foods is an international manufacturer and marketer of value-added food products. These include food flavors, food colors, the world's most diversified lines of frozen potato and yeast products, and dehydrated vegetables.

#90101p1561 04/11/1990 ~PR Newswire

WASHINGTON (APRIL 11) PR NEWSWIRE - The United States patent office has approved the application of Biomechanics Corporation of America (NASDAQ: BCAM) for its "Advanced Biomechanical Seating System". The announcement was made today by Clifford Gross, CEO of Biomechanics Corporation of America.

The patent award is for a seat system that records the contour of the spine and adjusts the seat shape to exactly fit the individual. A record of the individual's optimal seat position is encoded in a credit card to automatically adjust the contour of the back rest to the best supporting position. The new seat technology also permits manual adjustments since an individual's spine shrinks naturally (about 6 millimeters) during the day.

The credit card seat system technology will be offered for license to seat manufacturers. Two companies - Synergy Services and Biomechanics Corporation of America - jointly own the patent and will share any revenues from license agreements.

If all seats utilized this technology, it would be possible to insert your credit card with its encoded statistics and individually adjust your airline, rental car, office and movie theater seat.

"With this invention, seat comfort is optimized for the individual," said Clifford Gross, president of Biomechanics Corporation of America. "The system allows pressure to be evenly distributed across the spine to restore the lumbar curve and minimize spinal force."

Biomechanics Corporation of America (BCA), headquartered in Deer Park, N.Y., is the largest ergonomics company in the United States.

The company utilizes proprietary systems and engineering and medical

technologies to develop scientifically measurable and verifiable ergonomic solutions for improved productivity, injury prevention and optimal design of products, workplaces and tools. Customers include General Motors, Proctor & Gamble, DuPont, Grumman, Union Carbide and Steelcase.

CONTACT: Alison Ryan or Carl Nelson of Ruder-Finn, 212-715-1568, or 212-715-1593, for Biomechanics.

ATLANTA (APRIL 11) PR NEWSWIRE - IRT Property Co. (NYSE: IRT) today announced that it had purchased West Towne Square Shopping Center in Rome, Ga. for $5,900,000.

The center contains 90,000-square-feet of retail space anchored by FoodMax and Treasury Drugs and attached to an existing Wal-Mart store. Local space is 100 percent leased.

In making the announcement, Donald W. MacLeod, chairman and president of IRT, said: "The purchase of West Towne Square demonstrates the continued commitment of our company to purchase well-anchored and fully leased Southeastern shopping centers at attractive yields. We intend to continue to actively review new investment opportunities during the coming months, and feel that as an equity investor with substantial cash reserves we have a great competitive advantage in this 'buyers' market".

IRT Property Co., the Southeastern Shopping Center REIT, is a Real Estate Investment Trust which invests primarily in shopping centers in the Southeastern United States. The company owns in excess of 5.3 million square feet of retail space in its portfolio of 90 investments.

#90101p1565 04/11/1990 ~PR Newswire

WASHINGTON (APRIL 11) PR NEWSWIRE - Marriott Food & Services Management and Standard Textile announced today that they have entered into a joint venture to be known as RePaK Surgical Co.

The new company will provide hospitals with recyclable, protective, sterile surgical linen packs. Unlike disposal surgical packs, the recyclable products will greatly reduce disposal of hazardous surgical waste into the environment.

The RePaK centers provide hospitals with a patent pending process for

reprocessing highly protective surgical drapes and gowns made of Standard Textile's patented lightweight ComPel barrier fabric. The ComPel fabric is significantly more resistant to fluid strike through than other products on the market, which protects surgical staff from the spread of infectious disease.

ComPel barrier technology products can be safely recycled at RePaK centers for reuse. The recycle process ensures inspection, assembly, sterilization, and packing of ComPel products, at a lower cost than disposables.

In addition, the ComPel gowns are "breathable," making them comfortable for doctors and surgical staff even at extremely hot operating room environments.

Under the agreement, the joint venture plans to open its first two centers this year, one in Phoenix, Ariz. (Summer completion), and another in Northern California (Fall completion).

"Protective, comfortable surgical products are of the utmost importance to health care professionals today," said Daniel P. Howells, executive vice president and general manager, Marriott Food and Services Management. "We are pleased to be in the forefront of this new technology by offering a quality product that also meets the health care industry's critical need for cost containment."

Gary Heiman, president of Standard Textile Company, said, "With Marriott, we will be able to quickly bring ComPel and the RePaK system to key markets. Our existing cost effective RePaK centers have been very successful in offering hospitals a quality alternative to disposables."

Marriott Food and Services Management provides laundry, food, housekeeping plant operations and maintenance, and child care services to more than 3,000 education, health care and business facilities. It is part of Marriott Corporation, a diversified hospitality company involved in lodging and services headquartered in Washington.

Standard Textile Company is the nation's premier supplier of textiles, apparel, and barrier recyclable surgical products to the health care industry. Currently, Standard Textile, through its Repack Surgical Enterprises affiliate, operates RePaK centers in Cincinnati, Denver and Los Angeles.

RePaK is a registered trademark of Repack Surgical Enterprises and ComPel is a trademark of Standard Textile. CONTACT: Katherine M. Boyle of Marriott Food & Services Management, 301-380-3915.

DETROIT (APRIL 11) PR NEWSWIRE - Production and maintenance workers at the Mount Holly, N.C., assembly plant of the Freightliner Corporation -- the nation's No. 2 heavy truck manufacturer -- have voted for UAW representation. In an NLRB election held on April 6, Freightliner workers voted 652-602 in favor of the union.

UAW Vice President Stan Marshall and Region 8 Director George Smith hailed the vote as "a clear indication that Southern workers understand the positive impact that a union can make in their lives." Marshall directs the UAW National Organizing Department. The Freightliner plant is located in Smith's region.

The Freightliner victory follows a similar representation victory nearly one year ago at Mack Trucks, Inc. in Winnsboro, S.C. UAW members in Local 5841 at Mack Trucks and Local 2069, who work for the Volvo-GM Heavy Truck Corporation, actively assisted the organizing drive. United Rubber Workers union members from two nearby locations in North Carolina also participated in the campaign.

"We deeply appreciate the help which we received from other UAW locals and from members of the United Rubber Workers union," Marshall and Smith stated, adding: "The labor solidarity which was evidenced in this campaign contributed greatly to our success."

"Despite vigorous opposition from management, which included hiring an anti-union consultant, holding captive audience meetings and making threats against workers who signed union cards, the Freightliner workers were determined to gain the rights, protections and benefits of a union contract," Marshall and Smith said.

"Hopefully, this victory, combined with our recent success at Mack Trucks in South Carolina, sends a signal to other Southern workers that tough obstacles to organizing can be overcome through persistence, solidarity and a desire to bring justice to the workplace," Marshall and Smith concluded.

MINNEAPOLIS (APRIL 11) PR NEWSWIRE - Donaldson Company, Inc. (NYSE: DCI), announced three management-level appointments today.

John C. Read has joined the company as vice president and general manager of the Engine Group. Read had been vice president - Mid-Range Engines at

Cummins Engine, Inc., since 1986. Previously, Read served as plant manager at several Cummins domestic engine plants. Prior to joining Cummins in 1977, Read held various governmental positions including assistant secretary of labor for employment standards. Read earned a bachelor's degree in 1969 from Harvard College and a master's degree in 1971 from the Harvard Business School.

Robert L. Findorff, formerly senior vice president and general manager of the Engine Group, becomes senior vice president and chief administrative officer of the Donaldson Company with responsibility for corporate staff functions. During his 31 years with the company, Findorff has served in a variety of management positions.

Thomas A. Windfeldt, who will report to Findorff, was promoted to vice president - controller from controller. Windfeldt has held various financial positions during his 10 years with the Donaldson Company.

Donaldson Company, Inc., is a worldwide manufacturer of air cleaners, liquid filters and exhaust products and accessories for heavy-duty mobile equipment; in-plant air cleaning systems; air intake systems and exhaust products for industrial gas turbines; and specialized filters for computer disk drives, copiers and clean room components. Products are produced at plants in Illinois, Indiana, Iowa, Kentucky, Missouri, Wisconsin and nine other locations around the world. The Company's shares are traded on the New York Stock Exchange under the symbol DCI.

CHICAGO (APRIL 11) PR NEWSWIRE - A high-speed, digital engineering printer/plotter that accepts electronic input from a variety of computer-aided-design and engineering, and drawing management systems, and outputs plain paper prints up to C size was announced here today by Xerox Corporation (NYSE: XRX)

The Xerox 4018 Electronic Graphics Printing System was announced at the Show and Conference of the Association for Information and Image Management (AIIM) by the Xerox Engineering Systems Division (ESD). The 4018 is the newest in a family of Xerox printers and Versatec plotters that output plain paper prints up to E size from digital input.

"More and more, our customers are storing information on aperture cards and in digital form," said Edward P. Ryan, vice president and general manager, engineering and graphics products, a unit of ESD. "The 4018 gives them a way to easily print those images onto paper."

The 4018, designed for high-volume demands, accepts input from optical-disk storage devices, aperture card and hardcopy scanners, and computer-aided-design workstations. Speeds range from eight prints-per-minute for 18- x 24-inch prints and up to 20 prints per minute for 8-1/2-x 11-inch prints.

Equipped with a fixed-array recording head, the 4018 prints at a resolution of 400 dots per inch (dpi). The 400 dpi array reproduces fine lines while also producing solid black areas with uniform density. Even diagonals and curves are faithfully reproduced.

The 4018 operates unattended and is designed as a peripheral for a drawing management system, as a network resource in an engineering department and as a remote printer for an engineering reproduction department.

An optional Stacker/Sorter, which holds up to 840 sheets, adds to the productivity of the printer, especially when batch printing.

The 4018 is priced at $39,900. The cost of the stacker if $7,995. Order taking begins immediately. Availability is scheduled for third quarter 1990.

NEW YORK (APRIL 11) PR NEWSWIRE - Corroon & Black Company of New York, Inc., a wholly owned subsidiary of Corroon & Black Corporation (NYSE: CBL) announced today the appointment of Robert Pendergast to the position of senior vice president-international and the appointment of Ann Hoppe as vice president-international and unit manager reporting to Gregory W. Lynch, senior vice president, Corroon & Black Company.

Pendergast joined Corroon & Black in May of 1988 as vice president-international. In that capacity, he was responsible for directing the company's successful international strategy as well as securing new business for the firm.

Hoppe will be responsible for international service and marketing. She joins Corroon & Black from another major insurance broker, where she served as international unit manager responsible for marketing and service on major U.S. multinational accounts.

In making the announcement, John J. Kelly, president and chief executive officer of Corroon & Black Company, said, "Expansion of our international

capabilities and market share remains a critical element of our business plan. Bob Pendergast will continue to direct our international business activities and efforts toward meeting our ambitious goals in that segment. Ann Hoppe's first charge will be to work with Bob and Greg Lynch to design and implement procedures for international operations, as well as support our immediate international service and marketing needs."

Corroon & Black Corporation, headquartered in New York City, is one of the world's largest full-service insurance intermediaries, providing insurance brokerage, risk management services, reinsurance brokerage, and employee benefits, compensation, and actuarial consulting to individuals, local governments, professions, business, and industry. It has subsidiaries across the United States and affiliated offices throughout the world. The corporation was founded in 1905 in New York City.

HUDSON, NH (APRIL 11) PR NEWSWIRE - Howtek, Inc. (AMEX: HTK) today announced summary results of its operations for the first quarter ended March 31, 1990. The company recorded first quarter revenues of $5,550,000, an increase of 44 percent over the $3,816,000 recorded in the same period in 1989 and a 6 percent increase over the $5,228,000 in revenues recorded in the fourth quarter of 1989. The company also announced first quarter profitability of $173,000, or 2 cents per share, vs. the loss of $1,597,877, or 24 cents per share recorded for the same period in 1989. The company's first quarter profit increased 147 percent or 1 cent per share over 1989's fourth quarter profit of $70,000, which was the first profitable quarter in its six-year history.

During the first quarter the company announced and shipped its new 400-dot-per-inch color scanner, the SCANMASTER 3. This new high resolution scanner will further strengthen the company's leadership position in the desktop color scanner marketplace. The company also noted that sales of its color prepress page makeup system, COLORSCAN, increased significantly over sales recorded in the fourth quarter of 1989. The company announced that there are now over 30 COLORSCAN installations throughout the world in newspaper and commercial publishing operations. Robert Howard, the company's chairman, stated that, "The company has now recorded two consecutive quarters of profitability and looks forward to continued success based upon the sales growth of the COLORSCAN system and the initial market acceptance of the SCANMASTER3, as well as anticipated product introductions scheduled for the third and fourth quarters of this year."

Howtek was founded in 1984 by Robert Howard, who was also founder and president of Centronics Data Computer Corp. from 1969 to 1980. Howtek's product offering includes: COLORSCAN, a complete prepress color separation and page make-up system for newspapers, publishers and graphics arts markets; SCANMASTER, a series of reflective and transmitive copy and 35mm film scanners; and the PIXELMASTER, a full-color plain-paper high resolution solid ink jet printer. The company also offers workstations for design, composition, image capture and output, which operate interactively on local area networks incorporating various Howtek peripherals and proprietary software.

MINNEAPOLIS (APRIL 11) PR NEWSWIRE - Best Buy Co., Inc. (NYSE: BBY), today reported sales for March 1990 (3/4/90-4/7/90), the first five week period of the company's new 1990-91 fiscal year commencing March 4, 1990.

According to Allen Lenzmeier, senior vice president/finance, March sales were $51 million, compared with $42 million for the comparable five-week period last year, a 21 percent increase.

Of the company's 49 stores, 41 are considered comparable, whose sales increased 4 percent for March 1990. Best Buy considers a store to be comparable the 14th full month following its opening.

Best Buy now reports monthly sales on a 5-4-4 week basis. Net income and earnings per share are reported quarterly. Fiscal 1990 earnings, an 11-month period ended March 3, 1990, are expected to be announced by the end of April.

Best Buy is the fourth largest publicly held consumer electronics and major appliance retailer in the U.S. The company sells nationally recognized name brand consumer electronic products, 35mm photographic equipment, home office products, entertainment software, and major appliances at 49 stores located in Minnesota, Iowa, Wisconsin, South Dakota, Illinois, Kansas, Missouri, and Nebraska.

#90101p1595 04/11/1990 ~PR Newswire

WASHINGTON (APRIL 11) PR NEWSWIRE - AT&T will begin providing international calling service to Albania and the Indian Ocean Island of

Mayotte in May and will open direct-dial service to 10 new countries and areas on April 15.

AT&T has never offered calling to Albania due to restrictions the Albanian government has placed on international calling for more than 40 years. AT&T was able to negotiate a service agreement last week, after Albania started sending calls to the United States on March 24.

Only operated-assisted calls to Albania and Mayotte will be available. Direct-dial service to Albania is expected to begin in the fall.

Included among the new direct-dial countries are Iraq and Burma, along with the African nations of Burkina Faso, Djibouti, Mali and Sierra Leone; the Pacific nations of Kiribati and Western Samoa; the Indian Ocean nation of the Seychelles Islands, and a French territory in the Indian Ocean called Reunion Island.

AT&T had offered direct-dial service to Iraq from February 1979 to April 1985, when service was suspended by the Iraqi government.

For Albania and Mayotte, AT&T will file new operator-handled prices with the FCC, scheduled to be effective at the time of the introduction.

By dialing a call directly rather than using an operator caller are connected more quickly and easily, and at a lower cost. For example, a five-minute direct-dialed call to Iraq during the least expensive time of the day will cost $7.68. The least expensive operator-assisted rate for a five-minute call to Iraq is $11.67.

With the addition of Albania and Mayotte, AT&T will provide service to more than 270 countries and areas, including 168 that can be dialed directly.

AT&T introduced domestic direct dialing in 1951, and overseas direct dialing began with service to the United Kingdom in 1970. By 1980, AT&T customers could direct dial 70 countries. AT&T completes more than one billion international calls each year.

The last country AT&T opened for direct dial calling was the Soviet Union. Since November, callers have been able to directly dial into Moscow.

For more information on international dialing, call 1-800-874-4000.

DALLAS (APRIL 11) PR NEWSWIRE - Endevco, Inc. (AMEX: EI) announced today its filing with the Federal Energy Regulatory Commission to construct approximately 44 miles of 24-inch pipeline from a point located near Delhi La., to its Mississippi Fuel Company System (Fuelco) located near Vicksburg, Miss.

This pipeline will have a capacity of up to 300 million cubic feet of gas per day and is planned to connect to the following interstate pipelines: ANR, Columbia Gulf and Tennessee Gas. The estimated cost of this phase of the pipeline is $26 million.

"The pipeline is the first phase of Endevco's previously announced plans to build a major pipeline system capable of delivering gas from North Louisiana to Fuelco," James W. Bryant, chairman, president and chief executive officer, said.

"Construction of this pipeline will bring a significant amount of reasonably priced natural gas to Fuelco for eventual sale and disposal. When constructed, the pipeline will have a significant impact on Endevco's long-term gas supply strength."

Endevco is a rapidly growing, natural gas company built around a core business -- gas transportation, consisting of gathering, short- haul transmission, storage and marketing of natural gas. The company is also engaged in the closely related and complementary business of treating and processing natural gas and natural gas liquids.

#90101p1605 04/11/1990 ~PR Newswire

ATLANTA (APRIL 11) PR NEWSWIRE - On May 7, the most remarkable Coca-Cola sign ever created -- a 25-ton, three-dimensional revolving neon wonder -- will make its debut in a special lighting ceremony at "The World of Coca-Cola" Pavilion, adjacent to Underground Atlanta.

The sign, suspended above the entrance to "The World of Coca-Cola," will be switched on by the student from Atlanta-area schools who wins an art contest created for the sign-lighting event.

Not since 1981, when the famous Margaret Mitchell Square sign was demolished, has there been a signature Coca-Cola presence in downtown Atlanta.

Atlantans are likely to think the wait for a new sign was worth it. The

26-foot wide sign, emblazoned with the famous Spencerian script Coca-Cola trademark, is unlike any other. The trademark portion of the sign revolves in one direction, while a grid symbolizing the Earth revolves around it in another.

The Coca-Cola Company has a tradition of creating landmark signs around the world, such as those in New York's Times Square, London's Picadilly Circus, Tokyo's Ginza and Pushkin Square in Moscow. The new Atlanta sign is the most innovative neon spectacular yet created.

The sign will be a beacon for "The World of Coca-Cola", scheduled to open later this summer. Visitors to the 45,000-square-foot, three-story facility will journey through the 104-year history of the world's most popular consumer product, and peek into the future with state-of-the-art technological displays and interactive exhibits.

One-of-a-kind attractions -- including a replica of a 1930s vintage soda fountain, complete with soda bar, stools, authentic decorations and a real "soda jerk" -- will take guests on a journey back in time to the early days of Coca-Cola.

The honor of turning the switch to light the new neon sign will go to a 6th, 7th or 8th grader whose art is selected from hundreds of entrants as the winner in "The World of Coca-Cola" art contest.

The competition is open to public schools in the Atlanta city, Cobb, Clayton, Decatur city, DeKalb, Fulton, Gwinnett, Marietta and Rockdale areas. A distinguished panel of judges from the Georgia State University School of Art and Design will select the winning student.

In addition to being selected to light the sign, the grand prize winner will receive a $500 savings bond and a $2,500 gift to the school's art department. Other finalists will also receive savings bonds and gifts for their schools.

The sign-lighting festivities are open to the public. Further details will be announced soon.

DALLAS (APRIL 11) PR NEWSWIRE - Income Opportunity Realty Trust (AMEX: IOT) today announced improved operating results for the year ended Dec. 31 1989.

The trust recorded a net loss of $6 million, or $1.57 per share, on

revenues of $12.3 million for 1989, compared with net loss of $6.7 million or $1.82 per share, on revenues of $12.3 million for the prior fiscal year. Net rental income decreased primarily because of the disposition of two office buildings and three apartment projects.

The trust recorded a $1.2 million provision for losses in 1989, compared with a provision of $5.1 million in 1988.

Revenues for the three months ended Dec. 31, 1989, were $2.5 million, compared with $3.7 million for the corresponding period in 1988. The trust recorded a loss of $1.1 million, or 27 cents per share, for the three months ended Dec. 31, 1989, compared with a loss of $4.9 million, or $1.33 per share, for the corresponding period in 1988.

#90101p1608 04/11/1990 ~PR Newswire

THOMASVILLE, GA (APRIL 11) PR NEWSWIRE - Flowers Industries Inc. (NYSE: FLO) posted record sales and net income during the third quarter of fiscal 1990, it was announced today by Amos R. McMullian, chairman of the board and chief executive officer.

Sales for the quarter which ended on March 10 were $190,209,000 an increase of 8.6 percent over the $175,194,000 reported for the same quarter last year. Net income was $7,708,000 a 32.5 percent increase over the $5,817,000 reported last year. Net income per share was $.22 an increase of 29.4 percent over the $.17 recorded last year.

Sales for the 36 weeks ended March 10 were $578,747,000, an increase of 10.3 percent over the $524,612,000 reported for the first three quarters of fiscal 1989. Net income for the period was $19,582,000, a decrease of 10.9 percent from the $21,979,000 reported last year. Net income after accounting for the loss of $3,924,000 on the Federal Trade Commission ordered divestiture was $15,658,000. Net income per share before the extraordinary item was $.56, a decrease of 11.1 percent from the $.63 reported last year. Net income per share after the extraordinary item was $.45.

Commenting on the announcement, McMullian said: "The company now is moving rapidly to recover its earnings momentum. In the third quarter we experienced record levels of sales, pre-tax income and net income. Net income per share at $.22 tied the old record for the third quarter which was established in fiscal 1988. We are very pleased with these results

because they reflect the great underlying operating and financial strengths of Flowers Industries. The management team has demonstrated its ability to face a period of adversity and build a stronger operating company while absorbing short-term blows to profitability. This resiliency holds great promise for the future of Flowers Industries within our industry.

"Looking ahead, we are optimistic and yet realistic," he went on to say. "Fiscal 1990 is a recovery year. Great progress has been made and our results for the year will show substantial improvement over fiscal 1989. The company continues to face high ingredient costs and ongoing pricing competition throughout its market areas, both of which will serve as short-term deterents to margin expansion.

FLowers Industries produces and distributes a variety of specialty branded food products throughout the South.

DALLAS (APRIL 11) PR NEWSWIRE - Transcontinental Realty Investors (NYSE: TCI) today announced operating results for the year ended Dec 31, 1989.

The trust recorded a net loss of $7.0 million, or $0.55 per share, on revenues of $29.7 million for 1989, compared with net loss of $17.7 million, or $1.44 per share, on revenues of $32.9 million for the prior fiscal year. Net rental income increased approximately $900,000 because of additional operations from properties acquired through foreclosure during the year and increased occupancies in several of the trust's existing properties.

The trust recorded a $6.0 million provision for losses in 1989, compared with a provision of $18.0 million in 1988. Approximately half of this year's provision resulted from the two loans foreclosed in 1989.

Revenues for the three months ended Dec. 31, 1989, were $6.1 million, compared with $9.0 million for the corresponding period in 1988. The trust recorded a loss of $7.7 million, or 61 cents per share, for the three months ended Dec. 31, 1989, compared with a loss of $15.0 million, or $1.23 per share, for the corresponding period in 1988.

Transcontinental Realty Investors is a combination mortgage and equity real estate investment trust which operates nationwide.

PITTSBURGH (APRIL 11) PR NEWSWIRE - Westinghouse Credit Corp., the principal subsidiary of Westinghouse Financial Services, Inc., today announced net income of $42.0 million for the three months ended March 31, 1990.

The results, a record for the first quarter, represent an increase of 18 percent compared to the same period in 1989.

William A. Powe, chairman, attributed the company's performance to growth in both loans and marketable securities. The record profits were achieved despite anticipated weakness in the real estate market, and they put the

company on target for a good year, Powe said.

Westinghouse Credit added more than $600 million of receivables during the quarter, primarily in the corporate financing portfolio. Assets now exceed $9.7 billion.

Westinghouse Credit is one of the nation's largest business finance companies. The parent company, Westinghouse Financial Services, Inc., is owned by Westinghouse Electric Corp. (NYSE: WX).

#90101p1621 04/11/1990 ~PR Newswire

LYNN, MA (APRIL 11) PR NEWSWIRE - GE Aircraft Engines' CT7-9B turboprop engine will power the eight Saab 34OB regional aircraft selected by Japan Air Systems (JAS).

The value of the engine order including spare parts is expected to exceed $12 million. JAS, Japan's third largest airline, plans to expand its domestic service in the 1990's with its newly ordered Saab 34OBs. JAS is expected to take delivery of its first CT7-9B-powered Saab 34OB aircraft in 1992.

The Saab 34OBs will be operational on JAS regional networks in Japan. JAS currently operates a fleet of 73 aircraft on domestic and international routes. The airline serves Seoul and Singapore from Tokyo and plans to introduce new service to Hong Kong, Bangkok, Honolulu, and the United States west coast beginning this year.

Bruce Gordon, general manager of GE's Small Commercial Engine Department, said, "We consider this selection to be extremely important because it represents the first sale of the CT7-9B-powered Saab 34OB modern turboprop airliner in Japan. We expect this modern airliner will play an important role in Japan's expanding domestic system."

This selection expands GE's relationship with JAS into the regional market. Currently, JAS operates wide-body McDonnell Douglas DC-10 and Airbus Industrie A300 aircraft powered by GE's CF6-50 engines on its long-haul routes.

GE's CT7-9B engine, a 1,870 shaft horsepower turboprop, provides the Saab 340B regional airliner with improved takeoff, climb, and cruise

performance. The CT7-9B is the newest member of GE's CT7 turboprop engine family.

The CT7 turboprop engine family has accumulated two million flight hours and powers 202 aircraft in 16 countries.

#90101p1624 04/11/1990 ~PR Newswire

WASHINGTON (APRIL 11) PR NEWSWIRE - The Federal National Mortgage Association (Fannie Mae) (NYSE: FNM) today reported net income for the first quarter of 1990 of $277 million, or $1.06 per share, fully diluted.

This compares with earnings of $165 million, or 66 cents per share, for the first quarter of 1989 and $237 million, or 90 cents per share, for the fourth quarter of 1989. (All per share information reflects the three-for-one common stock split that occurred in October 1989.)

Roger Birk, Fannie Mae's president and chief operating officer, said net income for the first quarter of 1990 increased from the fourth quarter of 1989 due to:

-- Higher net interest income on our total investment portfolio.
-- Increased income from guaranty fees on outstanding Mortgage-Backed Securities.
-- Growth in miscellaneous income.

Birk also said that first quarter charge-offs of $59 million were little different from the first and fourth quarters of 1989, which were $58 million and $56 million, respectively. The provision for losses charged to earnings in the first quarter of 1990 was $75 million, unchanged from the fourth quarter of 1989 and $5 million lower than the first quarter of 1989. The number of properties acquired through foreclosure was 2,455 in the first quarter of 1990. This compares with 2,494 in the fourth quarter and 2,975 in the first quarter of 1989 and is down 44 percent from the peak in the third quarter of 1987.

Net interest income increased to $378 million from $352 million in the fourth quarter of 1989. This increase stemmed from rises in both the average investment balance and the net interest margin. During the first quarter of 1990, the average net investment balance was $2.1 billion higher than the preceding quarter and the net interest margin, at 136 basis points, was 6 basis points higher.

Guaranty fee income reflects the strong growth in outstanding

Mortgage-Backed Securities (MBS). MBS issues in the first quarter of 1990 totaled $24.1 billion, surpassing the previous high for a first quarter by 54 percent.

Fannie Mae, the USA's Housing Partner, is a congressionally chartered, shareholder-owned company and the nation's largest investor in home mortgages.

NEW YORK (APRIL 11) PR NEWSWIRE - Woolworth Corporation (NYSE: Z) said its board of directors today approved a two-for-one split of Woolworth's common stock for shareholders of record at the close of business on May 3, 1990. The board also declared an 11 percent increase in the quarterly cash dividend on common stock payable to shareholders of record on the same date.

The stock split will be in the form of a 100 percent stock dividend to be distributed on May 31, 1990. The quarterly cash dividend on common stock will be paid on June 1 and will rise, on a pre-split basis, to $.52 per share from $.47 per share.

After the stock split, Woolworth will have outstanding approximately 129 million shares of common stock and approximately 158,000 shares of $2.20 Series A convertible preferred stock. Each share of preferred stock will be convertible, after the split, into 5.68 shares of common stock, as compared to 2.84 shares before the split.

Woolworth last split its common stock -- also on a two-for-one basis -- in May 1986.

Harold E. Sells, chairman and chief executive officer of Woolworth, stated that the increase in the cash dividend on common stock is the sixth in as many years, and that the increased annualized rate of $2.08 per share (on a pre-split basis) represents a 131 percent increase over the annual rate paid in 1984. Sells said, "Today's actions reflect the company's increasingly strong financial performance, as well as the board's confidence in the company's future growth."

For the year ended Jan. 27, 1990, Woolworth reported a 14 percent increase in net income to a record $329 million, or $5.11 per share on a pre-split basis, on a 9.1 percent rise in revenues to $8.8 billion.

#90101p1631 04/11/1990 ~PR Newswire

CHARLOTTE, NC (APRIL 11) PR NEWSWIRE -- First Union Corporation (NYSE: FTU FTUpr) today reported $71 million, or 67 cents per common share, in net income applicable to common stockholders for the first quarter of 1990.

These results compared with net income of $72 million, or 68 cents per share, in the first quarter of 1989. The first quarter of 1989 included a $6 million after-tax gain from the sale of mortgage servicing rights and a $1 million after-tax loss from the sale of investment securities. The first quarter of 1990 included a $1 million after-tax gain from the final payment on the 1988 sale of the factoring unit and a $2 million tax benefit from previously expensed alternative minimum tax.

First quarter 1990 results also compared with net income of $40 million, or 37 cents per share, earned in the fourth quarter of 1989. These earnings had been reduced by nonrecurring and other unusual expenses.

In the first quarter of 1990, the Office of the Comptroller of the Currency (OCC) completed an examination of the commercial real estate loans of First Union's Florida banking operation. This examination resulted in no special provision and no directed increase in nonperforming assets related to Florida commercial real estate loans. OCC examinations of First Union's real estate lending in North Carolina, South Carolina, Georgia and Tennessee are scheduled in the second quarter.

First Union's first quarter average net loans increased 30 percent from a year ago, or 11 percent excluding growth related to the purchase accounting acquisition of Florida National. Average deposits in the first quarter of 1990 increased 28 percent from a year ago, or 5 percent excluding growth related to the Florida National acquisition.

Tax-equivalent net interest income, the largest component of First Union's earnings, increased 12 percent to $332 million from $297 million in the first quarter of last year. Pressure on the net interest margin began to stabilize as pricing of loans and deposits responded to the intensified efforts of First Union employees to improve the margin. However, the addition of Florida National's investment portfolio and discretionary assets for most of the first quarter of 1990 partially offset these positive effects. The net interest margin was 3.97 percent in the first quarter of 1990, 4.57 percent a year ago and 3.96 percent in the fourth quarter of 1989. The margin for the remainder of 1990 is expected to stabilize at approximately 4 percent.

During 1989, Florida National had substantially increased its loan loss allowance, which was added to First Union's allowance upon completion of the merger. At March 31, 1990, the allowance for loan losses, including

the acquired Florida National allowance, was 1.57 percent of net loans and 106 percent of nonaccrual and restructured loans. At March 31, 1989, First Union's allowance was 1.30 percent of net loans and 143 percent of nonaccrual and restructured loans.

As of March 31, 1990, First Union Corporation had assets of $39.1 billion and operated 821 banking offices in North Carolina, South Carolina, Georgia, Florida and Tennessee and 278 nonbanking offices in 36 states.

NASHVILLE, TN (APRIL 11) PR NEWSWIRE - Du Pont (NYSE: DD) today transported the first load of plastic bottles and containers collected for recycling as part of the public/private partnership to help Williamson County solve its solid waste problem.

Waste Management of North America Inc. and Keep America Beautiful (KAB) also are participating in the project.

Approximately 12 tons of plastics will be shipped from Du Pont's Old Hickory, Tenn., plant to the Plastic Recycling Alliance (PRA) facility in Chicago. PRA is Du Pont's plastics recycling joint venture with Waste Management Inc.

The plastics collected include polyethylene terephthalate (PET) used for soft drink bottles, and high-density polyethylene used for milk, juice and water jugs and detergent bottles.

The recycling program comprises 11 collection sites in Williamson County. Since its inception last July, more than 30 percent of the county's residents have participated in the dropoff program. The county is aiming for 50 percent participation by the end of this year.

"The success of this program demonstrates Williamson County's leadership in recycling and underscores Du Pont's commitment to work with government, the public and industry to help solve the solid waste problem," said Frank N. Aronhalt, Du Pont director of environmental affairs-plastic waste solutions.

"By applying new technology to develop market applications for recycled products, companies such as Du Pont are changing recycling from a nice thing to do to a practical way to live," said Gov. Ned Mc Wherter.

In addition to recycling the plastics collected, Du Pont is providing $35,000 to fund teacher training in Williamson County and the installation of the KAB solid waste management curriculum.

To reinforce the program, Du Pont will contribute an additional $5,000 a year for the next three years to the Volunteer Public Education Trust Fund on behalf of the year's top recycling school. This money will be used throughout the state for children "at-risk" of not completing their education.

Du Pont also is awarding computers to county schools with the most involvement in recycling.

WASHINGTON (APRIL 11) PR NEWSWIRE - HC Partners, L.P. today announced that it has presented a friendly restructuring and recapitalization plan to Harsco Corp.'s (NYSE: HSC) board of directors.

The plan is designed to strengthen the company's core businesses and to increase shareholder value, in part through a new equity infusion by or through HC Partners of $100 million to $200 million and the payment of a substantial cash dividend to Harsco's shareholders. HC Partners currently owns approximately 7 percent of Harsco's common stock and believes it is the largest single shareholder of Harsco.

The general partner of HC Partners is The Carlyle Group, L.P., a private merchant bank owned in part by the Richard King Mellon interests of Pittsburgh and Ligonier, Pa.

The plan was presented today in a letter from Frank Carlucci, Carlyle's vice chairman and former secretary of defense and national security advisor, to Malcolm W. Gambill, president and chief executive officer of Harsco, a diversified industrial company located in Camp Hill, Pa.

Carlucci said, "The plan envisions rewarding Harsco's long-patient shareholders with a special cash dividend of approximately $15 per share and a strengthening of the company through a concentration on its central businesses and a disengagement from its unprofitable Defense Group -- all while maintaining Harsco as a Pennsylvania-based and led company."

Andrew Mathieson, executive vice president of the Richard King Mellon Foundation, stated, "Our goal as investors in Harsco has been to ensure that the company remains a strong, viable Pennsylvania employer and a vehicle for economic growth. We believe the plan presented by HC Partners

can achieve that goal and we are hopeful that the Harsco board of directors will consider it in that light."

MCLEAN, VA (APRIL 11) PR NEWSWIRE - Primark Corporation (NYSE, PSE: PMK) announced today that it has entered into an agreement to repurchase 995,600 shares of its common stock for a purchase price of $7.50 per share.

The transaction will settle on or before the close of business on April 18 1990. The repurchased shares will be held as treasury shares and used for general corporate purposes. This stock repurchase was authorized by the Primark board of directors at a special board meeting on April 9, 1990.

At that same meeting, the Primark board of directors also amended the Primark Rights Agreement, initially adopted as of Jan, 12, 1988, to provide that an "Acquiring Person" (as defined in the agreement) would not include any person who became the beneficial owner of 20 percent or more of Primark's common stock solely as a result of the company's repurchase of its shares.

"A change in investment strategy by one of our shareholders provided Primark with a unique opportunity to repurchase these shares slightly below the current market price, as well as at a significant discount to book value and the average trading range of the past several months," said Joseph E. Kasputys, Primark's chairman and chief executive officer. "Since the purchase uses only a small portion of Primark's cash, the company has ample liquidity to pursue its acquisition objectives."

Primark Corporation is a holding company headquartered in McLean, which, through its diversified businesses, is primarily engaged in healthcare information, financial and ground transport services.

PITTSBURGH (APRIL 11) PR NEWSWIRE - Chambers Development Co. Inc. (AMEX: CDVB) announced today that it will issue a 100 percent stock dividend to all holders of its outstanding common stock and Class A common stock.

The stock dividend will result in the distribution of one share of the

company's common stock for each share outstanding, and one share of Class A common stock for each outstanding share of that class. The distribution will be made on May 14, 1990, to all shareholders of record as of April 27 1990.

This is Chambers' third stock dividend in the past four years, company officials said.

Chambers Development Co. Inc., headquartered in Pittsburgh, is a leading environmental firm offering services in collection, hauling, recycling, disposal and landfill development. The company also provides security through its wholly owned subsidiary, Security Bureau Inc., which is among the 20 largest U.S. security firms.

ATLANTA (APRIL 11) PR NEWSWIRE - Contel Corp. (NYSE: CTC) today announced that its Federal Systems Sector has received a contract to provide an Automated Weather Distribution System (AWDS) to the U.S. Air Force, giving base weather stations a modern, computerized forecasting, analysis and air-crew briefing capability.

The value of the 10-year contract is $79 million. The system will replace manual and semi-automatic procedures, including hand-drawn charts, and is termed by the Air Force to be the first such major enhancement in 30 years.

AWDS will enable Air Force weather professionals to scroll through a variety of weather images on a color monitor, perform in-depth analyses of changing weather patterns and produce hard copies for pilots. The system will present on-line weather charts, satellite images, wave fronts and turbulence conditions. Air base runway conditions, wind direction and velocity, visibility and temperature will be monitored and displayed by the system as will local, regional and national weather conditions.

The initial contract award provides for systems at 100 Air Force sites worldwide, 20 transportable units, and one software test applications facility. The contract provides for a six-year production and installation period with logistics support and maintenance of hardware and software for 10 years.

The award was made by the Electronic Systems Division of the Air Force Systems Command and will be performed by Contel's Government Services Group, located in Chantilly, Va. and Marina del Ray, Calif.

Located near Washington, D.C. in Chantilly, Contel Federal Systems provides life-cycle management of integrated telecommunications and information systems networks to government agencies.

Contel Corp., a company with more than $3 billion in annual revenues and sales, provides a broad range of telecommunications products and services.

#90101p1656 04/11/1990 ~PR Newswire

PHILADELPHIA (APRIL 11) PR NEWSWIRE - At the annual meeting of Philadelphia Electric Co. (NYSE: PE) shareholders Joseph F. Paquette Jr., chairman and chief executive officer, told the attendees that the company had a record year for technical accomplishments in 1989 and is now faced with perhaps the greatest challenge ever to its financial condition.

The shareholders also had a number of proposals before them the most significant being one to revise the company's bylaws and articles of incorporations to be in conformance with the Pennsylvania Business Corporation Law of 1988 that became effective Oct. 1, 1989.

Discussing the successes of 1989 Paquette said: "Our reorganized nuclear organization completed the difficult and costly process of restarting both units at our Peach Bottom Plant thus ending the NRC's shutdown which lasted over two and a half years. Another notable achievement was the successful completion and start up of our new Limerick Unit No. 2, nine months ahead of schedule and $382 million under the Pennsylvania PUC's cost cap. After loading fuel in July, the unit was brought to full power in January of this year in a record 200 days and has been performing in an excellent fashion ever since. The Point Pleasant Water Diversion Project was also completed in 1989 and began providing supplemental cooling water just in time for the startup of Limerick Unit No. 2.

Regarding the financial future of PE, Paquette said: "Although we are pleased with the accomplishments of 1989, the company is now faced with perhaps the greatest challenge ever to its financial condition. Next week the Pennsylvania Public Utility Commission (PUC) will issue its final order in response to the company's request for a $549 million electric rate increase to pay for the costs of owning and operating Limerick Unit No. 2.

"Despite the Unit's obvious benefits and value, it appears that the PUC will approve a rate increase of only about $250 million or approximately 45 percent of our request. An increase of that amount is unreasonable and will be wholly inadequate to offset the annual costs of Limerick Unit

No. 2. Because the rate request will be cut by $300 million, our annual earnings will decrease by almost $1 per share. In addition, the expected PUC order will require a one-time write-off of approximately $1.20 per share in 1990.

"Over the past two years, your management has taken a number of steps to control expenses and improve productivity. It is now necessary to intensify our comprehensive cost cutting efforts and we will announce soon a major plan to achieve further productivity improvement. However, our ability to cut costs is limited to those expenditures not directly related to the quality of service to our customers, and therefore we will not be able to prevent a decrease in the dividend. A dividend reduction is especially regrettable since I know that many of our shareholders rely on our dividend as a significant and dependable source of income. Nevertheless, we must tailor our dividend policy to our expected lower level of earnings."

Also at the meeting the shareholders were asked to approve a number of proposals:

1. Proposals to amend the Company's Articles of Incorporation and Bylaws.

2. Election of Directors

HOUSTON (APRIL 11) PR NEWSWIRE - Rowan Companies, Inc. (NYSE: RDC) reported unaudited financial results for the first quarter ended March 31, 1990.

The net loss amounted to $6,163,000 comparing to a loss of $11,129,000 in the 1989 first quarter. The per share loss was $.09 vs. a $.15 loss in the year earlier period.

C.R. Palmer, chairman and president, commented, "The company's rig utilization and day rates continue to improve. North Sea utilization, currently at 100 percent, was 89 percent for the first quarter. Gulf of Mexico utilization, where 12 of 13 rigs are currently under contract, was 75 percent for the first quarter. Aviation revenues and income from operations were at record first quarter levels. Confidence continues for a greatly improved business climate in 1990 with a return to profitability possible in the second quarter."

Rowan Companies, Inc. serves the petroleum industry as a contract driller, onshore and offshore in domestic and international areas, and operates a

fleet of charter helicopters and fixed-wing aircraft.

LAS VEGAS (APRIL 11) PR NEWSWIRE - GE Information Services (GEIS), the recognized leader in third-party Electronic Data Interchange (EDI) network services, announced today here at the EDI'90 Conference the U.S. availability of an electronic payment instruction system which manages the flow of a company's funds transfer and remittance information.

The COEP (Customer Originated Electronic Payments) System is an electronic disbursements and collections management system designed to automate the initiation of payment transactions between corporations and their customers and suppliers -- whether or not they are EDI capable. The COEP System brings the full benefits of EDI to the corporate financial function.

After pilot implementations at three GE divisions in 1987, the Accounts Receivable version of the COEP System is currently being used by 15 different GE businesses for more than $9 billion in electronic collections. A commercial version of the COEP System is now being offered in the U.S. to major corporations.

Key benefits of the COEP System are: -- Better cash management. -- Enhanced productivity for accounts payable/receivable operations. -- Reduced payment processing costs. -- Better supplier/customer relationships. The COEP System supports a variety of payment data transmission formats, including the industry standard ANSI 820 (payment order/remittance advice) and private batch file formats. It also allows interactive access using PCs or terminal devices. The system enables the vendor/supplier to initiate debit payments based on the buyer's pre-authorization. Alternatively, the buyer or buyer's bank can initiate credit payment transactions.

For debit payments, the COEP System automatically generates a NACHA CCD (Cash Concentration and Disbursements) transaction document, and transmits it to the supplier's bank. The CCD enables the bank to effect a funds transfer from the buyer's account to the supplier's account on a specified date.

The COEP System also provides management reports which can be distributed automatically via electronic mail.

CONTACT: 1-800-EDI-KNOW (1-800-334-5669). GE Information Services, a division of General Electric Company, USA (NYSE: GE), is headquartered in Rockville, Md.

#90101p1666 04/11/1990 ~PR Newswire
LOS ANGELES (APRIL 11) PR NEWSWIRE - The U.S. Air Force has exercised a $7.2 million contract option for critical strategic offense planning software being prepared by Logicon Inc. (NYSE: LGN), the company said today.

The option is for the second year of a three-year program in which Logicon computer experts are enhancing and maintaining software that supports the development of the nation's Single Integrated Operational Plan (SIOP) and Conventional Operational Plans.

If the third-year option, valued at $6.7 million, is exercised in late 1990, total value of the contract will be about $19.5 million.

The need for mission planning software is not affected by international arms reduction agreements or by changes in the U.S. defense budget because it is a planning tool and is not dependent on weapons types or numbers.

The software helps U.S. military leaders to plan how strategic weapons will be used. The plans allow U.S. forces to maintain readiness, thus enhancing the nation's nuclear deterrence. Software revisions and updates are needed periodically to match new technical developments in weapons systems, to improve or modify targeting for missiles and bombers, and to provide rapid response to changes in national policy.

The contract is administered through the U.S. Air Force's Ballistic Systems Division. Work is being performed at Logicon facilities in San Pedro, Calif. and Omaha Neb., and at Air Force facilities near Omaha.

Logicon is a leader in providing advanced technology systems and services to support national security, civil and industrial needs.

#90101p1669 04/11/1990 ~PR Newswire
COLUMBUS, GA (APRIL 11) PR NEWSWIRE - Total System Services Inc. (NYSE: TSS), the Columbus, Ga.-based bankcard data processing company, today announced the results of operations for the quarter ended March 31.

Net income amounted to $2,654,000 for the first quarter, or $.17 per share an increase of 10.5 percent over the first quarter of 1989 net income of $2,402,000, or $.15 per share. The first quarter results reflect increased expenses necessary to build required capacity to handle greater volumes of business in the future, including additional personnel and equipment. This capacity buildup could have a similar effect on the

second quarter.

Commenting on the company's performance, Richard W. Ussery, president and chief executive officer, stated: "We are pleased with the results of the first quarter, particularly considering the expenses we incurred in building for the future. As we increase our utilization of these newly created capacities over the last half of 1990, we expect our earnings growth rate to improve and we are optimistic that the increase in earnings for the year will be in keeping with the increase we had in 1989."

NEW YORK (APRIL 11) PR NEWSWIRE - For the first quarter of 1990, CBS (NYSE: CBS) achieved record net sales and income from continuing operations, the company announced today.

Income from continuing operations for the first quarter of 19900 was $85.3 million, or $3.31 per share, compared to $56.3 million, or $2.19 per share in 1989s first quarter. This earnings per share increase of 51 percent reflected the improved profitability of the company's broadcasting operations mainly due to the broadcast of the NFL Super Bowl, while net interest income rose modestly. CBS's net sales rose 16 percent to $851 million for the first quarter of 1990. Results for the quarter were as follows:

CBS INC.
(Dollars in millions, except per-share amounts)

First quarter ended:	1990	1989	Pct. Change
Income from continuing operations	$85.3	$56.3	52

Inc. from cont. operations per share	$3.31	$2.19	51
Net income	$85.3	$56.1	52
Net income per share	$3.31	$2.18	52
Net sales	$851.0	$730.6	16

Laurence A. Tisch, president and chief executive officer of CBS, commenting on the quarterly results, said, "We are pleased by our financial progress in the first quarter of 1990, as the company registered gains in net sales, net income and earnings per share. Broadcast Group sales and profits rose 16 percent and 89 percent, respectively.

Net corporate interest income was $41.7 million in the first quarter of 1990, compared to $39.4 million in the first quarter of the prior year. At the end of the first quarter, the company's total cash and marketable securities were approximately $2.9 billion.

BAGSVAERD, DENMARK (APRIL 11) PR NEWSWIRE - Novo Nordisk A/S (NYSE: NVO) announced today that it is selling 70 percent of its shares in Alfred Joergensen Laboratory Ltd. (AJL) to the present management.

The sale of this business reflects Novo Nordisk's commitment to its existing business strategy.

AJL employees, who were briefed today about the sale, will not be affected by the change in ownership. Present wage and employment conditions will continue unchanged and the existing organization of AJL preserved.

In connection with the sale, Novo Nordisk continues to value highly the future continuation and expansion of the established cooperation between AJL and Novo Nordisk as the company continues to own 30 percent of the shares and continues representation on the AJL board.

Alfred Joergensen is an internationally acknowledged consultant to the brewing and food industries. In addition to consulting and large- scale planning and design services, activities of the company include complete quality control systems, chemical and microbiological analyses, and supply of yeast cultivations and hyphomycetes for the brewing and dairy industries.

Novo Nordisk is one of the world's leading biotechnology companies. It is a major force in insulin manufacture and diabetes treatment and is the world's largest producer of industrial enzymes. The company also manufactures and markets a number of other pharmaceutical and bioindustrial products. Headquartered in Denmark, Novo Nordisk employs more than 8,000 people in 30 countries and markets its products in 120 countries. Its B shares are listed on the stock exchanges in Copenhagen, London, Basel, Zurich and Geneva.

WHITE PLAINS, NY (APRIL 11) PR NEWSWIRE - Texaco Inc. (NYSE: TX) today announced a new series of television commercials differentiating its System3 gasoline with the theme "All Gasolines Are Not The Same." The campaign makes a superiority assertion based on the test results of the "BMW intake valve deposit test," conducted by an independent research laboratory.

In the lab, six 1985 BMW 318i models with clean engines were run for 5,000 miles on ordinary fuel that allowed performance-robbing deposits to form. The cars were then switched to five leading national gasolines and Texaco System3 and run for an additional 5,000 miles. Only System3 removed deposits from the dirty intake valves. In the other five cars with the competitors' gasolines, deposits increased. Based on the lab test results, the commercials clearly differentiate System3 from other leading gasolines, with its ability to clean up dirty intake valves.

The new 30-second television spots, produced by New York-based Campbell-Mithun-Esty and featuring actor David Graf, will begin airing in more than 50 major U.S. markets this week.

Texaco also will be airing radio spots beginning the week of April 23. The commercials will use "man on the street" interviews featuring actual System3 users and will be heard on morning and afternoon drive time periods.

Commercials will tout System3's unique formulation in all octane grades of both unleaded and leaded branded fuels, designed to deliver enhanced performance.

"The System3 advertising campaign has been well received since its introduction in May 1989," says Stephen C. Kutler, Texaco's vice president of worldwide advertising and sales promotion. "Research has demonstrated that System3 is a unique product, and in the coming weeks we're going to

prove to viewers why all gasolines are not the same. 'System3: It's That Good,' will continue to be the theme of the campaign."

"System3 is a clear success story for Texaco," says Glenn F. Tilton, president of Texaco Refining and Marketing Inc. "We have enhanced significantly customer acceptance of our product in a fiercely competitive market by dedicating ourselves to research and consistent quality."

"System3 gasolines have superior cleansing properties," says Don H. Schmude, president and chief executive officer of Star Enterprise, a Texaco joint venture partnership with Saudi Refining Inc. for manufacturing, distributing and marketing petroleum products in the East and Gulf Coast regions of the United States. "There simply is no better gasoline than System3 for cleaning an engine's intake system. None."

The television commercials feature crisp and stylized imagery, while an on-camera spokesperson details the distinct advantage of System3. The new series of commercials is the third television campaign for System3. The first series introduced System3 in May 1989 with the theme "5 Tanks Is All We Ask," followed last December by "System3, After 5 Tanks It Gets Even Better."

CALGARY, Alberta (APRIL 11) PR NEWSWIRE - NOVA Corp. of Alberta (Alberta, Toronto, Montreal: NVA) transported 733 billion cubic feet of natural gas through its Alberta pipeline system in the first quarter of 1990, down about 3 percent from 755 bcf a year ago. Average daily receipts for the period were 8.1 bcf, compared with 8.4 bcf in 1989.

Total exports from Alberta in the first quarter were flat at 583 bcf. Within the province, total deliveries were down 18 percent to 144 bcf from 175 bcf in 1989 as a result of unseasonally warmer weather and reduced industrial demand.

At the Alberta-British Columbia border, total deliveries were up 5 percent to 144 bcf from 137 bcf in 1989. This gas was shipped mainly to California markets by Pan-Alberta Gas Ltd., 50 percent owned by NOVA, and by Alberta and Southern Gas Co. Ltd.

At the Alberta-Saskatchewan border, gas deliveries destined for central Canada and U.S. markets via the TransCanada pipeline system were flat at 356 bcf. Gas deliveries destined for the U.S. mid-west via the Foothills pipeline system were down 3 percent to 71 bcf from 73 bcf in 1989.

For all of 1990, volumes are expected to continue near the record levels of 2.83 trillion cubic feet which were achieved in 1989 primarily as a result of increased deliveries to the midwestern United States, California and the Alberta industrial market.

#90101p1707 04/11/1990 ~PR Newswire

WASHINGTON (APRIL 11) PR NEWSWIRE - A public interest organization working to get fiber optics to homes today said that, when it comes to American telecommunications, Washington policy-makers lack vision.

"Instead," Opt In America said in a formal statement filed with the federal government, "we hear a parochial debate on process and technique. Should competition or monopoly prevail? Should we reregulate, deregulate or stay the status quo? Shall our policy be one-wire or two-wire?"

Referring to the current debate before the Federal Communications Commission and Congress over cable competition, Opt In America Chairman John Eger said: "We need a driving vision of where we want to end up. We had that with telephones, cable and broadcasting. We do not yet have that with fiber optics."

Eger served as White House telecommunications policy director under two presidents, and is a former CBS senior vice president.

"We have 94 million households in America. Of those, no more than 15,000 are scheduled for fiber optic wiring, and even those are on an experimental basis," he said.

Meanwhile, he said, Japan and several European countries are moving ahead with fiber optic plans for homes.

The document filed by Opt In America was in response to a request by the National Telecommunications and Information Administration for comment on future telecommunications infrastructure. NTIA plans to release a report on the subject early next year.

"We have confused policy means with policy goals, changing language with changing directions, trimming leaves with planting seeds. These small means will not make mighty ends," the filing charges.

The vision advocated by Opt In America is "a switched, broadband fiber-optic network to the home, a modern day vision worthy of the abilities and aspirations of our people."

The filing describes the success of the "driving visions" behind telephones, and TV cable and broadcasting.

With telephones, "we alone declared that telephone service ought to be universal," the filing states. And in television cable and broadcasting, "our policy makers did not choose the centralized, European model, of a few government networks, but the decentralized, diversified American model of local station licensing."

"But in this latest opportunity -- that of fiber optics -- we seem weak-willed and adrift," it says.

Yet, it continues, the two-way video capability of this technology offers the U.S. a way to "get beyond the pleading of special interests, to advance health, education and other public services, to advance the dissemination of knowledge and commerce, and to promote more sources of entertainment, culture and human interaction than ever before."

"We would empower all Americans to send, as well as receive, information in any format -- voice, data or video. To achieve this goal, we urge the removal of all restrictions that stand before it," the filing states.

Opt In America proposes that national laws be changed to permit open competition to cable TV, which will, it says, spur the installation of fiber to the home at private sector expense and years ahead of schedule.

Left to the current schedule, Opt In America cites sources that "it could take 40 years."

Opt In America is a not-for-profit public interest organization of civic, business and education leaders, and of ordinary citizens, eager to bring the benefits of fiber optic technology to the American home.

DETROIT (APRIL 11) PR NEWSWIRE - Polyurethane Products Corporation, a leading producer of molded urethane caster wheels, announced today that it has been granted a license by The Uniroyal Goodrich Tire Company for the production and marketing of a revolutionary line of industrial casters using UGTC's non-pneumatic tire technology.

Specifically, the agreement gives Polyurethane Products Corporation the sole license in the U.S. to produce the unique polyurethane casters for a wide variety of in-plant materials handling and warehousing applications.

Polyurethane Products' caster wheels is one of the first commercial applications of non-pneumatic tire technology, which is based on years of extensive research and testing at Uniroyal Goodrich, according to Donald D. Hurst, president of Polyurethane Products Corporation.

According to Hurst, the polyurethane caster wheel -- which is projected to carry loads of up to 1,000 pounds in this application -- is substantially more advanced and has more beneficial features than any competing product on the market.

When compared with traditional hard, non-shock-absorbing caster wheels, the new urethane product has a much softer, smoother and quieter ride, said Hurst. When it comes in contact with irregular surfaces, the new product's unique web-and-spoke construction deforms and then returns to its original shape undamaged, absorbing shocks and vibrations, and thus reducing the tendency for cart-load parts, products and equipment to be thrown off and damaged.

"Polyurethane Products' research and testing has proven that polyurethane will wear as much as five times longer than rubber in caster wheel applications," said Hurst. "We feel that the automotive and materials handling industries will realize great benefits in cost and quality from the new polyurethane caster wheels."

The new product, which is scheduled for national distribution in June 1990 will be produced at the Oak Park, Mich., plant of Polyurethane Products Corporation. Initially, the caster wheel will be produced in an 8-inch by 3-inch size, with additional sizes to follow. It will be marketed for both original equipment and aftermarket applications, Hurst said.

Polyurethane Products Corporation is the first company to offer commercial applications of the Uniroyal Goodrich non-pneumatic tire technology for the materials handling and warehousing industries.

Headquartered in the Detroit area since 1960, Polyurethane Products Corporation has been an innovative leader in designing and manufacturing quality urethane products. Its current 17,000-square-foot facility in Oak Park is among the newest urethane molding and casting facilities in the Midwest.

#90101p1718 04/11/1990 ~PR Newswire

HOUSTON (APRIL 11) PR NEWSWIRE - Shell Oil Co. announced today the

introduction of an environmentally enhanced, unleaded premium gasoline. The new product, SU 2000E(TM), will reduce hydrocarbon vapor and carbon monoxide emissions. The gasoline will be sold in all nine metropolitan areas identified by President Bush as having the nation's most severe ground-level air quality problems, as well as Washington, D.C.

Speaking at a press conference in Houston, President and Chief Executive Officer Frank H. Richardson said, "The new gasoline reflects Shell's ongoing commitment to make environmental considerations a priority in our development of new products and processes.

"We obviously do not view our introduction of SU 2000E as a total solution to the nation's air quality problems. We do believe that it is an important step in the right direction," he said.

Richardson said SU 2000E can be used by virtually all cars and will be available in all ten areas on April 11. The areas where SU 2000E will be marketed are New York City, Hartford (Greater Connecticut), Chicago, Houston, Los Angeles, Philadelphia (southern New Jersey and Delaware), Baltimore, Milwaukee, San Diego and Washington, D.C. Shell is the nation's number one marketer of gasoline.

SU 2000E has the same octane number and additive package as SU 2000(R) and replaces SU 2000 in these areas. The new gasoline will feature vapor pressure below current state and federal standards.

A major benefit of the new gasoline, Richardson said, will be a decrease in hydrocarbon emissions, which are a component in the formation of smog. He said SU 2000E will also reduce carbon monoxide emissions from automobile tailpipes.

Steven L. Miller, President of Shell Refining and Marketing Co., explained that the carbon monoxide reductions come through the introduction of an oxygenate called MTBE, or methyl tertiary-butyl ether, into the gasoline. The MTBE in SU 2000E replaces butane resulting in a lower vapor pressure gasoline. A lower vapor pressure gasoline helps reduce vapor emissions because it evaporates less readily.

The new product will cost more to produce but the price of SU 2000E will be determined by competitive conditions in the marketplace, as is the price of SU 2000.

Miller said air quality models run by an independent, nationally recognized research firm show that if all Shell's premium customers in these areas use SU 2000E rather than gasolines blended to current state and federal regulatory levels, there will be about 80 fewer tons of emissions to the air during a typical summer day.

Current manufacturing capabilities allow Shell to provide SU 2000E to only the ten areas now, but Shell is examining options for expanding production later.

VANDENBERG AFB, CA (APRIL 11) PR NEWSWIRE - a General Dynamics Atlas Rocket successfully launched a combined Air Force/Navy spacecraft today from Space Launch Complex 3 at Vandenberg Air Force Base, Calif.

The launch marks 19 consecutive successes for Atlas from VAFB, the longest-running string of successful launches in the world today. The Atlas is produced by the General Dynamics Space Systems division in San Diego, and launched by a team of U.S. Air Force and Space Systems personnel.

The combined Air Force/Navy payload, called "STACKSAT," is actually three small satellites containing four scientific experiments. All have the same polar orbit requirement but perform separate scientific experiments. In addition, the spacecraft will use a prototype deployment device, a latch mechanism designed to position two test objects in space.

The launch configuration included the fourth stage of a Scout Launch Vehicle, which will circularize the orbit of the spacecraft once the Atlas E has concluded its 320-second burn to low Earth orbit.

The Atlas booster, designated 28E, was originally manufactured and delivered to the U.S. Air Force in 1961 as an Intercontinental Ballistic Missile. It was stationed at Forbes Air Force Base from 1961 to 1965 and decommissioned as an ICBM in 1965. It was stored at Norton AFB until 1984 when it was shipped to Vandenberg AFB to be modified as a space launch vehicle by General Dynamics Space Systems. It was delivered back to the Air Force in 1987 and has been in storage awaiting a launch mission.

Since 1982, Atlas has successfully launched four satellites in the Defense Meteorological Satellite Program, four National Oceanic and Atmospheric Administration weather satellites, four NAVSTAR Global Positioning System Satellites, one Geosat and five classified payloads. a total of 272 Atlas missions have flown from Vandenberg since the first was launched in September 1959. Today's launch leaves seven Atlas Es remaining to be launched.

HOUSTON (APRIL 11) PR NEWSWIRE - Baker Hughes Inc. (NYSE: BHI) today announced the completion of its acquisition of Eastman Christensen Co. from Norton Co. (NYSE: NRT) for a price of $550 million in cash plus a five year warrant to purchase up to eight million shares of Baker Hughes at a price of $36.75 per share.

James D. Woods, chairman and CEO of Baker Hughes said, "This strategic acquisition reaffirms Baker Hughes' commitment to being the premier oil field service company by strengthening our position in integrated drilling technology and services. Eastman Christensen is the acknowledged leader in directional and horizontal drilling systems as well as in diamond bits " Woods continued. "The addition of EC to the Baker Hughes family reinforces our strategy to bring products and services to our customers that lower their cost to drill for and produce hydrocarbons," Woods concluded.

EC will become a division of the Baker Hughes Drilling Equipment Co., reporting to Joel V. Staff, and will continue to offer its full line of field proven products and services through established networks.

Per the terms of a Consent Decree signed with the U.S Department of Justice related to the acquisition of EC, Baker Hughes will be required to divest itself of the diamond bit business of Hughes Tool Co. This business had 1989 revenues of $17 million. The company intends to divest this business as quickly and expeditiously as possible.

Baker Hughes is a leading provider of products and services for the oil, gas and process industries.

LOS ANGELES, (APRIL 11) PR NEWSWIRE - John Carls will join Orion Pictures as Vice President Production, effective April 16, it was announced today by Marc Platt, President Orion Pictures Productions. In making the announcement, Platt noted, "John Carls has enjoyed exceptional success in discovering and developing fresh, original stories for the screen. That he is relatively new to production is consistent with Orion's approach in building toward the future through people and projects of innovation, imagination and creative daring. John has the potential to make a powerful impact both on Orion's projects and the filmmaking community."

Carls comes to Orion from Columbia Pictures where he served as Executive

Story Editor, under Dawn Steele, since 1987. Having joined Columbia in 1984, he was named a creative executive by David Puttnam.

He began his career as a development assistant with Michael Douglas' Big Stick Productions, then joined Avco Embassy in 1982, working in the story department under Norman Lear.

Carls, his wife and daughter, reside in Los Angeles.

#90101p1734 04/11/1990 ~PR Newswire

NEW YORK (APRIL 11) PR NEWSWIRE - Neil McCarthy has been appointed senior vice president for Operations and Finance of Orion Pictures Corporation, (NYSE: OPC) it was announced today by Erick Pleskow, president and chief executive officer.

McCarthy, currently senior vice president, planning and control, for The Walt Disney Company, will join Orion on May 1 under a long-term contract. He will report directly to the president.

Pleskow said the addition of McCarthy to the top echelon of Orion management culminates a six-month search by Arthur Krim, chairman of Orion and himself, to find an executive with the leadership, planning and financial experience to help chart the course for a vigorous and successful Orion in the years ahead.

McCarthy will join Executive Vice President Bill Bernstein and the new heads of theatrical and television production and distribution appointed within the past 18 months to form the core of a management team Pleskow said will enable Orion to fully exploit the entertainment opportunities and challenges of the 90's and beyond.

McCarthy served as key member of Disney's financial team and was instrumental in the development of its financial planning efforts during the company's recent resurgence.

McCarthy was active in negotiating several of Disney's acquisitions and divestitures. He was also a key architect of the creative financing for the $725 million prepayment of Disney's Tokyo Disneyland royalties and its film financing strategy.

McCarthy came to Disney from the Marriott Corporation where he served as vice president and assistant treasurer, with both corporate and operating division responsibilities. His activities at Marriott included several acquisitions to expand existing businesses, disposition of several

restaurant chains, and the development of new business opportunities primarily in the Far East and Canada.

McCarthy was graduated from Villanova University where he received a bachelor of science degree in Commerce and Finance with a major in Marketing. In 1975, he received a masters of business administration degree from St. John's University.

CANANDAIGUA, NY (APRIL 11) PR NEWSWIRE - Canandaigua Wine Company, Inc. (AMEX: CDG.A & CDG.B) reported operating results for its second quarter and six months of fiscal 1990.

Net Income for the second quarter ended Feb. 28, 1990 was $853,871 or $.20 per share, in comparison to $506,907 or $.11 per share in last year's second quarter. Net sales in the second quarter were $41,172,364, compared to $37,468,062 for the same quarter last year.

Six months net income was $2,043,708 or $.48 per share as compared to $1,142,784, or $.24 per share for the same period the previous year. Net sales for the six months ended Feb. 28, 1990 were $84,843,952, compared to $77,713,212 last year.

Net sales for the second quarter and six months increased primarily as a result of the increased sales of the company's wines, continued growth in sales of California grape concentrate and contribution to sales of the company's newly acquired brands including "Chateau Luzerne."

Marvin Sands, chairman of the board of the company, said: "We are pleased with the increase in our sales and profits and with our continuing focus on expanding our product portfolio. During the second quarter, we purchased 'Jacques Bonet' sparkling wines and 'Italian Swiss Colony' dessert wines and these brands now will be produced, marketed and sold by our company."

Canandaigua Wine Company is the fourth largest wine producer in the United States. The company owns and operates seven wineries in New York, California, and South Carolina. Its principal brands are "Wild Irish Rose " Manischewitz," "Sun Country," "J. Roget," "Marcus James," "Cisco," and "Widmer."

OLYMPIA, WA (APRIL 11) PR NEWSWIRE - The Washington State Investment Board is asking the Exxon Corp. (NYSE: XON) to conduct an independent environmental audit of all its facilities and operations worldwide in an effort to prevent costly oil spill accidents, the board said today.

At a special meeting called to discuss its Exxon stock holdings, the State Investment Board unanimously adopted a proposal made by board member and State Treasurer Dan Grimm. The board agreed to send a letter to Exxon Chairman Lawrence Rawl asking Exxon's board of directors to commission an independent audit of its facilities and operations, including its management plan to prevent spills.

The letter to Rawl noted that more than $1 billion in oil spill cleanup and settlement costs has been charged against 1989 earnings alone. "Without adequate improvements in the Exxon management plan to reduce the likelihood of future oil spills," the letter said, "the value of our holdings could be jeopardized."

The board owns and actively manages 164,600 shares of Exxon stock; an additional 925,000 shares of Exxon stock are included in the board's portfolio as part of a separately managed mutual fund.

Grimm told the board that the audit needs to be independent to restore investor confidence in management and to shore up public confidence in the corporation. The letter called for the auditors to be selected by either the Audit Committee or the Public Issues Committee of the Exxon board of directors in conjunction with representatives of major stockholders.

Grimm said an environmental audit is a reasonable and practical step and in Exxon's best interest.

Noting that Exxon oil tankers regularly ply the waters of Puget Sound, Grimm said after the meeting, "If Exxon rejects this request, the governor the legislature and the state's congressional delegation would have no choice but to consider other approaches to assuring the safety of oil tanker operations in Washington waters."

In a related development the board decided to abstain from voting on a shareholder resolution asking Exxon to comply with the Valdez Principles, a general framework of environmental conduct for corporations. The board did not want to vote with Exxon management to reject the Valdez Principles but was unable to reach agreement about how to apply the principles towards other corporations in which it owns stock.

COLUMBUS, OH (APRIL 11) PR NEWSWIRE - Leslie H. Wexner, chairman and chief executive officer of The Limited, Inc. (NYSE/LSE/TSE: LTD) announced today the appointment of Thomas G. Hopkins as vice chairman, effective immediately. Hopkins had served as executive vice president-organizational development for The Limited, Inc. since 1982.

Wexner also announced the appointment of Hopkins and Kenneth B. Gilman, executive vice president and chief financial officer, to The Limited, Inc. board of directors.

Hopkins, 57, joined The Limited in 1978 as director of personnel. He was promoted to vice president of personnel in 1979 and executive vice president-organizational development in 1982.

In making the announcement, Wexner said, "Tom has played a key leadership role since 1978, making significant contributions to the development and growth of the business. His understanding and insights into the operational strategies have guided the business' profitable growth during the 1980s. As vice chairman, Tom will continue his leadershiop role with our operating divisions focusing on operational objectives and management structure."

Gilman, 43, joined The Limited in 1976 as assistant controller. He was promoted to financial controller in 1978; vice president- corporate controller in 1982; senior vice president and corporate controller in 1986; and executive vice president and chief financial officer in 1987.

Wexner said of his chief financial officer, "Ken is a gifted financial executive who has a broad and deep understanding of the entire business. Since his appointment as chief financial officer in 1987, the board has regularly benefited from his counsel. Ken brings to the board the leadership, the intellect and the commitment to excellence that has contributed so much to the growth of the business."

#90101p1751 04/11/1990 ~PR Newswire

INDIANAPOLIS (APRIL 11) PR NEWSWIRE - MSA Realty Corporation (AMEX: SSS), today reported a net loss of $2,055,322, or $0.24 per share, on revenues of $(254,565) for the fourth quarter ended Dec. 31, 1989, as compared to a net loss of $384,744, or $0.04 per share on revenues of $2,357,941, for the comparable period last year.

MSA Realty Corporation calculates quarterly shareholder distributions from a basis other than net income. The method the company uses is "earnings before non-cash charges." (A) The company recorded earnings before non-cash charges for the three months ended Dec. 31, 1989, of $754,126, or $0.90 per share.

The company reported a net loss for the twelve months ended Dec. 31, 1989 of $4,568,308, or $0.53 per share. Total revenue for 1989 was $759,433. For the twelve months of 1988, the company recorded net income of $68,337 or $0.01 per share, on revenues of $8,821,085.

Earnings before non-cash charges for the twelve months of 1989 were $2,138,884 or $0.25 per share. Last year, the company recorded earnings before non-cash charges of $5,297,989 or $0.62 per share.

Commenting on the results, J.A. Rosenfeld, MSA Realty Corporation's president, said, "The company suffered a substantial decline in revenue largely because of changes in the company's investments. For example, while the construction period return is lower as a result of fewer dollars invested in properties under construction."

Rosenfeld also explained, "The $7 million decrease in equity in income of partnerships from 1988 is the result of many factors. Several joint ventures obtained outside financing with interest rates based on prime or Libor rates which resulted in net losses for these properties in 1989 versus net income in prior periods. Further, as properties pass from the construction phase (when they generate returns at the prime rate of interest) into early operational stages (when returns are significantly lower), the company realizes a decline in revenue. The company's portfolio of properties included a number of properties in the early operational period which were not fully leased and, therefore, not

generating the income which is anticipated as they mature. Also, the company acquired two properties in 1989 which were in the early operational phase when acquired. These centers generated significant losses in 1989 due to numerous vacancies."

MSA Realty Corporation invests in shopping centers and other income-producing properties as a general partner with Melvin Simon & Associates, one of the nation's foremost shopping center developers and managers.

HOUSTON (APRIL 11) PR NEWSWIRE - The Kern River Gas Transmission Co. today announced it has fully subscribed the initial capacity of its proposed 904-mile natural gas pipeline from southwest Wyoming to Kern County, Calif.

The pipeline's capacity of 700 million cubic feet per day (MMcfd) was reached when Union Pacific Resources exercised options in a previous transportation agreement. Permitting and engineering work continue. Kern River is scheduled to award construction contracts later this year.

Rocky Mountain and Canadian gas brought to California will be used for enhanced oil recovery, distribution by utilities, production of electricity, cogeneration of electricity and steam, and other industrial applications.

The Kern River Gas Transmission Co. is a joint venture of units of Tenneco Inc. (NYSE: TGT) of Houston and the Williams Companies Inc. (NYSE: WMB) of Tulsa, Okla.

Tenneco Inc. is a diversified company with major business interests in natural-gas pipelines, farm and construction equipment, shipbuilding, automotive parts, packaging, chemicals, and minerals.

The Williams Companies Inc. operates a nationwide digital telecommunications network and more than 25,000 miles of pipelines, which transport natural gas and petroleum products.

STAMFORD, CT (APRIL 11) PR NEWSWIRE - In response to inquiries, BTR plc today stated, "We are gratified that the federal court in Boston has

ordered the Norton Company to hold its annual meeting of shareholders as scheduled on April 26, 1990, with the existing March 2, 1990, record date.

"As a result, shareholders now will have a timely opportunity to take steps to have the Norton Company remove the obstacles to the $75 per share cash offer to purchase all the outstanding common stock of the Norton Company made by ER Holdings Inc., an indirect wholly owned subsidiary of BTR plc."

BTR plc also reported that the federal court has stayed the order for 24 hours to permit an opportunity for Norton (NYSE: NRT) to file a notice of appeal.

CONTACT: Richard Cendo of Kekst and Company, 212-593-2655, for BTR.

NEW BRUNSWICK, NJ (APRIL 11) PR NEWSWIRE - Johnson & Johnson (NYSE: JNJ) today announced that the company would record a $125 million, $.38 per share, non-recurring charge against first-quarter net earnings due to the severe economic turmoil, inflation, exorbitantly high and volatile interest rates, and deteriorating business conditions in certain Latin American countries.

The charge, composed of a number of separate actions, includes a provision for the write-off and planned restructuring of several Johnson & Johnson subsidiaries in certain Latin American countries, principally Argentina, and a provision for the additional interest associated with the company's Argentine debt, which has since been liquidated.

Also included in the charge is a provision to recognize the adverse impact of the recent unprecedented monetary restrictions imposed in Brazil. Johnson & Johnson's Brazilian operations have a strong presence in their respective markets and are unaffected by the restructuring program.

Johnson & Johnson, with over 83,000 employees, is the world's largest and most comprehensive manufacturer of health care products. Revenues and net income reached record levels in 1989, amounting to $9.76 billion and $1.08 billion, respectively. Return on shareholders' equity reached a record 28.3 percent, earnings per share were $3.25, and total assets were $7.9 billion at year-end.

The company will announce first-quarter financial results on April 26.

WEST PALM BEACH, FL (APRIL 11) PR NEWSWIRE - The following was released on behalf of Alexander Proudfoot PLC:

Chairman, Lord Stevens of Ludgate reports: "1989 was an excellent year for Alexander Proudfoot PLC with pre-tax profits and earnings per share up 40 percent and 38 percent respectively. The directors are, therefore, recommending a final dividend of 7.75 pence per share net ($0.126) which, together with the interim of 3.5 pence per share net ($0.057), makes a total of 11.25 pence per share net ($0.183) for the year. This represents an increase of 104 percent over 1988 and approximates to 30 percent of the profits after tax and minority interests. Your directors are pleased to report to reaffirm that it is the company's present intention that the dividend for 1990 will approximate 40 percent post-tax and minority profits.

During the first quarter of 1989, a major step was taken in the effort to become a more broadly based company through the acquisition of Philip Crosby Associates, Inc. The results at Philip Crosby Associates have more than measured up to our expections, and, most importantly, the integration is working well.

The group continues to generate substantial cash surpluses in excess of operating requirements. I am particularly pleased to report that as of March 31, 1990 the group had no net debt, despite the significant borrowings incurred to finance the acquisition of Crosby Associates in 1989."

At the Annual General Meeting, the directors will propose a resolution giving them the power to purchase up to approximately 15 percent of the company's share capital in the market. This is a repetition of a resolution passed a year ago. While no purchases were authorized last year, consideration will be given to purchasing shares when such acquisitions will have an immediate beneficial impact on earnings per share.

The accounts of the group are expected to be posted to shareholders on May 4, 1990, and the Annual General Meeting will be on May 30, 1990.

CONTACT: Neil Hamilton or Cathy Morton, both of Alexander Proudfoot PLC, 011-44-860-579091 (April 11 only) or 011-44-1-948-7200

NEW YORK (APRIL 11) PR NEWSWIRE - Infotechnology Inc. (NASDAQ: ITCH), in conjunction with other Infotech companies, today announced that a letter of intent has been signed to acquire the SHARK professional market quote business (Wang Financial Information Services Corporation) from Wang Laboratories, Inc.

Infotech said the acquiring entity would be a new corporation involving other Infotech businesses including Financial News Network, FNN's Data Broadcasting Corporation, United Press International and Institutional Research Network. Other terms of the letter of intent, including the price of the transaction, were not disclosed.

SHARK, based in New York, has gained broad acceptance throughout the investment community as the top-of-the-line supplier of market data and information (including not only quotes, but also financial news and analytical information).

The acquisition is subject to completion of due diligence, necessary documentation and approval of respective boards of directors, and is expected to be a cash transaction.

Infotechnology, Inc. is an integrated communications and information company positioned to meet the needs of businesses and consumers with fast easy-to-use information products of economic value to its customers. Among its businesses are Financial News Network, Institutional Research Network, and United Press International.

HERNDON, VA (APRIL 11) PR NEWSWIRE - Newbridge Networks (NASDAQ-NMS: NNCXF) announced today that it has signed a contract with CBS, Inc. (NYSE: CBS) to provide a nationwide backbone network linking the New York headquarters and broadcast center in Washington, the broadcast center and studio complex in Los Angeles, and the corporate data center in New Jersey.

Upon completion of the backbone network, a second phase of installation is planned to expand connectivity to the larger CBS owned and operated stations across the United States. Installation of the network is scheduled to begin at the end of the month.

"Everyone at Newbridge is extremely pleased to have a client as prestigious as CBS," said Newbridge President Peter Madsen. "We look forward to a very positive relationship and the opportunity for further agreements as CBS's telecommunications requirements continue to grow."

Newbridge will replace the existing network at CBS and install 3600 MainStreet T-1 Bandwidth Managers. All equipment and lines will be under network management by two 4602 MainStreet NetworkStations. Multiple NetworkStations not only provide redundancy, but also allow regional partitioning of network control.

Newbridge Networks in an international company which specializes in the design, manufacture and marketing of voice and data communications equipment for global networks. Offices and manufacturing facilities are located in the United States, Canada and the United Kingdom.

Newbridge Networks Corporation is a public company whose common shares are listed for trading on the Toronto Stock Exchange (NNC) in Canada and quoted for trading on the NASDAQ National Market System (NNCXF) in the United States.

PHILADELPHIA (APRIL 11) PR NEWSWIRE - The board of directors of Independence Blue Cross today elected G. Fred DiBona Jr., as president and chief executive officer of the regional health care insurer.

The announcement was made by Christie W. Hastings, chairman of the board.

DiBona, who will assume his new duties within 30 days, succeeds David S. Markson, who resigned from the corporation last October.

DiBona has served since 1986 as president and chief executive officer of Keystone Ventures Inc., Pennsylvania Blue Shield's holding company for its nine for-profit subsidiaries, and also as president and chief executive officer for Keystone Health Plan East.

Hastings pointed out that the board had conducted its search nationwide and had talked with many fine candidates over the past six months.

Prior to his positions with Pennsylvania Blue Shield, he served as president and chief executive officer of the Greater Philadelphia Chamber of Commerce from 1983 to 1986. He was selected for the position following a nationwide search and was the youngest president in the chamber's history. When DiBona assumed the job, chamber membership totaled less than 2,000 firms. When he left, chamber membership had grown to nearly 5,000 companies in Pennsylvania, New Jersey and Delaware.

Prior to his tenure with the chamber, DiBona served as president of the

Philadelphia Port Corp. for three years.

In 1976, at age 25, DiBona became the youngest member ever appointed to the Philadelphia Zoning Board of Adjustment. Within weeks, he was elected chairman of the board by his fellow board members. He was responsible for dramatically reducing the backlog of cases which had been a major impediment to economic development in Center City.

DiBona, an attorney, is active in a number of prominent business and civic organizations.

He currently serves as chairman of Business Leadership Organized For Catholic Schools (BLOCS), Girard Medical Center and the Regional Labor Market Task Force of the Greater Philadelphia Economic Development Coalition.

DiBona is a member of the board of directors of the Greater Philadelphia Chamber of Commerce and The Penjerdel Council. He also serves on the boards of Philadelphia Health Management Corp., Philadelphia Industrial Development Corp., Philadelphia Stock Exchange and Regent Bancshares Corp.

BUFFALO (APRIL 11) PR NEWSWIRE - The board of directors of Comptek Research, Inc. (AMEX/BSE: CTK) today announced that it has increased the company's quarterly dividend to shareholders from $.04 per common share to $.05 per common share, effective with its next dividend, payable on June 6 1990, to shareholders of record on May 11, 1990. According to Jack E. Wagner, chairman, president, and chief executive officer, this dividend will mark Comptek's twenty-first uninterrupted quarterly dividend payment to its nearly three thousand shareholders. Because of this change, the new annual rate will be $.20 per share.

"The dividend increase reflects confidence in the future of Comptek Research, Inc. and its ability to generate quality earnings through a solid customer base," said Wagner. "The company's efforts are directed toward providing an ever-increasing level of quality systems and services to our customers. This growing attention to quality is paying off for our shareholders."

Comptek Research, Inc., with offices in eleven cities in the U.S., develops Command, Control, Communications and Intelligence systems and Electronic Warfare systems, primarily for the Department of Defense. Related activities include the design and development of software

shipboard and aircraft combat systems and specialized technical services.

#90101p1781 04/11/1990 ~PR Newswire

NEW YORK (APRIL 11) PR NEWSWIRE - The Ferruzzi Group today said that a General Accounting Office (GAO) study of the Chicago Board of Trade's emergency order in the July 1989 soybean futures contract contains significant errors and fails to address several important issues.

The group, a leading buyer and trader in U.S. grains and a major holder in the July 1989 soybean futures contract, issued the following response:

The Ferruzzi Group supports the efforts of the House and Senate Agriculture Committees, the GAO and numerous farm groups to determine why the Chicago Board of Trade felt compelled to issue its highly disruptive and unnecessary emergency liquidation order of July 11, 1989.

Ferruzzi has cooperated fully with such efforts. The group made itself available to the GAO in its study, but was not asked for any information.

It is unfortunate that the GAO limited its inquiries to the CBOT and the Commodity Futures Trading Commission. Both groups' activities in the July 1989 contract have been criticized by the House and Senate Agriculture Committees and other bodies. Both groups have repeatedly misrepresented Ferruzzi's liquidation activities in early July. And both groups are facing serious questions about their effectiveness that compel them to put their actions in the best possible light.

It is flatly not true that Ferruzzi declined to cooperate with the CFTC and the CBOT. In early July, Ferruzzi met numerous times with the two agencies to discuss their concerns, and it indicated its intention to achieve an orderly liquidation. Ferruzzi already had begun aggressive liquidation. On July 11 alone, it liquidated more than 2 million bushels. Seven more trading days remained to effect an orderly liquidation.

According to the GAO report, the CBOT apparently relied on its regulatory authority to take emergency action when faced with a real or threatened emergency. But the GAO fails to ask why the CBOT felt it necessary to exercise this authority on July 11 absent any emergency. Ferruzzi already had begun aggressive liquidation. In addition, the CFTC on the morning of July 11 sent Ferruzzi a private letter requiring it to liquidate its position to 3 million bushels by the last three days of the July contract. Ferruzzi would certainly have complied with this directive, which had the advantage of being private and not likely to disrupt the market. The CBOT knew of this CFTC letter, and it thus knew there was no threat of an

emergency. Why then did it issue its own order -- an order that was public and highly disruptive -- later the same day?

The GAO report also does not appear to address the broader implications of voting on emergency orders by interested CBOT directors. Public records show that five of the 16 directors who voted on the matter worked for firms with significant house or customer positions in the July contract. This at the very least creates an appearance of a serious conflict of interest, and it is very much at odds with the ethics policies observed by most public organizations and corporations.

Perhaps this is why the Senate and House Agriculture Committees have drafted specific language, as part of the CFTC reauthorization bill, to toughen CBOT conflict of interest rules. If the CBOT is to remain effective and restore its credibility, market participants must be assured that they will be treated fairly and evenhandedly by directors who have no stake in the issue at hand.

BUFFALO, NY (APRIL 11) PR NEWSWIRE - Comptek Research, Inc. (AMEX/BSE: CTK) today announced that it has received notice from the Navy of a protest filed against the award of a contract by the Naval Sea Systems Command.

The protest challenges the Navy's selection of Comptek to continue work on the NAVSEA program, claiming the Navy erred in its technical evaluation of bidders.

Jack Wagner, chairman, president and chief executive officer, said, "Comptek was the Navy's selection for this work, which represents the continuation of prior services for Comptek. We expect that the Navy will resolve the dispute in our favor."

Due to the protest, however, work under the new contract has been stopped. The first year value of the contested award is $4.7 million. Wagner said the current contract under this program runs through Sept. 30, 1990, and added, "The filing of protests on competitive procurements has, unfortunately, become commonplace."

Comptek Research, Inc., with offices in eleven cities in the U.S., develops Command, Control, Communications and Intelligence systems and Electronic Warfare systems, primarily for the Department of Defense.

BUFFALO, NY (APRIL 11) PR NEWSWIRE - Jack Wagner, president, chief executive officer of Comptek Research, Inc. (AMEX/BSE: CTK) today announced that the company has elevated three business unit vice presidents to the status of corporate officers.

They are: Theodore K. Bosworth, vice president, Command, Control, Communications and Intelligence; William T. Lennon, vice president, operations; and John J. Sciuto, vice president, defense electronics.

James D. Morgan, a founder of Comptek Research, Inc. and member of its board of directors, has agreed to join Comptek as a vice president and chief scientist, Wagner announced. Morgan, who will also be a corporate officer, had been a vice president of Barrister Information Systems Corporation.

Ms. Ilse Ramsey, the company's director of financial services, has been appointed treasurer, replacing Thomas C. Kingston, who recently left the company. Other corporate officers, beside Wagner, are Kenneth E. Lanham, vice president for technical services and chief financial officer; Christopher A. Head, vice president and general counsel; and John R. Cummings, vice president and chief scientist.

Comptek Research, Inc., with offices in eleven cities in the U.S., develops Command, Control, Communications and Intelligence systems and Electronic Warfare systems, primarily for the Department of Defense. #90101p1800 04/11/1990 ~PR Newswire

DETROIT (APRIL 11) PR NEWSWIRE - U.S. automakers will assemble an estimated 103,219 cars over a four-day period this week, down 6.9 percent from last week's actual count of 110,970, Ward's said.

Same-week 1989 saw car output of 160,476. Ward's reported that total estimated U.S. car output for calendar 1990 through the end of this week is 1,658,093 units, trailing year- ago's build of 2,217,520 by 25.2

percent.

Most domestic plants will not be operating Friday, April 13, in observance of Good Friday. All Ford, Chrysler and General Motors plants will be closed until Tuesday, April 17, allowing for an extended Easter holiday. All other domestic plants will resume production Monday, April 16.

General Motors Corp.'s Oklahoma City plant reopened this week after a one-week shutdown for schedule adjustment.

Ford Motor Co.'s Dearborn, Mich. (Mustang), plant is closed this week for stock reduction and is scheduled to reopen April 17. Daily overtime was reported at car plants in Wixom, Mich., and Wayne, Mich.

Chrysler's St. Louis car plant continues to operate at only one shift. Plants in Belvidere, Ill., Newark, Del., and Sterling Heights, Mich., reopened this week after one-week's downtime for inventory adjustment.

Toyota's Georgetown, Ky., plant will operate on Good Friday. Ward's said U.S. truck production will be an estimated 67,544 units compared to last week's count of 82,101. This compares with year-ago's count of 87,343.

U.S. truck production for calendar year 1990 through the end of this week is estimated at 1,074,989 vs. year-ago's 1,323,399, said Ward's.

Ford's Twin Cities, Minn., Louisville, Ky., Lorain, Ohio, Kansas City, Mo. and St. Louis plants slated daily overtime. Chrysler's Toledo, Ohio, Jeep facility resumed production this week after last week's closure for inventory adjustment.

Of this week's estimated U.S. car output, GM accounts for 41.5 percent; Ford, 24.7 percent; Chrysler, 12.0 percent; Honda of America Manufacturing Inc., 6.6 percent; Mazda Motor Manufacturing (USA) Corp., 3.0 percent; Nissan of America Manufacturing Corp., 1.4 percent; New United Motor Manufacturing Inc., 4.0 percent; Toyota Motor Manufacturing USA Inc., 4.3 percent; Diamond-Star Motors Corp., 2.2 percent; and Subaru-Isuzu Automotive Inc., 0.3 percent.

#90101p1818 04/11/1990 ~PR Newswire

NORTHBROOK, IL (APRIL 11) PR NEWSWIRE - IMC Fertilizer Group, Inc. (NYSE: IFL), today reported net earnings of $16.9 million or 64 cents per common share for its third quarter ended March 31, 1990, a 56 percent decline from the $38.8 million, or $1.48 per common share reported for the same period last year.

Net earnings for the company's first nine months of the current fiscal year were $58.8 million, or $2.23 per common share, compared with $107.3 million, or $4.14 per common share for the same period a year ago.

Sales for the third quarter and nine months were $284.4 million and $798.6 million respectively, compared with $322.6 million and $902.0 million for the comparable period in fiscal 1989.

IMC Fertilizer chairman and chief executive officer Billie B. Turner, in announcing the results, said they continue to reflect the problems that have impacted the fertilizer industry since last summer.

"Inadequate prices for major products, especially phosphate chemicals, potash and ammonia, remain stumbling blocks to anticipated improvements," Turner said.

"It is hard to explain exactly why prices have lagged behind recent improvements in volumes for phosphate chemicals and potash; strengthened demand in overseas markets; and lower producer inventories after months of lackluster activity.

"Looked at another way, some other positive signals may portend the

recovery the industry has been seeking. Overseas demand for phosphate chemicals has improved at a time when inventories of those products are low and expected to stay that way for the near term; important international markets are showing signs of recovery for phosphate rock and potash tonnage; and, in the U.S. market, conditions remain favorable for an increase in fertilizer consumption in the range of three percent over 1989.

"U.S. farmers as a whole are in better financial shape than last year, and soil moisture conditions are much improved in most key farming regions. With demand for U.S. feedgrains strong and stocks at low levels, there is considerable optimism among U.S. farmers this spring," Turner said.

The positives cited in today's announcement notwithstanding, the IMC Fertilizer executive warned that the company's fourth quarter may not reflect an immediate improvement in earnings.

IMC Fertilizer Group, Inc. is the world's leading private enterprise producer and marketer of two basic crop nutrient materials, phosphate rock and potash, and a manufacturer of two other major fertilizer products, phosphate chemicals and anhydrous ammonia. The company also recovers uranium oxide for upgrading as fuel for nuclear power plants.

#90101p1824 04/11/1990 ~PR Newswire

MANCHESTER, CT (APRIL 11) PR NEWSWIRE - Leonard R. Jaskol, president and chief executive officer of Lydall, Inc. (NYSE: LDL), today announced record earnings for the first quarter 1990 of $2.2 million compared with $1.9 million in the first quarter 1989 -- a 15 percent increase. On a per-share basis, Lydall earned $.75 compared with $.67 -- a 12 percent increase. Sales for the quarter were $32.4 million compared with $32.6 million for the same period last year.

Jaskol attributed record net income on relatively flat sales in the period in part to a higher margin product mix, continued attention to process control, and increasing competitiveness based on quality and technology. Other income and expense were also favorable in the quarter. Lydall's gross margin as a percent of sales rose from 29.5 percent in the first quarter last year to 30.3 percent in the first quarter 1990. Jaskol commented, "Lydall is not driven by sales volume but rather by the quality of earnings." The quality of earnings as represented by return on sales also improved during the period. Return on sales for the first quarter 1990 was 6.9 percent compared with 6.0 percent in the first quarter 1989 and 6.2 percent for the year ended Dec. 31, 1989.

Product mix improvement was a major factor in the first quarter 1990 compared with the same period last year. Sales of Lydall's highest grade of air filtration media increased worldwide with particular growth in Europe. The success of the Lydair product line encompasses all the characteristics of the way in which Lydall grows its businesses -- constantly improving technologies, continual market share penetration, and highest quality product.

Lydall's Lytherm thermal barrier products also did well during the quarter. A new flame barrier media used as a structural component made a significant contribution.

Sales of the company's Nobestos gasketing materials to heavy- equipment manufacturers and certain composite materials sold to the automotive aftermarket were below normal levels during the quarter indicative of a general economic slowdown in these industry segments.

Lydall, Inc. is a manufacturer of technologically advanced fiber- based materials for demanding specialty applications.

SAN FRANCISCO (APRIL 11) PR NEWSWIRE - AT&T announced that its popular AT&T 800 READYLINE(R) service will be available for use within California starting April 13, 1990, as a result of today's decision by the California Public Utilities Commission.

AT&T 800 READYLINE service has been available in California for receiving out-of-state calls since 1987. Today's decision by the Commission will permit customers to use the service to receive calls from within the state as well.

AT&T 800 READYLINE service brings the advantages of 800 number calling to even the smallest businesses. AT&T Director Chris Ensign started, "It gives AT&T's small and medium-sized businesses the opportunity to offer their customers a toll-free number to call in on their existing business lines. No new or additional phone lines or equipment are required, start-up and monthly charges are low, and businesses may retain their existing phone numbers."

Ensign further explained that with AT&T 800 READYLINE service, customers can receive calls from the entire state or can select specific areas from which they want to accept toll-free calls. Available in as few as five days after ordering, AT&T 800 READYLINE service makes it easy for

businesses to improve customer service, increase sales, control expenses, and manage special advertising campaigns.

ALEXANDRIA, VA (APRIL 11) PR NEWSWIRE - Tel-Instrument announced today its $24 million damage suit against Teledyne Industries (NYSE: TDY) is expected to go to trial later this year now that the U.S. District Court here has denied Teledyne's dismissal motion. The Tel- Instrument suit was upheld March 16.

In a seven-count lawsuit filed in October 1989, Tel-Instrument claimed damages under the Racketeer Influenced and Corrupt Organizations Act, the Robinson-Patman Act, and Common Law Fraud. The claim is based on Teledyne's guilty plea to charges made in connection with the Justice Department's "Ill Wind" probe of defense fraud and bribery. The charges included mail fraud and conspiracy to defraud the United States in connection with obtaining a 1987 tri-service contract to manufacture and sell Identification Friend or Foe (IFF) flight line test equipment.

After supposedly competitive bidding, Teledyne was awarded the $24 million contract in 1987, even though Tel-Instrument, the only competing bidder, submitted a proposal for $9 million less. In 1989, a senior Navy procurement official pleaded guilty to accepting a bribe in connection with the Teledyne award.

As a result, Teledyne was assessed $4.3 million in penalties and forfeited an estimated $4 million in additional profits.

"We weren't the only party damaged financially by the defendants' criminal actions," said Tel-Instrument President Harold K. Fletcher. "So was the Department of Defense and, indeed, every American taxpayer. It's unfortunate for small companies like us that big contractor clout and lobbyist maneuvering can prevail over price and performance in a major community, to the DOD, and to the taxpayer to assert our rights to compete fairly for the business," he emphasized.

The Teledyne convictions also prompted Congressman John J. LaFalce, chairman of the House of Representatives Committee on Small Business, to recommend that the Department of Defense (DOD) put the remaining portions of the contract out for re-bidding, rather than exercise the contract's extension options. In a letter to DOD Secretary Richard Cheney, LaFalce stated, "This would allow Tel-Instrument and other firms to have a fair shot at obtaining this work, something they were deprived of in the

initial letting of the contract."

Tel-Instrument Electronics Corp. builds custom avionics test equipment for military and commercial aircraft. Customers include the DOD and other government agencies, military services of NATO countries, and major domestic and international airlines.

IRVINE, CA (APRIL 11) PR NEWSWIRE - As previously announced, National Education Corp. (NYSE: NEC) has been in arbitration with its former Chief Executive Officer H. David Bright, as to severance payments and other benefits to which Bright may be entitled under his employment agreement with the company.

The arbitrator ruled that Bright was not terminated for "cause" as defined by his employment contract and that Bright has a claim under his contract for compensation. A hearing will be held in May to determine the amount payable to Bright.

CONTRACT: Jack Polley of National Education Corp., 714-474-9400.

HOUSTON (APRIL 11) PR NEWSWIRE - J. Landis Martin, chairman and chief executive officer of Baroid Corp. (NYSE: BRC), today announced the appointment of Joseph S. Compofelice as chief financial officer of Baroid Corp.

Compofelice will be responsible for the corporation's financial services, accounting, investor relations and business analysis functions. In addition to his new position, Compofelice will continue as president of Shaffer and Atlas Bradford, the company's two oilfield equipment operations.

Compofelice has over 14 years experience in the oilfield services industry including 11 years with Smith International, where he served as president of the Datadrill, Smith Drilling Services and Willis divisions. He also served as chief financial officer of Willis. Prior to joining Smith, Compofelice was a Certified Public Accountant with Deloitte, Haskins and Sells, an international CPA firm.

Compofelice holds an MBA degree from Pepperdine University and a BS degree

from California State University.

Baroid Corp. is a worldwide supplier of petroleum services and equipment, and titanium metals which are widely used in the aerospace industry.

ROSEMEAD, CA (APRIL 11) PR NEWSWIRE - Southern California Edison Company has paid the second half of its $119 million 1989-1990 property tax bill. Edison pays property tax bills to 20 California counties for facilities that produce and distribute electricity to Edison's 4 million customers.

"Los Angeles County has received $38.9 million in 1989-1990 property taxes while Orange and San Diego Counties were paid $14.2 and $23.7 million respectively," Edison Assistant Controller Anthony L. Smith said.

Property taxes are assessed on the company's properties, including power plants, transmission and distribution lines, substations, offices and other facilities needed to supply electricity to Edison's customers.

Smith added, "In addition to providing vital electric service to a large portion of California, Edison also makes significant contributions to local communities through property tax payments. The taxes support local schools, and city and county community services."

TORONTO (APRIL 11) PR NEWSWIRE - Dickenson Mines Limited (Toronto: DML) announced net earnings for the three months ended Mar. 31, 1990 were Cdn.$1,301,000 or $0.07 per share on revenues of $15,589,000 and average gold settlement prices of Cdn.$490 per ounce. Comparable 1989 net income was $1,398,000 or $0.10 per share on revenues of $12,747,000 and average gold settlement prices of $498 per ounce. The 1989 values have been reclassified to conform with the 1990 financial presentation.

Gold Production at the Red Lake Mine for the first three months of 1990 was 21,400 ounces compared to 19,800 ounces a year earlier. Satisfactory results were attained at the Wharf operations, Havelock Lime Works and Saskatchewan Minerals.

At a meeting of shareholders on Apr. 11, 1990, John O. Kachmar stepped down as president and chief executive officer, as part of an orderly

transition and the following eight directors were elected: D. Barr, J.O. Kachmar, D.J. Libby, R.R. McEwen, J.A. Nichols, G.E. Pralle, H. Snyder, and F.M. Walsh. Mr. Kachmar will continue in the interim as a director and a consultant to the corporation.

At a directors' meeting held immediately after the shareholders' meeting, Robert McEwen was appointed as chairman of the board and chief executive officer; and David Libby was appointed president and chief operating officer.

(APRIL 11) EDITORIAL SAMPLER:

THE BERKSHIRE EAGLE, PITTSFIELD, MASS

Rather proudly, the federal Information Security Oversight Office has announced that the government creates 6.8 million secrets a year. In an ostensibly open democracy, that's an outrage. ... Governmental secrecy kept prying eyes away from the invasion of Grenada and severely limited press access in the Panama invasion. In both cases, after-the-fact reports suggest that U.S. military actions were hardly as ''surgical'' as the White House would have the public believe. But those operations were small change next to the secret bombing of Cambodia carried out by the Nixon administration.

Ronald Reagan, of course, was a champion of classifying more and more government information. His penchant for secrecy culminated in the clandestine Iran-Contra dealings. The trials of Iran-Contra defendants have been bollixed up by national security concerns. ... A government that needs, 7 million times a year, to call something a secret, is a government run amok, unaccountable to its constituents.

NEW YORK DAILY NEWS

The record industry made a smart move by deciding to put uniform warning labels on records that might offend some listeners. A lot of people are legitimately concerned about the lyrics of some pop music. The industry is savvy enough to understand that self-regulation may prevent a hodgepodge

of state laws that could lead to censorship.

But the industry forgot to establish a procedure to review records. An independent panel should be established, like the one the movie industry has for rating films. And there must be an appeals process to give it credibility.

Labeling records isn't limiting anyone's freedom of speech or ability to buy music. It's a consumer service. If the industry does it right, labels will become as accepted as movie ratings.

THE PRESS, ATLANTIC CITY, N.J.

Rosa Parks had all the qualities needed to help lead the fight to desegregate buses in Montgomery, Ala. ... She needed courage. Like so many other civil rights workers who helped lead the way, she had it in abundance.

Along with the Rev. Martin Luther King Jr. and the rest of the Montgomery Improvement Association, Parks helped start a movement toward equality.

The movement isn't over. But, fortunately, neither is Rosa Parks' willingness to lead. ... The racial and religious differences that divided the nation a generation ago remain visible. They have been patched in places and smoothed over, but they still run deep.

THE SUN, BALTIMORE

The verdict is in on former national security adviser John M. Poindexter. He is guilty of five counts of lying to Congress and withholding or destroying evidence in a White House conspiracy to cover up the Iran-Contra scandal.

The verdict is still out on former President Reagan. He will have to be judged by history, not just on whether he knew of Poindexter's crimes and was in on the conspiracy, but whether he failed through indifference or inattention to fulfill the constitutional duties of his office. ... This whole case arose because the Reagan administration tried to evade a congressional ban on aid to the U.S.-backed Nicaraguan rebels and then tried to cover up arms sales to Iran, profits from which were siphoned off to aid the Contras.

While the American public may rightly perceive unfairness in the fact that so many Reagan aids have been punished while their former boss enjoys a comfortable and lucrative retirement, a jury of their peers has also rightly decided that those same aides cannot break the law on the theory that presidential service justifies anything.

THE MIAMI HERALD

The Air Force, laird of the wild blue yonder, is making its fiefdom wilder by the minute. Now it develops that the stealth-technology F-117A fighter, built secretly with funds from the Pentagon's ''black budget,'' cost $106.2 million apiece, five times the cost of the standard-setting F-16.

Outrageous, you say? Then hold your breath. For the Air Force now says that if production of the B-2 stealth bomber is cut back as Congress prefers, the per-plane cost, now $530 million, will soar to $2.6 billion. ... There's nothing Congress can do about the F-117A, because Lockheed has already built 57 of the 59 planes, including three that crashed. ... But Congress can kill the stealth bomber program in its tracks, and it should. Stopping production now would save $40 billion of the proposed $76.7 billion cost of 132 planes. Yes, the first 15 B-2s then would end up costing $30.4 billion, or $2 billion apiece. But that's money either spent or committed, so what's done is done.

The diminishing Soviet threat and the B-2's back-breaking cost justify terminating this plane's production, and doing it now.

MILWAUKEE SENTINEL

The planned spring summit between President Bush and Soviet President Mikhail Gorbachev apparently was important enough to both men to take a chance on putting the smoldering Lithuanian issue on the back burner for another eight weeks.

But, unless Gorbachev has negotiated some secret deal with secessionist leaders, Bush takes a chance on playing host to him while the lid is being kept on Lithuania by tanks and troops.

Secretary of State James A. Baker III apparently gave Bush the thumbs-up sign for the meeting. He may ha received assurances in talks with Soviet Foreign Minister Eduard A. Shevardnadze in Moscow this week that the Soviets would show restraint on the Lithuanian matter, but there still is political risk involved for both sides.

In keeping with America's longtime support for Lithuanian independence, Bush should directly press for a timetable on when that will be accomplished. Above all, Gorbachev should not be allowed to go back to Moscow basking in the glow of another American triumph while Lithuania continues to rattle in chains.

MINNEAPOLIS STAR TRIBUNE

The country's new top savings-and-loan regulator is T. Timothy Ryan, a respected pension and labor lawyer who doesn't know beans about the thrift industry. But taxpayers needn't add to their multibillion-dollar bailout blues: The effort won't succeed or fail on Ryan's shoulders alone. Just as the industry's problems came from many sources, the success of the bailout will depend on many players fortified by competence, diligence and good luck. Ryan appears to have at least the frst two qualities going for him. Congress can help improve the odds on the latter. ... Rather than set Ryan up as a scapegoat for the bailout's many problems, Congress should help him succeed. ... Congress can help prevent future problems by reforming the deposit insurance system that made high-risk gambles too easy for inept or corrupt S&L operators.

Congress also can help by deciding whether Ryan should work himself out of a job. One of the big unanswered questions of the bailout is whether there is any reason to continue a separate S&L industry as more S&Ls go belly-up or convert to banks.

THE DENVER POST

The accord between the United States and Japan could go a long way toward balancing trade relations between the two nations. But the agreement will remain a scrap of paper unless the two countries can summon the political will to repair their own inherent weaknesses.

Japan promised to reform its retail distribution system, which is the single biggest stumbling block American companies face when trying to enter the island nation's home markets. It can take 10 years for a U.S. firm to open a store in Japan; the accord reduces the wait to 18 months. ... Likewise, the United States said it will reduce its federal deficit and encourage its citizens to save and invest more of their incomes - moves that will benefit average Americans.

But in the past, neither country has demonstrated the political willpower to achieve these logical goals. Elected officials in Japan are so dependent on support from large corporations that they have been afraid to aid average consumers. And the United States has been unable to control its insatiable hunger for government borrowing.

LOS ANGELES TIMES

The agreement to pursue preliminary negotiations, in anticipation of drafting a democratic constitution for South Africa, has won praise from all but extremists in that country and so it should. ... The African National Congress is right in insisting that these talks be limited to removing the remaining obstacles to negotiations. The government has an opportunity to show its commitment by doing just that.

The violence in Natal is not a valid reason to maintain a national state of emergency. The time to release the rest of the political prisoners has long passed. This session of Parliament will set back the clock unless it acts decisively to end apartheid. There is no need to perpetuate the Group Areas Act, which has been a key instrument of segregation. And steps to end school segregation would signal a real committment to end apartheid. Unless those obstacles are cleared away, negotiations on a constitution would be doomed to failure from the start.

#90101u0192 04/11/1990 ~United Press International

EAST BERLIN (APRIL 11) UPI - As East German party negotiators put the final touches to a government coalition agreement, three pastors were preparing to swap one type of ministry for another.

The three Protestant pastors are on a list of 24 Cabinet ministers that the East German Parliament will be asked to approve Thursday.

Negotiators from conservative, Social Democratic and liberal parties raced against time Tuesday to work out the details of a coalition agreement, in time for Thursday's parliamentary session.

The parties had already agreed Monday on the list of Cabinet ministers who will form the first non-communist administration in the country's 40-year history.

Marckus Meckel, 37, was nominated foreign minister; Rainer Eppelmann, 47, defense and disarmament minister; and Hans-Wilhelm Ebeling, minister for economic cooperation.

The pastors' lives have been transformed since the hard-line communist leadership was ousted last fall. Six months ago, the three were living dangerously as political unrest convulsed East Germany.

It was a little more than a year ago when Eppelmann, an East Berlin pastor discovered that his home and church office were riddled with bugging devices planted by the secret police.

Eppelmann had been targeted by State Security chief Erich Mielke because

he was a peace activist. As a young man, Eppelmann had been jailed for refusing to do his military service.

''If someone had told me last year that I would be the country's defense minister in April 1990, I would have laughed my head off and considered him crazy,'' he said.

Eppelman, married with four children, suspended his work as a pastor at East Berlin's Samariter church after he got caught up in politics this year, eventually to become the leader of the conservative Democratic Awakening party.

Hans-Wilhelm Ebeling, also relinquished his church duties two months ago to dedicate himself to his functions as head of the arch-conservative German Social Union.

Ebeling's Thomas church in Leipzig had become a sanctuary for protesters last October after former Stalinist leader Erich Honecker had ordered a crackdown on dissidents.

But not all of Ebeling's actions won praise from the demonstrators who took to the streets in the tens of thousands following church prayer services.

They claimed that for a long time he had refused to back their calls for change and led a comfortable life under the communists.

Ebeling said he hesitated to give open support to the demonstrators for fear of involving the church too heavily in politics.

Appointed deputy leader of the Social Democratic Party at the end of February, Meckel became the party's leader a month later after Ibrahim Boehme resigned as chairman.

Meckel, had for years counseled young East Germans who had run into trouble with the communist authorities in the Mecklenburg parish, where his wife and four children still live.

''For decades, I experienced what it was like living in a climate where there was always hidden fear,'' Meckel said.

Meckel says he will bring his family to East Berlin, now that his workplace will no longer be a Protestant church but the huge foreign ministry building on Marx-Engels square.

#90101u0229 04/11/1990 ~United Press International

MOSCOW (APRIL 11) UPI - The Kremlin warned the Baltic republic of Lithuania of the economic hardships it would suffer if it followed through and seceded from the Soviet Union.

Soviet President Mikhail Gorbachev's press secretary, Arkady Maslennikov, said at a news conference that Lithuania's economy may suffer even before achieving full secession.

''The point in issue is not a blockade,'' said Maslennikov, one day after Gorbachev's new presidential council called for new unspecified economic sanctions against the rebellious republic.

''Many enterprises in other regions of the U.S.S.R. doubt the expediency of concluding new contracts with partners in Lithuania, which shows an obvious desire to secede,'' Maslennikov said.

He added that Soviet figures showed Lithuania's independence would require it to trade at world prices and result in a deficit of $5.9 billion for the republic.

Alexander Troshin, deputy chairman of the Soviet state planning committee, said Lithuania would have to pay more for Soviet oil as an independent nation and would be unable to earn as much for selling agricultural products as it does now.

Gennady Gerasimchuk, deputy minister of the Soviet merchant marine, said that, in the event of secession, 43 Soviet ships now registered to the Lithuanian shipping company would possibly be transferred to other ports.

Gerasimchuk said that, after independence, Lithuania would have to pay in hard currency for shipping company facilities, ports and a ship-repairing yard he said were built by the Soviets. He said the total cost would be the equivalent of $791 million.

Gorbachev Tuesday told delegates to the Young Communist League congress in Moscow that the Soviet leadership was still trying to persuade Lithuania's Parliament to reverse its March 11 declaration of independence.

The Soviet president said he believes Lithuania should hold a referendum on its future and told the congress he was confident residents would vote to remain part of the Soviet Union, the official news agency Tass reported.

''This problem should be resolved by reforming the (Soviet) federation, not dividing it,'' Gorbachev said.

The Sajudis nationalist movement dominated Feb. 24 elections for Lithuania's new Parliament, and the Legislature declared the republic's independence at its first meeting.

Asked about the possibility of imposing direct presidential rule in Lithuania, Gorbachev said he hoped a political solution could be reached.

''At the same time, he did not rule out the possibility of introducing presidential rule, but only as an extreme measure, if the situation there develops into a civil conflict,'' Tass reported.

Under new powers granted him last month, Gorbachev could dissolve the Lithuanian Parliament and impose presidential rule in an emergency. The Supreme Soviet would have to approve the move.

''It is obvious that the president and the government have sufficient powers to take other measures to defend the constitution ... if events develop in an undesirable way,'' Maslennikov said.

President Bush, speaking with reporters aboard Air Force One before leaving Washington for Toronto Tuesday, was asked about reports the Soviets are toughening their stand on Lithuania.

''We keep hearing that,'' Bush said, adding, ''I've made our position very clear: peaceful resolution of this question, because we do not recognize that the use of force would accomplish anything other than to set back relations.

''And I think they know that loud and clear by now, very clear,'' said Bush, who has been criticized for declining to recognize Lithuania's claim to have seceded from the Soviet Union.

Lithuanian President Vytautas Landsbergis, meanwhile, in a telegram to Gorbachev, accused the Soviet leader of taking a hard line against the republic in reaction to pressure from the extreme right.

On Monday, the conservative Soyuz group of about 300 members of the central Supreme Soviet proposed that the Lithuanian Parliament be dissolved, new elections be called and direct central rule be imposed in the republic.

''Esteemed president, we are very concerned that ultra-rightists (and) imperial forces are compelling you to take wrong steps, to continue the wrongs of the 1940s in the Baltics,'' Landsbergis said in his telegram, referring to the incorporation during World War II of Lithuania, Latvia and Estonia into the Soviet Union.

#90101u0269 04/11/1990 ~United Press International

(APRIL 11) UPI - With heads of state looking on, the Toronto Blue Jays scored two runs that had a distinctly common flavor. But they counted.

Tony Fernandez launched a fluke triple and later scored Tuesday night, giving the Blue Jays a 2-1 victory over the Texas Rangers after George Bush became the first American president to throw the ceremonial first pitch at a big-league game in Canada.

The 41st consecutive sellout at the SkyDome included Bush, whose son is part-owner of the Rangers, Canadian Prime Minister Brian Mulroney, baseball commissioner Fay Vincent and American League President Dr. Bobby Brown.

Dave Stieb pitched six innings for the victory, allowing just two singles and two walks. He struck out four batters and did not allow a runner past first base.

''Stieb had great command of his stuff,'' enthused battery-mate Greg Myers said. ''Good curve, slider, fastball, changeup. He's hard to beat when he has stuff like that.''

''I went into spring training ready,'' said the right-hander, who threw only 11 2-3 innings in the Grapefruit Circuit. ''I threw quite a bit during the lockout, in my driveway and at a high school, because you never knew when the lockout was going to end and you'd have to report.''

David Wells, who entered the game with a runner on first base and two out in the eighth, earned the save. He allowed a solo homer to Ruben Sierra in the ninth. Charlie Hough took the loss.

''I didn't feel wild, the Jays were just patient,'' said the 42-year-old knuckleballer.

After Bush and Mulroney threw out the ceremonial opening pitches, the two clubs played four innings of shutout ball before Toronto struck for a pair of runs in the bottom of the fifth.

With one out, Junior Felix, who went 2 for 2 with a pair of walks, bounced a Hough delivery over the fence in right-center for a ground-rule double. Fernandez followed with a line drive that left-fielder Pete Incaviglia played into a triple.

''I lost it in the lights,'' said a visibly angry Incaviglia.

''Incaviglia is a good outfielder,'' Valentine insisted. But when pushed on the point, he added, ''Let's put it this way, I don't worry any more about my left fielder than the Blue Jays do about theirs.''

Mookie Wilson slapped a sharp single to left-center, scoring Fernandez and giving Toronto a 2-0 lead.

Elsewhere in the AL, Chicago clipped Milwaukee 5-3, Boston downed Detroit 4-2, California beat Seattle 7-0 and Oakland defeated Minnesota 5-3. New York at Cleveland was postponed by rain.

In the National League, it was: Chicago 2, Philadelphia 1; St. Louis 4, Montreal 2; Cincinnati 3, Houston 2; and Los Angeles 1, San Diego 0. San Francisco at Atlanta was postponed by rain.

-- AROUND THE AL --

White Sox 5, Brewers 3

At Milwaukee, Lance Johnson delivered a two-run single in the sixth and Scott Radinsky recorded his first major-league victory, leading the White Sox in the Brewers' home opener. Bobby Thigpen pitched the ninth for his second save. Tom Filer, 0-1, took the loss.

Red Sox 4, Tigers 2

At Boston, Tony Pena had three hits, including a two-run single in a four-run third, and batterymate Mike Boddicker, 1-0, pitched five strong innings to help the Red Sox to their 10th consecutive victory over Detroit dating back to last year. Detroit starter Kevin Ritz, 0-1, lasted only 2 1-3 innings.

Angels 7, Mariners 0

At Anaheim, Chuck Finley limited Seattle to two hits over the first 6 1-3 innings and Chili Davis, Dante Bichette and Drian Downing delivered home runs to power California. Reliever Mark Eichhorn earned his first save. Randy Johnson took the loss.

A's 5, Twins 3

At Oakland, Mark McGwire and Jose Canseco each homered and Bob Welch allowed one run over 5 1-3 innings, helping the Athletics. Dennis Eckersley picked up a save. Roy Smith was the loser, pitching 4 1-3 innings. Dan Gladden opened the game for Minnesota by homering on a 3-2 pitch over the left-field fence.

#90101u0310 04/11/1990 ~United Press International

BANGKOK, Thailand (APRIL 11) UPI - Vietnam handed over to U.S. representatives 10 sets of remains of American soldiers who served in the Army during the Vietnam War, official Hanoi Radio said.

''Representatives of the Vietnam Office in Charge of seeking Missing People on Tuesday handed over to the representatives of the U.S. Joint Casualties Resolution Center 10 sets of remains of American GIs who died in the Vietnam War,'' the radio report, monitored in Bangkok, said late Tuesday.

The 10 sets of remains will be flown back to the United States for identification.

The radio said Vietnam has given 404 sets of remains to the United States

since March 1974.

A total of 1,683 American servicemen are still listed as missing in action in Vietnam and 626 others are believed missing in Cambodia, Laos and China.

-30- 997

#90101u0315 04/11/1990 ~United Press International

(APRIL 11) UPI - Marvell Wynne, preparing for possible part-time duty, stayed in the clubhouse during innings to stay warm at chilly Wrigley Field Tuesday. So when Wynne did receive the call to pinch-hit late in the game, he was ready.

Wynne singled home Mark Grace with two out in the bottom of the eighth inning to send the Chicago Cubs to a 2-1 victory over the Philadelphia Phillies in the season opener for both clubs.

''I just wanted to be ready if I was called upon,'' Wynne said. ''I got a good part of the bat on the ball.''

The game time temperature was 36 degrees with a northerly wind of 26 mph. The game drew 7,791 fans, the smallest Opening Day crowd for the Cubs since 1983.

Ryne Sandberg opened the eighth with a single and went to second on a wild pitch by Jeff Parrett, 0-1. After Lloyd McClendon struck out, Grace was intentionally walked. Luis Salazar singled to center, but Sandberg was thrown out on Sil Campusano's throw to catcher Darren Daulton.

Wynne, batting for pitcher Les Lancaster, singled sharply to right to score Grace with the winning run.

''It's nice to see a guy coming off the bench and get that hit,'' Chicago Manager Don Zimmer said. ''That's a big hit not only for him, but also for the club.''

Lancaster, 1-0, worked two scoreless innings for the win, while Mitch Williams hurled the ninth to get his first save.

Campusano opened the game with a single to right, his first hit in the National League after being signed by the Phils in the 1989 minor league winter draft. Campusano raced home one out later on John Kruk's double into the gap in left-center to put the Phils ahead 1-0.

The Cubs came right back and tied the contest in their half of the first. Jerome Walton led off with a base hit and went to third on Sandberg's line single. Walton scored on McClendon's sacrifice fly.

''It was a pretty good game overall,'' Philadelphia Manager Nick Leyva said. ''Bruce (Ruffin, the starter) pitched good, and that's a good sign. He kept us in the game. He was around the plate and he'll be effective if he can stay like that.''

In other NL games, Cincinnati topped Houston 3-2, Los Angeles downed San Diego 1-0, St. Louis defeated Montreal 4-2 and San Francisco at Atlanta was postponed by rain.

In the American League, it was: Boston 4, Detroit 2; Chicago 5, Milwaukee 3; Toronto 2, Texas 1; California 7, Seattle 0; Oakland 5, Minnesota 3. New York at Cleveland was postponed because of rain.

-- AROUND THE NL --

Reds 3, Astros 2

At Houston, Ron Oester singled home Todd Benzinger with the tie-breaking run in the eighth inning. Tim Layana, 1-0, pitched two innings in relief of starter Jose Rijo. Randy Myers earned his first save as a Red while Juan Agosto took the loss.

Dodgers 1, Padres 0

At San Diego, Tim Belcher pitched a three-hitter and Juan Samuel homered in the fifth inning, lifting Los Angeles. Eric Show went 4 2-3 innings and suffered the loss for San Diego.

Cardinals 4, Expos 2

At St. Louis, Bryn Smith, making his first start as a Cardinal, pitched five strong innings against his old teammates and drove in the winning run to pace St. Louis. Zane Smith allowed three runs on seven hits in five innings and took the defeat for Montreal.

#90101u0337 04/11/1990 ~United Press International

(APRIL 11) UPI - Texas Attorney General Jim Maddox made the first concession speech of his political career Tuesday night, conceding defeat to state Treasurer Ann Richards in their runoff for the Democratic gubernatorial nomination. Maddox promised to work for Richards and ''the entire Democratic ticket'' following a campaign punctuated with charges of drug abuse and shady business deals.

President Bush and Canadian Prime Minister Mulroney praised Mikhail Gorbachev's commitment to peaceful change while meeting in Toronto Tuesday. Bush expressed concern about the crisis in Lithuania, but said he

does NOT see a change in plans for next month's super-power summit. Bush said dialogue is especially important- quote- ''when you have difficulties brewing.''

While the talks between Bush and Mulroney were held without any major disagreements, the two did chose different sides in a sporting matter. Both men threw ceremonial pitches before Tuesday night's major league opener between the Toronto Blue Jays and the Texas Rangers at the SkyDome. Bush wore a Rangers jacket for the pre-game ceremonies, while Mulroney wore a Blue Jays jacket. The Blue Jays won the game, 2-1.

An overflow crowd is expected at the Second Presbyterian Church in Indianapolis Wednesday afternoon for Ryan White's funeral. The 18-year-old was NOT Presbyterian and NEVER attended the church, but the nationwide grief over his death requires a large church be used for his funeral. White drew world attention during his five-year fight against AIDS.

#90101u0347 04/11/1990 ~United Press International

(APRIL 11) UPI - First, Dominique Wilkins and Moses Malone hurt the Philadelphia 76ers from the inside.

Then Glenn Rivers and John Battle finished them off from the outside Tuesday night as the Atlanta Hawks moved closer to a playoff spot with a 123-111 victory over the 76ers.

After Wilkins scored 23 points and Malone had 13 in the first half, Philadelphia tried to double team them after intermission, leaving Rivers and Battle open for jumpers.

And they knocked them down as Rivers hit four 3-point baskets and Battle

added 10 points in the third quarter, when Atlanta took control of the game.

''Moses and Dominique were playing so well that they had to pay some attention to them and start double teaming them and leaving me and Doc alone,'' said Battle, who finished with 19 points and hit 8 of 12 shots.

''He hit four threes. It was incredible. We passed the ball so well. We were so open. The shots were going down. That was the turning point of the game.''

Atlanta avenged a 112-108 loss to Philadelphia on Saturday night and moved within one-half game of idle Cleveland in the battle for the eighth, and final, playoff spot from the Eastern Conference.

''We understand our backs are against the wall,'' Atlanta Coach Mike Fratello said. ''We have six games left and we have to pick up two games somewhere. All we can do is control our own games. We can't worry about what Cleveland is doing.''

Philadelphia had an eight-game home winning streak stopped and saw its Atlantic Division lead over second-place Boston fall to one and one-half games.

''Defensively we did not play well,'' Philadelphia guard Johnny Dawkins said. ''We gave up the three to Rivers and he didn't miss. They played a little looser than we did. We just have to keep our composure down the stretch.''

Wilkins finished with 29 points, Malone had 23 and Rivers had 18 for the Hawks.

-- AROUND THE NHL --

Elsewhere, Boston clubbed New Jersey 112-96, Portland battered Minnesota 106-94, Houston edged Charlotte 115-112, Detroit silenced New York 108-98, Milwaukee topped Orlando 130-127, Indiana nipped Washington 107-105, Utah defeated Seattle 114-102, Denver downed Sacramento 121-113, the LA Clippers beat Dallas 98-90 and San Antonio outlasted Golden State 132-122.

CELTICS 112, NETS 96

At East Rutherford, N.J., Kevin McHale scored 24 points and Reggie Lewis added 21 to lead Boston and hand New Jersey its 16th loss in their last 18 games. Dennis Hopson paced the Nets with 18 points and Chris Morris added 17. Larry Bird pumped in 19 points, nine coming in the second quarter.

BLAZERS 106, TIMBERWOLVES 94

At Minneapolis, Minn., Clyde Drexler and Jerome Kersey combined for 48 points to lead Portland, which posted its 15th win in its last 19 games. Buck Williams added 13 rebounds and Terry Porter 10 assists for Portland. Pooh Richardson scored 21 points for Minnesota.

ROCKETS 115, HORNETS 112

At Charlotte, N.C., Akeem Olajuwon scored 27 points and grabbed 19 rebounds and Sleepy Floyd added 23 points and 10 assists to guide Houston. Dell Curry led Charlotte with 21 points.

PISTONS 108, KNICKS 98

At New York, Isiah Thomas scored 21 points and Mark Aguirre added 20 to halt Detroit's two-game losing streak and complete the Piston's sweep of the four-game season series with the Knicks. Patrick Ewing led New York with 26 points.

BUCKS 130, MAGIC 127

At Orlando, Fla., Ricky Pierce connected on four free throws in the final 25 seconds to propel Milwaukee. Pierce finished with 31 to help the Bucks notch their fourth straight victory. Brad Lohaus finished with 23 points, while Jay Humphries contributed 21 points.

PACERS 107, BULLETS 105

At Indianapolis, Chuck Person scored 25 points and sank two crucial free throws with five seconds remaining to boost Indiana three games ahead of eighth-place Cleveland in the Eastern Conference playoff race. Bernard King scored 35 to lead Washington.

JAZZ 114, SUPERSONICS 102

At Salt Lake City, Karl Malone scored 33 points and pulled down 13 rebounds and John Stockton handed out 20 assists to help Utah set a franchise record with 52 victories in a season. Seattle dropped 1-2 game behind Houston for the eighth and final playoff berth in the Western Conference.

NUGGETS 121, KINGS 113

At Sacramento, Calif., Blair Rasmussen scored a season-high 26 points and Alex English added 23 to help Denver complete a four-game season sweep over Sacramento.

CLIPPERS 98, MAVERICKS 90

At Los Angeles, Tom Garrick scored 17 points and Charles Smith and Benoit Benjamin each scored 16 points to lead the Clippers. Derek Harper scored 30 for Dallas.

SPURS 132, WARRIORS 122

At Oakland, Calif., David Robinson scored 36 points and set a franchise free throw record to lead San Antonio to the victory over Golden State. Robinson, averaging 24 points a game, averaged 36 points in all four games against the Warriors this year.

#90101u0348 04/11/1990 ~United Press International

(APRIL 11) UPI - The Los Angeles Kings were dismissed by the experts late in the season - one pundit suggested they should forfeit their first-round series against the Stanley Cup champion Calgary Flames.

The Kings are now one game away from knocking off the Flames after a revitalized Wayne Gretzky and New York imports Tomas Sandstrom and Tony Granato led Los Angeles to a record-smashing 12-4 rout of Calgary Tuesday and a commanding 3-1 lead in the series.

The matchup was one of four series played Tuesday night in the CampbellConference. The Winnipeg Jets edged the Edmonton Oilers 4-3 in double overtime in the other Smythe Division clash to take a 3-1 advantage in their series.

In the Norris Division, the Minnesota North Stars beat the Chicago Blackhawks 4-0 to tie that series 2-2, and the Toronto Maple Leafs beat the St. Louis Blues 4-2 to stave off elimination in a series that St. Louis leads 3-1.

The Wales Conference resumes play Wednesday night with the New York Rangers at New York Islanders, the New Jersey Devils at Washington Capitals, Boston Bruins at Hartford Whalers and Buffalo Sabres at Montreal Canadiens.

The Rangers, Devils, Whalers and Canadiens lead their series 2-1.

All series are best-of-seven and switch sites after Game 4.

-- AROUND THE NHL --

SMYTHE DIVISION

KINGS 12, FLAMES 4

At Los Angeles, Wayne Gretzky contributed a goal and four assists for the Kings, who scored the second-most goals in NHL playoff history. In an awesome display, Los Angeles netted the game's first seven goals; did not permit a shot on goal for the first 16:45, and did not allow Calgary a power play for almost 41 minutes.

Dave Taylor, Granato and Sandstrom scored hat tricks on a combined nine shots.

The Kings, who beat then-Stanley Cup champion Edmonton in the opening round last season, can eliminate this year's defending titlists as early as Thursday night in Game 5 at Calgary's Olympic Saddledome.

Taylor, who passed Marcel Dionne to become the No. 1 scorer in Los Angeles playoff history, scored twice in the opening period as Los Angeles raced to a 4-0 lead. The 13-year veteran completed his first playoff hat trick with 11:45 left.

''How can you go from a 2-1 overtime game (in Game 3) to what happened here tonight?'' asked Calgary Coach Terry Crisp. ''I feel sorry for (goaltenders) Mike Vernon and Rick Wamsley. I told my bench that that I certainly was not faulting (Vernon) because it was not his fault he was left high and dry. Then we hung Wamsley even higher and dryer.

JETS 4, OILERS 3 2OT

At Winnipeg, Manitoba, Dave Ellett scored a power-play goal early in the second overtime Tuesday night, putting the Winnipeg Jets in command of their Stanley Cup playoff series with a 4-3 victory over the Edmonton Oilers.

Just 57 seconds into the period and shortly after Reijo Ruotsalainen was penalized, Ellett smoked a right point shot past goaltender Bill Ranford into the far corner of the net.

''It's another step,'' said Ellett, who scored after Tomas Steen had beaten Craig MacTavish on a face off to the left of Edmonton goaltender Bill Ranford.

''I lined up on my off-side and Tomas won the draw,'' said Ellett. ''I had a clear alley. There was no way I was going to pass up that shot. So I shot low on the stick side.

NORRIS DIVISION

MAPLE LEAFS 4, BLUES 2

At Toronto, The Maple Leafs staved off elimination, keeping the Blues from sweeping the best-of-seven Norris division semi-final. The Blues still lead the series 3-1 with game 5 set for Thursday in St. Louis.

Scott Pearson, who was making his playoff debut, scored the crucial first goal to give Toronto a 1-0 lead while Dave Hannan, making his first appearence since the series opener, collected the game winner.

''Hopefully I'll be starting in the next game and I won't be as nervous.''

Rod Brind'Amour, who had both St. Louis goals, thought the Blues might have been a bit guilty of overconfidence.

''They came out all fired up that's for sure,'' said Brind'Amour. ''We just didn't seem to be ready, up 3-0 maybe we thought they'd fold.

MINNESOTA 4, CHICAGO 0

At Bloomington, Minn., goaltender Jon Casey recorded his first NHL playoff shutout, and Don Barber scored two goals and set up another to lift the North Stars and knot their playoff series at two game each.

Game five in the best-of-seven Norris Division semifinal is in Chicago Thursday.

Casey made 29 saves, posting the North Stars' first playoff shutout since Gilles Meloche blanked St. Louis 2-0 in 1984. Casey had three shutouts during the regular season, including one against the Blackhawks.

''I can't say enough about the way the guys played in front of me,'' said Casey. ''We just didn't have any lapses. They kept the front of the net clear and cleared all the rebounds. It was a great team effort, especially considering that we lost two defensemen early.''

Minnesota lost Frantisek Musil because of a shoulder injury and Mark Tinordi to bruised ribs in the first period.

#90101u0461 04/11/1990 ~United Press International

BEIJING (APRIL 11) UPI - China will reduce the number of government scholarships for graduate and doctoral students going overseas, concentrating instead on senior scholars applying for short-term programs, the official China Daily newspaper said Wednesday.

Senior education official Shi Weiren said that while China's policy of sending government-sponsored students and academics abroad had not changed ''necessary adjustments'' were made in the selection process, according

to the English language China Daily.

The report said the government will send 3,000 students overseas in 1990, half of whom will be advanced researchers or senior scholars on short programs of up to one year.

In keeping with government policies designed to ensure Chinese studying abroad return home, Shi said China would reduce the number of students to be sent overseas for graduate and doctoral degrees while ''greatly increasing'' the number of visiting scholars.

A spokesman for the State Education Commission said by telephone that there had been no decrease over last year in the number of government-funded students going overseas in 1990.

Shi did not elaborate on what adjustments would be made in the selection process, saying only that ''it would be conducted in a more planned way giving attention to the needs of the state.''

But Chinese sources said government-sponsored scholars chosen to go overseas must now receive several months of political indoctrination.

The sources said scholars going to the Soviet Union for six months to one year must undergo three months of special education. Half of the course is spent on language review and the rest on politics, including a new course on the Opium War of 1840, when Western powers invaded China.

China is attempting to address a continuing brain drain. Of the estimated 60,000 Chinese who have studied in the United States in the past decade, only a fourth have returned.

The problem has been exacerbated by last June's bloody crackdown on pro-democracy protesters in Beijing. Since the crackdown, Chinese students in the United States have been allowed to extend their visas beyond original deadlines. Students said they feared political reprisals upon their return to China.

Chinese authorities have responded to last spring's massive student-led protests by cracking down especially hard on education, passing tough new restrictions on overseas study and stressing renewed emphasis on political orthodoxy at all educational levels.

#90101u0476 04/11/1990 ~United Press International

MANILA, Philippines (APRIL 11) UPI - President Corazon Aquino Wednesday rejected a call by legislators for a Holy Week cease-fire with communist rebels, presidential spokesman Tomas Gomez said.

''The cease-fire has been rejected. The Philippine government is ready for any and all contingencies,'' a statement read by Gomez said. ''We will confront, we will engage. Unauthorized movement will be attacked.''

Several lawmakers in the House of Representatives, led by Rep. Gregorio Andolana, have called for a break in hostilities between government troops and the 19,000-member communist New People's Army, or NPA, during the passover and Easter holidays.

The NPA, the armed wing of the outlawed Communist Party of the Philippines has been fighting the Manila government for 21 years.

Andolana said a cessation of hostilities would make the Holy Week celebrations meaningful in Asia's only Roman Catholic country.

The Aquino government and the communist guerrillas have been observing cease-fires during the Christmas and New Year's holidays since 1986.

Defense Secretary Fidel Ramos said the armed forces and the defense department recommended against the cease-fire because it ''will only give breathing space to the rebels at a time when they are suffering in the field.''

There was no official reaction from the rebel side, although the Daily Globe newspaper quoted guerrilla sources as saying the communists favored a halt in the fighting.

#90101u0482 04/11/1990 ~United Press International

BANGKOK (APRIL 11) UPI - A hand grenade thrown into a crowd at an outdoor fair in rural Thailand killed 18 people, including four children, and wounded more than 40, a physician said Wednesday.

Dr. Chatchai Nualla-Or, director of Buntharik Hospital said the grenade was thrown late Tuesday at an outdoor fair where hundreds of villagers were watching an open-air movie at Ubon Ratchathani, 335 miles east of Bangkok.

He said police were investigating the incident but had made no arrests. He said some army troops earlier had quarreled with villagers in the area.

''The blast killed 11 people instantly and seven others died in local hospitals. The victims were 10 men, four women and four children,'' Chatchai said in a telephone interview.

More than 40 people were wounded in the blast, with 12 of them in critical

condition, he said.

(APRIL 11) UPI - Around the world, around the clock.... U-P-I has the

latest news.

President Bush and Baltic-American leaders hold their first face-to-face talks since Lithuania declared its independence from Moscow one month ago today. Bush said yesterday that he made it clear to Moscow deterioration of the situation in Lithuania would make it difficult to move forward rapidly on arms control issues.

Three European hostages freed by Palestinian extremists in Lebanon are in Paris where they spent the night at a military hospital. French President Mitterrand yesterday thanked Libyan leader Moammar Gadhafi for his role in freeing the hostages.

About one-thousand friends and relatives of Ryan White are expected to fill Second Presbyterian Church in Indianapolis for funeral services today. The 18-year-old White died of an AIDS-related illness Sunday. Indiana officials say first lady Barbara Bush will attend the funeral service.

Federal agents arrested two striking Greyhound drivers on charges of shooting at two Greyhound buses. NO one was injured in either attack. Roy Simes and Harry Lewis were arrested in the St. Louis area yesterday. A series of snipings have marred a 40-day strike against the nation's largest intercity bus line.

Three East German pastors will swap one type of ministry for another. The Protestant pastors are on a list of 24 Cabinet ministers that East Germany's Parliament will be asked to approve tomorrow. Negotiators from conservative, Social Democratic and liberal parties raced against time to work out a coalition agreement for tomorrow's Parliament session.

#90101u0602 04/11/1990 ~United Press International
(APRIL 11) UPI - Official Hanoi Radio says Vietnam gave U-S representatives 10 sets of remains of American soldiers who died during the Vietnam war. The broadcast report, monitored in Bangkok, indicated the remains will be flown back to the United States for identification. A total of 16-hundredS servicemen are still listed as missing in action in Vietnam.

A report shows Nevada's population grew the fastest from 1985 to '89... but California is the biggest. A Census report from last July shows Nevada's populaton jumped 18 percent during the last five years, while the most populous state, California, added two-point-seven-Million in the second half.

California unveiled a scathing, humorous series of radio, t-v and

newspaper ads to get people to quit smoking. The 28-Million-dollar ad campaign by California's Health Department is aimed particularly at young people, pregnant women and minorities. Officials say the ads are a combination of health message along with portraying ''the tobacco companies as the enemy.''

A consumer group says there were more than 105-thousand cases of worker exposure to radiation at U-S power plants in 1988, the highest number of incidents ever reported in one year. Public Citizen says workers at 107 commercial nuclear plants were exposed to a dose of radiation the group estimates as equivalent to two-Million chest X-rays.

A group of students blocked the administration building at Western Michigan University yesterday, apparently continuing a protest of an alleged assault by two professors on a student accused of cheating. University officials said late yesterday talks are possible only if the students leave the building.

KATMANDU, NEPAL (APRIL 11) UPI - Opposition Nepali Congress Party leader Girija Prasad Koirala threatened Wednesday to renew protests - this time against King Birendra - if demands for greater democratic rule are not swiftly met.

Leaders of the recently legalized Congress Party and a coalition of seven leftist parties were expected to meet Wednesday to discuss several key political issues linked to the transition of Nepal's government.

Koirala said his party wants the government of Prime Minister Lokendra Bahadur Chand to be dissolved immediately, claiming it was illegal because it was formed under the party-less panchayat system, two days before King Birendra lifted a ban on political parties for the first time in 29 years.

The king had been under mounting pressure from a 6-week-old pro-democracy movement that resulted in massive rallies and clashes between security forces and demonstrators, which left at least 50 dead.

The king apparently had hoped to defuse the situation and satisfy popular demand with the dismissal of the hardline government of former Prime Minister Marich Man Singh Shrestha but the Nepalese people immediately rejected that move and poured into the streets demand a multi-party system.

Koirala said ''if our demands are endorsed'' by the leftist coalition ''then we will have a meeting with the king,'' as early as Thursday.

''We want it done very, very quickly,'' he said. ''Otherwise there will be chaos in the country.''

Koirala said the pro-democracy movement had not ended with the king's concessions, but only suspended.

''If the king does not agree to the demands, the movement would again be revived,'' he said. ''But this time it would be against the king.''

He explained that the Congress Party is not opposed to the monarchy, but that it seeks to limit the King's powers under the new multi-party system of government.

Foreign Minister Pashupati Shumshere Rana said Tuesday that King

Birendra's powers would be changed ''according to the will of the people.''

Rana said the government is waiting for the opposition to send representatives to participate in a constitutional reforms commission that will determine the king's power, which has been absolute.

WASHINGTON (APRIL 11) UPI - American businesses are planning to increase spending on plants and equipment by 7.6 percent in 1990, the lowest gain in three years, the Commerce Department said Wednesday.

The slowdown reflected the sluggish industrial economy, especially the auto industry and related fabricated metals business where capital spending was expected to fall off during the year.

A report by the department's Census Bureau estimated that real spending - capital spending adjusted to remove inflation - will total $503 billion vs. $468 billion in 1989, an increase of 8.6 percent over the previous year.

The 7.6 percent increase in real spending for plants and equipment was the lowest since a gain of 4.2 percent in 1987, the department said.

''Real spending increased 0.4 percent in the fourth quarter of 1989, following a 3.0 percent increase in the third quarter,'' the report said. ''In 1990, increases of 2.8 percent in the first quarter, 1.4 percent in the second quarter, and 3.0 in the second half are expected.''

According to the government's estimates, manufacturing industries planned a 4.6 percent increase in real spending for the year, with a 2.2 increase in durable goods and a 6.6 percent increase in non-durable goods.

Non-manufacturing industries, meanwhile, planned to increase real spending by 9.5 percent in 1990, the department said.

''Large increases are expected in transportation and commercial (capital spending,'' the quarterly report said. ''Increases are also expected in mining and public utilities.''

All the dollar amounts in the report were adjusted for seasonal factors and calculated at an annual rate. The estimates were based on surveys mailed to selected American companies Dec. 29 and due by Feb. 15.

TOKYO (APRIL 11) UPI - Japan argued in trade talks with the United States that it cannot change building codes to allow the wider use of imported wood products because Japanese earthquakes are more severe than temblors in the United States, U.S. participants said Wednesday.

U.S. and Japanese negotiators failed in their third day of talks Wednesday to reach an agreement on reducing Japan's barriers to imports of processed lumber and said they would meet again Thursday.

Barry Cullen, president of the National Forest Products Association, and the U.S. industry representative at the talks, said the Japanese are ''stonewalling'' because they want to protect their own, less efficient lumber industry and do not want to change building codes that favor steel and concrete.

The Japanese negotiators agrued that earthquakes in Japan are more severe than in the United States, and that steel and concrete offer better protection from fires that may be caused by earthquakes, said Cullen and other U.S. industry representatives at a news conference.

''Japanese earthquakes are not different than American earthquakes and they are no excuse for not using wood for construction,'' Cullen said.

In previous trade talks, the Japanese have argued that American skis cannot be allowed into Japan because the snow in Japan is different and American beef cannot be freely imported because Japanese intestines are longer and would have difficulty digesting U.S. beef.

A year ago, President Bush listed lumber products, super computers and satellites as three specific areas in which Japan had put up unfair trade barriers.

Japan has agreed to open its market wider to super computers and satellites, but seven rounds of talks on lumber have failed to produce an agreement.

Japan imported $2.8 billion worth of wood products last year, but 70 percent of that was raw lumber.

U.S. producers want to export more processed wood products and say they could sell $2 billion a year more of processed wood if the Japanese market was open.

U.S. industry representatives argued that wood offers better protection against earthquakes and meets fire prevention standards in the United States.

Japanese building codes limit the use of wood because of outdated fears

associated with the 1923 Tokyo earthquake that touched off a massive fire, killing 200,000 people, said the U.S. industry representatives.

''We have been told by Japanese officials that earthquakes in Japan are much more severe,'' said Ronald Walker, southwest regional director of the National Forest Products Association. ''Basically, earthquakes act the same no matter where.''

The threat of fire caused by earthquakes has diminished, Walker said, because of technological advances such as gas lines which cut off automatically at the slightest tremor.

Wood can also be made to resist fire, Walker said.

#90101u0723 04/11/1990 ~United Press International

NEW YORK (APRIL 11) UPI - A cab driver was shot and critically wounded in the Bronx Wednesday and police were investigating whether the shooting was linked to a brazen killer believed to have robbed and slain three Bronx cabbies in the past month.

The driver, who was not identified, was shot about 2:10 a.m. and taken to Lincoln Hospital in critical condition, police said.

Two teenage youths were seen fleeing the scene and a gun was found on the front seat of the cab, operated by Professional Cooperative Car Service, police said. They were investigating whether the shooting was linked to the three prior robbery slayings.

On Monday, Paul Burghard, 25, a driver for Plaza Private Cars, picked up a man at Montefiore Hospital. The driver was found dead with four bullet wounds in his head and back.

Early March 14, Thru-Way Private Taxi driver Eliot Whitaker, 43, was found with a number of gunshot wounds in his neck nine blocks from where Burhard was found.

On March 7, Acton Jones, 37, a driver for Super Car Service, was found shot three times in the neck and face.

Police said Tuesday the three slayings were probably committed by the same man. Each of the drivers had been robbed of between $50 and $100 and shot a number of times with a small caliber weapon.

#90101u0730 04/11/1990 ~United Press International

MOSCOW (APRIL 11) UPI - Polish President Wojciech Jaruzelski arrived in Lvov in the western Ukraine Wednesday to begin an official visit to the Soviet Union that he hopes will close ''painful chapters'' in the relations between the two countries.

The Soviet news agency Tass said Jaruzelski was greeted by Ukranian and city officials in Lvov - a Polish city before World War II now within the Soviet Union about 40 miles from the Polish border.

One of the most emotional issues Jaruzelski undoubtedly hopes to discuss during the four-day trip is the massacre of about 15,000 Polish army officers in the Katyn Forest during World War II.

Jaruzelski plans to visit Katyn during his trip, which also includes stops in Kiev and Moscow.

The Soviet Union has for years officially blamed the Nazis for the killings, but there is documentary evidence - including some published by Soviet scholars last month in the Moscow News - that Soviet security forces were responsible.

''Painful chapters in our common history will be brought to light,'' Jaruzelski said before leaving Warsaw.

There has been speculation in the Polish media the Soviets would officially admit culpability in the Katyn massacre during Jaruzelski's visit, and the Soviet scholars who published the Moscow News article on Katyn called on the government to tell the truth about the incident.

There was also speculation Soviet President Mikhail Gorbachev would discuss the Katyn incident during his official visit to Poland last year, but he did not.

Tass said the agenda for Jaruzelski's official meetings with Soviet officials included bilateral relations and the overall situation in Europe.

''I am sure that the subjects under discussion will include European problems, the problems of borders and the unification of Germany,'' Jaruzelski said before he left. ''We shall also talk about the stationing of Soviet troops in Poland.''

#90101u0738 04/11/1990 ~United Press International

(APRIL 11) UPI - Prices on the Tokyo Stock Exchange closed slightly lower Wednesday in calm trading.

The blue-chip Nikkei Average of 225 selected issues, which fell 773.25

points Tuesday, slipped another 184.40 points to 29,440.28.

The broader-based Tokyo Stock Exchange Index of all listed major shares eased0.94 points to 2,185.30.

An estimated 500 million shares changed hands, compared with 566 million shares Tuesday.

Advances edged out declines 515 to 418, while 157 issues remained unchanged.

Elsewhere in Asia, stocks closed higher in moderate trading on the Hong Kong Stock Exchange, boosted by a resurgence of interest in blue-chip issues.

The key Hang Seng Index, which lost 12.41 points Tuesday, rebounded 17.65 points to 2,959.98. Financials rose 10.26 points, utilities gained 25.43, industrials rose 13.26 and properties gained 33.35 points.

Turnover amounted to 956.9 million shares, boosted by a 200 million share new issue. On Tuesday 791.4 million shares changed hands.

The narrower All Singapore Index rose 3.97 points to 419.63.

Turnover amounted to 61.5 million shares, compared with 59.6 milion shares Tuesday.

In Australia, stocks closed slightly lower in lackluster trading on the Sydney Sharemarket.

The All Ordinaries Index, which fell 16.4 points Tuesday, lost another 5.2 points to 1,505.8. The All Industrials Index fell 10.1 points to 2,311.5 and the Resource Index lost 6.7 points to 882.4.

Turnover amounted to 70.7 million shares, compared with 62.2 million shares Tuesday.

#90101u0744 04/11/1990 ~United Press International

(APRIL 11) UPI - The latest news from across the nation and around the world... details and developments from the 'round-the-clock wires of United Press International.

Space agency engineers are working overnight to drain the fuel tank of the shuttle Discovery in preparation for a repair job.

Technicians have to replace a malfunctioning power system before Discovery

can lift off and launch the Hubble Space Telescope. As the hydraulic unit is replaced, other scientists will re-charge the Hubble's six high-tech nickel-hydrogen batteries.

NASA launch director Robert Sieck says it probably will be between one and two weeks before the launch can take place. Engineers have to get a better idea of how long it will take to make the repairs before a launch date can be set.

The problem was discovered and the shuttle's launch was canceled yesterday just four minutes before it was set to head into space.

Telescope project manager Frederick Wojtalek says the Hubble Telescope and its ultra-clean mirror- the most perfect ever made- are NOT in any danger of contamination in the relatively clean but less-than-ideal environment of Discovery's cargo bay. He says the shuttle payload bay is clean, and has been treated very carefully.

Along with delaying the debut of the telescope, the launch delay could have major ramifications for the rest of the year's shuttle schedule.

A post-Challenger guideline requires two to three weeks between missions. The Columbia's launch in early May appears to be threatened.

President Bush plans to meet with Baltic-American leaders at the White House today to discuss the brinksmanship between Moscow and the three break-away republics.

It will be the first discussions between Bush and Americans of Lithuanian, Latvian or Estonian origin since Lithuania declared its independence from the Soviet Union on March 11th.

Bush said last night he has made it clear to Soviet leaders that deterioration of the situation in Lithuania will make it hard to move forward as fast as he'd like on arms control and other issues.

But Bush says he won't back out on plans for a summit conference with Soviet President Gorbachev May 30th. Bush says dialogue is valuable when difficulties are brewing.

Bush met with Canadian Prime Minister Mulroney earlier in the day. After their private session, both Bush and Mulroney gave Gorbachev high praise for his commitment to peaceful change in the Soviet bloc.

#90101u0756 04/11/1990 ~United Press International

(APRIL 11) UPI - Texas Treasurer Ann Richards came out the winner

yesterday... capturing the Democratic nomination for governor over her opponent, Attorney General Jim Mattox.

Richards says the people of Texas rejected dirty politics and mud-slinging campaigns. She defeated Mattox after a run-off campaign filled with charges of drug abuse and shady business deals.

Now Richards says she wants to lay all that aside as she faces Republican nominee Clayton Williams in the campaign for governor in November's election. Williams agrees, telling a San Antonio news conference- ''NO more mud.''

Richards wants the next campaign to be based on such issues as education, criminal justice and enforcement of environmental laws.

Richards came became nationally known after delivering the keynote address during the Democratic National Convention in Atlanta in 1988.

But several polls have shown that if the general election were held this week, Williams... a West Texas Millionaire... would easily defeat Richards.

The anti-nuclear group Public Citizen says the average worker at a nuclear power plant in the United States received radiation roughly equal to 20 chest X-rays in 1988. The group says more than 12-thousand workers received at least one dose equal to 50 chest X-rays.

Public Citizen reviewed Nuclear Regulatory Commission records for 1988, the most recent year available, and produced a report titled ''Glowing on the Job.''

Public Citizen says 1988 had the highest-ever number of cases of worker exposure to radiation. The group's review of federal documents shows there were 105-thousand cases of worker exposure to radiation at nuclear power plants two years ago.

The anti-nuclear group says the statistics show the total number of worker radiation exposure incidents has increased 31 percent since 1980... when there were 80-thousand-389 reported cases.

Public Citizen called on the N-R-C to lower its regulatory limits for radiation exposure in the nuclear industry.

Nuclear industry officials call the Public Citizen report distorted... saying the group only publicized those statistics that fit their biases.

#90101u0781 04/11/1990 ~United Press International

SAN ANTONIO (APRIL 11) UPI - Education Secretary Lauro Cavazos is urging Hispanic parents to change their attitudes about the value of education to begin reversing chronically high drop-out rates among their children.

''Hispanics have always valued education,'' Cavazos said, listing some of the great universities founded following the Spanish conquest of the New World. ''Somewhere along the line we lost that.''

The nation's fastest growing minority group also suffered the nation's highest drop-out rate (more than 35 percent) during the 1980s, Cavazos said.

''No one really has the answer why,'' Cavazos said, adding that other ethnic groups also have had to contend with economic and language barriers.

''The parents must demand that their children not drop out of school,'' he said, by encouraging them and raising their expectations. ''Basically, the solution itself must start in the home,'' he said, beginning with ''attitudinal changes.''

Cavazos was in San Antonio Tuesday to speak at the first of five one-day public meetings on Hispanic education issues, with the results to be submitted to President Bush later this year. Meetings are scheduled next in Boston (April 26), Chicago (May 11), Miami (May 18) and Los Angeles (June 5).

''We've been talking about (Hispanic education issues) for years and years and done nothing about it,'' Cavazos said. ''We know that the education system is failing much of our Hispanic population. What we need are constructive, original ideas for better meeting the needs of Hispanic students.''

Cesar Trimble, vice president of the Hispanic Association of Colleges and Universities, agreed that parental involvement is vital. He said the problem is the under-education of all children in the United States, and all parents must become more involved.

''Hispanic communities value education as greatly or more so than other communities,'' he said.

Gloria Rodriguez, who for 16 years has headed the nationally renowned Avance program in San Antonio, testified about the success of the parenting skills program for poor Hispanic families.

Schools must improve in quality, Rodriguez said. ''However, that is of no avail if children come ill-prepared.''

Avance, Spanish for forward, teaches parents to ''set the climate for

learning,'' and also encourages parents - about 80 percent of Avance parents are drop-outs - to complete their education.

But demanding more parental involvement does not work without providing parents with assistance, Rodriguez said.

''You don't just say, 'Do it.' Support them. Help them,'' she said. ''Help them feel welcome in the schools. Schools are so isolated; they are so bureaucratic.''

Education consistently ranks high in importance in polls of Hispanics, Bob Brischetto, director of the San Antonio-based Southwest Voter Research Institute, later said.

''I don't think it's a question of value; I think it's a question of means '' Brischetto said. ''In our state, it's a matter of funding.''

#90101u0806 04/11/1990 ~United Press International

ANALYSIS BY HELEN THOMAS

WASHINGTON (APRIL 11) UPI - Reporters who covered Lyndon B. Johnson in his White House years and before waxed nostalgic on a Washington panel recently to commemorate the 25th anniversary of his inaugural.

Their recollections for better or for worse proved the obvious - that LBJ was a very complex, many faceted, brilliant man in many ways, who never felt he was understood by the press. And probably wasn't, except that was mostly his fault.

Nearly all the panel guests had served with the Johnson administration at the White House or worked with Johnson during his years on Capitol Hill.

The panel was not designed as an antidote to author Robert Caro, who is writing a definitive biography, now in the third volume, and has cast a long shadow on Johnson.

Johnson's friends from the past do not deny the facts, except they have another side of the story to tell, a kinder, gentler side that was typified by his Great Society.

Johnson was a ''can do'' president. When Warren Rogers, an ace newsman reported to him after a stint in Vietnam that the American servicemen who were wounded in battle in Southeast Asia were not eligible for the purple heart because the United States had not formally declared war, John immediately sought legislation to rectify the situation.

But somewhere along the way truth got lost and Johnson paid a price in credibility. Because he manipulated the facts, reporters never quite believed him.

Marianne Means, a Hearst columnist, said that Johnson dislosed to her that he was thinking of not running again the day before he renounced re-election on Mar. 31, 1968, delivering an electrifying announcement at the end of a Vietnam speech - and she did not believe him.

Bonnie Angelo of Time magazine recalled a trip on Air Force One with the late Australian Prime Minister Harold Holt and Mrs. Holt. Australia's first lady was extolling American bacon to Angelo as they ate breakfast aboard the plane. Suddenly, the long arm of LBJ speared a slice of bacon right on Mrs. Holt's plate.

LBJ, who always remained close to his Texas roots, identified with the poor, and could hardly stand those ''Harvard boys'' of the Kennedy era. He would wander around the West Wing turning out the lights, shades of the Great Depression days.

When a Southern senator questioned his switch to become an all-out battler for civil rights, Johnson replied: ''I'm president now. President of all the people.''

It was a love-hate relationship with the press, and he was constantly in search of a format that would suit his personality and put him in the best light. He came across as wooden on television, and that was the last thing he was.

Once he did hit on a style for a news conference. He paced up and down with a microphone hanging around his neck and flailed his arms, and delivered eloquent answers. But even in that setting, when it appeared the real Johnson had finally stood up, he did not adopt it as a pattern.

He had five press secretaries during his years at the White House, and finally George Christian, a friend from Austin, Texas, came to the rescue and suited Johnson best.

A doctored transcript of press briefings would be sent promptly to Johnson usually during his lunch hour, with the names of the reporters inserted by the question. So he knew who to hate. Frequently, he could guess, before he was told, the identity of the reporter asking the irritating question.

His language after reading the transcript was not printable.

So often, particularly when faced with the growing national opposition to the Vietnam War, he would say: ''It's easy to do the right thing, if you

know what the right thing is.''

When the late Sen. George Aiken, R-Vt., told him, and later his successor, Richard Nixon, to declare a victory and leave, Johnson told friends: ''I know he's right.''

But he could not take that advice - and the war went on.

#90101u0814 04/11/1990 ~United Press International

COPENHAGEN, DENMARK (APRIL 11) UPI - Denmark's Maritime Court Wednesday began its inquiry into Scandinavia's worst ferry fire and Swedish police said 127 bodies have been recovered from the vessel believed to have been set on fire by an arsonist.

First to give evidence at Wednesday's court hearing was the ferry captain, Hugo Larsen, the master of the 10,000-ton Scandinavian Star, which erupted into flames during a voyage from Norway to Denmark last weekend.

Swedish police estimate 200 people, including many children, died in the inferno, but say the final death toll may never be known due to a sketchy passenger list.

Larsen gave the number of passengers and crew on board as 495.

The maritime inquiry, which is to determine the cause of the disaster, is not a criminal proceeding, although witnesses are required to give evidence under oath.

During Wednesday's proceedings before five judges of Denmark's Maritime and Commercial Court, Larsen firmly rejected previous criticism that his vessel's safety equipment had been faulty and his crew untrained.

''The safety equipment was checked and found to be in good working order. There were clear, printed emergency instructions pinned up at strategic positions on the ship and the crew did as much as anyonbe could expect in the circumstances,'' Larsen told the court.

Moved to larger premises in Copenhagen's Insurance Association hall in order to accomodate some 300 people, black-clad Court President Frank Poulsen and four other judges listened intensely as a nervous, bowed Larsen recounted the tragedy.

The court proceedings began Wednesday with a minute's silence in memory of those killed.

Larsen repeated previous statements he had left his vessel although he

knew there were people still alive on board but that he had been unable to get through the flames to help them and had sent a boat from a rescuing vessel to pick them up.

''We stayed on the other vessel until the fire was partially under control and then we went back,'' Larsen said of himself and the ship's first and second engineers.

The captain said when he arrived back on the bridge of the Scandinavian Star, he planned further firefighting with a Swedish fire chief sent from shore with a group of firemen.

Finding doors to areas where the fire was raging open, Larsen said he asked the fire chief why the doors were open. ''He told me that was their way of doing things,'' Larsen said adding ''I always thought that one should starve a fire of oxygen.''

Larsen said that within moments of the initial fire alarm, he switched off ventilation systems on the ship in order not to fan the flames.

Larsen rejected the suggestion that his Portuguese and Filipino crew had been ill-prepared.

''In such a situation, all sailors know what to do and they did it,'' Larsen said.

He has previously said there were no linguistic difficulties among the majority of the crew on board and they had done as well as any other crew would have been able to do in the same circumstances.

Expected to last at least three days, the inquiry will produce a report on the incident which will determine whether any form of operator or crew negligence caused the fire on the vessel to fan out so quickly.

As the inquiry got under way in Copenhagen, Swedish police in the western port of Lysekil said they had removed 127 bodies from the burnt out shell of the Scandinavian Star and that work to locate charred bodies was becoming more difficult.

Remains of victims still on board were in those areas of the vessel which burned most fiercely, leaving little for recognition purposes, they said.

In Oslo, police withdrew a decision to release the identities of more than 180 people believed to be dead or missing, saying it would be seen as a death list.

Following a late night meeting in Copenhagen Tuesday, directors of maritime institutes in Denmark, Sweden and Norway decided to tighten proceedures for

the passage of ships flying flags of convenience in Scandinavian waters.

#90101u0822 04/11/1990 ~United Press International

CHARLOTTE, NC (APRIL 11) UPI - Sen. Jesse Helms is telling supporters through campaign fund-raising letters that he faces the toughest fight of his political career, a published report said Wednesday.

The North Carolina Republican is appealing to supporters for campaign funds to fight off what he calls ''liberal, big money'' attacks and prospects of a $1 million media assault by homosexuals and other groups, according to The Charlotte Observer.

One letter sent out by the Helms campaign organization refers to former Charlotte Mayor Harvey Gantt as ''Jesse Jackson's candidate'' and ties Gantt to Virginia Gov. Douglas Wilder, the nation's first elected black governor.

Gantt campaign manager Mel Watt said Helms' letter has racist overtones designed to cater to a fund-raising clientele that will respond to those kind of remarks.

Gantt, who is black, is one of four Democrats seeking the Senate nomination.

Helms has raised 40 times as much money as any of his challengers, and most polls show him with a comfortable lead over each of the Democrats who want to replace him.

GENEVA (APRIL 11) UPI - Uruguay Round world trade talks are in trouble with deep splits on all the major issues, GATT director general Arthur Dunkel said Wednesday.

''It is difficult to see any points of real convergence,'' Dunkel told a news conference after a heated 3-day review meeting among the 106 participating countries.

GATT (General Agreement on Tariffs and Trade) provides the framework for the Uruguay Round - launched in 1986, facing a deadline of December this year and with a ''draft outline'' supposed to be ready by the end of July.

On Monday and Tuesday the key players at the negotiations all accused each other of blocking progress by continued protectionism in violation of GATT free trade rules.

The United States charged the European Community with ''dragging its feet'' by rejecting a reform of its agricultural system and especially its subsidized exports.

The Community in turn said the United States is trying to resolve its trading and other economic problems through ''unilateral'' import barriers instead of using the multilateral system as Washington preaches to others.

Developing countries for their part said their special needs in the textiles, tropical produce and primary products sectors are being largely ignored by the richer nations.

''Work has to be accelerated,'' Dunkel said. ''We especially need very intense efforts in agriculture and in textiles and clothing.''

''Vested interests'' in those sectors must make ''substantive concessions '' he said.

Dunkel said the biggest problem areas were agriculture and textiles as well as free trade in service industries like banking and insurance and better protection of patents and other intellectual property.

Advanced nations and particularly the United States demand stricter rules on protecting manufacturing patents and greater access for their service industries to Third World countries.

Developing countries for their part want better access to western technology, fear they could be taken over by big western services multinationals, and demand more preferential treatment for their exports.

Dunkel warned that there must be agreement in all 15 sectors under discussion if the Uruguay Round is to succeed.

GATT officials said around 25 trade minister from the key participants are scheduled to meet in Mexico April 19 and 20 to try and get the talks moving in a substantive way.

The Uruguay Round was launched in September 1986, at a conference in the Uruguay coastal resort of Punta del Este, and followed similar Kennedy

Round and Tokyo Round liberalization talks in the 1960's and 1970's.

Its objective is an average 30 percent reduction in barriers to trade such as import duties and quotas and export subsidies and other protectionism.

#90101u0882 04/11/1990 ~United Press International

KALAMAZOO, MI (APRIL 11) UPI - A group of student protesters Wednesday morning ended an occupation of Western Michigan University's administration building that began as a protest against two professors accused of assaulting a student.

Representatives of the 75 to 100 students presented their demands to university President Diether Haenicke late Tuesday and negotiations between the two sides continued into Wednesday morning, said university spokesman Joe Gagie.

Students filed out of the Seibert Administration Building without incident about 7:30 a.m., ending the 24-hour occupation.

''I give people on both sides great credit,'' Haenicke said. ''Now we are going to work diligently to bring peace and harmony to our relations.''

The protesters, calling themselves Committee for Solidarity and Accountability, took over the building in renewed protest of the university's handling of an April 3 incident in which two professors allegedly assaulted a student during a biology exam because they suspected her of cheating.

Biology Professor Edgar Inselberg has been placed on paid suspension pending outcome of a preliminary investigation by the campus public safety department, but university officials Tuesday morning announced a recommendation he be put on unpaid suspension for both the fall and winter semesters.

Inselberg's wife, Rachel, an education professor who was helping him administer the test, was not immediately suspended but university officials are recommending she be suspended without pay for the fall semester.

Inselberg is accused of grabbing Toyoda Newsome, 19, of Detroit, during a scuffle over a folder of papers he alleged contained stolen tests that the student was using to cheat on the exam.

Rachel Inselberg is accused of biting Newsome on the hand and scratching her during the confrontation over the alleged cheating.

The Inselbergs deny they assaulted the student. The incident was witnessed by about 250 students taking the test.

Newsome sought her own treatment, hired a lawyer and filed formal assault charges against the two professors. University officials said the disciplinary action recommended against the professors was for ''engaging in unprofessional conduct.''

Students demanded the professors be fired if they are found responsible for assaulting Newsome.

Leading a nine-point list of demands was a call for amnesty for the students involved in the protest, Gagie said, which was granted under condition the protesters left the building before normal business hours Wednesday and that no damage resulted from the sit-in.

Administrators agreed to adjust residence hall sign-up policy, require all deans to post hours of availability to students, recommend to the faculty union changes in the ethics code and barring tests on Martin Luther King Jr.'s birthday.

The students had also called for measures to increase minority faculty recruitment and retention and a required course for freshmen on race relations and black culture, Gagie said.

Haenicke agreed to issue a directive deploring violence against students by any member of the university committee, Gagie said. professors has filed formal charge of academic dishonesty against Newsome, which would be required to spark an investigation into the alleged cheating.

#90101u0896 04/11/1990 ~United Press International

DALLAS (APRIL 11) UPI - Lomas Financial Corp., currently in Chapter 11 proceedings, says its mortgage banking subsidiary, Lomas Mortgage USA, has agreed to acquire $3.3 billion of mortgage servicing portfolio and related assets from Bright Mortgage Co..

Lomas Mortgage, which is not involved in the Chapter 11 bankruptcy of its parent, said Tuesday the acquisition was approved by Resolution Trust Corp., the federal agency created in August to dispose of insolvent thrift institutions.

Bright Mortgage was a unit of Bright Banc Savings Association, which was taken over by federal regulators in February 1989. The institution, without the mortgage unit, was sold this February to Bank One Texas, owned by Bank One Corp. of Columbus, Ohio.

Teresa McUsic, spokeswoman for RTC in Dallas, said Lomas Mortgage paid $33 million, or 1 percent of the portfolio, in the transaction. She said Lomas was the highest bidder among three final bidders. The other two were not identified.

McUsic said 65 other parties also expressed interest. She said RTC was represented in the transaction by the investment banking firms of Smith Barney of New York and Lovett Underwood Newhaus and Webb of Houston.

McUsic said there still are about $100 million of assets in Bright Mortgage which remain to be liquidated and that Lomas Mortgage is negotiating to manage some of them. Those assets include inventory mortgage securities, investment mortgages, construction loans and foreclosure claims.

Jess Hay, chairman of Lomas Financial Corp., said the money for the transaction would come from the corporation's cash holdings. He said the acquisition is yet another confirmation that the subsidiaries of Lomas Financial that are not in the bankruptcy are continuing to grow while the parent seeks to restructure itself.

Hay said the transaction was approved by the bankuptcy court.

Lomas Mortgage said the acquisition will increase its mortgage servicing portfolio to about $24.5 billion from the current $21 billion. The transaction also will add 94,000 loans to its servicing portfolio, bringing the total loan services to about 615,000.

Frank Anderson, analyst at Stephens Inc. in Little Rock, Ark., welcomed the sale, saying it showed Lomas Financial is expanding its core business while in bankruptcy.

''This is Lomas' game plan to return to the basics, which is mortgage banking,'' he said. ''You've got to assume they will receive a better return from this investment than they are currently receiving. It is also a sign of confidence that Lomas will emerge successfully from bankruptcy.''

In a prepared statement, Hay said the acquisition ''represents a significant leveraging of our investments of capital, both human and financial, in the most comprehensive and technologically advanced mortgage loan servicing system in the country.''

Lewis Greene, RTC's representative, said homeowners whose mortage loans are with Bright Mortgage should continue to make their monthly payments as they have in the past until notified to do otherwise.

Lomas Financial Corp., hit by the downturn in the real estate industry, filed for Chapter 11 bankruptcy in September after failing to restructure

credits in excess of $1 billion. In its latest financial statement, the company reported losses of $151 million in the six months ended Dec. 31, 1989.

EAST BERLIN (APRIL 11) UPI - East German political parties resumed talks Wednesday to tie up details of an agreement to form a seven-party government coalition, the first non-communist administration in the state's 40-year history.

Party negotiators battled against time to complete the agreement in time for Prime Minister-designate Lothar de Maiziere to present his 24-member Cabinet list to parliament Thursday.

Leaders of the conservative Christian Democratic Union - the winners of the March 18 elections - and of the Social-Democratic Party said the length of the talks was less a reflection of problems than of the negotiators' determination to cover every possible aspect of the deal.

Two other conservative parties and a three-party liberal alliance are also involved in the talks.

Christian Democrat General-Secretary Martin Kirchner looked confident when he arrived for talks Wednesday. Smiling broadly, he said, ''I am confident the coalition agreement will be sealed later today.''

Negotiators meeting at the former Communist Party headquarter building in East Berlin reportedly discussed internal security issues.

On Tuesday, arguments centered on a number of economic issues, among them the unexpected nomination of Christian Democrat Gerhard Pohl to the key economics ministry.

The final session of talks were taking place amid renewed discussion over who should become the country's first head of state since the fall ouster of the hard-line Communist Party leadership.

The main political parties appeared to have reached tacit agreement that the new president should be a prominent East German church leader, in order to underline the key role the church played in the democratic transformation of the state.

Under an agreement reached Monday, de Maiziere's Christian Democratic Union will hold 11 ministerial posts, the Social Democrats seven, the liberals three, the German Social Union two and the Democratic Awakening party one.

#90101u0915 04/11/1990 ~United Press International

OAK RIDGE, TN (APRIL 11) UPI - Snack food apparently laced with cyanide was delivered to the homes of six workers at Oak Ridge National Laboratory prompting the federal research center to warn all 5,200 employees against poisonings, authorities said Wednesday.

''It appears someone may intend serious harm,'' officials at the laboratory said in a statement. ''Employees who unexpectedly receive unsolicited food ... should turn the material over to appropriate law enforcement officials.''

No one has been harmed by the poisoned popcorn and peanuts left in mailboxes and newspaper boxes on Thursday and Saturday. Police said they have identified a suspect but did not name the suspect. No arrest had been made.

One worker who got the cyanide-laced food told the Knoxville News-Sentinel that he believes a disgruntled former laboratory employee may be responsible, but did not elaborate.

One employee discovered a brown bottle dusted with a white powder inside the mailbox of her home, Knox County sheriff's detective Joey Cook said. The woman became suspicious and had the powder analyzed at the laboratory. Tests showed the powder was nearly pure potassium cyanide, Cook said.

Four other workers found packages of microwave popcorn or honey roasted peanuts believed to be tainted with the lethal chemical. Another found a salt shaker that burned his eyes and nose when he handled it, police Capt. R.A. Gallaher said.

Laboratory spokesman Marty Goolsby said those samples were sent to the state crime laboratory for analysis. Tests results were not complete Wednesday, officials said.

''My security people tell me this is not widespread. All the affected people work in one division of ORNL and all are salaried employees,'' Goolsby said.

Potassium cyanide affects the respiratory and cardiovascular systems, resulting in loss of breathing, irregular heart beats or stoppage of the heart.

''Potassium cyanide can be quite lethal upon ingestion. It's a rapidly acting poison,'' said Gaylord Lopez of the Poison Control Center at Atlanta.

#90101u0940 04/11/1990 ~United Press International

KARACHI, PAKISTAN (APRIL 11) UPI - Tanks and hundreds of troops were deployed Wednesday for the funeral of a student leader who died of wounds sustained in political violence last week.

No incidents were reported during the funeral procession of Najeeb Ahmed, former president of the Pakistan Students Federation, the student wing of Prime Minister Benazir Bhutto's Pakistan People's Party.

Ahmed died earlier Wednesday of wounds sustained when gunmen fired on his jeep Friday evening during clashes between activists of the PSF and the rival Mohajir Qaumi Movement, an opposition party representing Mohajir migrants from India.

At least 16 people have died and more than 35 have been wounded since Friday in unrest involving the two groups.

MQM leader Altaf Hussein Wednesday entered the fourth day of a hunger strike to press the government to take action against those responsible for the death of his supporters during the violence.

Authorities deployed troops, tanks and armored personnel carriers at key intersections of the city to prevent further trouble during Ahmed's funeral.

The funeral procession was guarded by two armored personnel carriers, at least 30 police vehicles and 10 army trucks. Hundreds of troops were also deployed around the graveyard.

The MQM, which has 14 members in the National Assembly, last September pulled out of an agreement signed after Bhutto took office in December 1988, and joined the opposition.

It charged the Bhutto administration had failed to promote the interests of the Mohajirs, whose families came to Pakistan from India following the partition of the subcontinent in 1947.

The latest unrest was the worst in the city since Feb. 7, when at least 33 people died and more than 100 were wounded in riots during an anti-government strike called by the MQM.

Karachi, Pakistan's largest city, and surrounding Sind Province have been wracked by ethnic violence for the past several years that has left hundreds dead.

MADRID, SPAIN (APRIL 11) UPI - Striking sanitation workers scuffled Wednesday with Red Cross workers who were called in to remove tons of trash that has piled up at Barajas International airport, officials said.

Officials said the airport, which serves millions of foreign tourists and business travelers every year, had become a health hazard and international embarrassment.

Since the sanitation strike started a week ago, paper cups and empty food containers have piled up at ticket counters and lounge areas. The stench is so bad that some airport workers have started wearing surgical masks.

Officials said most of the public restrooms and some restaurants in the airport had been closed.

Late Tuesday, Madrid officials called for volunteers from the Red Cross to help clean the airport but they were blocked Wednesday by striking workers. Officials said police were called to break up fistfights.

#90101u0969 04/11/1990 ~United Press International
(APRIL 11) UPI - All Texas precincts have reported, showing that Treasurer Ann Richards captured a run-off victory over Attorney General Jim Mattox to become the Democratic nominee for governor. Richards won about 57 percent of the vote compared with some 43 percent for Mattox. Richards says she looks forward to a ''good, solid exchange of ideas'' with G-O-P nominee Clayton Williams... in the campaign leading to the November general election.

The Israeli Parliament convened a special session today to vote on a motion of confidence for the coalition Labor Leader Shimon Peres said he had formed. But Peres requested delay in the session to meet with President Herzog in an apparent move to buy time. Two of Labor's possible coalition members apparently have backed out, creating an even split of the 120-member Parliament.

A Pennsylvania judge, reasoning that further time in jail ''wouldn't do much good,'' sentenced the so-called Plowshares Eight to time served. The eight peace activists were accused of hammering on missile cones at a General Electric plant in 1980. They served from five days to more than 14 months in prison for the protest. One defendant, Reverend Daniel Berrigan, called the judge's ruling ''decent.''

France has secured freedom for all of its known hostages in Lebanon. A French woman, her Belgian boyfriend and their baby daughter were released yesterday in Beirut by the Palestinian extremist group, Fatah Revolutionary Council. The hostages are back in Paris, where they spent the night in a military hospital. President Bush says he does NOT know if the development has ''any implications at all'' for the eight Americans still held captive in Lebanon.

-30- 1868
#90101u0978 04/11/1990 ~United Press International
(APRIL 11) UPI - A National Research Council report says the nation may face a shortage of mathematically skilled workers if more people do NOT study math. A report unveiled yesterday shows American's interest in math fell dramatically during the past 20 years. It says that by the year 2000, the U-S economy is expected to create about 21-Million new jobs, most of which will require both a college education and the use of mathematics.

Actor Eddie Murphy and his movie ''Coming to America,'' came out a winner after a Los Angeles judge yesterday dismissed a lawsuit against the actor, his production company and Paramount Pictures. The suit filed last August by a man known as Prince Johnny Osseni-Bellow claimed that Murphy used his story idea to make the film about an African prince coming to the United

States.

Detroit is out of the running to host the 1992 Democratic National Convention. Mayor Coleman Young made the announcement yesterday, citing ''a number of urgent priorities,'' as the reason for pulling the city out of the convention race. Delegates from the Democratic National Committee were scheduled to survey Detroit later this month and make a recommendation to the panel.

The Department of Veterans Affairs went to bat for registered nurses, urging Congress to make V-A nurses' salaries more competitive. V-A Secretary Edward Derwinski proposed a bill to make changes improving local salary adjustments and adding pay incentives for nursing supervisors. The Department of Veterans Affairs is the nation's largest single employer of registered nurses.

NEW YORK (APRIL 11) UPI - Simon & Schuster, the publishing division of Paramount Communications Inc., said Wednesday it has signed a joint agreement with Toppan Printing Co. to distribute books in Japan.

The agreement calls for Toppan, a leading Japanese book publisher and distributor, to translate into Japanese a wide range of books in the computer science and engineering fields. The two companies will jointly publish the works for the Japanese market.

''This is a logical extension of the continued growth of our international business,'' commented Henri Hirschberg, president of Simon & Schuster International Group.

Simon & Schuster already has co-publishing agreements in France, West Germany, Italy, the Netherlands and the Scandinavian countries.

CENTER HILL, FL (APRIL 11) UPI - Mayor Ivey C. Berry, who twice last month made racial slurs during a public meeting, survived an impeachment vote when his two nephews who sit on the City Council voted against his removal.

According to the charter for Center Hill, population 784, four of the council's five members need to agree in order to impeach a mayor.

The dissenting votes came from Councilmen Doyle Craig and Gordon Craig, Berry's nephews.

Berry, elected mayor three months ago, apologized for the comments he made about blacks during a March 6 council meeting.

''Sure, I'm sorry,'' he said. ''I growed up with them.''

Berry made racial slurs while the council was discussing substandard housing. When he could not remember a woman's name, he referred to her home as ''the nigger's house,'' City Clerk Emily Daughtry said.

Later, as the council was discussing abandoned automobiles, Berry said, ''I haven't seen any (cars) parked on any streets unless it'd be down here in the nigger quarters,'' according to a tape recording of the meeting.

Two days later, council members Cassie Brown, Leslie Neese and Terrill Davis called for Berry's resignation.

The mayor refused to resign and apologized for the remarks, saying he was raised being told blacks were called ''niggers.'' That prompted Brown, Neese and Davis to vote in favor of holding an impeachment hearing. The Craigs voted against conducting the proceedings.

City Attorney L.E. Taylor said Tuesday the only grounds for impeachment under the city charter would be if Berry had committed misfeasance.

Berry's attorney, C. John Coniglio, told a crowd of about 50 that the mayor did not mean to offend anyone when he made his remarks.

''It seems Mr. Berry, an 85-year-old white citizen, has made a mistake,'' he said. ''There was no malice intended by Mr. Berry. He has a lot of black friends in this community and he's got a lawyer that's known as the black man's lawyer in this community.''

T.H. Poole Sr., president of the Florida State Conference of Branches of the NAACP, spoke in favor of Berry's removal.

''I can admire the lawyer (Coniglio), but don't let him tell you this was a nickel-and-dime mistake.''

OKLAHOMA CITY (APRIL 11) UPI - To Oklahoma City oil man Robert A. Hefner III, the Berlin Wall - about six tons of it - is a work of art.

Hefner recently bought four sections of the wall for his private art collection. Each section measures about 70 square feet and weighs around 3,000 pounds.

The sections contain two murals - called ''Kings of Freedom'' - painted by West Berlin artist Dennis Kaun. The murals depict an Eastern king blind to the needs of his people, and a receptive, wide-eyed Western king.

The murals are to be delivered to Oklahoma City next week and placed on public display at Hefner Galleries by April 19.

Hefner said he bought the sections through the Berlin Wall Commemorative

Group in New Jersey, the official American distributor of the wall. The purchase price was not disclosed. Hefner Galleries curator Jon Burris said a large portion of the money went to humane organizations and East German hospitals.

TRAVERSE CITY, MI (APRIL 11) UPI - One man died and another was seriously injured when a two-man prototype submarine they were testing for commercial production sank while submerged in Green Lake, authorities said Wednesday.

Grand Traverse County Sheriff Jack Canfield said divers pulled Carl Hardwicke, 29, of Grosse Pointe, from the vessel, about 40 feet below the surface, at about 11 p.m. Tuesday. He was pronounced dead on arrival at Munson Medical Center in Traverse City.

The other man, Gregory Hensen, 27, of Warren, was taken to Bronson Hospital in Kalamazoo and placed in a decompression chamber. He was listed in fair condition Wednesday morning.

Hardwicke and Hansen had been experimenting with a small submarine for some time and had been displaying the craft recently at boating and recreation shows. Operating under the name H20 Submersibles, they were making plans to produce copies of the sub and had received a number of orders.

Canfield says the accident occurred late Tuesday afternoon in the lake near Interlochen.

He said Hardwicke's father, who was watching from a nearby dock, saw a massive air bubble hit the surface of the water. Hansen emerged shortly thereafter and was rescued by his partner's father, the sheriff said.

Divers who recovered Hardwicke's body from the sub said it appeared the vessel's transparent nose cone was broken.

JERUSALEM (APRIL 11) UPI - Two Palestinians, including one suspected of collaborating with Israeli authorities, were killed by other Arabs in the Israeli-occupied West Bank and Gaza Strip, Palestinian sources said Wednesday.

In the Gaza Strip, at least six Palestinians were wounded Wednesday by army gunfire during a general strike called by the Islamic Jihad to mark

the second anniversary of the deportation of Sheikh Abdel Aziz Ouda, the sources said. The army confirmed three were slightly wounded.

In the southern West Bank village of Dura, Amer Omar, 16, was shot in the chest by an alleged collaborator during a clash Wednesday between troops and stone-throwing youths, Palestinian sources said. The army spokesman confirmed the teenager was brought to Hebron Hospital, where he died.

The body was taken by the family before an autopsy could be performed. Police were investigating the incident, the spokesman said. The army spokesman said the killing was the result of an internal dispute.

In the Gaza Strip refugee camp of Jabalia, the body of Mustafa Masoud, 30, who was stabbed to death Tuesday night by masked men, was found Wednesday, Palestinian sources said. Graffiti in the camp accused Masoud of being a collaborator.

The army confirmed that Masoud had been killed and said police were investigating.

An estimated 205 Palestinians suspected of collaborating have been killed since the start of the 28-month-old uprising against Israeli occupation.

In Arab East Jerusalem, police used tear gas and rubber bullets to disperse stone-throwing students. Palestinian sources said the incident began when Arab youths stoned an Israeli bus and car and ran into the school yard of Rashadiya boys high school.

Police entered the school yard and the students began throwing stones, the sources said. Six students were held for questioning, police spokesman Uzi Sandori said.

As a result of the disturbance, Jerusalem police and municipal authorities decided to close the school indefinitely, Sandori said.

On the Temple Mount, where the Al Aksa mosque is located, Moslem threw stones at members of a fringe Jewish group that were escorted to the area by police. The group, the Temple Mount Faith, seek to rebuild the Jewish temple in the area, which is considered the third holiest site in Islam.

#90101u1035 04/11/1990 ~United Press International

BELFAST, NORTHERN IRELAND (APRIL 11) UPI - Irish Prime Minister Charles Haughey traveled to Northern Ireland Wednesday, sparking protests by Protestants that he was helping the Irish Republican Army, and he warned that a divided Ireland will not fare well within a united Europe.

Demonstrators waved British flags, hurled bottles and scuffled with police to oppose Haughey's one-day visit. Haughey was last in Northern Ireland, his birthplace, in 1968.

It was the first visit by an Irish premier since sectarian violence erupted in the territory more than 20 years ago, but Haughey's trip was intended to be non-political.

As president of the European Parliament, he accepted an invitation to talk about the implications of European integration in 1992 to the Institute of Directors, a group of leading Irish businessmen.

He was to depart later in the day for Dublin.

No discussions were scheduled with British officials of the Northern Ireland office and Haughey's arrival by helicopter received no official welcome.

Passions were running high because his visit coincided with the funeral of four soldiers of a British-trained regiment killed Monday by the IRA, which is fighting to end British rule in the north.

Protestant ire was also aroused by an Irish court Friday for the third time refusing to allow the extradition of an IRA suspect on grounds it would be political.

Haughey's bulletproof car was escorted by armed police to the central city Europa hotel, where at least two bottles were thrown from a jeering crowd of about 700 Protestants outside. Two activists were expelled from the hotel as Haughey entered to deliver his address.

Haughey issued a plea for Irish unity within the framework of the 15-nation European Community.

''It is time for north and south to work together for mutual economic and social benefits,'' he said. ''There are enormous economic and political changes in Europe. (Integration) presents Ireland with new challenges and if it does not meet them, it will suffer the consequences.''

But the lord mayor of Belfast, Reg Empey, challenged the Irish Republic's long-standing constitutional assertion that it has jurisdiction over the north.

''Some in our society, who were going about their evil deeds on Monday ... regard this particular claim as a license to kill,'' Empey said, referring to the IRA attack.

Reporters later asked Haughey to respond to Protestant concerns.

''There are misunderstandings,'' he said. ''What I want to do is talk to (the Protestants). I have invited them again and again to talk to me and explain these difficulties to see if we can clear them up.''

The agitation outside was watched by the Rev. Ian Paisley, a staunch protestant leader and a member of both the British and European parliaments.

He said Haughey is not welcome in Belfast because as prime minister of the Irish Republic he offered a safe haven for IRA gunmen and bombers. Although the Irish government condemned the IRA, it has ''repeatedly refused to extradite convicted IRA killers to Northern Ireland for trial '' he said.

''He is here today to trouble the people of Northern Ireland, to dance on the graves of those who gave their lives,'' the firebrand minister said. ''If those who were responsible for the murders were caught in the Irish Republic they would be let off.''

Police said four men were arrested in Monday's attack.

WASHINGTON (APRIL 11) UPI - Vice President Dan Quayle will lead the U.S. delegation to the inauguration of President-elect Violeta Chamarro in Nicaragua April 25, then will travel to Mexico to meet with Mexican President Carlos Salinas de Gortari.

Quayle will lead a delegation of about 20 U.S. officials to the inaugural in Managua, his office announced Wednesday, before proceeding that evening to Mexico City for talks the following day with Carlos Salinas and other officials.

Mexican officials said Quayle and Salinas will meet at the Los Pinos presidential residence April 26 to discuss U.S.-Mexican relations and other issues of mutual interest.

The vice president will be accompanied by Bernard Aronson, assistant secretary of state for inter-American affairs, and other State Department officials.

#90101u1083 04/11/1990 ~United Press International

VATICAN CITY (APRIL 11) UPI - Mother Teresa, the nun who won the Nobel Peace Prize in 1979 for her work with the poor and sick, has resigned as head of her Missionaries of Charity organization for health reasons, the

Vatican said Wednesday.

A brief announcement by the Vatican press office said only that Pope John Paul II had accepted the resignation of Mother Teresa, 79, as superior of the worldwide organization she founded in 1950.

A Vatican spokesman said leaders of the charitable order would meet Sept. 8 to appoint her replacement.

Mother Teresa spent months in a Calcutta hospital between September and December last year for treatment for ''unstable angina,'' a condition that causes contractions of arteries and a restricted blood flow.

She was discharged from the hospital Dec. 11, 10 days after doctors implanted a pacemaker next to her heart to help an erratic heart beat linked to her 6-year-old coronary condition.

In India, a staff member reached at Mother Teresa's Calcutta office at the Missionaries of Charity would not comment on the resignation and said Mother Teresa was ''busy with visitors'' and could not be contacted.

In another interview later, the aide said, ''Mother Teresa is in prayer and you can talk to her tomorrow morning.''

Mother Teresa was born Agness Gonxha Bojaxhiu of Albanian parents in what is now Yugoslavia on Aug. 27, 1910.

At the age of 18 she decided she wanted to serve God in the Indian missions and trained in Ireland with the Irish Loreto Sisters - which had missions in India - before arriving in Calcutta Jan. 6, 1929.

She served as a teaching sister until 1946, when she received permission to start her charity work among the destitute and dying in the Calcutta slums.

Mother Teresa founded the missionary religious order in Calcutta on Oct. 7 1950 and it spread steadily throughout the world, now claiming a membership of more than 1,100 sisters and more than 40,000 co-workers in India and elsewhere.

Personal austerity is the lifestyle of the order, whose members wear a simple white sari.

The Missionaries of Charity now runs more than 400 homes for the poor and destitute in 92 countries, with three centers in the Soviet Union. Mother Teresa traveled constantly to found new homes and seek the support of world statesmen for her work.

She also has opened centers for AIDS patients in Washington, D.C., and San Francisco.

In India, she is not regarded merely as a staunchly anti-abortion Catholic nun who went into the slums 35 years ago. Some Bengalis considered her an incarnation of Kali, the presiding Hindu diety of Calcutta for whom the port city was named.

Mother Teresa said upon receiving the 1979 Nobel Peace Prize, ''We depend on divine providence. We get everything as we need it, at the right time, with no difficulty. I believe this is part of God's maintenance of our work.''

DETROIT (APRIL 11) UPI - University of Michigan forward Sean Higgins announced Wednesday he will skip his final year of eligibility to make himself available for the NBA draft.

Higgins, a 6-foot-9 junior from Los Angeles, told a news conference at the Omni Hotel in Detroit that he has informed Michigan coach Steve Fisher about his decision and Fisher has been supportive.

''After three years on the University of Michigan campus, I ... believe that my personal and athletic skills have reached the point where I believe that I am ready to compete in the NBA,'' he said.

Higgins, 21, averaged a career-high 14 points a game this past season, but often chafed under a system that relied more on seniors Rumeal Robinson and Terry Mills.

He probably will be best remembered for his 31-point performance against Virginia in the 1989 Southeast Regional Final and his game-winning basket against Illinois in the NCAA semifinal.

-30- 1126

#90101u1106 04/11/1990 ~United Press International

ATHENS, GREECE (APRIL 11) UPI - Constantine Mitsotakis, three days after his New Democracy Party's election victory, was sworn in as Greece's prime minister Wednesday to head the nation's first conservative government since 1981.

President Christos Sartzetakis swore him in at a ceremony in the presidential palace. About 30 minutes later, the 39 members of Mitsotakis'a Cabinet were also sworn in.

''Our task is to restore the economy and restore the confidence of the citizens in the state. For this reason we will be a government of work and not of words,'' he told reporters after his first Cabinet meeting.

Mitsotakis's emergence as prime minister was expected to result in an immediate improvement of ties between Greece and the United States, strained under Prime Minister Andreas Papandreou's administration.

The prime minister said his government is making four-year projections on its program, implying that he would not hold fresh elections soon in a bid to improve his party's standing in Parliament.

''We are going to be a long-term government. The 47 percent of votes which we hold is the largest in Europe,'' the premier said, referring to the 46.9 percent of the popular vote New Democracy won in Sunday's elections.

The New Democracy Party won 150 seats in the 300-member Parliament, one seat short of a majority. Mitsotakis quickly found the seat he needed when the small conservative Democratic Renewal Party with a single elected member pledged to support him.

The swearing-in ceremonies gave Greece its first conservative Cabinet since 1981 when New Democracy was ousted from office by Papandreou's Pan-Hellenic Socialist Movement, or PASOK, which was re-elected in 1985.

Mitsotakis had said he would immediately renew a defense and economic cooperation agreement with the United States that include four major U.S. bases and 20 minor installations on Greek soil.

Two of the major bases are due to be dismantled this year under a U.S. decision to cut back on defense spending by closing several U.S. bases abroad, but the future of the remaining two depends of the signing of a new agreement with Greece.

Also expected to be taken up is the extradition of a Palestinian, Mohammed

Rashid, wanted in the United States for the bombing of a Pan American airliner over Hawaii in 1985.

Internally, Mitsotakis was expected to give immediate attention to saving the Greek economy from disaster, which he blamed on Socialist rule.

Greece was unable to pay salaries and pensions late last year because the government found the treasury empty and was forced to take a syndicated loan from foreign banks to do so.

The conservatives ousted Papandreou in June last year but fell five seats short of a majority in the single-chamber Vouli and formed an interim coalition government with the communist-led Alliance of the Left.

In fresh elections in November, New Democracy was three seats shy of a majority, with 148 seats in Parliament. It formed an all-party government with PASOK and the Alliance but maneuvered for fresh elections again Sunday, the third in 10 months.

#90101u1112 04/11/1990 ~United Press International
BY UNITED PRESS INTERNATIONAL

(APRIL 11) UPI - When 79-year-old Mother Teresa leaves the slums of Calcutta for one of her trips abroad to open new missions of charity, the city's poor and destitute anxiously await her return.

The Roman Catholic nun, who entered the slums some 35 years ago, is so revered and loved in India that some Bengalis consider her an incarnate of Kali, the presiding Hindu diety of Calcutta for whom the port city was named.

In recent years, Mother Teresa has been hospitalized for a long-standing cardiac problem and had a pacemaker installed in December 1989. But she has remained active despite her age and health. She met with PLO leader Yasser Arafat on March 28 and told him she was planning to visit Jerusalem and Bethlehem this year.

Mother Teresa, born Agness Gonxha Bojaxhiu of Albanian parents in what is now Yugoslavia on Aug. 27, 1910, decided in her teenage years to be a missionary and left for the Loweto Convent in Calcutta in 1929 to teach, entering the slums in 1946 to work among some of the world's poorest and most deprived people.

Her decades of effort are reflected in her face - strong, heavily wrinkled and compassionate. Her philosophy is that to love is to serve God and she often quotes her maxim; ''When we all come face to face with God, we are

going to be judged on how much we have loved.''

She lives an austere life among the people she serves, dressing usually in a simple white sari and veil.

The Nobel Prize-winning nun founded the Missionaries of Charity, a religious order that was recognized by the Vatican in 1950 and now has more than 1,100 sisters and more than 40,000 workers. The order has established 405 centers in 92 countries - from an AIDS hospice in San Francisco to shelters in the Soviet Union.

Her selflessness is legendary.

In 1971, when she was named the first winner of the $25,000 Pope John XXIII Peace Prize, she used the money to buy medical supplies. And when Pope Paul II gave her a limousine in 1964 she raffled it off to raise $13,000 for her mission.

Upon receiving the 1979 Nobel Peace Prize, Mother Teresa was awarded $191,000.

''I am unworthy of this honor, but I have accepted the prize as through it the world has acknowledged the need to work for the poor, the sick and the homeless,'' she said.

She said she would use the money to build homes for lepers.

To illustrate the necessity of her work with the poor she told of a leper she sheltered in her Calcutta home for destitutes.

''For so long I was living the life of an animal, now I am going to die like an angel,'' she quoted him as saying to her.

Mother Teresa has become an increasingly outspoken opponent of abortion, which she calls a selfish act, urging women to deal with unwanted pregnancies through adoption.

-30- 3033

#90101u1122 04/11/1990 ~United Press International

NORFOLK, VA (APRIL 11) UPI - A private investor battling insurance companies and treasure hunters for a share of a multi-million dollar sunken bounty obtained the rights to the gold by paying a group of monks $10, lawyers said Wednesday.

Harry John, an heir to the Miller beer fortune, provided enough money to establish the Capuchin monks several decades ago and later used some of those funds to search for a steamship, the Central America, that sank in

1857 with three tons of gold.

The legal battle pits the men who recovered the fortune against insurance companies that claim to have covered the losses and researchers who say they played a key role in finding the treasure off the South Carolina coast.

John deeded the rights to the treasure to the Capuchin order in 1984 and attorneys revealed John repurchased the rights to gold valued as high as $1 billion just a few weeks ago - without mentioning that gold had been recovered or that lawsuits over the ownership of the gold were in progress.

John's firm, Sante Fe Communications, paid Columbia University researchers $300,000 to search for the treaure and researchers from that school - also competing for a piece of the pie - say their sonar research found the shipwreck in 1984.

Robert Trafford, an attorney for the Columbus-America Discovery Group, which recovered the booty last summer, argued Wednesday the claims should be dismissed. He said after finding the ship, ''they never returned to the site. There was no reason they couldn't have returned.''

Trafford noted the site was open to treasure hunters for five years before it was placed under federal protection in 1989. Columbus-America used expensive underwater robots and submarines capable of going more than a mile below the surface to recover the gold.

John apparently used the religious order because of tax advantages. Testimony showed Wednesday he has run into conflict with the Internal Revenue Service in the past. He was thrown out of his own religious order in 1987 for fraud, according to court documents.

Brother Larry Ampe, a member of Osm Capuchin in Detroit, testified the monks did not believe rights to the treasure were of any value when John offered to buy them back for $10. Ampe said his religious order runs soup kitchens.

A ton of gold bars and coins were recovered last summer and Columbus-America officials believes another two tons is on the bottom. Further recovery attempts have been put on hold pending the outcome of the trial.

The insurance companies, including Lloyd's of London, have been hampered by a lack of records proving they paid the insurance claims in 1857.

The treasure was originally valued at $100 million to $400 million, but the recovery scientists used a new chemical technique to restore many gold coins to mint condition, which set the treasure value skyrocketing.

WASHINGTON (APRIL 11) UPI - About 28 percent of the U.S. population lacked health insurance for at least a month during the 28-month period ended in May 1987, the Census Bureau said Wednesday.

The bureau also said in a report looking at gaps in health coverage that the average monthly total of uninsured people in the final quarter of 1988 was 31.5 million, or 13 percent of the population.

The figures of the uninsured were sharply higher for blacks and Hispanics.

The new report, ''Health Insurance Coverage 1986-1988,'' comes at a time when the country seems prepared to embark on a new debate over health care coverage and costs.

Last month, in a major report, the bipartisan congressional Pepper Commission, called for a system of mandatory insurance coupled with an expanded program of government provided benefits. Groups as diverse as the American Medical Association and the AFL-CIO have also called for a drastic overhaul of the nation's health care system.

The report, based on the bureau's interviews for its Survey of Income and Program Participation, looked at both quarterly periods and a longer 28-month period. It included employer- or union-provided insurance, other privately purchased health insurance, Medicare, Medicaid and CHAMPUS, VA or military health care.

''In the fourth quarter of 1988, 13 percent of the population, or 31.5 million persons, were not covered by any type of health insurance,'' the report said.

During the 28-month period, the report said, some 7 percent of the population was covered for six months or less.

According to the report, 30 percent of men lacked continuous health insurance during the 28-month period compared with 27 percent of women. It attributed the difference to higher levels of Medicaid and Medicare coverage among women.

Other proportions included 52 percent of Hispanics lacking insurance for a least one month during the survey, 38 percent of blacks and 26 percent for whites.

In looking just at the last quarter of 1988, the report said 26 percent of Hispanics, 20 percent of blacks and 12 percent of whites were not covered.

Private health insurance covered 90 percent of whites and about 75 percent of blacks and Hispanics for at least one month during the 28-month period, the report said.

During the 28-month period, one-half of those people between 18 and 24 had no insurance for a month or more and 12 percent were covered for under seven months.

''Health coverage was continuous, however, for 72 percent of those aged 25 to 44, for 80 percent of those aged 45 to 64 and 99 percent of those aged 65 and over,'' it said. ''Twenty percent of children under age 6 were covered for at least a month under Medicaid.''

Regionally, residents of the South and West were more likely than those in the Northeast and Midwest to be uninsured for a month or more as were residents of central cities of metropolitan areas compared with those living in suburban areas.

The survey also found that 18 percent of those whose unemployment lasted a month or more lost their private health insurance while unemployed.

#90101u1145 04/11/1990 ~United Press International

CHARLOTTE, NC (APRIL 11) UPI - The only PTL official to have his name cleared in the sex and money scandal said Wednesday he celebrated dismissal of charges against him not with champagne and caviar but with ice cream and coffee.

''Champagne's not part of our lifestyle,'' said the Rev. Sam Johnson, 50, who walked out of court a free man Tuesday after U.S. District Judge Robert Potter dismissed perjury charges. ''We sat and drank coffee and ate ice cream.

''I'm still numb,'' said Johnson, a former Assemblies of God missionary who became religious leader of PTL after founder Jim Bakker resigned over a sex scandal. ''I don't think I realize what's happened.

''Now all I want to do is start to gather the feathers and put them back in the pillow case,'' he said, referring to negative publicity he and Heritage Church - the church Bakker once led - have suffered since he was indicted last December.

Johnson was on trial for 12 counts of lying to the grand jury that indicted Bakker. Prosecutors contended he lied repeatedly when he said he did not know where he got $10,000 he loaned PTL for a hush money payment to Jessica Hahn, whose fling with Bakker toppled his ministry.

The prosecution presented only four witnesses, including a grand juror who brought laughter to the crowded courtroom when he testified the PTL pastor appeared to be lying because he turned red and leaned forward in his chair when asked about the $10,000.

Two witnesses, former PTL leader Richard Dortch and former Bakker assistant David Taggart, contradicted each other in their testimony.

The fourth witness was Assistant U.S. Attorney Jerry Miller, who successfully prosecuted Bakker and struck a plea bargain with Dortch. Miller read from about 70 pages of grand jury testimony before the prosecution concluded its case against Johnson Tuesday afternoon.

With the jury out of the room, the defense filed a motion for dismissal of the charges, and Potter spent the afternoon agonizing over the decision before finally telling Miller he had not proven his case.

''I've been here nine years and I've never taken so long to make up mind about anything,'' said Potter, known as ''Maximum Bob'' for the lengthy terms he hands white collar criminals, including Bakker who got 45 years.

''There is evidence, but it's circumstantial,'' Potter said. ''I'm skeptical whether there's enough of it for this jury to determine whether he was telling the truth.''

Miller begged the judge to reconsider.

''Your honor, let the case go to the jury,'' the prosecutor urged. ''If they find him guilty you can always set the verdict aside, but then we would have the right to appeal.''

The judge would have none of that.

''Mr. Miller, you're putting an awful burden on the defendant. I'm going to grant the motion,'' said the judge, who then walked out of the courtroom, forgetting to summon the jurors and dismiss them.

Johnson became the only PTL figure to have his name cleared as the result of a trial.

Bakker is in a federal prison in Rochester, Minn.

JAKARTA, INDONESIA (APRIL 11) UPI - The United Nations High Commissioner for Refugees has issued an international appeal for funds following an

unexpected influx of Indochinese boat people to Indonesia, an official said Wednesday.

Thousands of Vietnamese and Cambodian refugees are sleeping under plastic tents or in churches, offices and schools on Indonesia's Galang Island, south of Singapore, straining the water supply, said UNHCR representative Pervis Mitha.

The U.N. camp on the island, expanded last year to accommodate 5,000 people, has attracted 11,000, despite rough seas, she said. Once the monsoons end this month, it is expected the camp could swell to 15,000, with 20,000 by the end of the year, she said.

''There is a desperate need to improve capacity and improve the water supply,'' Mitha said. ''The UNHCR is short of money and the demands are increasing.''

Many of the Vietnamese arriving in Indonesian waters said they were unaware of the repatriation program, enacted last year under a U.N.-sponsored international agreement, which was designed to stem the flow of boat people.

Under the plan, refugees face tough odds. All must be screened. Those found to be fleeing political persecution would be assigned to a new country. Others, thought to be economic refugees fleeing Indochina in search of better opportunities, would be sent home.

Diplomats said the current rate of screening, 100 people a month, cannot keep up with the influx of new arrivals.

The camp is receiving an increasing number of Cambodians fleeing their country's civil war, they said.

Many sailed to Galang Island after landing first in Malaysia, where officials handed them fresh food and water and pushed them back to sea, diplomats in Jakarta said. These boats arrive with Malaysian army rations on board, they said.

By 1990, 750,000 boatpeople, almost all of them Vietnamese, had arrived in Southeast Asian asylum countries acording to the UNHCR.

A large number almost certainly also perished at sea. The exodus slowed around 1982 as an Orderly Departure Program was set up to allow up to 25,000 Vietnamese leave legally each year. But in 1988 the boat exodus speeded up to more than 45,530 boat people and hit 73,000 in 1989.

Two thirds of the boatpeople were resettled in the United States with the rest accepted, in order, by Australia, Canada, France and other nations.

#90101u1174 04/11/1990 ~United Press International

NAIROBI, KENYA (APRIL 11) UPI - The secessionist Eritrean People's Liberation Front said Wednesday it has killed 6,800 Ethiopian government troops in two weeks of combat in its war for independence.

There was no government confirmation of the fighting and the rebels did not give their own casualties.

The rebel-run clandestine radio, monitored in Nairobi, said heavy fighting broke out March 28 when soldiers attacked rebel positions at Ginda, 450 miles north of the Ethiopian capital of Addis Ababa.

Ginda lies on the steep, twisting mountain road between Asmara, the Eritrean capital, and the Red Sea port of Massawa, captured in February by the Eritrean rebels.

The rebels said they wiped out 5,300 government soldiers in the first five days of fighting despite constant bombardment by government jet fighters. They killed another 1,500 troops in the past 24 hours, the radio said.

Government forces holding Asmara have been trying to regain control of the road to Massawa since the rebels broke a nine-month ceasefire in early February with a surprise attack on the port, 470 miles from Addis Ababa.

Ethiopian Air Force planes have bombed Massawa almost continuously since the government lost control of the area in mid-February, trying to drive the rebels out of the only large port in the whole of northern Ethiopia.

The rebel group has claimed since last week that the air force used lethal fragmentation cluster bombs against rebel positions and civilians alike, sparking speculation that Israel had supplied the government with the U.S.-made bombs.

Cluster bombs, developed by the United States for clearing jungles in Vietnam, were thought to have been available only to the Israeli and U.S. military.

The State Department said Tuesday it received Israeli assurances that no cluster-bombs were supplied to Ethiopia.

Israel denies supplying any military assistance to President Mengistu Haile Mariam, in the face of repeated accusations by neighboring Sudan that it was trying to destabilize the Horn of Africa.

#90101u1175 04/11/1990 ~United Press International
ELIZABETH, NJ (APRIL 11) UPI - Lawyers in the trial of John Emil List spent most of their closing arguments attacking each other's psychiatric witnesses and disputing List's state of mind at the time he killed five members of his family before disappearing for nearly 18 years.

List's lawyer said a prosecution psychiatrist who pronounced List sane was an ''armchair intellectual'' while assistant prosecutor Eleanor Clark said Dr. Steven Simring discovered more from List than the defense experts did, coming to the conclusion that he ''deliberately executed his family.''

List, 64, faces multiple life sentences if convicted on five counts of first-degree murder. Jurors, who began their deliberations shortly after noon, after receiving legal instructions from Judge William L'E. Wertheimer, could also conclude that the killings on Nov. 9, 1971, were done without premeditation, making them second-degree murder, or they could decide List is innocent because of mental defect.

Public defender Elijah Miller Jr., in his hourlong summation, described List's behavior as ''sick'' and said his client's state of mind was shown by the care he took after shooting his family to tidy the house, lay out the bodies of his wife and three children in the ballroom and leave notes for relatives and his boss and a five-page confession for his pastor.

''Details, details, details, details. Symptoms of obsessive-complusive behavior,'' Miller said. ''Just as my client couldn't see the forest for the trees, Dr. Simring couldn't see the forest for the trees.''

After the killings, List, an accountant, was ''happy because they're going to heaven and now he's obsessing with details,'' Miller said. ''It doesn't take a rocket scientist to feel that there's something very wrong there.''

But Clark, in an even briefer summation, described the devout Lutheran's confession as ''self-serving.'' She reminded the jury of testimony from List's sister-in-law who said she thought at the time that List left the notes so he would be thought insane if he was ever caught.

She also pointed to List's claim he shot his family from the back to spare them pain when autospy results showed most were shot from the front and that his son, John, was cut down with more than 10 bullets from two guns.

List, who fled to Denver after the killings and remarried, has been held without bail in the Union County Jail since his arrest last year in Richmond, Va.

Holding a photograph of List as he appeared before his disapperance, Clark called it ''the photograph of a healthy, handsome and well-educated man

who had three lovely children, a loving mother and a sick wife.''

''Helen List certainly had her share of problems,'' Clark said. ''Her first husband gives her syphillis. Her second kills her.''

Although spectators laughed, the 16 jurors remained poker-faced.

List, wearing a pin-striped suit, appeared relaxed before the closing arguments began, but as Clark attacked him, he sank further into his chair.

#90101u1192 04/11/1990 ~United Press International

SRINAGAR, INDIA (APRIL 11) UPI - Soldiers assisted by police and masked informers swept through homes in curfew-bound Srinagar Wednesday in a massive hunt for the Moslem separatist kidnappers who killed an Islamic scholar, his aide and a Hindu executive, police said.

A number of young men were rounded up, all roads leading out of the city were sealed and Jammu and Kashmir state Gov. Jagmohan vowed to press the searches until the killers were found, state-run radio reported.

A highly placed source quoted Jagmohan as telling a meeting of top security force officials: ''I will not lift curfew until I flush out all of the terrorists from the valley of Kashmir.''

The government of Prime Minister V.P. Singh called the slayings ''the grossest violations of human rights.''

The remark came as a storm of indignation swept India over the latest act of militants engineering a popular uprising against Indian rule of the predominantly Moslem Kashmir region that has claimed more than 180 lives since mid-January.

The hostages were kidnapped Friday by members of the student wing of the Jammu and Kashmir Liberation Front, the main force behind the uprising against Indian rule. They were killed after the government rejected demands for the release of three jailed militants, an end to house-to-house searches, and lifting of the curfew.

There was no official word on progress in tracing the killers of Kashmir University Vice Chancellor Mashir-ul-Haq; his private secretary, Abdul Ghani; and H.L. Khera, the Hindu general manager of a watch factory run by state-owned Hindustan Machine Tools Ltd.

Witnesses said thousands of troops fanned out across Srinagar, the capital of Jammu and Kashmir, in the hunt. The curfew, which has begun to create food shortages and other hardships for residents, continued for a sixth

day without a break in an apparent tactic aimed at forcing a betrayal of the fugitives.

The highly placed source said three senior police officers, including the recipient of a presidential honor medal, walked into police headquarters and asked to be relieved of duty because they were indignant that their homes were also searched.

Police said troops sealed Batmaloo, the militant stronghold close to where Khera's body was found Tuesday, and staged a second round of house-to-house searches in as many days.

The troops were assisted by local police officers and informers, who wore black cloths over their faces to conceal their identities, police said.

A Central Reserve Police Force patrol discovered the corpses of Haq, an Islamic scholar from Andhra Pradesh state, and Ghani, a Kashmiri moslem, at about 5 a.m. Wednesday on a street in Padshahi, a suburb of Srinagar, 400 miles north of New Delhi, police said.

The two had been shot, police said, adding that it was believed they died between 11:30 p.m. Tuesday and 12:30 a.m. Wednesday.

The bullet-riddled body of Khera, a native of the Punjab capital of Chandigarh, was found Tuesday on a central Srinagar road about an hour after the expiration of a 2 p.m. deadline set by the kidnappers for acceptance of their demands.

The Singh government, which in December traded five militants for the life of the kidnapped daughter of Federal Home Minister Mufti Mohammad Sayeed, refused to deal with the abductors.

That and the continuation of the curfew across the entire Kashmir Valley, the region's main population center, signaled a new, tough approach by Singh, who is under increasing political pressure to take a hard line on the Kashmir crisis.

The government ''will not compromise with the anti-national elements bent upon wrecking the unity and integrity of the country,'' Singh declared Wednesday to the National Integration Council, an advisory body of central and state officials.

The Foreign Ministry summoned a U.S. diplomat and lodged a formal complaint drawing Washington's attention to ''the provocative statements'' about the kidnappings made in New York this week by Amanullah Khan, a Pakistan-based leader of the Jammu and Kashmir Liberation Front, a spokesman said.

#90101u1204 04/11/1990 ~United Press International
NASHVILLE, TN (APRIL 11) UPI - A paralyzed 50-year-old woman died Wednesday just minutes after doctors unhooked her life support system - a move a judge ruled did not need court approval as long as it was requested by the patient.

After a bedside meeting with her sister and favorite nurse, Dr. James Sullivan unhooked the respirator that had kept Nancy Gamble alive for 14 months at Baptist Hospital, her attorney said.

Gamble, 50, who was paralyzed by the incurable Lou Gehrig's disease, died ''peacefully'' 15 minutes later Wednesday morning, attorney Mary Martin Schaffner said.

''It seemed the most appropriate time to decide to do it,'' Schaffner said.

Davidson County Chancellor Robert Brandt ruled Tuesday in the right-to-die suit Gamble filed after Baptist Hospital refused to let her physician remove her respirator.

The judge ruled Gamble's physician could remove her respirator and for the first time in Tennessee, he also decided that physicians may act without any court's permission to honor a disabled patient's wish to die.

Disabled rights activists protested Brandt's decision, calling it

''further movement down the slippery slope of euthanasia of individuals whom society may perceive as unwanted burdens.''

But Brandt said, ''This case does not involve suicide and it does not involve euthanasia. This case does not belong in court.''

The judge ruled physicians may unhook the respirators of disabled patients as long as the patients are mentally competent, fully informed of their condition and voluntarily deciding to die.

Brandt called it discriminatory to ''impose the cumbersome legal process'' on the disabled trying to decide their own medical treatment.

''This court finds they should have the same right to decide their future as those who are not totally disabled,'' the judge said.

A lawyer for ADAPT, or American Disabled for Attendant Programs Today, urged the court to assure Gamble is offered suicide prevention counseling.

ADAPT argued in court papers that Gamble could have lived independently with attendants to care for her at home, and she could have operated a computer with her mouth to communicate better.

''Terminal illness should not be used to justify a wholesale abandonment of society's policies designed to protect human life,'' the group said.

Schaffner said Brandt's ruling is the first in Tennessee to say disabled patients no longer must seek court permission to have respirators removed.

#90101u1212 04/11/1990 ~United Press International

HALLANDALE, FL (APRIL 11) UPI - Edward Lanfield looks forward to belting out Broadway hits on his front porch every day, but his vigorous serenades have hit a sour note with neighbors.

Police have been called to the Lanfield home at least six times in recent weeks to answer complaints that Lanfield is disturbing the peace. They have asked him to either sing more softly or not sing at all.

''He's driving his neighbors crazy,'' said police Maj. Joseph Moticker.

Landfield, 50, is blind, has a speech impediment and has difficulty walking. He said he has nothing else to do in the tiny wooden house he shares with his 82-year-old father and 81-year-old mother, who is bedridden with cancer.

''Singing is my life. It's the most important thing to me,'' said Lanfield who sings in a deep baritone.

Neighbors said Lanfield sings at all times of the day or night, keeping them awake and frightening their children.

''Oh God, he is such a nuisance,'' said Diana Myer, who lives a few doors down. ''He is so loud. We can hear him clear over here when we stand in the kitchen. My kids think it's pretty funny and they sing along with him, but I don't think it's funny at all.''

The Lanfields moved into the neighborhood just before Christmas. They have no television or radio, but their old record player is stacked with Irving Berlin, Cole Porter and Marvin Hamlisch song books.

Edward Landfield said he can no longer read the lyrics but remembers them

well. His repertoire ranges from ''Suwanee River'' to ''Yesterday.''

''I started singing when I was a kid at parties and amateur afternoon shows in New York,'' he said. ''People used to clap for me when I sang. They used to ask me for more.''

''But things are different here,'' said his father, Jack Lanfield. ''All my son wants to do is sit on the porch and sing a little song. Why can't these people who are harassing us understand this? Why can't they just leave us alone?''

Neighbors said they did not know that Edward Landfield is blind or about the family's difficulties.

Code enforcement officials have given Jack Lanfield a copy of a city noise ordinance that prohibits whistling, hooting, yelling and singing between 11 p.m. and 8 a.m. The law also bans such noise when it disturbs ''the quiet, comfort and repose of persons in the vicinity.''

Jack Lanfield regrets that his son's singing has sparked a neighborhood battle.

But, he said, ''No one is going to stop him.''

#90101u1213 04/11/1990 ~United Press International

HOUSTON (APRIL 11) UPI - The local NBC affiliate's coverage of returns in Texas' runoff election were somewhat curtailed by a higher power Tuesday night.

KPRC-TV was asked not to interrupt the final hour of the network's presentation of ''Jesus of Nazareth'' with election updates.

NBC planned no interruptions, including commercials or news cut-ins, during the crucifixion portion of the biblical epic and asked all of its stations to honor the request.

''Naturally, we agreed,'' said Jerry Moring, executive producer of news for KPRC.

The station aired cut-ins during the early part of the movie and explained it would not interrupt the broadcast between 9 and 10 p.m.

''I can't imagine anyone really being miffed,'' Moring said. ''Sometimes, even the news has to take a back seat.''

#90101u1214 04/11/1990 ~United Press International
MILTON, FL (APRIL 11) UPI - An irate mother who slapped a prosecutor in the face after her son was sentenced to three years in prison was spending some time behind bars herself Wednesday.

''She reared back and slapped the fire out of him,'' Corrections Officer Paul Campbell said about the Tuesday incident. ''I guess she was upset about her boy getting some prison time.''

Frances M. Phillips, 43, of the rural northwest Florida town of Jay, was sentenced to 90 days in the Santa Rosa County jail for direct criminal contempt of court after she smacked Assistant State Attorney Rick Hill.

The incident occurred just moments after Circuit Judge Nancy Gilliam sentenced Rodney Elliot on several charges, including battery and aggravated assault. Elliot, 24, had pleaded no contest.

Hill, one of two prosecutors in the case, said he was standing in the courtroom when Phillips walked up to him and said his name. When he turned around, the woman gave him a ''roundhouse slap.''

''She hit me as hard as she could. She put everything she had into it,'' he said.

Assistant State Attorney Kim Skievaski, the other prosecutor in the Elliot case, said he asked officers to take Phillips into custody. Direct criminal contempt can be punished summarily if committed in the presence of the court.

#90101u1222 04/11/1990 ~United Press International
WASHINGTON (APRIL 11) UPI - Scientists have recovered the world's oldest known sample of genetic material from the fossilized leaf of a tree that lived nearly 20 million years ago, it was reported Wednesday.

Until the latest achievement, the oldest piece of deoxyribonucleic acid or DNA - the genetic blueprint of all plants and animals - dated back just 13,000 years to a fossilized ground sloth.

And the oldest DNA that was in good enough shape for scientists to analyze was about 7,000 years old, coming from human brain tissue found preserved in a Florida bog.

''This research could open a whole new field. ... It will reveal new insights into the relationships between modern life forms and their ancient ancestors,'' said Michael Clegg of the University of

California-Riverside, who headed the landmark effort.

Clegg and his colleagues found the eons-old DNA in the leaf of a fossilized magnolia tree uncovered in an ancient lake bed in the St. Marie's river valley near Clarkia, Idaho.

Based on radioactive measurements of surrounding sediment, the tree was estimated to be between 17 million and 20 million years old, researchers said in a study published in Nature, a British scientific journal.

Although the magnolia leaf was crumbly when the clay rock encasing it was split open, the tissue was preserved well enough that researchers were able to find a snippet of DNA.

Using a sophisticated technique called polymerase chain reaction, scientists then produced many more copies of the fragile DNA strand, enabling them to detect a gene that codes for an enzyme vital to photosynthesis. They found only slight differences between the structure of the gene in modern magnolia trees and their ancient ancestor.

''It is a stunning finding. This is the oldest DNA fingerprint that has been obtained,'' said Mary Clutter, assistant director for biological sciences at the National Science Foundation, which helped pay for the research.

Karl Niklas, a plant biologist at Cornell University in Ithaca, N.Y., agreed that the work represents a remarkable achievement.

''Even the most optimistic estimates of the longevity of this molecule (DNA) would not have predicted that fragments of substantial length would survive after tens of millions of years,'' Niklas wrote in a commentary in Nature.

The work could lead to better ways to measure mutation rates between fossilized animal and plant species and their modern-day descendants - a research area that Niklas said is now characterized by ''too much speculation.''

However, Clegg and his colleagues cautioned that most fossils probably are not suitable for genetic study.

The Idaho leaf material ''was exceptionally well preserved'' by the low oxygen content and cold temperatures of the water in which it was deposited, researchers said. Leaves fossilized in such manner are often greenish in color when surrounding rock is chipped away, but rapidly fade and dry out when exposed to oxygen-rich air.

The University of Georgia's David Giannasi, co-author of the study, came

up with the idea of examining fossils for DNA after he observed another researcher at the Idaho site uncover a green-and-yellow prehistoric perch, which quickly turned black upon exposure to air. Primeval insects and flowers also have been found similarily preserved.

Other researchers involved in the study were from the University of Idaho in Moscow, Idaho, and DNAX Research Institute in Palo Alto, Calif.

IUKA, MS (APRIL 11) UPI - A $1.2 billion plant to build safer, more powerful solid-fuel boosters for the space shuttle program will create 1,500 permanent jobs and an annual payroll of $45 million, officials say.

Top NASA and state officials attended a ground-breaking ceremony Tuesday, hailing the new plant as a major step forward for both Mississippi and the

nation's space program.

''This region is on the threshold of new opportunities and things that can't even be imagined,'' said Lowell Zoller, manager of the advanced solid rocket motor project office at Marshall Space Flight Center in Huntsville, Ala.

The giant facility, located at the Tennessee Valley Authority's abandoned Yellow Creek nuclear plant site in Tishomingo County, is expected to be a boon to northern Mississippi, Tennessee and Alabama, generating 1,900 construction jobs in the first two years.

Once in operation, the booster project is expected to create 1,500 permanent jobs carrying about annual payroll of $45 million.

NASA is expected to sign a contract with Lockheed and Aerojet corporations to build the rocket motors. Charles Lavinsky, president of Aerojet, said the paper work should be completed by May 4.

Full-scale construction should begin at the plant sometime this summer and NASA expects the facility to be operational by 1992, he said.

''It's a wonderful start of the decade of the '90s,'' said Gov. Ray Mabus. ''We're starting a new day in Mississipi. There are many possibilities before us. Now we have to make sure the possibilities become realities.

''The location of this NASA facility here shows we can compete with anybody in the United States and with anybody in the world,'' the governor said.

NASA director Richard Truly, a Mississippi native, sent a letter praising the plant's location.

He said the motors to be tested and manufactured at the plant will produce a ''state-of-the-art technology that will be a model for the industry.''

The advanced solid rocket motor project was proposed after the Jan. 28, 1986, Challenger disaster that killed seven astronauts.

The shuttle's destruction was blamed on a faulty O-ring seal in the ship's right-side booster. The boosters, built by what is now Thiokol Corp. of Ogden, Utah, were redesigned in the wake of the disaster to make them less susceptible to failure.

At the same time, NASA began exploring alternative designs and the result was the ASRM program.

The new rocket motors, scheduled for first flight in 1994, will allow

space shuttles to carry an additional 12,000 pounds of cargo into low-Earth orbit.

In addition, the propoellant will be more powerful and the shuttle's three liquid-fueled main engines will not have to throttle down as they do now to minimize aerodynamic stress during the first minute of flight.

Instead, the liquid-fueled engines will be able to remain at full power throughout launch, eliminating some 175 possible failure modes.

The new boosters will be segmented like the current version but their O-ring joints will be redesigned to make them even safer than the ones resulting from the Challenger disaster.

#90101u1231 04/11/1990 ~United Press International

WASHINGTON (APRIL 11) UPI - Analysts said Wednesday the Soviet Union has backslid on some of the arms talks, making it certain no major treaty will be ready when President Bush and Soviet President Mikhail Gorbachev meet next month.

Experts at the Arms Control Association, a private organization, offered several reasons for the change in the Soviet position: the tension in the Baltic republic of Lithuania, increased resistance to big cuts in the Soviet military and Soviet worries over German reunification.

When Bush and Gorbachev meet May 30-June 3 they are expected to sign agreements to limit nuclear testing and to destroy some chemical weapons. But big agreements on strategic nuclear weapons and conventional forces eluded negotiators during pre-summit talks last week.

''There is no chance of a START agreement before the summit, and there is doubt that the United States and the Soviet Union could even agree on a general declaration,'' said ACA director Spurgeon Keeny.

Jack Mendelsohn, deputy director of the ACA said, ''It looks like they (the Soviets) backslid, or at least put things on hold.''

Mendelsohn in part blamed the situation in secession-bent Lithuania, which he said casts a shade over the Soviet Union that ''might be long enough to cast a shadow over U.S.-Soviet relations as well.''

Keeny agreed with Secretary of State James Baker's assessment last week that described the failure to agree on an arms reduction as ''disappointing.''

''I think it's fair to say the meeting was disappointing as far as

strategic arms reduction talks were concerned. There was little progress and retrogression on some points,'' Keeny said.

One of the points was an apparent agreement reached at a previous ministerial meeting in Moscow in February to deal with sea-launched cruise missiles. The agreement would have placed the complex issue of SLCMs in a separate side letter rather than in the main treaty.

The Soviets have reopened the issue, making it unlikely that both sides can handle the SLCMs by simply making political declarations to limit them without verification, Keeny said.

Air-launched cruise missiles, or ALCMs, were another problem arising in last week's talks, he said.

The United States, which had sought a longer range than the Soviets, dropped its offer from 1,500 kilometers to 800 kilometers, but the Soviets are not budging from their position, which is that the maximum permitted range of ALCMs should be 600 kilometers.

Paul Warnke, a former director of the U.S. Arms Control and Disarmament Agency, said another snag was over a proposal to limit mobile multiple-warhead strategic missiles.

He said the Soviets refused to discuss the issue unless the United States includes submarine-launched ballistic missiles with multiple warheads, something the United States has not been willing to do.

Former U.S. arms negotiator John Dean said there has been a slowdown in the talks on limiting conventional forces and weapons in Central Europe. He attributed part of the Soviet caution to worries about the military might of a united Germany.

Dean said it is now doubtful whether a conventional forces agreement can be assembled in time for an October meeting of the 35 nations that signed the Helsinki Final Agreement of 1975. The meeting was to have sealed an approval to cut NATO and Warsaw Pact conventional forces in Central Europe.

NEW DELHI, INDIA (APRIL 11) UPI - A powerful bomb exploded in a train crowded with rush-hour commuters in the coastal city of Bombay Wednesday, injuring 31 passengers and ripping a hole in the roof, the Press Trust of India reported.

No one immediately claimed responsiblity for the blast.

The news agency said witnesses saw passengers jump out of the train in panic after the defeaning explosion as the train ground to a halt before entering the Bombay station.

Two bombs also exploded in two police stations in New Delhi Tuesday, injuring 10 policemen and causing extensive damage.

India is being rocked by separatist violence in northern Punjab state and neighboring Moslem-dominated Jammu and Kashmir state, but acts of terrorism outside of those regions have been rare.

WASHINGTON (APRIL 11) UPI - The concentration of harmful ozone pollution in the lower atmosphere has more than doubled in the past 100 years, and it will likely rise at an even faster rate in the next 30 years, researchers said Wednesday.

Researchers from Britain's Harwell Laboratory said recent measurements of ground-level ozone indicates levels of the gas are, on the average, twice as high as recorded by French researchers in Paris in the late 1800s.

When it is in the upper atmosphere, ozone shields Earth from the sun's ultraviolet rays, which can cause skin cancer and other health problems. But when found near ground level, the highly corrosive form of oxygen can cause respiratory distress.

Ozone is not emitted directly into the air, but is formed through complex reactions with nitrogen oxide and other chemicals found in automobile and industrial emissions contaning nitrogen oxide.

Based on projected increases in nitrogen oxide emissions, researchers said their computer simulations show that between now and the year 2020 concentrations of ground-level or ''tropospheric'' ozone will rise ''at a rate faster than during the past 100 years.'' In fact, the study found the increase in tropospheric ozone during the next 30 years could equal that experienced over the entire past century.

''This has potential implications for a wide range of environmental issues both because of direct effects of elevated concentrations of ozone on man and ecosystems and because ozone is a ... gas which could contribute significantly to global warming,'' wrote Adrian Hough and Richard Derwent, whose findings were published in the journal Nature.

Hough and Derwent said their computer model also found that worldwide production of ground-level ozone has doubled between pre-industrial times and today.

The situation appears even worse in the northern two-thirds of the Northern Hemisphere, where the United States and many leading industrial nations are located. Production of ground-level ozone in that region is currently four times the pre-industrial level, the researchers' model showed.

The World Energy Conference has estimated that by 2020 nearly two-thirds of nitrogen oxide emissions may originate in developing countries. But the British team said such pollution will probably have less impact on the tropics because nitrogen oxide has a shorter life near the equator and ozone is more efficiently swept into the upper atmosphere.

Researchers emphasized that their projections could prove wrong because they hinge on the currently limited scientific understanding of how nitrogen oxide is distributed and broken down in the lower atmosphere.

#90101u1241 04/11/1990 ~United Press International

PARIS (APRIL 11) UPI - Liberian rebel guerrillas Wednesday released a British free-lance journalist who had been abducted five days earlier during the ambush of a train in the African nation, diplomats said.

The renegade irregulars handed over reporter Mark Huband, who writes for United Press International and the Financial Times of London, to Ivory Coast officials near the border town of Danane.

Huband was returning to Abidjan - where he is based - together with a British consular official Friday when abducted in northeastern Liberia, a spokesman for the British Embassy in Abidjan said.

Huband, 26, was described as being in good health and was reported to have been treated well during his captivity, which included a 60-mile march across rough country to the Ivory Coast, which neighbors Liberia.

Huband took a mining company train from the Liberian port city of Buchanan Friday while on assignment. The rebels ambushed the wagons near the town of Ganta, 150 miles northeast of the Liberian capital of Monrovia.

The ambush apparently was staged by followers of Charles Taylor, a former civil servant who has been waging a rebellion against the government of Liberian President Samuel Doe since December.

The rebels opened fire on the train when it slowed to avoid hitting railroad ties placed across the tracks. The train's driver and guard escaped and reached their destination, the Liberian Mining Corp. complex, at Yekepa.

The rebels seized Huband and two other passengers and vanished with them.

#90101u1246 04/11/1990 ~United Press International

NEW YORK (APRIL 11) UPI - Imagine a vehicle without a steering wheel, accelerator or brake pedals, operated only by the human voice. Or a vehicle controlled by volume - the louder its driver screams, the faster it goes.

Those are just two of the whimsical vehicles dreamed up and shown by Toyota Motor Sales U.S.A. and the Toyota Engineering Society Wednesday as they introduced six award-winning entries from the 14th annual Tokyo Idea Expo.

Toyota spokesman Tuki Hiroka said the show marked the first appearance of the Idea Expo vehicles outside Japan. They were built by employees of Toyota for the 14th annual Idea Expo, held last November at the carmaker's headquarters in Japan.

The Idea Expo is an annual competition for which Toyota engineers create the vehicles of their fancy in their spare time from ''junk'' parts.

The vehicles will be on display at the Greater New York Automoble Show, which runs April 14-22 at the Jacob K. Javits Convention Center.

Some of the mind-boggling vehicles took anywhere from two months to two years to develop.

The vehicles are judged on technical innovation, originality and creativity - not practicality, Hiroka said. They also give new meaning to the term ''funny car,'' used to describe those radical looking dragsters that can scorch away a quarter-mile in the blink of an eye.

S. Sasaki, president of Toyota Engineering Society and vice president of Toyota Motor Corp., said ''the objective of the Expo is to create inventions that do not have the practical goal of eventual production in mind.''

''Fun and originality are the aims, not practicality,'' he added.

Their names say it all - The Tetra, The Voice Command Vehicle, New Walker, Screamer, Daddy Long Legs, and ''Hey You Take the Wheel!''

The Tetra is a three-legged vehicle that looks like a UFO. Sitting in a cockpit atop Tetra's three legs, the driver can pilot the vehicle forward, backward, diagonally, left or right.

The secret to Tetra's nimbleness is that it uses spheres instead of tires so it can move in any direction.

Fifteen months in the making and the brainchild of chief engineer Hideo Inagaki, it meets its creators' objective ''to realize the dream of riding in a UFO-like vehicle,'' Sasaki said.

The biggest challenge encountered in building Tetra was attaching the ball bearings to the wheels, divising a free-directional mechanism without a steering wheel, and making the spherical wheels out of fiber-reinforced plastic.

The Screamer is powered by voice volume. The louder you scream, the faster you go. If you want to stop, you just shut up, Hiroka wispered.

The Screamer resembles a go-kart in that the driver sits with his or her legs extended. In place of a steering wheel and gas pedal is a joystick and microphone.

According to the vehicle's creator, Joji Ikushima, the objective was to build a car for people who like to sing, talk to themselves or scream at other motorists while driving.

Daddy Long Legs was designed to ''walk'' slowly because motorists move too fast, Ikushima said.

The vehicle literally walks on four legs, each one tipped with a versatile ball that replaces the wheel and tire. The balls can be locked and unlocked to move the vehicle.

The New Walker looks like something that escaped from science fiction. With two legs and eight wheels, ''the New Walker can travel where no vehicles dare trend,'' Ikushima said.

Except for the flying parts, the Voice Command Vehicle resembles a flying carpet. Dubbed Kinton by its creator for ''flying cloud'' in Chinese, the voice activated vehicle features a driver platform thast looks like an open-air bed 360-degree pivoting four-wheel steering.

Hey You Take The Wheel took four months to build. The steering wheel is not connected: after you park, you take it with you.

#90101u1247 04/11/1990 ~United Press International

BRUSSELS, BELGIUM (APRIL 11) UPI - A unified Germany could remain in both NATO and the Warsaw Pact under a new European security system outlined in

great detail Wednesday in an article by the Soviet foreign minister.

The proposal by Eduard Shevardnadze, which includes a War Risk Reduction Center in Berlin and perhaps a ''minor inter-bloc peace-keeping force,'' was seen by some NATO observers as the most intricate plan yet for a post-Cold War security system.

NATO, however, said it was ''not considering'' the possibility of the western part of a united Germany remaining for a transitional period in NATO, with the eastern part staying in the Warsaw Pact.

''The government in Bonn, the secretary general of NATO and the allies have already stated their view that a unified Germany should be in NATO,'' said a spokesman for the Atlantic Alliance.

In Washington, White House press secretary Marlin Fitzwater read a statement rejecting the proposal for a unified Germany participating in both NATO and the Warsaw Pact.

''The United States believes that a unified Germany should be a full member of NATO,'' the statement said. "The new Germany suggestion that a unified Germany should be a part of NATO and the Warsaw Pact, which we have seen only in press reports, is another formula for neutrality ... which is undesirable.

''Like the Republic of Germany representative, we believe full participation of Germnay in the alliance is the best guarantee for long term peace and security in Europe and for continued progress in arms control and East-West relations,'' it said.

The ''dual membership'' concept had been floated earlier in the week by another top Soviet official. Shevardnadze's proposal broke new ground, however, in specifically outlining the structure of a new pan-European security system to eventually replace the two outdated alliances.

Shevardnadze's plan, spelled out in an article in the magazine ''NATO's 16 Nations,'' calls for a new organization, the Greater Europe Council, with a permanent secretariat and professional staff.

Criticism of the existing Conference for Security and Cooperation in Europe, which ratified the Helsinki Accord in 1975, has centered on its lack of a permanent home, staff or regular meetings.

Shevardnadze's Greater Europe Council would be comprised of the 35 conference members, which are all from Europe except for Albania, plus the United States and Canada. It would hold summit meetings every two years, rotating among member countries, with a foreign ministers meeting once or twice a year.

He called for a ''war risk reduction and verification and monitoring center,'' adding ''the need for some minor inter-bloc peacekeeping force is not to be ruled out.''

The Berlin military missions of the Big Four allies of World War II (France, Britain, the United States and the Soviet Union) could be the home for the War Risk Reduction Center, he said.

The Soviet foreign minister devoted much of his article to the role of a unified Germany.

The United States and its NATO allies insist on a united Germany within NATO, while the Soviets seek a neutral and demilitarized Germany, so ''a search for a compromise will, probably, be needed here,'' he said.

Shevardnandze said a ''prominent West German politician'' has suggested ''dual membership'' for Germany in NATO and the Warsaw Pact. That politician reportedly is former Chancellor Helmut Schmidt.

''It should be recognized that the idea is out of the ordinary,'' Shevardnadze says. ''But must we cling to things we have grown accustomed to in such an unusual situation?

''It would be erroneous to begin building German unity by destroying the existing security systems without having replaced them with new ones,'' he says. ''Dual membership for Germany could provide a pragmatic way out of the difficulties.''

A NATO spokesman replied: ''The allies are not considering the possibility of a unified Germany being part of both NATO and the Warsaw Pact. Even several members of the Warsaw Pact have indicated their preference for a united Germany as a member of NATO.''

The article will appear in the May issue of ''NATO's 16 Nations,'' a magazine aimed at NATO officials but privately funded and published.

Editor Frederick Bonnart said he wrote Shevardnadze a letter requesting an article about developments in Soviet foreign policy, and said the essay's great detail surprised him: ''It's the first time I've seen the idea of using the CSCE process in such a clearly defined structured form.''

#90101u1257 04/11/1990 ~United Press International

YOUNTVILLE, CA (APRIL 11) UPI - Transsexual and ex-Las Vegas female impersonator Terri Pohrman lost her bid for mayor by an overwhelming margin but vowed to give voters another chance.

''I thought the people had more brains than they did,'' Pohrman, 37, wearing a tight, low-cut, red-sequined gown, said at a restaurant gathering with 50 disappointed supporters Tuesday night after her defeat.

Pohrman received 280 votes to Mayor Pro Tem Carlee Leftwich's 621. Former City Councilman Aaron Mosley was third with 187.

Leftwich, 60, said sexual orientation was not an issue in the election.

Pohrman, now a clothing and costume jewelry saleswoman, said she would run for the City Council in two years.

''I'll be around. I'm not going to die,'' she said.

Pohrman, who worked as a female impersonator in Las Vegas before undergoing a sex-change operation in the 1970s, said she tried to put some fun in her campaign for mayor. the California Veterans Home, where 811 of the city's 1,988 registered voters live. She also roller skated through town.

She shrugged off criticism for politicking heavily at the veterans' home, where she has given shows and visited regularly. ''I love those people,'' she said.

#90101u1291 04/11/1990 ~United Press International

WASHINGTON (APRIL 11) UPI - President Bush heard appeals for de facto recognition of Lithuanian independence Wednesday, but rejected calls for that or other action that would risk confrontation with Moscow over the breakaway Baltic republic.

In a first since Lithuania declared its independence from the Soviet Union

a month ago, Bush invited a group of Baltic-American leaders to vent their concerns and recommendations for U.S. policy at a White House meeting.

The symbolic show of support left the Baltic-Americans gratified that their advice - spurned earlier this year - had been sought, but produced no change in Bush's cautious handling of the Lithuania crisis.

Tony Mazieka of the Baltic-American Freedom League said Bush ''continues to be empathetic and sympathetic to our plight,'' but remains reluctant to antagonize Soviet President Mikhail Gorbachev with more forceful support for Lithuania.

While ''interested in their views,'' White House press secretary Marlin Fitzwater said Bush told the Baltic-American leaders that his current policy ''is the correct one and it does not involve recognition.''

''The United States must avoid taking actions that would inadvertently make Lithuania's task more difficult by inflaming the situation,'' Fitzwater said. ''The course of quiet diplomacy and public support is the approach most likely to lead to a peaceful outcome,'' he added.

One day after Bush and Canadian Prime Minister Brian Mulroney voiced confidence in Gorbachev, the session with the Baltic-Americans was intended to keep subtle pressure on Moscow for a peaceful resolution in Lithuania.

But as if to illustrate the diplomatic tightrope Bush has been walking since Lithuania's March 11 declaration of independence - supporting self-determination without provoking Gorbachev - it was given a low profile.

White House officials barred reporters from the actual meeting with Bush, but gave the participants - representatives of various Baltic-American groups - a forum afterward to state their case for a more aggressive U.S. policy.

Mazieka said the 13 participants, representing Americans of Lithuanian, Latvian and Estonian descent, urged interim steps, such as lower-level diplomatic contacts, short of formal recognition of an independent Lithuania to help marshal international support for secession.

The rebuff was if anything polite. Bush met with them for more than twice the 30 minutes originally allotted, listening sympathetically to what Fitzwater called ''a meaningful and passionate description'' of the plight of the Lithuanian people.

Asked afterward what difference she sensed in the White House approach to their concerns, Mari-Ann Rikken of the Joint Baltic-American National

Committee said: ''Qualitatively, there was not a lot. Quantitaively, there was a lot.''

It marked the first such meeting Bush has held since the Lithuanian Parliament moved to sever its ties to the Soviet Union, creating a deep political crisis for Gorbachev that has sent a chill into East-West relations.

The events in the Baltics and the challenges posed by upheaval in Europe were the subject of talks Tuesday in Toronto between Bush and Mulroney, who went out of their way to give Gorbachev latitude to resolve the conflict over Lithuania.

Both were outwardly confident that Gorbachev remains committed to peaceful change. Viewing his political survival as of strategic importance to the West, they seemed willing to grant him more time to work out his domestic problems.

''This man has, I think, in terms of past Soviet leaders, demonstrated an openness and a commitment to reform and openness inside that's remarkable '' Bush said. ''So give him credit and deal openly. But when you have difficulties like we have today, talk frankly with him about it.''

In one breath, Bush warned that further deterioration of the situation in Lithuania would make it ''extraordinarily difficult to move forward as rapidly as I'd like to see us move forward'' in arms control and other areas.

In the next, however, he made clear that a continuation of the crisis would not derail plans for his summit late next month with Gorbachev, insisting dialogue takes on a premium ''when you have difficulties brewing.''

#90101u1303 04/11/1990 ~United Press International

LONDON (APRIL 11) UPI - Stock prices closed mixed in listless trading Wednesday on the London International stock exchange as investors refrained from taking positions ahead of the Easter weekend.

The blue-chip Financial Times 100-stock index, which fell 10.2 points Tuesday, eased 2.0 points to 2,215.5. The narrower top 30 industrial average edged up 0.8 points to 1,733.3.

Volume amounted to around 311 million shares, compared with 367 million shares changing hands Tuesday.

Analysts noted there was a general lack of fresh market-affecting news,

although some stocks in the oil and exploration sectors were adversely affected by the continuing crude oil surplus.

#90101u1305 04/11/1990 ~United Press International

PRAGUE, CZECHOSLOVAKIA (APRIL 11) UPI - Hundreds of thousands of Czechoslovaks staged a 10-minute strike Wednesday to demand the Communist Party hand over property it gained unlawfully during four decades of monopoly rule.

At 10 minutes before noon, car horns began blaring and shopkeepers closed their doors to support the strike called by the opposition movement Civic Forum chapter located at the CKD Polovodice factory.

In Wenceslas Square, several thousand people jangled their keys in unison - a reminder of the November ''Velvet Revolution'' when hundreds of thousands gathered in the same square had produced the eerie sound to signify the communists' lock on power was over.

Some also carried banners Wednesday urging the Community Party to return Czechoslovak property and money.

Even the official news agency CTK joined in the work stoppage.

''We joined the 10-minute token strike ... to support (the) demand for the Czechoslovak Communist Party to hand over unlawfully gained property to the state,'' CTK said in a message to subscribers.

Members of the Civic Forum at the factory had demanded on March 1 that property controlled by the party nationwide - buildings, hunting lodges and other real estate - be turned over by March 31, and the party be restricted to keeping the amount of property held by other political parties.

''As the Communist Party did not hand over its property to the state by March 31, the strike took place,'' CTK said.

At a recent news conference, Communist Party representatives said its fixed assets, including real estate, cars, libraries and other facilities, totaled nearly $50 million.

As of April 11, CTK said, the party had handed over estates valued at $8 million, leaving more than $41 million still in party hands.

#90101u1311 04/11/1990 ~United Press International

WASHINGTON (APRIL 11) UPI - Sen. Sam Nunn, D-Ga., has dropped his membership in a male-only country club that has long been controversial for its exclusionary policies, an aide to the senator confirmed Wednesday.

Spokesman Scott Williams said Nunn had quit the Burning Tree Club in suburban Maryland and issued a one-sentence statement from the senator: ''I have dropped out for personal reasons.''

Williams said Nunn issued the statement in response to questions his office had received since a weekend report in a New York paper suggested the Georgian was considering dropping the membership.

Nunn, chairman of the Senate Armed Services Committee, has been a member of the country club for ''a number of years,'' according to Williams. Williams said he did not know if Nunn's action was related to the club's membership policy.

The Burning Tree Club, which has also barred Jews and blacks over the years, has been the subject of controversy for many years over its exclusionary membership policies.

Officials of the club were unavailable for comment.

#90101u1313 04/11/1990 ~United Press International

WASHINGTON (APRIL 11) UPI - The State Department flatly ruled out Wednesday a proposal by Soviet Foreign Minister Eduard Shevardnadze that a united Germany become a member of both the Warsaw Pact and NATO.

State Department spokeswoman Margaret Tutwiler said the proposal ''is in our minds another form of neutrality which the Germans themselves, their neighbors and the Soviet Union regard as undesirable.''

The idea was floated this week by Soviet officials, including Shevardnadze in a magazine published in Brussels, ''NATO's 16 Nations.''

Shevardnadze said in the article, ''It should be recognized that the idea is out of the ordinary, but must we cling to things we have grown accustomed to in such an unusual situation?

''It would be erroneous to begin building German unity by destroying the existing security systems without having replaced them with new ones. Dual membership for Germany could provide a pragmatic way out of the difficulties.''

In another variation of the idea floated in Moscow, Valentin Falin, chief of the International Department of the Soviet Communist Party Central

Committee, suggested that the dual membership of Germany in both military alliances would cover a transition period of five to seven years.

The United States has taken a strong stand in favor of Germany's continued full membership in NATO after unification.

Tutwiler said, ''Like the government of the federal republic, we believe preservation of NATO's multinational defense structures and the full participation of Germany within the alliance is the best guarantee for long-term peace and stability in Europe.''

She added that Germany's neighbors, including some members of the Warsaw Pact, share that view.

Tutwiler said the idea would come up in the meeting of the two-plus-four group that will discuss the future of Germany. In that meeting, the two Germanys, plus the United States, France, Britain and the Soviet Union will discuss the future role of a united Germany in Europe.

#90101u1348 04/11/1990 ~United Press International

ANN ARBOR, MI (APRIL 11) UPI - Most Americans and West Germans favor German reunification and most Americans believe a united Germany would not threaten European peace, according to international surveys released Wednesday.

The surveys were carried out simultaneously in both countries in early March by the University of Michigan's Institute for Social Research and a West German research institute.

Results of the study were released in Washington, D.C., by the study's sponsor, the Friedrich Naumann Foundation, a non-profit organization affiliated with the West German Free Democratic Party.

Researchers found that 66.3 percent of Americans and 78.4 percent of West Germans favor reunification. Of the 22.4 percent in the United States who opposed reunification and the 7.1 percent who had no opinion, a full 70.5 percent would support reunification if the people of East and West Germany vote in free elections in favor of it.

Although 61.3 percent of the U.S. respondents did not believe a reunified Germany poses a threat to peace in Europe, one-third of the U.S. respondents expressed concern, researchers said. Of the 34.1 percent who expressed concern, 26.8 percent feared a revival of facism, 26 percent said the German economy might become too strong and 18 percent said a reunited Germany might try to expand its territory.

Among other survey findings:

-More than 43 percent of U.S. respondents said they would like to see the number of U.S. troops in Germany reduced, nearly 12 percent said all American troops should be pulled out of West Germany and nearly 42 percent said there should be no change. But 56.5 percent of the West Germans surveyed favored a complete troop withdrawal, while 38.6 percent said they would not welcome it and 4.9 percent didn't know.

-52.7 percent of Americans believe relations between the two countries are ''generally good'' and 41.5 percent believe relations are ''partially good and partially bad.'' In the West German survey, 82 percent said relations were ''more good than bad'' and 13 percent viewed them as ''generally good.''

-43.3 percent of the West Germans believed a unified Germany should remain in NATO and 49.6 percent said it should become neutral, while 7.1 percent had no opinion. This question was not included in the U.S. survey.

-82.5 percent of the U.S. respondents said Japan poses a threat to the U.S. economy, while 56.6 percent of West Germans said Japan threatens the West German economy.

-West Germans rate Soviet President Mikhail Gorbachev more favorably than President Bush, and both are rated higher than French President Francois Mitterrand. British Prime Minister Margaret Thatcher was the least popular of the four leaders among West Germans.

The telephone surveys of 1,117 Americans and 1,007 West Germans were conducted in March by Holli Semetko, faculty associate at the U-M Institute for Social Research, and Wolfgang G. Gibowski, director of the Institute for Applied Social Research in Mannheim, West Germany.

(APRIL 11) UPI - TODAY'S PEOPLE

ANNIE CANNED FOR BEING TOO OLD: Danielle Findley, 12, found out just how fickle show business can be. The Kansas City, Kan., schoolgirl won a nationwide search to star in the musical ''Annie 2,'' went through rehearsals and suffered through the rewrites and bad reviews the play received during its run in Washington, D.C. The show was such a bomb the producers decided not to take it to Broadway. The creators have now decided to revive ''Annie 2'' but Danielle was told that she won't be a part of it. Director-lyricist Martin Charnin had the job of giving Danielle the news. ''She just grew up too fast,'' he told the New York Daily News. ''I was having a problem. By the time we get to Broadway,

it'll be Christmas and she'll be too old.'' The new Annie is Lauren Gaffney, 10, of Summit, N.J., who is now appearing with Debby Boone in ''The Sound of Music.''

RONSTADT FOR CHARITY: Linda Ronstadt will perform at a fund-raiser for the T.J. Martell Foundation, one of the record industry's biggest charities. Elektra Entertainment Chairman Bob Krasnow will be honored as the group's humanitarian at the June 8 gala in New York and other big names may be joining Ronstadt onstage. The foundation is named for CBS Records executive Tony Martell's son, who died of leukemia, and raises money to fight cancer and AIDS.

STAGE NEWS: Cloris Leachman is taking her show, ''Grandma Moses - An American Primitive,'' to Broadway. The Academy and Emmy Award-winning actress, who toured the country with the show about the American artist, is rehearsing now in St. Paul, Minn. The show then will embark on a 20-week, 10-city tour on Apr. 25 and open in New York in late September or early October. The only other actor in the play is Peter Thoemke, who plays several roles, including Grandma Moses' husband and her art dealer-biographer ... New Dramatists, the New York group that helps boost playwrights, will honor Oscar winner Jessica Tandy and her husband, Hume Cronyn, May 8 at its 41st annual fund-raising luncheon. ''The work done by New Dramatists is invaluable to the future of the American theater,'' Tandy said. ''We need to nurture writers and this wonderful organization is doing a great job.''

GLIMPSES: Carl Perkins earned his Ph.D. in rock 'n' roll long ago and now he'll get an honorary doctor of humanities from Lambuth College in Jackson Tenn., on Apr. 29. When Lambuth President Thomas Boyd called to talk to Perkins about the degree, Perkins asked him, ''Can you graduate from college with only eight years in school?'' Thomas assured him that he could, in this case ... There's another Kennedy wedding coming up in the fall. Kara Kennedy, 30, daughter of Sen. Edward M. Kennedy, D-Mass., and a producer on ''Evening Magazine'' at WBZ-TV in Boston, will marry Michael Allen, a Washington, D.C., architect. The date and site of the wedding were not announced. Kara's cousin, Kerry Kennedy, 30, daughter of the late Robert Kennedy, recently announced her engagement to Andrew Cuomo, the son of New York Gov. Mario Cuomo.

WASHINGTON (APRIL 11) UPI - The State Department praised El Salvador's President Alfredo Cristiani Wednesday for lifting the country's state of siege.

Cristiani announced the end of the emergency regulations that suspended some civil liberties. The state of siege had been invoked last November

when anti-government FMLN rebels launched a series of urban attacks against government and civilian targets.

State Department spokeswoman Margaret Tutwiler said, ''This is a positive step forward in the process of national reconciliation and political negotiations between the government and the FMLN begun in Geneva under the auspices of the United Nations, April 4. We believe that the solution to the conflict in El Salvador must include the assurance of political and civil liberties under the democratic process for all Salvadorans regardless of political views.''

She added, ''We are encouraged that the conditions inside the country have permitted the government, with the support of the armed forces, to lift the state of siege. We hope all sides in the conflict will definitely reject violence as the solution of the nation's problems.''

She said a fundamental test of the left-wing rebel FMLN's goodwill will be their willingness to live up to their own pledge to suspent armed attacks on civilian targets.

#90101u1383 04/11/1990 ~United Press International

JERUSALEM (APRIL 11) UPI - Two ultra-Orthodox members of Parliament, both followers of a New York-based rabbi opposed to territorial compromise, refused Wednesday to support a Labor Party-led coalition, frustrating Shimon Peres's plans to form the next Israeli government.

Lacking a majority in the 120-member Parliament, the Knesset, Peres decided not to present his government to a special legislative session and instead moved to renew the political bargaining that has preoccupied the nation since the mid-March collapse of the Likud-Labor coalition.

Claiming he was still optimistic, Peres met later with President Chaim Herzog, who gave the Labor leader 15 more days to form a new government. Peres's initial, 21-day mandate ended Tuesday.

''I think that I still have a chance,'' Peres said. ''Democracy is not an easy road, is not a simple road. Many obstacles on the way have to be overcome.''

Members of the right-wing Likud Party immediately criticized the president's move and urged him to reconsider. Transitional Prime Minister Yitzhak Shamir, Likud Party chairman, had no public reaction.

Shortly before the Knesset was to meet Wednesday for a special session during the Passover holiday, Peres' painstakingly constructed coalition began to unravel. Two members of the ultra-Orthodox Agudat Israel Party -

both followers of the New York-based Hasidic Lubavitcher rabbi, Menachem Schneerson - refused at the last moment to honor a signed agreement to support Labor.

Even though Schneerson had instructed all Agudat members to obey the party's spiritual leaders on the Council of Torah Sages and support Peres, Rabbi Avraham Verdiger and Eliahu Mizrahi refused - apparently influenced by the charismatic rabbi's steadfast opposition to any territorial compromise, according to the Jerusalem Post.

''I cannot support a government that is based on a majority of leftist factions that support negotiations in favor of returning territories,'' said Mizrahi, who added that the decision was his own.

Verdiger resigned Wednesday from the Knesset rather than vote for Labor's coalition which included three small Arab parties with five seats.

Despite the two members' rebellion, Agudat leader Rabbi Menachem Porush promised the party's five Knesset members would support Labor as directed by their Torah Sages.

''It has never happened that someone who represents Agudat Israel has voted differently than the Torah Council decided,'' Porush told the Knesset. ''Let no one fool himself that Agudat Israel will give up its full support to a government headed by Mr. Peres that will be set up.''

Verdiger was expected to be replaced by someone who would vote for Labor. But it was not certain that the Torah Council could persuade Mizrahi to change his mind because he is a follower of Schneerson.

Peres had counted on the support of Agudat Israel, his own party, the left-wing and Arab parties, and one breakaway Likud member for a slim majority of 61 votes.

Shamir's government fell in a vote of no-confidence March 15, two days after the uneasy 15-month-old Likud-Labor ''national unity'' coalition collapsed. Shamir has remained caretaker prime minister of a transition government.

Following the no-confidence vote, Herzog asked Peres to try to form the next coalition, and the Labor leader announced on April 4 he was prepared to present a new government.

The coalition negotiations, which have included requests for multimillion-dollar bank guarantees, have sparked a mass grass-roots movement for a change in Israel's electoral system.

In his announcement giving Peres 15 more days to form a coalition, Herzog

indicated that reform must be undertaken.

''The events we are witnessing these days arouse difficult questions regarding our electoral system and political culture,'' he said.

WASHINGTON (APRIL 11) UPI - The State Department Wednesday warned Americans travelling to the Philippines that there is a heightened danger of terrorist attacks this week.

''Based on available information, the terrorist threat against U.S. personnel and facilities in the Philippines from the Communist Party and the Philippines New People's Army remains serious,'' said spokeswoman Margaret Tutwiler.

''The United States government also notes that there is a heightened threat of attack during Holy Week, especially at sites of major public religious ceremonies, especially those near U.S. military facilities.''

She said the U.S. government is not telling Americans not to travel to the Philippines, but the intention is ''to advise them in our statement of those specific areas and to make them aware of this specific threat.''

She added, ''While official U.S. personnel remain the preferred target, it should be noted that non-official Americans in such areas could be at risk should a terrorist attack take place.''

(APRIL 11) UPI - The Vatican says Mother Teresa is stepping down as head of her Sisters of Charity missionary organization. An announcement from the Vatican today says the 79-year-old nun gave her health as the reason for her resignation. Mother Teresa had a heart pacemaker implanted last year. The Vatican says Pope John Paul has accepted her resignation. A staff member at the Missionaries of Charity office in Calcutta says the Nobel Peace Prize laureate is busy with visitors today and had NOT said anything about resigning.

President Bush will hear directly from the Baltic-American community today for the first time since Lithuania declared independence exactly one month ago. Representatives of the Latvian and Estonian communities in the United States will join Lithuanian-Americans in meeting with Bush at the White House. They will discuss the Soviet brinksmanship directed at keeping the three rebellious republics in the fold.

First lady Barbara Bush will be the White House representative today at the funeral of AIDS victim Ryan White. Elton John plans to sing his own ''Skyline Pigeon'' and lead the congregation in the Lord's Prayer. One of the largest churches in the Indianapolis area, Second Presbyterian, will be used for the service. The 18-year-old died Sunday.

Former P-T-L minister Samuel Johnson cried as he thanked his trial judge and God yesterday. The judge dropped perjury charges against the minister, saying the evidence was too circumstantial to continue the trial. Johnson is the first P-T-L official to be freed in cases related to misuse of church money. He even thanked the reporters in Charlotte, North Carolina.

#90101u1401 04/11/1990 ~United Press International

WASHINGTON (APRIL 11) UPI - Government estimates of losses incurred at the failed Lincoln Savings and Loan Association were challenged Wednesday as inflated an arbitrary by attorneys for Charles Keating, the thrift's former chairman.

Keating, in his bid to regain Lincoln from federal regulators who seized it last April, also said the government wrote down the value of Lincoln assets to make the thrift's loss appear larger.

Federal regulators, who seized the Irvine, Calif., thrift last April, have said protecting Lincoln's depositors from losses could cost taxpayers as much as $2.5 billion.

''I have been hearing this number in the media throughout the world since the takeover,'' Keating told U.S. District Court Judge Stanley Sporkin, who is presiding over a pre-tiral hearing on a government motion seeking to dismiss a lawsuit Keating filed last May seeking to regain control of Lincoln.

John Lundin, a Keating attorney, said the government's estimate of Lincoln's loan losses was ''done arbitrarily'' and arrived at shortly after regulators took control of the thrift after it was determined to be operating in an ''unsafe and unsound'' manner.

Keating said federal regulators, after taking over Lincoln, determined that all of the thrift's $1.4 billion mortgage-backed loan portfolio was in default. Regulators tallied a loss of $703.3 million from these loans.

Lincoln's books, Keating said, showed only about 3 percent of the loans had defaulted and would not be repaid.

Regulators also said the thrift's $71.1 million portfolio of commercial loans, backed by collateral other than mortgages, had soured and

represented an estimated loss of about $31.5 million. Keating said less than 3 percent of these loans were in default.

Also cited was a 50 percent writedown on an $11 million office building Lincoln purchased in the ''high-rent district'' of Phoenix.

''These numbers are absurd,'' Keating said.

When asked by Sporkin how much the building should be sold for, Keating replied, ''I'm saying it isn't $6 million or $5 million. It may be a little less than when we bought it'' because of the depressed Arizona real estate market.

''The testimony here is, this is a pretty shoddy piece of work,'' Sporkin said.

James Murphy, an attorney representing the Office of Thrift Supervision, said he plans to present witnesses to support the figures.

''This is not be any stretch of the imagination the last word,'' he told Sporkin after the government's loss estimate for Lincoln was questioned.

In another challenge of the government's takeover, Keating's attorneys produced a memo from Mark Randall, the federal managing agent at Lincoln, to his superiors questioning the competency of Roger Clark, hired by regulators to serve as the thrift's chief executive officer.

The memo, dated July 19, 1989, cites Clark's ''inaction'' and ''questionable judgment'' while operating the thrift under receivership. Clark now serves as Lincoln's chief financial officer.

(APRIL 11) UPI - The Veterans Affairs Department says the crew of the U-S-S Pueblo will finally be honored as prisoners of war. The spy ship crew had been ineligible for P-O-W medals despite their 11-month captivity in North Korea during the Vietnam War. A congressional amendment signed by President Bush makes the honors possible. Pueblo crewmen will be invited to San Diego May 5th to participate in a full-dress ceremony.

Lawrence Singleton- who'd been convicted in California of raping a 15-year-old hitchhiker and hacking off her arms- has been arrested in Florida. Deputies charged Singleton with trying to steal a 10-dollar camera from a drug store from Brandon. Singleton served eight years for the California attack. His release from prison in 1987 sparked a storm of protest.

A doctor in Thailand says a hand grenade thrown into a crowd at an outdoor fair killed 18 people, including four children. More than 40 people were wounded. The doctor says the grenade was thrown last night into a crowd of hundreds of villagers who were watching an open-air movie at the fair. NO one has been arrested, but some army troops had quarreled with villagers earlier.

A federal appeals court ruled the Constitution's free speech guarantees exempt street vendors peddling merchandise with political or religious messages. As a result, San Francisco can NO longer require the peddlers to get commercial sales permits. A city attorney complained that much of the merchandise sold by the nonprofit groups has only a small, camouflaged or removable ideological message.

#90101u1415 04/11/1990 ~United Press International

WASHINGTON (APRIL 11) UPI - Following criticism that hundreds of people might have been needlessly crippled, the government said Wednesday it will inform about 19,000 emergency room doctors about the first effective treatment for spinal cord injury.

Jim Brown, a spokesman for the Public Health Service, said the agency has received ''feedback'' from some doctors that ''not enough has been done'' to inform them about a new treatment for spinal cord injury since it was announced March 30.

In response to those concerns, Brown said the government has decided to send letters giving details of the treatment strategy to about 13,000 emergency room and trauma center doctors and 6,000 hospital administrators. The mailing should take place within ''the next couple days,'' he said.

On March 30, the National Institues of Health held a news conference in Bethesda, Md., to announce discovery of the first effective treatment for devastating spianl cord injuries that disable about 10,000 Americans annually.

A nationwide study found people given a steroid drug called methylprednisolone within eight hours of spinal cord injury had significantly better motor and sensory skills than untreated patients six months after their accidents.

The study will be published in May in The New England Journal of Medicine. But because the findings were so striking, NIH took the unusual step of holding a news conference to alert doctors to the results.

Methylprednisolone is a drug commonly found in emergency rooms. But

researchers emphasized its use for spinal cord patients differs from past uses.

Public Citizen Health Research Group said the treatment information provided to doctors by NIH has been insufficient, and could have led to needlessly severe disability for up to 300 spinal cord injury victims to date.

On Monday, Public Citizen called on Health and Human Services Secretary Louis Sullivan to send letters to all emergency rooms giving them more details on the new treatment. ''Any further delay ... is recklessly irresponsible and will only add to the suffering and misery of these spinal cord victims,'' the consumer group said.

NIH had set up a 24-hour telephone number doctors could call for two days after the March 30 announcement, but such information is now only available during working hours on weekdays.

The study, directed by Michael Bracken of Yale University medical school in New Haven., Conn., showed that in the best cases, the drug produced enough improvement that a person with mild spinal cord injury might avoide being confined to a wheel chair.

Bracken will write the four-page treatment summary being sent to doctors, Brown said.

Doctors can call NIH at 301-496-5751 between 8 a.m. and 5 p.m. EDT on weekdays for further information.

WASHINGTON (APRIL 11) UPI - President Bush, described as in excellent health, will undergo a routine annual physical examination Thursday at Bethesda Naval Hospital, the White House announced Wednesday.

Press secretary Marlin Fitzwater, disclosing the yearly exam, said it would be conducted by staff at the naval hospital under the direction of the White House physician, Dr. Burton Lee.

The tests were expected to last from approximately 7:30 a.m. to 1 p.m., Fitzwater said.

According to the spokesman, ''Dr. Lee describes the current state of the president's health as excellent.''

After his last physicial on May 10, 1989, Bush also was prounounced in excellent health after a three-hour exam in which all tests proved normal.

Bush, who jogs regularly and plays tennis, continues to suffer from a mild case of arthritis in his hips, a slight hearing loss sustained during his flight days in World War II, and allergies related to bee stings and seasonal changes.

#90101u1432 04/11/1990 ~United Press International

GUATEMALA CITY (APRIL 11) UPI - Leftist rebels declared a four-day unilateral cease-fire Wednesday in observance of Holy Week and Easter and urged government soldiers to follow suit.

''The General Command of the Guatemalan National Revolutionary Union, as a gesture of respect for our people's religious feelings ... has decided to declare a unilateral truce in its offensive military operations,'' a full page declaration printed in the local daily Prensa Libre said.

The announcement, signed by rebel leaders Rolando Moran, Gaspar Ilom, Pablo Monsanto and Carlos Gonzalez, said the cease-fire would last from midnight Wednesday until midnight Easter Sunday.

''We are aware that there are officials and soldiers in army ranks that look favorably upon a truce of this type, and we propose they observe this truce ... despite orders given from the High Command,'' said the announcement, dated April 7, 1990, and published Wednesday.

The rebel declaration said that during the cease-fire their forces would fire only in self defense. After midnight Sunday, however, the guerrillas fighters ''will continue their operations,'' the announcement said.

On March 30, the four-member rebel coalition, known by its Spanish initials as URNG, signed an accord with a negotiating team in Oslo, Norway laying down the groundwork for peace talks with Guatemalan social, religious, business and political organizations as well as the government.

Under the accord, a rebel delegation met with representatives from the country's political parties during the last two weeks of May.

Fighting between the rebels and the Guatemalan army has terrorized the countryside for more than 30 years. More than 80,000 people, mostly peasant farmers, have disappeared and are believed dead.

Defense Minister Hector Alejandro Gramajo Morales recently said that rebel forces number about 1,000 combatants but rebel leaders insist their forces are far greater.

#90101u1457 04/11/1990 ~United Press International
HOUSTON (APRIL 11) UPI - American NuKEM Corp., a privately held company specializing in incineration and waste treatment, will make a $79.2 million takeover bid for ENSR Corp., an environmental consulting firm, the companies said Wednesday.

Under a definitive merger agreement reached by the companies, NuKEM Acquisition Corp., a wholly owned subsidiary of American NuKEM, will offer $8.25 a share cash for ENSR's 9.6 million outstanding shares.

The tender offer, to begin within five business days, is not subject to receipt of financing, but is subject to NuKEM acquiring at least 66.67 percent of the outstanding shares and to other conditions, the companies said.

Upon completion of the tender offer, NuKEM Acquisition will be merged with ENSR.

At a special meeting Tuesday, ENSR's board unanimously approved the offer and merger, saying both were ''fair to, and in the best interests of, ENSR's shareholders,'' the company said.

The board recommended ENSR's shareholders accept the offer and tender their shares.

ENSR provides environmental services, specializing in consulting and hazardous waste remediation. The company reported 1989 revenues of $158 million. From its Houston headquarters, ENSR operates 24 offices in the United States and four additional offices in Canada and the United Kingdom.

American NuKEM, headquartered in Mahwah, N.J., is a privately held environmental services firm specializing in incineration and waste treatment. The company - which operates primarily in New Jersey, South Carolina, Michigan and California - had 1989 revenues of $49.6 million.

The firm is a wholly owned subsidiary of NuKEM GmbH, a West German holding company whose majority shareholder is that nation's largest utility.

#90101u1459 04/11/1990 ~United Press International
WASHINGTON (APRIL 11) UPI - Backstairs at the White House:

Lady Bird Johnson and her family hit town recently in celebration of th 25th anniversary of the inaugural of Lyndon B. Johnson. For those who served in the Johnson administration and Texans in Washington, it was a time for nostalgic festivities and they turned out in masses for the

occasion.

The former first lady never looked more content or happy.

Asked if she would like to return to the White House, she shook her head vehemently, saying at 77 years old such a job would be too demanding, and all encompassing. She likes her life the way it is.

But Mrs. Johnson's longtime friend, Rep. Lindy Boggs, D-La., recalls that when she and other friends were helping the Johnsons to pack up their belongings to prepare to return to their Texas roots, Mrs. Johnson would frequently come up to the third floor of the White House to check on her friends and to thank them.

Boggs recalls that one day Mrs. Johnson was sitting on the packing cases, dangling her feet and she said: ''You know I kind of hate to leave this place. I've almost got it tamed.''

But Mrs. Johnson told a gathering of well wishers at a reception, ''You can go home again.''

After languishing in a hammock following their return to the LBJ Ranch and Austin, Texas, in 1969, Mrs. Johnson had many tasks before her. She wrote her memoir, published in the form of a diary, helped establish the LBJ Presidential Library in Austin and then began to devote her time to her White House project, national beautification, with a current heavy focus on the planting of wildflower seeds, particularly in areas where the water table is low.

While in Washington, Mrs. Johnson voted absentee for Texas state Treasurer Ann Richards in the Democratic primary run off for the gubernatorial nomination.

But she told reporters she never wanted to see another campaign like the one run in Texas and hopes that the next time around there will be a concentration ''on the issues'' instead of personalities.

Who says the Poles don't have a sense of humor. Zygmunt Broniarek (Ziggy to the U.S. press), Washington correspondent for Trybuna Ludu, who covered the White House from 1960 to 1967 and then again from 1985 to 1990, sent a farewell letter to friends and colleagues on preparing to leave Washington to return to Warsaw. He wrote:

''After having spent four years and four months, almost to the day, in the United States, we're leaving for good for Poland Apr. 29, 1990. Having engineered all the historic changes in Eastern Europe, not to mention the

Soviet Union, by remote control from Washington, D.C., we think we're entitled to a change of venue in order to see, with our own eyes, what we have wrought.

''Seriously, these were fantastic years for us. We experienced so much hospitality, warmth, help and friendship from all of you that it will stand us in good stead for the rest of our lives.

''Our special thanks go to President and Mrs.Bush, whose kindness and gentleness toward us made our stay in Washington exceptionally rewarding. ...

''My successor, Waldemar Keda, 47, is a magnificent newspaperman. He was correspondent for the Polish Press Agence in Indochina and Rome and Scandinavia. Now he repeats the same procedure for 'Trybuna.' ...

''He speaks 18 languages. I verified it myself, alas for me, only partially.

''With all the warmest wishes to all of you.''

#90101u1472 04/11/1990 ~United Press International

CHICAGO (APRIL 11) UPI - Investor William Farley, seeking to avert bankruptcy in his $1.6 billion takeover of West Point-Pepperell Inc., is offering creditors a majority stake in the textile firm if they will reduce or delay interest payments on loans that financed the deal, Farley Inc. sources said Wednesday.

West Point Acquisition Corp., Farley's takeover vehicle in the West Point-Pepperell buyout, already has defaulted on bank loans and subordinated bonds used to finance the deal.

The company defaulted on its $796 million tender offer bank credit facility March 30 and also failed to make interest payments due April 2 to holders of subordinated bonds.

Company sources told United Press International at the time that West Point Acquisition was negotiating a restructuring with tender-offer banks and had made an exchange offer to subordinated bondholders.

Details of the negotiations were not released.

But a source close to Farley said Wednesday initial restructuring talks with tender-offer banks bogged down, and that Farley is now offering both the banks and bondholders a majority stake in West Point-Pepperell in exchange for an easier payment schedule.

Analysts said cash flow problems have forced Farley to maneuver to avoid being forced into bankruptcy court over the West Point Pepperell deal.

Chicago-based Farley Inc., is a diversified, privately owned company with assets of $1.5 billion, operating such manufacturing businesses as Fruit of the Loom, in which it holds a controlling 19.5 percent interest, Acme Boot and Doehler-Jarvis.

CHICAGO (APRIL 11) UPI - Trading was choppy and the volume was relatively light in the grain market Wednesday on the Chicago Board of Trade.

Grain futures were mixed and soybeans were higher at the close.

The market made session highs early in the day on the basis of Tuesday's Agriculture Department report. Ending stocks for corn, soybeans and wheat were lowered by the USDA which prompted most of the demand.

Soybeans closed higher across the board in line with a moderate rally in soybean oil, but gains were limited by the late weakness in corn.

Corn was at or near session lows at the final bell on liquidation and profit-taking. The lack of near-term export business also kept corn on the defensive.

Wheat futures were mostly higher on a spurt of professional buying during the final minutes of trading. New-crop July wheat was pressured by favorable growing conditions over much of the Wheat Belt.

Country movement was light.

At the close, corn was off 1 1/2 to up 1/4, soybeans up 1 1/2 to 3 1/2, wheat unchanged to up 2 3/4 and oats unchanged to off 1/4.

#90101u1479 04/11/1990 ~United Press International

WASHINGTON (APRIL 11) UPI - U.S. Census Bureau estimates of incoming Soviet refugees have been about one-sixth the actual number, and they are now arriving at a rate of more than 50,000 a year, a Census official said Wednesday.

Frederick Hollmann, who tracks the numbers of legal immigrants and refugees for the Census Bureau, said Soviet refugees arriving in the United States totaled only a few thousand each year until late 1987.

''They're coming in at a rate of 5,000 to 6,000 a month in late 1989 and 1990,'' Hollmann said. ''At the rate they're coming in now, we're looking at something like like topping 50,000 a year.''

Hollmann's latest published report, released earlier this year, showed Soviets made up only about 3,000 of the 586,000 legal alien immigrants and refugees who arrived in the United States from July 1, 1987, to June 30, 1988.

But Hollmann said he has since learned that number should have been about 19,000.

The number for 1988-89 is now estimated at more than 30,000, with some 28,000 of them refugees, and that may double this year, he said.

Linda Gordon, a statistician with the U.S. Office of Refugee Resettlement, said her office likely will have to stop accepting Soviet refugees later this year because President Bush and the Congress have set a cap of 50,000 for the current fiscal year.

Hollmann said Gordon advised him of an apparent upsurge in Soviet refugees in the 1987-88 period, but he said he decided against including it in his

Census estimates because he usually waits until a trend continues over two years.

Most of those seeking refugee status have been Soviet Armenians, Soviet Jews, and, most recently, Christian Pentecostals, Gordon said.

The Rev. David Dickinson of the Upper Room Christian Assembly in West Springfield, Mass., said his Pentecostal church that has gained more than 200 Soviet members within two years.

''Now it's been changed a little bit, but back then before this change (about two years ago) ... persecution was geared toward the Pentecostals and the Jews,'' Dickinson said. ''We've got one fellow here who was born in prison because of his mother's and father's (religious) stance.''

But despite growing freedoms in the Soviet Union, he said, ''They wouldn't want to go back because they don't trust (Soviet President Mikhail) Gorbachev. So many years they've been promised this and promised that, and it was never fulfilled.''

Under the U.S. government's refugee program, the Soviets are given English lessons and help finding jobs, he said, with many finding employment as truck drivers, electricians, plumbers and carpenters.

NEW YORK (APRIL 11) UPI - Helio Smidt, president of VARIG Brazilian Airlines, died Wednesday after a bout with cancer at Memorial Sloan-Kettering Hospital in New York. He was 64.

Smidt, a resident of Rio de Janeiro, where the airline has its headquarters, began his aviation career at the age of 19 in Porto Alegre, Brazil, where the airline was founded in 1927.

He became regional director for Rio de Janeiro and Sao Paulo in 1957 and in 1961 was appointed director of administration and control. He was elected president of the employee-owned airline in 1980.

Smidt was named Brazil's man of the year in 1987.

Smidt is survived by his wife, Norma, his daughter, Eliana Pinto, and a grandson.

LONDON (APRIL 11) UPI - About 40 rebelious prisoners at a Scottish jail Wednesday freed a guard they held hostage for more than 20 hours, and three inmates at England's Strangeways Prison surrendered, leaving a pocket of hard-core colleagues defying pleas to end an 11-day occupation.

A Scottish Office spokesman said prison officer Jim Rankin, 30, ''needed medical attention'' for what appeared to be minor injuries after he was released by rebellious prisoners in a minimum-security wing of Shots Prison.

Rankin was seized during an uprising late Tuesday at Shots, near Glasgow, 400 miles north of London.

About 40 prisoners at the new, model jail overwhelmed guards, injuring two people, and occupied the top two floors of their wing of the five-block prison, officials said.

Officials negotiated with inmates for the release of Rankin.

''The prisoners have made no demands, therefore we do not know why they have chosen this course of action. It is not overcrowded and it is a comparatively new prison ... regarded as a showpiece prison built in 1978

'' a Shots official said before his release.

The Shots uprising is the first in which a guard has been captured since April 1, the beginning of the string of disturbances that have rocked Britain's jail system.

Nine facilities including Shots have been affected by the subsequent agitation, staged both to show solidarity with the Strangeways inmates and protest against overcrowded and tough conditions.

Two prisoners have died and dozens of inmates and guards have been wounded in the disturbances, which also have resulted in severe damage.

A memorial service was conducted Wednesday by Strangeways Chaplin Noel Proctor for a prison officer who died following a heart attack he suffered while duty during the initial uprising at the prison in Manchester, 200 miles northwest of London.

Britain has the highest per capita prison population in Europe, and the uprisings have prompted calls for an overhaul of the system.

The Home Office, which oversees Britain's 125 penal institutions, said three prisoners at Strangeways, where the prison riots began, gave up Wednesday morning, leaving fewer than 20 holding the central rotunda from which they can control access to the Victorian-era jail's five main wings.

''We are scaling it down and are hopeful that they will all come out soon '' an official said. ''There are only a handful left.''

Authorities have been using loud music, swooping helicopters and other intimidatory tactics to try to break the resolve of the diehard inmates.

However, rebel prisoners emerging onto the roof of the facility waved food at guard to show they had supplies to sustain them, and are reported to have defended their areas to ensure any advancing force would suffer casualties.

#90101u1541 04/11/1990 ~United Press International

BEIJING (APRIL 11) UPI - Foreign travelers arriving in Beijing Wednesday reported that China had sent troops to put down rioting by ethnic Moslems in the southern part of remote Xinjiang province, which has been closed to foreigners.

Two separate groups of travelers who arrived in Beijing from Urumqi, the provincial capital, said they heard from local Moslem Uighurs that 50 to 60 Moslems had been killed in and around the western city of Kashgar by

Chinese troops, but the reports were second hand and could not be confirmed.

Chinese sources said during the weekend that troops had been sent to put down violent riots by hundreds of Moslems in Kashgar, a fabled city on the ancient Silk Road that linked China to the Middle East and Europe. The area is adjacent to Soviet Asian republics where ethnic violence erupted earlier this year.

Foreigners attempting to travel to the remote area Wednesday were denied permission by Chinese authorities.

German tourist who attempted by buy airplane tickets to Kashgar from the provincial capital of Urumqi said they were told no foreigners were permitted to travel to the south, near the Soviet and Pakistan borders.

The China International Travel Service also notified Japanese travel agencies that no tour groups will be allowed to travel to Nanjiang, the term for the region south of the vast Tian mountain range that bisects China's westernmost province, Japanese sources said.

The sources said all travel to southern Xinjiang - especially to the cities of Kashgar, Khotan and Kuqa - had been banned ''until the end of May.''

The Kashgar area, about 150 miles from the Soviet border, was the scene of violent anti-Chinese riots by Moslems in 1980 that were put down by the Chinese army. Moslems also rioted in Urumqi last May to protest the alleged blasphemy of their religion.

Official press reports from Xinjiang, which reached Beijing Wednesday, also reported of unrest in the northwest border region.

The April 4 edition of the Xinjiang daily newspaper said Communist Party leaders in the Yili Kazakh autonomous region, which is next to Soviet Kirgizia, had taken steps to ''eradicate unstable elements'' in the area.

The report said leading party members had exposed subversive plots and banned ''illegal organizations which aimed to sow dissent among various nationalities and split the country.''

About half of the 15 million people in the remote, impoverished Xinjiang province are Moslems, including Uighurs, Kazakhs and Kirghizes with close ethnic ties to restive minorities in Soviet Asia.

The official Chinese press has been silent on the subject of Xinjiang, and authorities contacted by telephone in Urumqi and Kashgar from Beijing would neither confirm nor deny reports of unrest in the region.

A Japanese businessman who was in Urumqi from April 4 to 10 said he was warned by a driver to stay away from the local bazaar ''because minorities have been rioting.'' But a German tourist reached by telephone in Urumqi Wednesday night said the city was quiet.

#90101u1556 04/11/1990 ~United Press International

(APRIL 11) UPI - The Vatican says Nobel laureate Mother Teresa has resigned as head of her Missionaries of Charity organization because of health reasons. But a staff aide at the nun's Calcutta office says- quoting now- ''we know NOTHING about'' the resignation. The brief announcement from the Vatican news office said only that Pope John Paul had accepted the resignation of the 79-year-old nun.

A Commerce Department report says capital spending by American business will record its lowest gain in three years in 1990. The department says businesses plan to increase spending on plants and equipment by only seven-point-six percent this year. It says the slowdown in spending is a reflection of the nation's sluggish economy. The government says capital spending is expected to fall off in the auto industry and related fabricated metal business.

New York police are trying to determine if the latest shooting of a Bronx cab driver is linked to three previous slayings in the area. The latest driver to be shot was attacked early this morning and is listed in critical condition. Police say two teen-agers were seen running from the scene and a gun was found on the front seat of the cab. The three cabbies killed last month had all been robbed.

Authorities say about 40 prisoners at a Scottish jail are holding a guard hostage, and three more inmates at the Strangeways Prison in Manchester, England, have surrendered. The latest surrenders at Strangeways Prison leave a hard-core group of fewer than 20 convicts holding out in the 11-day occupation that began as a protest against conditions at the facility. In Scotland, officials say prisoners holding a 30-year-old guard have issued NO demands, but negotiations are continuing.

WASHINGTON (APRIL 11) UPI - President Bush announced Wednesday he will nominate Dane Farnsworth Smith Jr. of New Mexico, a career foreign officer to be ambassador to the republic of Guinea.

Smith, a career member of the senior foreign service, with the class of minister-counselor, would succeed Samuel Lupo if confirmed for the post by the Senate.

Since 1989, Smith has served as director of the economic policy staff for the African bureau of the State Department. In addition, he has held posts at U.S. embassies in Khartoum, Sudan; Garborone, Botswana, and Monrovia, Liberia.

#90101u1578 04/11/1990 ~United Press International

WASHINGTON (APRIL 11) UPI - An attorney for Mayor Marion Barry asked a federal judge to dismiss all eight charges of perjury and cocaine possession against him, claiming the government ''manufactured the crime'' leading to Barry's Jan. 18 drug arrest, according to court papers released Wednesday.

Barry's attorney, R. Kenneth Mundy, told U.S. District Judge Thomas Penfield Jackson that Barry had no intention of using drugs the night he was arrested, and that prosecutors ''endangered'' Barry's life by luring him to the hotel and arranging for him to use crack cocaine.

Mundy also claimed prosecutors violated their own laws through a ''conspiracy to distribute cocaine on the part of the government.''

Barry was arrested Jan. 18 at the Vista International Hotel in downtown Washington after he allegedly was videotaped smoking crack cocaine.

He was indicted Feb. 15 on five misdemeanor counts of cocaine possession and three felony counts of perjury for telling a grand jury he had not used drugs in the past.

A June 4 trial is scheduled. If convicted of all the charges, Barry could face 20 years in prison and $1.25 million in fines.

Mundy filed 11 motion's late Tuesday night in U.S. District Court asking Jackson to dismiss all the charges, claiming prosecutors violated Barry's right to due process as guaranteed by the Fifth Amendment.

Mundy charged government informant Hazel ''Rasheeda'' Moore lured Barry to her room in the Vista by refusing to meet him in the bar or restaurant downstairs.

Mundy said prosecutors, who had three hidden surveillance cameras taping Barry in the hotel room, ''anticipated'' the mayor would bring cocaine with him, but when he did not, a female undercover agent who had left the room came back with the drug.

''When it became apparent that Marion Barry had not brought any cocaine to the hotel, and that he was preparing to leave without any narcotic activity taking place, the undercover agent called back to the room and subsequently returned with the cocaine,'' the motion charged.

''It is clear that on this particular occasion, the government manufactured the crime,'' Mundy alleged. ''Whatever terminology the government chooses to use ... the fact is that the agents, with the approval of the United States Attorney's Office, distributed a controlled substance.''

U.S. Attorney Jay Stephens said, ''We will respond to all defense motions in court.'' He has 10 days to do so.

Barry, who underwent seven weeks of in-patient treatment for alcoholism and addiction to prescription drugs after his arrest, reportedly had been drinking cognac prior to his arrest. He has blamed his legal problems on alcoholism - a defense Mundy is expected to use should the case go to trial.

The grand jury began investigating Barry after a planned police raid at a Ramada Inn in Washington was aborted in December 1988 when police saw Barry enter the room of former city worker Charles Lewis, the subject of the investigation.

Lewis has since been convicted of drug crimes in Washington and the Virgin Islands and told a grand jury he used drugs with Barry at the Ramada Inn and in the Virgin Islands. Barry testified before the grand jury twice and denied using drugs with Lewis.

#90101u1583 04/11/1990 ~United Press International

DETROIT (APRIL 11) UPI - Sen. Carl Levin, D-Mich., told United Auto Workers delegates Wednesday that Washington, not Japan, should be blamed for the $49 billion U.S. trade deficit and called on the Bush administration to ''treat our trade competitors no better than they treat us.''

Levin, addressing a three-day UAW conference at the Westin Hotel in Detroit, also criticized President Bush for being wrong about the nation's priorities.

''I see the economic backbone of the United States - our young people - hamstrung in competing in a world economy,'' he said.

Rather than commit ''tens of billion of dollars'' for the Strategic Defense Initative - also known as Star Wars - the senator said, ''We need 'Star Schools.'''

Levin also urged Bush to save a dozen trade adjustment assistance centers slated to close in May because of a lack of federal funding. The centers help small- and medium-sized companies that have suffered due to imports by developing strategies to become competitive.

''If we don't get the right response, we will try to restore the money by legislation,'' Levin said.

The regional center serving Michigan, Indiana and Ohio has helped over 100 companies and saved about 5,000 jobs and ''has been a beacon of hope to American workers,'' he said.

Levin told the audience of about 1,000 delegates the United States has lost the trade war to the Japanese in defense, electronics, aerospace and consumer goods, as well as in automobiles.

''But don't get mad at Japan or any other country,'' he said.

''Get mad at Washington, because with some leadership, we can control our economic destiny. ... Our government should fight just as hard for American jobs as other countries fight for their people's jobs.''

Levin said the United States needs to apply a simple rule when it comes to trade: ''Treat our competitors no better than they treat us.''

Levin was introduced by UAW Vice President Stephen P. Yokich, who delivered a rousing speech urging delegates to show a unified and disciplined front this summer as the union begins negotiating new labor agreements covering about 450,000 workers at General Motors Corp., Ford Motor Co. and Chrysler Corp.

The current three-year contracts expire Sept. 14.

Referring to GM, Yokich said that ''if that corporation doesn't believe we have discipline, then they will walk all over us.'' He was named head of the union's GM Department last year.

Yokich also urged delegates to choose their own bargaining issues and not be swayed by what the media believes them to be.

''Obviously, job security is one of the most important issues,'' he said, adding that the UAW has seen its ranks drop by 500,000 members as overtime has increased. ''Getting that dollar-an-hour raise or having health benefits do no good if you don't have a job to go to.''

Quality will be another major issue as the UAW sits down with carmakers this July, Yokich said.

''We need the right tools to do the right jobs,'' he said, noting that quality begins with a vehicle that is properly designed and engineered, even before it is assembled by UAW workers.

''We'll run some people right off the shores if we have quality,'' he said.

Yokich, regarded as a possible successor to UAW President Owen Bieber, also took the opportunity to list some of his accomplishments in his prior job as head of the union's Ford Department.

He commended Ford for saving or creating new auto jobs, such as those at its transmission plant in Batavia, Ohio, through efforts with the union.

WASHINGTON (APRIL 11) UPI - President Bush, under pressure from Congress, belatedly kept a promise Wednesday by issuing an executive order to prevent visiting Chinese students from being forced to return to their homeland.

Bush directed Attorney General Dick Thornburg and Secretary of States

James Baker to take a number of steps, ''effectively immediately,'' to allow Chinese nationals to remain until at least Jan. 1, 1994.

The president had vowed to issue such an order in November when he vetoed legislation that would have provided similar safeguards. The measure was overwhelmingly passed by Congress after the bloody crackdown in June against pro-democracy demonstrators in China.

Last week, The New York Times disclosed that Bush had never actually issued an executive order, and the White House scrambled to explain amid outcries by members of Congress who felt they had been betrayed.

White House press secretary Marlin Fitzwater said Bush decided an executive order was not the ''right tool,'' and instead had Thornburgh take legal steps under a presidential directive to protect students.

On Friday, however, Bush conceded that more needed to be done in light of the Chinese government's revocation of passports, and complaints and confusion among students.

Bush, in addressing the American Association of Newspaper Editors, said ''to allay any concerns and some of the allegations against us'' he would issue a presidential order that would actually broaden the protection of students.

''I think that will certainly convince people, those that might be skeptical, that I have every intention of keeping my word,'' Bush said.

''We have kept it by this presidential directive,'' he insisted. ''But I did say executive order, so this will formalize it in an official executive order fashion.''

Later Friday, the White House released a statement saying Bush would issue an order. But he did not formally do it until Wednesday.

CAIRO (APRIL 11) UPI - An International Monetary Fund delegation is slated to hold talks with Egyptian leaders this week in an effort to approve new standby credits for Africa's largest debtor nation, officials and diplomats said Wednesday.

A spokesman for the IMF's Cairo office said the IMF delegation, expected in the Egyptian capital Thursday, was on a fact-finding tour and would carry out a ''stock-taking of where the Egyptian economy stands.''

Egypt's foreign debt is estimated at over $55 billion.

Bankers in London said talks between Egypt and the IMF, the Washington-based agency that promotes currency stabilization to expand international trade, stalled last week because President Hosni Mubarak's administration was not prepared to act quickly on economic reforms.

Cairo-based Western diplomats said Mubarak did not want to see a repetition of street riots 13 years ago, when the late President Anwar Sadat cut subsidies on basic food items. Forty percent of Egypt's 50-million strong population lives on or below the poverty line, according to the London-based magazine Middle East Review.

Egyptian economists working at the American University in Cairo said the IMF wanted Mubarak to devalue the Egyptian pound by 10-20 percent against the U.S. dollar and to increase interest rates in line with inflation, currently believed to be hovering around the 30 percent a year mark.

The IMF also would like Egypt to lift subsidies on basic foodstuffs, electricity and fuel and to sell state-owned companies to the private sector.

Mubarak said he could not slash subsidies without increasing real wages, but a report issued by the U.S. Embassy in Cairo last month said Egypt did not have the funds to finance even high-priority food imports.

Economists have pointed out that selling off industries nationalized during the regime of late revolutionary leader Gamal Abdel Nasser would help reduce Egypt's enormous budget deficit.

The IMF's Middle east operations director, Dr. Abdul Shakour Shalaan, stressed the importance of a market-oriented economy in Egypt as a means of improving living standards.

Cairo newspapers quoted Shalaan as saying in Washington recently that the burden of reform should fall on the rich, but he admitted that the poor would also suffer. He is expected to take part in the IMF's Cairo talks.

Mubarak Monday justified his administration's slow approach to reform, saying the country had experienced some bad luck in recent months.

WASHINGTON (APRIL 11) UPI - The Treasury Department auctioned $7.5 billion in 7-year notes Wednesday at an average yield of 8.62 percent, the highest since 9.39 percent on Apr. 12, 1989.

At the previous Jan. 10 auction of 7-year notes, the average yield was

8.02 percent.

The 8.50 percent interest rate notes sold at an average of $99.379, with 100 equaling the face value and one point representing $10 on each $1,000 investment, the Treasury Department said.

CAMBRIDGE, MA (APRIL 11) UPI - The fame of rock music's fabulous four, The Beatles, now stretches deep into outer space.

John, Paul, George and Ringo each have had an asteroid named after them by the discoverers of the minor planets, the International Astronomical Union's minor planet center said Wednesday.

The asteroids, numbered 4147, 4148, 4149 and 4150, are now named Lennon, McCartney, Harrison and Starr.

The four minor planets, between 5 and 10 miles in diameter, were discovered in 1983 and 1984 by Brian A. Skiff and Dr. Edward Bowell of the Lowell Observatory in Flagstaff, Ariz.

''My colleague and I have been fans of the Beatles for 25 years or so, ever since their early days. We thought this would be an unusual distinction for them,'' Bowell said Wednesday.

''It is customary to name asteroids after distinguished scientists or Greek and Roman goddesses,'' he said. ''But times are changing, and we think it is a fun thing to honor some other people we like and who we think have done nice things in the world.''

Too faint to be seen with the eye, they appear as star-like points of light in a large telescope, Bowell said.

In addition to the planetary distinction for The Beatles, the IAU's minor planet circular reported that an asteroid discovered by scientists at the Oak Ridge Observatory in Harvard, Mass., has been named for English rock star Eric Clapton.

The minor planets are rocky bodies left over from early formation of the solar system. Most orbit the sun in an asteroid belt located between Mars and Jupiter.

A total of 4,461 asteroids have been catalogued and given permanent designator numbers by the Minor Planet Center at the Smithsonian Astrophysical Observatory in Cambridge. Names have been given to 3,440 of them.

Skiff and Bowell are responsible for naming about 250 asteroids, including Shakespeare, Michelangelo, Sagan for astronomer Carl Sagan, Hopi for the Arizona Indian nation, and TARDIS for Dr. Who's whimsical TV time machine.

''There have been whimsical names given to some asteroids in the past. Naming them after the discoverer's pet dogs and cats has been a bit frowned on,'' Bowell said. ''The naming rules are fairly free and open. The only prohibitions are for religious names, people of a political nature, or obscenities in any language.''

#90101u1677 04/11/1990 ~United Press International

PARIS (APRIL 11) UPI - The French government denied Wednesday it struck a deal with Libya to obtain the release of three European hostages - a couple abducted during a 1987 vacation cruise and their daughter, who was born in captivity.

''We have been working on this matter for many months,'' Foreign Minister Roland Dumas said of the release Tuesday of the three hostages. ''We alerted a large number of countries, especially Libya. The discussions took place only between governments and in respect of the principles that are ours.''

Jacqueline Valente of France, 31; her Belgian companion Fernand Houtekins, 42; and their 2 1/2-year-old daughter Sophie landed at a French military base outside Paris aboard a special plane sent to Beirut by the French government.

The release came after a group run by the terrorist group Abu Nidal negotiated with Belgian and French officials. It also came nearly a week after Libyan leader Col. Moammar Gadhafi called for the release of Western hostages to mark the Moslem holy month of Ramadan.

In a statement political analysts called surprisingly friendly, Dumas characterized Gadhafi's help in releasing the hostages as a ''noble and humanitarian gesture'' that would be reflected in future relations between Paris and Tripoli.

Leading French newspapers complained about Dumas's praise and claimed it was a near-certainty that the hostages had been held in Libya and not Lebanon.

Andre Metral, Valente's brother-in-law, said at a press conference in Paris he thought the hostages had been held in Lebanon but was not certain. Metral added the prisoners had been kept in a large apartment and had been treated well by their captors.

''To recognize Gadhafi's welcome initiative is one thing. To make him a benefactor of humanity is another,'' the prestigious newspaper Le Monde wrote Wednesday in a front-page editorial.

The newspaper said that Gadhafi had financed and armed the Abu Nidal extremist group that claimed responsibility for capturing the three hostages and wondered why they had not been released earlier.

For his part Defense Minister Jean-Pierre Chevenement denied that the government's decision earlier this year to return three Libyan Mirage jets it had blocked since 1986 was related to the release of the hostages.

The jets had been held in France as part of sanctions imposed against Tripoli by the European Economic Commission for its alleged involvement in sponsoring terrorist acts.

''There is no delivery of arms to Libya. A certain number of planes that already had been delivered to Libya and that belonged to it came to France for repairs,'' Chevenement said. ''They were blocked in 1986 at a moment when relations with France were not great.''

Abu Nidal's Fatah Revolutionary Council said it snatched Valente, two other daughters, and five Belgians from a pleasure boat off the coast of the Israeli-occupied Gaza Strip Nov. 8, 1987. The group accused the captives of spying for Israel.

Sophie was born in captivity a short time after the abduction. In December 1988, the two other daughters, ages 5 and 6, were released in Libya and rejoined their father.

The four other Belgians remain in captivity. Houtekins said their morale is high and added, ''We keep high hopes that they will be freed, too.''

#90101u1682 04/11/1990 ~United Press International

LONDON (APRIL 11) UPI - A 112-nation conference agreed Wednesday on a sweeping plan to reduce the demand for illegal drugs and to work together to put drug barons out of business.

''Here we have broken new ground,'' British Home Secretary David Waddington said at the conclusion of a three day conference on the global drug problem.

The conference ended with the adoption of a 35-point platform that outlines measures to reduce the demand for drugs and to combat the production and trafficking of cocaine.

''It is not the lowest-common denominator of 'diplo-drone.' It is actually a statement that goes into some detail,'' said David Mellor, a Home Office minister. ''People have made some fairly specific commitments. I think if that is followed up, it will be a million pounds very well spent.''

The conference was sponsored by the British govement, in association with the United Nations, at a cost of 1 million pounds, or $1.64 million.

Delegates from 112 countries agreed to greater cooperation to detect and halt drug trafficking and the laundering of drug money, and to monitor and control trade of chemicals used in the manufacture of illegal drugs.

International cooperation ''is not an optional extra on a drugs policy,'' said Mellor.

The countries also pledged to try to reduce the demand for drugs through education - particularly of young people - and by providing treatment to users and stressing the link between drug abuse and AIDS.

''The youth of the world are one of our most precious resources and we must do all we can to protect our young people from drugs,'' Waddington said.

''We must go beyond the message, 'Just say no.' We must provide young people with the motivation and the understanding of why it is in their best interest to avoid drugs so they decide for themselves not to become involved. We must aim to remove any false glamour which may have been attached to drugs.''

Discussions on the last day of the conference focused on the transmission of the HIV virus that causes AIDS among people who share equipment for injecting illegal drugs.

In order to help prevent the spread of HIV, the conference approved a measure endorsing needle exchange programs that do not promote the use of drugs.

''We view the two epidemics - of AIDS and of drug abuse - as inextricably linked,'' said a statement submitted by U.S. Health and Human Services Secretary Louis Sullivan.

''They bring us common and major challenges - the need for more and better drug abuse treatment, and the need to integrate health care and substance abuse services.''

Dr. Don Des Jarlais, of the Beth Israel Medical Center in New York, said in a speech about 30 percent of the current cases of AIDS in the United States and Europe involve people who have injected illicit drugs.

In several cities, including New York and Bangkok, Thailand, the rate of HIV among drug users has increased from about 10 percent to 40 percent over two to three years, Des Jarlais said.

''Cocaine use appears to be spreading rapidly in many parts of the world, cocaine injection has been strongly associated with the transmission of HIV, and the smoking of cocaine has been associated with the spread of many sexually transmitted diseases, including HIV,'' he said.

Des Jarlais contested suggestions that programs that provide for the ''safer'' use of needles increase the use of illicit drugs.

Studies of syringe exchange participants in the United Kingdom, United States, The Netherlands and Australia have shown no evidence the programs increased drug use, Des Jarlais said.

The programs may even lead to reductions in drug use because distribution points serve to link drug injectors with drug abuse treatment programs, Des Jarlais said.

#90101u1709 04/11/1990 ~United Press International

TORONTO (APRIL 11) UPI - Harold Ballard, the shrewd and often cantankerous owner of the NHL Toronto Maple Leafs, died Wednesday after a long battle with diabetes and heart problems. He was 86.

Ballard had been hospitalized with kidney problems since Jan. 3 and has been hobbled for years with health problems.

Ballard was taken off a respirator Tuesday, and when asked if wanted to be placed back on the machine declined, said a spokesman for Maple Leaf Gardens.

Ballard passed away at about 3:10 p.m. EDT, the spokesman said.

Ballard's condition deteriorated a week ago, when he was re-admitted to critical care.

His empire, valued at more than $100 million, includes the team, Maple Leaf Gardens and a printing company.

Guardians were assigned to manage his personal and business affairs after he was declared mentally incompetent by courts in Florida and Canada earlier this year.

Ballard's declining health touched off a bitter power for control of his

affairs between his three estranged children, Mary-Elizabeth, 47, Bill, 43 and Harold Jr., 42 and his long-time companion Yolanda Ballard, 57. Although not married to Ballard, Yolanda legally changed her name to his in 1988.

Yolanda, who was Ballard's girlfriend for almost 10 years, has been accused of spiriting him off to vacation in the Cayman Islands this past Christmas even though he was suffering pneumonia.

Ballard suffered kidney failure Jan. 3 hours before he was to marry Yolanda and then spent several days in a hospital in the Cayman Islands before transferring to Miami Baptist Hospital Jan. 5 in critical condition. Yolanda was eventually barred from seeing Ballard in the Miami hospital after she was found overmedicating and force-feeding him.

Receiving regular dialysis treatments, Ballard was considered well enough to be transferred to Toronto's Wellesley Hospital March 15.

Throughout most of his remarkable life, Ballard thrived on controversy. He enraged blacks, Jews, feminists, prison reformers, religious leaders and his own family. Name it and Ballard probably said something outrageous about it.

Asked why he took Queen Elizabeth's portrait down from the Gardens, he replied: ''What the hell position can a Queen play?''

But there was also a little known good side to Pal Hal, who was born July 30, 1903.

Each year, he gave hundreds of thousands of dollars to a number of charities, including the deaf and the mentally and physically disabled, and regularly donated the Gardens free for charity use - but refused to discuss it.

''You don't make headlines being a nice guy,'' he once said. ''I like to create trouble. I don't care about anyone's opinion but my own. So I tell people what I think and what I think of them. I will do anything for a friend, but if I don't like you, I don't like you.''

He always said he didn't care what people thought of him. ''As long as they don't lose interest in me, my teams or my building, I couldn't care less.''

He repeatedly said he wouldn't retire and that the only way he would leave the Gardens, where he lived in an apartment, was ''in a box.''

''My dad tried retirement and he was dead in a year. He died of boredom, if the truth was known. Being busy keeps me going. I could never retire.

My job is my hobby.''

Ballard's death is likely to spark a further battle for control of his empire. Bill, who sued his father and brother for $150 million in a dispute over control of a critical block of Harold Jr.'s shares, was also fined $500 after being convicted of assaulting Yolanda last September.

Harold Jr. was charged with breaking, entering and theft, when he allegedly broke into his father's vacant home last August and was also charged with assault after allegedly attacking two police officers who arrested him as he was transporting furniture and hockey souvenirs from the home.

Yolanda is also no stranger to controversy, after her 1980 conviction for forgery and perjury involving an elderly man's will in a $3 million estate case.

Ballard purchased the Leafs in 1961 with partners Stafford Smythe and John Bassett. Ballard and Smythe bought out Bassett in 1971. A year later, Smythe died and Ballard gained control by purchasing the Smythe family shares.

Smythe's death occurred only days before he and Ballard were to stand trial on charges of tax evasion and misuse of Gardens money. Ballard was convicted of the charges in 1972 and served one year in prison.

Even in prison, Ballard made the news. While out on a weekend pass, Ballard told reporters life on the inside was like ''a high-priced motel with steaks every day, swimming and golf.''

Ballard revelled in his image as a troublesome maverick and his status as one of Canada's most despised public figures.

NEW YORK (APRIL 11) UPI - Kuwait has agreed to invest $100 million in Hungarian oil and gas projects and is planning to build gas stations in ventures with Hungary, it was reported Wednesday.

The Opecna news agency of the 13-nation Organization of Petroleum Exporting Countries, which includes Kuwait as a member, reported the development quoting ''economic sources.''

The agency in a Budapest dispatch also said a Hungarian delegation will visit Kuwait next month for talks on the possibility of setting up the joint ventures.

In addition, it quoted the Hungarian News Agency as saying Kuwaiti oil companies were planning to purchase a stake in the Union of Hungarian Oil and Gas companies.

Opecna also said the Hungarian Oil and Gas Corp. intends to purchase $11.7 million in pressure-injection equipment for enriching recovery from its oilfields from the Tokyo Engineering Co. of Japan, an affiliate of Marubeni Trading.

It said Hungary needs the equipment to make up for declining domestic production, which is being supplemented by imports from the Soviet Union and Iraq.

#90101u1741 04/11/1990 ~United Press International
(APRIL 11) UPI - President Bush... citing the value of dialogue to solve problems... is meeting with Baltic-American leaders this morning at the White House to discuss the situation in Lithuania. The meeting is said to dramatize U-S concern over Soviet efforts to prevent Lithuanian secession.

The carefully constructed plans to form Israel's next coalition government fell apart at the last minute today when two ultra-Orthodox members of the Knesset refused to support the coalition. President Chaim Herzog gave Labor Party leader Shimon Peres 15 more days to form a government. Peres says he's still optimistic.

Apparently, the Soviet Union is continuing to soften its demands that a unified Germany should be neutral. The New York Times today quotes a top adviser to President Mikhail Gorbachev as saying that the Soviet Union would accept membership by a united Germany in both NATO and the Warsaw Pact for a period leading to a new European security system.

More than one-thousand people are expected to attend the funeral of AIDS victim Ryan White today in Indianapolis. Singer Elton John, football player Howie Long, talk show host Phil Donahue and three of White's high school friends were asked to be pallbearers. The 18-year-old White died on Sunday.

#90101u1744 04/11/1990 ~United Press International
LOS ANGELES (APRIL 11) UPI - A federal judge awarded $2.65 million in damages Wednesday to the relatives of a truck driver and his son who were killed in the 1986 midair collision of an Aeromexico jetliner and small plane over Cerritos.

The wrongful death award is the second and largest stemming from the disaster that killed 82 people. Dozens of other suits are pending.

Following a 1 1/2-day hearing, U.S. District Judge Manuel Real determined Mary Guzman, 49, of Norwalk was entitled to a total of $1.7 million for the death of her husband, Joe, a passenger aboard the jetliner.

Guzman's son, Robert, 18, also was killed. He and his father were traveling home after a fishing trip in Mexico with an uncle and several friends also killed in the crash. Some of the pending damage claims stem from their deaths.

Real also awarded $427,254 to Robert's 5-year-old daughter, Reann, of Santa Fe Springs, and Joe Guzman's three eldest children received $200,000

each in damages, bringing to $2.65 million the total award to the family.

The award comes one month after a San Jose man received $1.3 million in damages stemming from his wife and son's death in the crash.

The Aeromexico DC-9 catapulted to the ground after the private plane struck its tail section.

#90101u1756 04/11/1990 ~United Press International

WASHINGTON (APRIL 11) UPI - President Bush has added television evangelist Jerry Falwell's Liberty University to a series of commencement addresses he will make this spring, a White House spokesman said Wednesday..

Press secretary Marlin Fitzwater confirmed a University announcement that Bush will be its commencement speaker for 1,800 graduating seniors that will be held on campus in the university's new football stadium.

The school said the commencement was originally scheduled for May 11 but was changed last week in order to accommodate the president's schedule during a Southern swing.

Falwell said said he was ''very pleased'' that bush had accepted the invitation and that the occasion will mark the first visit to Lynchburg, Va., by a sitting president.

Several other commencement appearances were being scheduled by the White House, but have not yet been officially announced.

(APRIL 11) UPI - The official Islamic Republic News Agency says an English-language Iranian newspaper welcomes yesterday's release of three European hostages in Lebanon. The newspaper... which usually reflects the views of Iran's president... also is calling for the release of all the other hostages.

Greece has its first conservative government in nine years. Three days after his New Democracy Party's election victory, Constantine Mitsotakis was sworn in as Greece's prime minister. About 30 minutes later, the 32 members of his Cabinet also were sworn in. The new government is expected to improve relations with the United States.

Denmark's Maritime Court today opened an inquiry into last weekend's ferry fire... the worst in Scandinavian history. Swedish police say 127 bodies have been recovered so far from the burnt-out vessel believed to have been set on fire by an arsonist. Ferry captain Hugo Larsen rejected claims that the ship's safety equipment was faulty and that his crew was NOT trained.

Security is expected to be tight in a New York courtroom this morning for the arraignment of the man charged with killing 87 people in the Happy Land social club fire last month. A published report says the lawyer for Julio Gonzalez is considering an insanity defense for his client.

LOS ANGELES (APRIL 11) UPI - Lockheed Corp., hit by tightened defense spending, has told union officials that it plans to lay off up to 2,600 workers at the company's Aeronautical Systems division by June, a union spokesman said Wednesday.

The layoffs would reduce the Aeronautical Systems work force, which stood at 22,876 Apr. 1, by about 11 percent. The division has cut about 9,000 jobs since mid-1988 because of the winding down of several major aircraft production programs.

Don Nakamoto, spokesman for Local 727 of the International Association of Machinists, said Lockheed officials told the union last week that it would lay off 2,000 salaried workers and 500 to 600 hourly workers by June.

Nakamoto also said Lockheed officials did not indicate if they would offer an early retirement plan as part of the workforce reductions. A large number of the 5,500 workers the union represents at Lockheed's facilities are near retirement age, he said.

Lockheed spokesman James Ragsdale said ending production on several programs will force the company to cut back the Aeronautical Systems' work force this year, but he added that the exact numbers have not yet been set.

The division's contract for the C-5B military aircraft ended last year, and the last of 35 TR-1 reconaissance aircraft was delivered last October. The division plans to deliver the last of its P-3C antisubmarine aircraft

to the U.S. Navy next week, although six more of the planes are on order from foreign buyers.

Lockheed will also end production later this year of its F-117A stealth fighter, Ragsdale said.

As of Apr. 1, the Lockheed division employed about 12,750 workers at its Southern California plants, including 10,450 in Burbank, 1,700 in Palmdale and 600 at Santa Clarita.

There are also about 10,100 workers at the division's Marietta, Ga., plant about half the total employed there three years ago.

Lockheed announced Tuesday that it had won a bitter proxy fight mounted by Texas investor Harold Simmons, with 62 percent of shareholders voting in favor of the company's slate of 14 incumbent directors.

Simmons, who was trying to gain control of the company by replacing the board, has complained that the company's poor performance last year stemmed from its failure to concentrate on core aerospace, missiles and space systems businesses.

Lockheed's stock declined 25 cents to $37.625 a share in early afternoon trading Wednesday on the New York Stock Exchange.

#90101u1900 04/11/1990 ~United Press International

NEW YORK (APRIL 11) UPI - Belgium's Regie des Telegraphes et Telephones said Wednesday it will take advantage of less stringent regulations in the Europe of 1992 to offer sophisticated business communications services to U.S. corporations with international operations.

RTT, the Belgian state-controlled telecommunications company, said it signed a business partnership with Mirbach & Co. to promote competitive telecommunications services for U.S. corporations in the single-market Europe.

Mirbach, based in Westport, Conn., is a consulting firm specializing in targeted marketing programs and will promote RTT's business telecommunications services to major U.S. companies with European operations.

Trade barriers among the 12 members of the European Community will disappear on the last day of 1992. As a result, the traditionally heavily regulated European telecommunications sector will open up to competition in a number of areas.

Competition among European carriers and U.S. carriers with operations in

Europe is expected to significantly increase as a result of less stringent regulations.

While state-controlled companies - or national private companies such as British Telecom - will retain their monopoly on local calls, the European business communications sector will open up to competition.

RTT said it will provide U.S. companies with comprehensive telecommunications services and competitive rates.

The minister said he will soon approve the lowering of international telephone rates and international leased-line rates in order to bring down tariffs for calls between Belgium and the United States. At the moment, a one-minute call from Belgium to the United States costs about $1.70, nearly 70 percent more than when placed on the other side of the Atlantic.

RTT reported revenue of $2.6 billion and profits of $250 million in 1989. Its communications is largely digital, making RTT the second most modern in Europe after France. RTT said it has set aside $800 million in investment funds to pursue the upgrade program.

Other major European telecommunications companies have recently launched marketing offensives in the United States ahead of 1992.

France Telecom, which offers among the lowest international rates to the United States out of Europe, has already introduced in Nebraska its popular videotext and database system known as Minitel. Britain and Italy, although they have much higher international rates, are also proposing competitive business communications packages.

NEW YORK (APRIL 11) UPI - Average yields for money market mutual funds were higher in the latest reporting week, while rates at competing savings and loan institutions were mixed, organizations that track the funds and institutions said Wednesday.

The Donoghue Organization, of Holliston, Mass., said average seven-day simple yields on money market funds rose to 7.69 percent from 7.67, while 30-day simple yields also rose, to 7.68 percent from 7.67.

The average maturity of fund portfolios was unchanged at 45 days for the third consecutive week.

The Bank Rate Monitor, of North Palm Beach, Fla., reported that rates at competing banks and savings and loan institutions were mixed in the latest week.

The Monitor's index of average rates: money market deposit accounts, 6.07 percent, down from 6.08; Super-Now accounts, 5.0 percent, unchanged; six-month certificates of deposit, 7.70 percent, up 7.68; one-year CDs, 7.79 percent, unchanged; 2 1/2-year CDs, 7.81 percent, up from 7.80; and five-year CDs, 7.85 percent, up from 7.84.

The average rate for a one-year adjustable-rate mortgage was 8.58 percent, down from 8.59.

Average rates on 15-year and 30-year fixed-rate mortgages were unchanged from the previous week, at 9.91 percent and 10.08 percent, respectively.

The average rate for a four-year automobile loan was 12.23 percent, up from 12.22.

(APRIL 11) UPI - Talks aimed at forming a coalition government in East Germany continue today in East Berlin. Party negotiators are wrapping up details of an agreement to form a seven-party government coalition... the first NON-communist administration in the country's 40-year history. The negotiators hope to complete a 24-member Cabinet list and present it to parliament tomorrow.

36-year-old Julio Gonzalez today pleaded innocent to 174 counts of murder resulting from last month's fire at the Happy Land social club in New York City. Two murder charges were filed for each person who died in the fire in the Bronx. Gonzalez appeared at the arraignment and answered ''NOT guilty'' in Spanish before Justice Burton Roberts in New York Supreme Court in the Bronx.

Vice President Quayle will travel to Nicaragua as head of the U-S delegation to the inauguration of President-elect Violeta Chamarro . About 20 U-S officials will accompany Quayle at the April 25th ceremony. The vice president's group will then travel to Mexico City later that evening for talks with Mexican President Carlos Salinas de Gotari.

Polish President Wojciech Jaruzelski arrived in the western Ukraine today to begin an official visit to the Soviet Union. During his four-day trip, Jaruzelski is expected to discuss the emotional issue of the massacre of about 15-thousand Polish army officers in the Katyn Forest during World War Two.

A brief statement from the Vatican today says that 79-year-old Mother Teresa has resigned from the leadership of her Missionaries of Charity organization. The Vatican news office said Pope John Paul accepted Mother Teresa's resignation. Health reasons were cited. A Vatican spokesman said leaders of the charitable order will meet on September 8th to appoint a replacement for Mother Teresa.

#90101u2059 04/11/1990 ~United Press International
INDIANAPOLIS (APRIL 11) UPI - Ryan White was eulogized Wednesday as the first person to ''humanitize'' AIDS, dedicating his shortened life to make it a ''disease, not a dirty word.''

More than 1,000 people, including First Lady Barbara Bush and other celebrities, packed the Second Presbyterian Church for the funeral of White, 18, who died Sunday following a five-year struggle with the disease.

Singer Elton John, who maintained a vigil by White's bedside until his death, led mourners in a rendition of ''The Lord is Thy Shepherd.'' He also performed his own ''Skyline Pigeon,'' seated at a grand piano topped with a framed photograph of White.

White's body was in a closed wooden coffin with a single red rose laid across the top.

''Ryan ... knew Jesus personally and up close. He knew God and he wasn't afraid to die,'' the Rev. Ray Probasco, a Methodist minister and friend of White's family said in his eulogy.

''Accept Ryan's fate,'' Probasco told the congregation. Ryan was

successful in getting us all involved. He helped us to care and believe that with God's help, nothing is impossible, even for a kid.''

''With God's help and yours, we'll make AIDS a disease, not a dirty word.''

Not much was known about AIDS when White was diagnosed with the disease in 1984, Probasco said.

''There were few drugs at first and very little information about the illness,'' he said. ''So very quickly a great deal of fear permeated Ryan's community. After he contracted AIDS, Ryan's struggle to live life as an ordinary kid became more intense because he wanted to go to school.''

''The details of this struggle are well documented,'' Probasco said, referring to a court battle against the Western Middle School near Kokomo that eventually resulted in an order allowing the youth back into school.

''There was not a person who knew Ryan who could hate him,'' the minister said. ''People hated and feared the disease which had taken over his body. They hated the disease just as Ryan did.

''At first, Ryan and disease were percevied as one and the same. But as we all discovered, they were so very far apart. In time, we saw the boy and the disease and they were not the same.

''It was Ryan who first humanitized the disease called AIDS. He allowed us to the see the boy who justed wanted more than anything else to be like other children and to be able to go to school.

''He didn't want to be labeled as the AIDS Boy,'' Probasco said. ''He often remarked to his family that if others wouldn't keep telling him that he had it, he would forget it.''

White, after learning he had the fatal disease, ''was prayed for first by his church, and then by one community after another until there was a pray that circled the globe from Spain to the Philippines and from New Zealand to Great Britain.''

''The world prayed and God responded,'' he said. ''Drugs, experiment drugs were discovered and Ryan received them. A dedicated and devoted Dr. Martin Kleiman came forward to treat Ryan. And there still was a world of prayer.''

The Presbyterian church was used to accommodate the large crowd, but another 500 mourners were turned away. Most remained outside until the service ended so they could see the casket being wheeled out to a waiting hearse.

Former Indiana Health Commissioner Dr. Woodrow Myers flew into Indianapolis from New York City, where he is health commissioner, to attend the funeral.

Myers said White, '' ... at age 14 took on a job that many adults were afraid to take on'' when he battled a frightened community for the right to go to school and helped alleviate ignorance and fear about the disease. ''He will always be remembered,'' Myers said.

White was to be buried later Wednesday in a private service at a cemetery in Cicero, the town about 25 miles north of Indianapolis where he had lived since 1987.

John, football player Howie Long, talk show host Phil Donahue and three of White's high school friends - Tommy Hale, Leo Joseph and John Huffman - were pallbearers.

Gov. Evan Bayh ordered flags in the state flown at half-staff. Classes were scheduled Wednesday at Hamilton Heights High School, where White was a junior, but students were allowed the leave ad attend the funeral.

White was diagnosed with AIDS in December 1984 after contracting the virus from a blood-clotting agent used to treat his hemophilia. He was told he might live six months to one year but he survived more than five years.

White was hospitalized March 29 with an AIDS-related respiratory ailment that ultimately proved fatal.

#90101u2092 04/11/1990 ~United Press International
WASHINGTON (APRIL 11) UPI - The Justice Department Wednesday accused Northrop Corp., a major defense contractor, of cheating taxpayers out of millions of dollars by overbilling the Navy for work on a fighter-bomber.

The government assumed control of a ''whistleblower'' lawsuit that had been filed against Northrop by Eldon L. Janssen, a former employee.

It was the latest in a series of lawsuits and investigations of Northrop. In February, the company pleaded guilty to 34 counts of criminal fraud and paid a $17 million fine.

The latest suit, which was unsealed in Los Angeles, said Northrop cheated the government by failing to disclose a new, cheaper manufacturing process involving work on the Navy's F/A-18 fighter-bomber.

The Justice Department said it had not calculated exact damages but estimates ''range into the millions of dollars.'' Furthermore, Northrop is liable for triple damages and huge penalties under the False Claims Act.

The latest government case against Northrop adopted the key allegation by Janssen that Northrop in 1985 concealed a new, cheaper manufacturing process that allowed it to reap large savings in producing composite parts for the aircraft.

''Northrop hid those savings and did not pass them on to the government,'' the Justice Department said.

Northrop is the main subcontractor for McDonnell-Douglas in producing major portions of the aircraft, the government said, and concealed its

cheaper manufacturing process for four years - repeatedly submitting inflated cost estimates during that time.

Under the False Claims Act, people can file suits when they believe the government has been cheated. The government then has the option to join the suit and assume control of the case.

The person filing the original suit is eligible to collect a percentage of the eventual award.

#90101u2122 04/11/1990 ~United Press International

NEW YORK (APRIL 11) UPI - The stock market closed slightly lower Wednesday in light trading, kept in check by weakness in oil issues despite a rebound in oil prices.

The Dow Jones industrial average, which rose 9.01 Tuesday, fell 1.35 to close at 2729.73.

Among broader market gauges, the New York Stock Exchange composite index fell 0.06 to 187.57 and Standard & Poor's 500-stock index fell 0.15 to 341.92. The price of an average share lost 1 cent.

Declines led advances 759-711 among the 1,966 issues crossing the NYSE tape. Big Board volume totaled 141,080,000 shares, versus 136,020,000 shares traded Tuesday.

Oil issues closed with losses, even against the backdrop of a rebound in oil prices.

''The declines in oil stocks were not commensurate with the plunge in oil prices, so they're not going to rebound in a similar way,'' said Dennis Jarrett, chief market strategist at Kidder Peabody & Co.

Fears of a world oil glut sent oil prices plunging Tuesday, and the selling carried over into early trading Wednesday. But after midday, prices rebounded on reports that the Organization of Petroleum Exporting Countries has been consulting since Tuesday about calling an emergency meeting to try and stem the decline.

Higher oil prices are considered a sign of inflation, however, and analysts noted that for the first time in a long time, the bond market took its cue from the gyrations in oil prices, falling as oil prices rose. The declines in bonds also weighed on stocks, they said.

While bond prices remained higher, the long bond was up only 11/32 in afternoon trading after posting gains earlier of as much as 22/32. Oil futures for May delivery closed at $18.06, up 38 cents on the day. Prices had been down as much as $1.43 a barrel.

''The market tried to go up early on but couldn't get going with the weakness in oil stocks. Those plays hurt today and affected a number of stocks in the Dow,'' said Chester Pado, director of technical research at Jefferies & Co. in Los Angeles.

''But it was a quiet day once again,'' he said. ''We're really just moving

laterally here. We can't seem to get off the dime.''

On the trading floor, Ames Department Stores was the most active issue, up 1/8 to 2 1/2, rebounding from a tumble this week sparked by news that it expects a 1990 loss of $228 million and plans to close 74 stores.

United Telecommunications followed, tumbling 1 7/8 to 40 1/4. The action was said to be profit taking since the stock has risen sharply over the past several weeks. American Express was third, up 1/2 to 27 7/8.

Oil issues remained under pressure. Texaco lost 1 to 57 3/8, Chevron fell 1 3/4 to 65 7/8, Exxon fell 3/8 to 45 5/8, Amoco slumped 7/8 to 50 1/2 and Mobil dropped 1 to 59 5/8.

Among blue chips in sectors other than oil, AT&T was off 1 to 41 3/4, IBM was up 5/8 to 106 1/2, Philip Morris fell 1/4 to 42, and Woolworth was up 7/8 to 62 1/4 after splitting its stock and boosting its dividend.

Elsewhere, West Point-Pepperell surged 5 to 42 5/8. Investor William Farley, seeking to avert bankruptcy in his $1.6 billion takeover of the company, is offering creditors a majority stake in the textile firm if they will reduce or delay interest payments on loans that financed the deal, sources at Farley's company, Farley Inc., said.

Volume of NYSE-listed issues, including trades in stocks on regional exchanges and in the over-the-counter market, totaled 168,448,930 shares, compared with 163,853,000 shares traded in the previous session.

Prices closed lower in moderate trading on the American Stock Exchange.

The Amex Market Value index lost 1.98 to close at 357.54. The price of an average share fell 7 cents. Declines led advances 284-241 among the 819 issues traded. Composite volume totaled 15,980,240 shares, compared with 13,389,000 traded Tuesday.

Jan Bell Marketing led the Amex issues, plunging 1 1/2 to 8 3/8. A Goldman Sachs analyst is said to have cut his 1990 earnings estimate for the company.

The National Association of Securities Dealers composite index closed up 1.63 to 433.53.

#90101u2124 04/11/1990 ~United Press International

STILLWATER, OK. (APRIL 11) UPI - Oklahoma State University Wednesday hired Eddie Sutton, who has spent an often controversial 20-year career coaching major college basketball, to guide a veteran team that has

expectations of challenging for next year's Big Eight title.

The announcement, which had been the subject of speculation for days, was made official at a Wednesday afternoon news conference at which Sutton was introduced by his former coach Henry P. Iba.

Sutton spent the 1989-90 season out of coaching after a recruiting scandal at his most recent stop - the University of Kentucky.

Although he was not named in the NCAA charges that led to sanctions against the school, he resigned under pressure at the end of the 1989 season.

Sutton replaces Leonard Hamilton, who in four years at Oklahoma State produced a 56-62 record and then took the head coaching job at the University of Miami.

Hamilton was one of three Big Eight coaches to leave the league at the end of the campaign. Colorado's Tom Miller was fired and Kansas State's Lon Kruger left to take the Florida Gators coaching job.

Sutton began his head coaching career at Creighton University and came to the University of Arkansas for the 1974-75 season. His Razorback teams did not have a losing record in his 11 seasons. The 1978 Arkansas team reached the Final Four before losing to Kentucky.

Sutton's popularity in Arkansas, however, began to wear thin early in the 1980s and when Kentucky offered him its basketball job following the 1984 season he jumped at it.

''I would have crawled here (to Lexington, Ky.) for this job,'' Sutton said when he accepted the position in Kentucky, further angering the fans in Arkansas.

Sutton's first Kentucky team went 32-4, won the Southeastern Conference championship and made it to the final eight in the NCAA tournament before losing to LSU - a team the Wildcats had beaten three times that campaign.

After an 18-11 record during the rebuilding 1987 season, Kentucky went 25-5 in 1988 - again winning the SEC championship and three NCAA tournament games. But the league title was taken away because of the probation.

With controversy swirling around Sutton during the 1988-89 season because of the ongoing NCAA investigation, the Wildcats went 13-19.

Sutton inherits a team that finished fifth in the Big Eight last season but one which has four of its five starters back. They include

all-conference center Byron Houston.

The Cowboys are under pressure to run a clean basketball program because of its ongoing four-year probation in football. Any NCAA violation - no matter what the sport - would make the school subject to receiving the ''death penalty'' from the NCAA.

#90101u2127 04/11/1990 ~United Press International

ANCHORAGE, AK (APRIL 11) UPI - Exxon must restore the soiled Alaska environment after it completes the oil spill cleanup, Secretary of Interior Manuel Lujan said Wednesday after spending two days touring areas hit by the Exxon Valdez spill.

But while calling on Exxon to restore oily shores to pre-spill conditions, Lujan called for a resumption of offshore drilling that was halted in the wake of the Mar. 24, 1989, Exxon Valdez, grounding and 11 million-gallon spill, America's worst.

Lujan said it was time to lift moratoriums on offshore drilling in California, Florida and Alaska, and he predicted approval for controversial drilling in the Arctic National Wildlife Refuge in northeast Alaska and a federal oil tract auction there in 1993.

Speaking to the Anchorage Chamber of Commerce and to a news conference, Lujan reiterated the need for more environmental effort by Exxon, but his overall message was that the Bush administration wants to get back into the federal oil tract leasing business.

Federal offshore oil and gas leasing was put on hold in various places and Congress even placed a moratorium on drilling in Alaska's Bristol Bay, a rich fishing ground where leases had been sold before the Exxon Valdez spill.

''We're looking for all kinds of ways to open it up,'' Lujan said of federal offshore areas pinpointed for drilling. ''We're very dedicated to move ahead with it again in an environmentally sensitive manner.''

Money might convince state opponents of drilling to change their minds, Lujan said. ''One of the things we're looking at is to share oil revenues with the local communities so the local community doesn't just have the impact and no money to take care of it. So that might reduce some of the opposition.''

Lujan said he had neither the authority nor the desire to cancel the Bristol Bay lease sale - which three Alaska governors tried unsuccessfully to stop until Exxon's spill prompted the congressional moratorium - and

Lujan added, ''If I do it for Alaska, then Florida will be asking us to do the same thing, and I'll never be able to lease another inch of ground anywhere because every state will come in and say, 'Cancel that lease.'''

Lujan said, ''The solution to that, if somebody doesn't want us to drill, you go buy those leases and you can do whatever you want with them.''

Although a task force has yet to make recommendations for California and Florida where offshore drilling was put on hold, Lujan said he was looking for a way ''to jump start'' the stalled oil leasing plans.

The oil industry's most sought-after territory for drilling is the coastal plain of the Arctic National Wildlife Refuge, now off limits to drilling unless Congress permits it. Environmentalists have been waging a battle to protect the refuge from development, but the oil industry appeared to be gaining ground in its desire to get rigs onto the tundra - until the Exxon spill, which prompted Congress to shelve the entire issue.

#90101u2142 04/11/1990 ~United Press International

SAN SALVADOR, EL SALVADOR (APRIL 11) UPI - The Salvadoran military Wednesday said an arms shipment intercepted in Honduras over the weekend was being shipped by Nicaragua's Sandinista government to leftist rebels in El Salvador.

''Military authorities of the Republic of Honduras decomissioned last weekend arms and medicine destined for terrorists of the FMLN (Farabundo Marti National Liberation Front),'' the Armed Forces Press Committee said in a statement.

''They (the weapons) did not just come from Nicaragua,'' a military spokesman told United Press International. ''They came from those who are in power. From the Sandinistas.''

On Saturday, Honduran soldiers discovered a truck carrying 27 AK-47 assault rifles with bayonets, cartridges and material for making explosives, the press release said. It said the weapons were being transported in a truck driven by two Salvadoran men ''who were part of a logistical unit of the FMLN in charge of transporting weapons from Nicaragua via Honduras to the terrorists in El Salvador.''

Nicaragua's Sandinista government has been a major ally of the FMLN in its decade-old guerrilla insurgency against successive U.S.-backed Salvadoran governments. More than 72,000 people have been killed in the war or related political violence.

The Sandinistas' February election defeat has raised fears within the

Salvadoran army that the lame-duck Nicaraguan administration would try to get as many weapons as possible to the FMLN before it leaves office April 25.

''We are maintaining constant operations on the Honduran border and in the Gulf of Fonseca to prevent arms shipments from Nicaragua to the FMLN,'' the military spokesman said.

Jefferson Brown, a spokesman for the United States Embassy in San Salvador said the arms shipment was destined for Salvadoran rebels.

''Given that there were FMLN people arrested, there is little doubt about the destination,'' Brown said.

FMLN commanders have recently tried to minimize the effect of losing their only ally in Central America will have on the rebels military capabilities. They claim to buy weapons from black market sources, including the U.S.-backed Contra rebels that have fought the Sandinista government for nine years.

''It would not be surprising if they (the FMLN) pick up some arms from the Contras, but far and away everyone recognizes the main source of weapons is via Nicaragua,'' Brown said.

The weapon most commonly used by the Contras is the M-16 assault rifle, provided by the U.S. government. But Contras that operate in the mountains of northern Nicaragua often carry AK-47s, presumably taken from the Sandinista army.

A high-ranking Salvadoran military officer recently estimated during an interview that the Salvadoran rebels have enough stored war material to last two years.

NEW DELHI, INDIA (APRIL 11) UPI - A bomb exploded Wednesday in the

crowded car of a rush-hour train in the western port city of Bombay, injuring 31 passengers and ripping open the roof, the Press Trust of India news agency said.

The explosion occurred as the train packed with office workers approached the Malad station in Bombay, 750 miles southwest of New Delhi, the news agency said.

The bomb exploded with a deafening roar, ripping off the roof of the car and damaging the interior extensively, the agency said. Witnesses told the Press Trust they saw people jumping out of the railway cars in a panic before the train came to a hal.

Thirty-one passengers were injured, 18 of them seriously.

Train services were interrupted for several hours until the debris was cleared from the tracks, the Press Trust reported.

Western Railway General Manager K. Subramaniam announced a relief payment of 750 rupees, about $44 dollars, to the injured. No one claimed responsibility for the bombing.

The blast occurred a day after powerful bombs exploded inside two police stations in a western district of New Delhi, injuring 10 policemen and damaging the buildings.

India is being rocked by separatist violence in northern Punjab state and neighboring Moslem-dominated Jammu and Kashmir state.

Sikh extremist groups have been waging a bloody campaign since 1983 to create an independent theocratic state in Punjab. More than 7,000 people have died in the campaign, which has occasionally extended to other parts of northern India.

There have been no known attacks staged outside of Kashmir by Moslem separatist groups waging a drive since 1988 for the secession of the Himalayan region. The campaign turned into a mass uprising in mid-January following firing on demonstrators by security forces.

#90101u2211 04/11/1990 ~United Press International

(APRIL 11) UPI - World crude oil prices, spurred by an unconfirmed rumor the OPEC oil cartel would meet to discuss an emergency limit on output, bounced back Wednesday from six days of losses that saw crude lose about 14 percent of its traded value.

The benchmark West Texas Intermediate U.S. crude for May delivery rose 38 cents to $18.06 a barrel on the New York Mercantile Exchange, after trading as low $16.25 and as high as $18.49 a barrel. The Merc could not say whether or not this $2.24 swing in prices set a daily record.

Prompt delivery WTI gained 60 cents to $18.10 a barrel on the U.S. Gulf Coast cash market.

WTI prices had fallen 13.8 percent, or $2.85 a barrel, over the six-day Merc trading period ending Tuesday, in concert with a buildup of U.S crude supplies and overproduction by the 13-nation Organization of Petroleum Countries.

And a report by the American Petroleum Institute late Tuesday after the market had closed that U.S. crude inventories grew a surprisingly large 8.1 million barrels last week set the stage for further selling Wednesday.

Triggered by the API report, prices nosedived more than $1.40 in early Merc trading before bottoming out, analysts said.

''After several days of declines unprecedented in the last couple of years the market found itself in a state of selling exhaustion,'' said Mary Haskins of Paine Webber Inc. in New York.

Prices had then begun to drift back up from a sheer lack of sellers when the market was hit by an unconfirmed rumor that members of the OPEC cartel which pumps more than a third of the world's crude, would hold an emergency meeting.

Haskins said the market was then swept by the traders' axiom, ''Buy the rumor and sell the fact.''

OPEC has attempted to support higher world prices by holding production to 22 million barrels a day for the first six months of 1990.

The attempt has been severely weakened by Kuwait and the United Arab Emirates flagrantly cheating on their quotas. Cartel output had risen to about 24 million barrels daily and crude has flooded world markets as a result.

No comment on the rumor could be obtained from OPEC headquarters in Vienna. David Mizrahi, editor of the respected Mideast Report in New York, said he also could not confirm the rumored meeting.

In any event, Mizrahi discounted the possibility of the cartel doing anything effectively to limit output before OPEC's regularly scheduled semiannual meeting, set for May 25.

Haskins said Wednesday's rebound was ''a correction that analysts had been looking for the last couple of days.''

She expected the upward correction to continue for the next few days before crude prices again begin a downward plunge.

''I expect WTI to decline to about $14 a barrel over the next four to six weeks. There's just too much crude around,'' Haskins said.

Unleaded gasoline for May delivery rose 1.15 cents on the Merc Wednesday to 55.58 cents a gallon. It had fallen 7.65 cents, or 11.6 percent, in the six trading sessions through Tuesday.

Prompt delivery gasoline rose 0.75 cent on the New York Harbor cash market to 59.80 cents a gallon.

On the European spot market, Britain's widely traded North Sea Brent gained 45 cents to $16.30 a barrel after being down 23 cents in earlier trading. It had lost $2.45, or 13.4 percent, over the same six days of trading.

United Arab Emirates' Dubai light - the key OPEC crude from the Middle East shipped mainly to the Far East - rocketed 80 cents to $14.20 a barrel after also being down 23 cents earlier. It had fallen $2.30, or 14.6 percent, over the six-day period.

On the Merc, heating oil for May delivery gained 1.23 cents to 53.63 cents a gallon. On the New York Harbor cash market, prompt delivery heating oil gained 0.50 cent to 58.65 cents a gallon.

Crude prices had weakened slightly after a mid-March OPEC meeting. The

cartel failed to take any action to curb quota cheating by Kuwait and the United Arab Emirates.

The fall began in earnest April 3, after the respected Petroleum Intelligence Weekly reported that Saudi Arabia, OPEC's largest producer and long the enforcer of cartel quotas, would instead raise output to maintain its share of the cartel's market.

Almost simultaneously, the API announced a substantial buildup in U.S. crude supplies for the second week in a row.

#90101u2247 04/11/1990 ~United Press International

BOGOTA, COLOMBIA (APRIL 11) UPI - A powerful car bomb killed 14 people and wounded more than 100 others Wednesday along a busy highway near the drug cartel stronghold of Medellin, authorities said.

The bomb apparently was detonated by remote control on the highway leading to the town of Itagui, 6 miles south of Medellin, about 1:30 p.m. as an elite police force patrol rode past, officials said.

Six civilians and eight policemen, including one ranking officer, were killed in the blast, which also destroyed 10 cars, said Carlos Palacios, Secretary of the Itagui City Hall. He said there were many children among the 100 wounded in the explosion.

Although a radio station in Bogota reported the drug cartels had taken responsibility for the attack, authorities said they did not yet know who expoded the bomb. Police cordoned off the area and searched for suspects.

Witnesses said buildings within 1,000 feet the blast were destroyed.

''It was huge. I spent a year in Vietnam and I just flashed back,'' said David Thompson, a U.S. writer who was in Itagui at the time of the explosion.

''It was a huge explosion and I have no doubt that it was a ton (of dynamite),'' Thompson said by telephone from Medellin.

Hospital spokesmen said several of the wounded were in serious condition.

''The hospitals are full,'' said Dr. Luis Ramirez, director of the Itagui clinic. ''We asked for the cooperation of the government of Medellin to transfer the severely wounded patients.''

Last week police defused a 1,500-pound car bomb planted by the drug lords in a residential area of Bogota near the homes of several prominent

government officials. More than 200 people died last year in a four-month drug cartel bombing spree in the capital and Medellin, home of the country's most prominent cocaine cartel.

Earlier Wednesday, a police official said Medellin drug lord Pablo Escobar was still hiding in Colombia, contradicting press reports he had fled to Venezuela.

Chief of Security Police Gen. Miguel Maza Marquez said Escobar, who heads the U.S. Justice Department's list of the 12 most wanted Colombian drug traffickers, had undergone plastic surgery and was planning to flee the country with a counterfeit passport.

Police also captured a Colombian wanted on drug trafficking charges and arrested a hitman allegedly involved in the March 22 assassination of a leftist presidential candidate, news reports said Wednesday.

Jairo Alzate Correa, charged with smuggling cocaine into the United States was arrested on a ranch Tuesday in La Dorada, the national newspaper El Tiempo reported.

Alzate Correa, believed to be a member of the powerful Medellin cocaine cartel, was brought to a high-security jail in Bogota while judges prepared to extradite him to the United States to stand trial, the newspaper said.

The report could not be immediately confirmed with the judicial police.

Press reports also said police had captured a cartel hitman who arranged the assassination of leftist presidential candidate Bernardo Jaramillo, who was shot in a Bogota airport by a 16-year-old.

Authorities caught Gustavo Adolfo Mesa Meneses, alias ''El Zarco,'' last week, the reports said. They quoted police authorities as saying Mesa Meneses was involved in several assassinations ordered by the Medellin cartel.

(APRIL 11) UPI - NASA officials say it will be anywhere from one to two weeks before the shuttle Discovery can attempt a launch to put the one and one-half-BILLION-dollar Hubble Space Telescope into orbit. Engineers at the space agency are mulling over a variety of options for repairing Discovery's power steering system. The shuttle was grounded yesterday, minutes before scheduled lift-off when one of the system's power units failed.

A Cuban immigrant described as a jealous lover was arraigned today on 174 counts of murder for allegedly setting last month's fire at a New York social club. Julio Gonzalez pleaded innocent before a state Supreme Court judge in the Bronx. Gonzalez is charged with two counts of murder for each victim who died in the smoky blaze at the Happy Land social club.

The F-B-I says a Cuban national wanted for 12 years for the bombing death of a Chilean ambassador in Washington was arrested early today at his home in St. Petersburg, Florida. Jose Esquivel is charged with conspiring to murder Orlando Letelier, who was killed by a car bomb in September 1976 in Washington. One other person was killed in the attack.

Authorities at California's Vandenberg Air Force Base say a 29-year-old Atlas-E rocket successfully blasted off this morning... firing three small research satellites into orbit. The satellites are carrying four scientific experiments. The spacecraft also will test an experimental satellite deployment mechanism. The mechanism will allow the release of two objects into space at once.

(APRIL 11) UPI - At 10 minutes before noon today in Czechoslovakia, car horns blared and shopkeepers closed their doors for 10 minutes to support a strike called by the opposition movement Civic Forum. The strike was called to demand that the Communist Party hand over property that it took illegally during four decades of monopoly rule. Even the official Czech news agency joined in the work stoppage.

Surveys conducted in West Germany and the United States show that most Americans and West Germans questioned favor German re-unification. The study also showed that most Americans believe that a united Germany would NOT threaten European peace. The surveys were conducted in March by the University of Michigan's Institute for Social Research and a West German research institute.

#90101u2366 04/11/1990 ~United Press International

WASHINGTON (APRIL 11) UPI - U.S. banks now perceive increased risks in lending to Eastern European countries and will resist being used by Western governments to implement a public policy agenda in the region, bankers said Wednesday.

Paul McGonagle, senior vice president at First National Bank of Chicago, told a U.S. Chamber of Commerce symposium on doing business in Eastern Europe and the Soviet Union that Eastern Europe's creditworthiness has deteriorated because the region's political and economic liberalization could ''exacerbate'' current social tensions.

By contrast, officials from multilateral organizations and the U.S. government said Eastern European countries will receive massive international financial and technical assistance and will see a loosening of the rules that have prohibited Western exports of sensitive technologies to communist nations.

U.S. private banks see a danger that Eastern Europe's political

liberalization and economic reform might be reversed and a great deal of ''variance'' in the possible results of such efforts, thus producing a perception of increased lending risk, McGonagle said.

As a consequence, lending to heavily indebted Eastern governments in support of balance of payments will be limited, and U.S. banks will favor participatingin equity investments, joint ventures, trade financing and customer-based operations, the banker said.

Banks will also be active in debt-for-equity swaps, external debt management and risk insurance, he said.

At the same time, ''banks will resist'' actions concerted by Western governments to help Eastern Europe, although they recognize their responsibility to provide financing to the region, McGonagle said.

''Banks have no role to play in implementing a public policy agenda,'' he added.

One government-concerted action suggested by some private economists could be a writedown of Eastern Europe's massive foreign debt.

McGonagle predicted U.S. banks will not try to establish extensive networks of branches in Eastern Europe due to the limitations of the financial markets in local currencies.

Nicholas Rey, managing director at the New York investment bank Bear, Stearns & Co. and director of the Polish Enterprise Fund, echoed McGonagle claiming the 1990s ''will be the era of equity - no lending - investment.''

Rey noted that private equity investors are willing to pour money into Eastern Europe as long as they have assurances of a ''key exit strategy'' allowing them to withdraw both their principal and profits from the area.

To help the technological and economic development of Eastern Europe, the United States and its allies expect to significantly lift restrictions on the exports of telecommunications equipment, computers and machine tools to the region, Dennis E. Kloske, Commerce undersecretary for export administration, said.

Kloske noted that for the Soviet Union some liberalization of such exports may be allowed, but only on a ''case-by-case'' basis, when U.S. officials meet their Western counterparts in Paris June 7-8.

Officials from the World Bank, the International Monetary Fund and several U.S. government agencies told the symposium that they are willing to support private investments in Eastern Europe with financial aid, risk

guarantees and technical and marketing assistance.

Deputy Secretary of State Lawrence S. Eagleburger cautioned, however, that U.S. support for Eastern European countries is subject to further progress in political and economic reform.

#90101u2413 04/11/1990 ~United Press International

LIMA, PERU (APRIL 12) UPI - Novelist Mario Vargas Llosa will announce next week whether he plans to abandon the presidential race after a neck-to-neck finish in the opening round of a two-stage election, a source close to the candidate said Wednesday.

Vargas Llosa was ready to withdraw Tuesday but postponed his decision after discussions with campaign workers and allied politicians in the Democratic Front, the source said.

The writer barely edged out darkhorse candidate Alberto Fujimori, 51, in general elections Sunday. The latest projections by the polling group Apoyo shows Vargas Llosa with 30.9 percent of the vote compared with Fujimori's 28.5 percent.

Official results from the election were not expected for at least two weeks. But since neither candidate received more than 50 percent of the vote, the election was thrown intoto a runoff that will be held either in the last week of May or the first week in June.

Vargas Llosa was considering withdrawing because Peruvians had not given him the ''clear mandate'' needed to successfully implement measures to combat the serious economic and social problems in Peru, the source said.

Vargas Llosa said he planned to retreat to an undisclosed location outside Lima for Easter weekend to decide whether he will continue his bid for the presidency or concede, the source said.

The two candidates met for 13 minutes Tuesday, and though details of their discussion were not released, political observers speculated the two men talked about Vargas Llosa's possible withdrawal.

When the first election results began coming in Sunday afternoon, Vargas Llosa suggested that the two candidates try to find a way to avoid a second round of balloting, meaning that one of the men would necessarily have to withdraw from the race, but at that time Fujimori rejected such a meeting.

Fujimori, a former university president and head of the Change 90 Party, released a statement Wednesday saying Vargas Llosa did not have the right

to withdraw.

''Neither of the two candidates has the right to substitute, in a dialogue such as the one proposed by (Vargas Llosa), the popular will to elect the national head of state in a second electoral round,'' Fujimori said.

''We discard any possibility that one of the candidates may renounce his constitutional, political and moral responsibility to participate in the second electoral round,'' he said.

Fujimori was expected to get the support of the American Popular Revolutionary Alliance, the party of President Alan Garcia, whose candidate finished third in Sunday's presidential election. He also was likely to win the backing of two leftist coalitions. Garcia was constitutionally barred from seeking re-election.

Vargas Llosa, 54, entered politics at the head of a center-right coalition. He proposed a severe economic ''shock'' program of cutting government spending, freeing exchange rates and slashing subsidies to control Peru's inflation, which reached 2,775 percent in 1989.

The program appeared to frighten voters, who turned to Fujimori, an independent, as an alternative to the three other main choices: Vargas Llosa, the left and the now unpopular party of Garcia.

#90101u2448 04/11/1990 ~United Press International

(APRIL 11) UPI - Snow dusted a wide area of the eastern part of the United States, the Midwest and the Rockies Wednesday, while the threat of severe snowfall eased in New England.

The National Weather Service reported light snow showers over northern Maine Thursday afternoon.

The storm that accumulated in recent days had left 12 inches of snow at Telos Lake, Miane, 9 inches at Grand Lake Matagamon, Maine and 8 inches at Clayton Lake., Maine.

Light snowshowers scattered over northeast New York state from south-central Pennsylvania across eastern West Virginia over northern Indiana and portions of Michigan, Wisconsin, Illinois, Iowa, Minnesota, Montana and Wyoming.

The weather service said temperatures slipped into the teens and 20s early Wednesday in Michigan and Wisconsin. Illinois, Indiana and Ohio recorded temperatures in the 30s and low 40s, about 20 degrees cooler than normal.

After a day and a night of nearly non-stop rain, skies brightened somewhat in Ohio. Up to 2 inches had fallen since daybreak Tuesday, the weather service said. Flood warnings were issued for the Huron River at Milan and the Cuyahoga River at Independence.

The chilly temperatures were accompanied by snow flurries in central Wisconsin as strong northerly winds in the upper atmosphere pushed a cold Canadian air mass into the area.

A winter storm warning was canceled Thursday afternoon across northern Maine.

Vermont was peppered with blustery northwest winds that changed rain to wet snow and made highways slippery. Southwest winds gusted to 60 mph over much of the Massachusetts coast.

''Motorists in eastern Massachusetts, including Cape Cod and the islands, should be alert for strong shifting winds. Pedestrians will find walking difficult (and) umbrellas will not be of much help in this wind,'' the weather service said.

The mid-Atlantic states experienced sometimes heavy rain. Maryland, Pennsylvania, West Virginia, and southern New Jersey were all besieged by rain and at times by high winds.

In Pennsylvania, temperature lows ranged in the 30s and 40s in western areas and in the 40s and 50s in the eastern part of the state. West Virginia saw lows in the 40s, while Maryland and New Jersey saw lows mostly in the low 50s.

#90101u2582 04/11/1990 ~United Press International

ANALYSIS BY JOAN HANAUER

NEW YORK (APRIL 11) UPI - Zsa Zsa Gabor has added a new charity to causes she already works for - the shelter for homeless women where she was ordered to put in 120 hours of community service after she was convicted of hitting a cop.

Zsa Zsa, trilling along in her famous Hungarian accent during a telephone interview, talked about it and about her guest appearance on the CBS series ''City'' Monday, Apr. 16.

She plays Babette Croquette, the head of Babette Cosmetics, whose defective tanker is leaking vast quantities of oil into a river - not crude, dahling, but purple hair oil. Valerie Harper as city manager wants to make her pay for the cleanup.

Babette's exit in the show, which involves a young cop, makes fun of her brush with the law, but in real life Zsa Zsa is still fuming. The incident however, had an upside.

She has long been active in fund-raising for animal rights and environmental causes. Now she also wants to help LIEU-CAP, Low Income Elderly United Community Assistance Program, where the judge ordered her to work.

''I believing in saving the innocent and the ones that cannot complain,'' Zsa Zsa said.

''LIEU-CAP is a place in Venice (Calif.) for homeless women and older people. It's a place where homeless people can stay 60 days, no questions asked. I worked more than 120 hours, I worked about 135 hours. I hired two

wonderful women with children who had no place to go to work for me.

''One of them has this beautiful child. The father made a baby, goodbye, good luck. The child is so gorgeous, I almost feel she is mine, I love her so much.

''I am giving a big party for LIEU-CAP June 8. The tickets will be $250 a couple. I will make an auction and we will try to raise at least $200,000. That's not difficult in California. If a woman gives $25,000 for a dress, she should give $250 for a good cause. Valerie Harper - she's the most wonderful, intelligent, brilliant woman to work with - said she will help and so will Bob Hope.''

The cop incident and trial, she said, have resulted in her getting more work than ever.

''I built up this funny, crazy, diamond-loving character myself. It paid good on television and I had my daughter to support,'' she said. ''It's like Marilyn Monroe. She was a sweet, darling, shy, uneducated woman and the movie studio built up that love goddess character and she couldn't live up to it. She had no education. She killed herself.

''I have worked hard all my life without stopping to be a successful actress.''

She said she is writing her autobiography for Delacorte, and the book also will be made into a movie.

''We have to find a 15-year-old Zsa Zsa for the movie,'' she said, ''and I will play my mother when we lived in Budapest. Michael Caine will play one of my ex-husbands (probably George Sanders) and I hope and pray to get Clint Eastwood to play (ex-husband) Conrad Hilton. He would be perfect.''

Zsa Zsa hopes Ivana Trump will learn from her example about the Plaza and other Trump hotels.

''I owned the Plaza at the age of 17,'' Zsa Zsa said. ''Hilton bought me the Plaza. When I got divorced my mother said I was so dumb not to have gotten a suite at all the Hilton hotels for life.''

She added, ''To survive you need three senses of humor, not just one.''

The latest audacious move from Fox Broadcasting is a half-hour show titled ''In Living Color,'' starring Keenen Ivory Wayans.

The comedy sketch series makes its debut Sunday, Apr. 15, 9:30-10 p.m. Eastern time, then goes into its regular time period Saturday, Apr. 21, 9-9:30 p.m.

Although there's a sizable cast, including dancers, the show in many ways is a one-man tour-de-force because Wayans also is the executive producer and writer.

Wayans and Fox are not afraid of risque humor, nor an occasional ethnic jab in the ribs.

Wayans scores with the Homeboys Shopping Network. Two young black men keep up a steady sales patter from the back of a loaded truck. They start out offering all sorts of automobile accessories, then add that if you act now they could probably get the car, too.

Then there are the gold chains, ''some of them broken in transit.'' They try to sell the kind of top-of-the-line TV sets you find in luxury hotels. The next item of merchandise is a stack of Gideon Bibles.

''In Living Color'' isn't afraid to take a chance, which means some of the material works; some does not. What you can be sure of is surprises, and on television, unpredictability is a rare asset.

#90101u2602 04/11/1990 ~United Press International

AMMAN, JORDAN (APRIL 11) UPI - About 200 protesters jeered U.S. Senate minority leader Robert Dole in the Jordanian capital Wednesday night as he emerged from a dinner with King Hussein, witnesses said.

The protesters, who later dispersed peacefully, carried banners which read: ''Bush courageous, Senate outrageous,'' and ''Playing with Jerusalem is playing with fire,'' the witnesses said.

The protest was an apparent expression of Jordanian and Palestinian anger over the U.S. Senate's recent vote endorsing a unified Jerusalem,

including the predominantly Arab eastern part, as the capital of the Jewish state.

Dole arrived in Amman from Cairo on Wednesday for talks with Jordan's King Hussein and was later expected to fly to Baghdad to meet Iraqi leader Saddam Hussein, state-owned Cairo Radio reported.

The outspoken senator later told members of the Arab-American Anti-Discrimination Committee, who organized the protest, that King Hussein has ''affirmed that what he wants is peace.''

Dole told reporters the object of his tour was to promote peace in the troubled region.

''It is important to get the peace process going, and that's why we are here ... We hope peace will come to the region,'' he said.

Dole added that the U.S. Senate vote on Jerusalem was not binding on the administration. ''It was not signed by President Bush,'' he said.

Dole and other members of the Senate accompanying him were handed a protest memorandum stating that the Senate vote ''violates the Hague regulations and Geneva conventions of human rights and violates Palestinian political rights.''

Dole, R-Kan., is leading a delegation that includes Sen. James McClure, R-Idaho, Sen. Alan Simpson, R-Wyo., Sen. Charles Grassley, R-Iowa, and Sen. Howard Metzenbaum, D-Ohio.

The group initially was scheduled to visit Israel after Jordan. But Egyptian President Hosni Mubarak, during talks Monday with Dole, arranged for the U.S. senator to meet with Saddam in Baghdad Thursday. Cairo Radio quoted U.S. diplomatic sources in Baghdad as saying the meeting with Saddam was on, although Iraq has yet to officially confirm this.

Dole's trip to Iraq comes at a time of increased tension between Baghdad and some Western governments because of Saddam's threat last week to wipe out half of Israel with poison gas if the Jewish state repeated an attack like the 1981 bombing raid on a nuclear reactor under construction near the capital.

Iraq angered Britain last month by hanging a London-based journalist, Farzad Bazoft, on alleged spying charges. British customs agents later foiled an Iraqi attempt to smuggle U.S.-made nuclear triggers through London, leading to fears that Saddam was close to manufacturing a nuclear bomb.

CHARLOTTE, NC (APRIL 11) UPI - Loans totaling $145 million have been approved to help owners of homes and businesses in North Carolina and South Carolina recover from Hurricane Hugo, the Small Business Administration reported Wednesday.

The SBA regional office in Charlotte said 90 percent of the 15,409 applications from owners of homes and businesses have been processed and approval granted for 7,850 loans, an approval rate of about 62 percent.

The SBA also said it processed 84 percent of the 29,948 applications received from residents of Puerto Rico and the Virgin Islands, also struck by the hurricane last year. The agency approved payment of $179 million to 14,259 applicants, also a 62 percent approval rate.

The SBA said it approved $371 million in loans for homes and businesses affected by the northern California earthquake that struck last fall in the San Francisco and Oakland areas.

The agency has so far processed 83 percent of the 22,892 applications received from home and business owners as a result of the earthquake. The approval rate to date is 67 percent.

The SBA is the federal government's primary relief lending agency, providing low-interest loans with terms of up to 30 years to help homeowners, renters and business owners with disaster-related damages.

#90101u2763 04/11/1990 ~United Press International
INDIANAPOLIS (APRIL 11) UPI - Several hundred mourners turned away from Ryan White's funeral Wednesday stood in a cold, stinging rain outside the Second Presbyterian Church to pay their last respects to White.

''It means the world to me to be here to share the grief,'' said Tim Oliver, 23, who drove from Dayton, Ohio, to attend.

Oliver and two friends were among the 500 turned away after more than 1,000 people had filled the church, one of the largest in the state.

''Ryan deserved all these people to come here today. We just feel like we should be here,'' Oliver said.

White died Sunday after a five-year struggle against acquired immune deficiency syndrome. His legal battle to attend public school in 1985 and his subsequent educational efforts against the ignorance and unreasoned fear that surrounded AIDS captured the nation's attention.

''I just came to pay my respects to a really strong kid. He was a fighter '' said Robert Ward, 20. ''I think he was a really great kid; a really great man.''

Ward was among those who waited outside during the service, many of whom gathered under an awning erected for the media at the rear entrance to the church, where White's coffin was wheeled out to a waiting hearse after the service.

Several people gathered around a miniature hand-held television to watch and listen to a live broadcast of the funeral.

Most in the group, while subdued, joked about the weather and talked of a kinship with White some found hard to explain.

''I didn't really know Ryan. He just seems close to me,'' said Jennifer Thompson, 16, an Indianapolis high school student.

Deborah Rinker, 19, who attended Hamilton Heights High School with White before graduating last year, said she regretted not getting to know White personally.

''I wish I could have said I knew him, and this is the last time I will ever get to see him,'' she said.

Amanda Hurst, of Avon, Ind., struggled to answer what it was about White that drew her to the service.

''I don't know,'' she said, her eyes filling with tears, ''just courage, I guess.''

Hurst's father said he came to honor the Hoosier teenager whose life and death first illustrated that AIDS could strike anyone.

''Just for the grace of God, it could be her,'' said Mike Hurst, nodding at his 13-year-old daughter, the same age that White was when he first contracted the AIDS virus through a treatment for his hemophilia.

''Personally, he impressed me by the way he lived,'' said Harold Grosboll, 51, principal of a private school in Cicero. ''As I told my kids yesterday it's not important how long you live, it's how you live.''

At the end of the service, as the rain that had changed briefly to snow gave way to sunshine, those who had waited outside were joined by hundreds from inside the church to wait for a glimpse of White's coffin.

As they waited, they softly sang ''Amazing Grace.''

#90101u2911 04/11/1990 ~United Press International

(APRIL 11) UPI - The U-S rejects a Soviet proposal... President Bush talks to Baltic-American leaders... a U-S soldier charged with murder during the Panama invasion... and the funeral of Ryan White. Those stories and more, next from U-P-I.

The NATO alliance and the United States are reacting coolly to a Soviet proposal that a united Germany be a member of both NATO and the Warsaw Pact.

The proposal by Soviet Foriegn Minister Shevardnadze appeared in an article in the magazine ''NATO's 16 Nations.'' It calls specifically for a new pan-European security system to eventually replace the two Cold War alliances.

Shevardnadze's proposed Greater Europe Council would be comprised of the 35 conference members, which are all from Europe except for Albania... plus the United States and Canada. It would include a War Risk Reduction Center in Berlin and perhaps what is termed a ''minor inter-bloc peace-keeping force.''

But statements by NATO and the White House make the plan moot.

A NATO spokesman says the Western alliance is NOT considering the possibility of western Germany remaining for a transitional period in NATO

while the eastern part stays in the Warsaw Pact.

In Washington, White House spokesman Marlin Fitzwater read a statement saying ''The United States believes that a unified Germany should be a full member of NATO.''

#90101u2917 04/11/1990 ~United Press International

(APRIL 11) UPI - President Bush is rejecting appeals for even indirect recognition of the Soviet republic of Lithuania as a independent state.

Bush today invited a group of Baltic-American leaders to the White House to vent their concerns and recommendations for U-S policy.

The group expressed gratitude for the symbolic show of support from the White House... but failed to persuade Bush to alter his cautious handling of the Lithuania crisis.

Tony Mazieka of the Baltic-American Freedom League says Bush is sympathetic to the plight of the Baltic republics. However, he said Bush remains reluctant to antagonize Soviet President Gorbachev with more support for Lithuania.

A White House spokesman summarized U-S policy, saying- in his words- ''The United States must avoid taking actions that would inadvertently make Lithuania's task more difficult by inflaming the situation.''

-30- 1055

#90101u2934 04/11/1990 ~United Press International

(APRIL 11) UPI - Analysts say it appears certain that NO major arms reduction treaty will await Presidents Bush and Gorbachev at next month's summit meeting.

That view comes from the Arms Control Association... a private organization that has monitored recent U-S-Soviet arms negotiations. Association experts say Moscow has backslid on previously proposed arms reduction measures.

As they see it, this results from Soviet concern over the troubled situation in Lithuania... Soviet military opposition to any big arms cuts... and Moscow's concern over German re-unification.

But despite the outlook for NO major break-through on armaments, some progress will be made when the two leaders begin their U-S talks on May 30th. Bush and Gorbachev are expected to sign agreements limiting nuclear testing and to destroy some chemical weapons.

As Association analysts view the situation, additional negotiations will be needed before an accord is reached on strategic nuclear weapons and conventional forces reductions.

-30- 1189

#90101u2950 04/11/1990 ~United Press International

(APRIL 11) UPI - First lady Barbara Bush and rock singer Elton John will join mourners this afternoon in Indianapolis at funeral services for AIDS victim Ryan White.

The 18-year-old White died on Sunday after waging a five-year battle against the disease and discrimination against its victims.

White was diagnosed with AIDS in December 1984 after contracting the virus from a blood-clotting agent used to treat his hemophilia. He was told he might live six months to one year, but he survived more than five years.

The Reverend Ray Probasco, a Methodist minister and friend of the White family, will deliver the main sermon. Elton John, a friend of White's... is expected to sing his own ''Skyline Pigeon'' and lead the Lord's Prayer.

John... football player Howie Long... talk show host Phil Donahue... and three of White's high school friends were asked to be pallbearers.

The funeral service will be held in the Second Presbyterian Church, which was chosen because it was one of the few churches near White's hometown of Cicero, Indiana, that could accommodate a large group of mourners.

Indiana Governor Evan Bayh ordered flags in the state flown at half-staff.

-30- 1344

#90101u2976 04/11/1990 ~United Press International

(APRIL 11) UPI - NASA engineers at Cape Canaveral are considering a number of options to repair the shuttle Discovery's power steering system.

Yesterday's scheduled launch was called off four minutes before liftoff when one of three hydraulic power units malfunctioned.

Engineers say a new launch date will NOT be announced until they have a better idea of how long it will take to make repairs. But the delay is expected to be at least one week, and possibly two.

Engineers today decided to remove the power unit's control computer and to ship it back to its manufacturer to determine if the controller... NOT the hydraulic unit... is the problem.

Discovery's five-member crew flew back to the Johnson Space Center in Houston to await developments.

Discovery's mission is to carry the one-point-five-BILLION-dollar Hubble Space Telescope into orbit.

A man accused of torching a New York City social club entered an innocent plea to a series of charges today.

Julio Gonzalez was arraigned on 174 counts of murder. That adds up to two charges for each victim of the March 25th Happy Land social club blaze.

The 36-year old Gonzalez... a Cuban immigrant... replied ''NOT guilty'' in Spanish as the charges were read in state Supreme Court in New York.

He was arraigned on 87 counts of second-degree murder and 87 counts of felony murder. He also was charged with one count of first-degree arson... one count of second-degree arson... one count of second-degree attempted murder and one count of first-degree murder.

Authorities charge that Gonzalez dumped one dollar's worth of gasoline in the entrance-way to the illegal club. They say he acted after quarreling with his girlfriend, an employee at the club.

#90101u3482 04/11/1990 ~United Press International

(APRIL 11) UPI - President Bush is ignoring appeals for any formal or informal recognition of Lithuanian independence. Bush met today at the White House with a group of Baltic-American leaders, who made recommendations for U-S policy. Although the United States never has formally recognized Soviet absorption of the Baltic republics in 1940... Bush does NOT want to risk a confrontation with Moscow.

A 112-nation conference in London ended today with the adoption of a 35-point plan to fight drugs. Delegates agreed to greater co-operation to detect and halt drug trafficking and the laundering of drug money, and to monitor and control trade of chemicals used in the manufacture of illegal drugs.

Although French President Mitterrand thanked Libyan leader Moammar Gadhafi for helping to free three European hostages in Lebanon... the French government is denying that it struck any deal to obtain their release. French Foreign Minister Dumas called Gadhafi's help a ''noble and humanitarian gesture,'' which would be reflected in future relations between Paris and Tripoli.

The United Nations High Commissioner for Refugees has issued an international appeal for funds following an unexpected influx of Indochinese boat people to Indonesia. Thousands of Vietnamese and Cambodian refugees are sleeping under plastic tents or in churches, offices and schools on Indonesia's Galang Island, south of Singapore.

The federal government is taking action following criticism that hundreds of people might have been needlessly crippled. The Public Health Service says it will inform about 19-thousand emergency room doctors nation-wide about the first effective treatment for spinal cord injury. Spinal cord injuries disable about 10-thousand Americans annually.

-30- 1939

#90101u3810 04/11/1990 ~United Press International

(APRIL 11) UPI - More than one-thousand people... including first lady Barbara Bush and singer Elton John... attended funeral services in Indianapolis today for AIDS victim Ryan White, who died Sunday at age 18. The Reverend Ray Probasco, a Methodist minister and friend of the White family... said- ''It was Ryan who first humanitized the disease called AIDS.''

British researchers are offering NO good news on the world's ozone problem. They say that the concentration of ozone in the lower atmosphere has more than doubled over the past century. And they expect the problem to grow worse in the next 30 years. Ozone in the upper atmosphere blocks ultraviolet rays from the sun. But in the lower atmosphere it causes respiratory disorders.

Interior Secretary Manuel Lujan says Exxon must restore the spoiled Alaska environment after it completes its oil spill cleanup. Lujan made his remarks after spending two days touring areas hit by last year's 11-Million-gallon Exxon Valdez spill. Lujan also called for a resumption of offshore drilling that was halted in the wake of the spill.

Authorities in Colombia say a powerful car bomb killed at least 14 people today along the side of a busy highway near the drug cartel stronghold of Medellin. Officials also say there were many children among the 100 wounded in the massive explosion. A radio station in Bogota reports drug cartels have taken responsibility for the attack.

#90101u4254 04/11/1990 ~United Press International
(APRIL 11) UPI - AIDS victim Ryan White buried... U-S rejects dual alliance for a united Germany... NASA tackles shuttle problems... and too much bad ozone. U-P-I has the top stories and more, next:

AIDS victim Ryan White... whose struggle against the killer virus brought worldwide attention to his plight... was laid to rest in a private, graveside service this afternoon in his hometown of Cicero, Indiana.

White died Sunday at age 18 following a five-year struggle against the fatal immune system disease. More than one-thousand mourners... including first lady Barbara Bush and singer Elton John... paid their respects.

John, talk show host Phil Donahue and Los Angeles Raiders defensive end Howie Long served as pallbearers, as did White's uncle and two school friends.

Singer Michael Jackson and actor Lukas Haas, who played White in the 1989 televison movie, ''The Ryan White Story''... also attended.

John arrived in Indianapolis April 2nd and kept a constant vigil at White's bedside until he died. At the service, John sang his song ''Skyline Pigeon,'' about breaking earthly bonds and soaring to the splendor of the heavens.

The casket was open throughout the service. White was buried in a pine casket, wearing his favorite clothes- blue jeans, a red shirt, a jean jacket, and sunglasses. His mother, Jeanne White, said the choice of clothing was her son's. She said Ryan had told her... ''Mom, I just want to be comfortable.''

-30- 1631

#90101u4276 04/11/1990 ~United Press International

(APRIL 11) UPI - NASA officials say their ''best-case scenario'' doesN'T have the shuttle Discovery taking off until April 20th.

A malfunction in Discovery's power-steering system scrapped yesterday's launch four minutes before lift-off. Space buffs- both professional and amateur- are especially excited about this mission, because it will put the one-point-five-BILLION-dollar Hubble Space Telescope in orbit.

NASA officials say if they have to replace a shuttle hydraulic power unit it will push the launch back an extra few days.

One official says- in any case- ''we've got a realy donnybrook on our hands to get to the 25th or 26th.''

The precious telescope presents thorny problems for NASA engineers. They're worried about contaminating the instrument during repairs to the shuttle.

If the Discovery payload bay has to be emptied before the launch can take place, the long-awaited satellite deployment could be pushed back until autumn at the earliest.

The extended delay is also threatening NASA's tight shuttle schedule for the rest of the year.

The State Department today flatly rejected a proposal by Soviet Foreign Minister Shevardnadze that a united Germany should remain in both NATO and the Warsaw Pact.

Shevardnadze floated the idea this week in the magazine, ''NATO's 16 Nations.'' He argued that it would be a mistake for the East and West

blocs to destroy the existing security systems without replacing them with new ones.

But State Department spokeswoman Margaret Tutwiler dismissed the proposal as another form of German neutrality... which she says Germany, its neighbors and the Soviet Union regard as undesirable.

The United States and NATO have taken a strong stand in favor of Germany's continued full membership in the Western alliance after unification.

The idea will come up at a meeting of the two Germanys, the United States, France, Britain and the Soviet Union... when the nations discuss a united Germany's future role in Europe.

#90101u4348 04/11/1990 ~United Press International

(APRIL 11) UPI - The 112-nation drug summit meeting in London today agreed to focus on cutting demand as the most effective way of fighting the war on drugs.

Conference participants adopted a 35-point plan at the close of the three-day meeting. One British official said ''we have broken new ground'' in the war on drugs.

The plan includes specific measures both to cut demand for drugs and to reduce the drug-supply network. The plan relies on education to cut demand

and greater cooperation between countries to choke off supplies.

The British government sponsored the conference- at the cost of one-Million pounds, or one-pointMillion dollars.

A retired civil rights attorney is trying to get the back pay... plus interest... he claims is owed his great-great-grandfather.

His grandfather was slain during the Civil War while serving in one of the first all-black Army regiments.

Charles Johnson, of Los Angeles, has written to President Bush and California Senator Alan Cranston seeking the 237 dollars.

A report quotes a Bank of America official saying that with compounded interest figured at six percent annually... the 125-year-old debt could reach as high as 345-thousand dollars.

Johnson says he doubts that he will see any money.

His reparation campaign was inspired by the Oscar-nominated movie ''Glory '' which tells the story of black Union Army troops who rejected their monthly wages because they were less than the pay of white soldiers.

In his request to Bush, Johnson mailed as proof copies of Emory Allen's enlistment and death notifications that indicate he received only 14 dollars' worth of clothing.

Said Johnson of his ancestor... ''This man died for his country. He had to really wanted to fight for something he loved... and I want that to be known.''

(APRIL 11) UPI - President Bush let the Soviet republic of Lithuania know indirectly today that he will NOT answer its pleas for formal recognition of its independence. Bush met a group of Baltic-American leaders at the White House to hear their recommendations for U-S policy. One said Bush does NOT want to risk confrontation with Moscow over the breakaway republic.

Senate minority leader Robert Dole was the target of pro-Palestinian demonstrations today during his visit to Jordan. Dole met with King Hussein in the capital of Amman. As he left the meeting, Dole was jeered by about 200 protesters attacking the recent U-S Senate move endorsing a unified Jerusalem as the capital of Israel.

Britain's Home Secretary has announced the immediate hiring of 200 new prison guards. The nation's penal system has been rocked by recent unrest at the Strangeways and Dartmoors prisons and at the Shots Prison in

Scotland. Six inmates surrendered today at Strangeways, leaving only a small pocket of resistance continuing an 11-day occupation there. At Shots Prison, a guard was freed today after being held hostage for 20 hours by 40 rebellious prisoners.

The Salvadoran military says an arms shipment intercepted in Honduras during the weekend was being shipped to leftist rebels in El Salvador by Nicaragua's Sandinista government. A military spokesman told U-P-I the truck carried 27 A-K-47 assault rifles with bayonets, cartridges and material for making explosives.

NEW YORK and STRATHCLYDE, SCOTLAND (APRIL 12) BUSINESS WIRE - Anderson Mavor Investments Ltd., an indirect wholly owned subsidiary of Anderson Group PLC, last night successfully completed its $8.875 per share cash tender offer for the shares of National Mine Service Co. (NYSE:NMS) it did not already own.

Anderson Mavor accepted for purchase pursuant to the offer an aggregate of 2,270,891 shares, including shares tendered by notice of guaranteed delivery, subject to final verification. Anderson Mavor now owns approximately 97.9 percent of the outstanding shares of National Mine Service Co.

The depositary is expected to commence making payment for shares accepted during the week of April 16. Anderson Mavor intends to seek delisting of the shares of National Mine Service Co. from the New York Stock Exchange and to complete the second-step merger under which shares not purchased in the tender offer will be exchanged for $8.875 net per share in cash without interest.

TUSTIN, CA (APRIL 12)(BIZWIRE) -Eldorado Bancorp (ASE:ELB), Thursday reported record first-quarter net income of $1,004,000, or 36 cents per share, for the three months ended March 31, 1990.

This represents a 7.6 percent increase over net income of $933,000, or 34 cents per share, reported for the first quarter of 1989.

Results for the 1989 first quarter have been adjusted to reflect the 10 percent stock dividend paid Feb. 23, 1990.

On March 31, 1990, total assets had increased to $283.8 million and shareholders' equity to $24.4 million. The increase in capital continues Eldorado's strong equity-to-asset ratio of 8.6 percent. The return on beginning equity was 17 percent for the quarter and the return on average assets totaled 1.48 percent.

J.B. Crowell, president and chief executive officer of Eldorado Bancorp and Eldorado Bank, said: ''While the earnings reflect a record first quarter and the third consecutive million-dollar quarter, the bank has experienced pressure on its interest margin. The seasonal outflow of deposits and competition from other sources for funds resulted in higher funding costs in the first quarter.

''A concerted effort is being made to attract lower-cost deposits to support the strong loan demand the bank is experiencing. Additionally, management is paying particular attention to the pricing of its earning assets.

Eldorado Bancorp, through its principal subsidiary, Eldorado Bank, operates through nine locations in Orange, Riverside and San Bernardino counties.

SAN FRANCISCO (APRIL 12) BUSINESS WIRE - It was announced Thursday in Oslo, Norway by Erland M. Raastad, chairman of Seabourn Cruise Line A/S, that Duncan Beardsley will join Seabourn as president of its wholly owned subsidiary, based in San Francisco.

Beardsley will succeed Warren S. Titus who has served as president since the company's inception in April 1987.

Titus, well-known travel industry and cruise company executive, will assume the role of chairman of the U.S. subsidiary and will concentrate on the areas of Seabourn's international sales, community relations and long

range planning.

Beardsley was formerly with Royal Cruise Line as senior vice president, and prior to that served as executive vice president, marketing with Princess Cruises.

In its relatively short existence Seabourn Cruise Line has gained wide recognition as a leader at the very top end of the luxury cruise market.

The company operates two all-suite vessels, Seabourn Pride and Seabourn Spirit, sister ships, each with capacity for 212 passengers. Both vessels cruise year-'round, following the sun in Northern European and Mediterranean waters in the summer and along the South American coast, the Caribbean, trans Panama Canal and the Mexican Riviera during the winter.

#90102b0055 04/12/1990 ~Business Wire

AUSTIN, TX (APRIL 12) BUSINESS WIRE - The retrial of Horton v. American Tobacco Co. is scheduled to begin April 23, 1990, in Lexington, Miss.

At a final pre-trial hearing Friday, March 30, in Lexington, all parties announced ''ready for trial.'' Judge Eugene Bogen of the Holmes County Circuit Court indicated that jury selection for the Horton case would begin Monday, April 23, in the Holmes County Courthouse. Opening arguments for the trial itself are expected to begin Tuesday, April 24.

The first Horton trial ended with a hung jury and a mistrial amid charges of jury tampering and other misconduct in January 1988. It was the first cigarette liability case in which the tobacco industry did not win a favorable verdict from a jury or judge.

Many observers believe that the retrial of the Horton case represents the greatest liability threat faced by the cigarette industry since the $400,000 plaintiffs' verdict in Cipollone v. Liggett & Myers in June 1988.

The plaintiffs, Nathan Horton's widow and children, are represented in this wrongful death claim by three Mississippi lawyers, Don Barrett of Lexington, Fred Clark of Greenwood, Miss., and Victor McTeer of Greenville Miss., along with Don Davis and Mike Davis, both experienced cigarette litigation attorneys with Byrd, Davis & Eisenberg in Austin.

The defense attorneys include Willie L. Bailey of Greenville; Edward Blackmon, Jr. of Canton, Miss.; Calvin R. King of Durant, Miss.; Alix Sanders and James E. Upshaw of Greenwood; and Thomas Bezanson of New York.

Horton originally filed suit against American Tobacco Co. and a local cigarette retailer on May 9, 1986, after being diagnosed with terminal lung cancer as a result of an over 30-year history of smoking Pall Mall cigarettes, manufactured by American Tobacco.

Following Horton's death on Jan. 27, 1987, his widow and children continued the suit as a wrongful death action. The case went to trial before jury on Jan. 4, 1988, with plaintiff's seeking compensatory and punitive damages totalling $17 million. The suit ended in a mistrial on Jan. 29, 1988, when the jury announced that it had been unable to reach a verdict.

For the retrial, two new issues will be introduced by plaintiff attorneys. In addition to allowing plaintiffs to pursue a strict liability theory that cigarettes are unreasonably dangerous products in this second trial, the court has opened the door to introduction of evidence relating to American Tobacco's advertising and marketing strategy.

In the original jury trial, the plaintiff's attorneys sought to introduce this evidence, but the judge disallowed it. Now however the court has ruled that advertising-related evidence may be introduced in the retrial.

''This trial of a wrongful death suit brought by the widow and children of a black male who died from lung cancer comes at a time when the U.S. social climate is moving to stop the cigarette company's campaign of death '' Davis said.

He went on to explain that this year, in response to public protest, R.J. Reynolds has been forced to scrap their plan to test-market a new cigarette (Uptown) targeted toward black smokers, and U.S. Secretary of Health and Human Services Louis Sullivan has recently declared that ''smoking and good health are mutually exclusive,'' and ''cigarettes are the only legal product that when used as intended cause death.''

#90102b0080 04/12/1990 ~Business Wire

SAN FRANCISCO (APRIL 12) BUSINESS WIRE - CMS Enhancements Inc. (NYSE:CME) a global producer of mass data storage devices and accessories, Thursday announced new products for Macintosh and Apple IIe/IIgs personal computers.

All of these new products are being featured at Macworld San Francisco, April 10-13, booth 2549.

For Apple IIe/IIgs personal computers, the company announced an upgraded version of its SCSI interface card. The new card will allow users to connect any of CMS Enhancements' existing Macintosh hard disk subsystems to their Apple II machines.

Apple II users will be able to connect up to 255 32-Mbyte volumes or more than 8 Gbytes of storage to their systems. Because the interface card was engineered to incorporate an EPROM-based integrated control panel, users can mount and unmount their volumes without re-booting. Users can also boot to ProDOS from any volume.

The upgraded interface card has a suggested retail price of $199. A ROM upgrade kit is also available for a suggested retail price of $69.

BackupMaster, a new SCSI tape drive subsystem for Macintosh computers was also announced Wednesday. It will store 150- and 250-Mbytes of data per tape cartridge.

Designed and produced by CMS Enhancements, the BackupMaster incorporates a stationary head mount design and true read after write for improved performance reliability. The BackupMaster features power-on diagnostics and uses DC600-class tape cartridges.

Two 1 Gbyte hard disk subsystems were also announced Wednesday. As additions to the company's Platinum Series, the external version, or PD 1000, is compatible with all Macintosh computers while the PI 1000, the internal version, supports only Macintosh II,IIx and IIfx systems.

The subsystems are 5-1/4-inch, full height and feature an average access time of 16.5 ms.

Included with these new Platinum subsystems is the company's recently released SCSI utility upgrade, version 5.6, which allows both the internal and external versions to support the new Macintosh IIfx.

Rounding out the company's announcements are two additional capacities of the Platinum series subsystems. The new 130- and 175-Mbyte subsystems are available in both external and internal configurations. The drives have a 25 ms average access time and the external units are enclosed in slim, 2-inch-high cabinets with a Macintosh Plus footprint.

CMS Enhancements Inc. is a $200 million public company, producing mass data storage devices and accessories for computers manufactured by Apple, IBM, Compaq, Digital Equipment Corp., Epson, NEC, Toshiba, Tandy, AT&T, Sun Microsystems, Commodore, AST and many others.

NEWPORT BEACH, CA (APRIL 12) BUSINESS WIRE - David L. Boyles has been appointed to fill the dual posts of executive vice president and chief

operating officer of Newport Beach-based Downey Savings and Loan Association (NYSE:DSL).

A statement jointly issued by Downey Savings' co-founders, President Maurice L. McAlister and Chief Executive Officer Gerald H. McQuarrie, said Boyles will lead Downey Savings in an important period of expansion of its consumer banking products and services.

''With the major changes now taking place in the thrift industry,'' the statement said, ''David Boyles' broad experience in the commercial banking field will be important as Downey Savings enters a new era in its 33 years of successful operations.''

Before assuming his position at Downey, Boyles was senior vice president and manager of consumer markets at Bank of America. Prior to joining Bank of America, Boyles was senior vice president and manager of Seattle First National Bank's Retail Services and Administration Division.

Boyles is 41, married, and a native of Grand Junction, Col. He received his bachelor's and master's degrees in psychology from the University of Northern Colorado in Greeley and holds an MBA in finance from Washington State University in Pullman, Wash.

He will assume many of the day-to-day activities formerly conducted by McAlister, who now will concentrate his efforts in re-directing the association's objectives. One of these objectives is the sale of shopping centers and other real estate interests that Downey Savings developed over the past three decades.

The divestment of these properties is in accordance with provisions of legislation enacted by Congress affecting the savings and loan industry nationwide.

Downey Savings has assets of $4 billion. It has met all capital requirements established by the new regulatory Office of Thrift Supervision (OTS).

#90102b0123 04/12/1990 ~Business Wire

LOS ANGELES (APRIL 12) BUSINESS WIRE - Metrobank (ASE:MBN), one of Southern California's regional banks, recorded net income of $1,165,000, or 24 cents per share, for the first quarter of 1990, as compared with $1,046,000, or 25 cents per share, for the same period in 1989.

In December 1989 the bank successfully completed a stock rights offering to its existing shareholders, which increased the bank's capital by approximately $7,895,000, or 615,000 common shares. This offering places the bank's shareholders' equity at $53.3 million, or 7.2 percent of total assets, at March 31, 1990.

Return on average assets for the first quarter of 1990 was .62 percent as compared with .57 percent for the first quarter of 1989. This increase is attributable to the bank's long-term strategy to continue to increase its earning assets through sustained growth in its lending division.

At March 31, 1990, the bank's loan portfolio was $344.8 million net of reserves of $3.7 million, an increase of $121.7 million, or 55 percent, from March 31, 1989.

Return on average equity for the first quarter of 1990 was 8.72 percent as compared with 10.42 percent for the first quarter of 1989. This decrease is due substantially to the bank's stock rights offering which was completed in December 1989 and increased the bank's shareholders' equity by approximately 18 percent.

Founded in 1979, Metrobank has its headquarters in Westwood and operates regional head offices in Newport Beach, San Diego, San Fernando Valley and Torrance. At Dec. 31, 1989, Metrobank was ranked 20th in asset size among all California banks.

EAST HANOVER, NJ (APRIL 12) BUSINESS WIRE - The Ultimate Corp. (NYSE:ULT) in a move that expands its growing family of value-added software products and services announced Wednesday that it has acquired exclusive North American distribution rights for a suite of software development and productivity improvement tools from Apscore International Pty. Ltd., of Sydney, Australia.

According to the announcement made by Ultimate Senior Vice President Rick Dool, Ultimate will assume the operations and personnel of Apscore's entire family of software products for the Pick and Pick/UNIX communities. Ultimate will continue to market Apscore's products under the Apscore name, and the operation will continue to have headquarters in Denver.

Apscore's products include an advanced machine-independent operating environment, CUE-BIC (Common User Environment for Business Integrated Computing), as well as a broad range of other applications software development, office automation, productivity improvement and computer security tools. The company's products also include education and training, technical support and professional services such as consulting, systems analysis, data base design and implementation services.

CUE-BIC is a pacesetting implementation of a new class of fully integrated software development and productivity enhancement tools being developed by leaders in the information systems industry. Included among CUE-BIC's powerful features are an extensive and versatile fourth-generation language, a standardized user interface, on-line documentation, as well as data base, program and hardware security tools.

CUE-BIC was recently selected by Ultimate as the software development environment for new applications software development and for the on-going enhancement of its family of industry-specific application software products including SHIMS, AUTOSHIMS, ROADS, FACTS, MMS, etc. Customers for Apscore products include major value-added resellers, dealers, systems integrators, software developers and large end users.

Ultimate provides business solutions to companies of all sizes by integrating system-level software and applications software on hardware platforms from premier computer vendors such as Bull HN, Hewlett-Packard, IBM and Sequoia. The firm also provides education, training, consulting and field-maintainance services to customers across a wide range of vertical markets. In addition to its domestic operations, Ultimate has subsidiaries in the United Kingdom, Canada, France and Australia.

#90102b0145 04/12/1990 ~Business Wire

SAN MATEO, CA (APRIL 12) BUSINESS WIRE - Power Up Software Corp. Thursday announced an upgrade to its popular Express Publisher desktop publishing software for IBM PC and compatibles that directly supports Hewlett-Packard's LaserJet III printers, allowing nonprofessional desktop publishers to turn out near-typeset quality newsletters, announcements and other documents without experiencing the limitations found in other programs in the low-end DTP category.

Express Publisher 1.1 is the first desktop publishing software available

to support the LaserJet III's advanced font scaling and graphics, and also now supports any standard LaserJet soft font, allowing consumers to utilize the wide array of Bitstream, Hewlett-Packard and Hewlett-Packard-compatible soft fonts.

In addition, the program takes advantage of the LaserJet III's built-in graphics compression techniques and HPGL extensions which results in reduced printing time.

''Non-professional publishers want high-quality output, ease of use, and high value at a low cost,'' said Dale Weideman, product manager. ''The new 1.1 version delivers higher quality by providing support for the LaserJet III and access to its built-in scalable fonts. With support for all H-P soft fonts, improved text selection and paragraph styles, and increased printing speed, Express Publisher packs in even more value for our customers.''

Express Publisher 1.0 was the first DTP software package to integrate AGFA Compugraphic's Intellifont Scalable Typefaces -- the same scalable fonts used in the LaserJet III. With AGFA Compugraphic font technology and typefaces, users can access fonts in any size from 6 to 144 points from within Express Publisher, rather than exiting to an off-line utility.

Weideman added: ''When Express Publisher hit the scene last Fall, it set new standards for non-professional publishers with its unique 'on-the-fly' scalable fonts, support of up to 300-dpi print quality for text and graphics, and innovative automatic layout capabilities. Now, we're raising the bar again.''

Improvements that make Express Publisher 1.1 even easier for non-professional publishers include:

-- A 'Select Entire Story' option that makes changing fonts faster as well as easier.

-- The Univers scalable typeface is now included, increasing the number of built-in font options -- combinations of typefaces, style and size -- from 1,112 to 1,668.

-- Support for .PCX images created in color mode -- by conversion to black and white.

-- Improved printing performance.

To introduce Express Publisher 1.1 Power Up is also including a free copy of Express Art/300 Special Occasions, a $59.95 value, with the program for a limited time, giving users an extra 100 300-dpi TIFF clip art images in addition to the 107 images included in Express Publisher. No other

low-cost DTP program includes more than 20 300-dpi images.

LOS ANGELES (APRIL 12) BUSINESS WIRE - The Brazilian government announced late Wednesday that Hughes Communications International Inc. has been selected to build the country's second-generation telecommunications satellite system.

The contract with Hughes, a unit of the General Motors Hughes Electronics Corp., is valued at $155 million. This includes two wide-body HS 376W satellites, improvements to the existing ground control station outside Rio de Janeiro, training and technology transfer. Launches are planned for 1993 and 1994.

Hughes' partner in this Brasilsat B project is Promon Engenharia SA of Sao Paulo.

The satellites will be built at the Hughes Space and Communications Group facilities near Los Angeles. Engineering work will be split between Hughes and Promon. The latter, which also played a major role in the first generation of Brazilian satellites, will be responsible for designing and overseeing construction of the ground station improvements.

Final assembly and testing of the spacecraft will be done at the Brazilian Institute of Space Research (INPE) facilities in San Jose dos Campos.

The HS 376W satellites are new, improved, more powerful and longer-life versions of the Hughes HS 376 satellites now in use by EMBRATEL, Brazil's national telecommunications company.

#90102b0160 04/12/1990 ~Business Wire

SANTA CLARA, CA (APRIL 12) BUSINESS WIRE - In the high technology world, product life cycles are now approaching only 18 months -- so getting to market on time is crucial.

Being first to market on a sustained basis is what separates the successful company from the unsuccessful one, according to recent studies. ''Fast cycle time'' is the key slogan for today's businesses.

On Wednesday and Thursday, May 2-3, a workshop for executives and managers will consider ''Faster New Product Development,'' sponsored by University of California Extension, at Techmart, 5201 Great America Parkway, Santa Clara. Fee for the workshop is $650, which includes text and materials.

The workshop will be led by Milton D. Rosenau Jr., a Certified Management Consultant who heads a consulting firm that specializes in helping clients move new product ideas to market quickly. His clients include Fortune 500 companies and smaller entrepreneurial ventures. Rosenau is author of five books, including ''Faster New Product Development: Getting the Right New Product to Market Quickly.''

According to Rosenau, the need to get to market quickly is prompted by shorter product life cycles resulting from more intensive competition, changing technology, improved mass communication and growing market segmentation.

The goal of the workshop is to provide participants with tools and techniques to help shorten product development time, especially the use of multifunctional teams (from marketing, R&D, engineering, manufacturing, etc.) to implement a fast, low risk, phased approach to product develoment. Some tools and techniques to be discussed include efficient

time management, effective project management tools, incentives, and others.

For more information on this workshop call 408/427-6636.

#90102b0170 04/12/1990 ~Business Wire

SAN FRANCISCO (APRIL 12) BUSINESS WIRE - Potlatch Corp. Thursday reported modestly higher earnings for the first quarter of 1990.

For the quarter, the company's net earnings were $37.0 million, up from 1989's first quarter earnings of $35.9 million. Earnings per common share were $1.28, compared with $1.30 reported for the first quarter of 1989. Sales were $326.7 million, 10 percent ahead of 1989's $297.4 million.

On a fully diluted basis, earnings per common share were $1.23, compared with $1.20 for last year's first quarter.

Richard B. Madden, Potlatch chairman and chief executive officer, said the quarter's earnings increase reflects improvements for the company's wood products group. Earnings for the company's pulp-based businesses were relatively flat.

The wood products group reported earnings of $4.1 million, an increase from the $.5 million reported a year ago. Madden credited the increase to higher sales realizations for panel products and production improvements at the Lewiston, Idaho, sawmill as a result of modifications completed in late 1989.

''These modifications, combined with one to be completed by mid-year, will result in production exceeding originally projected levels,'' Madden added.

The Northwest Paper division reported first-quarter earnings of $19.5 million, compared with $22.0 million a year ago. Shipments increased due to the new off-machine coater which began production in the second quarter of 1989.

Madden explained that, although production improved considerably from the latter half of 1989, earnings during the first quarter still were affected by expenses related to new equipment.

First quarter earnings reported for other pulp-based businesses were $44.6 million, a small increase from the $42.8 million reported in 1989.
''Tissue product shipments and sales realizations increased substantially

from a year ago,'' Madden said.

Potlatch is a diversified manufacturer of forest products with timberland in Arkansas, Idaho and Minnesota.

SAN FRANCISCO (APRIL 12) BUSINESS WIRE - The California Public Utilities Commission Thursday filed a statement of support with the Federal Energy Regulatory Commission urging speedy federal approval of the PGT-PG&E Pipeline Expansion.

The statement verified that the PGT-PG&E expansion was in compliance with the CPUC's criteria for interstate pipelines: ''Accordingly, the CPUC hereby states that it supports fully PGT's certificate application and offer of settlement and requests that the Commission give its speedy approval to both.''

With its statement of support, the CPUC joins the state public utilities commissions in Idaho, Washington and Oregon in urging the FERC to approve the offer of settlement for the project filed by PGT and the expansion shippers last November.

''We're extremely pleased with the CPUC's action,'' said Stephen P. Reynolds, PGT president and chief executive officer. ''Meeting the CPUC criteria and having the commission's support at FERC should advance the PGT-PG&E project's certification at the federal level.

''In California, the project certification process is already underway with hearings scheduled to begin in late May of this year.''

The CPUC criteria were outlined in the commission's Feb. 7, 1990, decision: ''Pipelines must provide economic justification for their projects, enhance supply diversity for the state as a whole, and avoid bypass of the gas utilities.''

In its statement to the FERC, the CPUC noted that PGT this March filed an application with the FERC for a blanket open access transportation certificate and that PGT intends to file, in conjunction with its 1990 general rate case, an application for capacity brokering on its system.

The PGT-PG&E expansion, sponsored by Pacific Gas Transmission Co. and Pacific Gas and Electric Co., will transport 755 million cubic feet

(MMcf/d) of Canadian natural gas to California and 148 MMcf/d to the Pacific Northwest.

Construction, scheduled to begin in 1992, involves installing approximately 900 miles of 42-inch and 36-inch pipeline, paralleling and interconnecting with the existing PGT and PG&E facilities from British Columbia to California.

SAN DIEGO (APRIL 12) BUSINESS WIRE - A statement from Dan Sullivan, president, Bumble Bee Seafoods:

Bumble Bee Seafoods supports StarKist's decision Friday to discontinue the use of fishing technologies harmful to dolphin. We at Bumble Bee are pleased to see StarKist exercise their strength as the world's largest tuna packer.

Bumble Bee will now implement its plan to end the purchase of tuna caught in association with dolphin. Our tuna cans will begin to reflect the dolphin safe label in U.S. stores within the next three months. Most tuna purchased and sold by Bumble Bee is already dolphin safe.

We believe it is important to recognize that Bumble Bee and other members of the U.S. tuna fishing industry have publicly worked toward eliminating the risk to dolphins during the past decade.

Bumble Bee is committed, along with the U.S. fishing fleet, to managing global ocean resources responsibly and to maintaining the health of ocean fish stocks.

We will continue to play an important role in influencing international fishing fleets and governments to comply with these high standards in the 1990s.

OKLAHOMA CITY (APRIL 12) BUSINESS WIRE - The Phoenix Resource Companies Inc. (PSE:PHN) announced Thursday that it received an unqualified opinion on its 1989 financial statements from its independent auditors, Arthur

Andersen & Co.

The plan of reorganization of the company's predecessor in interest, Texas International Co., became effective on April 9, 1990.

The effects of the reorganization were recorded in the financial statements as of Dec. 31, 1989 resulting in a decrease in both long-term debt and stockholders' deficit. As of Dec. 31, 1989 and after giving effect to the plan of reorganization at that date, the company had long-term debt of $60.9 million face less $28.3 million unamortized discount and a stockholders' deficit of $14.9 million.

Phoenix Resource Co. Inc. reported income of $4.7 million for the fourth quarter ended Dec. 31, 1989, on revenues of $15.1 million. For the same period of 1988 the company reported a loss of $3.1 million on revenues of $1.9 million.

The income for the fourth quarter of 1989 included a gain on the sale of 20 percent of the company's interest in the Khalda Concession of $9.8 million, partially offset by $2.2 million of costs related to the reorganization and a $2.2 million charge relating to dry hole costs in an exploration prospect in Malaysia.

For the year ended Dec. 31, 1989 income of $0.4 million on revenues of $35.7 million was reported compared to a loss of $15.3 million on revenues of $35.3 million for 1988.

The Phoenix Resource Companies, Inc. is an oil and gas exploration and production company headquartered in Oklahoma City, Okla. with its primary producing properties in the Western Desert of the Arab Republic of Egypt.

SAN FRANCISCO (APRIL 12) BUSINESS WIRE - Pacific Bell announced Thursday that its CENTREX business communications service is now available to California's rapidly growing number of small businesses.

Bob Lee, Pacific Bell executive vice president for marketing, said that CENTREX, the company's flagship business service, and all of its features are now available to businesses that have as few as two telephone lines. Previously, the service was available only to customers with 20 or more lines.

Documenting the growth of small businesses, a recent study shows that the California small-business market is growing at an annual rate of 12 percent. Fifty percent of California businesses have less than five employees and 80 percent fewer than 20.

With the increased availability, Pacific Bell estimated that CENTREX would be available to more than 900,000 additional business customers.

Pacific Bell is a subsidiary of Pacific Telesis Group, a diversified telecommunications corporation based in San Francisco.

PHOENIX (APRIL 12) BUSINESS WIRE - LaPointe Industries Inc., a subsidiary of Verit Industries, and American Toxxic Control Inc. Thursday announced that the terms of a proposed merger between them have been approved in principle.

Under the preliminary agreement, American Toxxic would be merged into LaPointe, or a subsidiary to be organized, in exchange for common stock of LaPointe and LaPointe's name would be changed to American Toxxic Control.

It is presently anticipated that the shareholders of American Toxxic will own approximately 40 percent of the outstanding shares of common stock of LaPointe following the merger.

The proposed merger is subject to the execution of a definitive agreement, approval by the shareholders of American Toxxic, to certain investigations by each party, and to the satisfaction of other customary conditions, including any approval and consents that may be required for the transaction. Following the signing of a definitive merger agreement, it is anticipated that LaPointe will file a registration statement with the Securities and Exchange Commission to register the shares to be issued to American Toxxic shareholders.

American Toxxic, through its three wholly owned subsidiaries, designs, engineers and manufacture equipment and systems dedicated to the minimization and elimination of hazardous and toxic substances at the facilities where such substances are generated. American Toxxic's common shares are traded on the NASDAQ system under the symbol ATCX.

LaPointe, whose shares previously traded on the American Stock Exchange, recently completed a Chapter 11 bankruptcy reorganization and at the time of the merger, will have shareholders' equity of approximately $5 million. It is presently anticipated that at the time of the merger, LaPointe will make application to have its shares listed on the American Stock Exchange. Verit Industries recently acquired 80 percent of the outstanding common shares of LaPointe in connection with its acquisition of various assets of Emerald Homes.

Verit's common shares are traded on the American Stock Exchange under the symbol VER.

EAST HANOVER, NJ (APRIL 12) BUSINESS WIRE - The board of directors of The Ultimate Corp. (NYSE:ULT) adopted on April 11 a shareholder rights plan and other defensive measures following its recent consideration and subsequent rejection of the sale of the company.

According to the announcement by Ultimate, the plan was under active board consideration during the summer of 1989, and was tabled when suggestions of a possible sale of the company were made at the 1989 annual meeting and thereafter. Following the Feb. 16 decision by a special committee of independent directors and the board that the sale of the company is not in the best interest of shareholders, the board reconsidered the plan and has adopted it, along with several by-law amendments.

The board declared a dividend of non-voting common share purchase rights that will enable shareholders to purchase one additional share of common stock for each share held at an exercise price of $25. The rights become exercisable 10 days after the acquisition of 10 percent or more of the company's shares by a single person or group, or 10 days after the commencement of a tender offer or exchange offer for 20 percent or more of the company's shares. The rights are redeemable by the company at 1 cent per right at any time prior to the acquisition of 20 percent of the company's shares and will expire 10 years after issuance.

If the company were acquired by or merged with another entity, or certain self-dealing transactions occur, the rights would entitle shareholders to purchase, for the exercise price, common shares of the surviving entity having a market value of $50.

Rights certificates will be issued only if the rights become exercisable, and the rights will trade with the company's common stock unless or until certificates are issued. The board set a record date of April 30, 1990, for the rights.

Ultimate provides business solutions to companies of all sizes by integrating system-level software and applications software on harware platforms from premier computer vendors such as Bull HN, Hewlett-Packard, IBM and Sequoia Systems. The firm also provides education, training, consulting and field-maintenance services to customers across a wide range of vertical markets. In addition to its domestic operations, Ultimate has subsidiaries in the United Kingdom, Canada, France and Australia.

TALLAHASSEE, FL (APRIL 12) BUSINESS WIRE - MHI Group Inc. (NYSE:MH) Thursday announced that it has completed the acquisition of Oakley Funeral Home Inc., and Chapel Hill Gardens.

The acquired properties include two funeral homes and two cemeteries located in the adjoining communities of Dade City and Zephyrhills, Fla., one of Florida's fast-growing retirement areas.

To finance the aquisition, MHI borrowed under an increased line of credit from The First National Bank of Boston, and privately placed approximately 1.8 million shares of its common stock.

These acquisitions further expand MHI's presence in the funeral and cemetery industry. The company currently operates Star of David Funeral Home and Memorial Gardens located in Fort Lauderdale, Fla; McLaughlin Funeral Homes, located in Fort Walton Beach and Niceville, Fla., and Liveoak Park Memorial Cemetery, located in Crestview, Fla.

MHI Group Inc. markets and sells pre-need and at-need funeral and cemetery services, including pre-arranged insurance.

REDONDO BEACH, CA (APRIL 12) BUSINESS WIRE - Parking Solutions, a division of Hill Parking System, is offering nationwide distribution opportunities for a technologically advanced hydraulic lift mechanism that literally parks two cars in the same space needed for one.

This device is currently being used as a parking alternative for overcrowded commercial buildings, parking structures and to create off-site parking lots to reduce traffic congestion and environmental pollutants.

Parking Solutions' hydraulic lift is also being sold to homeowners and residential builders and contractors as an economical way to use a standard garage to park two cars and still have plenty of room for a workshop, small office or storage. The standard model has a leak-proof floor. An optional feature includes an open bottom for service access.

''We're looking to expand our distribution outlets because this is a growing business,'' explains Ken Handman, president of Parking Solutions. ''We are helping to solve some of the biggest problems facing the 1990's -- traffic congestion and its end result -- poor air quality.''

The four-leg, double-decker structure is designed to accommodate all surfaces including those that are uneven and slanted. This mounting system resisted the 7.1 California earthquake.

Similar to the hydraulic lifts that mechanics have used for years, this device has been redesigned for residential use. It is so simple and safe, even a parent holding an infant can easily operate it. Plus, it has many safety features which meet all building code and OSHA requirements.

Parking Solutions' hydraulic lift can be used indoors or outdoors. It can be adapted to fit any existing parking layout and installs easily into garages with ceilings as low as 8-1/2 feet. The system is also available in custom heights and widths. A vehicle can be lifted to its full height in as little as 20 seconds.

The basic design has proven its safety and dependability in more than 30,000 auto-service industry installations throughout the United States. In most locations, no service calls have been required even after 10 years

of heavy use.

NEW YORK (APRIL 12) BUSINESS WIRE - Millicom Inc. (NASDAQ:MILL) Thursday reported that British Aerospace, Pacific Telesis International, Millicom and Matre Communication S.A. have formed a joint venture company, Microtel Communications Limited, which will establish and operate a Personal Communications Network (PCN) in the United Kingdom.

Microtel will be chaired by Sir Graham Day, chairman of Cadbury-Schweppes PLC and of the Rover Group PLC.

Sir Graham commented, ''The launch of Microtel represents the union of skills and strengths drawn from a group of successful international companies.

''I am delighted to be involved with a company founded on such a strong basis. We shall be working to bring to the UK market high quality people-based telecommunications that will set new standards in service and customer care.''

The four companies formed a consortium in September 1989 to bid for a license to operate a PCN in the United Kingdom. They were awarded a license by the Department of Trade and Industry in December 1989. The Independent Broadcasting Authority (IBA) and Sony are also associated with Microtel.

Microtel's chief executive is James E. Blake, formerly president of Pactel Cellular Midwest in the United States. Microtel has its headquarters in the Aztec West Business Park in Bristol, from which it will plan and execute the roll-out of its PCN service to the United Kingdom.

The construction of the network is predicted to take about two years. The availability of the PCN, which offers advanced voice and data communications over radio-based micro-cell architecture featuring smartcard technology in hand-held mobile telephones, is expected to revolutionize the U.K. telecommunications market.

Microtel's PCN will operate via an intelligent network providing high quality calls, and a wide range of enhanced services will be offered to users.

The anticipated costs of the PCN to users will be significantly lower than

current cellular systems, making it available to large numbers of business and personal users.

Millicom Inc. is a diversified international communications company with interests in cellular telephones, alphanumeric paging and satellite television.

HOUSTON (APRIL 12) BUSINESS WIRE - Donald R. French, president of Westworld Resources Inc. announced Thursday that the board of directors declared a 20 cents per share special cash dividend on its common stock (10 cents per share par value) to shareholders of record as of 5 p.m. CST on May 18.

The dividend will be payable on May 31.

French stated that on April 11, the company sold 8.83 percent of the common stock of Empresa Minera Inti Raymi S.A., a Bolivian gold mining company, to Battle Mountain Gold Co. The sale was the result of the exercise of an option sold to Battle Mountain Gold in July 1989.

He said that the board of directors desired to share a portion of the profits from that sale with the shareholders who, he added, have loyally and faithfully stood by the company during tougher times.

NEW ORLEANS (APRIL 12) BUSINESS WIRE - Tidewater Chairman, President and Chief Executive Officer John P. Laborde Thursday announced the promotion of four division managers to the position of vice president of Tidewater Inc. (NYSE:TDW).

The new Tidewater vice presidents are Alvin A. Arcemont, general manager of the Marine Group's Supply Vessel and Small Boat Division in the Gulf of Mexico; Stephen W. Dick, general manager of the Towing Division of the Marine Group; Donald S. White, general manager of the Central Division of the company's gas compression subsidiary, Tidewater Compression Service Inc.; and Robert Ashton, general manager of the company's air compression subsidiary, Tide-Air Inc.

Alvin Arcemont, an employee since 1972, began his career with Tidewater Marine in Morgan City, La., as a pilot and salesman. He was promoted to assistant manager of Tidewater Marine's Towing Division in 1974 and the next year accepted the position of area manager for Tidewater Marine's operations in Trinidad.

In 1977 he was appointed manager of Inshore Towing and then assumed the responsibility of managing Offshore Towing in 1978. Arcemont assumed his current assignment as Gulf Coast area manager in 1980.

Arcemont served in the U.S. Navy as a flight engineer on P-2V aircraft for six years. He attended St. Edwards University in Austin, Texas, and Nicholls State University in Thibodaux, La.

Arcemont and his wife, Lana, are the parents of two daughters, Kelly Ann and Sherry Lynn. Outside of the office his activities include fishing and woodworking.

A 1971 graduate of the Maine Maritime Academy, Stephen Dick joined Tidewater Marine 17 years ago as a mate and captain onboard offshore tugs in the Gulf of Mexico. Prior to assuming his current position, Dick served as a port captain in Louisiana and Nigeria, as Italian operations manager and as area manager in Brazil and Dubai. In 1985 Dick was appointed manager of Inland and Offshore Towing in Morgan City, La.

Dick has served on the U.S. Department of Transportation's Towing Safety Advisory Committee in Washington and he currently serves as committee chairman of the Offshore Tug Committee of the Offshore Marine Services Association.

Tidewater Inc. owns and operates one of the largest fleets of vessels supporting the international offshore oil and gas industry and one of the largest fleets of gas and air compressors in the United States. The company also has modest interests in domestic oil and gas operations, real estate and insurance.

TULSA, OK. (APRIL 12) BUSINESS WIRE - Health Concepts IV Inc. (AMEX-HCF) announced net revenues of $3,882,805, up 49 percent, net income of

$240,170, up 13 percent, and 10 cents earnings per share first quarter 1990 compared to $2,607,434 net revenues, $211,996 net income, or 9 cents per share, first quarter ended 1989.

Jack F. Lewis, the company's chief executive officer stated the increase in revenue represents close to a 20 percent increase in patient volume. ''We averaged 87 patients per day in the first quarter of 1989 compared to 106 patients per day in the first quarter of 1990. The additional expenses relating to growth, however, are still affecting our profit margins. At a 106 patient census level, we can begin to improve and maintain higher profit margins. In years of tremendous growth our Company has been able to maintain net profit margins over 4 percent followed by a year with net profit margins of 9 percent.''

Health Concepts IV has warrants traded over the counter stock symbol HCFIW. A warrant gives the holder the right to buy a share of common stock at $3.00 per share until July 9. The exercise of warrants is encouraged since the company's board of directors has voted against the extension of these warrants.

''The company is currently averaging 118 patients per day compared to 106 during the first quarter. We are continuing to focus on operating cost controls and look forward to a prosperous 1990,'' Lewis further noted.

CLEVELAND (APRIL 12) BUSINESS WIRE - The board of directors of Parker Hannifin Corp. (NYSE:PH) Thursday declared a regular quarterly cash dividend of 23 cents per share of common stock payable June 1, 1990, to shareholders of record as of May 16.

This is Parker's 160th consecutive quarterly dividend and involves a distribution of $11.2 million.

Parker Hannifin is a leading producer of motion-control components and systems for a wide range of industrial and aerospace markets. Sales from continuing operations in fiscal 1989, ended June 30, were $2.38 billion, with net income of $124.5 million.

LANDOVER, MD (APRIL 12) BUSINESS WIRE - The Discovery Channel (TDC) has formally entered the home video market to bring the best of its programming to consumers via TDC direct marketing.

The announcement was made Thursday by Clark Bunting, TDC senior vice president of program enterprises.

According to Bunting, TDC will package its home videos and sell the product via promotional spots on the network and via TDC Magazine, which has a monthly circulation of 190,000. Discovery will commit on-air inventory for the marketing of its home videos.

Spots will air adjacent to the telecast of the program or series being offered, as well as being positioned within other dayparts to reach TDC audiences with similar interests.

The decision to enter the home video arena via direct marketing, according to Bunting, was because of viewer demand, market research and the successful testing of the TDC presentations Return to Tarawa and Ivory Wars in late 1989.

Discovery's home videos will be offered at sell-through prices ranging from $19.95 to $69.95, depending on the length of the package. High-quality graphics along with Discovery's award-winning design techniques will be used in the packaging of TDC home videos. ''We will offer at least one new video each month,'' Bunting said, noting that each offering could be for either a single program or series.

While officially engaged in direct marketing, TDC is currently examining the exploitation of home video sales in non-TDC direct, retail and non-theatric markets. The launch into each of these areas, according to Bunting, will depend on market research. ''Currently, we are serioulsy considering marketing TDC videos non-theatrically, especially targeting the educational arena. Each of TDC's video offerings provides exciting and in-depth opportunities for use in the classroom.''

SEATTLE (APRIL 12) BUSINESS WIRE - Linjeflyg, Sweden's domestic airline, Wednesday accepted the first of six CFM56-3-powered Boeing 737-500 aircraft.

Delivery of the aircraft, which is powered by the CFM56-3C1 high bypass turbofan engine, rated at 20,000 pounds takeoff thrust, represents the beginning of a major re-equipment program by Linjeflyg. In addition to the six firm 737-500s on order, the airline also holds options on another six -500s and has leased a 737-300, powered by CFM56-3B engines, which entered service last November.

''The CFM56 series of engines is ideally suited to Linjeflyg's route structure,'' said Jean Bilien, president and chief executive officer of CFM International. ''The engines provide economy of operation despite the short routes and high frequency flights. The dispatch reliability rate of 99.96 percent will enable the airline to sustain high-frequency service with turnarounds often as short as 15 minutes.''

The CFM56 family, which is the most popular engine product line ever developed for transport aircraft, offers operators many important advantages in addition to reliability. The engines are the quietest and cleanest in their thrust class, easily meeting or exceeding the most stringent restrictions, and produce emissions 40 to 50 percent below current limits.

The CFM56-3 entered service on the Boeing 737-300 in 1984 and, to date, more than 680 -3-powered 737s have been delivered to 76 customers, making it the best-selling aircraft/engine combination in aviation history. The engines have accumulated a total of 9.5 million flight hours, demonstrating unsurpassed reliability, maintainability and performance.

CFMI estimates that more than 10,000 CFM56 engines will have been ordered by the early 1990s, ensuring that it maintains its position as the recognized world leader well into the next century.

CFM International, a 50/50 joint company of SNECMA of France and General Electric of the United States, has delivered nearly 3,700 engines over the past decade to power commercial and military aircraft worldwide.

MINNEAPOLIS (APRIL 12) BUSINESS WIRE - Dayton Hudson Corp. Thursday reported that its net retail sales for the five weeks ended Apr. 7, 1990 increased 14.9 percent to $1.18 billion from $1.03 billion a year ago.

Comparable-store sales were up 8.2 percent from the same period a year ago.

Kenneth A. Macke, chairman and chief executive officer, said the corporation was pleased with the sales increases for the month at each of its operating companies. ''Even though our March results are slightly higher due to the extra selling day in March, we have seen a strong start to the Spring season in our companies,'' Macke said. ''Target and Mervyn's comparable store increases were excellent; the department store company's increase reflects the planned de-emphasis of the early sale days of a major event.

''We are pleased with these March numbers and we are very optimistic about the rest of the quarter and the year.''

March sales by business segment for the five weeks were as follows:

o Target's total sales rose 20 percent while comparable-store sales were up 9 percent.

o Mervyn's total sales increased 11 percent and comparable-store sales increased 9 percent.

o Dayton Hudson Department Store company's total and comparable-store sales were up 2 percent.

Sales for the 9 weeks ended Apr. 7, 1990 were $2.00 billion, up 14.2 percent from $1.75 billion in the same period a year ago. Comparable-store sales for the 9 week period were up 7.4 percent compared to the same period last year.

As of Apr. 7, 1990, Dayton Hudson operated 666 stores in 33 states.

#90102b0745 04/12/1990 ~Business Wire

NEW YORK (APRIL 12) BUSINESS WIRE - MasterCard and CIRRUS added their first ATMs in Europe last week when Credit Mutuel, a French confederation of mutual credit banks, brought 800 automated teller machines (ATMs) on-line across France.

''We are very excited to bring Credit Mutuel on-line. This is the first step in our major expansion across Europe,'' said John O. Smith, senior vice president of MasterCard International and president of CIRRUS System Inc.

''These 800 machines will eventually grow to 1,200 in France, and another 8,300 across Europe by the end of 1990. In a very short time, our European coverage will put us far ahead of the competition.''

Consumers whose cash or credit cards display the CIRRUS or MasterCard logos will be able to get cash from their bank accounts at home through these ATMs in Europe. MasterCard and Eurocard International spent the last year developing an interface between the MasterCard Debit Switch and European Payment Systems Services (EPSS), which switches transactions for Eurocard's pan-European network.

According to Smith, MasterCard and CIRRUS coverage will grow rapidly across Europe because of the way the two ATM programs are linked. ''European financial institutions were anxious to give their MasterCard/Eurocard cardholders ATM access to the MasterCard ATM network across North America and around the world,'' said Smith.

''MasterCard and CIRRUS members, already had blanket coverage of the U.S. and Canada, but wanted to give their millions of cardholders access to cash in Europe. Both groups of bankers satisfy their objectives by displaying the MasterCard and CIRRUS logos on their ATMs and we make it easy for them to do so because both programs use the same network for handling transactions.''

''The MasterCard/Eurocard link vastly simplifies international ATM sharing

'' noted Anne L. Cobb, general manager, Eurocard International. She added, ''Since MasterCard is already conncected to thousands of banks in other parts of the world, the gateway also enables us to process transactions for Eurocard cardholders when they want cash from ATMs in such distant places as Japan, Australia and Mexico.''

Credit Mutuel is the first European financial institution to use this link. Initially, Credit Mutual will bring 800 machines into the MasterCard and CIRRUS ATM network, primarily in eastern France along the Paris/Lyon/Marseille/Nice corridor. The organization has a total of 1,200 ATMs throughout France in cities including Paris, Strasbourg, Lyon, Marseille, Nice and Cannes.

The remaining 500 ATMs will display the CIRRUS and MasterCard logos by the end of 1990.

Major tourist ATM locations are the Louvre, the Madeleine, the Gare de l'Est, Montparnasse, Etoile, and Montmartre in Paris; Fontainebleau and Versailles near Paris; Nice, Marseille, Cannes, Aix en Provence, Saint Raphael and Corsica on the French Riviera; and the French West Indies in the Caribbean.

Fortunately for English-only speaking travelers, the name of Credit Mutuel's ATMs is Minibank/24. The machines are located in bank branches and shopping centers and are easily identified by their distinctive Credit Mutuel red and blue logo, as well as the MasterCard and CIRRUS logos. The machines ''speak'' English, as well as French and German, depending on information encoded on the magnetic strips of the user's card.

The machines dispense French francs, but cardholders' accounts at their home banks are debited for the equivalent sum in their local currency.

By getting francs from an ATM, cardholders receive a better foreign exchange rate than they would if they converted cash at a bank or currency exchange.

English-speaking travelers to France can find the location of ATMs where they can use their CIRRUS or MasterCard cards by calling Credit Mutuel's customer service number, 5-835-9263, during business hours.

Credit Mutuel officials may also include location information on Minitel videotex terminals that can be found at popular tourist locations throughout France.

DALLAS (APRIL 12) BUSINESS WIRE - Dallas Semiconductor Corp. (NYSE:DS) Thursday reported record net sales of $23,876,000 for the fiscal first quarter ended April 1, 1990, compared with $17,104,000 for the first quarter of 1989.

Net income for the first quarter of 1990 was $3,282,000 (13 cents per share), compared with net income of $2,149,000 (9 cents per share) for the first quarter of 1989.

Net sales for the first quarter of 1990 were up 11 percent from sales of $21,540,000 in the fourth quarter of 1989. Net income for the first quarter of 1990 increased 10 percent, compared with net income for the fourth quarter of 1989 of $2,979,000 (12 cents per share).

Effective March 19, the company's common stock is now listed on the New York Stock Exchange under the symbol ''DS.'' Vin Prothro, Chairman and CEO, said: ''We believe this move to the nation's premier financial marketplace will enhance marketability of our shares, maximize corporate and trading visability, and improve our status with lenders, suppliers and customers.''

Dallas Semiconductor Corp. develops, manufactures and markets high performance complementary metal oxide silicon (CMOS) integrated circuits and semiconductor-based subsystems. Through the use of the Company's late definition techniques, its Soft Silicon (TM) products are made to accept change and thus can be tailored to meet an exact application after wafer fabrication is complete either by the company or in certain cases in the field by the user.

#90102b0753 04/12/1990 ~Business Wire

DALLAS (APRIL 12) BUSINESS WIRE - The board of directors of American Realty Trust Inc. (NYSE:ARB), at a meeting held Wednesday, adopted a preferred share purchase rights plan and approved the distribution to stockholders of a dividend of one preferred share purchase right on each outstanding share of ART common stock.

The rights are primarily designed to assure that all ART stockholders receive fair and equal treatment in the event of any attempt to acquire the company and to guard the interest of the stockholders against partial tender offers, inadequate offers, open market accumulations and other abusive or coercive tactics. The rights plan was not adopted in response to any effort to acquire ART and ART is not aware of any such effort.

Each right will entitle stockholders to purchase one one-hundredth of a share of a new series of preferred stock at an exercise price of $25. The rights will generally be exercisable only if a person or group hereafter increases its current beneficial ownership stake in ART by more than 25 percent or commences a tender offer for 25 percent or more of ART common stock.

If any person or entity actually increases its current beneficial ownership stake in ART by more than 25 percent or if the board of ART determines that any 10 percent stockholder is adversely affecting the business of ART, right holders (other than the stockholders described above) will be entitled to buy, at the exercise price, ART common stock with a market value of twice the exercise price.

Similarly, if ART is acquired in a merger or other business combination each right will entitle its holder to purchase, at the right's then current exercise price, a number of the surviving company's common shares having a market value of twice the right's exercise price.

The rights may generally be redeemed by the board at any time before there is a shareholder who increases ownership by more than 25 percent. At any time that there is an outstanding offer to acquire ART, any such redemption must be approved by a majority of ART's independent directors. Thus, the rights should not interfere with any merger or business combination approved by the board.

Interests related to ART's management already beneficially own approximately 25 percent of ART common stock.

The distribution of preferred share purchase rights will be made on April 23, 1990, to shareholders of record on that date. The rights will expire on April 23, 2000, unless they are redeemed prior to that time.

The rights distribution is not taxable to shareholders.

Details of the rights distribution are contained in a letter which will be mailed to all ART shareholders.

American Realty Trust Inc. is a real estate investment trust which primarily invests in mortgage loans, real estate and real estate-related entities.

BOSTON (APRIL 12) BUSINESS WIRE - The board of directors of Fitchburg Gas and Electric Light Co. Thursday declared a quarterly dividend of 53 cents per share on the company's common stock payable May 15, 1990, to shareholders of record on April 25, 1990.

This dividend represents an increase of 3 cents over the previously paid quarterly dividend of 50 cents per share.

Company officials expressed optimism about the earnings despite the unusual events over the past year, principally related to the ongoing unsolicited hostile tender offer. Today's favorable action continues to reflect the company's strong condition as it meets both its financial and operating goals.

Since the company reinstituted the quarterly dividend of 35 cents per share in December of 1986, the dividend has shown steady growth. The new dividend level is equivalent to an annualized rate of $2.12 per share, a 6 percent increase over the previous annualized rate.

The directors also declared the following quarterly dividends on the company's cumulative preferred stock, $100 par value, payable June 1, 1990 to shareholders of record on April 25, 1990.

VANCOUVER, BRITISH COLUMBIA (APRIL 12) BUSINESS WIRE - Cominco Resources International Ltd. announced recently that it has entered into an agreement with Cominco Ltd. (the majority shareholder of the Corporation) under which all of the corporation's common share purchase warrants which remain outstanding and unexercised immediately prior to their expiry will be transferred to Cominco Ltd. Cominco Ltd. will exercise the warrants it currently holds and those it receives under the transfer.

Cominco Resources will receive proceeds of approximately $29 million which will be used to fund its exploration programs and continued development of its major projects, including Quebrada Blanca, Lobo and Mariquita.

There are currently 32,378,829 warrants outstanding, of which 19,000,000 are held by Cominco Ltd. Three common share purchase warrants entitle the holder to purchase 1.02 common shares of Cominco Resources for $2.70 per share.

The warrant indenture of the corporation under which the warrants were issued must be amended to effect the transaction. A meeting of warrantholders will be called in May to obtain their approval to the required amendments. The transaction is also subject to regulatory and court approvals.

NEW YORK (APRIL 12) BUSINESS WIRE - Lotus Cars USA, the Atlanta based subsidiary of Group Lotus in England, announced Thursday that first quarter 1990 retail deliveries of its luxury sports cars increased by 36 percent over the same period in 1989.

''We are extremely pleased with the enthusiasm in the marketplace for our products. The seventy Lotus dealers nationwide are reporting increased showroom traffic for the Esprit Turbo SE,'' said President Ronald L. Foster.

''With the gloomy reports from most manufacturers for this period, it is especially rewarding to post such a dramatic volume increase. The upper-end buyer is indicating a high degree of comfort both in our product and the economy by purchasing our Esprit Turbo at such an acclerated rate.''

Michael J. Kimberley, chairman of Lotus Cars USA and chief executive officer of Group Lotus commented on the USA sales achievement. ''This 36 percent uplift in the first quarter's retail sales vindicated our long term strategy in providing a truly 'green' supercar.

''The Lotus Turbo Esprit SE gives exhilarating performance yet is environmentally friendly. Our five year investment in new products, quality, and a strong, caring dealer network is achieving very positive results for us and for Lotus customers in what is a tough and challenging marketplace.''

The Lotus Esprit Turbo SE is currently featured in the hit movie ''Pretty Woman'' starring Richard Gere and Julia Roberts.

#90102b0787 04/12/1990 ~Business Wire
EAST HARTFORD, CT. (APRIL 12) BUSINESS WIRE - TRC Companies Inc. (AMEX:TRR) Management announced Thursday that the company experienced a net loss of $562,040, or 10 cents per share for the third quarter ended March 31, 1990 versus net income of $667,762, or 15 cents per share in the prior year.

The losses are a direct result of a significant reduction in the volume of business at the company's metaTRACE subsidiary. The laboratory is not receiving any testing work under its contracts with the U.S. Environmental Protection Agency (EPA), and the U.S. Army Toxic and Hazardous Materials

Agency.

The ability of metaTRACE to attract new business has been adversely affected by the previously announced investigations by the Inspectors General of the Department of Defense and EPA of certain laboratory procedures at metaTRACE and by the EPA's suspension of metaTRACE from participation in federal procurement.

In addition to events at metaTRACE, the company's government engineering subsidiary, Alliance Technologies Corp., experienced a slowdown of business in its acid rain and global warming technical assistance contract from EPA as the result of EPA budget cuts in the program under which the contract was awarded.

For the nine months ended March 31, 1990, the company experienced a net loss of $806,965, or 15 cents per share versus net income of $1,468,071, or 40 cents per share in the prior year.

The company's financial condition at March 31, 1990 is as follows: cash and cash equivalents of $1.5 million, working capital of $21.4 million, a current ratio of 7.0 to 1, shareholders' equity of $29 million and no borrowings under the company's $15 million unsecured three-year revolving line-of-credit.

Summarized unaudited operating results for the three and nine month periods ended March 31, 1990 and 1989 are as follows:

#90102b0839 04/12/1990 ~Business Wire
HOUSTON (APRIL 12) BUSINESS WIRE - Proler International Corp. (NYSE:PS) Thursday reported consolidated net earnings of $4,156,025, or 88 cents per share, for the fiscal year ended Jan. 31, 1990, compared with $20,402,909, or $4.34 per share for the fiscal year ended Jan. 31, 1989.

Share and per share figures for the year-earlier period have been restated to reflect the three-for-one split of common stock.

Consolidated net sales of $100,686,514 for the fiscal year ended Jan. 31, 1990, were 15 percent lower than sales of $117,986,935 for the fiscal year ended Jan. 31, 1989.

Proler's share of pretax earnings from joint operations for the twelve-month period ended Jan. 31, 1990, was $9,784,989 compared with $23,544,308 for the fiscal year ended Jan. 31, 1989. Included in

prior-year earnings was a $1,800,000 refund of taxes and interest from the Franchise Tax Board of the State of California which was paid under protest in 1982.

Herman Proler, chairman of the board, said: ''The lower earnings in fiscal 1990 compared with fiscal 1989 was primarily due to lower sales prices received for the company's principal products in both domestic and international markets in the second half of fiscal 1990.''

Proler International Corp. processes ferrous and non-ferrous metals for shipment to both domestic and foreign users. Directly and through joint operations, the company operates 18 metals processing plants strategically located throughout the United States. Products include prolerized scrap, other forms of high-grade ferrous scrap, precipitation iron, high-purity electrolitic tin and a wide variety of non-ferrous metals processed into recyclable forms.

#90102b0841 04/12/1990 ~Business Wire

LYNBROOK, NY (APRIL 12) BUSINESS WIRE - Martin J. Simon, chairman and president of First Central Financial Corp. (AMEX:FCC) announced Thursday that the company's final 1989 results included continued gains in direct written and earned premiums, assets and book value.

Net income and earnings per share declined due to a significant increase in loss reserves to support the greater premium volume.

The company, whose wholly owned subsidiary, First Central Insurance Co., writes property and casualty insurance, reported that in 1989, direct written premiums were $26,367,000 compared to $21,375,000 in 1988. Earned premiums were $20,136,000 in 1989 compared to $15,716,000 in the previous year. Total assets in 1989 were $65,996,000 compared to $58,230,000 in 1988. The book value per share was $2.84 in 1989 compared to $2.78 in 1988.

Net income totaled $2,353,000, or 40 cents per share in 1989 compared to net income of $3,065,000, or 50 cents per share in 1988, reflecting the $1.8 million increase in loss reserves in accord with the company's policy of strengthening reserves. The weighted average number of shares outstanding was 5,869,875 in 1989 compared to 6,111,349 in 1988.

Chairman Simon said that because of the additional premium writings, it was necessary to strengthen reserves for incurred but not reported losses. The increase will aid the insurance company to be fully reserved, thereby

keeping the company profitable and sound.

The company reported that its net written premiums increased in the fourth quarter of 1989 to $6,710,000 from $4,822,000 in the fourth quarter of 1988.

Earned premiums in the final quarter of 1989 were $5,469,000, compared to $4,179,000 in the fourth quarter of 1988.

Net income in the fourth quarter of 1989 showed a loss of $197,000 compared to a gain of $914,000 in the comparable 1988 period. This decrease was due to the company's strengthening of reserves for incurred but not reported losses in the amount of $1.8 million.

On a per share basis, net income in the fourth quarter of 1989 showed a loss of 3 cents per share on a weighted average of 5,758,462 shares outstanding compared to earnings of 15 cents per share on a weighted average of 6,110,759 shares outstanding in the fourth quarter of 1988.

Despite the $1.8 million increase in loss reserves, the insurance company's combined ratio was 94.7 percent compared to the industry's combined ratio of 109 percent, a difference of approximately 15 points that underscores First Central's strong profit margin.

In 1988, the insurance company's combined ratio was 89 percent compared to the industry's combined ratio of 105.5 percent, a difference of approximately 16 points.

Chairman Simon said that the 1989 results and moves to protect shareholders against future development of losses indicate management's dedication to building a strong, growth-oriented company that serves the niche market of small and mid-sized businesses.

First Central Financial Corp.'s wholly owned subsidiary, First Central Insurance Co., is rated A (Excellent) by A.M. Best & Co. Inc., a leading insurance and insurance rating service.

Tokyo (APRIL 12) - Japanese corporate bankruptcies hit a 17-year low during the fiscal year which ended in March, a private corporate credit

research agency announced Thursday.

Teikoku Data Bank agency said bankruptcy cases totaled 6,653, down 29.3 per cent from the previous fiscal year.

The collapsed firms left debts totaling 1.14 trillion yen (7.2 billion dollars), a drop of 39 percent.

TOKYO (APRIL 12) - Matsushita Electric Industrial Co., Ltd. said Thursday it would raise its purchase ratio of foreign semiconductors to 20 per cent of its total consumption by July 1991 in line with a Japan-U.S. chip accord.

The 1986 bilateral accord targeted Japan's semiconductor industry for retaliation under the 301 clause of the U.S. Omnibus Trade Act over charges the Japanese electronics and auto industries have not been increasing their purchases of foreign chips.

The agreement calls for Japan to increase purchase of foreign chips up to 20 percent of the market share by July 1991.

Matsushita plans to increase to about 30 percent the foreign chip content for industry use and 12 percent for consumer electronics use, the company said.

The 12 Matsushita group companies' purchase of foreign chips accounted for 27 billion yen (170 million dollars) of total consumption amounting to 200 billion yen (1.265 billion dollars) in the 12 months to March 1990.

CANBERRA (APRIL 12) - Australia's unemployment rate fell from a seasonally adjusted 6.5 percent in February to 6.1 percent in March, the Bureau of Statistics reported Thursday.

The bureau said the number of people seeking work fell by 32,000 to 510,000.

Seasonally-adjusted employment also fell by 38,400 or 0.5 percent in March to 7.82 million people, it said.

Employment Minister John Dawkins said the reason for this anomaly was the sharp drop in the participation rate - the number of people in work and actively seeking work as a proportion of working age.

The participation rate tumbled 0.6 percentage points from its record high in February to 63.1 percent in March.

#90102d3650 04/12/1990 ~French/German News Agency

PARIS (APRIL 12) - French Finance and Economy Minister Pierre Beregovoy announced Thursday that the deposit limit on "Book A" savings accounts would be raised from 80,000 to 90,000 francs (14,000 to 16,000 dollars) to try to counter a drop in the amount of savings in such accounts.

He also said he would reform the system of commissions received by savings banks to get them to make greater efforts to take in funds.

He added that the funds collected in "Book A" savings accounts would continue to be used for financing rental public housing, but the "blue book" accounts of Credit Mutuel bank would also be partly used to finance public housing.

Mr. Beregovoy noted that deposits in "Book A" accounts had declined by 17.2 billion francs during the first two months of the year. He said 15 to 20 percent of such accounts contain the maximum amount allowed.

MOSCOW (APRIL 12) - The wholesale and retail prices of about 70 per cent of goods sold in the Soviet Union are to be freed on January 1, and could double on average, a senior Soviet official said on Thursday.

The official, the Vice President of the Economic Reform Commission of the Supreme Soviet, Pavel Bunich, said: "According to projects still being discussed, 70 percent of wholesale prices will be freed on January 1, and retail prices willl have to be freed from that date, according to methods yet to be decided."

He told a press conference: "If 70 percent of prices are freed, on average prices will double."

The 30 percent of prices set by the state would be for "the price of basic, essential products and the prices of strategic production" for the country.

BUDAPEST (APRIL 12) - Kuwait is prepared to set up a 100-million-dollar fund to promote investments in Hungary, Hungarian deputy trade minister Tibor Toth announced here on Thursday.

The plan was discussed in November during a visit to Kuwait by Hungarian trade minister Tamas Beck in connection with signature of an agreement on protection of investments in Hungary, Mr. Toth said.

The idea was again discussed with Kuwaiti authorities by finance minister Lazslo Bekesi during a visit to the emirate at the start of this month. Kuwait agreed in principle, but asked Hungary to come up with a list of concrete projects for using such a fund, Mr. Toth told AFP.

Hungarian officials and the banks concerned are to meet after Easter to discuss the plan, and some developments are expected to be announced during a "Hungarian Economy" event to be held in Kuwait May 5-9.

KUALA LUMPUR (APRIL 12) - The cabinet is expected to approve Malaysian membership of the International Cocoa Organisation soon, a top official said Thursday.

He said that the cabinet had discussed possible membership of the pact a few weeks ago and "there were no objections."

Malaysia had previously refused to join the price stabilisation pact because of objections from local producers who claim that membership would result in Malaysian growers subsidising their less efficient counterparts in Africa.

Prime Minister Mahathir Mohamad told newsmen Thursday that the cabinet was awaiting a formal proposal from Primary Industries Minister Lim Keng Yaik on joining the cocoa pact.

Malaysia and Ghana, another major producer, issued a joint communique over the weekend after a visit by Mr. Lim to Accra, saying that the Malaysian minister would ask the government to approve membership of the pact on his return home.

The communique said that Malaysia and Ghana would strive to improve provisions of the current cocoa agreement beyond a two-year extension of the pact proposed by the London-based International Cocoa Organisation.

Malaysia is the world's fourth largest cocoa producer after the Ivory Coast, Brazil and Ghana. Malaysian output during the 1989-90 season is projected at 260,000 tons of cocoa beans, according to official statistics.

TAIPEI (APRIL 12) - At least 69 people were injured on Thursday when an explosion caused by a gas leak ripped through a bicycle factory in central Taiwan.

The explosion occurred at 12.15 p.m. when workers at the Hung Kuang Industrial Co., in Waipu village, Taichung, were having lunch in the factory's basement cafeteria.

Police said 19 workers were hospitalized with serious injuries, 11 of whom were in critical condition with burns over 80 per cent of their bodies.

Many of those injured were hurt during a stampede by frightened workers to flee the cafeteria.

The explosion blew a huge hole in the wall of the building and twisted steel banisters on the steps leading up from the cafeteria.

Taiwan provincial officials are looking into the cause of the gas leak which caused the explosion.

MAPUTO (APRIL 12) - Rebels of the Mozambique National Resistance (RENAMO) have killed 13 people in an ambush against two vehicles in the northern province of Nampula, according to the Maputo daily paper Noticias Thursday.

The attack took place on April 5 but the news took till now to reach the capital.

The report said the two vehicles were travelling from Nampula City to the railway town of Namialo when the rebels opened fire against them at night. A further 14 people travelling in the vehicles were wounded and taken to hospital at Nampula.

The ambush took place as preparations were getting under way for fixing a venue and date for the first ever direct talks between government and RENAMO representatives. But despite moves towards some form of negotiation there is no sign of any slackening in the ferocity of the civil war.

BEIJING (APRIL 12) - China kept up its news blackout Thursday on ethnic unrest in Xinjiang province, despite fresh reports that armed Moslems battled Chinese police in a town near the Soviet border, leaving at least 66 dead.

"Which riots are you talking about?" foreign ministry spokeswoman Li Jinhua said when pressed by reporters at a weekly press briefing to comment on reports of disturbances in China's far northwestern province.

Unconfirmed reports Thursday said at least 60 civilians and six police officers were killed in clashes last Thursday and Friday in Artux, a town just north of Kashgar, in the west of the vast Central Asian region.

Reports from Urumqi, the capital of Xinjiang, said the violence broke out when ethnic Kirgiz Moslems, asserting their non-Chinese roots, balked at being given Chinese identity documents.

Some of the rioters were said to be armed with guns.

Earlier reports from travellers in Xinjiang said troops were airlifted Friday to Kashgar and two other towns, Hotan and Kuqa, in an apparent bid to keep the disturbances from spreading.

Kashgar is 1,200 kilometers (700 miles) and three day's overland travelling time from Urumqi, on the fabled Silk Road once trod by Marco Polo.

Artux is 25 kilometers (15 miles) north of Kashgar, and 75 kilometers (45 miles) south of the border with the Kirgiz Soviet Socialist Republic, part of the Soviet Union.

In Urumqi, an official of the Xinjiang Foreign Affairs Office, who gave his name as Li, said order now prevailed over the huge region, much of which is desert.

"Xinjiang is stable now," he said by telephone. "We haven't heard about the things you've heard about. Please don't pay attention to what you hear through the grapevine."

Travellers contacted by telephone in Urumqi said the city appeared calm, after a reported demonstration Tuesday at a local mosque to protest last week's disturbances.

Mrs. Li, the foreign ministry spokeswoman, begged off questions about Xinjiang, saying it was an "internal affair of China" that fell outside her department's responsibilities.

"I'm not clear about the situation, so I don't have much to offer," she said.

In the past, the foreign ministry has reacted swiftly to reports of domestic unrest by attacking "foreign hostile forces" and chiding Western reporters for spreading "groundless rumors."

More than half of Xinjiang's 13.8 million people are Moslems, including Turkic-speaking Uygurs and nomadic Kazakhs with kin across the border in the Soviet Union.

Xinjiang is also home to some 112,000 Kirgiz, who have Turkic roots and Soviet relations.

Since Friday, foreigners in Urumqi have been refused air and bus tickets to Kashgar and local authorities have banned visits to Xinjiang by diplomats and journalists.

Diplomats have also been told by Chinese officials that Sunday's reopening of the seasonal road through the Karakorum Mountains linking Xinjiang and Pakistan would be delayed due to avalanches.

However, monsoon rains that trigger landslides do not begin until June or July.

Last month Xinjiang delegates to China's parliament, the National People's Congress, warned that nationalist unrest in nearby Soviet republics was liable to spill over into their region, which also borders on Afghanistan and Kashmir.

The latest trouble coincides with Ramadan, Islam's holy month of fasting.

#90102d5480 04/12/1990 ~French/German News Agency

BEIJING (APRIL 12) - Mongolia will hold parliamentary elections by the end of July, to be followed by a presidential vote within a month, its current head of state was quoted Thursday as saying.

President Punsalmaagiyn Ochirbat disclosed the election plan as Mongolia's ruling communist party continued a congress in Ulan Bator to discuss democratic reform.

In an interview with Japanese reporters, published in the official Unen newspaper, Mr. Ochirbat said several candidates -- including himself -- could contest Mongolia's first-ever presidential vote.

"If I am nominated, I will try to win the election," he added.

Highlights of the interview were carried by the New China News Agency in a dispatch from Ulan Bator.

The election date is to be set by Mongolia's parliament, the People's Great Hural, after it lays down a law governing political parties in Asia's oldest communist state at a session due later this month or in May.

But it remains to be seen how a new president would be picked, analysts in Beijing said.

One proposal discussed in Ulan Bator recently calls for the head of state to be chosen by elected representatives of a bicameral parliament.

Diplomats in Ulan Bator said the extraordinary congress of the Mongolian People's Revolutionary Party (MPRP) was expected to end on Thursday, its third day.

Last month the ruling party, long under Moscow's sway, bowed to growing demands for quicker democratic reform and wrote away its 66-year constitutional monopoly on power, clearing the way for elections.

#90102d5930 04/12/1990 ~French/German News Agency

TOKYO (APRIL 12) - The Export-Import Bank of Japan approved a total of 534 loans totalling a record 1,693.6 billion yen (10.93 billion dollars) in fiscal 1989, to March, up 16 percent from the previous fiscal year, the bank said Thursday.

The previous record was set in fiscal 1981 when the state-owned bank gave loans totaling 1,620.1 billion yen (10.45 billion dollars), it said.

Bank officials attributed the increase to steady growth in untied loans following the expansion of government measures to recycle Japan's external surplus to developing countries.

Another factor was a surge in investment by Japanese corporations, notably manufactuers anxious to enter foreign markets, the officials added.

LIMA (APRIL 12) - Peruvian security forces arrested about 300 persons after an overnight bombing campaign that cost two lives, the police announced Thursday.

The Maoist underground group Shining Path exploded car bombs outside a police canteen and Lima's agricultural university, causing considerable damage. Three others were safely defused.

One person was killed by one of the blasts. A policemen was hit by a bullet on the street and died. Thirty people were injured.

Police said that among those they arrested were three young men carrying explosives.

PARIS (APRIL 12) - Chai Ling, a prominent figure in the crushed Chinese pro-democracy movement, will hold a press conference here next Wednesday, two weeks after arriving in Paris with her husband following their escape from China, exiled supporters said Thursday.

Ms. Chai, 24, is high on a "most-wanted" list of 21 student leaders branded by the Chinese authorities as "criminals" for their part in the student-led revolt crushed by the military last June.

Ms. Chai, who has asked for political asylum in France, is due to meet the press at 3 p.m. (1300 GMT) on the top floor of the prestigious Arche de la Defense building where the summit of industrialised nations was held last July, the Federation for Democracy in China (FDC) said in a press communique.

Her husband Feng Congde will also take part in the press conference, the FDC said.

The Chinese embassy in Paris has officially protested to the French government about the welcome extended to the dissident couple.

Since her arrival in France, Ms. Chai's whereabouts have remained a closely guarded secret. She disappeared from Beijing last June 4 and there was no news of her until she was filmed recently by Hong Kong television after fleeing China.

#90102d6210 04/12/1990 ~French/German News Agency

LISBON (APRIL 12) - The Mozambique government wants to start direct peace talks with the rebel movement RENAMO ''as quickly as possible', President Joaquim Chissano said here Thursday on the last day of an official visit to Portugal.

A first meeting with the Mozambique National Resistance was being set up by

the official mediators, Presidents Robert Mugabe of Zimbabwe and Daniel arap Moi of Kenya, he said.

Pledging to enter the talks ''with the most open mind possible'', Mr. Chissano said: ''We do not want to talk about the past, but to try to solve today's problems by thinking of the future of Mozambicans and the country.''

But he rejected a condition set here the previous day by RENAMO spokesman Manuel Frank, who said the outcome of the peace parley should be the formation of an interim government with rebel participation. The transitional regime would call elections for a constituent assembly which would draft a new constitution, RENAMO says.

Mr. Chissano countered that the current national assembly elected by the people had the power to revise the present constitution. RENAMO was trying to get a ''certificate of recognition as a political party'' from the government, but that was anti-constitutional and he had no power to do that, Mr. Chissano said.

LAGOS (APRIL 12) - Nelson Mandela, deputy president of the African National Congress (ANC), will pay a three-day visit to Nigeria mid-May, an authoritative source in the presidency said here Thursday.

The visit is being planned to coincide with a meeting of the Organization of African Unity foreign ministers in Abuja, Nigeria's future capital, the source said without giving further details.

It would be Mr. Mandela's second visit to Nigeria in 28 years.

Although details of the visit are yet to be drawn up, President Ibrahim Babangida and Mr. Mandela discussed it when they met last month in Windhoek during Namibia's independence ceremonies, the source said.

-30- 841
#90102d6340 04/12/1990 ~French/German News Agency

MOSCOW (APRIL 12) - The Estonian parliament asked President Mikhail Gorbachev on Thursday to begin negotiations immediately to end the Baltic republic's 50-year ties with the Soviet Union and restore its independence.

A message signed by the President of Estonia's Supreme Soviet, Arnold Ruutel, asked the Soviet authorities to recognise the sovereignty of the Republic of Estonia, which was independent from 1920 until 1940.

But, while reiterating its declaration of March 30 that Estonia was under foreign occupation and illegal Soviet control, the parliament said it would "guarantee the continuity of links between Estonia and the Soviet Union by introducing a period of transition."

On April 3, Mr. Gorbachev telephoned Mr. Ruutel to reject the declaration and warn him that Moscow might react against Estonia "as it did towards Lithuania", which had proclaimed its independence on March 11.

Thursday's message, which is due to appear in Estonian newspapers on Friday, said that restoring the independence of Estonia, Lithuania and Latvia would "weaken military tensions in northern Europe."

Echoing Mr. Gorbachev's own phrase, it added that independence for the three Baltic republics would "help bring about the European common house".

The official Soviet news agency, Tass, meanwhile reported that the Estonian parliament had declared that it was "illegal" for Estonian youths to accept conscription into the Soviet army.

The decision had sparked "protests among citizens of Estonia who are not of Estonian origin," Tass said.

The next military call-up for all parts of the Soviet Union is to go ahead on April 15.

-30- 1860

#90102d6350 04/12/1990 ~French/German News Agency

ULAN BATOR (APRIL 12) - Mongolia's ruling communist party, which long ruled the country with an iron grip, Thursday adopt a new reform program to revamp its fortunes in the run-up to the country's first free, multi-party general elections later this year.

The nearly 1,000 delegates at the extraordinary congress here also voted to omit any reference to the introduction of communism in the country from the party statues.

Instead under the new party statutes, the party pledges to strive for ''the creation of a humane democratic socialism''.

The congress was convened to the backdrop of recent political changes that saw a series of opposition parties spring up.

Although the party remains committed to the principles of Marxism-Leninism it decided to abandon the ''Stalinist model'' and ''bureaucracy''. Delegates vowed that the communist party would in future compete with rival parties'' on the same level''.

Mongolia, the world's second country to be taken over by the communists after the Soviet Union, has long been one of Moscow's staunchest allies.

The reform moves were seen as bid by the communists to boost their popularity and convince the population that they are capable of ending the country's throttling economic crisis.

However, the opposition parties were quick to dismiss the reform moves as cosmetic.

LONDON (APRIL 12) - U.S. computer maker AmkorAnam Group has acquired Scottish semiconductor manufacturer Iteq Europe, the two companies said Thursday.

They did not reveal the value of the deal.

AmkorAnam is the U.S. distribution arm of South Korean group Anam, one of the world leaders in making and assembling semi-conductors, and the Iteq acquisition gives it its first European plant, an Iteq spokesman said.

The Scottish Development Agency said the Iteq purchase was the first significant investment in Scotland by South Korean interests.

AmkorAnam is to invest 20 million pounds (33 million dollars) in Iteq's assembly plant at Irvine in the heart of Scotland's Silicon Glen and the workforce will increase from 295 to more than 1,000 over the next few years.

Iteq will be renamed AmkorAnam Europe Ltd, but current Iteq managing director Michael Denham will remain as managing director.

AmkorAnam had a turnover of some 200 million dollars last year.

DUESSELDORF (APRIL 12) - Two armed robbers who escaped with nearly a million dollars from a train Wednesday night were caught Thursday along with their booty, police said.

A special police unit seized the two men in the town of Opladen, about 10 kilometers south of Duesseldorf, along with the 1.6 million marks (952,000 dollars) worth of foreign bank notes and gold and silver coins the robbers had stolen.

The two masked men surprised three postal workers in the train's mail coach just as the train pulled out of Cologne, 30 kilometers south of Dueseldorf.

The postal workers were tied up, and mail sacks were pulled over their heads. They were discovered at the next stop, Duesseldorf, by which time the two robbers had jumped from the train with six sacks of money.

#90102d6430 04/12/1990 ~French/German News Agency

MOSCOW (APRIL 12) - Soviet President Mikhail Gorbachev has reaffirmed his intention to solve the Lithuanian crisis peacefully, George Mitchell, leader of the Democratic majority in the U.S. Senate, told a press conference here Thursday.

He "stated his intention to resolve the matter by peaceful, non-violent means and described the situation from his perspective," Mr. Mitchell said after he and six other U.S. Democratic senators conferred Thursday with Mr. Gorbachev at the Kremlin.

Mr. Mitchell said he had told Mr. Gorbachev "for a half century, the policy of the United States Government has been not to recognize the incorporation of the Baltic states into the Soviet Union".

The senator said he had also made it plain to Mr. Gorbachev that any use of force to settle the Lithuanian question "would be regrettable" and would affect U.S.-Soviet trade relations.

The use of force "would have grave consequences for the relations between our two countries", Mr. Mitchell said.

The delegation also met Thursday with Soviet politburo member Alexander Yakovlev, a close aide to Mr. Gorbachev, and with Soviet Foreign Minister Eduard Shevardnadze for talks on Soviet affairs, German reunification and bilateral relations.

On Friday, the delegation was due to meet with Marshal Sergei Akromeyev, a top military advisor to Mr. Gorbachev, and Yevgeni Primakov, a member of the presidential council.

The U.S. senators, who had earlier visited Leningrad where they had talks with representatives from the three Baltic republics, are here at the invitation by the Supreme Soviet.

#90102d6490 04/12/1990 ~French/German News Agency

ISLAMABAD (APRIL 12) - Fifty AIDS cases have been recorded in Pakistan including 13 people who died of the disease in the past year, the English language daily The Muslim said Thursday.

The 13 were buried secretly while the other 37 are confined under strict security in different hospitals, the paper added.

A senior health official was quoted by the The Muslim as saying that the revelation of the AIDS vicitims could cause "panic" in Pakistan.

The health ministry would neither confirm nor deny the report Thursday.

Pakistani authorities have been tight-lipped about the spread of acquired immune deficiency syndrome (AIDS) in the country, with the last official pronouncement on the subject dating back to June 1989 when Health Minister Amir Hyder Kazmi announced plans to subject all foreigners to AIDS tests.

In July 1988, authorities reported 19 AIDS cases in Pakistan.

#90102d6550 04/12/1990 ~French/German News Agency

BOGOTA (APRIL 12) - Drug baron Pablo Escobar has undergone plastic surgery to avoid being recognized, sacked close aides out of fear they would turn him in and hired women to seduce security officials, police said Thursday.

"Escobar's behavior is that of a disturbed man," said General Octavio Vargas, chief of operations for the National Police.

He blamed Mr. Escobar for a car-bombing Wednesday in a town near Medellin that killed 16 people, eight of them policemen, and wounded more than 100.

Meanwhile, the chief of the National Police, General Miguel Antonio Gomez, said Mr. Escobar would face charges in connection with the deaths of 28 policemen over the past two weeks in Medellin -- the northwestern city that serves as headquarters to the powerful cocaine cartel of the same name.

In a macabre development, police said they had found a bomb hidden in a hearse, apparently set to go off outside a police building in Bogota.

Details of the find were not immediately available.

A police statement said Mr. Escobar had doubled the amount of money he is offering hitmen waging his war on security forces -- 8,800 dollars to kill a police patrolman, 44,000 for an officer and 110,000 dollars for the director of the police academy.

Mr. Escobar is currently engaged in a purge of his cartel, Gen. Vargas said.

He underwent the plastic surgery with the apparent aim of leaving the country, he added.

Television news programs Wednesday and the Thursday's edition of the Bogota daily El Tiempo showed close-up photographs of a man purported to be Mr. Escobar, riding in a speedboat on a lake near Medellin.

They said the photographs were taken about 20 days ago by undercover police agents that infiltrated the cartel, and that as a result of their release, Mr. Escobar ordered the purge.

Gen. Vargas said Mr. Escobar narrowly escaped arrest in the town of Cocorna, near the lake, and, suspecting a plot against him, ordered the murder of employees at the ranch where he had been hiding out.

Mr. Escobar has also hired young women to try to infiltrate government agencies investigating his cartel, seduce officials and report back to Mr. Escobar on their movements, Gen. Vargas said.

Top security officials have been favorite targets in attacks as the drug lords fight a government crackdown on their operations.

A truck-bombing in December destroyed the Bogota headquarters of the secret police, killing 64 people, but the target of the attack, police chief General Miguel Maza Marquez, escaped injury.

Colombia's drug war began in earnest last August after the murder of a leading presidential candidate, with the government declaring an all-out crackdown and resuming extradition proceedings with the United States.

Early this year the drug traffickers offered to leave the lucrative business in exchange for a pledge from the government not to extradite them, and for two months the drug-related violence eased.

But after the March 28 extradition of a suspected traffficker -- the 15th sent to the United States since the offensive began -- the cartel announced it was back at war.

The Extraditables -- the traffickers' name for themselves in public communiques -- vowed March 31 they would detonate 5,000 kilograms (11,000 pounds) of dynamite in residential neighborhoods of Bogota for each Colombian suspect extradited.

Demolition experts last week defused a powerful truck-bomb in a posh residential area of the capital. Officials said hundreds and perhaps

thousands would have died had it gone off.

PARIS (APRIL 12) - The Paris stock exchange ended pre-Easter break trading on a high note on Thursday, with the CAC index gaining 0.64 per cent to 2,116.66 points, its third record closing level this week.

The stock market has soared 10.5 percent in the past three weeks, and 5.7 percent since the beginning of the year.

Much of the boost has come from foreign investors, encouraged by favourable reports on the state of the French economy, the most recent this week from the Organisation for Economic Cooperation and Development (OECD).

Foreign buyers were in the market again Thursday, undeterred by the prospect of the long Easter weekend, when the market will be closed Friday and Monday, and a higher opening on Wall Street following news of a 0.6 percent fall in U.S. retail sales in March strengthened the upward trend at the end of the day.

Some shares rose by as much as five percent, with Michelin gaining 3.7 per cent and Suez, Saint Gobain and Elf Aquitaine traded heavily.

WASHINGTON (APRIL 12) - President George Bush Thursday pledged Washington's assistance to Colombian President Virgilio Barco ''to win the battle against the drug terrorists''.

The pledge came a day after 16 people were killed and 109 injured when a car bomb exploded in a crowded shopping street of Colombia's second largest city, Medellin.

''The brutality of the drug lords who have taken credit for the recent wave of killings seems to know no bounds,'' the president said in a statement read by White House spokesman Marlin Fitzwater.

Bush said Wednesday's attack was ''especially crude and shocking coming as it does during Holy Week which is observed as a solemn and joyous occasion throughout Colombia and the rest of Latin America''.

The 300 kilos of explosives were triggered when a police minibus carrying members of an anti-drugs squad passed the parked car on a road linking Medellin with the suburb of Itagui.

Eight policemen were among the dead. The anti-drugs squad was on its way back from an operation in Envigado, one of the strongholds of the drug barons.

#90102d6740 04/12/1990 ~French/German News Agency

BONN (APRIL 12) - A diplomat, a senior police officer and an engineer have been arrested in West Germany on suspicion of having spied for the Soviet Union and for East Germany's former Communist regime, the Federal Prosecutor's Office said Thursday.

The revelation came one week after authorities arrested a cypher expert at the West German Foreign Ministry accused of East bloc espionage. All four men were being held in investigative detention, spokesman Rolf Hannich of the prosecutor's office in Karlsruhe said.

The most serious case among the latest three involved the police official, a high-ranking member of the Federal Border Police, West German security sources told the German Press Agency dpa.

The official was posted in the Coblenz border police office responsible for directing searches for wanted persons and had access to a broad range of information from all West German intelligance agencies, the sources said.

The prosecutor's spokesman said the police official was suspected of spying for East Germany's now disbanded Ministry of State Security. But he declined to identify the suspect any closer or elaborate on the charges, saying that could hamper the ongoing investigation.

The detained diplomat was described by security sources as a middle-ranking Foreign Ministry official who last worked in Paris at Bonn's mission to the United Nations Educational, Scientific and Cultural Organistion (Unesco).

The mass-circulation newspaper Bild, quoting its own security sources, said the man was suspected of having spyed for East Germany since the mid-1970s.

His arrest followed a tip from a defected East German intelligence agent, Bild said. It said more arrests were expected in West Germany thanks to information from East German agents who had come west since the Communist regime was ousted by the pro-democracy movement last autumn.

It was the second time in a week that a foreign ministry employee was being questioned on espionage charges. The cypher expert arested earlier is suspected of having passed secrets to East Germany since 1975, including disarmament negotiation documents from North Atlantic Treaty Organization (Nato) headquarters in Brussels.

The third man whose arrest was announced Thursday was identified as a 38-year-old engineer from the Lake Constance area in southern Germany accused of industrial espionage for the Soviet Union.

The prosecutor's spokesman said the engineer was supected of having passed products to the Soviet Union that were barred from sale to East bloc countries by the Cocom list of sensitive technology produced in the industrialised West.

ADDIS ABABA (APRIL 12) - Newly-independent Namibia became a member of the Organization of African Unity on Thursday, OAU Secretary-general Salim Ahmed Salim announced.

Namibia, which became independent from South Africa on March 21, had received the support for admission from the required number of member nations, Mr. Salim said at OAU headquarters here.

He described Namibia's membership of the OAU as a "watershed in the history of the decolonization of the continent" and as the "crowning point of many years of armed struggle" by the South West Africa People's Organization (SWAPO), of Africa's unflinching support and unity of action, and of international solidarity.

BANGKOK (APRIL 12) - Cambodian resistance leader Prince Sihanouk was forced to flee from his base in northwestern Cambodia on Wednesday after the area controlled by his troops was shelled by Cambodian government forces, border reports said Thursday.

The reports said shelling occurred near Phum Sereipheap, a village set up by Sihanoukist forces when the prince returned to Cambodia for exile in China last Febuary.

Phnom Penh forces started shelling the village at about 10 a.m. with heavy artillery. Sihanouk, his wife, Pricess Monique, and other members of his entourage were evacuated at about noon.

Prince Ranaridth, commander-in-chief of Sihanouk's army, was not at the base when fighting started. Border sources said Sihanouk and Princess Monique in Thailand under the protection of the Thai army.

WASHINGTON (APRIL 12) - Alexander Dubcek, the new chairman of Czechoslovakia's federal parliament and the driving force behind the ill-fated 1968 "Prague Spring" of political reform, is to be honored with an honorary degree by Washington's American University.

Mr. Dubcek, who was ousted from power by the Soviet invasion of his country in 1968, will receive the degree May 13 when he will be the principal speaker at the commencement ceremonies of American University's College of Arts and Sciences and School of International Service, the university said Thursday.

TOKYO (APRIL 12) - Shiseido, Japan's biggest cosmetics group, said here Thursday it would build its first European plant in central France to produce perfume and skincare products.

Production at the planned factory in Gien, with an investment of two billion yen (12.6 million dollars), is scheduled to begin in 1991, the company said in a statement.

Shiseido, which controls nearly 30 percent of Japan's cosmetics market, said it expects the plant to produce about one million units in the first year and eight million by 1995, to be marketed in the European Economic Community (EEC).

The factory will create some 30 jobs at start and the number is to increase to about 120 in 1995.

"The image of France with regard to fashion, including cosmetics, is prestigious," it said explaining its choice. Shiseido's products have until now been made in France by Pierre Fabre.

Shiseido also has two research centers, three factories and a technical center in the United States.

The group's foreign sales increased last year by 120 percent to 56.5 billion yen (357 million dollars), 43 billion yen (272 million dollars) coming from cosmetics.

#90102d7040 04/12/1990 ~French/German News Agency
KHARTOUM (APRIL 12) - Sudan expressed reservation Thursday about a recent U.S. peace proposal aimed at ending the six-year civil war in the south of the country.

''We are reserved about some of the points in the proposal. We need more discussions on it,'' Colonel Suliman Mohamed Suliman, a member of the ruling Sudanese military council, said here.

The peace proposal was handed to both the Sudanese government and the rebels by Herman Cohen, the U.S. assistant secretary of state for African affairs.

Suliman, who is the official spokesman for the council, would neither confirm nor deny reports that the military government was unhappy at the U.S. proposal to restore a multi-party democracy.

He said Sudan was ''looking for a new system of government which will satisfy the interest of all its people''.

He predicted ''very good results'' before the end of the year following ''successful'' visits by military chief General Omer Beshir to neighboring countries to sell Khartoum's peace ideas.

The rebel Sudan People's Liberation Army (Spla), led by Colonel John Garang, had also softened its hard-line attitude to peace, he said.

#90102d7050 04/12/1990 ~French/German News Agency
ADDIS ABABA (APRIL 12) - Ethiopian foreign minister Tesfaye Dinka returned here Thursday after visits to Britain, China and North Korea, the official Ethiopian News Agency (ENA) reported.

Mr. Tesfaye, who is also a deputy premier, opened his three-nation tour on

April 2 by travelling to Britain, which had pledged to continue its aid to Ethiopia, ENA said.

Britain has given some 23 million pounds in famine aid to Ethiopia since 1989.

Mr. Tesfaye added that in talks with British officials, his delegation had urged British backing for "lasting development initiatives", which London undertook to consider.

The foreign minister said that on visits to China and North Korea his delegation had briefed officials on the current situation inside Ethiopia and discussed ways of strengthening ties.

The minister's tour was seen here as part of efforts to explain economic and political reforms announced in Ethiopia on March 6.

#90102d7070 04/12/1990 ~French/German News Agency

WASHINGTON (APRIL 12) - The White House Thursday hailed the decision by the new East German government to insist that a reunited Germany be a member of the North Atlantic Treaty Organization (NATO).

The new coalition government of Prime Minister Lothar de Maiziere announced earlier Thursday that it wanted union with West Germany on July 1 and that the reunited nation should be a member of the NATO western alliance for "a transitional period."

White House spokesman Marlin Fitzwater said: "This is in line with our policy. We believe that a reunified Germany should be part of NATO."

However, Mr. Fitzwater did not comment specifically on the East German idea that a unified Germany would be part of the Western alliance for just a transitional period.

On Wednesday, The United States rejected a suggestion that a reunited Germany belong to both the NATO alliance, which currently includes West Germany, and the Soviet-led Warsaw Pact which includes East Germany. It said that the idea was another formula for German neutrality, which Washington opposes.

#90102d7120 04/12/1990 ~French/German News Agency

LONDON (APRIL 12) - Greenpeace accused a British firm, Thor Chemical, of "poisoning the environment" in the Kwazulu homeland in South Africa where it runs a recycling plant for mercury-contaminated waste.

The environmental defense group said workers at the Thor Chemical factory at Cato Ridge, in Natal province, were exposed to dangerous levels of mercury vapors.

They said analysis of water samples from the nearby Mngeweni River by Doctor Paul Johnson of Queen Mary College in London revealed mercury levels sufficient to cause "a high threat of contamination" for villagers who use the water on a daily basis.

Bill Garrard, the director of Thor Chemical in Britain, however, said weekly checks on workers at the Cato Ridge factory showed no worrying results.

PARAMARIBO (APRIL 12) - Three men arrested Wednesday in connection with the murder of Soviet diplomat Statys Obukauskas have admitted their guilt, Suriname's official news agency SNA reported Thursday.

The suspects were named as Peter Burgzorg, 18, Denny Pocorni, 17, both of whom are unemployed, and 22-year-old army corporal Steven Wijders.

Mr. Obukauskas, second secretary at the Soviet Embassy in Paramaribo, was murdered Tuesday in an alleged robbery attempt.

An unofficial source quoted by the daily newspaper De Ware Tijd said the men were arrested in Nickerie, Suriname's westernmost district, after unsuccessfully trying to sell Mr. Obukauskas' car.

HELSINKI (APRIL 12) - A man who preyed on drunken women, single or married, in order to have sex with them has been sentenced to jail for nine years.

The court in Finland heard how he chose lone women whom he followed home from restaurants, each time using the same system: he waited outside the house or apartment before picking the lock to gain entry.

Some 20 women recognized the man as the one who had assaulted them, but it was believed there would have been many more cases which were not reported to police.

The court was told that in some cases the husband of the woman concerned remained asleep and unawares in the same bed.

BAGHDAD (APRIL 12) - A U.S. Senate delegation headed by Senator Robert Dole ended a day-long visit to Iraq on Thursday amid continuing tension between the two countries.

Before leaving, Dole told newsmen that he handed Iraqi President Saddam Hussein a letter from U.S. President George Bush, stressing the will to ''develop relations'' with Iraq.

The meeting took place in Mosul, 400 kilometers north of Baghdad. Reliable sources said Saddam gave Dole a letter for Bush in which he reiterated Iraq's desire for good relations with the United States.

The U.S. embassy in Baghdad said the senators, who left late Thursday for Israel via Egypt, discussed bilateral relations, regional problems and the Mideast peace process with Saddam.

Baghdad was the fourth leg of a Mideast tour which has taken the senators to Syria, Egypt and Jordan. The visit was arranged by Egyptian President Hosny Mubarak when the group was in Cairo.

In Washington, the White House said the delegation planned to hand over a U.S. protest about Iraq's position on chemical and biological weapons and nuclear trigger devices.

Iraq has accused the U.S. and Britain of mounting a campaign against it since British customs officers foiled an attempt to smuggle U.S.-made nuclear trigger devices to Iraq in March.

Relations soured further last week when Washington deported an Iraqi diplomat at the United Nations for allegedly plotting to kill Iraqi dissidents. Iraq expelled a U.S. diplomat in retaliation.

On Wednesday, the U.S. television network Nbc quoted intelligence sources as saying Iraq was developing bacteriological weapons at a facility in Salman Pak, southwest of Baghdad.

Earlier Thursday, British defence experts confirmed that eight car-sized tubes seized from an Iraq-bound ship in Britain on Wednesday could serve as a huge cannon when fitted together.

#90102d7350 04/12/1990 ~French/German News Agency
JAMMU, INDIA (APRIL 12) - Security forces have rounded up more than 350

suspects and raided 10,000 houses in Kashmir in a massive hunt for Moslem militants who murdered three hostages this week, officials said Thursday.

Indian army troops meanwhile shot dead two alleged border intruders from Pakistan in Kashmir Thursday, while the defense ministry in New Delhi reportedly denied that there was a troop movement on the border with Pakistan.

Defense sources quoted by the Press Trust of India (PTI) said foreign press reports of an Indian military buildup on the border were not correct, adding that "no unusual movement" was taking place on the frontier.

Several local politicians and a doctor from a prestigious medical institute in Srinagar, the curfew-bound summer capital of northern Jammu and Kashmir, were among those detained in the sweep, the officials said.

Officials from the state government said that security troopers searching for the killers of the three hostages, who included Kashmir University vice-chancellor Mashir Ul-Haq, had detained some 350 people in Srinagar.

Some 150 of the detained were hardcore Moslem militants and those who gave them shelter, the officials said. Unofficial sources put the total number detained since Friday at 650.

Abdul Gani Lone, president of the regional Kashmir People Conference and Doctor Afzal Wani from Srinagar's Sher-I-Kashmir Institute of Medical Sciences, were two notable detainees. Another was Hamid Sheikh, president of the pro-militant Islamic Students' Union.

The crackdown began Wednesaday, a day after the bullet-riddled bodies of the slain hostages were found dumped on roadsides in Srinagar.

Mr. Haq, his aide Abdul Gani, both Moslems, and H.L. Khera, a Hindu and senior executive of government-owned Hindustan Machine Tools, were abducted last Friday by the militants, who are fighting to end Indian rule in Kashmir. The abductors had demanded that three of their jailed colleagues be released.

The demand was turned down by the government.

Some 100 of the detainees had been shifted to prisons outside the state for security reasons, as the manhunt continued across Srinagar and the entire curfew-bound Moslem-dominated Kashmir valley, the officials said.

A large quantity of arms and explosives were seized during the raids, they said, adding that a clandestine hospital in Srinagar, where militants injured in their bloody campaign were treated, had also been found.

Elsewhere in this only Moslem-majority Indian state, an Indian army patrol shot dead two unidentified men who tried to cross from Pakistan into Kashmir Thursday, bringing the number of killed to seven in the last two days, defense officials said.

The latest attempted intrusion was at Titwal area on the Line of Control set at the end of the third and last India-Pakistan war in December 1971.

New Delhi has accused Pakistan of aiding militants in Kashmir, a charge rejected by Islambad.

In New Delhi, the hostage deaths dominated parliament for the second day running, with one senior member of the opposition Congress (I) party demanding a judicial investigation into the kidnapping and murders.

Many MPs expressed serious concern over the situation in Kashmir, where violence linked to the anti-Indian unrest has left more than 400 people dead so far this year.

The families of the slain hostages have slammed the government for failing to protect the three men, contrasting its hardline stand this time with the release of five prisoners in December to save the kidnapped daughter of the federal home affairs minister.

-30- 3870

#90102d7450 04/12/1990 ~French/German News Agency

WASHINGTON (APRIL 12) - President George Bush is so popular at home that the opposition Democrats are resigned to his winning a second term in 1992 and have yet to even start campaigning, Republican strategists say.

With the elections 31 months away, a time when presidential hopefuls would normally be taking trips -- and television cameras -- to key states, the campaign has not taken shape.

Indeed, after 20 years of unrestrained growth, campaigning for the U.S. presidency now looks as if it will be different, namely shorter.

No Democrat has begun to raise funds or to form a campaign committee, much less announce a formal candidacy.

By comparison, in the 1988 election campaign Democratic hopeful Richard Gephardt had already visited Iowa -- the midwestern state that holds the nation's first presidential caucus -- 15 times by spring of 1986.

But so far this year no potential candidate has shown his face in Iowa, according to the head of the Democratic party there, Joe Shanahan.

It is much the same in New Hampshire, which holds the nation's first presidential primary, a week after the Iowa caucuses.

Political analysts say that behind the delay in the start of the campaign lie Mr. Bush's soaring popularity in the polls -- around 70 percent -- and the probability that he would win a second term.

That popularity rules out bids from other Republicans and makes Democrats think twice about being the next member of that party to bite the dust at the polls. The Democrats have not taken the White House since Jimmy Carter's upset win in 1976.

Another factor, political pundits say, is that the Democratic field is relatively young and its members can afford to wait until 1996.

That field includes New York Governor Mario Cuomo, senators Bill Bradley of New Jersey, Charles Robb of Virginia, Albert Gore of Tennessee, as well as Mr. Gephardt, a member of the House of Representatives from Missouri.

In terms of age, the only exception to date is Lloyd Bentsen, the Democrats' vice presidential candidate in 1988 on the Michael Dukakis ticket. Mr. Bentsen will be 71 in 1992.

Yet another factor in the lack of presidential talk is the fact that those Democrats, with the exception of Mr. Robb and Mr. Bentsen, are preoccupied with retaining their seats in legislative elections due in November of this year.

Also, the Democrats have painful memories of the losing fate that befell Mr. Gephardt, who began his 1988 campaign before anyone else and won the Iowa caucuses only to fade from view.

Clearly, what one Democratic senator -- a non-candidate -- recently called "an eerie silence" on the presidential trail is music to the ears of the Republicans.

Ed Rollins, co-chairman and operational chief of the Republican congressional campaign committee and a key Republican strategist, says Mr. Bush is virtually invincible in 1992.

"We expect at this point for George Bush to have a tremendous victory," Mr. Rollins said in a recent speech. The "Democrats are almost conceding," he added.

Mr. Rollins, who managed Ronald Reagan's 1984 re-election campaign, said it was all a question of raising enough money to acquire national exposure.

"If you're not off and running four years in advance, you won't have the

resources to be a viable candidate for the presidency," he said.

The Democrats, meanwhile, dismiss such analysis and try to appear calm.

"I am not at all alarmed by the prospect of a late start," says Ronald Brown, chairman of the Democratic National Committee.

"We have lots of candidates who can get up and run in a hurry."

DURBAN, SOUTH AFRICA (APRIL 12) - Unrepentant African National Congress (ANC) bomber and journalist Mohammed Rafiq Rohan was jailed for 15 years by the Supreme Court here Thursday for bombings that left 17 people injured.

Admitting that he was responsible for three blasts at police buildings in Durban between January and April last year, 36-year-old Mr. Rohan, former news editor of the Natal Post, told the court he would do the same again if instructed by the ANC's external leadership in Lusaka.

Passing sentence, Judge Brian Law said violence, even if politically motivated, had to be condemned, adding that the explosions were so powerful "it was miraculous no-one was killed," the South African Press Association reported.

#90102d7540 04/12/1990 ~French/German News Agency
ISTRES, FRANCE (APRIL 12)- France on Thursday unveiled its new, ultra-sophisticated Rafale fighter aircraft at an official inauguration ceremony led by Defense Minister Jean-Pierre Chevenement.

The controversial project has raised eyebrows over its high cost. Official 1988 estimates set development and production at 118 billion francs (18 billion dollars at that period's exchange rate).

Mr. Chevenement's in his speech "appealed" to everyone involved in the development of the Rafale to "keep cost effectiveness foremost in their minds".

"We cannot tolerate any failure," he warned.

The contract was signed in 1988 under the conservative government of Prime Minister Jacques Chirac, whose successor Michel Rocard, a Socialist, at one point raised doubts about the continuation of the Rafale project.

But Mr. Chevenement hailed those present who "together had met a great

national challenge".

The demonstration model unveiled Thursday featured the new M88-2 motor by SNECMA, the National Society for the Study and Construction of Aviation Motors.

It was taken up for a brief demonstration flight during the ceremony at the Istres air base here in southeast France.

Until now, an earlier test model, the Rafale A, which is bigger and longer than the final version, flew with two F-404 motors built by the U.S. firm General Electric.

In time, it will be equipped with two M88-2 SNECMA motors -- seen as a smaller, high performance model -- for a test flight scheduled for a year from now.

NEW DELHI (APRIL 12) - India's exports of jewelry and cut and polished diamonds rose by nearly 20 per cent in the financial year ending in March, earning 3.2 billion dollars, official figures showed Thursday.

Exports in the previous financial year totalled 2.6 billion dollars, the Gem and Jewellery Promotion Council said.

Cut and polished diamonds accounted for the major chunk of sales in the 1989 to 1990 financial year, bringing in 2.9 billion dollars.

Non-gold jewellery exports, accounting for a small share of exports, also increased.

ISLAMABAD (APRIL 12) - Pakistan has denied foreign press reports that it had reached a clandestine understanding to establish ties with Israel.

A foreign ministry spokesman said here Thursday there was ''not an iota of truth'' in the Washington Post report, also circulated by the Press Trust of India (Pti) news agency.

''Pakistan does not recognize Israel and has never had any relations, overt or covert, with that entity,'' he said.

He added that ''the question of Pakistan entering into any kind of dealing with Israel does not arise''.

The Post and Pti reported that Israeli officials visited Karachi after a clandestine understanding to establish ties and clinched several commercial and defence deals.

BEIRUT (APRIL 12) - Five civilians were killed and three wounded as rival Christian forces battled Thursday with heavy artillery in Lebanon, security sources said.

The leader of the Lebanese Forces (LF) militia, Samir Geagea, said that "dialogue was no longer possible" with his chief antagonist General Michel Aoun.

The shelling engulfed the capital's Christian suburbs and the northern Kesrouan mountains, where the Lebanese Red Cross said it had evacuated five casualties -- including three LF militiamen -- from the village of Qlaiaat on Wednesday.

At least 932 people have been killed and 2,538 wounded in the 10-week-old fighting for control of Lebanon's Christian region.

Mr. Geagea said that Gen. Aoun had "refused categorically" to join the LF in seeking a settlement with President Elias Hrawi.

Gen. Aoun does not recognize the legitimacy of Mr. Hrawi, who is based in mainly Moslem west Beirut and backed by Syrian troops.

In a report published Thursday in the Bahraini daily Al Khaleej, Mr. Hrawi said he was prepared to "intervene peacefully" to stop the "absurd" inter-Christian fighting.

Mr. Geagea last week appealed to Mr. Hrawi -- who was elected by parliament last year under an Arab peace plan -- to take control of army barracks in LF-held areas, which account for 60 per cent of Christian Lebanon.

Gen. Aoun has called on LF forces to "rise up against their commander."

Mr. Geagea and Gen. Aoun fell out when the militia chief refused to distance himself from the Arab plan, denounced by the general for failing to stipulate the withdrawal of some 30,000 Syrian troops in Lebanon.

Arab League special envoy Lakhdar Ibrahimi arrived here Thursday for talks with Mr. Hrawi and other senior officials on the Arab peace plan, informed sources said.

In other developments, the LF Thursday freed four Lebanese and a Palestinian whom it had detained for the past three years, correspondents reported.

The five had been seized over a four-year period starting in 1986. There are no exact figures on the number of missing people in LF hands.

LIMA (APRIL 12) - Seven people were killed and more than 20 were injured in several bombing and shooting incidents blamed on the Maoist Shining Path guerrillas.

Peruvian authorities said the guerrillas were venting their anger for the heavy losses incurred by leftist political groups in Sunday's polls, in which a liberal novelist and an independent of Japanese descent topped the polls.

Unidentified assailants also blew up electric pylons in western Peru, causing a massive 20-minute blackout Wednesday night in Lima and in coastal cities, from Nazca, 350 kilometers (220 miles) south of here, to Chiclayo, 750 kilometers (465 miles) north of the capital.

In the cover of darkness three car bombs went off in Lima, one of them next to a policemen's club, leaving six people hurt.

Officials said a policeman and a union leader were gunned down in Lima, while a university student was shot dead in Ayacucho, to the southeast.

Four suspected leftist guerrillas died in a shootout with the authorities Wednesday in Cerro de Pasco, central Peru.

A bomb went off injuring six students near the San Martin de Porras University here and more than a dozen people were injured in an explosion in another city square.

More than 300 suspects were rounded up in Lima, police said.

In the central Andean town of La Oroya, several explosive charges levelled the local soccer stadium and in nearby Huancayo a car bomb caused damage to the local headquarters of the American Popular Revolutionary Alliance (APRA), the ruling party.

All railway connections between Huancayo and Huancavelica, central Peru, were down when a bomb ripped part of the railway tracks.

DAR ES SALAAM (APRIL 12) - Tanzania has planted more than 79 million trees in the past three years, over 85 per cent of the targetted 92.5 million in a national campaign to check desertification, it was announced here.

The deputy Minister for Lands, Natural Resources and Tourism, Chabanga Dyamwale, told parliament Wednesday that a similar campaign was underway to replant endangered hardwood trees including mahogany, camphor, ebony and teak.

The afforestation programme, funded by foreign donor agencies, took off in 1987 when 20.1 million trees were planted out of a target of 27.4 million.

Last year, 30.8 million trees were planted for a target of 33.1 million.

Tanzanian forests, both exotic and indigenous, are under serious pressure to meet local energy and building requirements as well as timber for export. It is estimated 14 million cubic metres are cut down annually to produce charcoal and firewood alone.

LIMA (APRIL 12) EFE - A policeman died in a wave of leftist rebel attacks which blacked out a 1,000-km stretch of Peru's Pacific coast, including the capital, as the guerrillas resumed their war following last weekend's elections, officials said.

They said the officer was killed in a shootout Wednesday night with suspected rebels of the Maoist +Shining Path+ in northern Lima in one of some 25 attacks carried out in the capital during the two-hour power cut.

Meanwhile, a police bomb disposal unit difused explosives which had planted near U.S. embassy and and the residence of the U.S. ambassador.

The blackout was the most widespread caused by the Shining Path this year, officials said, adding that increased power rationing would be enforced.

Observers speculated the attacks were in response to politicians' claims that the massive turnout by voters for last Sunday's elections, ignoring a rebel-ordered boycott, showed that the guerrillas had no popular support.

Some 800 people have been killed in political violence in Peru this year while more than 19,000 have died since the Shining Path took up arms in 1980.

Police barracks, offices, stores and a university were damaged in the explosions Wednesday in the capital but apart form the policeman, no other casualties were reported.

Witnesses said a soccer cup match had to be called after only eight minutes of play in Lima's National Stadium and thousands of supporters evacuated using car lights because of the blackout.

The attacks came despite heavy policing in the capital ordered for the ballot.

Sunday's election saw no candidate win the more than 50 per cent majority required for an outright victory, and the two leading candidates, independent Alberto Fujimori and novelist Mario Vargas Llosa of the center right, will face each other in a run-off in May or June.

LIMA (APRIL 12) EFE - Twenty-two people have died recently after being bitten by rapid vampire bats in the remote Amazonian region of northeastern Peru, health authorities reported Thursday.

A medical team visited two villages in the area at the request of local authorities and confirmed that the deaths were due to "an outbreak of rabies caused by bat bites".

An earlier outbreak last October in the same region killed at least 123 people.

ATHENS (APRIL 12) XINHUA - THIEVES ATTACKED THE GUARD OF THE MUSEUM OF ANCIENT CORINTH TODAY AND ESCAPED WITH PRICELESS ANTIQUITIES, ACCORDING TO POLICE.

ANCIENT CORINTH WAS ONE OF THE OLDEST AND MOST POWERFUL OF THE GREEK CITY-STATES, DATING FROM HOMERIC TIMES. THE MUSEUM OF ANCIENT CORINTH IS LOCATED 84 KILOMETERS WEST OF ATHENS.

THE THIEVES ENTERED THE MUSEUM THROUGH THE BACK DOOR EARLY THIS MORNING, OVERPOWERED THE GUARD AND TIED HIM UP BEFORE EMPTYING ALL THE DISPLAY CASES CONTAINING EARTHENWARE POTS OF VARIOUS PERIODS. THEY THEN LOADED THE ANTIQUITIES ONTO A LORRY AND DROVE OFF.

ACCORDING TO POLICE SOURCES, THE MUSEUM BUILDING WAS IN VERY GOOD CONDITION. THE MAIN ENTRANCE IS AN IRON DOOR WHICH HAS NOT BEEN FORCED. IT IS NOT KNOWN WHETHER THE BACK DOOR, WHICH WAS FOUND OPEN, WAS FITTED WITH A LOCK.

THE MUSEUM GUARD IS BEING TREATED AT CORINTH HOSPITAL FOR HEAD AND FACE INJURIES. POLICE SAID THE GUARD HAS NOT BEEN ABLE TO GIVE A DESCRIPTION OF THE THIEVES.

ACCORDING TO A PRELIMINARY INVENTORY, MISSING OBJECTS INCLUDE A MARBLE BUST OF HADRIAN, 10 MARBLE HEADS, 12 VASES OF PLASTER, TWO CERAMIC VASES WITH DECORATIONS IN RELIEF, FOUR CLAY STATUETTES AND FIVE VASES.

THE MUSEUM WAS BUILT IN 1931-1932 BY THE AMERICAN SCHOOL OF CLASSICAL STUDIES AND PRESENTED TO THE GREEK STATE IN 1934. IT IS CONSIDERED ONE OF THE RICHEST AND MOST INTERESTING PROVINCIAL MUSEUMS WITH EXHIBITS ILLUSTRATING THE HISTORY OF CORINTH AND THE DEVELOPMENT OF ART FROM THE

NEOLITHIC ERA TO THE MIDDLE AGES.

#90102h0152 04/12/1990 ~Chinese News Agency

UNITED NATIONS (APRIL 12) XINHUA - WORLD ANNUAL MILTARY EXPENDITURES THAT REACHED A PEAK OF SOME 900 BILLION U.S. DOLLARS IN 1987 HAVE BEGUN TO LEVEL OFF OR GO DOWN, ACCORDING TO THE APRIL ISSUE OF U.N. DISARMAMENT NEWSLETTER RELEASED HERE TODAY.

THE NEWSLETTER SAID THAT "MILITARY BUDGETS ARE COMING DOWN IN EUROPE AND NORTH AMERICA," WITH THE TWO LARGEST EXPENDITURES BY NORTH ATLANTIC TREATY ORGANIZATION (NATO) AND THE WARSAW PACT STARTING TO FALL.

IT POINTED OUT THAT FOR THE FIRST TIME SINCE 1951, MILITARY BUDGETS WILL NOT BE EXPANDED TO KEEP UP WITH INFLATION AND ARE EXPECTED TO REMAIN LEVEL IN CURRENT DOLLARS. BUT THE REAL DOLLAR-PURCHASING POWER IS EXPECTED TO GO DOWN, RESULTING IN FEWER ARMS AND ARMED FORCES.

AS THE POLITICAL CONTEXT CHANGES, THE PERCEIVED NEED FOR DEFENCE EXPENDITURES ALSO CHANGES ACCORDINGLY. BUDGETS FOR THE 1990S THAT WERE INITIALLY PLANNED TO GO UP IN CURRENT DOLLARS AND TO REMAIN ABOUT LEVEL IN CONSTANT-DOLLAR BUYING POWER HAVE BEEN REVISED DOWNWARD.

THE UNITED STATES, FOR EXAMPLE, HAS SINCE 1951 AUTHORIZED AVERAGE ANNUAL DEFENSE EXPENDITURES EQUIVALENT TO SOME 265 BILLION 1990 DOLLARS, WHICH AMOUNT TO SIX PER CENT OF ITS GNP (GROSS NATIONAL PRODUCT).

THE ORIGINALLY PROPOSED U.S. CUTS OF 3.2 BILLION IN MILITARY SPENDING IN 1991, BRINGING THE TOTAL TO 303 BILLION, WERE VIEWED BY MANY AS TOO SMALL A REDUCTION.

EARLY LAST MONTH THE U.S. SENATE BUDGET COMMITTEE PROPOSED A 15 BILLION CUT AND TWO WEEKS LATER CHANGED THE PROPOSAL TO 20 BILLION CUT FOR 1991. SUCH CUTS WOULD INCLUDE REDUCING THE NUMBER OF ACTIVE U.S. ARMY DIVISIONS FROM 18 TO 15 AND ELIMINATING TWO OUT OF 36 TACTICAL FIGHTER WINGS AND ONE OUT OF 14 AIRCRAFT CARRIER BATTLE GROUPS.

SPOKANE, WA (APRIL 12) PR NEWSWIRE - Pegasus Gold Inc. (AMEX, Toronto: PGU) announced today that William G. Wilson, 54, has been appointed a director of the company. Wilson, of Calgary, Alberta, is executive vice president and chief financial officer of NOVA Corp. of Alberta, a major Canadian gas pipeline and petrochemical concern. A Chartered Accountant, Wilson brings an extensive business and financial background to the Pegasus board. Prior to joining NOVA in 1986, he was associated with

Cominco Ltd. where he served as that company's President from 1980 to 1986. Wilson also serves as a director of several other corporations. He is not related to Pegasus President and Chief Executive Officer John M. Willson.

The appointment of Wilson to the Pegasus board fills a vacancy created by the retirement of Stanton B. Bennett from the service of the company last December. Wilson will serve the balance of a term ending in June of this year and will stand for election to a full three-year term as a director at the company's 1990 Annual General Meeting of Shareholders to be held on June 8 in Vancouver, British Columbia.

Pegasus Gold Inc. is a major North American gold producer that currently produces over 340,000 ounces of gold annually from six mines in the western United States. The company also produces significant amounts of silver, zinc and lead. Pegasus Gold common shares are traded on the American Stock Exchange and The Toronto Stock Exchange under the symbol PGU. Options on the company's common shares are traded on the Chicago Board Options Exchange and the Montreal Stock Exchange.

#90102p1910 04/12/1990 ~PR Newswire

ENGLEWOOD CLIFFS, NJ (APRIL 12) PR NEWSWIRE - For the first quarter of 1990, CPC International Inc. today reported net income of $78.9 million, an increase of 17 percent from $67.7 million in the first quarter of 1989.

Earnings per common share rose 17 percent to $1.01 from $.86 in last year's first quarter. Average common shares outstanding in the quarter were 3.8 percent lower than in the first quarter of last year due to an ESOP-related stock repurchase program which was substantially completed in the fourth quarter of 1989.

Worldwide sales in the first quarter of 1990 were up 7.3 percent to $1.35 billion from $1.26 billion, and operating income rose 21 percent to $159.6 million from $132.3 million.

During the quarter, the company sold a minority interest in a small subsidiary in Switzerland which had been wholly owned, and several small facilities elsewhere were either closed or slated for closing or realignment. The net impact of these moves was to slightly reduce the earnings gain in the quarter.

Worldwide sales of consumer foods were 7.4 percent higher than in the first quarter last year and accounted for 80 percent of the company's total net sales. Most of the sales gain came from a volume increase worldwide of 5.1 percent. Operating income from consumer foods was up 4.8 percent.

As announced April 2, CPC has completed a significant acquisition from SmithKline Beecham in the United Kingdom which included three well-known consumer foods brands with annual sales of approximately $145 million. The acquisition included Ambrosia desserts, Bovril beef extracts in paste, granules, and cubes, and Marmite spread, all of which are market leaders in their product categories. These products will complement CPC's dessert lines, bread spreads, and Knorr products made there and in other countries.

With sales in 1989 of $5.1 billion, CPC International Inc. ranks as one of the largest and most international food companies in the U.S. CPC's worldwide consumer foods business accounts for approximately 80 percent of the company's total sales, and its products are household favorites

throughout North America, Europe, Latin America, and Asia. Best-known among its U.S. brands are: Hellmann's and Best Foods mayonnaise, Mazola corn oil and margarine, Skippy peanut butter, Thomas' English muffins, Arnold breads, Mueller's pasta products, Karo and Golden Griddle syrups, and Knorr soups, sauces and bouillons. CPC is also one of the largest corn refiners with operations in North America and Latin America.

#90102p1915 04/12/1990 ~PR Newswire

LOS ANGELES (APRIL 12) PR NEWSWIRE - Carter Hawley Hale Stores Inc. (NYSE: CHH) today reported sales for the five weeks ended April 7, 1990, were $223.8 million, a decrease of 1.9 percent from the $228.2 million recorded in the comparable fiscal period last year. The company also reported that sales for the nine weeks ended April 7, 1990, were $399.9 million, an increase of .2 percent from the $399.0 million recorded in the same period last year. On a comparative store basis, sales were down 2.4 percent in March and down .2 percent for the nine weeks.

Philip M. Hawley, chairman and chief executive officer, said, "Sales of cosmetics, home furnishings, and women's accessories were strong during the month. There was weakness in women's and children's apparel, and shoes."

Sales for the first eight months of the company's fiscal year ended April 7, 1990, were $2,043.5 million, an increase of 4.8 percent from the $1,950.0 million recorded in the comparable fiscal period last year. On a comparative store basis, sales were up 2.4 percent for the period.

Last year's comparable fiscal periods ended one week earlier due to the 53 week fiscal year in 1990. Sales in all periods reported exclude the Emporium store in downtown Oakland, which has been closed since the earthquake in the Bay Area.

Carter Hawley Hale operates 114 department stores under the names of The Broadway-Southern California, The Broadway-Southwest, Emporium, Thalhimers and Weinstocks.

COLUMBUS, OH (APRIL 12) PR NEWSWIRE - The Limited, Inc. (NYSE/LSE/TSE: LTD) reported net sales for the March fiscal month ended April 7, 1990 of $426.8 million, an increase of 8 percent from sales of $393.8 million for the same period in 1989. Sales for the two months ended April 7 increased 13 percent to $744.9 million from $657.6 million for the same period last year. The Limited sold its Lerner Woman division effective April 29, 1989. Had last year results excluded Lerner Woman, the sales increase would have been 15 percent for the month ended April 7, 1990 and 20 percent for year-to-date 1990.

The company's comparable store sales increased 4 percent in March 1990 and 9 percent for the two months ended April 7, 1990.

The Limited, Inc., through the Limited, Express, Victoria's Secret, Henri Bendel, Lerner, Lane Bryant and Abercrombie & Fitch, presently operated 3,201 specialty apparel stores throughout the U.S. and distributes apparel nationally through the Victoria's Secret, Lerner, Lane Bryant and Roaman's catalogues.

#90102p1929 04/12/1990 ~PR Newswire

BEVERLY HILLS, CA (APRIL 12) PR NEWSWIRE - Hilton Hotels Corp. (NYSE: HLT) announced today that on the strength of record gaming earnings, its first quarter net income increased 92 percent from the comparable 1989 level.

For the three months ended March 31, 1990, net income totaled $25.1 million or $.52 per share compared to $13.1 million or $.27 per share in the 1989 period.

Hotel income contribution of $22.8 million improved eight percent. Improvements at full-service hotels opened during 1989 and a later Easter observance in 1990 contributed to the increased results. Hotel occupancy was 66 percent against 67 percent last year. Adjusting for hotels open less than one year, occupancy for the current quarter was comparable to 1989. Hotel average room rates increased four percent.

The gaming segment posted the highest first quarter results in the company's history. Income contribution increased 119 percent to $33.8 million. The improvement was focused at the Las Vegas Hilton and the Flamingo Hilton-Las Vegas, each of which reported record operating results for the period. Nevada gaming occupancy was 86 percent compared to 87 percent in 1989, with average room rates increasing five percent.

Income from the Las Vegas Hilton was substantially above its 1989 period

results. In the 1989 period the hotel-casino experienced an abnormally low win percentage on casino play in addition to a loss from promoting a sporting event.

The Flamingo Hilton-Las Vegas improvement stems from added guestroom availability during the period. A 733-room tower addition was completed at the end of the period, with floors of rooms added in stages during the quarter.

Total income contribution was $56.6 million, up 55 percent from the 1989 period. Net interest expense declined two percent to $11.2 million, while corporate expense increased 38 percent to $8.3 million.

#90102p1931 04/12/1990 ~PR Newswire

WARREN, MI (APRIL 12) PR NEWSWIRE - Unprecedented gains in air quality, and improvements in the performance, fuel economy and driveability of today's cars and trucks are benefits resulting from the use of catalytic converters.

Yet when GM announced it would put converters on all -- that's 100 percent -- of its 1975 cars, there was great skepticism both within the auto industry and from its observers that the idea would work.

That was 100 million catalytic converters ago. Today, a key figure in the converter's development, GM President Robert C. Stempel, lauded the environmental accomplishments of the device at ceremonies marking this production milestone.

Speaking at the corporation's Research Laboratories, Stempel noted that the catalytic converter is a major contributor to the increasing of GM's corporate average fleet fuel economy (CAFE) by 130 percent since 1974. Also, compared to cars without controls, current models emit 96 percent fewer hydrocarbons and carbon monoxide and 76 percent fewer oxides of nitrogen, which he credited in large part to the converter.

"Producing 100 million of anything is a considerable achievement, but we take special pleasure in this milestone because a lot of people thought we'd never get anywhere close" to succeeding, Stempel said, recalling that skeptics thought "there were just too many risks and too many leaps in technology to come up with a device that converts pollutants into harmless gases and water."

The task required completely new manufacturing methods, and new materials,

especially in the areas of ceramics and high-temperature steels. World output of the essential ingredients, the rare and exotic elements platinum and palladium, had to virtually double.

Also, it meant "we had to create a market for a new fuel - unleaded gasoline - and that required close cooperation with the oil industries," he said.

Engineers at AC Rochester, the division that builds the converter, estimate it has cleaned auto exhaust streams of 30 million tons of hydrocarbons, 150 million tons of carbon monoxide, and 10 million tons of oxides of nitrogen.

The ceremonies were linked by satellite with AC Rochester's Oak Creek plant in Wisconsin, which built the 100-millionth milestone unit and has accounted for 85 percent of the division's converter production. Other plants are in Southampton, England; Melbourne, Australia, and Taegu, South Korea.

#90102p1934 04/12/1990 ~PR Newswire

DALLAS (APRIL 12) PR NEWSWIRE - International Telecharge, Inc. (AMEX: ITI) today initiated 24-hour, seven-day-a-week operator referral service for the 900 services of CISCORP, a Dallas-based voice services firm.

The agreement provides that CISCORP terminate its 900 service calls to ITI's operator toll center for around-the-clock operator referral. MCI Communications Corporation's access network will be used to transmit CISCORP's 900 service calls.

"Our agreement with CISCORP is the start of ITI's participation in 900 services, and is an important next step toward our strategic goal of becoming a diversified, transaction-based information services provider," said Ed Tagg, ITI president and chief operating officer. "We are very pleased to be working with CISCORP."

The initial application of ITI operator referral services is the collection of billing information from callers purchasing Murdoch Publications magazine subscriptions, offered through CISCORP's 900 service. In addition to subscription fulfillment, ITI and CISCORP are developing further transaction-based applications for the system.

"Our partnership with ITI represents a new application for our services, and is an exciting new dimension to our business," said Robert Manley, president of CISCORP.

CISCORP, a privately held company in Dallas, develops hardware, software and information services for use in various computer-based voice-processing operations. The company is involved in two primary areas of voice services: advertiser-supported information systems, and pay-per-call systems (900 services). Among CISCORP's 900 service applications are interactive games, psychological self-testing, and direct marketing for third parties such as Murdoch Publications.

ITI, headquartered in Dallas, is a leading national telecommunications supplier of network-based operator and information services, primarily to hotels, hospitals, institutions, payphone owners and interexchange carriers.

CONTACT: Rob Heath of ITI, 214-653-5510.

#90102p1936 04/12/1990 ~PR Newswire

WINSTON-SALEM, NC (APRIL 12) PR NEWSWIRE - First Wachovia Corporation's (NYSE: FW) net income per share fully diluted for the first quarter of 1990 was $1.01, up 5.4 percent from $.96 in the same period of last year, according to John G. Medlin Jr., chief executive officer.

Net income totaled $71.3 million compared with $67.3 million in the initial quarter of 1989, a rise of 6 percent. On an annualized basis for the first three months of 1990, the return on average shareholders' equity was 16.3 percent, and the return on average assets was 1.22 percent.

The earnings increase for the quarter was due primarily to good growth in loans and other service revenues and was moderated by a narrower net interest rate yield than earned a year earlier, Medlin said.

Average interest-earning assets rose $1.707 billion or 9.2 percent compared with the prior year. Average loans grew $1.401 billion or 10.2 percent. Average interest-bearing liabilities increased $1.537 billion or 9.8 percent.

Taxable equivalent net interest income was up $4.6 million or 2.1 percent over the first quarter of 1989, reflecting the margin compression. Excluding securities transactions, other service revenues grew $9.7 million or 12.5 percent while noninterest expense rose only $7.8 million or 4.5 percent.

The provision for loan losses was $17.6 million compared with $14.5 million for the first three months of 1989. Net credit charge-offs were $12.4 million for the quarter or .33 percent of total loans versus $11.4 million or .33 percent.

At March 31, nonperforming assets totaled $89.6 million or .58 percent of loans and foreclosed real estate. On the same date, the allowance for loan losses was $172 million or 1.11 percent of loans and 1.92 times nonperforming assets.

At quarter end, shareholders' equity was 7.49 percent of total assets, one of the strongest such ratios among the major banking companies.

PHILADELPHIA (APRIL 12) PR NEWSWIRE - Mellon Bank Corp. (NYSE: MEL) announced today that its Philadelphia bank subsidiary, Mellon Bank (East), received approval yesterday from the Office of the Comptroller of the Currency to purchase 54 PSFS branch offices from Meritor Savings Bank (OTC: MTOR).

Following a mandatory waiting period and subject to the satisfying of all closing conditions, the acquisition, announced in December 1989, is expected to be completed in mid-May.

"We have done extensive planning with PSFS and are working hard to ensure a smooth transition with minimal disruption for PSFS customers," said Thomas F. Donovan, vice chairman of Mellon Bank Corp. and chairman and CEO of Mellon Bank (East). "By combining the considerable strengths of both organizations, we believe we can offer outstanding products and services to the people and businesses in the Philadelphia area."

All of the approximately 750 PSFS employees in the branches purchased by Mellon will become employees of Mellon Bank (East) upon completion of the transaction. In addition, Mellon has agreed to hire an additional 135 PSFS employees for full-time operations support positions.

In reviewing the branch purchase, the Office of the Comptroller considered protests filed by three Philadelphia-area community groups, but approved the transaction based on Mellon's record of community involvement and compliance with the requirements of the Community Reinvestment Act.

The branch purchase, when completed, will increase Mellon's deposit market share in the five-county Philadelphia market from about 5 percent to approximately 14 percent.

Donovan said that later in the year, Mellon will begin conducting business

at all of its branches in the Philadelphia area -- both existing branches of Mellon Bank (East) and the PSFS branches acquired in this transaction -- under the name "Mellon PSFS."

At Dec. 31, 1989, Mellon Bank (East) had assets of $4.7 billion and deposits of $3.5 billion. It presently has 66 branch offices. With assets of $31.5 billion at Dec. 31, 1989, Mellon Bank Corp. is one of the nation's largest bank holding companies. Through its subsidiaries, it provides wholesale, middle market and retail banking, as well as numerous service products including trust and investment, cash management and data processing.

#90102p1949 04/12/1990 ~PR Newswire

WOOSTER, OH (APRIL 12) PR NEWSWIRE - Rubbermaid Incorporated (NYSE: RBD) today announced record sales and earnings for the first quarter of 1990. Sales for the three month period ended March 31 were $359 million, a 3 percent increase over the $349 million for the first quarter of 1989. Net earnings increased 13 percent to $33.1 million, or 45 cents per share, up from the $29.3 million, or 40 cents per share, of last year's comparable period.

"We are pleased with the first quarter performance," stated Stanley C. Gault, chairman of the board and chief executive officer. "It represents the 37th consecutive quarter that both sales and earnings increased over the same period of the previous year.

"Comparable unit volumes increased at a higher rate than reported revenues " Gault stated. "Because we have less than a majority interest in the Curver-Rubbermaid joint venture in Europe, normal accounting procedures preclude us from including any of their sales in our reports. Adjusting revenues for the accounting changes associated with our two joint ventures would increase the reported sales by another 3 percentage points.

"Additionally, we recorded approximately 2 percent less in price realization during this year's first quarter as we continued our emphasis on merchandising and promotional programs. After considering the combined impact of joint venture accounting procedure and price realization, comparable unit volumes in the first quarter were 8 percent higher than the first quarter of 1989," Gault said.

"Profitability during the quarter was an objective as material costs remain fairly stable and cost control programs continued to have a favorable effect. New product introductions for all of our operations have been favorably received and we have launched our 1990 consumer

advertising program that will put the Rubbermaid name before a very broad audience every day of the year.

"We expect 1990 to be a year of uncertainty and slower economic growth. However, Rubbermaid continues to be well positioned to compete in this environment and to achieve another record year," Gault concluded.

#90102p1951 04/12/1990 ~PR Newswire

TROY, MI (APRIL 12) PR NEWSWIRE - K mart Corporation (NYSE: KM) today reported a sales increase of 8.6 percent for March 1990 over sales during the same period of last year.

Consolidated sales for the five-week period ended April 4, 1990, amounted to $2,725,141,000 vs. sales of $2,510,073,000 for the five weeks ended April 5, 1989. Sales on a comparable store basis -- those stores open at least one year -- were down 1.1 percent.

Sales for the nine weeks ended April 4, 1990, were $4,629,866,000, up 11.0 percent from the $4,170,887,000 for the first nine weeks of 1989. Comparable store sales for the nine-week period rose by 1.1 percent.

K mart Chairman of the Board and Chief Executive Officer Joseph E. Antonini said, "Sales were strong in the first two weeks of March but, because of the later date for Easter in 1990 (April 15) than in 1989 (March 26), sales weakened in line with expectations in the latter part of the month."

K mart Corporation serves America with over 4,000 retail outlets in all 50 states in the United States and in Puerto Rico and Canada. K mart, currently operating 2,319 K mart stores, is also the parent company for Pay Less Drug Stores, Builders Square, Waldenbooks, PACE Membership Warehouse Clubs and The Sports Authority.

K mart Corporation's stock is listed on the New York, Pacific, Midwest and Tokyo stock exchanges. Its trading symbol is KM.

#90102p1958 04/12/1990 ~PR Newswire

NEW YORK (APRIL 12) PR NEWSWIRE - King World Productions, Inc. (NYSE: KWP) today reported record revenues, operating cash flow, net income, and

earnings per share for the second fiscal quarter ended Feb. 28, 1990. Results were as follows:

KING WORLD PRODUCTIONS, INC.
(In millions except per share)

Periods Ended Feb. 28:	Second Quarter 1990	1989	Pct. incr.	Six Months 1990	1989	Pct. incr.
Revenues	$102.4	$94.5	8	$270.7	$231.1	17
Oper. cash flow(A)	35.2	33.3	6	97.1	81.6	19
Net income	17.9	16.5	8	51.4	47.8	8
Earns. per share	$0.69	$0.66	5	$1.98	$1.90	4
Wtd. avg. no. of shares outstdg.	26.1	25.1	--	25.9	25.2	--

(A) -- Operating cash flow is a measure defined by the company as income from operations plus depreciation and amortization.

Commenting on the company's financial results, Stephen W. Palley. executive vice president and chief operating officer, said, "This was our best second quarter ever, and as our operating performance continues to improve, our balance sheet has strengthened as well. At the end of the quarter our cash position stood at $100.9 million, more than double the $47.2 million we reported last August 31, at the end of fiscal 1989.

"Our 8 percent revenue gain for the quarter reflected principally higher revenues per show for 'The Oprah Winfrey Show,' 'Inside Edition,' 'Wheel of Fortune' and 'Jeopardy!', although fewer episodes of 'Wheel of Fortune' and 'Jeopardy!' were produced in this year's second quarter compared to last year's. Earnings per share for the second quarter was also affected by an increase in the number of weighted average shares outstanding. In addition, net income for the second quarter was affected by non-cash charges for amortization and depreciation resulting from the acquisition of WIVB-TV in Buffalo, which decreased earnings by $2.1 million or 8 cents per share for the period. Dilution for the six months period was $3.6 million or 14 cents per share.

"In addition to our improved operating performance in the second quarter, our programs continued to turn in strong ratings. King World continues to dominate the syndication marketplace with 'Wheel of Fortune,' 'Jeopardy!' and 'Inside Edition.' In the February 1990 sweeps, 'Wheel of Fortune,' 'Jeopardy!' and 'Oprah,' the three highest rated shows in syndication, all maintained essentially the same rating levels as in the February 1989 sweeps. 'Inside Edition' placed among the top 10 highest rated first-run strips by making a significant jump to the sixth highest rated nationally syndicated show seen Monday through Friday. Since the show's premier household share is up 33 percent and the show is now seen in over 74 percent of the country in 104 markets. Additionally, in key markets where the show has aired in the same time period since its debut, household

share is up 38 percent." (Source: All data A.C. Nielsen).

King World is the leading distributor of first-run programming. Its shows include "Wheel of Fortune," "Jeopardy!" and "The Oprah Winfrey Show," the three highest rated series in first-run syndication, and "Inside Edition," the sixth highest-rated first run syndicated strip, which the company also produces. King World also distributes its own library of 68 feature films and 210 television programs, and through its barter division, Camelot Entertainment Sales, sells national advertising for King World and The Disney Company programming. In addition, King World is the owner of WIVB-TV, the CBS affiliate in Buffalo, N.Y.

#90102p1960 04/12/1990 ~PR Newswire

RICHMOND, VA (APRIL 12) PR NEWSWIRE - CSX Corp. (NYSE: CSX) today released materials which go into considerable detail regarding the background and process which led to the proposed merger of the two companies.

The materials support CSX's assertions since the Feb. 20, 1990, announcement of the proposed merger that:

-- The transaction was fair in terms of financial consideration and process;

-- The $34.50 price offered by CSX for shares of Richmond, Fredericksburg & Potomac Railroads (RF&P) was fully supported by the independent financial advisors to both companies and was near the very top of the valuation of Morgan Stanley, CSX's advisor; and

-- There is scant likelihood another purchaser will offer to acquire the RF&P shares not owned by CSX at an after-tax price which even begins to approximate the $34.50 per share offered by CSX.

In the materials released today, CSX recounted the reasons behind and the purposes of the proposed merger; the previously unpublished fact that more than four years of discussions and negotiations led to the merger proposal; and provided the valuations of its financial advisor. The materials could not be released earlier due to Securities and Exchange Commission regulations.

The materials disclosed that the RF&P special finance committee, despite CSX's request that the special committee join in mutually terminating the

proposed transaction, voted to do so only after the newly appointed RF&P directors from the Virginia Supplemental Retirement System, who also were appointed to the special committee, refused to support the original merger proposal at a special meeting of the RF&P board on March 23, 1990.

The materials released today indicate CSX and the special committee explored, discussed and attempted to reach negotiated agreements on a wide variety of proposals before finally settling on the merger proposal.

Among the other options considered and rejected by RF&P, CSX or both parties, was the cash acquisition by CSX of only RF&P's rail assets, which CSX originally sought, but could not attain due to lack of agreement as to future traffic levels and rates.

CONTACT: Thomas E. Hoppin or Suzanne S. Walston, 804-782-1406, both of CSX.

PHILADELPHIA (APRIL 12) PR NEWSWIRE - Rohm and Haas Co. (NYSE: ROH) announced today it will sell its Electro-Materials Corporation of America (EMCA) subsidiary to National Starch and Chemical Co. of Bridgewater, N.J.

EMCA, a manufacturer of cermet pastes and polymer thick films for the hybrid electronics market, is headquartered in Montgomeryville, Pa. EMCA operates manufacturing facilities in Montgomeryville and in Linton, Cambridge, England. The company employs approximately 75 full-time employees.

"EMCA has been a strong competitor, but could not generate enough business volume on its own to compete successfully with the top-tier companies," said Allen M. Levantin, Rohm and Haas vice president and business executive for Corporate Development.

National Starch has indicated it will retain a substantial portion of the EMCA workforce, both in the United States and in England. Rohm and Haas will offer a severance package to those employees who are not retained by National Starch or who cannot be relocated to other Rohm and Haas facilities.

Terms of the agreement were not disclosed.

CONTACT: Laura L. Hadden of Rohm and Haas, 215-592-3054.

NEW YORK (APRIL 12) PR NEWSWIRE - Crowthers McCall Pattern, Inc. (McCall) announced today that it had entered into a definitive agreement to be acquired by MP Holdings, Inc., a newly formed corporation controlled by Dimeling & Schreiber, a Philadelphia-based investment partnership, for a cash purchase price of $45,000,000, subject to certain adjustments.

The buyer has posted a $2,000,000 cash deposit. There are no financing contingencies under the agreement. As part of the transaction, members of McCall's current management will acquire an equity interest. McCall is a 120 year old manufacturer of patterns for the home sewing industry and currently maintains offices in New York, Kansas and Toronto.

McCall has been seeking to reorganize under the protection of Chapter 11 of the United States Bankruptcy Code since December 1988. The proceeds of the acquisition will be used by McCall to fund its plan of reorganization. The acquisition agreement is subject to approval by the United States Bankruptcy Court for the Southern District of New York.

The acquisition agreement provides for, and the Bankruptcy Court has approved, a breakup fee payable to the buyer in the event that McCall undertakes certain competing transactions. In addition, the buyer is provided the right to modify the terms of the agreement to match or improve offers to enter into competing transactions.

#90102p1976 04/12/1990 ~PR Newswire

ST. LOUIS (APRIL 12) PR NEWSWIRE - The May Department Stores Company (NYSE: MA) today reported preliminary sales from continuing operations of $840.9 million for the five-week period ended April 7, an increase of 7.5 percent over sales of $782.1 million in the same period last year.

Last year March sales included Easter, which was the last Sunday in that month; whereas this year Easter falls on the second Sunday of April.

Year-to-date sales for the first two months of fiscal 1990 were $1.44 billion, up 8.8 percent from sales of $1.32 billion in the similar period a year ago.

Department store sales for March were $702.6 million, up 8.7 percent or $55.9 million over last year. Sales for Volume Shoe totaled $138.3 million, an increase of 2.1 percent or $2.9 million.

Sales were as follows:

MARCH SALES (Millions)

	1990	1989	Percent Increase	Store-for-Store(A) Inc/(Dec)
Department stores	$ 702.6	$ 646.7	8.7 pct.	4.1 pct.
Volume shoe	138.3	135.4	2.1	(4.3)
Total	$ 840.9	$ 782.1	7.5 pct.	2.7 pct.

YEAR-TO-DATE SALES (Millions)

	1990	1989	Percent Increase	Store-for-Store(A) Increase
Department stores	$1,213.2	$1,114.9	8.8 pct.	5.2 pct.
Volume shoe	224.2	205.9	8.9	2.3
Total	$1,437.4	$1,320.8	8.8 pct.	4.8 pct.

(A) Store-for-store sales represent sales of those stores open during both years.

The company's 1989 fiscal year included 53 weeks and, based on the 4-5-4 reporting calendar, the March 1990 period began one week later than the March 1989 period. On a comparable basis aligning the 1989 calendar to 1990, sales would have been:

COMPARABLE MARCH SALES (Millions)

	1990	1989	Percent Inc/(Dec)	Store-for-Store Inc/(Dec)
Department stores	$ 702.6	$ 671.7	4.6 pct.	0.2 pct.
Volume shoe	138.3	139.7	(1.1)	(7.3)
Total	$ 840.9	$ 811.4	3.6 pct.	(1.0) pct.

During March, May opened seven department stores and 20 net new Payless ShoeSource stores. Of the seven new department stores, five were Hecht's stores, including four recently acquired stores in the Richmond and Tidewater areas of Virginia which have been remodeled and remerchandised plus a new store in Waldorf, Md. Lord & Taylor opened a store in Westfield, N.J., and G. Fox opened a store in Manchester, Conn.

Sales have been restated to exclude the sales of divisions which have been discontinued, as well as stores which have been closed and not replaced. Year-to-date sales, including nonreplaced closed stores, were $1.44 billion and $1.38 billion in the 1990 and 1989 periods, respectively.

As announced previously, May is planning to spin-off the Venture discount stores operation to May common shareowners later in 1990, pending certain events. Sales for Venture, which are being reported as discontinued operations, were $118.0 million for the month, a 7.2 percent increase, and were $191.9 million year-to-date, up 8.7 percent. Venture's store-for-store sales increased 4.4 percent for the month and 6.1 percent year-to-date.

On a comparable calendar basis for March, Venture's sales increased 4.9 percent and store-for-store sales increased 2.2 percent. During March,

Venture opened a new store in Wheaton, Ill., in the metropolitan Chicago market.

The May Department Stores Company is one of the largest retailers in the United States, operating 296 department stores and 2,765 specialty shoe stores, and 76 Venture stores.

#90102p1992 04/12/1990 ~PR Newswire

HIGHLAND PARK, MI (APRIL 12) PR NEWSWIRE - Chrysler begins its latest corporate car advertising campaign with a bang.

Bold and dramatic, a new television commercial shows the crash of a Plymouth Acclaim into a concrete and steel wall with a real person behind the wheel -- make that air bag.

The crash test is one of a group of new commercials which feature Chrysler's standard equipment air bag protection in U.S.-built cars as an advantage over Japanese competition. The crash test commercial began this week and others in the group will appear in the next two weeks.

The driver in the deliberate crash is a professional, Roger Richman of Los Angeles, who was so impressed by the air bag protection, he wrote Chrysler Chairman Lee Iacocca that he has since become "an enthusiastic endorser."

The impact in three other commercials comes to the viewer in a different way. They feature people who survived to tell their experiences when the air bag-equipped Chrysler products were involved in severe accidents on actual highways.

The people tell their stories during filmed meetings with Iacocca. One is Karen McGowan of Columbia, Md., who walked away from a 40 to 45 mph impact that totaled her Chrysler LeBaron.

"People say I was lucky. Luck had nothing to do with it. A Chrysler air bag saved my life," says McGowan in an unpaid testimonial.

"I could give you a dozen reasons why you should consider a Chrysler product," says Iacocca, "but today I'll give you just one: Karen McGowan."

Others who appear include Mrs. Ron (Jan) Gardner of St. Clair, Mich., who survived a head-on collision in her LeBaron GT, and Kim Livingstone of Sterling Heights, Mich., whose father, John, believes "Kim is living proof

of the value of a car with an air bag."

Each one is followed by Iacocca, who adds "that's why Chrysler puts an air bag in every car we build in the U.S." Superimposed on the screen at the close is the theme, "Advantage: Chrysler."

Another commercial shows the two air bag-equipped Chrysler cars which were involved in a Culpepper, Va., high-speed head-on collision from which both drivers walked away. According to police, the air bags saved them.

The air bag commercials are the openers in a series of TV and print advertising scheduled as part of the "Advantage: Chrysler" campaign, which pits the company's products and features directly against its key Japanese competition.

The new commercials follow up the "Boardroom" commercial in which the Chrysler chairman tells his officers: "We've got advantages over the Japanese ... but nobody knows it ... and that's gonna change!"

One two-page spread shows the full range of Chrysler Corporation cars that come with air bags compared with a total of only three Honda, Nissan and Toyota models that come with air bags. The headline reads: "A Crash Course in Safety for Honda, Nissan and Toyota" and the themeline, "Advantage: Chrysler."

NEW YORK (APRIL 12) PR NEWSWIRE - The Bank of New York Co. Inc. (NYSE: BK) reported today net income of $102 million for the first quarter up 1 percent from the previous year.

The company's basic earnings for the quarter were well ahead of last year and the reported results reflected a $17.5 million net addition to the loan loss allowance.

The loan loss provision for the quarter was $63 million compared to $42 million in last year's period. Non-LDC charge-offs totalled $46 million for the quarter compared to $37 million last year. Fully-diluted earnings per common share amounted to $1.37 in both periods.

Nonperforming assets were $1,191 million at March 31, 1990, compared to $1,189 million at December 31, 1989.

Return on average common equity and return on average assets were 16.09

percent and 0.86 percent for the first quarter of 1990 compared to 15.54 percent and 0.85 percent for the same period last year. At March 31, 1990 the Company's tier I capital ratio was 4.83 percent and its primary capital ratio was 8.34 percent, compared to 4.61 percent and 8.60 percent at year end.

#90102p2000 04/12/1990 ~PR Newswire

JACKSONVILLE, FL (APRIL 12) PR NEWSWIRE - Barnett Banks, Inc. (NYSE: BBI) today reported first-quarter earnings of $15.5 million, representing $.25 per share.

These compared to $62.4 million ($1.00 per share) in first-quarter 1989. The decline was due to a previously announced strengthening of Barnett's reserve for loan losses, increasing by $66 million during the quarter to $317 million.

First-quarter net income is within a range Barnett had predicted in mid-March.

SUMMARY OF RESULTS

March 31	1990	1989
Income:		
Net (in millions).....	$15.5	$62.4
Per common share.....	.25	1.00
Average balances (billions):		
Assets.....	$29.1	$26.5
Deposits.....	25.2	23.1
Key ratios:		
Return on assets.....	.21 percent	.94 percent
Return on equity.....	3.74	16.40

This action moves Barnett's loan loss reserve ratio to 1.39 percent. The current reserve of $317 million covers 100 percent of non-performing loans. The remainder of non-performing assets, which consists of $140 million of other real estate owned (foreclosed property), is carried at the lesser of 90 percent of appraised value or cost.

Fundamental performance of the company is good, with solid loan and deposit growth, an improved net interest margin and strong increases in non-interest income. This action to strengthen the loan loss reserve has not adversely affected Barnett's capital position since year-end, with equity capital of $1.6 billion, primary capital of $2.3 billion and a primary capital ratio of 7.64 percent.

During the quarter, Barnett also announced the acquisition of the $800 million deposit First American Bank and Trust, N.A. from the FDIC. The organization's 33 locations strengthens the company's market position in Palm Beach, Fort Lauderdale, Miami and Tallahassee.

#90102p2005 04/12/1990 ~PR Newswire

BOSTON (APRIL 12) PR NEWSWIRE - Investors Bank & Trust Company and Bank of New England, N.A. (NYSE: NEB) jointly announce that their respective managements have entered into an agreement in principle involving the acquisition of Investors Bank of the mutual fund custody business of the Bank of New England for an undisclosed cash price. The agreement in principle is subject to the execution of a definitive agreement between the parties, regulatory approval, and the validation of certain legal, tax and accounting assumptions.

The acquisition by Investors Bank is part of its longer-term strategy to increase its overall custody business, which services individuals, investment advisors and mutual funds. Investors Bank, which is 77.3 percent owned by Eaton Vance Corp. (NASDAQ: EAVN), currently has total custody assets of some $9 billion. Bank of New England currently has custody of mutual fund assets totaling approximately $22 billion. Investors Bank anticipates being able to expand the market share of the combined operation and retain the current personnel of both units.

Eaton Vance, a Boston-based investment management firm, currently manages 28 mutual funds and 500 institutional and individual accounts with total assets of approximately $7 billion. Eaton Vance stock is quoted on NASDAQ and is traded in the over-the-counter market. The stock is also listed on the Boston Stock Exchange.

BRIDGEWATER, NJ (APRIL 12) PR NEWSWIRE - Nacan Products Limited, a subsidiary of National Starch and Chemical Company, has completed the acquisition of the business, goodwill and certain fixed assets of The Borden Co., Ltd. industrial packaging and converting business in Canada. Terms were not disclosed.

The business acquired from Borden includes polyvinyl acetate and acrylate emulsion based adhesives for packaging and converting applications, liquid starch and dextrin adhesives and casein based materials. 1989 sales were in excess of $US2 million.

The business will be integrated into Nacan's existing adhesives organization in Canada.

National Starch and Chemical Company, a Unilever company, is a worldwide manufacturer of adhesives, resins, specialty starches and specialty chemicals, with 1989 sales in excess of $1.5 billion.

LOS ANGELES (APRIL 12) PR NEWSWIRE - The Pacific Horizon Family of Funds has introduced a new California Tax-Exempt Money Market Fund to provide a double tax-free investment opportunity for California residents. The new fund has taken in more than $49 million in its first 15 weeks of operation.

The Pacific Horizon California Tax-Exempt Money Market Fund will invest primarily in a diversified portfolio of short-term, high-quality California municipal securities, which, by law, pay income exempt from both federal and California state income taxes. Double tax-free investing is particularly advantageous in California, where the top combined state and federal tax bracket is nearly 40 percent.

The fund, which aims to maintain a stable $1 per share net asset value, also offers an opportunity for residents to invest in California's strong economy and the state with the highest total personal income.

The minimum initial investment for the new fund is $1,000 with a $100 minimum for subsequent investments. The fund offers free checkwriting for $500 or more, automatic reinvestment, exchange privileges for shares of

any other Pacific Horizon fund (exchanges into certain funds may be subject to a sales charge), written confirmation of purchases or redemptions as well as monthly statements, and toll-free shareholder account services. Fund shares can be redeemed without charge any business day by mail, telephone, bank wire or by writing a check.

Concord Financial Group, Inc., New York, is the sponsor, underwriter, administrator and distributor for the Pacific Horizon and Horizon funds. The investment adviser to the funds is Security Pacific National Bank, one of the largest bank mutual fund managers with more than $5 billion in mutual fund assets under management.

Other Pacific Horizon Mutual funds are: Treasury Fund, Prime Fund, Tax-Exempt Money Market Fund, California Tax-Exempt Bond Fund, GNMA Extra Fund, Convertible Securities Fund, High Yield Bond Fund, and Aggressive Growth Fund.

CONTACT: Laura J. Berger or Jim Brown, 212-966-5100, both of Arlen Financial Communications, for the Pacific Horizon Funds.

#90102p2023 04/12/1990 ~PR Newswire

CLEVELAND (APRIL 12) PR NEWSWIRE - The Sherwin-Williams Company (NYSE: SHW) reported net income of $9,995,000, or $.23 per share for the first quarter of 1990 compared to $8,810,000 or $.20 per share in 1989.

Net sales increased 7.5 percent to $499,460,000 from $464,781,000 in

1989's first quarter.

The Paint Stores Segment's sales increased 8.2 percent. Comparable store sales increased 7.6 percent. Stores' operating income improved for the quarter as a result of higher margins due to price increases initiated during 1989. The Paint Stores Segment SG&A expenses, as a percent to sales, decreased in the quarter due to continued cost containment programs.

The Coatings Segment's sales increased 6.3 percent, while operating income increased 10.2 percent. Price increases initiated in 1989 and the slowing of raw material cost increases so far in 1990 have helped improve gross margins.

Commenting on the quarter, John G. Breen, chairman and chief executive officer, said, "We were pleased with the sales performance as the improvement came against a strong sales quarter last year. The improvement in our gross margins is also an encouraging sign that raw material cost increases may be stablilizing. However, price competition remains intense as we enter the peak selling season.

"We expect to report improved results for 1990, but we must remain focused in our efforts to provide the best possible service to our customers and to increase our market share."

LONDON (APRIL 12) PR NEWSWIRE - SmithKline Beecham (NYSE: SBH) (SB) announced today that it has reached agreement for the sale of its Yardley/Lentheric cosmetics business to Old Bond Street Corp. in the United States.

The Yardley/Lentheric business in South Africa will be disposed of separately. The SmithKline Beecham Astor/Lancaster businesses, which represent the major part of SB's total cosmetics businesses and operates principally in Continental Europe, will also be disposed of separately.

SmithKline Beecham will receive a total of $182 million (110 million pounds sterling) made up of a cash payment of $116 million (70 million pounds), which includes repayment by Yardley/Lentheric of intercompany debt and payments of dividends and tax, and $66 million (40 million pounds) represented by subordinated loan notes of a U.K. subsidiary of Old Bond Street Corp. redeemable in 1998. The notes will bear interest at the fixed rate of 9 percent per annum. For the first three years this will be accrued and added to the principal and the notes will start paying interest in October 1993. The consideration is subject to confirmation when the audited completion accounts showing the net assets of the companies being sold are available. The proceeds from the sale will be used to reduce SmithKline Beecham's outstanding indebtedness.

In addition, SmithKline Beecham will hold a 10 percent equity stake in Old Bond Street Corp. and will have a representative on the board.

#90102p2033 04/12/1990 ~PR Newswire

GOLDEN, CO (APRIL 12) PR NEWSWIRE - IBM and the Colorado School of Mines have launched a $1.7 million joint program to develop ways to explore oil and natural gas deposits, map geologic hazards and ease the nation's waste disposal program.

Energy industry representatives saw new computer technology demonstrated today at the Center for Exploration Geoscience Computing, a joint activity of IBM and CSM. The center combines CSM's expertise in the earth sciences with IBM's computing technology to create a multidisciplinary environment for education and research in exploration- related fields.

Key to the center is a network of 31 RISC System/6000(TM) workstations and 16 Personal System/2(TM) computers, which IBM recently provided to the school. The workstations, unveiled by IBM in February, are capable of storing, processing and manipulating vast amounts of data. CSM researchers are using the network to integrate the disciplines of geophysics, geology and petroleum engineering better. A consolidated geoscience data base will enable researchers to address resource exploration issues more effectively.

"The center is a meaningful industry/university partnership which will have significant impact on the future of the earth resources industries," said CSM President Dr. George S. Ansell. "This unusual partnership will meld geoscience-related disciplines in new ways, changing the science as well as the application of exploration technologies."

"This joint project not only assists the Colorado School of Mines to continue their tradition of forefront research in the management of earth resources, but uniquely positions IBM to be a provider of leading- edge solutions to that industry," said Dr. A. Frank Mayadas, vice president, technology and solutions development, IBM.

Currently, some 14 research projects are underway at the Center for Exploration Geoscience Computing. They range from subsurface imaging of the earth to the development of neutral networks and sedimentary basin fluid flow prediction models to aid resource exploration. Center Director Dr. Phil Romig, who also serves as head to the CSM Geophysics department, says the center also plans to place a RISC System/6000 workstation and PS/2 computers in a specially equipped truck so that researchers may use the equipment as a self-contained computing center in

the field.

As one of CSM's largest corporate donors, IBM has provided financial support to the school's research programs in quantum physics, materials science and surface science since 1984. IBM's donation of two manufacturing robots valued at $825,000 formed the basis for the school's IBM Automated Systems Laboratory, which was established in June 1988.

KING OF PRUSSIA, PA (APRIL 12) PR NEWSWIRE - Eastern TeleLogic Corp. (ETC) has announced an agreement to provide a multi-location alternate access telecommunications facility for Colonial Penn Group Inc. through National Metropolitan Networks (NatMet), an association of independent fiber optic local network companies.

ETC has arranged for Colonial Penn to utilize the facilities of Intermedia Communications of Florida Inc. (ICI), another member of NatMet, to provide local telecommunications links from Colonial Penn's Tampa, Fla., operations to its operations in Philadelphia and Trooper, Pa.

The multi-location system is the first major service contract completed through NatMet, which was forced in late 1989 by four prominent independent alternate access fiber optics companies to offer nationwide services to customers.

One of the nation's foremost providers of personal lines of insurance and financial products, the Philadelphia-based Colonial Penn recently created a new, diversified data communications network with the help of ETC and NatMet.

The King of Prussia-based ETC and the Florida-based ICI are major local fiber optic networks and founding members of NatMet, which serves as a single point of contact for establishing the local-loop portion of private voice, data and video circuits.

Colonial Penn's main offices are located in Center City Philadelphia, while the firm's data centers are in suburban Trooper and Devon, Pa. Colonial Penn has, using alternate access services in addition to Bell services, created a route diverse network of T-1 circuits interconnecting the insurance company's offices. Additional T-1's, from both ETC and Bell, provide access to separate AT&T Points of Presence (POP) for long distance service.

The AT&T connections link Colonial's Philadelphia locations with the company's call centers in Irvine, Calif., Phoenix, and Tampa, Fla. The Tampa-headquartered ICI is serving the latter office by providing Colonial Penn with alternate access to AT&T long distance service. Colonial Penn's Tampa office has route diverse T-1 circuits from ICI and Bell connecting it to AT&T.

ETC's 108-mile-long local network currently serves 250 major office buildings in Philadelphia and the surrounding suburbs. The company is presently in the process of adding Camden, N.J., to the loop by means of a fiber optic cable across the Benjamin Franklin Bridge.

ICI's first fiber optic network was established in Orlando, Fla., in May 1988, followed by the Tampa network in December 1988. The company is currently at work on a Miami network.

BRIDGEWATER, NJ (APRIL 12) PR NEWSWIRE - National Starch and Chemical Company has announced that it has agreed in principle to purchase the business, goodwill and assets of Electro-Materials Corporation of America (EMCA), a subsidiary of Rohm and Haas Company, Philadelphia.

EMCA, which supplies cermet thick film (CTF) pastes to the hybrid microcircuitry market, has modern state-of-the-art facilities in Montgomeryville, Pa. and Cambridge, England, and had sales in 1989 in excess of $8 million. Terms were not disclosed.

National plans to combine the business, product lines, and technology of Remex Products, a CTF supplier which it purchased in 1986, with those of EMCA. EMCA-Remex Products, together with National's subsidiary Ablestik Laboratories will offer an extensive thick film, specialty adhesive, and coating capability to the hybrid microcircuitry market.

The entire family of electronic materials and adhesives products are marketed worldwide.

National Starch and Chemical Company, a Unilever company headquartered in Bridgewater, N.J., is a worldwide manufacturer of adhesives, resins, specialty chemicals and specialty starches, with 1989 sales in excess of $1.5 billion.

#90102p2046 04/12/1990 ~PR Newswire
ORLANDO, FL (APRIL 12) PR NEWSWIRE - The government of Israel has ordered 18 AH-64A Apache helicopters, making the Middle Eastern nation the first international customer to purchase the world's most advanced attack helicopter.

The contract, worth approximately $150 million to McDonnell Douglas Helicopter Co., will be completed as a foreign military sale with the U.S. government.

"This is a major step in the extension of the Apache program through the 1990s," said McDonnell Douglas Helicopter Co. President Bill Brown. "This starts the bridge the company needs to transition from the AH-64A to the Longbow Apache program."

Longbow Apaches are scheduled to begin remanufacture in 1994. International sales will help to extend AH-64A production long enough to prevent a gap in the line, Brown said.

The Army said this new sale will provide the Israeli Air Force with "a stand-off weapon system with an anti-armor, day/night missile capability."

The sale and support of this equipment will not affect the basic military balance in the region, the Army said in a memorandum to the news media, adding that there will be no adverse impact on U.S. defense readiness as a result of this sale.

Israel also has signed contracts with McDonnell Douglas and other Apache teammates to support the Apaches in Israel.

The first of the 18 aircraft is scheduled to be delivered during the third quarter of this year, said Stu Dodge, vice president of the Apache program. Dodge said that Israel, based on its requirements, could order more Apaches to meet its needs.

International interest in the Apache has been increasing, with McDonnell Douglas pursuing a number of international sales opportunities for the Apache.

Egypt is considering the purchase of 24 Apaches in the coming year, and several other nations in Europe, the Middle East and the Far East have expressed interest in purchasing Apaches for their own defense.

The twin-turbine engine, 225-mph Apache is equipped with Hellfire missiles

70mm rockets and a 30mm automatic cannon, plus infrared and other high technology systems to find, track and attack a wide range of targets day or night and in bad weather.

STAMFORD, CT (APRIL 12) PR NEWSWIRE - Xerox Corporation (NYSE: XRS) has awarded to AT&T (NYSE: T) a $121 million contract to design and provide a worldwide custom voice and data communications network, it was announced today.

More than 300 company locations, including sales and service offices, distribution centers, manufacturing locations and billing operations, will be linked by the custom network. The five-year contract covers virtually all of the interstate and international long-distance services for the U.S.-based operations of Xerox.

AT&T network services included in the contract will provide Xerox with high-quality digital communications across its network. End-to-end digital connections will lay the groundwork for Xerox to harness the power of an all-digital network, according to Fred Bolton, Xerox's manager of telecommunications services.

"Xerox is now well positioned to take full advantage of the cost efficiencies and service flexibility afforded by a fully digital network," Bolton said. "The AT&T custom network is a critical element in an overall architecture designed to help provide improved service to Xerox customers."

AT&T will establish a dedicated network management center for Xerox in Chicago, where AT&T technicians will manage the delivery and quality of long-distance telecommunications services for Xerox.

"Xerox is well recognized as a global leader in manufacturing and financial serv,?" said AT&T business services Vice President Lou Golm. "They've earned a reputation for quality. AT&T is pleased to have been chosen by Xerox as a strategic partner for voice and data telecommunications services."

DALLAS (APRIL 12) PR NEWSWIRE - As part of its five-year campaign to fight illiteracy, Coors Brewing Co. and the Coors Foundation for Family Literacy today handed over $250,000 to SER -- Jobs for Progress, a Dallas-based employment and training organization.

The contribution, part of the Coors "Literacy -- Pass It On" campaign, will enable SER to expand existing programs in many of its 110 centers in 87 cities. SER's 24th annual conference is being held in Dallas in through April 14.

"We are extremely proud to be a part of a program that holds such great promise," said Carlos Soto, national program manager for Coors Brewing. "Working together we can help the entire family by offering opportunities for adults to improve their skills and, in turn, give their children a chance at greater success."

Pedro Viera, president of SER, pointed out that 56 percent of Hispanics are functionally illiterate and "this poses a critical education problem in the Hispanic community.

"Eighty five percent of new jobs created by the year 2000 will be filled by immigrants, women and Hispanics," he said. "The competitive edge of our country is being threatened because we don't have a qualified workforce.

"We need the involvement of corporations like Coors and the personal commitment of leaders like Peter Coors to raise the public awareness of the problem of illiteracy," Viera added.

Beyond SER -- Jobs for Progress, Coors supports other groups including the Hispana Leadership Institute, LULAC and the National Puerto Rican Coalition.

The five-year, $40 million "Literacy -- Pass It On" campaign strives to heighten public awareness of this national problem, support grassroots family literacy organizations and raise funds through a national concert tour.

#90102p2063 04/12/1990 ~PR Newswire

WASHINGTON (APRIL 12) PR NEWSWIRE - In a move to speed up unassisted acquisitions of savings associations, the Office of Thrift Supervision (OTS) has issued two policy statements that set the capital requirements for such buyouts of both healthy and troubled thrifts.

The result should be faster government processing of these cases, as buyers of savings associations now know exactly what capital requirements must be met, and OTS district offices will be able to approve many of these transactions without referral to Washington.

The policies, contained in two thrift bulletins, not only establish the minimum capital standards for newly acquired savings associations but also clarify when capital maintenance agreements -- written agreements to add additional capital to a thrift's capital base -- will be required.

Thrift Bulletin 38-3, "Minimum Standards for Voluntary Unassisted Transactions," establishes the general policy that purchasers of savings associations must put enough capital into savings associations to meet the fully phased-in capital requirements -- those required by year-end 1994. Some built-in flexibility will allow thrift buyers to meet only the current (not fully phased-in) capital standards if they meet certain other criteria, including the signing of an agreement to add up to a specified amount of additional capital over time.

Such agreements are addressed in the companion Thrift Bulletin 5a, "Capital Maintenance Agreements." Under this policy, buyers whose newly acquired thrifts would not meet the fully phased-in capital requirements must sign agreements to infuse additional capital if their associations fall below current minimum capital requirements. Those requirements increase during the next several years until they reach the fully phased-in levels mandated by the Financial Institutions Reform, Recovery and Enforcement Act of 1989 (FIRREA). The maintenance agreements will have a dollar cap, limited to the difference between the association's actual capital and its fully phased-in minimum requirement as measured immediately after the acquisition.

In addition to signing a capital maintenance agreement, acquirers of undercapitalized thrifts must also submit, and have OTS approve, a capital plan detailing how the resulting association will meet its fully phased-in capital requirements.

OTS said the two new policy statements do not affect net worth maintenance agreements and prenuptial agreements executed previously. These remain in effect and are fully enforceable.

BUFFALO, NY (APRIL 12) PR NEWSWIRE - Ecology and Environment, Inc. (AMEX: EEI) (E&E) has been awarded the first extension to a contract with the

U.S. Department of Energy's Sandia National Laboratories in Albuquerque, N.M. The extension is for one year and valued at approximately $1.5 million. The extension is a continuation of work initiated under the department's Environmental Restoration Program.

E & E's effort will focus on compliance with the Resource Conservation and Recovery Act (RCRA), specifically RCRA Facility Investigations and Corrective Measures Studies, in accordance with U.S. Environmental Protection Agency guidelines. The contract provides for three additional options to extend for one year each.

Ecology and Environment, Inc., the firm of international specialists in the environment, is headquartered in Lancaster, N.Y., a suburb of Buffalo, and has offices in 21 other cities from coast to coast, and affiliates in 21 foreign countries. The company provides a wide range of environmental services, predominantly in the areas of hazardous waste investigation and remedial engineering design.

DALLAS (APRIL 12) PR NEWSWIRE - Colowyo Coal Company, a partnership jointly owned by subsidiaries of Grace Energy Corporation (NYSE: GEG) and M. A. Hanna Company (NYSE: MAH), has reached an interim agreement for the continued supply of coal to one of its major custmers, Colorado- Ute Electric Association, Inc., which filed for Chapter 11 bankruptcy protection on March 30, 1990.

Under this interim agreement, which is for a period of 120 days, Colowyo will continue to provide coal in the amounts specified in its long term contract with Colorado-Ute, but at current spot market prices rather than the higher long term price specified in the contract.

As a result of this agreement, Grace Energy will report effective March 1, 1990 on the basis of the lower spot price, and will continue to report on this basis throughout the 120-day agreement period. The shortfall between the current spot market price and the higher long term contract price will be treated as a claim in the bankruptcy proceedings.

At this time, and based upon an extensive review of Colowyo's business relationship with Colorado-Ute, Grace Energy sees no need to establish a reserve against its $9.5 million share in receivables from Colorado-Ute which represents a royalty payment not yet due, and is expected to be recovered in full.

CONTACT: Jim Swords of Grace Energy, 212-819-6000.

#90102p2075 04/12/1990 ~PR Newswire

NEW YORK (APRIL 12) PR NEWSWIRE - Bairnco Corporation (NYSE: BZ) today reported its operating results for the quarter ended March 31, 1990, on both a consolidated basis and a pro forma basis, reflecting the proposed spinoff of its Keene Corporation subsidiary.

On a consolidated basis, including the results for Keene Corporation, first-quarter 1990 sales increased to $51,060,000 from $47,793,000 in the same quarter of 1989. Income from continuing operations of $1,133,000 or 11 cents per share in 1990 quarter was down from $3,581,000 or 33 cents per share in 1989. The 1989 results have been restated to exclude two operations discontinued in the third quarter of 1989.

In the first quarter of 1990, Keene, on a stand-alone pro forma basis, had sales of $5,135,000 and net income of $1,938,000 (19 cents per share), compared to 1989 first-quarter sales of $3,688,000 and net income of $1,272,000 (12 cents per share). Keene's results include the operation of its composite materials business and reflect the interest income from the investment of its available cash, approximately $120 million at March 31, 1990.

On a pro forma basis excluding Keene's results, Bairnco had first- quarter sales of $45,925,000 and a loss from continuing operations of $805,000 (8 cents per share), as compared to sales of $44,105,000 and income from continuing operations of $2,309,000 (21 cents per share) in the same period of 1989.

The substantial decline in earnings was primarily attributable to the Shielding Systems Corporation subsidiary operating profit declining from $422,000 in the first quarter of 1989 to a loss of $2,932,000 in 1990. There were continued losses at Shielding on the two major construction projects. A serious fire during the first quarter at the larger of these two projects has further complicated both the completion of the project and the company's ability to anticipate the financial outcome of the project.

In addition, Bairnco expects to incur significant expenses, primarily in the second quarter, related to the Keene spinoff, the severance pay due to the staff reductions from the reorganization of Bairnco, and the relocation of its headquarters.

CONTACT: Frances O'Brien or Timothy J. Mortenson of Bairnco, 212-490-8722.

#90102p2086 04/12/1990 ~PR Newswire

LEXINGTON, MA (APRIL 12) PR NEWSWIRE - Raytheon Company (NYSE: RTN) today announced it won the competition to modernize the Cobra Dane surveillance and early warning system at Shemya Air Force Base, Alaska.

Raytheon's Equipment Division, headquartered in Marlborough, Mass., was awarded a $58.6 million contract on April 6, 1990 by the Electronics Systems Division of the U.S. Air Force Systems Command to upgrade the land-based phased array radar system.

Under the contract, Raytheon's Equipment Division will provide a new signal and data processing system, receiver, displays and other equipment that will enable the Cobra Dane system to operate into the next decade. Cobra Dane, which was developed by Raytheon, became operational in 1977.

The new automatic data processing system includes two powerful Digital Equipment Corporation computers, color workstations, and Ada software. The Cobra Dane system modernization is the first large-scale Ada application with stringent, real-time control requirements.

The Cobra Dane radar system was developed starting in 1973 to collect intelligence data on foreign ICBM and SLBM test firings, to detect and track satellites, and to provide early warning of ICBM and SLBM launches. Cobra Dane is a single-face phased array radar system and provides 120-degree coverage of foreign missile tests. From its location in the Aleutian Islands, it can survey a 2,000-mile corridor of the Pacific Ocean. The system has observed more than 1,000 test launches since becoming operational in 1976.

Raytheon Company's Equipment Division is a leader in phased array radar technology. In addition to Cobra Dane, the division has developed several large-scale phased array radar systems for the U.S. government. These include the Ballistic Missile Early Warning System (BMEWS), the Pave Paws network of radar systems, and the Cobra Judy system for the U.S. Air Force and the Relocatable Over-the-Horizon Radar (ROTHR) for the U.S. Navy.

Raytheon Company, headquartered in Lexington, Mass., is a diversified, international, technology-based company, active in electronics, aviation, appliances, industry services and publishing.

WHITE PLAINS, NY (APRIL 12) PR NEWSWIRE - American Savings Bank (NYSE: ASB) announced that it has engaged Kropschot Financial Services to solicit offers for AmSave Credit Corporation, American's wholly-owned subsidiary

that specializes in commercial and lease financing.

William G. Lillis, president and chief executive officer of American Savings Bank, noted "In keeping with our 'Back to Basics' strategy, we are focusing on our core businesses, income-property lending and retail banking. Our commitment to sell AmSave is a major step towards the implementation of this strategy."

AmSave Credit Corporation was established as a subsidiary of American Savings Bank in 1983. With $276 million in assets at year end 1989, the Manhatten-based AmSave currently operates three divisions: The Commercial Finance Division originates asset-based loans and also provides senior debt and subordinated bridge loans as a participant in capital market transactions initiated by major commercial banks; The Lease Financing Division provides debt funding principally to equipment leasing companies and to end users of equipment; The Investor Note Division serves to finance notes for individual and corporate investors in real estate and equipment limited partnerships.

Kropschot Financial Services is a Philadelphia-based merger and acquisition advisory firm specializing in financial service companies.

American Savings Bank is a New York state-chartered savings bank with executive and administrative offices in White Plains, N.Y. Together with its wholly owned subsidiary, Riverhead Savings Bank, FSB, American operates 39 branch offices in New York City and in Westchester, Nassau and Suffolk counties. With consolidated assets of $4.4 billion, the FDIC-insured American is one of the largest savings banks in New York. The bank's common stock and $1.8125 cumulative convertible exchangeable preferred stock, Series A are both listed on the New York Stock Exchange.

DAYTON, OH (APRIL 12) PR NEWSWIRE - Thomas D. MacLeod, president and CEO of Sara Lee Bakery Division, has joined The Iams Company, a leading U.S. manufacturer of premium pet foods, as president and chief operating officer, Iams announced today.

MacLeod has held his post at the Bakery Division, based in Deerfield, Ill. for the past seven years. Iams chairman and CEO Clay Mathile said MacLeod will help him grow the privately-held dog and cat food company during the next decade. Mathile said MacLeod will report to him.

"As we work to significantly expand and strengthen our position in the

specialty niche over the next few years, I believe we will benefit from the proven leadership and innovation Tom will bring to this new position," Mathile said.

The 44-year-old Iams Company has its home office in Dayton, Ohio, with two manufacturing plants in Ohio and Nebraska and a third under construction in North Carolina. Annual sales by the 400-employee company have grown from $10 million to more than $100 million since 1982.

Iams dog and cat foods are sold exclusively in specialty outlets such as pet stores, pet supply stores, feed stores, kennels, and veterinary clinics in all 50 states, Canada, and many countries abroad.

CONTACT: Bill Piecuch or Mark Anthony, 513-296-0200, both of Piecuch Communications for The Iams Comapny.

DUSSELDORF, Germany (APRIL 12) PR NEWSWIRE - The Gerber Scientific Instrument Co. (GSI) (NYSE: GRB) today announced delivery of the first production variable resolution direct-to-plate laser imager to Hoechst AG.

The result of a year-long joint development effort, the details of which were not disclosed, the variable resolution Ozasol Laser Exposer LE 55 is designed for use with Hoechst's new high sensitivity Ozasol N90 plate as well as standard graphic arts films.

According to GSI's Marketing Vice President, Edward LaGraize, "The Ozasol LE 55 and the N90 plate, in conjunction with existing composition and page image processors, such as those offered by COMTEC and Autologic's APS-800S make the dream of direct-to-plate a reality -- available for delivery, now, today..."

Based upon more than 10 years of laser imaging systems experience, the Laser Exposer LE 55 incorporates many of the same features of earlier GSI systems including a flat bed imaging area for maximum image quality, vacuum plate-holddown, and the high reliability for which all Gerber imaging systems are known.

Under terms of the agreement between Gerber Scientific Instrument and Hoechst, GSI will now provide the Laser Exposer LE 55 as an OEM to Hoechst which will then market it for use with its Ozasol N90 plate.

The Gerber Scientific Instrument Co. was formed in 1947 by H. Joseph Gerber. Early products, developed by Mr. Gerber for the conversion of analog information into digital data, lead to development of systems which converted numerical data into graphic representations, and in the early

1960s GSI's first plotter was born. Today, GSI manufacturers automated film preparation systems, photoplotting and laser imaging systems for the graphic arts and electronics industries. GSI is also the leading supplier of large area flatbed plotting systems to the world's major airframe and automobile manufacturers. GSI's products, long regarded as the most accurate and most reliable, are installed in over 40 countries. This impressive customer base is supported by a worldwide network of GSI sales and service centers.

Based in South Windsor, Conn., The Gerber Scientific Instrument Co. is a wholly owned subsidiary of Gerber Scientific Inc. (NYSE: GRB). Other major subsidiaries of Gerber Scientific Inc. include Gerber Scientific Products, Gerber Systems Technology, and Gerber Garment Technology.

CANTON, MA (APRIL 12) PR NEWSWIRE - Hills Department Stores, Inc. (NYSE: HDS) today announced sales results for its fiscal month of March which ended on April 7, 1990.

Total sales for the fiscal month of March were $196,005,000, an increase of 12.4 percent from sales of $174,452,000 for the comparable five weeks of fiscal 1989. Same store sales increased 5.7 percent.

Sales for the first nine weeks of the first quarter were $311,997,000, an increase of 23.9 percent over sales of $251,898,000 for the comparable nine weeks in fiscal 1989. Same store sales increased 12.8 percent for this nine-week period.

Fiscal 1989 results include sales for Easter week, which will be reported

in fiscal April 1990. In addition, fiscal 1989 total sales includes grand opening results for 24 former Gold Circle Stores reopened as Hills Stores during the period reported.

Hills reported sales results for fiscal 1989 based on a 53-week year. Consequently, the ending dates for 1990 fiscal months are one calendar week later than the corresponding 1989 fiscal month ending dates. Had the company reported results based on a 52-week year, fiscal March 1990 total and same-store sales results would have reflected increases of 6.1 percent and 3.5 percent, respectively. Through the first nine weeks of fiscal 1990, total and same store results, adjusted for the calendar change, were 15.7 percent and 7.8 percent, respectively.

The company operates 208 stores compared to 200 stores last year.

LEXINGTON, KY (APRIL 12) PR NEWSWIRE - Kentucky Utilities Company (NYSE: KU) reported earnings per average share of common stock for the three and twelve months ended March 31, 1990, of $.54 and $2.00, respectively, as

compared to $.87 and $2.20 for the corresponding periods in 1989.

1989 results include a one-time addition to earnings of 30 cents per share associated with the cumulative effect of the accounting change to recognize unbilled revenues.

Operating revenues for the first quarter of 1990 were $133.1 million, a 2.1 percent decrease from the same quarter of 1989.

Operating expenses and taxes of $105.2 million for the current quarter declined 1.5 percent from 1989.

For the twelve months ended March 31, 1990, operating revenues of $529.0 million were 4.1 percent below those in the corresponding period last year.

Operating expenses and taxes for the twelve-month period of 1990 were $423.1 million, down from $447.5 million in 1989.

#90102p2115 04/12/1990 ~PR Newswire

HOWELL, NJ (APRIL 12) PR NEWSWIRE - Union Valley Corporation (AMEX: UVC) today announced it is near an interim funding agreement with its lead bank but nevertheless may not be able to make the interest payment due holders of the company's 14-1/4 percent subordinated debentures on May 15.

As previously announced, First Fidelity Bank, N.A., New Jersey, has notified Union Valley that it will not renew its $100 million revolving credit agreement, and has called for repayment of the $78.5 million outstanding by August 1, 1990.

Herbert E. Wishnick, president of Union Valley, said today that First Fidelity and Union Valley have reached agreement on significant revisions to the company's existing borrowing arrangements with the bank. But he added that a revised credit agreement is unlikely to be completed before June 30. As a result, the interim financing is required.

Wishnick said he anticipates that an interim funding arrangement will be in place within a few days, allowing the company to meet at least some of its obligations.

Since March 1, 1990, Fidelity Bank has received all cash flow from Union Valley's delivery of housing units, thus reducing substantially the company's ability to satisfy its financial obligations.

The company has not paid interest to First Fidelity for the months of

March and April, according to Wishnick. Although the bank has not declared a default for the omitted interest payments, it has declined to provide the company with a written waiver.

The liquidity deficiency also has caused Union Valley to default on a debt payment of $967,000 to a purchase-money mortgagee. Negotiations are continuing with that lender to restructure the obligation and cure the default. Union Valley intends to open negotiations to restructure other purchase-money mortgage obligations.

Wishnick explained that, because of these problems, the company is unlikely to make the interest payment due May 15, 1990 to the holders of the 14-1/4 percent subordinated debentures. Union Valley probably will seek to restructure its obligations to the debenture holders, he said. Notice of the aforementioned defaults in senior indebtedness is being given to the trustee for the debenture holders.

Wishnick said Union Valley management is uncertain about the prospects of curing its defaults in the short term.

"The company may encounter further difficulties in meeting the payment terms of its outstanding debts until more permanent sources of financing can be worked out or until market conditions in the home building industry improve," he said. "We are planning a series of auctions to dispose of inventory of approximately 180 partially completed homes in the New Jersey market.

He added that no assurances can be given that the company will successfully negotiate a restructuring of either its senior indebtedness or its 14-1/4 percent subordinated debentures.

Union Valley Corporation designs, builds and markets retirement and pre-retirement communities, non-age restricted housing and commercial real estate, in New Jersey, Delaware and Pennsylvania.

CONTACT: Richard G. Anderson, executive vice president of Union Valley Corporation, 201-905-9000, or Bob Rumerman of David M. Grant & Partners, 212-260-6900 for Union Valley Corporation.

PHILADELPHIA (APRIL 12) PR NEWSWIRE - James J. Flaherty, chairman of the law firm of Baskin Flaherty Elliott & Mannino, P.C., with offices in Pittsburgh, Philadelphia, Harrisburg, Pa., Washington, and Cherry Hill, N.J., today announced a firm restructuring in which Flaherty and certain attorneys in the firm's Pittsburgh office will continue to practice with the firm's other offices.

Flaherty, along with Edward F. Mannino and John M. Elliott, both in the Philadelphia office, will continue to serve as the firm's operating committee.

Several Pittsburgh-based attorneys who wish to emphasize a more local practice will form their own law firm, Flaherty said.

In making the announcement, Flaherty stated, "These initiatives are part of our continuing effort to effectively focus the firm's future along the lines of our considerable expertise in the legal growth areas of commercial litigation, health, environmental and banking law, product liability, energy, ERISSA, public finance and labor law. Our offices, strategically located throughout Pennsylvania, have allowed us to effectively and economically respond to our clients' needs.

To better position our legal services throughout western Pennsylvania, we have enlisted high quality professionals to work with other attorneys in our Pittsburgh office such as Charles D. Sheehy, former acting United States attorney for the Western District of Pennsylvania, who will head up our Pittsburgh office's Litigation Department, and Thomas Sweeney, formerly a litigator in the Enforcement Office of the Securities and Exchange Commission."

Additionally, Flaherty announced that Joseph A. Artabane, a former editor of the Georgetown Law Review and an experienced commercial litigator, and Dennis J. Riley, one of the nation's top government contracts attorneys, both native Pennsylvanians, will lead the firm's new Washington office.

He also announced that three new shareholders have joined the firm's Philadelphia office. They are Robert J. Bray, a top management labor lawyer; Peter D. Walther, a former presidential appointee to the National Labor Relations Board, and Robert W. Hayes, a litigator with extensive securities, RICO and products liability expertise.

Finally, Flaherty announced that 11 new associates have been added to the firm, and that 18 law students from a variety of national law schools have been selected to join the firm's summer law clerk program next month.

#90102p2118 04/12/1990 ~PR Newswire

DETROIT, (APRIL 12) PR NEWSWIRE - NBD Bancorp, Inc. (NYSE: NBD) today reported Net Income for the quarter ended March 31, 1990, of $66,622,000,

or $.91 per share ($.90 fully diluted), an increase of 5 percent from the $63,479,000, or $.88 per share ($.85 fully diluted) earned in the first quarter of 1989.

Per-share amounts have been restated to reflect the 3-for-2 stock split distributed on June 30, 1989, to shareholders of record June 2, 1989. In commenting on the increase in first-quarter earnings, Chairman and President Charles T. Fisher III stated that Net Interest Income was up 5 percent as compared with the first quarter of last year. The increase was attributed to 10 percent growth in earning assets partially offset by a decrease in interest margin earned on assets. Margin dropped from 4.20 percent in the first quarter of last year to 4.02 percent in the current quarter.

Non-Interest Income, excluding Investment Securities Gains or Losses, increased $8.4 million, or 13.7 percent, as compared with the first quarter of 1989. Securities losses of $6.9 million were realized in the current quarter, principally from the sale of U.S. Government Securities, as compared with losses of $0.6 million a year earlier. Non-Interest Expenses increased $6.2 million or 3.5 percent.

The Provision for Possible Credit Losses was $14.0 million as compared with $12.1 million in the first quarter of 1989. Net charge- offs were $9.6 million, or 0.25 percent (annualized) of average loan and lease balances. Comparable amounts for the first quarter of 1989 were $14.2 million and 0.39 percent.

Excluding $88.9 million of obligations of the United Mexican States renegotiated during the first quarter of 1990 at below market interest rates, nonperforming loans and leases at March 31, 1990, totaled $116.9 million, or 0.76 percent of total Loans and Leases. Nonperforming loans and leases at Dec. 31, 1989, were $122.0 million or 0.79 percent of total Loans and Leases and were $99.3 million or 0.68 percent at March 31, 1989. Other Real Estate at March 31, 1990, was $14.9 million, $14.8 million at Dec. 31, 1989, and $7.6 million at March 31, 1989.

The Allowance for Possible Credit Losses at March 31, 1990, was $240.1 million, or 1.56 percent of total Loans and Leases as compared with $235.6 million, or 1.61 percent at March 31, 1989. At March 31, 1990, the Allowance was equivalent to 205 percent of nonperforming loans and leases, excluding renegotiated United Mexican States obligations, as compared with 193 percent at Dec. 31, 1989, and 237 percent one year earlier.

NBD Bancorp, Inc. total assets at March 31, 1990, were $25.7 billion as compared with $24.2 billion at March 31, 1989. Total Loans and Leases increased $762 million in the past year to $15.4 billion at March 31, 1990. Deposits totaled $19.6 billion as compared with $19.8 billion one year earlier. Total Shareholders' Equity at March 31, 1990, was $1.7

billion, an increase of $187 million since March 31, 1989.

CHICAGO (APRIL 12) PR NEWSWIRE - C. Steven McMillan, senior vice president of Sara Lee Corporation (NYSE: SLE), will assume responsibility for the company's U.S.-based food operations, Paul Fulton, president of Sara Lee Corporation announced today. McMillan will be responsible for Sara Lee's packaged meats, bakery and foodservice businesses and will report to Fulton.

McMillan, 44, has overseen the corporation's strategy development activities since 1986, after serving as chief executive officer of Electrolux Corporation since 1982.

"Steve McMillan has been instrumental in shaping Sara Lee's aggressive consumer products focus via his effective leadership in strategic acquisitions and divestments," said Fulton.

Fulton also announced that McMillan will temporarily assume the position of chief executive officer of Sara Lee Bakery, replacing Thomas D. MacLeod Jr., who has resigned to become president and chief operating officer of Iams Company in Dayton, Ohio.

In a related move, James R. Carlson, vice president of planning and development for Sara Lee Corporation, has been named executive vice president of Sara Lee Bakery. He will be responsible for all financial and administrative functions as well as some operational areas.

Carlson, 48, joined the Sara Lee Corporation legal staff in 1973 and became director of corporate development in 1979. He was elected vice president of corporate development in 1981.

Sara Lee Corporation is an international packaged foods and consumer products company with annual sales of approximately $12 billion.

LOS ANGELES (APRIL 12) PR NEWSWIRE - Security Pacific Corporation (NYSE: SPC) today announced a $2.4 billion, 10-year program of intensified community involvement in California, with the primary focus on support for low and moderate income housing and for small and minority-owned businesses.

Robert H. Smith, president and chief executive officer of Security Pacific Corp., said, "This company has a 120-year record of keeping faith with the communities and the people of California, and this new objective is a reaffirmation of our faith in the future of California.

"This program represents a major priority for Security Pacific in the decade of the 1990's, and we are looking forward to working closely with local and state governments, as well as local community groups, to meet the needs of the communities we serve," Smith said.

Smith reported that this objective by Security Pacific will increase its already strong support and commitment to a broad range of community activities. He described the new program as strengthening the work and level of activity in all areas, including a state-wide program of low and moderate income housing lending; an active program of small business credit packages; a growing program of community development activities; a wide range of community charitable contributions; an extensive employee and retiree voluntarism program; and other community-related activities.

Heading up the program for Security Pacific will be Irving Margol, executive vice president for Community and Employee Relations. Also administering the program will be Hugh Loftus, first vice president and Community Reinvestment officer for the bank. Smith said he anticipated that all of Security Pacific's 20,000 California employees will be involved in the program in some way.

LOS ANGELES (APRIL 11) PR NEWSWIRE - First Interstate Bancorp (NYSE: I) announced today that is has amended its Dividend Reinvestment and Stock Purchase Plan, with the intent of protecting the interest of long-term investors and reducing certain abuses of the program. These changes will be effective immediately.

Under the amended plan, the discount for dividend reinvestment and cash purchases was reduced from 5 percent to 2.5 percent; the multiplier for calculating optional cash purchases was reduced from $4.00 to $3.00 per share.

The corporation also announced that it would change its method of price calculation. The pricing period will be extended from five to 15 days and only transactions executed on the New York Stock Exchange will be used in the price calculation.

Executive Vice President Tom Marrie, First Interstate Bancorp's chief financial officer, said that First Interstate continues to reserve the right to terminate a shareholder's participation in the dividend reinvestment plan at any time. "These changes are primarily for those who misuse the plan and termination can be any reason, including arbitrage excessive trading or transaction profit activities," said Marrie.

First Interstate provides the largest geographical coverage of any retail and business banking system in the United States. Including licensees, First Interstate Banks operate nearly 1,200 full-service offices in 21 states. These offices serve five million households in more than 650 communities, including seven of the 10 fastest growing metropolitan markets in the U.S. Other offices serve U.S. and international customers in 19 countries.

FRESNO, CA (APRIL 12) PR NEWSWIRE - Gottschalks Inc. (NYSE: GOT) announced that March 1990 sales increased 18.3 percent to $21.1 million from $17.8 million during the prior year March sales levels. Same store sales for the like period increase 10.4 percent.

"We are very pleased with these sales results especially in light of the calendar change related to the Easter holiday," stated Joe Levy, chairman and chief executive officer. "Same store sales results continued to

attain double digit increases. Our home businesses achieved stronger results than we've seen in several months, and when combined with our strong women's, men's and junior apparel businesses we're optimistic that our total sales for the first quarter will increase by 24 percent to 25 percent over last year's first quarter results," added Levy.

Gottschalks is a regional department store chain, currently operating 22 department stores and 31 specialty apparel stores in the Central Valley and Central Coast areas of California. Gottschalks offers moderate to upper moderately priced brand-name fashion merchandise, and is in its 86th year of continuous family management.

CINCINNATI (APRIL 12) PR NEWSWIRE - At The Midland Company's (AMEX: MLA) annual shareholders' meeting today, J.P. Hayden, Jr., Midland's chairman reported "that for the three months ended March 31, 1990, the company will be profitable, but the earnings will be significantly less than the first quarter of the prior year.

"The company's property and casualty operations experienced heavier than normal weather related losses due to severe weather in Alabama and Mississippi in February and March of this year. In addition, flooding along the Ohio and Mississippi rivers and their tributaries adversely affected the company's barge operations."

The company expects to release earnings for the first quarter in approximately three weeks.

Midland, which is headquartered in Cincinnati, is engaged in insurance and finance operations, the transportation of bulk commodities on the inland waterways, and the imprinted sportswear business.

EL PASO, TX (APRIL 12) PR NEWSWIRE - Property Trust of America (NYSE symbol: PTR) announced today that on March 30, 1990, it completed the purchase of the remaining 50 percent ownership of the Holiday Inn at Fisherman's Wharf, San Francisco, from its partner Pan American Properties Inc. The cash purchase price of approximately $6.2 million was funded from the Trust's two existing revolving lines of credit.

Wharf Holiday Associates is a partnership which consisted of Property Trust and Pan American Properties and which owned and leased to Holiday Inns Inc. a 338-room main tower hotel building in San Francisco's Fisherman's Wharf area, a major tourist attraction. The building is located on a 2.025 acre site, which is leased from Southern Pacific Railroad pursuant to a ground lease which expires on Oct. 31, 2018. Pursuant to the lease to Holiday Inns Inc., which expires in 1995, with an option for Holiday Inn to extend to 2018, and the ground lease, rental income earned and rental expenses are both tied to the amount of room rentals and food and beverage sales.

The Trust has owned 50 percent of the Wharf Holiday Associates since 1972. James H. Polk III, president and chief executive officer of Property Trust stated: "This property has been a superior performance investment and the acquisition of the remaining interst will further enhance its value to the Trust."

Property Trust of America is a real estate investment trust with eqity investments in real estate properties in the southwestern United States, primarily in Texas, Colorado, California and New Mexico.

#90102p2152 04/12/1990 ~PR Newswire

WASHINGTON, (APRIL 12) PR NEWSWIRE - Marriott Corporation (NYSE: MHS) today reported earnings per share from continuing operations of 27 cents in the 1990 first quarter ended March 23, compared to 34 cents in the 1989 quarter.

Marriott's net income for the 1990 first quarter was $28 million (27 cents per share), compared to $46 million (41 cents per share) in the year-earlier period.

LODGING sales increased 12 percent in the 1990 first quarter, while operating income declined slightly. Excluding $13 million of pretax transaction gains recorded in the 1989 first quarter, lodging operating income was up 11 percent in the 1990 quarter. There were no transaction gains in the 1990 first quarter.

Profits for Courtyard moderate price hotels were up solidly, reflecting a nearly 3 percentage point gain in occupancy for comparable units -- to the low 70s -- and room rate increases in line with inflation. Courtyard benefited from greater national distribution and expanded radio advertising in 1990.

Results for Fairfield Inn, Marriott's economy lodging product, exceeded expectations. Occupancy for comparable Fairfield Inns advanced more than 15 percentage points to the mid-70s, while room rates were slightly lower due to a special promotion in the 1990 quarter.

CONTRACT SERVICES operating income was up 19 percent in the 1990 first quarter on a 24 percent increase in sales, excluding prior year results for the airline catering business divested in December 1989.

Washington-based Marriott Corporation is a diversified hospitality company involved in lodging and contract services.

#90102p2159 04/12/1990 ~PR Newswire

NORTH HILLS, NY (APRIL 12) PR NEWSWIRE - Hi-Shear Industries Inc. (NYSE: HSI) today reported revenues and income for the third quarter and nine months ended Feb. 28, 1990, as follows:

HI-SHEAR INDUSTRIES INC.
(000s omitted)

Periods ended	Three months		Nine months	
Feb. 28:	1990	1989	1990	1989
Revenues	$26,399	$20,918	$69,085	$56,785
Net earnings	1,456(A)	347	766(A)	447
Earnings per common share	$.25(A)	$.06	$.13(A)	$.08

(A) -- Includes recovery of previously unaccrued royalties ($1.3 million after tax, or 22 cents per share) upon settlement of a lawsuit.

Operating results for the quarter and nine-month period ended Feb. 28, 1990, reflect overall improvement from the prior year but continue to be adversely affected by losses incurred by both of Hi-Shear's space and defense systems operations.

Continuing technical and operational difficulties encountered on several large counter-measure system contracts have led to unexpected additional costs and higher-than-anticipated levels of unabsorbed manufacturing and engineering overhead. These losses are offsetting operating gains being realized by Hi-Shear's aerospace fastening systems operation which has recorded a 24 percent increase in revenues and 120 percent increase in operating income compared to the depressed levels of the prior-year nine-month period. These increases are the result of a surge in demand for Hi-Shear's fasteners by the commercial aircraft manufacturers as well as increased productivity being achieved within the manufacturing

operation and a firming of fastener pricing levels.

The company's backlog of orders (funded and unfunded) was $91 million at Feb. 28, 1990, compared to $74.8 million at May 31, 1989. During the current nine months, the U.S. backlog of Hi-Shear's fastener operation increased by approximately 80 percent reflecting the strong improvement in the commercial aircraft market.

Hi-Shear is a leading designer and manufacturer of aerospace fastening systems as well as highly specialized ordnance and electronic products and systems used for space and defense applications.

MIAMI (APRIL 12) PR NEWSWIRE - Claire's Stores, Inc. (NYSE: CLE) today announced that its board of directors has declared a cash dividend of $.10 per share of common stock payable in equal quarterly installments of $.025 per share on the third Wednesday of May 1990, August 1990, November 1990 and February 1991 to holders of record as of the first Wednesday of each such month, respectively. Therefore, the next dividend of $.025 is payable on May 16, 1990 to stockholders of record on May 2, 1990.

No dividend was declared on the company's Class A common stock. However, the Class A common stock is convertible on a share-for-share basis into regular common stock and stockholders who convert by May 2, 1990 will be entitled to the regular quarterly cash dividend on those shares.

Claire's Stores, Inc., the nation's premier retailer primarily specializing in one-stop shopping for popular priced women's fashion accessories, currently owns and operates 851 stores in major enclosed malls in 47 states.

#90102p2172 04/12/1990 ~PR Newswire

MIAMI (APRIL 12) PR NEWSWIRE - Southeast Banking Corporation, (NYSE: STB) which previously announced on Mar. 23 an anticipated loss of up to $57 million because of a $92 million provision for possible credit losses -- today reported that loss of $56.8 million for the 1990 first quarter. On a fully-diluted basis, the quarterly loss per common share was $1.76.

Southeast's strengthening of its reserve for possible loan losses followed a stringent examination of significant commercial real estate loans in light of concerns about general national economic conditions and Florida's current and anticipated real estate cycle.

Southeast increased its reserves as a percent of loans from 2.15 percent at Dec. 31, 1989 to 2.49 percent as of Mar. 31, 1990.

Southeast's additional first quarter provision resulted in a period-end reserve for loan losses of $258 million. Total non-performing assets at March 31, 1990 were $474 million, an increase of $144 million from the 1989 year-end.

Net interest income on a fully taxable equivalent basis for the first 1990 quarter was $130.2 million, a seven percent decline from the $140 million reported for the same 1989 quarter.

Other operating income for the 1990 first quarter was $58.9 million, a 28 percent increase over the $46.1 million reported for the first quarter of 1989. Other operating income was up primarily due to higher fee income on transaction accounts, income related to Southeast's large mortgage servicing portfolio and income from the securitization and sale of credit card receivables.

Other operating expenses were up 26 percent, from $120.7 million in the first quarter of 1989 to $151.7 million for the first quarter of 1990. An increase in the cost of FDIC deposit insurance, special reserves and expenses associated with real estate work-outs were significant factors in this rise in other operating expenses.

For the first quarter, average loans, net of unearned income were $10.7 billion, a six percent increase over the $10.1 billion reported for the same 1989 period.

Southeast's primary capital ratio at Mar. 31, 1990 was 6.7 percent, exceeding the regulatory requirement of 5.5 percent.

Total assets were $17.1 billion as of March 31, 1990, a nine percent increase over the $15.8 billion reported for the same date a year ago.

Total deposits were $13.2 billion as of March 31, 1990, an 11 percent increase over the $11.9 billion reported for the same date a year ago.

Southeast Banking Corporation is the parent company of Southeast Bank, N.A. Southeast Bank provides retail, commercial, corporate, private banking and trust, mortgage and credit card financial services at more than 225 locations throughout Florida.

NEW YORK (APRIL 12) PR NEWSWIRE - Stanley Stahl stated today that Apple stockholders should be given the opportunity to decide for themselves whether they wish to accept his offer to purchase any and all share of Apple Bancorp, Inc. (NYSE: APK) common stock at $38 net per share in cash.

Stahl further stated that he believes that the purported rescission of the April 17, 1990, record date for the 1990 annual meeting of stockholders, the attempt to delay indefinitely the annual meeting from the previously planned late May date, and the amendments to Apple's poison pill designed to make the poison pill even more onerous, were the latest in a long list of tactics employed by Apple's directors to disenfranchise Apple's stockholders and entrench themselves.

Stahl concluded by stating that he believes that the lawsuit filed by Apple against him is totally without merit, and he intends to vigorously defend himself against the allegations made therein.

Stahl's tender offer is scheduled to expire at midnight, New York time, on April 25, 1990, unless extended by giving notice to the depositary. Any extension will be publicly announced no later than 9 a.m., New York time, on the next business day after the previously announced expiration date.

LOS ANGELES (APRIL 12) PR NEWSWIRE - Craig Corp. (NYSE: CRA) announced today that it has filed a registration statement with the Securities and Exchange Commission for a public offering of 1,600,000 shares of its Class A Common Stock. Prior to the offering, there will be no shares of Class A Common Stock issued or outstanding. Among the factors to be considered

in the pricing of the offering is the market price of Craig's Common Stock. The closing price of Craig's Common Stock on the New York Stock Exchange on April 11, 1990, was $16 1/4 and there were 4,596,374 shares of Common Stock outstanding. Proceeds from the offering will be used to reduce Craig's outstanding bank indebtedness. The offering will be underwritten by a syndicate of managers led by PaineWebber International.

A registration statement relating to these securities has been filed with the Securities and Exchange Commission, but has not yet become effective. These securities may not be sold nor may any offers to buy be accepted prior to the time the registration statement becomes effective. This release shall not constitute an offer to sell or the solicitation of any offer to buy nor shall there by any sale of these securities in any state in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state.

A written prospectus meeting the requirements of Section 10 of the Securities Act of 1933, as amended, may be obtained from PaineWebber Incorporated, Prospectus Department, 1000 Harbor Blvd., Weehawken, New Jersey, 07087, 201-902-7341.

DETROIT (APRIL 12) PR NEWSWIRE - General Motors announced today it is

conducting two separate safety-related recall campaigns involving certain 1988-90 compact cars.

Affected owners are being notified by letter, and GM dealers will perform the necessary inspections and repairs free of charge.

On nearly 62,000 model year 1988-89 Pontiac Grand Am, Oldsmobile Cutlass Calais and Buick Skylark cars equipped with 2.3-liter Quad 4 engines, a front fuel feed hose assembly could crack or separate from the engine. If this happens, fuel could leak into the underhood area. Under certain circumstances, this could result in an underhood fire. GM dealers will install a new front fuel feed hose assembly.

Approximately 3,200 model year 1990 Cutlass Calais and Skylark cars may have loose front fuel feed/return hoses. If the hose fittings are loose enough, fuel could leak into the underhood area. Under certain circumstances, this could result in an underhood fire. Dealers will torque the appropriate hose fittings to make sure they are tight.

GM is unaware of any injuries resulting from these conditions.

#90102p2207 04/12/1990 ~PR Newswire

MORRISTOWN, NJ (APRIL 12) PR NEWSWIRE - Settlement negotiations seeking alternatives to a proposed Jersey Central Power & Light (JCP&L) transmission line along the railroad route from Aberdeen-Red Bank, N.J. concluded yesterday without agreement.

As a result, public hearings on the project are scheduled to begin before an administrative law judge on April 25.

Settlement negotiations had been under way for more than four months between the utility and representatives of the New Jersey Public Advocate and the municipalities of Middletown and Hazlet, which had contested the proposal for construction, and the New Jersey Board of Public Utilities (BPU). The parties came close but could not reach unanimous agreement on a compromise solution which would have deferred construction of the proposed 230 kilovolt transmission line for a period of up to five years.

The staff of the BPU determined that due to the nature of the alternate projects considered, and the importance and complexity of the public policy issues inherent in the case, the overall public interest could not be properly served by an agreement which did not also have the consent of others who were not parties of this proceeding.

"Since the consent of these other parties would be difficult, if not impossible to obtain, the parties were unable to reach a unanimous agreement and therefore it will be necessary for the matter to proceed to public hearings," said Richard S. Cohen, JCP&L corporate counsel. "While agreement could not be reached, JCP&L feels that all the parties acted in good faith throughout the negotiations and exhibited a spirit of compromise and cooperation."

Suggestions to add participants from other communities to the settlement negotiations not only increased the probability that considerable delay may be added to the already delayed construction of needed electric facilities in the region but introduced the real risk that agreement would not be achievable.

"The company is confident that public hearings in this matter and a full impartial airing of all the issues by all parties will provide the basis for proper resolution of the important policy issues raised during the course of this case," explained Cohen.

PITTSBURGH, (APRIL 12) PR NEWSWIRE - J&L Specialty Products Corp. today announced it has rescinded price revisions announced on March 28, 1990, for stainless sheet, strip and continuous mill plate products that were to become effective after April 28, 1990.

Instead J&L will reduce market discounts from prevailing base prices by three percentage points for its cold rolled stainless products promised for shipment to steel service centers, pipe and tube manufacturers, rerollers and end users after April 28, 1990. J&L did not disclose the range of discounts prevailing for these products.

As a result of these discount reductions, transaction prices will increase by approximately 4 percent. Prices of hot rolled stainless products sold to rerollers will be increased commensurately.

J&L Specialty Products Corp. is a leading producer of stainless steel sheet, strip and plate. The company is headquartered in Pittsburgh and operates three plants located in Midland, Pa.; Louisville, Ohio; and Detroit.

BLOOMFIELD HILLS, MI (APRIL 12) PR NEWSWIRE - Stoneridge Resources, Inc. (NYSE: SRE) announced today that it has completed the acquisition of 100 percent of Acceptance Insurance Holdings Inc. (NASDAQ: ACPT), an Omaha, Neb.-based specialty property and casualty insurance company. As a result of the merger, Acceptance's shareholders are entitled to receive $22.55 in cash per share.

For the year ended Dec. 31, 1989, Acceptance reported pre-tax income of over $4.7 million on net premium revenue of $42.2 million. "Acceptance continues to be a very strong performer in the insurance industry and we expect the Acceptance team to continue this performance in the future," said Jeffrey P. Jorissen, president of Stoneridge. "Based upon this track record, we fully expect the Acceptance team to outperform the market in the future too."

One of the significant benefits of the merger is that Acceptance's future income will be sheltered from federal income taxes by utilizing Stoneridge's tax loss carryforwards of approximately $19 million.

Stoneridge Resources also owns 52 percent of Florida-based Orange-co, Inc. (NYSE: OJ), owner of over 26,000 acres of Florida land, 53 percent of Radice Corporation (NYSE: RI), a Florida-based real estate developer, and 33 percent of Major Realty Corporation (NASDAQ: MAJR), a Florida-based real estate company.

#90102p2224 04/12/1990 ~PR Newswire
NASHVILLE, TN (APRIL 12) PR NEWSWIRE - Service Merchandise Company, Inc. (NYSE: SME) today announced sales and earnings for the first quarter ended

March 31, 1990.

Net sales for the first quarter of 1990 were $625,447,000 compared to $565,402,000 for the first quarter of 1989, an increase of $60,045,000, or 10.6 percent. Comparable store sales increased 7.2 percent over the prior year. The Company has opened a net of 14 stores since last year.

Historically, Service Merchandise Company, Inc. has incurred a net loss in the first three months of the year because of seasonality. The net loss for the three months ended March 31, 1990 was $(15,507,000), or $(.29) per share, compared to a net loss of $(4,416,000), or $(.09) per share for the prior year. The increase in the net loss arose from expenses associated with the Company's recapitalization, which totalled $21.2 million, or $.25 per share, in the first quarter. Of this amount, $16.4 million represented interest expense on the incremental debt. The remaining $4.8 million was charged to selling, general and administrative expenses -- $2.6 million for amortization of deferred compensation associated with employee incentive plans and $2.2 million for amortization of recapitalization fees and expenses. Exclusive of the recapitalization expenses, the net loss for the first quarter of 1990 would have been $(2,107,000), or $(.04) per share.

Gross margin for the first quarter of 1990, after taking into account buying and occupancy expenses, decreased to 23.5 percent of net sales from 23.7 percent for the same period last year. The decrease of .2 percentage points was due to a decrease in the percentage of jewelry sales to total sales and a decline in hardlines margins as the hardlines mix shifted toward lower margin goods.

Selling, general and administrative expenses as a percentage of net sales increased to 20.8 percent for the current quarter from 20.3 percent for the first quarter of 1989. The increase of .5 percentage points was attributable to the aforementioned expenses associated with the recapitalization.

The Company intends to reduce the level of its recapitalization-related bank borrowings as quickly as possible. Toward that end, the Company has repaid $55 million of the original $360 million Secured Term Loan issued in July 1989. Of the $55 million repaid, the Company utilized excess cash flow to prepay approximately $35 million of the Term Loan in March 1990.

Service Merchandise Company, Inc., "America's Leading Jeweler," operates 334 catalog stores and two Service Jewelry stores.

#90102p2227 04/12/1990 ~PR Newswire

EAST HARTFORD, CT (APRIL 12) PR NEWSWIRE - The Federal Aviation Administration (FAA) has granted two Pratt & Whitney turbofan engines additional certificates for extended twin operations (ETOPS) on Boeing 767 wide-body aircraft.

The PW4000 engine won the FAA's type design approval for 120-minute ETOPS, while Pratt's JT9D-7R4 engine received 180-minute ETOPS approval. The 180-minute certificate, which first became available in 1989, is the highest level of ETOPS performance.

ETOPS certification confirms an engine's reliability and permits twin-engine aircraft operation on more direct, time-saving routes that traverse water or vast land area up to 120 or 180 minutes from a suitable landing site.

"This is great news for Pratt & Whitney customers because it allows them increased routing flexibility and lower operating costs," Sel Berson, president, Pratt & Whitney commercial engine business, said. "It's significant to us because we are committed to having our entire fleet of new generation engines qualified for the highest ETOPS level."

That goal should be realized soon. The PW4000 is on track for the 180-minute ETOPS rating early next year. The PW2000 engine qualified for 120-minute ETOPS operation on the Boeing 757 last December, and is expected to receive the 180-minute rating by the end of this year.

The PW4000 powers modern wide-body aircraft made by Airbus, Boeing and McDonnell Douglas. Currently rated at 60,000 pounds of thrust, the PW4000 is designed to grow to 100,000 pounds of thrust to meet the power needs of proposed new aircraft. It is the only ETOPS-rated turbofan engine in its class that employs a full authority digital electronic control (FADEC), which simplifies engine operation while reducing fuel and maintenance costs.

The JT9D entered service nearly 20 years ago on the four-engine Boeing 747. Although not originally conceived for twin-engine aircraft, the JT9D was a natural choice to power the 767 and Airbus A300 and A310 aircraft as wide-body twins grew in popularity.

Pratt & Whitney is a unit of United Technologies Corporation (NYSE: UTX), based in Hartford, Conn. UTC provides a broad range of high technology products and services to the aerospace, building systems and automotive industries.

NEW YORK (APRIL 12) PR NEWSWIRE - ACM Managed Income Fund, Inc. (NYSE: AMF), a closed-end management investment company, today announced second quarter earnings for the period Dec. 1, 1989 through Feb. 28, 1990.

Total net assets of the fund on Feb. 28, 1990 were $257,457,118, compared with $179,600,454 on Nov. 30, 1989.

The fund issued approximately $93.3 million of remarketed preferred stock for the purpose of providing investment leverage to the fund in an offering completed in December 1989. On Feb. 28, 1990, the net asset value per share was $8.39 based on 19,366,371 shares outstanding, compared with $9.27 based on 19,366,371 shares outstanding on Nov. 30, 1989.

During the period, total net investment income was $6,510,908 or 34 cents per share. The total net realized and unrealized loss was ($12,692,370) or (66 cents) per share.

ACM Managed Income Fund, Inc., which commenced operations in November, 1988, is managed by Alliance Capital Management L.P.

Alliance Capital Management L.P. is a domestic and international investment adviser managing more than $43 billion in assets for institutions and individuals. Over a half million shareholders have invested more than $11 billion in assets in Alliance's family of domestic and international funds and cash management products.

FORT WORTH, TX (APRIL 12) PR NEWSWIRE - Pengo Industries Inc., (PSE: PGO.P) ("Pengo") of Fort Worth announced today that it had executed a letter of intent between it and PIAC Inc. ("PIAC") providing for PIAC's participation in the First Amended Plan of Reorganization of Pengo Industries Inc. (the "Plan"). In this regard, Pengo has filed post-confirmation modifications to the Plan and a related Notice of such with the U.S. Bankruptcy Court in Fort Worth, where the consolidated bankruptcy proceeding of Pengo and Pengo Finance, N.V. is pending. The modifications to the Plan, in summary, provide as follows:

PIAC Inc., a Texas corporation, which is wholly-owned by Resources Investment Corp., an affiliate of Smith Management Co. of New York ("Smith"), will participate in the Plan in lieu of the Thomas Group, who are former participants in the Plan. Smith is also affiliated with Smith Vasiliou Special Situations Fund L.P., a Senior Secured Creditor of Pengo.

In addition to the change in participants, the structure of the Plan will be changed in the following manner: GNPW L.P. ("GNPW"), also a Smith related entity, will purchase approximately $10 million in principal amount of secured term notes from Pengo's senior secured lenders and simultaneous with closing the Plan, Pengo will transfer the capital stock of three of its wholly-owned subsidiaries, GOEX Inc., N.D.T. Systems Inc., Petro Rubber Products Inc., and Pengo's interest in two non-wholly owned subsidiaries, Pengo Wireline of California Inc. and Pengo Wireline of North Dakota Inc. to GNPW in consideration of full cancellation of the secured term notes purchased and held by GNPW plus approximately $620,000 in cash to be paid to Pengo by GNPW. Further, GNPW will take the subsidiaries subject to a convenant to Pengo to remedy all environmental matters that have been indentified pursuant to environmental reports issued prior to closing on certain of the properties used in the

respective operations of the subsidiaries transferred to GNPW.

PIAC will provide a combination of $7 million in equity and financing to Pengo to fund its Plan. Such funding is not dependent upon PIAC obtaining bank or third-party financing.

Pengo also owns a majority interest in Pengo Wireline of California Inc., located in Bakersfield, Calif., and Pengo Wireline of North Dakota located in Williston, N.D.

Pengo is traded on the Pacific Stock Exchange under the symbol PGO.P.

TROY, MI (APRIL 12) PR NEWSWIRE - Doris L. Tuerk was recently appointed to the position of president of Standard Brokerage Services, Inc., a wholly owned discount brokerage subsidiary of Standard Federal Bank.

"We are pleased to welcome Doris Tuerk as president of Standard Brokerage Services," said Thomas R. Ricketts, chairman of the board and president of Standard Federal Bank. "Ms. Tuerk brings a wealth of knowledge and experience to Standard Brokerage and is looking forward to meeting and working with its brokerage customers," he added.

Tuerk was recently with Shearson Lehman Hutton, and prior to that was an assistant vice president with Michigan National Corporation's Investment Banking Division. Before that, she was director of Investor Relations with U.S. Mutual Financial Corporation. Tuerk is a graduate of Wayne State University and holds a degree in finance and business economics.

Headquartered in Troy, Standard Federal Bank (NYSE: SFB) has assets of approximately $10 billion and operates 113 branch offices throughout Michigan and Indiana.

NEW YORK (APRIL 12) PR NEWSWIRE - The Austria Fund, Inc. (NYSE: OST), a closed-end management investment company, today announced second quarter earnings for the period Dec. 1, 1989 through Feb. 28, 1990.

Total net assets of the fund on Feb. 28, 1990 were $128,103,709 compared

with $60,315,375 on Nov. 30, 1989. On Feb. 28, 1990, the net asset value per share was $15.61 based on 8,259,015 shares outstanding compared with $10.47 based on 5,759,000 shares outstanding on Nov. 30, 1989.

During the period, total net investment loss was $88,619 or $.01 per share. The total net realized and unrealized gain was $28,771,236 or $3.48 per share.

During the quarter, The Austria Fund sold an additional 2,500,000 shares, raising approximately $40 million for further investing. These additional shares help to spread the cost of operating the fund, thereby improving shareholder returns. Since the additional shares were sold at only a slight premium to the fund's per share net asset value, both new and existing shareholders have benefited.

The Austria Fund, Inc., which commenced operations on Sept. 28, 1989, is managed by Alliance Capital Management L.P. (NYSE: AC).

Alliance Capital Management L.P. is a domestic and international investment adviser managing more than $43 billion in assets for institutions and individuals. Over a half million shareholders have invested more than $11 billion in assets in Alliance's family of domestic and international funds and cash management products.

#90102p2252 04/12/1990 ~PR Newswire

WASHINGTON (APRIL 12) PR NEWSWIRE - The Office of Thrift Supervision today placed First Federal Savings and Loan Association, Warner Robins, Ga., in receivership and chartered a new federal mutual institution to take its place.

The new institution, First Federal Savings Association, will assume substantially all the assets and appropriate liabilities of the old thrift and will operate in conservatorship under the oversight of the Resolution Trust Corporation.

The receivership did not result in any interruption of First Federal's day-to-day operations. The institution and its one branch office will remain open for business as usual. Holders of insured accounts are not affected by the action, which was taken by OTS to protect insured depositors and the interests of the thrift insurance fund. Deposits remain insured to the $100,000 legal limit.

OTS initiated the action because First Federal was operating in an unsafe and unsound condition and has suffered losses that have depleted

substantially all of its capital, with no prospect of replenishment without federal assistance.

First Federal's condition is due primarily to a large quantity of seriously delinquent commercial real estate loans and poor underwriting practices. As of Dec. 31, 1989, the association held $28.9 million in delinquent loans and real estate owned, amounting to 18.19 percent of total assets.

As of Dec. 31, First Federal reported assets of $157.5 million, liabilities of $159 million and tangible capital of negative $1.5 million, for a tangible capital-to-assets ratio of negative 0.96 percent.

CONTACT: Patricia Forsyth, 404-888-5381, or Marc Adams, 202-906-6677, both of the Office of Thrift Supervision.

SAN DIEGO (APRIL 12) PR NEWSWIRE - XLNT Designs Inc. (XDI) announced today that it has made its XLNT Manager(TM) software package available for general distribution to all customers. The current release of XLNT Manager, a portable software implementation of the Fiber Distributed Data Interface (FDDI) Station Management (SMT) Draft Standard, conforms to revision 5.1 of that standard.

The Accredited Standards Committee X3T9.5 specifies FDDI, a 100 Mbps fiber optic token ring network, in a set of standards. The SMT document includes functions implemented primarily in software, such as the ability to maintain communication among stations as new stations enter the ring and existing stations power down, the detection and isolation of faulty stations or fiber optic links, and the monitoring of the network's overall performance and operation.

"Station Management is the only one of the four basic FDDI standards that is not yet completed," commented Robert Grow, vice president of architecture at XDI and inventor of the FDDI timed token protocol. "Any company implementing FDDI must consider the cost of learning and implementing SMT. Then they must track the standard until it is approved. XDI's XLNT Manager allows companies to get FDDI products to market in less time with lower development costs."

XDI licenses XLNT Manager in profusely commented source code form accompanied by thorough documentation for easy integration into an FDDI implementor's hardware/software environment. XLNT Manager also includes support from XDI's engineering organizaiton. XDI's staff has extensive experience in the implementation of FDDI and have integrated SMT into differenct hardware configurations and software environments.

XLNT Manager's source code provides the FDDI implementor greater flexibility in building FDDI nodes of different types, and allows for

partitioning of functions between different processors. With XLNT Manager the integrator can easily select optional SMT functions desired for the node. The XLNT Manager package includes source code updates for future revisions of the standard for quick and easy integration. XDI tests XLNT Manager against other manufacturers' SMT implementations as part of its commitment towards FDDI interoperability.

Founded in 1989, privately held XLNT Designs Inc. focuses on high speed networking. XDI licenses its standard XLNT Manager software product and provides custom hardware and software design services to implementors of FDDI and other high performance networking products. XDI's customer base includes board vendors and system manufacturers with commercial and military products.

ROCKY MOUNT, NC (APRIL 12) PR NEWSWIRE - William E. Prather, Jr., President and Chief Executive Officer of Hardee's Food Systems, Inc., today announced that Richard L. Hall will be joining the company as Executive Vice President and Chief Financial Officer, effective June 1, 1990. Mr. Hall has been with Peoples Drug Stores, based in Alexandria, Virginia, in the capacity of Executive Vice President and Chief Financial officer, a position he has held since August of 1988.

"I am delighted that Rick has made the decision to join the Hardee's team " said Prather. "Given his successful and varied financial background, I am fully confident that he will be outstanding as our Chief Financial Officer."

Hall's career began in 1976 when he joined People's Drug Stores, a subsidiary of the Canadian-based consumer goods and services company, Imasco Limited. While with Peoples he gained experience in the Internal Audit, Information Services and Treasury functions. In 1985, Hall relocated to Montreal to serve as Assistant Controller of Imasco Limited, and was later named Vice President and Controller of Imasco. He returned to Peoples in 1988 as Executive VP and CFO.

A CPA, Hall acquired his B.S. in Accounting from Virginia Polytechnic in 1976 and his MEA from George Mason University in Fairfax, Virginia.

Hardee's Food Systems, Inc., a subsidiary of Imasco Limited of Montreal, Canada, is the third largest fast food hamburger chain in America, operating nearly 4,000 restaurants in forty-one states and nine foreign countries.

ROCHESTER, NY (APRIL 12) PR NEWSWIRE - Three major home-buying incentives including an offer to pay the first year's mortgage principle and interest for newly purchased homes in the Rand Street, Steko Avenue area and KodaVista neighborhoods, were announced by Eastman Kodak Company (NYSE: EK) last evening at a special meeting for real estate brokers.

According to David D. Strong, manager of Kodak's Neighborhood Information Center, the incentive options are temporary enhancements to the Value Protection Program (VPP). "We are offering the incentives to further boost the already successful level of sales in the area. Of the 104 homes that have been on the market, we have sold 68," Strong said.

The VPP was initiated by Kodak in May, 1988, to help protect the property values of current and future residents in neighborhoods affected by

Kodak-related environmental issues. The program includes guarantees against loss of property value, low-interest mortgage subsidies, below-market financing for new buyers, grants and low-interest home improvement loans, and relocation expenses for home owners who move.

Strong said the three incentive options will be offered only from April 11 to September 30, 1990. They are:

-- Option 1 allows expanded use of low-interest home improvement loans for buyers of Steko Avenue, south of Steko Avenue, and KodaVista properties.

At the time of closing, buyers can borrow up to $5,000 at 2 percent interest for up to five years for use with any combination of conventional VPP mortgage financing and/or for home improvements. However, it cannot be used for FHA, VA, or SONYMA loans.

Strong said the amount borrowed can be applied to closing costs and escrow home improvements, or a down payment. In addition, the buyer either can use it in combination with a below-market-rate mortgage under the VPP, or with Option 2.

With the second option, buyers in all VPP areas will have the first 12 months mortgage principle and interest paid by Kodak. The offer can be used with any mortgage offered by Chase Lincoln, Citibank, or Eastman Savings and Loan. It may not be used in combination with the VPP below-rate mortgage or government-assisted mortgages. The buyer would be responsible for taxes and insurance payments.

Option 3, for home buyers in all VPP areas, provides that Kodak will pay up to 6 percent of the mortgage amount (excluding mortgage insurance premiums) to cover closing costs only (excluding tax and insurance escrows) for those using government-assisted mortgages.

In all cases, buyers must qualify financially. Other conditions might also apply, Strong said.

Also, Kodak announced that it is offering special incentives to real estate brokers who sell properties in the VPP area. Incentives include cellular telephones; weekends for two in Toronto with lodging, meals, and tickets to attend the "Phantom of the Opera" and eligibility to win a one-week vacation for two in Cancun, Mexico.

#90102p2286 04/12/1990 ~PR Newswire

LAKEWOOD, CO (APRIL 12) PR NEWSWIRE - Plains Petroleum Co. (NYSE: PLP) announced today that it had reached agreement with its principal natural gas purchaser, K N Energy Inc. (NYSE: KNE), to amend gas purchase contracts to provide for decontrol of gas prices effective Jan. 1, 1990. The amended contracts cover production from Plains' Kansas and Oklahoma Hugoton gas sources.

Annual sales to its prinicipal purchaser from those sources represented

about 88 percent of Plains' natural gas volumes and 80 percent of its revenue in 1989.

The amendments will not change the contract price for 1990 nor the process of redetermining future prices annually. The amendments leave unchanged the potential for retroactive adjustments in prices paid and collected in 1987, 1988 and 1989 under the contracts. Such adjustments may be required depending upon the outcome of the judicial review of Order Nos. 451 and 451-A of the Federal Energy Regulatory Commission (FERC).

At year end 1989 Plains reported that its potential net refund obligation to K N could be as great as $13.5 million (excluding interest) following a 1989 Appellate Court's decision to invalidate FERC Order No. 451.

That Order in 1986 permitted Plains to negotiate higher, market sensitive gas prices effective for 1987 and subsequent years. The Appellate Court's Order is currently stayed pending a decision by the U.S. Supreme Court on acceptance of appeals filed by Plains in affiliation with 21 major oil companies and independent gas producers and the FERC.

With the new amendment Plains' principal refund obligation (if any, pending the outcome of the appellate process) will be limited to the period 1987 - 1989 and will not increase. Plains' management continues to remain optimistic that the benefits of Order 451 will be affirmed by the U.S. Supreme Court or in further administrative action by the FERC, in which case Plains' potential refund obligation for the period of 1987 - 1989 could be eliminated or substantially reduced.

CONTACT: Darrel Reed of Plains Petroleum Co., 303-969-9325; or Jim Fingeroth or Jane Himmel both of Kekst & Co. for Plains Petroleum Co., 212-593-2655.

LEOMINSTER, MA (APRIL 12) PR NEWSWIRE - Milton Cooper, president of Kimco Development Corporation, today announced that his firm has entered into a joint venture agreement with The Edward J. DeBartolo Corporation and Antonia Investments, Ltd. to renovate and expand Searstown Mall which is located in Worcester County at the intersection of Commercial Road and State Highway 2 in Leominster.

The DeBartolo Corporation, which is headquartered in Youngstown, Ohio, is the nation's leading shopping mall development and management firm with over 87 million square feet of commercial space to its credit. Antonia Investments, Ltd. is a real estate development and management firm which is based in St. Louis.

"We are pleased to join forces with these respected regional mall developers for the expansion and renovation of Searstown Mall," stated Cooper. "The Edward J. DeBartolo Corporation is one of world's leading real estate firms with over 45 years expertise in the shopping center industry. The firm has established strong working relationships with the country's leading department stores and specialty shops."

Searstown Mall is currently anchored by Bradlees, Sage-Allen and Sears. Its merchandising mix includes approximately 75 smaller stores. The mall currently employs over 1,500 people and is the largest taxpayer in the City of Leominster, paying in excess of one quarter million dollars annually. The multimillion dollar revitalization will include the addition of retailers as well as a complete redesign of the existing interior.

"We are pleased to become a part of the community through this joint venture at Searstown Mall," explained Edward J. DeBartolo, chairman and chief executive officer. "Our goal is to significantly enhance the center's appeal through the addition of new amenities and customer services. The mall has been an integral part of Leominster since 1967. This program will allow the mall to continue growing to meet the needs of area residents."

Plans for the renovation and expansion are in the final stages of prepartion and will be available in early June. This program will transform Searstown Mall into a state-of-the-art shopping facility with a fashion-oriented appeal. The campaign will include a public purpose component to address the needs of the Leominster community. Traffic flow and access to the mall will also be improved.

KIMCO purchased Searstown Mall in 1972. Since then, the firm has continually upgraded the one-level mall. Previous expansions to Searstown Mall have included the addition of 25 stores in 1987 and a 77,000 sq. ft. wing for Sage-Allen in 1988. During that same time, an addition to Bradlees as well as a concourse joining Bradlees with the mall was constructed.

The Edward J. DeBartolo Corporation presently operates 69 regional malls and 18 community centers throughout the United States including Northshore Shopping Center in Peabody, Mass. Complementing its retail holdings, the firm master plans hotels, office towers and other commercial ventures. In Waltham, Mass., DeBartolo developed University Office Park, a multi-phased office facility which serves a wide variety of business applications. DeBartolo is also the nation's largest investor in sports enterprises with ownership of three thoroughbred racetracks, the Pittsburgh Penguins of the National Hockey League and the four-time world champion San Francisco 49ers of the National Football League.

Antonia Investments, Ltd., is a professional development company with broad experience in both community shopping centers and regional malls. Founded in 1986, the company's portfolio includes in excess of $500 million in completed projects, developments under construction or projected 1989 or 1990 construction starts in the retail industry throughout the United States. All of Antonia's developments to date have been in partnership with The Edward J. DeBartolo Corporation.

#90102p2307 04/12/1990 ~PR Newswire

PITTSBURGH (APRIL 12) PR NEWSWIRE - National Intergroup Inc. (NYSE: NII) announced today that it has filed two lawsuits against Centaur Partners, Walker Street Associates and their affiliates, one in federal court in Pittsburgh and one in state court in Pittsburgh.

The lawsuit in federal court alleges, among other things, that the materials being used by Centaur in connection with its ongoing consent solicitation are materially false and misleading and that the defendants may be acting together as a group without making the required disclosures. That lawsuit seeks, among other things, a declaration that all consents received by the defendants are void and an order requiring the defendants to divest the NII common stock they presently hold.

The lawsuit in state court, which also names Centaur's investment bankers as defendants, seeks, among other things, a declaratory judgment that the defendants have agreements, arrangements and understandings among each other sufficient so that, for purposes of NII's Rights Plan, beneficial ownership of shares held by Walker Street and its affiliates and Centaur's investment bankers should be attributed to Centaur.

If the court grants the declaratory judgment, NII intends to (a) announce that Centaur's share ownership level is beyond the ownership threshold set forth in the Rights Plan, thereby triggering the "flip-in" provisions contained therein, and (b) exercise its option to exchange one share of NII common stock for each outstanding Right (other than Rights held by the defendants, which would become void).

The net result of the exchange would be to decrease the percentage of NII common stock owned by the defendants and increase the percentage of NII common stock owned by other stockholders.

CONTACT: Edward J. Klein of National Intergroup Inc., 412-394-4306.

TROY, MI (APRIL 12) PR NEWSWIRE - Sonoco Products Company (OTC: SONO) of Hartsville, S.C., and VOPLEX Corporation (ASE: VOT) of Troy, have signed a letter of intent under which Sunoco will pursue the purchase of VOPLEX's plastic cartridge business.

Included in the sale would be VOPLEX's manufacturing and sales operation in Canandaigua, N.Y., which produces and markets caulking and grease cartridges for the packaging industry.

Joseph W. Bauer, president and chief executive officer of VOPLEX, said his company would continue to supply the packaging industry with its innovative blow molded products also produced in Canandaigua.

Other VOPLEX businesses in the area include an automotive operations in Canandaigua and its Allerton Chemical facility in Rochester, N.Y.

Sonoco is a $2 billion worldwide company that serves the packaging industry with a wide variety of products including cartridges, plastic bags, composite cans and tubes.

VOPLEX is a major supplier to the automotive industry that designs, engineers and manufactures decorative trim components and systems as well as supplying blow molded products to the packaging industry.

COSTA MESA, CA (APRIL 12) PR NEWSWIRE - ICN Pharmaceuticals Inc. (NYSE: ICN) today reported that first quarter sales rose 57 percent to a record $66.7 million.

The company said it recorded a net loss of $6.5 million, or 54 cents a share, in the quarter. That compared to net income of $2.9 million, or 19 cents a share, on sales of $42.5 million in last year's first quarter.

ICN said first quarter results were negatively affected by unfavorable currency adjustments stemming from a weak U.S. dollar, and realized investment portfolio losses. In addition, it said selling, general and administrative expenses in the quarter were higher because of the acquisition of Flow Laboratories in November 1989, and intensified pharmaceutical marketing activities.

ICN said all three of its operating companies registered positive results in the quarter.

SPI Pharmaceuticals Inc. (AMEX: SPI), the company's 89 percent- owned pharmaceutical marketing subsidiary, recorded net income of $2.8 million on record sales of $33.7 million in the quarter. SPI's Mexican operations made a significant contribution to its first quarter performance. Sales in Mexico benefited from increased demand for the antiviral drug ribavirin which is marketed in Mexico under the Vilona and Virazid tradenames. Ribavirin was in strong demand in Mexico for the treatment of patients hospitalized with severe cases of measles.

ICN Biomedicals Inc., the company's 83 percent-owned biotechnology research and medical diagnostics products company, reported net income of $1.9 million on record sales of $33 million. First quarter results reflected the continued strength of the company's base business and included the results of Flow Laboratories, which was acquired in November 1989.

Viratek Inc. (NASDAQ: VIRA), the company's 83 percent-owned pharmaceutical research and development company, reported net income of $182,000, or 2 cents a share, compared to net income of $440,000, or 5 cents a share, in last year's first quarter. Revenues of $1.2 million compared to revenues of $1.4 million. Viratek receives royalties from the sale of Virazole (ribavirin) by SPI Pharmaceuticals, which in the U.S. is authorized for the aerosolized treatment of infants and young children hospitalized with severe lower respiratory tract infection caused by respiratory syncytial virus (RSV). Patient treatments with ribavirin for RSV in the United States increased 60 percent in the first quarter over last year's first quarter.

VINEYARD, UT (APRIL 12) PR NEWSWIRE - Geneva Steel (NYSE: GNV) reported today net income of $7.3 million for the second quarter ending Feb. 28, 1990, or $.63 per common share. This compares with net income of $10.7 million, or $.80 per common share for the same quarter of the previous fiscal year. Sales and tons shipped for the period totaled $121.1 million and 326,000 tons, respectively, compared with $111.5 million and 299,000 tons in the same quarter of fiscal year 1989."

Joseph A. Cannon, president and chief executive officer, stated, "The steel industry during the past quarter was characterized by less robust market conditions than in the prior year. As expected, this affected Geneva Steel's operating results. Nevertheless, since certain significant costs to the company, including labor and raw materials, are currently established by renegotiated contracts, any increase in steel product prices during the remainder of the current fiscal year should

result in improved operating results."

Recently, Geneva Steel successfully completed an initial public offering of common stock and a $110 million private placement of fixed rate term debt, resulting in proceeds to the company of approximately $140 million. The completion of this financing was a critical step in Geneva Steel's previously announced mill modernization program, the implementation of which is proceeding as scheduled.

For the six months ended Feb. 28, 1990, net income was $19.1 million, or $1.63 per common share on sales of $253.3 million. This compares with net income of $25.3 million, or $1.89 per common share on sales of $242.0 million for the same period of fiscal year 1989. Sales and tons shipped for the six month period were $253.3 million and 669,000 tons, respectively, compared with $242 million and 646,000 tons in the same first half of fiscal year 1989. Net income for the first six months of fiscal 1989 is stated on a proforma basis reflecting the income tax expense as if Geneva Steel had operated as a "C Corporation" for the entire six months. In fiscal year 1989, Geneva Steel operated as an "S Corporation" from Sept. 1, 1989 to Nov. 9, 1989.

Geneva Steel owns the only integrated steel mill operating west of the Mississippi River. Located 45 miles south of Salt Lake City, Utah, the company's mill manufactures hot-rolled sheet, plate and other steel products for sale primarily in the western and central United States.

#90102p2357 04/12/1990 ~PR Newswire

BRUSSELS, BELGIUM (APRIL 12) PR NEWSWIRE - The board of directors of CMB Packaging SA, Europe's leading packaging company, announced today the results for the year ended Dec. 31, 1989, the group's first year of operation. The consolidated accounts comprise 12 months for former Carnaud and nine months for former Metalbox Packaging businesses.

In making this announcement, two comparisons were made. The first compares the CMB 1989 performance with the 1988 Carnaud figures, as the latter is the predecessor of CMB in the strict legal sense. A more meaningful comparison is made with a pro forma statement for 1988, which shows the progress in 1989 of the new group in financial terms vs. 1988.

The merger of the packaging activities of the Metalbox Group and the Carnaud Group became effective on April 1, 1989. When compared to the 1988 results of Carnaud (12 months), the 1989 accounts of CMB Packaging show the following:

-- Turnover increased 2.25 times to a level of FRF 21,316 million ($3,362 million) as compared to FRF 9,456 million ($1,491 million);

-- Operating profit doubled, rising from FRF 1,042 million ($164 million) in 1988 to FRF 2,084 million ($328 million);

-- Although corporate debt increased substantially (due to the assumption of 240 million pounds sterling debt related to the Metalbox Packaging business), despite rising interest rates in Europe and a substantial capital expenditure program in 1989 (FRF 1,803 million or $284 million), interest expense increased only modestly to 2.5 percent of turnover compared to 2.2 percent in 1988;

-- Profit on ordinary activities increased by 84 percent to FRF 1,531 million or $242 million (FRF 830 million, or $131 million, in 1988);

-- The group's net profit before amortization of goodwill and the capital gain arising from the partial disposal of Carnaud Basse-Indre, the steel division, amounted to FRF 947 million ($149 million), a 75 percent increase over 1988 (FRF 540 million, or $85 million).

-- Earnings per share (calculated on profit attributable to shareholders) rose from FRF 15.1 ($2.38) to FRF 17.1 ($2.69), an increase of 13 percent in spite of the 90 percent increase in the weighted average number of shares in issue from FRF 34.9 million ($5.5 million) to FRF 66.2 million ($10.4 million).

-- Turnover for the first quarter of 1990 is FRF 5.3 billion ($836 million) (excluding the steel division) compared to FRF 2.4 billion ($378 million) for Carnaud in 1989 and FRF 5.1 billion ($804 million) for CMB on the basis of a restated first quarter 1989.

#90102p2363 04/12/1990 ~PR Newswire

SAN FRANCISCO (APRIL 12) PR NEWSWIRE - Levi Strauss Associates Inc., the privately-held parent company of Levi Strauss & Co., today announced record first quarter sales for the period ended Feb. 25, 1990.

Net sales for the period were $878.4 million, reflecting a 14 percent increase over the $769.3 million reported for the like period a year earlier.

First quarter net income increased 25 percent to $45.4 million versus $36.2 million for the first quarter of 1989.

Operating income increased 22 percent or $24.6 million to $137.8 million in the first quarter of 1990 versus 1989.

The company attributed its strong performance to higher sales, improved gross margins and a lower effective tax rate. The company also said its strong performance was led by its international businesses, which were aided by favorable foreign exchange rates in Europe.

Higher sales for the quarter reflected continued demand for most of its domestic and international product lines. The company said, however, softening demand for denim jeans coupled with higher inventories held by retailers resulted in lower sales for its U.S. Men's Jeans products.

The company also said that in March its employee investment and savings plans initiated a tender offer for shares of the company's common stock. It is anticipated that the investment and savings plans will make semi-annual purchases of company stock held by existing stockholders. The company's common stock is not available for public trading.

As a result of the employee investment and savings plans, the company files its quarterly results with the Securities and Exchange Commission.

Levi Strauss & Co. is the world's largest brand-name apparel manufacturer. The company designs, manufactures and markets jeans and casual apparel for men, women and children, including slacks, shirts, jackets and skirts. It employs more than 31,000 people worldwide.

LOS ANGELES (APRIL 12) PR NEWSWIRE - General Motors, long- recognized as one of the nation's leaders in the battle to clean our environment, will be an active participant in Earth Week '90 activities.

This year's activities mark the 20th anniversary of the initial, historic Earth Day in 1970.

Interviews on environmental issues with appropriate GM officials are available. Here are some potential topics of interest:

-- The changing role of motor vehicles in the environment;
-- Alternate-fueled vehicles, including GM's new Impact electric car, introduced in January 1990 in Los Angeles;
-- Methanol as an alternative fuel;
-- Controlling traffic congestion as a means to improve air quality;

-- And any other topics regarding the environment.
Interviews can be arranged beginning Tuesday, April 17, by contacting either Bill Ott or Patrick Morrissey in the GM News Media Relations office in Los Angeles, at 213-277-2511.

CONTACT: Bill Ott of General Motors, 213-277-2511.

#90102p2370 04/12/1990 ~PR Newswire

BIRMINGHAM, AL (APRIL 12) PRNEWSWIRE - Torchmark Corporation (NYSE: TMK) reported today that a three-judge panel of the Fifth Circuit Court of Appeals today stayed a preliminary injunction which had prohibited Torchmark from soliciting proxies for a slate of five independent nominees at American General Corporation's (NYSE: AGC) annual meeting on May 2, 1990.

A spokesman for Torchmark said that the company was pleased with the panel's ruling, and intends to proceed with the solicitation of proxies for the nominees as soon as possible.

The independent nominees, when elected, will be committed to independently assessing whether or not a merger or sale of American General would be in the shareholders' best interests. If the board determines to pursue a sale or business combination, the independent nominees are committed to seeking the most advantageous transaction for American General shareholders, and to fairly and impartially evaluating all acquisition proposals, whether or not they are made by Torchmark.

Torchmark restated that it had nominated only five nominees in order to facilitate the re-election of Harold S. Hook, chairman and chief executive officer of American General, to the American General board. Each of the independent nominees has indicated to Torchmark that, if Hook is not re-elected to the board, he will support such actions as are necessary to appoint Hook to the American General board following the annual meeting.

Torchmark reported that it will continue to solicit proxies in support of a non-binding resolution that calls on American General's board of directors to promptly seek a sale or merger of American General by hiring an investment banking firm to solicit offers to acquire the company and appointing a committee of independent directors to evaluate all acquisition proposals.

CONTACT: William T. Graves of Torchmark, 205-325-4251, or Andrew R. Baer or Mary T. Conway, 212-593-2655, both of Kekst and Company, for Torchmark

#90102p2377 04/12/1990 ~PR Newswire

WASHINGTON (APRIL 12) PR NEWSWIRE - The Office of Thrift Supervision today placed Constitution Federal Savings and Loan Association, Monterey Park, Calif., in receivership and chartered a new federal mutual institution to take its place.

The new institution, Constitution Federal Savings Association, will operate in conservatorship under the oversight of the Resolution Trust Corp. (RTC). The RTC will determine which assets and liabilities will be assumed by the newly chartered thrift.

The receivership did not result in any interruption of Constitution's day-to-day operations. The institution will remain open for business as usual, as will both of its branches. Holders of insured accounts are not affected by the action, which was taken by OTS to protect insured depositors and the interests of the thrift insurance fund. Deposits remain insured to the $100,000 legal limit.

OTS initiated the action because Constitution, a federally chartered stock institution, was operating with insufficient capital in an unsafe and unsound condition. The institution has been suffering losses that likely will deplete substantially all of its capital, with no prospect of replenishment without federal assistance.

Constitution's condition is due primarily to its inability to generate sufficient loan volume, and to excessive general and administrative expenses. The association's general and administrative expenses were 3.7 percent of average assets in 1989, compared with a 2.9 percent ratio for institutions of similar size and structure.

In 1989, Constitution reported an operating loss of $946,000, as well as average net income losses of $50,000 per month for the first 11 months of the year. Significant net income losses continued through February 1990.

As of Dec. 31, 1989, Constitution reported $68.4 million in assets, $68.1 million in liabilities and tangible capital of $317,000 for a tangible capital-to-assets ratio of 0.47 percent.

BURBANK, CA (APRIL 12) PR NEWSWIRE - Mortgage and Realty Trust (NYSE: MRT) announced that it filed today a petition for reorganization under Chapter 11 of the U.S. Bankruptcy Code.

On March 30, 1990, the Trust announced it had reached a preliminary understanding with a group of lenders for a $425 million credit agreement to enable the Trust to resume payment on its debts and continue its status as a real estate investment trust.

After considering cost, operating and administrative covenants and risks of pledging all Trust assets to secure the credit, the trustees determined that the interest of the shareholders would be better protected by reorganization under Chapter 11.

The Trust continues to produce income. The trustees believe that there will be sufficient income and assets to properly satisfy all creditors and that reorganization under Chapter 11 will provide the best opportunity to preserve shareholders' equity.

SASKATOON, SASKATCHEWAN (APRIL 12) PR NEWSWIRE - Develcon Electronics Ltd. (Toronto: DLC) today announced its unaudited results for the six months ended Feb. 28, 1990 as follows (Canadian Funds):

	Six Months Ended Feb. 28, 1990	Six Months Ended Feb. 28, 1989
Sales	$ 4,612,000	$ 6,507,000
Loss before income taxes and extraordinary item	957,000	1,711,000

Extraordinary item	--	142,000
Net loss	957,000	1,569,000
Loss per share before extraordinary item	.27	.46
Loss per share after extraordinary item	.27	.42

No income tax recovery on the loss for the six months ended Feb. 28, 1990, or the comparable period a year earlier, has been recorded. These losses will be available for offset against any future taxable income.

The weighted average number of shares outstanding was 3,708,170 during the six and three months ended Feb. 28, 1990 and 3,698,170 during the six and three months ended Feb. 29, 1989.

Subsequent to the end of the second quarter, the company completed a financial restructuring which resulted in the conversion of $4.5 million in long-term debt into 3 million Common Shares, as well as the conversion of all outstanding Series B preferred shares into 969,338 Common Shares. As part of the transaction, Develcon will reacquire all 4.5 million outstanding Series A preferred shares for nominal consideration. As a result, there will a balance of $2.5 million owed by the company bearing interest at a rate of 12 1/2 per cent per annum, repayable over a period of eight years. Shareholders' equity in the company has been increased to approximately $5.5 million. In addition, SEDCO has guaranteed a bank operating credit for up to $1 million.

Although the company is still operating in a loss position, we expect to see improved levels of revenue in the next two quarters and resulting improvements in financial performance. The company continues to pursue the identification of a strategic partner who would provide financial strength to the organization.

SEOUL, SOUTH KOREA (APRIL 12) UPI - Two shells shot at a firing range landed outside the area and exploded, injuring two American soldiers and three South Korean enlisted men, U.S. military authorities said Thursday.

The incident took place at about 2:25 p.m. Wednesday near the south end of Freedom Bridge spanning the Imjin River, 30 miles north of Seoul, officials said.

An artillery unit of the 2nd U.S. Infantry Division landed two 155mm rounds outside the impact area of a firing range during routine training, the officials said.

The injured men were treated at nearby military medical facilities and have been released. The two Americans belonged to the 2nd Division but their names were withheld pending notification of next of kin.

U.S. and Korean authorities are conducting an investigation into the incident, the officials added.

#90102u0166 04/12/1990 ~United Press International

KAMPALA, UGANDA (APRIL 12) UPI - Members of Uganda's crusading Holy Spirit rebel movement hacked 43 people to death April 1 in the north of the country, the government daily newspaper New Vision reported.

At Alwi village, 210 miles north of Kampala, the followers of Joseph Kony hacked women, children and government officials with long knives, the newspaper said Wednesday.

Kony's followers, who march into battle singing hymns and practice witchcraft to protect themselves from bullets, herded some villagers into a grass hut and set them afire, the newspaper wrote. It said they burned down more than 100 grass huts and set fire to 200 granaries.

Kony, a relative of movement founder Alice Lakwena, was among the rebels, the report added.

Lakwena, who lives in exile in neighboring Kenya, taught her followers in the Holy Spirit movement to smear ceremonially prepared vegetable oil on their bodies when going into battle against Ugandan government troops, telling them it would make them invulnerable to their enemies' gunfire.

More than 10,000 of Lakwena's followers have been killed battling the government's National Revolutionary Army since she began her crusade in 1986 in the conviction that God had chosen her to lead her people to Kampala and take control of Uganda.

(APRIL 12) UPI - TV HIGHLIGHTS:

FRIDAY, APRIL 13

6:30 p.m.
PBS, ''Nightly Business Report.''

7 p.m.
(Note: In some regions, news is broadcast at 6 and 6:30 p.m. Check with local affiliates for details.)
ABC, ''ABC's World News Tonight with Peter Jennings.''
CBS, ''CBS Evening News with Dan Rather.''
NBC, ''NBC Nightly News with Tom Brokaw.''

8 p.m.
ABC, ''Full House.''
CBS, ''Circus Highlights'' - Nell Carter is host for this edition of highlights from 120th Ringling Bros. and Barnum and Bailey Circus.
NBC, ''In the Heat of the Night'' - Union leaders talk violence while a city leader urges patience among potential scabs who have been promised jobs by the manager. R.
PBS, ''Washington Week in Review.''

8:30 p.m.
ABC, ''Family Matters'' - Carl and Eddie rip into the plumbing to install a new shower for Grandma Winslow, but the resulting expense makes a contractor's estimate look reasonable by comparison. R.
PBS, ''Wall Street Week with Louis Rukeyser.''

9 p.m.
ABC, ''Perfect Strangers'' - It's 10 degrees outside but Balki refuses to close the window in hopes his parrot will return, much to Larry's distress as he endures frostbite and frozen oatmeal.
CBS, ''Bagdad Cafe'' - Brenda forbids Debbie to see her zombie-on-wheels boyfriend Snake, so Jasmine and Debbie collaborate to transform him into respectibility.
NBC, ''Shannon's Deal'' - Jamey Sheridan plays hard-boiled lawyer Jack Shannon in this 1989 series pilot about an investigation into a drugs-for-arms smuggling ring. Special two-hour broadcast. (The series begins airing next week in its regular time slot, Mondays at 10 p.m.)

9:30 p.m.
ABC, ''Just the Ten of Us'' - Coach and the the Lubbock Babes take part in the annual St. Augie's Football Fund-Raiser Variety Show. R.
CBS, ''Sugar and Spice'' - Convinced that Vickilyn needs to get out and mingle, Loretta arranges a date for her - with devastating results to her own ego.

10 p.m.
ABC, ''20/20.''
CBS, ''Dallas'' - Jessica's startling confession takes the Ewings by surprise; Cally and James join forces against J.R.; Cliff's career aspirations take a dive after a bitter conflict with Stephanie.

11:30 p.m.
ABC, ''ABC News Nightline.''
CBS, ''The Pat Sajak Show.''
NBC, ''The Tonight Show Starring Johnny Carson.''

12:30 a.m.
CBS, ''CBS Late Movie: 'Shakedown on the Sunset Strip''' - Sgt. Charles Stoker, an ambitious Los Angeles vice cop, zealously pursues Brenda Allen, a madam operating a house of ill repute in Hollywood.
NBC, ''Late Night with David Letterman.''

1:30 a.m.
NBC, ''Friday Night Videos.''

BY TIM HANSON - UPI

KATMANDU, NEPAL (APRIL 12) UPI - Only days after King Birendra legalized political parties, Nepal has entered a period of uncertainty and confusion while grappling with its first taste of democracy in nearly three decades.

When and how to hold elections, the makeup of an interim government, rewriting the constitution and the future role of the king in a democratic society are some of the issues facing the landlocked Himalayan nation.

Leaders of the Nepali Congress Party and a coalition of seven leftist parties have been meeting with government officials in an attempt to resolve the outstanding issues.

''You must understand that people who have never had a serious political discussion among themselves in 29 years are sitting together and talking '' said Foreign Minister Pashupati Shumsher Rana. ''On the left for instance, there are seven fragments united in one formation. The left and the Congress have to agree. The left has to agree with itself. All of them have to agree with us. You don't think it's going to happen in half a day?''

The king Sunday bowed to mounting pressure from six weeks of pro-democracy rallies and clashes with security forces that left at least 50 people dead and agreed to a multi-party system for Nepal.

A constitutional reforms commission to be created by the king will begin deliberating as soon as the opposition appoints its representatives.

The government and the opposition agree the powers of the king will be reduced, but his precise role will be decided in committee discussions.

''I presume that his majesty will continue to be gracious enough to accept what the constitutional reform commission recommends,'' Rana said.

An immediate problem is there is no obvious choice of a leader for the opposition.

Ganesh Man Singh, the most respected figure in the Congress Party, has widespread support but the 75-year-old leader may be prevented from playing an active role because of his age and poor health.

''The task of selecting the members of the constitutional reforms commission will be difficult because there will be so many contending voices,'' said a Western observer.

Despite the opposition's grim warnings of renewed unrest if the present government is not dismissed, there are indications the opposition is prepared to be flexible.

''You can never exclude violence, as feelings continue to run high,'' said the Western expert. ''To say there will not be any flareups is impossible to predict, but the chances have been greatly reduced by what has happened. If violence does break out, I don't think it will be on the same scale - that is unless somebody makes a blunder of monumental proportions.''

Political observers are not surprised by the opposition's demands that the current government be dismissed, citing mistrust and suspicion of those with connections to the panchayat system, which leaves councils responsible to the king.

''There is such strong reaction against the panchayat that many people believe that anyone associated with it should not lead an interim government,'' said a Western expert. ''There is a feeling that such people cannot be trusted to lead the country in a direction toward a multi-party democracy. That feeling is there and it is very strong.''

He said the communist parties in the seven-party leftist coalition are particularly interested in increasing their influence and future government role, a process that would be made easier if there were no holdovers from the previous system.

''After 30 years of being banned, you have many different voices that are beginning to be heard for the first time,'' he said. ''And you have people who are attracted by the idea of holding power and who want to share in it more broadly, there is going to be a lot of noise, confusion and pulling and hauling. It's not going to be easy to arrive at a consensus at where politics should be headed.''

#90102u0308 04/12/1990 ~United Press International

(APRIL 12) UPI - Ryan White was honored by celebrities and schoolmates Wednesday as more than one-thousand people filled a Gothic church for his funeral in Indianapolis. The 18-year-old was remembered NOT just for his five-year battle against AIDS... but also for his fight against the ignorance and fear that comes along with the disease. White died of the fatal virus Sunday.

Sources say the shuttle Discovery and the one-point-five-BILLION-dollar Hubble Space Telescope may be grounded more than two weeks at Cape Canaveral. But the ship's hydraulic problems may put more than one shuttle launch behind schedule. Space agency officials say the postponement is threatening next month's flight of the shuttle Columbia on a Spacelab astronomy mission.

A memorial march deteriorated into an angry brawl Wednesday night in Teaneck, New Jersey. Officials say about one-thousand angry mourners at a vigil for a youth fatally shot by police overturned and smashed patrol cars, broke windows and clashed with officers. The violence follows the police shooting one night earlier of a 15-year-old boy. The shooting is still under investigation.

A U-S Army sergeant born in Panama faces murder and other charges stemming from ''Operation Just Cause,'' the U-S invasion of Panama last December. Sergeant Roberto Bryan faces charges of pre-meditated murder and three counts of aggravated assault of Panamanian civilians. The Army says the murder charge is the most serious allegation stemming from more than 60 incidents involving U-S troops during the invasion.

(APRIL 12) UPI - U-S military authorities in South Korea say two shells landed outside a firing range north of Seoul and exploded. Wednesday's blast injured two Americans and three South Korean soldiers. All five men were treated at nearby hospitals and released. U-S and Korean authorities are investigating the incident that occurred during routine training at the range.

Colombia's defense minister is blaming people without ''any social sensibility'' for causing a bloodbath in the country Wednesday. The minister spoke following an explosion on a busy highway that killed 14 people and wounded more than 100 others near Medellin. Police sources blame the bombing on the Medellin drug cartel, which last week promised to launch a campaign of ''bombings and executions.''

#90102u0331 04/12/1990 ~United Press International

BELFAST, Northern Ireland (APRIL 12) UPI - Irish Prime Minister Charles Haughey's visit to his birthplace, Northern Ireland, sparked protests by Protestants who accused him of helping the Irish Republican Army, and he warned that a divided Ireland would fare poorly in a united Europe.

Demonstrators waved British flags, hurled bottles and scuffled with police Wednesday in opposition to Haughey's one-day visit.

It was the first visit by an Irish premier since sectarian violence erupted in the territory more than 20 years ago, but Haughey's trip was intended to be non-political.

As president of the European Community, he accepted an invitation to talk about the implications of European integration in 1992 to the Institute of Directors, a group of leading Irish businessmen.

Haughey was last in Northern Ireland, his birthplace, in 1968. He left later Wednesday for Dublin.

No discussions were scheduled with British officials of the Northern Ireland office and Haughey's arrival by helicopter received no official welcome.

Passions were running high because his visit coincided with the funeral of four soldiers of a British-trained regiment killed Monday by the IRA, which is fighting to end British rule in the north.

Protestant ire was also aroused Friday by an Irish court, which for the third time refused to allow the extradition of an IRA suspect on grounds it would be political.

Haughey's bulletproof car was escorted by armed police to the central city Europa hotel, where at least two bottles were thrown from a jeering crowd of about 700 Protestants outside. Two activists were expelled from the hotel as Haughey entered to deliver his address.

Haughey issued a plea for Irish unity within the framework of the 12-nation European Community.

''It is time for north and south to work together for mutual economic and social benefits,'' he said. ''There are enormous economic and political changes in Europe. (Integration) presents Ireland with new challenges and if it does not meet them, it will suffer the consequences.''

But the lord mayor of Belfast, Reg Empey, challenged the Irish Republic's long-standing constitutional assertion that it has jurisdiction over the north.

''Some in our society, who were going about their evil deeds on Monday ... regard this particular claim as a license to kill,'' Empey said, referring to the IRA attack.

Reporters later asked Haughey to respond to Protestant concerns.

''There are misunderstandings,'' he said. ''What I want to do is talk to (the Protestants). I have invited them again and again to talk to me and explain these difficulties to see if we can clear them up.''

The agitation outside was watched by the Rev. Ian Paisley, a staunch protestant leader who belongs to both the British and European parliaments.

He said Haughey is not welcome in Belfast because as prime minister of the Irish Republic he offered a safe haven for IRA gunmen and bombers. Although the Irish government condemned the IRA, it has ''repeatedly refused to extradite convicted IRA killers to Northern Ireland for trial '' he said.

''He is here today to trouble the people of Northern Ireland, to dance on the graves of those who gave their lives,'' the firebrand minister said. ''If those who were responsible for the murders were caught in the Irish Republic they would be let off.''

Police said four men were arrested in Monday's attack.

#90102u0335 04/12/1990 ~United Press International

(APRIL 12) UPI - After just one game in the National League, Dennis ''Oil Can'' Boyd impressed himself and his manager.

Boyd, who signed with the Montreal Expos as a free agent during the offseason, pitched six innings Wednesday to collect the victory in leading the Expos to a 6-4 triumph over the St. Louis Cardinals.

''My debut was not too shabby,'' said Boyd, who pitched eight seasons with the Boston Red Sox. ''I think I'm going to like the National League.''

Boyd suffered a right shoulder injury that limited his duty while pitching for the Red Sox. Wednesday he allowed two walks (one intentional), four hits and struck out four.

''He turned in a solid performance,'' Montreal Manager Buck Rodgers said. ''We know he is a major league pitcher. The only concern we have is his arm. It appears sound.''

In his short time with the Expos, Boyd has already made changes in his style.

''The pitching coach (Larry Bearnarth) saw I was over-compensating when I released the ball,'' Boyd said. ''Today, I tucked it in more. The ball was there. It was moving. I kept it low.

''This is going to be a great team. We have youth, speed, skill and power. We've got some real go-getters.''

Montreal snapped a 3-3 tie in the seventh on a sacrifice fly by Tim Raines. Rookie Marquis Grissom doubled with one out and stole third to set up the game-winner.

The Expos added two runs in the eighth against three pitchers for a 6-3 lead.

''It was a bad ballgame,'' said St. Louis Manager Whitey Herzog, who has used 15 pitchers in the first three games. ''We're thin pitching-wise.''

In other NL games, New York downed Pittsburgh 3-0, San Francisco pounded Atlanta 8-0 in the first game; Atlanta nipped San Francisco 4-3 in the second, Cincinnati whipped Houston 5-0, San Diego defeated Los Angeles 3-1 and Philadelphia at Chicago was postponed by snow.

In the AL, it was: Boston 3, Detroit 2 in 10 innings; Minnesota 3, Oakland 0; Texas 11, Toronto 5; Kansas City 2, Baltimore 1; California 1, Seattle 0 andChicago at Milwaukee was postponed by inclement weather as was New York at Cleveland.

-- AROUND THE NL --

Mets 3, Pirates 0

At New York, Gregg Jefferies led off with a home run and Frank Viola, 1-0, allowed five hits in 7 2-3 innings. Viola struck out eight and John Franco finished for his first save. John Smiley, 0-1, also gave up an RBI single to Darryl Strawberry in a two-run first inning.

Giants 8, Braves 0, 1st
Braves 4, Giants 3, 2nd

At Atlanta, Rick Reuschel, 1-0, combined with two relievers on a three-hitter and Kevin Bass and Robbie Thompson homered in the first game of a twi-night double-header. Reuschel, 1-0, allowed three hits over 5 2-3 innings and struck out four. Tom Glavine, 0-1, took the loss.

In the nightcap, Pete Smith, 1-0, allowed four hits over five innings while striking out six to earn the victory. Mark Lemke drove in two runs while Mike Stanton earned his first save.

Reds 5, Astros 0

At Houston, Paul O'Neill hit a two-run double to highlight a three-run, third inning for Cincinnati and a three-game sweep of Houston. Jack Armstrong, 1-0, allowed three hits over six innings and struck out five. Rick Mahler picked up the save. Mark Portugal, 0-1, allowed five runs in 3 1-3 innings.

Padres 3, Dodgers 1

At San Diego, rookie Andy Benes, 1-0, allowed no hits through six innings before giving way to Calvin Schiraldi and Craig Lefferts, who pitched the ninth for his first save. Fernando Valenzuela, 0-1, gave up six hits and two runs over five innings. The Padres broke a scoreless tie in the fourth inning when Garry Templeton delivered a two-out single to drive in Tony Gwynn and Fred Lynn.

#90102u0356 04/12/1990 ~United Press International

(APRIL 12) UPI - The New York Islanders' comeback bandwagon ran off the road Wednesday night when the New York Rangers used a lopsided 6-1 victory to put their regional rivals into a 3-1 hole in their first-round Stanley Cup playoff series.

The Islanders were talking about miracles after stunning the Rangers 4-3 in double overtime Monday, but now they face elimination in Game 5 Friday night at Madison Square Garden.

The matchup was one of four division semifinal series played Wednesday in the Wales Conference. In the other Patrick Division match, the Washington Capitals beat the New Jersey Devils 3-1 to even their series at two games each.

In the Adams Division, the Buffalo Sabres topped the Montreal Canadiens 4-2 and tied their series 2-2, and the Boston Bruins rallied past the Hartford Whalers for a 6-5 victory and a 2-2 tie in their series.

The Campbell Conference resumes play Thursday night with Los Angeles at Calgary, Winnipeg at Edmonton, Minnesota at Chicago and Toronto at St. Louis. The Kings and Jets lead their series 3-1, the Blackhawks and North Stars are tied 2-2, while St. Louis has a 3-1 lead.

All series are best-of-seven and switch sites after Game 5.

PATRICK DIVISION

RANGERS 6, ISLANDERS 1

At Uniondale, N.Y., John Ogrodnick scored one of the New York Rangers' three second-period goals and set up their opening score on the first shot of the game.

The Rangers led after 41 seconds of play and led 2-1 after one period. They added three goals within 2:32 midway through the game to seal the victory.

Carey Wilson, Randy Moller and Ogrodnick scored during the spree. Brian Mullen and Darren Turcotte scored the Rangers' first-period goals.

''Six (Islanders) guys are busting their butts and the (puck) takes three bounces and goes in the net three times,'' Islanders defenseman Doug Crossman said.

The Rangers also played a near-flawless second period and killed six of seven penalties.

''It was a pretty even game,'' Rangers Coach Roger Neilson said. ''And all of a sudden the goals started going in for us. They (Islanders) played a pretty strong game.''

CAPITALS 3, DEVILS 1

At Landover, Md., Don Beaupre, making his first NHL playoff start in four years, stopped 22 shots and John Druce's second-period goal broke a tie and powered Washington.

Fifteen seconds after Kirk Muller tied the game 1-1, Druce skated free of Devils defenseman Viacheslav Fetisov, took a pass from John Tucker and scored past goalie Sean Burke's left skate from the slot at 13:17 of the second period for the 2-1 lead.

''It was just a sensational game by Donnie Beaupre. He could not come up any bigger than what he did out there tonight,'' Capitals Coach Terry Murray said. ''He made some tremendous stops.''

The series resumes Friday night in East Rutherford, N.J.

BOSTON 6, HARTFORD 5

At Hartford, Dave Poulin's tie-breaking goal with 1:44 remaining capped Boston's four-goal third-period comeback.

''I've been in situations like this before,'' said Poulin, acquired from Philadelphia in a January trade. ''I've seen strange things happen.''

Game 5 will be played Friday night at Boston Garden.

Hartford scored four times in the second period to build a 5-2 lead and chase goaltender Rejean Lemelin, who was replaced by Andy Moog.

Poulin started the comeback with a goal at 1:28 of the third and set up Dave Christian for the game-tying score.

Boston Coach Mike Milbury described Poulin's play in the final period as ''an incredible performance, at both ends of the ice. He was not to be denied.''

Boston, which had the league's best regular-season record, was without injured Ray Bourque for the second straight game. The Bruins star defenseman and team leader is sidelined by a hip pointer.

SABRES 4, CANADIENS 2

At Montreal, Pierre Turgeon scored two goals and Dave Andreychuk had four assists to lift Buffalo, with the fifth game to be played in Buffalo Friday night.

Turgeon, the leading Sabres scorer during the regular season with 106 points,got his first goal of the playoffs on a high backhand shot with just three seconds left in Buffalo's three-goal second period, breaking a 2-2 tie.

''We did a good job in the first period but they bounced back with a power play goal in the second and then that third goal also in the second with just three seconds left killed us,'' Montreal goaltender Patrick Roy said. ''But I think it was a lucky goal because the puck bounced on Turgeon's stick. I dove but missed it.''

Turgeon was just relieved to finally score a goal.

''Maybe I took the blame for not scoring in the first three games but I don't think about it,'' said Turgeon. ''I just think about trying as hard as I can. Tonight I got the bounces by taking advantage of my chances.''

#90102u0376 04/12/1990 ~United Press International

KATMANDU, NEPAL (APRIL 12) UPI - The Nepali Congress Party and a coalition of seven communist groups said King Birendra must dissolve the Parliament and the Cabinet before they would agree to participate in a provisional government.

Party and coalition leaders issued the demands Wednesday in a statement after a two-hour meeting at the home of Ganesh Man Singh, leader of the Congress Party.

The Nepali opposition groups also listed other key demands for their participation in a new government, including the release of political prisoners and the repeal of constitutional language that is incompatible with a multi-party system.

Yog Prasad Upadhaya, the Congress Party's assistant general secretary, said the demands for Parliament and Cabinet to be dissolved would be presented to King Birendra. Party leaders said the demands were conditions for their participation in the provisional government.

Krishna Prasad Bhattarai, the party's acting president, said Congress and the coalition were willing to have the king act as prime minister in a provisional government. ''That is an alternative we are providing to the

king,'' he said.

He also said the opposition political groups hoped elections would be carried out quickly to choose a replacement for the provisional government.

''This is just for a short period, a provisional arrangement,'' Bhattarai said. ''We've said the provisional government will last only until elections, and they should be held as quickly as possible.''

King Birendra agreed Sunday to legalize political parties for the first time in 29 years. The king had been under mounting political pressure from a 6-week-old pro-democracy movement that resulted in huge rallies and clashes with security forces. At least 50 people were killed in the violence.

The king apparently had hoped to defuse the situation and satisfy popular demand with the dismissal of the hard-line government of former Prime Minister Marich Man Singh Shrestha but the Nepalese people immediately rejected that move and poured into the streets demand a multi-party system.

Nepali Congress Party leader Girija Prasad Koirala said Wednesday the democracy movement had not ended with the king's concessions, but had only been suspended. ''If the king does not agree to the demands, the movement would again be revived,'' he said. ''But this time it would be against the king.''

He explained that the Congress Party is not opposed to the monarchy, but that it seeks to limit the king's powers under the new multi-party system of government.

Foreign Minister Pashupati Shumsher Rana said Tuesday that King Birendra's powers would be changed ''according to the will of the people.''

Rana said the government is waiting for the opposition to send representatives to participate in a constitutional reforms commission that will determine the king's power, which has been absolute.

#90102u0382 04/12/1990 ~United Press International

(APRIL 12) UPI - If he keeps this up Mark Langston will be a bargain at any price.

The 29-year-old left-hander combined with Mike Witt Wednesday night to fire a no-hitter and lead the California Angels to a 1-0 victory over the Seattle Mariners.

Langston signed a five-year, $16 million contract with the Angels this

winter. He may make belivers of those who wondered if any baseball player was worth that kind of cash.

''It's just wild, I'm shocked,'' Langston said. ''I tried to envision the way my first game would go. Believe me what I pictured isn't close to the way it turned out.''

Langston, making his debut for California and pitching against his former teammates, left after 98 pitches through seven innings.

''I finally hit the wall after the seventh,'' he said. ''This early in the season I was fortunate to go seven.''

The Anaheim Stadium crowd booed when Langston failed to come out in the eighth inning. For the last three outs, the fans were on their feet, and the noise built to a crescendo as Witt struck out Ken Griffey, Jr. to end the game.

Langston walked four and struck out three. Witt pitched the last no-hitter for the Angels - a perfect game against Texas in 1984.

''I knew that Witt was the right guy to finish this one,'' Rader said. ''He's done it before. Witt's perfect game was the most dominating I have seen. I am very happy for both of them.''

The Angels scored in the seventh inning when Dante Bischette drew a bases-loaded walk.

Johnny ''Blue Moon'' Odom and Francisco Barrios of the Chicago White Sox combined on a no-hitter against Oakland in 1976. Odom pitched five innings and Barrios four in a 2-1 victory.

Witt made his first relief appearance since 1983, helping the Angels to their eighth no-hitter. Witt and Langston retired the last 14 Mariners in a row.

This was the first no-hitter in the majors since Tom Browning pitched a perfect game against the Dodgers on Sept. 16, 1988.

Seattle starter Erik Hanson scattered five hits over five innings before giving way to Gary Eave who walked in the winning run to take the loss.

''There was good pitching on both sides,'' Seattle Manager Jim Lefebvre said. ''Unfortunately it took a no-hitter to beat us. We just couldn't get anything going.''

Elsewhere in the AL, Boston edged Detroit 3-2, Minnesota blanked Oakland 3-0, Texas belted Toronto 11-5 and Kansas City defeated Baltimore 2-1. Bad

weather brought two postponements: Chicago at Milwaukee, New York at Cleveland.

In the National League, it was: New York 3, Pittsburgh 0; Montreal 6, St. Louis 4; San Francisco 8, Atlanta 0 (1st); Atlanta 4, San Francisco 3 (2nd); Cincinnati 5, Houston 0; and San Diego 3, Los Angeles 1. Philadelphia at Chicago was snowed out.

-- AROUND THE AL --

Red Sox 3, Tigers 2

At Boston, Dwight Evans singled just inside third base with two out in the 10th to score Wade Boggs, giving Boston a season-opening three-game sweep. Winner Greg Harris pitched the 10th. Jerry Don Gleaton was the loser.

Twins 3, Athletics 0

At Oakland, Calif., Kent Hrbek hit a first-innning home run and Kevin Tapani pitched six innings for only the third victory of his major-league career. Rick Aguilera earned the save. Oakland's Mike Norris, making his first major league appearance since 1983, pitched two innings of relief.

Rangers 11, Blue Jays 5

At Toronto, Pete Incaviglia delivered a two-run single and three-run homer for the Rangers. Texas scored five runs in each of the first two innings. Ruben Sierra had three hits and two RBI for the Rangers. The game was played before 35,031 fans, snapping a streak of 41 straight sellouts at the SkyDome.

Royals 2, Orioles 1

At Kansas City, Gerald Perry and Kevin Seitzer delivered consecutive run-scoring singles in the fifth inning. Five Kansas City pitchers combined for a five-hitter, with Mark Gubicza getting the victory. Jeff Ballard took the loss.

#90102u0385 04/12/1990 ~United Press International

NEW YORK (APRIL 12) UPI - A spurned lover charged with setting fire to the Happy Land social club, trapping 87 victims in a smoky blaze, pleaded innocent to 174 murder counts and was ordered back to a hospital psychiatric ward.

Julio Gonzalez, 36, a Cuban immigrant, was arraigned Wednesday before Justice Burton Roberts in state Supreme Court in the Bronx in the worst

mass slaying case in the continental United States.

Gonzalez, wearing a three-piece brown suit but no shirt, replied ''not guilty'' in Spanish to 87 counts of second-degree murder for showing ''depraved indifference to human life,'' and 87 counts of felony murder - arson where lives are lost.

He also was charged with one count of first-degree arson, one count of second-degree arson, one count of second-degree attempted murder and one count of first-degree assault. Authorities said Gonzalez had confessed to setting the fire.

Gonzalez was ordered returned to the psychiatric ward at Bellevue Hospital to await the next court hearing on April 25.

His court-appointed attorney, Richard Berne, said he would wait for further psychiatric evaluations before deciding on an insanity defense in the case.

''It would be up to the psychiatrist if he is deemed not criminally responsible,'' Berne said.

Authorities said Gonzalez dumped a dollar's worth of gasoline in the entrance of the illegal social club in a rundown section of the Bronx March 25 after quarreling with his girlfriend, Lydia Feliciano, 45, an employee at the club.

The club, jammed mostly with recent arrivals from Honduras, had no back exits, and its windows were barred when the blaze began about 3:40 a.m. that morning.

As the fire and smoke raced up the stairs to the second-floor club, most of the 87 died where they stood and only five people, including Feliciano, escaped.

The 25-minute court hearing Wednesday was quiet with few spectators and no outbursts.

''How do you plead?'' the court clerk asked the sad-faced Gonzalez, a former Cuban soldier who came to the United States during the Mariel Boatlift in 1980.

''No culpable,'' he replied in Spanish, which was translated by an interpreter.

Gonzalez apparently understood English, however, and nodded ''yes'' to questions about his name and that of his attorney before the interpreter could answer.

Roberts reminded Berne and Assistant District Attorney Eric Warner that New York law only allows multiple murder convictions to be served concurrently. This means Gonzalez would face 25 years to life if convicted.

The Happy Land club had been ordered closed in 1988 and the fire prompted a crackdown of illegal social clubs throughout the city.

#90102u0399 04/12/1990 ~United Press International

LONDON (APRIL 12) UPI - Customs agents, pending an arms expert's review Thursday, were preventing shipment to Iraq of a 40-yard-long gun barrel believed capable of firing nuclear or chemical warfare shells hundreds of miles, a Customs spokesman and other sources said.

It was the second time in less than two weeks that British authorities had moved against a weapon part bound for Baghdad. On March 29, British authorities charged three people with trying to smuggle 40 components of nuclear weapon triggers to Iraq.

The Customs spokesman said authorities had detained, but not seized, a ''consignment of goods which was going to be exported to Iraq.'' He said the shipment was believed to be a component for a huge gun and that authorities ''are making further inquiries.''

''This is a detention, not a seizure of goods,'' he said. Further action on whether the shipment would be allowed to leave for Iraq would depend on a review of the equipment by an arms expert Thursday.

One source, who spoke on the condition of anonymity, confirmed that the cargo included ''a part for a gun.'' He said the part was about 40 yards in length ''capable of firing a 1,000mm shell several hundreds of kilometers. In other words, a very powerful weapon.''

Such a weapon would be capable of firing conventional, nuclear or chemical shells, another source said.

Sources said the detained barrel was contained in eight crates of goods aboard a ship registered in the Bahamas and leased to the Iraqi Maritime Organization. The vessel arrived in England from Rotterdam in the Netherlands.

The shipment, scheduled to leave for Iraq this week, was detained at dockside in Teesport, in England's Midlands.

Sources said the weapon apparently was designed in Birmingham and forged in Sheffield. Customs officials visited locations in Birmingham and

Sheffield and ''seized some documents'' in the course of their investigations, a Customs spokesman said. ''A couple of people were interviewed,'' he said.

The Iraqi News Agency denied any weapons had been seized and said the ship's cargo consisted of steel pipes for a petrochemical project in Iraq, the British Broadcasting Corp. said.

The latest incident came less than three weeks after British authorities confiscated the nuclear trigger components and arrested four people in raids at London's Heathrow Airport. The arrests were the result of an 18-month investigation by U.S. and British agents.

One of the four people, an employee of the Iraqi state airlines, was deported and a second was released after questioning. The three others were charged in Britain with trying to smuggle the triggers to Iraq. Two of the three also were charged in San Diego.

U.S. and British officials expressed concern about the proliferation of nuclear technology after the incident, but Iraq denied it had tried to obtain restricted materials and accused Britain of mounting a slander campaign.

Several days later, Iraqi President Saddam Hussein threatened to wipe out half of Israel with chemical weapons if the Jewish state ever again tried to attack Iraqi targets such as when Israeli jets destroyed the nuclear reactor under construction in 1981.

His comments further heightened tensions between Baghdad and the West.

In a related development, NBC News, quoting U.S. intelligence sources, reported Wednesday that Iraq has developed deadly viruses and bacteria that could endanger Middle Eastern cities in a biological warfare attack.

NBC News said only Israel and a few Western nations know that Saddam's most potent offensive secret is his germ warfare arsenel. Quoting intelligence sources, the network said Iraq's germ laboratory is at a modern facility in Salman Pak, about 20 miles southeast of Baghdad.

According to intelligence sources, Western Europe sold Iraq the latest equipment to breed anthrax, thyphoid and cholera viruses, the network reported. The purchases exceeded the amount of equipment normally bought for scientific research during peacetime, NBC News said.

Israel is working on antidotes and vaccines to viruses and other microorganisms that Iraq might use, the network said. Israel also is training its population to use masks in case of chemical warfare.

-30- 4493
#90102u0420 04/12/1990 ~United Press International
SEATTLE (APRIL 12) UPI - Boeing and three Japanese companies are expected to sign an agreement this week for joint development of the new Boeing 777 jetliner, a published report said Thursday.

The announcement, which could come as soon as Friday in Seattle, could include some equity participation for the Japanese, but sources familiar with both sides of the negotiatins said terms of the deal are not complete the Seattle Post-Intelligencer reported.

A Japanese newspaper reported that Mitsubishi Heavy Industries, Kawasaki Heavy Industries and Fuji Heavy Industries will take part in all aspects of producing the 300-seat twin jet, from design to marketing.

''We're continuing to hold discussions with the three Japanese companies, but we aren't going to speculate on what the outcome of the negotiations will be,'' said Boeing spokesman Dick Schleh.

''We have covered a wide range of possibilities from conventional subcontracting up to some equity participation and various kinds of participation in between,'' Schleh added.

Japanese firms working as subcontractors have produced parts for Boeing planes, but do not sink money into development or share in profits. The Japanese have been subcontractors to Boeing for 20 years.

Now, as they look to become major players in the global aviation market, they are said to want closer involvement with new aircraft. Industry watchers have said Boeing has tried through negotiations to give away as little equity as possible.

''Japan wanted equity, and Boeing wasn't going to give it to them,'' said one industry insider. ''Japan wants to move up the skill ladder, but in general Boeing doesn't want the Japanese to learn too much, and that was a whole set of negotiations.''

Traditionally, Boeing has preferred to pay for the development of new planes on its own and to subcontract out the manufacture of relatively simple parts, such as fuselage sections. More critical components such as the wings, are made in house.

It will cost an estimated $3 billion to $4 billion to get the new jetliner into production.

Whatever form it takes, the 777 deal has already triggered concern that Boeing may be giving away expertise that will allow the Japanese one day

to threaten its market domination.

''Boeing has to be very careful with this,'' said Kevin Kearns, a former State Department official and fellow with the Economic Strategy Institute in Washington, D.C.

''The Japanese in partnership with Boeing are taking a back-door approach into the market until they feel comfortable enough that they can come in the front door.''

Others believe that Boeing is wise to take part in international development efforts because it will place the company in a strong position as the industry becomes more global.

''As the world moves increasingly toward cooperative ventures, every nation must learn the rules and responsibilities of a two-way traffic pattern,'' said Rep. Robert Roe, D-N.J, who chairs the U.S. House Committee on Science, Space and Technology in a statement released from his office.

''Fundamentally, in cooperative agreements the guiding principle must always be that you gain something as well as give something,'' he said. ''This holds true for agreements with the Japanese as well as any other country.''

Roe chaired congressional hearings recently on the FSX, a fighter jet being developed jointly by the United States and Japan.

Schleh said Boeing wants to work with the Japanese to benefit from their skill and expertise, to encourage them to buy planes and to discourage them from working with competitor Airbus Industrie in Europe.

#90102u0429 04/12/1990 ~United Press International

(APRIL 12) UPI - The cold weather that forced the cancellation of major league baseball in Chicago and Cleveland chilled the Midwest early Thursday, and the Middle Atlantic region bore up under more rain and snow.

The National Weather Service said the wintry cold spell over the Great Lakes states continued Thursday, with snow falling over parts of Michigan and temperatures dipping to 29 degrees under clear skies in Milwaukee.

Chicago fell to 33 degrees under cloudy ckies, while most of the rest of Illinois was colder. The frigid weather forced the postponement of a baseball game Wednesday between the Chicago Cubs and the Philadelphia Phillies.

In Cleveland, a game between the Indians and the New York Yankees was snowed out Wednesday, the second straight day inclement weather knocked out the season-opening game. Tuesday's scheduled opener was canceled because of rain.

Missouri reported clear skies and readings in the 30s.

Most of New England began to dry off from recent precipitation, but snow was just ending in northern Maine Thursday after a day in which the skies dropped 6 inches of snow.

New England temperatures were in the 20s and 30s. A low pressure system over the region began drifting into Canada.

Temperature lows in the 20s and 30s were reported throughout the mid-Atlantic region.

Rain and snow fell over parts of Maryland, Pennsylvania and West Virginia, with up to an inch of accumulation reported in western areas of Pennsylvania. Eastern Pennsylvania and southern New Jersey were cloudy.

In the South, high pressure cleared skies, but temperatures plummeted. Freeze warnings were posted in North Carolina, Georgia and Alabama, and frost was expected in Mississippi. Temperatures ranged from 41 in Knoxville, Tenn.; 43 in Atlanta; 53 in Charleston, S.C. and Jacksonville, Fla., and 71 in Miami.

Most of Texas, New Mexico and southern Oklahoma enjoyed fair skies and mild temperatures. Northern Oklahoma was mostly cloudy, but brisk winds that plagued the area earlier had diminished and temperatures were only as low as the 40s.

Winds also diminished across Arkansas, but the weather service issued a freeze warning for northwest and north central sections of the state.

High pressure off the Northern California coast meant an unseasonably mild night for Western states, except for western Washington, which had showers.

Highs in the 80s were expected in much of California, Nevada and Arizona.

BEIRUT, Lebanon (APRIL 12) UPI - Lebanese gunmen shelled a position of the Israeli-backed South Lebanon Army Thursday, killing one SLA member and wounding another, security sources said.

The sources said the guerrillas fired several rockets from territory

outside the Israeli-proclaimed ''security zone,'' hitting an SLA camp near the frontier village of Bramiyeh.

One SLA soldier was killed and another was wounded, the sources said. Pro-Israeli artillerymen retaliated and bombarded the village of Zabkine, 5 miles north of Israel, they said.

Israel established the security zone, which runs up to 9 miles along the border, in 1985 to try combat guerrilla attacks.

HONG KONG (APRIL 12) UPI - A ferry carrying about 500 morning rush-hour commuters between Kowloon and Hong Kong island crashed while trying to dock Thursday, injuring 21 people, officials said.

The Meridian Star, one of 14 vessels under the Star Ferry flag, was crowded with about 500 passengers when it hit a pole then rammed the dock while attempting to land on the Hong Kong side of the harbor, Marine Police said.

Officials said passengers were flung from their seats on impact and 21 people were injured. A 69-year-old woman required hospitalization.

The accident occurred about 8:45 a.m., at the height of the morning rush hour and Marine Police said they were investigating the cause of the crash.

The Star Ferry, whose old-fashioned vessels make hundreds of daily crossings between the British colony's two main business districts of Kowloon and Hong Kong island, carried about 40 million passengers last year.

Tourism officials said the six-minute ride across Hong Kong's famous harbor is the most popular attraction for visitors to the British colony.

BANGKOK, Thailand (APRIL 12) UPI - Vietnam urged the United States to normalize relations with Hanoi to match the desire of the U.S. businessmen to economically revive the war-torn country, official Radio Hanoi said.

The official radio, monitored in Bangkok late Wednesday, said Vietnam has improved its relations with Western countries except the United States since Hanoi announced its last troops left Cambodia in September after 10 years.

''Even with the United States, though there (are) no official relations, the two countries have cooperation at high levels which gained initial results,'' the radio said.

It said U.S. businessmen and congressmen want the United States to consider normalization with Vietnam in order to participate in petroleum investment, construction, tourism and trade with Vietnam.

''It is clear that improving Vietnam-U.S. relations conforms to the aspiration of public opinion in both countries. This is also the trend of development in the world: Dialogue peace and cooperation are better than confrontation and tension,'' the radio said.

The United States imposed an economic embargo to North Vietnam in 1964 and extended it to the entire nation when the communists of North Vietnam took the whole country in 1975.

Washington wants Vietnam to use its influence over the Phnom Penh government to settle the 11-year-old Cambodian conflict.

The radio, however, criticized the recent statement of U.S. Assistant Secertary of States Richard Solomon that he doubts Vietanamese troop have withdrawn from Cambodia.

It said other nations have said Vietnam has removed its troops from Cambodia.

''Does (Solomon) want to prevent the tendency for normalization of relations with Vietnam of several political circles in the United States?'' it said. ''If this is right, Mr. Solomon is running counter to the aspiration of the American people, businessmen and many congressmen.''

#90102u0460 04/12/1990 ~United Press International

MANILA, Philippines (APRIL 12) UPI - Thousands of Filipinos, re-enacting the agony of Jesus Christ, dragged heavy wooden crosses and flogged their bare backs with glass-studded whips Thursday in grisly Lenten rituals.

At least 12 people were scheduled to be nailed to crosses on Good Friday, including 10 men in a farming village near the U.S. Clark Air Base, to climax the yearly spectacle.

Roman Catholic Church officials in the Philippines have described the bloody Easter rituals as ''ridiculous,'' but the faithful in Asia's only Christian nation continue to bring pain and suffering on themselves in hopes of redemption.

Throughout the country Thursday, thousands of penitents trudged barefoot through dusty streets under a scorching sun, whipping their backs with glass-studded bamboo sticks as a sign of remorse for their sins.

Many dragged huge wooden crosses or carried beautifully decorated statues of Christ. Some wore crowns of thorns, velvet robes and hoods.

The bloody scene was repeated in the capital's slum areas and in jails where inmates, hoping their sentences will be commuted, slash their tatooed backs with razors and flog themselves with whips.

Other penitents visit 14 churches in Manila, symbolizing the stations of the cross along Jesus' journey to Calvary for his crucifixion nearly 2,000 years ago. They walk on their knees from the church entrance to the altar.

The annual Good Friday crucifixions will take place at 3 p.m. on a hill at the center of a rice field in San Pedro Cutud, 50 miles north of Manila. Organizers said the penitents they will be hoisted on 15-foot crosses, with 5-inch steel nails hammered into their hands.

Two others, including a woman, were expected to be crucified in nearby Bulacan Province.

Refreshment stands have mushroomed overnight in San Pedro Cutud in anticipation of the thousands of local and foreign tourists expected to witness the real-life crucifixions.

Historians say the bloody tradition of self-flagellation and crucifixion can be traced back to a combination of pagan practices and Catholicism introduced into the Philippines by 16th century Spanish friars.

Mario Castro, 40, this years ''main Christ,'' is a 10-year veteran of the bloody ritual. He pledged 11 years ago to have himself nailed to a cross until his ailing daughter was cured. He said this would be his final crucifixion because his daughter has regained her health.

The other ''Christs'' are asking similar favors, except for Benjamin Enajue, a house painter, who will have himself nailed to a cross to give thanks for having survived a fall from the third floor of a building.

#90102u0534 04/12/1990 ~United Press International

BEIJING (APRIL 12) UPI - The Foreign Ministry Thursday denied knowledge of an official announcement banning foreign travel to a remote northwest province where troops reportedly were sent to quell rioting by ethnic Moslems.

Pleading ignorance, a Foreign Ministry official refused to confirm or deny recent foreign news reports of ethnic unrest in Xinjiang province, China's westernmost territory, which borders restive Soviet Asian republics.

''I'm not clear about the situation so I have no information,'' said Foreign Ministry spokeswoman Li Jinhua at a news breifing.

Li was asked why foreign travel agencies, tourists and journalists have been told by China International Travel Service and local provincial authorities that no foreign travel is permitted to Xinjiang's southwest border region and said she was not aware of the restriction.

''I have not heard of that announcement,'' Li said.

Foreign travel to the entire Nanjiang region along the Soviet, Afghanistan and Pakistan border was banned days after Chinese sources said troops were flown in to the southwest to put down violent riots by hundreds of ethnic Moslems.

The riots occurred near Kashgar, a western city about 150 miles from the Soviet border, the sources said. The unrest broke out over local restrictions on religious activity, according to a foreign diplomat who requested anonymity.

China had recently announced new regulations limiting the number of mosques and Islamic schools in Xinjiang, presumably to guard against the possible influence of growing religious fundamentalism and separatism in nearby regions of Soviet Central Asia.

Casualties among local minorities as well as several Chinese officials sent in to mediate have been reported by foreign travelers who spoke to ethnic Moslems in Urumqi, the Xinjiang provincial capital, but the reports could not be confirmed.

About half the 15 million people in arid, impoverished Xinjiang province are Moslems, including Kazakhs, Kirkghiz, and Turkic Uighurs with close ethnic ties to restive minorities in the Soviet Union.

Kashgar was the scene of violent anti-Chinese demonstrations during the 1980s. Xinjiang provincial officials have recently warned of increased unrest by saboteurs backed by ''hostile foreign forces.''

Asked by foreign reporters whether foreign countries were involved in the recent disturbances, Li said ''I don't know which riot you are referring to.''

Li said she had ''never heard of'' recent reports by numerous foreign news agencies regarding rioting in Xinjiang, and said foreign journalists must

abide by existing regulations governing travel in China.

#90102u0614 04/12/1990 ~United Press International

LONDON (APRIL 12) UPI - The longest prison riot in Britain this century entered its 12th day Thursday and the man who said he instigated the disturbance told his lawyer he will surrender soon.

Paul Taylor, the ringleader of the about 15 inmates still occupying Manchester's Strangeways Prison, will end his protest in ''the next day or so,'' lawyer John Ballam said late Wednesday after he and Taylor spoke through a prison gate.

The inmate has often been seen on the roof of the Victorian-era prison and has shouted at prison officials and reporters through a makeshift megaphone.

The Home Office said Thursday several fires were set at the prison Wednesday night, but the blazes were extinguished by fire brigades before getting out of control. No injuries were reported.

Three inmates quickly ended their renewed protest at western England's Dartmoor Prison Wednesday, retreating to their cells after several hours on the roof of a prison wing. A man died in a fire in his cell during an uprising at the facility earlier this week.

The Home Office said three prisoners at Strangeways, where the prison riots began, gave up Wednesday morning and another three surrendered in the afternoon, leaving fewer than 15 holding the central rotunda from which they can control access to the Victorian-era jail's five main wings.

''We are scaling it down and are hopeful that they will all come out soon '' an official said. ''There are only a handful left.''

Authorities have been using loud music, swooping helicopters and other intimidatory tactics to try to break the resolve of the die-hard inmates.

Rebel prisoners emerging onto the roof of the facility waved food at guards to show they had supplies to sustain them, and are reported to have defended their areas to ensure any advancing force would suffer casualties.

A Scottish Office spokesman said prison officer Jim Rankin, 30, ''needed medical attention'' for what appeared to be minor injuries after he was released by rebellious prisoners in a minimum-security wing of Shots Prison.

Rankin was seized during an uprising late Tuesday at Shots, near Glasgow, 400 miles north of London.

About 40 prisoners at the new, model jail overwhelmed guards, wounding two people, and occupied the top two floors of their wing of the five-block prison, officials said.

Officials negotiated with inmates for the release of Rankin.

''The prisoners have made no demands, therefore we do not know why they have chosen this course of action. It is not overcrowded and it is a comparatively new prison ... regarded as a showpiece prison built in 1978 '' a Shots official said before his release.

The Shots uprising is the first in which a guard has been captured since the beginning of the string of disturbances that have rocked Britain's jail system since April 1.

Nine facilities including Shots have been affected by the subsequent agitation, staged to show solidarity with the Strangeways inmates and protest crowded conditions.

Two prisoners have died and dozens of inmates and guards have been wounded in the disturbances, which also have resulted in severe damage.

A memorial service was conducted Wednesday by Strangeways Chaplin Noel Proctor for a prison officer who died following a heart attack he suffered while duty during the initial uprising at the prison in Manchester, 200 miles northwest of London.

Proctor, his eye black from a blow during the conflict, said the prison had been demolished and many men were wounded.

''We've also been hurt spiritually as the attack of the powers of evil has bombarded us, leaving scars and wounds in everyone of our lives which will take a long time to heal.''

Britain has the highest per capita prison population in Europe, and the uprisings have prompted calls for an overhaul of the system.

CALCUTTA, INDIA (APRIL 12) UPI - Nobel laureate Mother Teresa affirmed Thursday that her poor health and advanced age prompted her to ask to be relieved as head of the charitable order she founded some 40 years ago, saying ''nobody is indispensible in this world.''

''I want to resign because of my failing health and growing age,'' the 79-year-old Roman Catholic nun told United Press International in a telephone interview hours after first declining to comment on a Vatican announcement Wednesday that her wish had been granted by Pope John Paul II.

''I sought the permission of the holy father some time ago to resign, but I do not remember the date,'' said Mother Teresa, who won the 1979 Nobel Peace Prize for the work performed for the destitute and dying by her Missionaries of Charity order.

Mother Teresa, who has suffered coronary problems for several years, in September was hospitalized in Calcutta after her condition deteriorated. She was released more than a month later with doctors hoping to control her ailment with drugs.

But she was readmitted Nov. 29 suffering from giddiness and an irregular heart beat. Two days later, surgeons implanted a pacemaker next to her heart.

Doctors advised her to restrict her activities.

But despite the warning, Mother Teresa resumed her busy life, saying in a meeting last month with Palestine Liberation Organization chairman Yasser Arafat that she planned to visit Jerusalem and Bethlehem later this year.

In the interview, she did not say if she intended to go ahead with the trip.

She was asked what would happen to the nuns of the order that has grown from humble beginnings in the teeming slums of Calcutta to more than 400 facilities in 92 countries.

''God will look after them and God will provide,'' she replied.

''My sisters are well established all over the world and they can carry on the activities of the Missionaries of Charity in my absence,'' Mother Teresa said. ''Nobody is indispensible in this world.''

Mother Teresa declined to reveal when she would leave office or what she would do after that.

''I cannot say anything now. One thing at a time. I am now waiting for the holy father's advice,'' she said.

The diminutive nun was born of Albanian parents in what is now Yugoslavia and came to India in 1929.

She founded the Missionaries of Charity in 1950 to help the poorest of poor in Calcutta, India's most populous city, 845 miles southeast of New Delhi.

#90102u0678 04/12/1990 ~United Press International

WASHINGTON (APRIL 12) UPI - U.S. retail sales plunged by 0.6 percent in March for the second straight monthly decline in more than three years, the Commerce Department said Thursday.

The decrease was the largest monthly drop since a 1.4 percent fall last October and provides further evidence that America's economy is bumbling along.

All businesses reported a decline in sales except for food stores, which recorded a 0.2 percent increase last month, according to the report by the department's Census Bureau.

The 0.6 decline in March and a 0.3 percent decline in February are the first two consecutive monthly decreases since October and November 1986 when sales were off by 4.6 percent and 0.5 percent, department said.

Total sales for the month stood at $148.6 billion after hitting $149.5 billion in February and $149.9 billion in January.

Sales of durable goods - expensive items made to last three or more years - fell by 0.8 percent in March, while sales of non-durable goods dropped by 0.5 percent, the Commerce Department said.

March sales at automotive dealers were off by 1.4 percent after a 7.2 percent collapse in sales in February. In January, sales of cars, trucks and vans zoomed by 10.2 percent, as dealers offered incentives to clear

their lots of 1989 leftovers - and helped push total retail sales up by 8.2 percent.

In a related area, March sales at gasoline service stations plunged by 1.7 percent.

Excluding autos, March retail sales were off by 0.4 percent, the government report said.

All the figures are adjusted to reflect seasonal factors.

Although there was a 0.2 percent increase in sales at food stores last month, restaurants and bars saw their retail business drop by 1.5 percent in March, the Commerce Department said.

In other categories, March retail sales were off by 0.8 percent at building materials and hardware stores, down by 0.1 percent at furniture stores, off by 0.8 percent at department stores, down by 0.5 percent at clothing stores, and off by 0.9 percent at drug stores.

#90102u0694 04/12/1990 ~United Press International

(APRIL 12) UPI - Prices on the Tokyo Stock Exchange closed mixed Thursday in modest trading.

The blue-chip Nikkei Average of 225 selected issues, which lost 184.40 points Wednesday, recovered 182.92 points to 29,623.20.

The broader-based Tokyo Stock Exchange Index of all listed major shares, however, slipped 1.96 points to 2,183.34.

An estimated 430 million shares changed hands, compared with 506 million shares Wednesday.

Declines outnumbered advances 512 to 419, while 170 issues remained unchanged.

Elsewhere in Asia, prices closed higher in heavy trading on the Hong Kong Stock Exchange as bargain hunters focused on blue chips.

The key Hang Seng Index, which gained 17.65 points Wednesday, surged 35.71 points, or 1.2 percent to 2,995.69.

Utilities climbed 60.46 points, financials slipped 9.06, industrials rose 47.07 and properties closed up 53.60 points.

Turnover amounted to 1.31 billion shares, well above the 957 million

shares traded Wednesday.

The Hong Kong markets will be closed Friday for the Easter holiday. Trading will resume Tuesday.

In Singapore, prices closed mixed on the Singapore Stock Exchange in light trading.

The blue-chip Straits Times Industrial Index, which gained 3.80 points on Wednesday, added 2.71 points to 1,525.22. The narrower All Singapore Index slipped 0.18 points to 419.45.

Turnover amounted to 57.2 million shares, compared with 61.5 million shares Wednesday.

Singapore markets will be closed Friday, for the Easter holiday. Trading will resume Monday.

In Australia, prices closed lower in thin pre-holiday trading on the Sydney Sharemarket.

The key All Ordinaries Index, which lost 5.2 points Wednesday, lost 7.2 points to 1,498.6. The All Industrials fell 4.5 points to 2,316.6 and the All Resources Index lost 5.5 points to 875.7.

Turnover amounted to 81.7 million shares, compared with 70.7 million shares Wednesday.

The Sydney Sharemarket will be closed Friday for the Easter holiday. Trading will resume Monday.

#90102u0725 04/12/1990 ~United Press International

(APRIL 12) UPI - NATO and the United States reject a Soviet plan for a unified Germany's military alliances... that story and other top news of the morning from the wires of United Press International.

Soviet Foreign Minister Shevardnadze has outlined... in detail... what the Soviets will accept in terms of a unified Germany's military alliances.

The Soviet official says a unified Germany could remain in NATO and the Warsaw Pact under a new European security system. Shevardnadze's proposal includes a War Risk Reduction Center in Berlin and perhaps a ''minor inter-bloc peacekeeping force.''

Some NATO observers say Shevardnadze's proposal is the most intricate plan yet for a post-Cold War security system. But NATO officials say they are NOT considering it. A spokesman for the Atlantic alliance notes the allies already have said a unified Germany should be in NATO.

In Washington, White House news secretary Marlin Fitzwater read a statement rejecting the proposal. The White House statement says the suggestion that Germany be in both NATO and the Warsaw Pact is- quoting it now- ''undesirable.''

And the State Department flatly ruled out the proposal. State Department spokeswoman Margaret Tutwiler said it's ''another form of neutrality which the Germans themselves, their neighbors and the Soviet Union regard as undesirable.''

Shevardnadze's plan is an article he wrote for the May issue of the magazine NATO's 16 Nations. The magazine is aimed at NATO officials but is privately funded and published.

#90102u0729 04/12/1990 ~United Press International

(APRIL 12) UPI - British officials are satisfied that the international drug summit they co-sponsored with the United Nations has led to some concrete ideas of how to combat the global narcotics problem.

The 112-nation conference concluded yesterday in London with the adoption of a 35-point platform that outlines measures to slash drug demand as well as to attack drug-production at its source.

British Home Office minister David Mellor described yesterday's outcome as ''a statement that goes into some detail.''

One of the key points agreed upon by delegates was greater co-operation to detect and stop drug trafficking and drug-money laundering.

Delegates also spent the final day of the three-day get-together focusing on the link between transmission of the AIDS virus and needle-sharing by intravenous drug abusers.

In order to prevent the spread of AIDS, the conference O-K'd endorsing needle exchange programs that do NOT promote drug use.

Colombian authorities blame drug cartels for a massive car bomb blast yesterday along a busy highway near Medellin.

The explosion killed 14 people and wounded more than 100 others.

Investigators say the device was likely detonated by remote control, citing that it was triggered as an elite police force rode by. Eight of those killed by the blast were police officers.

Two weeks ago, drug traffickers launched a campaign to assassinate members of the Medellin force. Since the violent campaign began, 20 security agents have been killed.

An American witness to the carnage compared it to what he saw during one year in Vietnam. David Thompson said the blast was caused by at least one-half ton of dynamite.

Government officials could NOT confirm Thompson's estimate.

President Barco deplored the bloodshed, saying it was caused by people without ''any social sensibility.''

-30- 2036

#90102u0734 04/12/1990 ~United Press International

(APRIL 12) UPI - A weapon part headed for Iraq has been intercepted in Britain... marking the second such seizure in two weeks by British customs agents.

British customs agents yesterday detained a 40-yard-long gun barrel believed to be capable of firing nuclear or chemical warfare shells hundreds of miles. Less than two weeks ago, British authorities charged three people with trying to smuggle 40 components of U-S-built nuclear weapon triggers to Iraq.

Sources say the gun barrel apparently was designed in Birmingham, England, and made in Sheffield. Sources say the detained barrel was aboard a ship registered in the Bahamas and leased to the Iraqi Maritime Organization.

The shipment, which was scheduled to leave for Iraq this week, was detained at dockside in Teesport, in England's Midlands.

The Iraqi News Agency denies that any weapons had been seized. It says the ship's cargo consisted of steel pipes for a petrochemical project in Iraq.

In a related development, there's a report that U-S intelligence sources believe Iraq has developed deadly viruses and bacteria that could be used in biological warfare.

Iraqi President Hussein leads the most experienced combat forces in the Middle East and already has threatened to use missiles armed with chemical warheads against Israel.

Intelligence sources say western Europe sold Iraq the latest equipment to breed anthrax, thyphoid and cholera viruses.

The report says the Center for Disease Control- a U-S government agency- unwittingly sent some of the world's deadliest viruses to Iraq and four other nations known to be conducting germ warfare research.

Israel is working on antidotes and vaccines.

-30- 1865

#90102u0755 04/12/1990 ~United Press International

(APRIL 12) UPI - The Northrop Corporation is refusing comment concerning yesterday's announcement by the Justice Department of a lawsuit accusing the defense contracting giant of bilking taxpayers out of Millions of dollars.

In announcing the legal action, the government joins a so-called ''whistleblower'' suit filed by former Northrop executive Eldon Janssen.

Six months after he was fired from his job as a contracts manager, Janssen accused Northrop of cheating the government by NOT disclosing a new, cheaper production process regarding its work on a Navy jet.

The Justice Department estimates damages in the Millions of dollars. A verdict against Northrop would make it liable for triple damages and huge penalties under the False Claims Act.

Yesterday's legal action is the latest in a string of negative publicity for Northrop. In February it paid a 17-Million-dollar fine after pleading guilty to 34 counts of criminal fraud.

A vigil for a teen-ager shot by police turned into a brawl last night in Teaneck, New Jersey.

The violence was outside the Teaneck Municipal Building, which houses the

police station. About one-thousand mourners marched to the building for a vigil and ceremony commemorating the death of 15-year-old Philip Pannel.

Mourners overturned and smashed patrol cars, screamed taunts at police and chanted ''Stop the killing now.'' Several people threw stones and a garbage can through the windows of the building complex.

Uniformed white police officers shot Pannel, of River Edge, in the back Tuesday evening as he left Tryon Park.

Teaneck Police Chief Bryan Burke says police recovered a revolver from the teen-ager and made several attempts to stop him before they fired. It is NOT clear whether the pistol had been drawn, found on Pannel or found nearby.

Teaneck, about 10 miles west of New York City, is a predominantly white, upper-middle class suburb with pockets of urban poor.

#90102u0777 04/12/1990 ~United Press International

TOKYO (APRIL 12) UPI - Paced by shrinking imbalance with the United States and Western Europe, Japan's global merchandise trade surplus in fiscal 1989 declined 24.3 percent to $59.68 billion in a turnaround from the preceding year's growth, the Finance Ministry reported Thursday.

The ministry, in a preliminary report on the fiscal year which ended March 31, said Japan's imbalance with the United States shrank 12.7 percent to $42.75 billion for the third straight year-to-year fall.

But Japan's surplus with the United States still accounted for 71.6 percent of its total surplus, up from 62.1 percent in the previous year.

''Sluggish exports of automobiles to the United States as a result of expansion of local production contributed to the decrease in bilateral imbalance,'' said a ministry official.

Japan's surplus with the European Community fell 14.0 percent to $19.21 billion, the ministry said.

''Overall, a steady increase in imports of finished products, coupled with rising crude oil prices, was a major contributing factor for the shrinkage of Japan's surplus,'' said the ministry official.

Japan's global exports grew a modest 0.3 percent to $273.64 billion while its imports jumped 10.3 percent to $213.96 billion, leaving $59.78 billion in the black, the ministry report showed.

In yen terms, exports increased 11.3 percent to 38.88 trillion yen while imports soared 22.4 percent to 30.38 trillion yen, producing a surplus of 8.5 trillion yen.

The value of Japanese exports of transport machinery, including motor vehicles and motorcycles, decreased 0.2 percent to $67.07 billion but still accounted for 24.5 percent of Japan's total exports.

Exports of electric and electronic equipment, including TV sets and video tape recorders, declined 1.7 percent to $63.2 billion but those of electronic devices such as integrated circuits grew 11.0 percent to $8.07 billion, the ministry said.

Japan's imports of furniture from the United States soared 87.9 percent to $173.77 million while those of metal and metal products climbed 28.7 percent to $2.44 billion. Imports of machinery including aircraft surged 25.5 percent to $15.71 billion.

Japan's trade deficit with Australia increased 17.0 percent to $4.13 billion with exports rising 3.5 percent to $7.5 billion and imports, mostly primary products and dairy goods, climbing 8.3 percent to $11.66 billion.

Japan's surplus with the six-nation Association of Southeast Asian Nations stood at $530 million, compared with a deficit of $483.35 million in 1988, the ministry said.

Japan's exports to the region climbed 18.3 percent to $26.81 billion while imports increased 13.6 percent to $26.28 billion, it said.

Japan posted a $122.18 million surplus in its trade with Latin America, sharply down from $1.1 billion in the previous year. Exports declined 3.7 percent to $9.14 billion while imports grew 7.1 percent to $9 billion, the ministry said.

#90102u0799 04/12/1990 ~United Press International

SINGAPORE (APRIL 12) UPI - A U.S. congressional delegation visiting Singapore Thursday warned the Philippine government that alternative sites will be available ''if the price is too high'' to renew leases on critical military bases there.

Rep. Patricia Schroeder, D-Colo., welcomed Prime Minister Lee Kuan Yew's offer to allow the United States to expand its use of aviation and port facilities in Singapore.

''The United States can protect its interests in the region without all

the facilities we now utilize in the Philippines,'' she said.

Prior to departing for Bangkok, Schroeder, who was leading the delegation on the five-nation tour, said, ''We would prefer to stay in the Philippines. But if that becomes impossible or too expensive, the United States will not, in any way, be weakened by having to leave.''

Exploratory talks to determine whether to hold formal negotiations on the future of giant Clark Air Base and Subic Bay Naval complex - Washington's oldest and largest overseas facilities - are to begin May 14 in Manila amid mounting pressure against their continued presence.

Richard Solomon, U.S. assistant secretary for East Asian and Pacific Affairs, met with President Corazon Aquino in Manila Wednesday and said the United States anticipates constructive negotiations on the fate of the installations.

He was the first U.S. official to meet with Aquino after her highly publicized snub of Defense Secretary Richard Cheney in February.

''We hope the negotiations go well,'' said Schroeder, head of the subcommittee on military installations of the House Armed Services Committee.

After inspecting facilities on Guam and touring Singapore's Paya Lebar Air Base and port facilities, Schroeder said, ''We have surplus capacity in Guam and in Japan. Singapore has excellent shipping facilities. While we could not duplicate Subic Bay at one site, it could be duplicated by using several locations.''

Underscoring her stand was Rep. David Martin, R-N.Y.

''If the price is too high to remain in the Philippines, we will find alternatives,'' Martin said. ''If the Filipinos are listening, they ought to understand we are serious.''

The group's talks with Lee and other Singapore officials were aimed at obtaining their views on the security needs of the Southeast Asian region, Schroeder said.

''We play a role here that is a balancing act,'' Martin said. In addition to maintaining security in the Asia-Pacific region, ''it is in our interest to be here as the Pacific emerges into the place where the action is economically.''

Singapore sparked criticism from its neighbors last year by offering to host U.S. military facilities to ease the burden on the Philippines.

Both Malaysian and Indonesian officials feared the overture could thwart their goal of turning Southeast Asia into a nuclear free zone and potentially upset the balance of power in the region. Lee stressed Singapore's proposal only meant increased use of maintenance and repair facilities by U.S. naval vessels and aircraft and a hike in American support staff.

Indonesian and Malaysian Foreign Ministry spokesmen said they had no objections to that plan provided it was not expanded.

Since any new agreement on the bases needs the approval of the Philippine Senate, where anti-bases sentiment is strong, Schroeder said her delegation's tour ''was meant to try and make sure the U.S. did not get caught short if it had to pull out on short notice.'' The United States could be ejected on one year's notice if the leases are not renewed.

Philippine officials have said they will ask during the preparatory talks for an explanation for a $96 million shortfall in U.S. aid levels to Manila this year in exchange for the use of the bases. The shortfall has prompted calls among Filipinos to end the treaty.

The United States rented Subic Bay, a repair facility for the 7th Fleet, and Clark, home of the 13th Air Force, for $900 million until 1991. The installations are home to about 17,000 servicemen, 23,000 dependents and employ about 68,000 Filipinos.

The congressional delegation's 10-day trip includes stops in Thailand, Vietnam, Cambodia and Indonesia. The group was awaiting clearance to visit Vietnam's Cam Ranh Bay, where the Soviet Union has reduced its forces.

Also accompanying Schroeder were Rep. Jim Courter, R-N.J., Rep. Norman Sisisky, D-Va., Rep. Larry Hopkins, R-Ky., Rep. James Hansen, R-Utah. and Rep. Ben Blaz, a Republican from Guam.

#90102u0874 04/12/1990 ~United Press International
CAPE CANAVERAL, Fla. (APRIL 12) UPI - NASA managers Thursday decided to replace a faulty hydraulic power device aboard the shuttle Discovery, delaying the launch of the $1.5 billion Hubble Space Telescope until around April 25, souces said.

Along with postponing the long-awaited debut of the space telescope more than two weeks, the malfunction Tuesday that grounded Discovery at the last minute also could foul up NASA's already tight launch schedule.

''We've got a real donnybrook on our hands to get to the 25th or 26th,'' said one NASA official who asked not to be named.

Discovery and its five-member crew were grounded Tuesday just four minutes before the shuttle's planned launching when one of three auxiliary power units malfunctioned. The APUs provide the hydraulic power to move the shuttle's wing flaps, rudder and rocket nozzles for steering during launch.

The suspect APUs computer control unit was removed Wednesday and flown by T-38 jet to APU-builder Sunstrand Corp. in Rockford, Ill., for an analysis ''on the off chance it may be something in the circuitry inside the controller,'' an official said.

Early Thursday, the verdict was in: the control computer performed properly, leaving NASA no choice but to replace the auxiliary power unit, a complex job never before attempted at the launch pad.

''We're off to no earlier than the 25th (of April),'' said a NASA official.

The unexpected work threatens to delay the May 9 flight of the shuttle Columbia on a Spacelab astronomy mission.

While that mission already was facing the possibility of a slight delay for other reasons, additional problems could ruin Columbia's chances of getting airborne Aug. 29 on a Spacelab biomedical mission.

Compounding NASA's problems, repairing Discovery could use up time needed to ready the ship for its next mission, a high-priority October flight to launch the European-built Ulysses probe to the sun by way of Jupiter.

''This is the most screwed up situation I've been involved in since I've been here,'' said one official. ''It's unbelievable how this one (malfunction Tuesday) could cause all this.''

Space telescope engineers, meanwhile, were unsure about how to go about recharging the costly instrument's high-tech nickel-hydrogen batteries without putting the telescope at risk of contamination or other damage.

Two options were under debate Wednesday: removing the powerpacks and doing the work elsewhere or recharging them in place.

Discovery's disappointed astronauts, who originally had planned to release the space telescope into orbit Wednesday, instead flew back to the Johnson Space Center in Houston for additional training and to await word on when they will get a second chance to blast off.

''The most likely thing we hear ... is we're looking somewhere between a week and two weeks in the turnaround,'' said shuttle skipper Loren Shriver. ''There's an outside possibility they might be able to cut a few days out of that.''

Shriver and his crewmates - co-pilot Charles Bolden, 43, Steven Hawley, 38 Bruce McCandless, 52, and Kathryn Sullivan, 38 - then boarded T-38 jet trainers and departed for Houston.

NASA is anxious to launch Discovery as soon as possible to get the long-delayed space telescope into orbit and also to clear the way for post-flight modifications required to get the shuttle ready for its crucial October mission to send the Ulysses probe to the sun.

Ulysses must be launched within a three-week period beginning Oct. 5 or the flight will be delayed about one year while Jupiter returns to a favorable position. Because the spacecraft is equipped with a plutonium-powered nuclear generator, Discovery must be equipped with a special cooling system.

That work is scheduled to begin as soon as the shuttle returns from the space telescope mission and the ''drop dead'' date for getting Discovery into space without impacting the work is April 27, although that date is considered somewhat ''soft.''

#90102u0882 04/12/1990 ~United Press International

RICHMOND, Va. (APRIL 12) UPI - The CSX Corp., derailed last month in its efforts to acquire the RF&P Corp., offered a detailed defense Thursday of its $34.50 offer for the Richmond-based rail and suggested the documents would justify the company's position.

Although the $385 million deal is officially off, CSX officials suggested they were releasing details about the merger negotiations between RF&P and CSX because of the ''vast quantity of misinformation'' that has circulated since the offer was made public Feb. 20.

''These materials make it very clear that the proposed merger was the result of a long period of difficult negotiations,'' said Mark Aron, a CSX senior vice president.

Gov. L. Douglas Wilder, concerned about the state's share of RF&P owned by the Virginia Supplemental Retirement System, played a central role in quashing the merger.

He called for an outside review of the offer, including an analysis of RF&P's lucrative holdings in Northern Virginia, and set into play a series of political power plays that led CSX to call off the merger on March 20. RF&P agreed three days later.

The General Assembly would have been required to approve the merger

because the state's $11 billion retirement fund owns a 20 percent share in the RF&P.

Wilder fired the head of the Virginia Supplemental Retirement System over the merger, installing his own chief, and embarrassed two ranking lawmakers, Sen. Hunter Andrews, D-Hampton, and Del. Robert Ball, D-Henrico by suggesting they were pushing the merger.

The widespread publicity prompted the VSRS board to remove Andrews and Ball as its representatives on the RF&P board. With their removal, and the installation of new VSRS head Jacqueline Epps and Mark Finn, the full board voted not to approve the merger.

CSX, which owns 50 percent of RF&P, released documents showing a special committee of RF&P explored a variety of options before settling on the merger proposal.

In one scenario, CSX would have only acquired RF&P's rail assets; in another plan CSX would have bought RF&P's rail assets in exchange for a portion of CSX's interest in RF&P's real estate holdings.

The $34.50 price was considered by CSX's advisor, Morgan Stanley, in the upper range of values provided to CSX, and above the after-tax liquidation value for RF&P established by Dillon Read and Co., which advised the RF&P special committee, CSX officials said.

''I think its pretty clear that Dillon Read functioned as an outside analyst,'' said CSX spokesman Thomas Hoppin.

With the advantage of the newly released documents, Hoppin said, ''I don't really know how he (Wilder) would view it. But I am convinced a lot of people would have looked at things differently.''

CSX said the final proposal included a 30 percent premium over the market value of RF&P and a 40 percent increase in the number of RF&P shares that shareholders could exchange for CSX shares without suffering tax liability.

CSX believes its offer is vindicated by the fact that no other buyer has emerged to offer a higher bid for RF&P shares not owned by CSX.

''Basically, we were precluded from explaining what the history was of the merger proposal and the intense negotiations that preceded it because of the Securities and Exchange Commission,'' Hoppin said.

''This is an unprecedented release of materials,'' said Hoppin. ''Usually when mergers are called off the parties just quietly go away.''

#90102u0890 04/12/1990 ~United Press International
FORT LAUDERDALE, FL (APRIL 12) UPI - A job-hunting executive filed suit against a company he hoped to work for, claiming it caused him to be fired by sending his confidential job-search application to his current boss.

Gilbert Carlson mailed a confidential job-search letter to Meredith Corp., in Des Moines, Iowa, in April 1989, but instead of being considered for a post at Meredith, a diversified media company and publisher of ''Better Homes and Gardens'' magazine, Carlson's letter was sent to his bosses at Miami's Ryder Truck Rental.

Carlson said Ryder promptly fired him from his $94,000-a-year job for being a less than loyal employee.

Carlson, 44, of Vero Beach, is married and has two small boys. He said Meredith ruined his 22-year career.

''I have had to start on the bottom of the ladder again,'' said Carlson, who now works at an insurance company at about half his Ryder salary.

''You don't destroy people's careers and lives that way. It was a stupid thing to do and they didn't consider the consequences.''

Last week, Carlson filed suit in U.S. District Court against the men he said sabotaged his professional life.

The suit seeks unspecified punitive damages against Meredith Corp. and Dean Cooper, the Meredith executive Carlson accused of sending the letter to Ryder management. The suit said Cooper also telephoned another Ryder official to notify him of Carlson's job-search efforts.

Cooper declined comment and Meredith spokesman Larry Riley said. ''It's not our procedure to comment on matters in litigation.''

Carlson said that based on correspondence he has received from the president of Meredith's Better Homes and Gardens division, it appears that Meredith officials sought to punish Carlson for making what they viewed as an improper approach to Meredith.

''I wrote a letter to their president asking, why did you do this?'' Carlson said. ''Essentially, he said that they had a business relationship with Ryder and they felt duty-bound to let (Ryder management) know.''

Carlson's attorney, William Amlong of Fort Lauderdale, said he does not know of any ruling prohibiting disclosure of confidential job-search materials. But he said there are laws to support a suit based on invasion of Carlson's privacy and conspiracy to interfere in Carlson's business

relationship.

According to the lawsuit, Carlson was an executive with Ryder's Move Management division when he sent the letter. He had heard speculation that Meredith was considering establishing its own furniture moving operation for corporate personnel being reassigned.

In the past, Ryder's Move Management division had handled some of that business for Meredith, the suit said.

Carlson sent his letter on Ryder Transportation Resources stationary, but wrote, ''I am not writing to you on behalf of Ryder and I wish to keep this correspondence confidential.''

The letter itself was stamped ''Confidential.''

#90102u0892 04/12/1990 ~United Press International

LONDON (APRIL 12) UPI - Rock stars and record industry leaders have announced plans for a multi-media benefit for AIDS research that will star musicians David Byrne, Billy Idol and Annie Lennox.

Byrne, of the Talking Heads, and Irish singer Sinead O'Connor were among the musicians, fashion designers, and film and record industry representatives who announced Wednesday ''Red, Hot and Blue'' - a project designed to heighten awareness of AIDS through music and education.

''In an age that compassion fatigue has become a part of everyday life, 'Red, Hot and Blue,' by its very nature, will hopefully change the way we view charity events,'' organizers said.

Organizers Leigh Blake and John Carlin chose the classical hits of American composer-singer Cole Porter, who died in 1964, as the theme for the benefit.

Carlin said he hoped the Porter songs would attract a cross-generation audience that would absorb information about AIDS and help end the stigma and prejudices surrounding the deadly disease.

Perfomers, including Byrne, O'Connor, Lennox, Idol, U2, Fine Young Cannibals and the Neville Brothers, will record versions of Porter songs, such as ''I Got You Under My Skin,'' ''Everytime We Say Goodbye,'' and ''Who Wants To Be A Millionaire?''

The 90-minute collection, which will be broadcast on television, will also be made into a video and sold in stores. Proceeds will be donated to AIDS-related charities around the world.

Artists and fashion designers, whose fields have been heavily hit by AIDS, will lend their talents to the project.

''Red Hot and Blue'' will be broadcast Dec. 1 on ABC in the United States and on other television stations around the world.

Executive producer Malcolm Gerrie said the project was initially rejected by record companies, partly because of the stigma attached to AIDS. He praised Chrysalis Records for choosing to put out the album.

In a short video shown at the new conference, Byrne praised Porter's music and, with a shy grin, urged people to use condoms for safer sex.

French designer, Jean Paul Gaultier told reporters, that ''peace and love was great, but I think now rubber and love is even better.''

O'Connor, with her close-croped hair and wearing a green hooded dress, gave a sample of what was to come by belting out a soft and sultry version of ''You Do Something to Me.''

Steve Lillywhite, who has produced albums by Peter Gabriel, U2 and the Rolling Stones, will be the overall producer of the ''Red, Hot and Blue'' album.

#90102u0894 04/12/1990 ~United Press International

TOKYO (APRIL 12) UPI - Mitsubishi Electric Corp. said Thursday it has agreed to purchase the computer hardware division of Apricot Computers PLC of Britain for $63 million.

The company said a contract outlining the agreement will be completed by the end of May after approval by Apricot's shareholders.

The company said Apricot's division will be named Apricot Computers Ltd. after the acquisition and become a subsidiary of Mitsubishi's British subsidiary, Mitsubishi Electric UK Ltd.

Apricot Computers will change its name to ACT Group PLC and continue with its software service business, the company said.

The two companies have also agreed to maintain their cooperative relations in microcomputer-related sales, maintenance and service activities, the company said.

#90102u0898 04/12/1990 ~United Press International

WASHINGTON (APRIL 12) UPI - U.S. retail sales fell by 0.6 percent in March for the second straight monthly decline in more than three years, the Commerce Department said Thursday.

''March came in like a lion and went out like a lamb,'' said David Jones, chief economist at Aubrey Lanston & Co. in New York. ''The decline was certainly unexpected.

''Most people were looking for a small increase,'' Jones said. ''Wages, if anything, are accelerating right now.''

The March decrease was the largest monthly drop since a 1.4 percent fall last October - and provided further evidence that America's economy is bumbling along.

''This weak report followed on the heels of a rather weak employment report,'' said Norman Robertson, chief economist at Mellon Bank in Pittsburgh. ''The slow growth in jobs could be having an adverse effect on retail business.''

All businesses reported a decline in sales except for food stores, which recorded a 0.2 percent increase last month, according to the report by the department's Census Bureau.

The 0.6 decline in March and a 0.3 percent decline in February were the first two consecutive monthly decreases since October and November 1986 when sales were off by 4.6 percent and 0.5 percent, the department said.

Total sales for the month stood at $148.6 billion after hitting $149.5 billion in February and $149.9 billion in January.

''My own guess is that this is temporary,'' Robertson said. ''I think consumer spending is likely to be a little firmer as we go through the rest of this year.

''The consumer has been spending steadily and heavily for the better part of seven years,'' he said. ''To have the odd month or two where the consumer might take a breathing spell, I don't think that's a disaster.''

Sales of durable goods - expensive items made to last three or more years - fell by 0.8 percent in March, while sales of non-durable goods dropped by 0.5 percent, the Commerce Department said.

March sales at automotive dealers were off by 1.4 percent after a 7.2 percent collapse in sales in February. In January, sales of cars, truck and vans zoomed by 10.2 percent, as dealers offered incentives to clear their lots of 1989 leftovers - and helped push total retail sales up by

8.2 percent.

In a related area, March sales at gasoline service stations plunged by 1.7 percent.

Excluding autos, March retail sales were off by 0.4 percent, the government report said.

All the figures are adjusted to reflect seasonal factors.

Although there was a 0.2 percent increase in sales at food stores last month, restaurants and bars saw their retail business drop by 1.5 percent in March, the Commerce Department said.

In other categories, March retail sales were off by 0.8 percent at building materials and hardware stores, down by 0.1 percent at furniture stores, off by 0.8 percent at department stores, down by 0.5 percent at clothing stores, and off by 0.9 percent at drug stores.

(APRIL 12) UPI - A seven-member U-S congressional delegation met with Singapore officials today to investigate possible replacement sites for American military installations presently located in the Philippines. The head of the contingent, Colorado Democratic Representative Patricia Schroeder , said the purpose of the five-nation tour is to impress upon Manila that Washington has options should the Philippines NOT renew leases to the Pentagon.

The head of East Germany's Christian Democratic Union is poised to become the country's first non-communist prime minister. Parliament is expected to sign an agreement today which makes Lothar de Maiziere the head of the East German government. The naming of de Maiziere comes one day after East Germany's major political parties reached a compromise and formed a broad coalition government.

A team of British researchers says harmful ozone pollution in the lower atmosphere has more than doubled in the last century and likely will rise even more quickly during the next 30 years. The scientific team from Britain's Harwell Laboratory say while the data may be inconclusive, it could lead to devastating affects on humans and plant life. Ozone is formed through complex reactions with nitrogen oxide, a gas caused by auto and industrial emissions.

Hong Kong officials say 21 people were slightly injured this morning when a ferry carrying 500 people rammed the dock while attempting to land. One of the injured was hospitalized. Officials are investigating the cause of the crash, which occurred at the height of the morning rush hour. The ferry, operated by the Star Ferry line, is one of 14 vessels that last year shuttled about 40-Million passengers between the British colony's two main business areas.

(APRIL 12) UPI - Soviet Foreign Minister Shevardnadze says Moscow could live with a united Germany that allied itself with NOT only NATO, but also a possible ''minor inter-bloc peacekeeping force.'' The White House criticized the rough draft proposal. Marlin Fitzwater dismissed the hypothetical plan, saying the best way to ensure European peace is to make Germany a full-fledged member of the Western alliance.

Lebanese security forces say gunmen shelled a position of the Israeli-backed South Lebanon Army five miles north of Israel's border. The attack left one S-L-A member dead and wounded another. The S-L-A position is in an Israeli-proclaimed ''security zone.'' Israel created the zone five years ago in an attempt to combat guerrilla attacks.

Medical researchers have reached what one scientist describes as a milestone in the efforts to treat sickle cell anemia. In a study of adult sickle cell patients it was found that the drug hydroxyurea increased by up to 10-fold the amount of a normal protein in the blood that carries oxygen throughout the body. Sickle cell anemia affects some 50-thousand Americans, mostly blacks, and nearly 10-Million people worldwide.

Many people who imbibe too much alcohol sometimes feel like the ground is moving. A published report says such a feeling was accurate on the part of Sudanese native who, in a drunken stupor, climbed aboard a cargo plane to Michigan. Adil Alpom said he sensed ''the feeling of flying'' when he awoke in the cargo bay of the plane. He told Michigan authorities he does NOT remember climbing aboard the aircraft.

AKRON, OH (APRIL 12) UPI - The BFGoodrich Co. said Thursday its first-quarter earnings totaled $16.2 million, or 56 cents a share, down 69 percent from the record $53 million, or $2.02 a share, in the first quarter of 1989.

The company said its results were depressed by a precipitous drop in operating income - from $68.1 million last year to $10.1 million this year - in its Geon vinyl products segment.

Sales for the three months ended March 31 were $589.8 million, compared with $615.9 million in 1989.

In addition to vinyl resins and compounds, BFGoodrich produces specialty chemicals and aerospace components and services.

The chemicals and aerospace segments reported record operating income for the first quarter - $13.4 million, up from last year's $10.1 million, for

chemicals and $19.5 million, up from $12.4 million, for aerospace.

''Sales volume for the Geon vinyl business was strong in the first quarter '' BFG Chairman John Ong said, ''but price reductions that occurred in the fourth quarter, coupled with high feedstock costs, led to lower income for this segment.

Ong said conditions fro the vinyl segment are improving.

''Demand for vinyl products remains strong, and the price increases that took effect late in the first quarter are holding. Additional increases have been announced for April and May, and raw material costs in total are declining.''

''We are extremely pleased with current results and prospects for (the chemical and aerospace) segments,'' Ong said. ''We will continue to expand these businesses through internal growth and acquisition so that, over time, they become even more significant contributors to the company's earnings.''

NEW YORK (APRIL 12) UPI - Latest metal market prices as quoted Thursday by the American Metal Market, authoritative metals publication:

Aluminum, New York Merchants, 99.7 percent pure ingots 70.00-71.00 c-lb.

Antimony, domestic, refined in alloy, $1.25-$1.40 lb.

Copper, electrolytic wirebars, delivered U.S. (Warrenton Refining Co.) 133.00 c-lb.

Lead, common, U.S. primary producers 50.00 c-lb.; U.S. non-primary (secondary) producers 54.00-60.00 c-lb.

Magnesium, 99.8 percent, ingot 163.00 c-lb.

Manganese, 99.9 percent, boxed regular 91.00-95.00 c-lb.

Mercury, $280.00-$290.00 76-lb. flask.

Nickel, briquettes delivered to customers, merchant, N.Y., $4.25-$4.40 per pound.

Palladium, N.Y. Am. Met. Mkt. dealer $128.00-130.00 per troy ounce.

Platinum, soft, 99.5 fine, producer - $476.50-$480.00; dealer-approx.,

$475.00-$480.00 per troy ounce.

Steel, No. 1 heavy melt scrap - Pittsburgh $103.00 per gross ton (consumer buying price); Am. Met. Mkt. composite scrap price $103.90 per ton.

Tin, N.Y. Am. Met. Mkt. ex-dock - 304.75 c lb.

Titanium, aircraft quality, 8 1/8 inch round rotating billet, f.o.b. shipping point $7.80-9.59 lbs., domestic sponge 99.3 percent, domestic and imported duty-paid $5.00-5.50 lb.

Tungsten powder (H-Red), 99.9 percent minimum pure $10.00 per lb.

Zinc, prime western, U.S. 83.00-83.75 c-lb.

#90102u0969 04/12/1990 ~United Press International

JERUSALEM (APRIL 12) UPI - The Greek Orthodox patriarch of Jerusalem was overcome by tear gas Thursday when police broke up a protest against Jews moving into a house that the church claims it owns in the Old City's Christian Quarter.

In the melee, Patriarch Diodoros I fell to the ground and broke one of the small ceramic icons he wears around his neck. Church officials called the incident ''a great insult'' for the religious leader of 400,000 Greek Orthodox Christians in the Middle East.

"We won't hesitate in front of any sacrifice," the patriarch said afterwards.

On Wednesday, more than 100 Jews moved into the house in the Christian Quarter of the walled Old City. The enormous house, much of its three wings atop Arab-run stores, is a short distance from the Church of the Holy Sepulchre, the holiest Christian site, and the Mosque of Omar.

Jerusalem Mayor Teddy Kollek criticized the Jewish families and said their action had ''international repercussions,'' especially because Jerusalem is a major world center for the Greek Orthodox Church. He said the courts would decide whether the families' presence in the house was legal but ''there is no questioning that the timing of their move lacks wisdom and sensitivity.''

The patriarch led a procession of several hundred priests and worshipers to the house following the traditional Holy Thursday washing of the feet at the Holy Sepulchre. Holy Thursday is the day during holy week when Christians mark the Last Supper.

Prominent East Jerusalem Palestinians also participated in the protest, held while thousands of visitors thronged the Old City for the Christian holy week and the Jewish Passover holiday.

Church officials said the violence began after a Greek Orthodox deacon removed a Star of David placed over a church insignia above the house's entrance.

Three people suspected of throwing stones were arrested, Israel Radio reported.

The Greek Orthodox patriarch receive an initial legal victory Thursday when a lower court ruled in his favor of ownership, but the decision was appealed to a higher court.

Church officials said the building the Jews moved into was owned by the church and an Armenian tenant who had lived there for nearly 40 years had no right to sell without the patriarch's permission. The extensive complex was known as St. John's Hospice.

''They chose the eve of one of the most important Christian holidays,'' said Kollek, an advocate of co-existence and Jerusalem mayor since before the 1967 Israeli-Arab war. ''We must all live together in this city. Their action does not create positive neighborly feelings despite what they say.

''If a non-Jewish group were to move into a Jewish neighborhood uninvited on Passover eve, singing and dancing, wouldn't the Jewish residents be justifiably angry?''

The new occupants claim the house is part of the predominantly Jewish commercial area.

The Jewish residents said they found in the house a mezuzah, the Jewish holy object placed on door frames, and Jewish shopkeepers had stores in the quarter before rioting in 1926 and 1936 forced them out.

''We're very sorry about the feelings of animosity,'' said Donny Stiskin, one of the Jews who moved into the house with his wife and four children. ''I don't see any reason why it should be improper for any Jew to live in Jerusalem.

''We're returning to a house that was ours before and we're returning to it again lawfully,'' he said.

A large force of Israeli police were stationed outside the house after the demonstration. The traces of tear gas that filtered in when the police dispersed the protesters hung within many of the more than 40 rooms, which were in disrepair.

Several Israeli flags adorned the walls and residents piled their belongings on mattresses in their rooms. They attached protective plastic to windows to guard against stonethrowing and several young Jews walked around with walkie-talkies.

The residents, visitors and right-wing members of Israel's parliament, the Knesset, said there was no reason why the newcomers should not live in the house because Israel has sovereignty over all of Jerusalem.

#90102u0988 04/12/1990 ~United Press International

SEOUL, SOUTH KOREA (APRIL 12) UPI - President Roh Tae-woo granted a special pardon Thursday to a North Korean woman condemned to death for placing a time bomb on a Korean Air jetliner that disappeared over Southeast Asia late in 1987 with 115 people aboard.

Information Minister Choe Byung-yul said Kim Hyon-hui, 28, a confessed agent for communist North Korea, will not be executed despite a March 27 Supreme Court ruling upholding her death sentence.

Choe said Kim, having committed a terrorist attack on a civil aircraft causing a heavy loss of lives, deserved harsh punishment, but the government decided to let her live as a witness to North Korean atrocities.

The Justice Ministry recommended a presidential pardon for the woman on the grounds she confessed. Officials had predicted she would not be executed because of her potential as a witness against North Korea.

Choe said Kim, through intensive brainwashing in a closed society, was reduced to a human tool for North Korean President Kim Il-sung and his son Kim Chong-il, who ordered the bombing.

''Though belatedly, she realized that she had been deceived by the North Korean communists, deeply repented her crime, confessed all details during court sessions and offered heartfelt apologies to the bereaved families of the victims,'' Choe said.

''The government decided to grant the special pardon believing that it is in the national interest to embrace her in the bosom of this country as a vivid witness to the atrocities and aggressiveness of the North Korean communists.''

Kim, accompanied by an aged man, boarded a KAL Boeing 707 at Baghdad, Iraq the night of Nov. 28, 1987. The pair got off the plane several hours later at Abu Dhabi, the United Arab Emirates, leaving behind a time bomb.

The airliner carrying 115 people vanished while flying to Bangkok, Thailand, en route to Seoul. The wreckage was never found, though some debris believed to be from the aircraft was picked from the sea off Burma.

The pair was apprehended on suspicion of planting the bomb and the North Korean man accompanying Kim committed suicide by biting a cyanide capsule. She also bit into one but survived.

Kim was brought to Seoul and tried. In court, she said she carried out the attack on orders from Kim Chong-il, who wanted to discourage communist-bloc and neutral nations from taking part in the 1988 Summer Olympics in Seoul.

The Supreme Court approved her death sentence March 27 but she was not imprisoned. She has been under protective custody at an apartment where she has lived with a woman guard, official sources said.

#90102u0997 04/12/1990 ~United Press International

FORT LAUDERDALE, FL (APRIL 12) UPI - The parents of a girl who drank a glass of Fresh Scent Clorox she mistook for water have sued the bleach manufacturers, claiming they had an obligation to make a potentially harmful product smell bad.

Rebecca Caruso was hot and thirsty when she picked up the glass and gulped down what she thought was discolored tap water. The glass contained five ounces of Fresh Scent Clorox, bleach that had been purged of its pungent aroma, the lawsuit said.

The accident, on Oct. 7, 1988, left Rebecca, now 16, with scar tissue that clogs her esophagus, requiring frequent operations, said her mother, Patricia Caruso.

The lawsuit said the Clorox Co. of Oakland, Calif., was negligent for masking the strong bleach odor. The company said Clorox also was negligent because it did not provide a poison hot line number on the bottle. Federal guidelines do not require that companies do so.

''We're hoping Clorox is going to look long and hard about what number should go on a consumer product that is hazardous,'' said the Carusos' attorney, Jon Krupnick. ''And did they really think about all the implications when they masked the bleach smell?''

Krupnick said more than 26,000 adults and children had accidently ingested bleach last year, and that removing the aroma could increase that number. He said Thursday he did not knew whether any others suffered injuries.

Clorox spokesman Fred Reicker said the company decided to make its product smell less offensive after a marketing study concluded that consumers preferred scented household products.

#90102u1008 04/12/1990 ~United Press International

(APRIL 12) UPI - Private analysts say the Soviet Union has back-slid at some of the arms talks. The Arms Control Association says the Soviet back-sliding makes it certain NO major treaty will be ready when Presidents Bush and Gorbachev meet next month.

The United States and other countries in NATO are rejecting a Soviet proposal to let a unified Germany belong to both NATO and the Warsaw Pact. The Soviets also envision a new form of European security system.

President Bush met with 13 leaders of Baltic-American groups yesterday. The Americans of Lithuanian, Latvian and Estonian descent failed to get Bush to promise any help for their homelands' drives for independence.

White House spokesman Marlin Fitzwater says White House Dr. Burton Lee reports President Bush is in excellent health. Nevertheless, Bush will undergo a routine yearly physical examination today at Bethesda Naval Hospital.

President Bush is getting ready for a trip to Bermuda. He will meet with British Prime Minister Thatcher tomorrow. She left London this morning and plans to lunch with officials of the Bermuda government.

Pittsburgh police say an explosion at the Greyhound terminal turned out to be caused by a firecracker. Police say a firecracker- possibly a big M exploded late last night. The firecracker was taped to a door and shattered it. Police say NO one was hurt... and NO one has been arrested.

Tear gas felled the Greek Orthodox Patriarch of Jerusalem today. He was heading a procession of priests when police used tear gas on protesters demonstrating against Jews moving into the Christian Quarter of the Old City. The patriarch was NOT seriously hurt.

South Korea says President Roh today pardoned a North Korean woman condemned to death for putting a time bomb on a Korean Air jetliner that disappeared over Southeast Asia in 1987. 115 people on the plane died.

Romania's interim government barred the entry of former King Michael and his family today. Cancellation of Michael's visa was announced just hours before the ex-monarch was due to return to Romania for his first visit in 42 years.

#90102u1019 04/12/1990 ~United Press International
WASHINGTON (APRIL 12) UPI - The National Organization for Women said Thursday it will send its abortion rights ''freedom caravan'' to Nevada to build support for a pro-choice initiative and to Oregon to oppose an anti-abortion ballot drive.

''We will be in both Nevada and Oregon because there will be ballot questions this fall,'' NOW President Molly Yard told a news conference.

In Nevada, activists are pressing a ballot initiative that will essentially retain the state's current law, allowing abortion during the first 24 weeks of pregnancy.

''The Nevada referendum is of national political significance because it gives the people a chance to be heard on abortion before their elected legislators convene in 1991,'' Yard said.

The current make-up of the Nevada legislature is considered to be heavily anti-abortion, according to NOW officials and the ballot drive is intended to pre-empt the state lawmakers from taking any action next year.

In Oregon, the NOW effort will be aimed at defeating at least two ballot initiatives in a state abortion opponents have long made a major focus of their efforts.

''The Oregon initiatives are among the most punitive in the nation,'' Yard said.

''In 1986, NOW supported Oregon's pro-choice majority and we defeated the initiative to prohibit public funding of abortions for poor women,'' she said. ''In 1990, NOW again pledges to work shoulder to shoulder with our Oregon sisters to crush these latest attacks on the privacy, health and safety of Oregon women and girls.''

Abortion opponents in Oregon are pushing a constitutional amendment that would prohibit all abortions except to save the life of the mother and in cases where pregnancy resulted from rape and incest. Two other initiatives would require parental notification, with one defining human life as beginning at conception, require both parents be notified and ban doctors from giving those under 18 years old any means of birth control until both parents are notified.

The ''freedom caravan,'' modeled after traditional whistlestop campaign tours, will feature a video presentation on abortion rights, a keynote speech by Yard along with local activists in an effort to organize supporters of legal abortion.

CHICAGO (APRIL 12) UPI - United Airlines Thursday offered further reductions in some of its already-discounted transcontinental fares in an effort to stimulate travel during the late spring.

United said the discounted round-trip fares will range from $358 off-peak to $398 at peak travel times. Standard conditions include a 14-day advance purchase, payment within 24 hours of reservation, Saturday night stay, limited seating and no refunds.

East coast markets included in the program are Philadelphia, Allentown/Bethlehem and Harrisburg, Pa.; New York City, Albany, Rochester, Syracuse, White Plains and Buffalo, N.Y.; Baltimore; Bangor and Portland, Maine; Boston; Burlington, Vt.; Hartford, Conn.; Manchester, N.H.; Newark, N.J.; Providence, R.I. and Washington, D.C.

California markets included are Burbank, Long Beach, Los Angeles, Oakland, Ontario, Orange County, Sacramento, San Diego, San Francisco and San Jose.

''These fare reductions are designed to stimulate additional east-west travel across the country during a tarditionally slack demand period between the Easter/Passover holidays and summer,'' said John Pope, United's executive vice president for marketing and planning.

The fares will be in effect for travel May 1 through June 11.

TORONTO (APRIL 12) UPI - Noranda Forest Inc. said Friday it agreed to buy Deposit, N.Y.-based MDF Technology Inc.. No purchase price was disclosed.

Noranda will acquire the fiberboard company from Plum Creek Timber Company Inc., the forest industry subsidiary of Burlinglton Resources Inc. of Seattle.

MDF Technology, 100 miles south of Syracuse, N.Y., produces medium density fiberboard used to make furniture, kitchen cabinets and store fixtures.

The Deposit mill, which was built in 1966, was completely remodernized in 1985-86 and produces 55 million square feet of 3/4 inch fiberboard a year.

The company, including its 110 employees, will become part of Norbord Industries Inc., a Noranda Forest subsidiary, and will have its name changed to Nordbord MDF.

Nordbord Industries operates nine mills in the United States, Canada and Scotland producing waferboard, plywood and particleboard.

Noranda Forest is a subsidiary of Noranda Inc., a holding company with mineral, forest, energy and manufacturing interests.

Noranda Forest reported 1989 earnings of $23 million, or 19 cents a share, compared with $54 million, or 51 cents a share, in 1988. Revenues at the company rose to $1.06 billion from $986 million a year earlier.

ELIZABETH, NJ (APRIL 12) UPI - John Emil List, the pious accountant who was afraid to let his family live in an evil world, was convicted Thursday of murdering his wife, mother and three teenage children 18 years ago.

Jurors deliberated less than nine hours over two days before convicting List, 64, who had hid from police until he was captured last year on a tip generated by a television show.

The jury rejected arguments by List's lawyer that the devout Lutheran was compelled by a religious obsession and thought he was saving his children's souls and keeping them from poverty.

List, a mild-looking former Sunday school teacher, faces multiple life sentences because New Jersey had no death penalty on Nov. 9, 1971, when List shot his family.

During the seven days of testimony, the courtroom was packed with spectators eager to see a man who had become infamous long before he was tried. Many were Westfield residents who had known the Lists or remembered how the discovery of the bodies in List's Victorian mansion rocked the quiet suburb.

List was arrested last year in Richmond, Va., where he living with his second wife, a woman he met at a Lutheran church picnic. A re-enactment of the killings on Fox TV Network's ''America's Most Wanted'' led to his discovery.

During his years in hiding, List worked as an accountant under the name Robert P. Clark in Denver before moving to Richmond in 1988.

Prosecutors told the jury that List worked systematically, shooting his wife, Helen, 45, and mother, Alma, 84, after the children left for school, and then making separate trips to pick up Patricia, 16, and Frederick, 13, killing them at home. Another son, John, 15, was gunned down by 10 shots from two handguns.

In closing arguments, Assistant Prosecutor Eleanor Clark told the jury to remember List's claim that he shot his family from the back to spare them pain when autospy results actually showed most were shot from the front.

List tidied the house after the killings and left a five-page confession

to his pastor that became a key piece of evidence in his trial.

Elijah Miller Jr., head of the Union County public defender's office, used witnesses from every phase of List's life, from the pastor who baptized and confirmed him in Bay City, Mich., to Helen List's sister, who described him as dominated by his bedridden wife.

Defense experts described List as an obsessive-compulsive who felt trapped by his financial problems and by his wife, who was brain-damaged by tertiary syphilis. But a prosecution psychiatrist testified that List knew what he was doing and was legally sane.

JOHANNESBURG, SOUTH AFRICA (APRIL 12) UPI - Armored vehicles carrying some 300 battle-hardened troops rolled into Natal province Thursday for deployment in areas ravaged by violence between warring black factions, state-run radio reported.

Police reported eight more people killed in the factional fighting since Wednesday, including three men and two women gunned down during an attack on a mini-bus in the black township of Mpumulanga midway between Pietermaritzburg and Durban.

State-run radio reported Pietermaritzburg's acting mayor, Pat Ranier, welcomed the black soldiers as they entered the eastern city aboard armored personnel carriers.

The soldiers, mostly former Angolans, were last deployed for duty to fight against guerrillas of the South West Africa People's Organization in Namibia prior to that country's independence from South African administration.

They are among some 2,000 army troops being deployed in the province on the orders of President Frederik de Klerk in a bid to halt fighting between supporters of African National Congress-linked groups and the tribal movement Inkatha of Zulu leader Mangosuthu Buthelezi.

More than 3,000 people have died in the conflict since 1987. The fighting flared in Edendale Valley outside Pietermaritzburg three weeks ago. Proposed peace talks between ANC leader Nelson Mandela and Buthelezi have collapsed.

Political unrest elsewhere in the country Wednesday left another person dead in Crossroads township on the outskirts of Cape Town where fighting between rival factions has flared over the past week, a police statement said.

Police also reported 90 people injured Wednesday night when authorities opened fire with birdshot, teargas and rubber bullets to disperse demonstrators in the Western Cape mixed-race Township of Robertson who had taken over the civic center.

More than 200 demonstrators emerged from the building about 10 p.m., after causing ''extensive damage'' and hurled objects at police. The authorities opened fire and at least 37 people were treated for birdshot wounds. The others were treated for various injuries, police said.

WASHINGTON (APRIL 12) UPI - The unprecedented increase in college costs during the 1980s occurred for different reasons at public and private schools, a report sponsored by two higher-education groups said Thursday.

The study said charges at public colleges and universities were most strongly affected by cuts in state funding, while private schools raised tuition primarily to improve facilities and services.

In both cases, a smaller pool of college-age students also played a role, preventing public schools from spreading out costs over a larger number of students as they had during the 1960s and early 1970s and forcing private institutions to make improvements to attract students.

''The College Tuition Spiral'' was written by Arthur Hauptman with Jamie Merisotsis at the request of the American Council on Education and the College Board. The two groups called the report ''the most comprehensive'' of its kind but said it not represent the position of either organization.

The study said college costs increased about 9 percent a year in the 1980s about twice the overall inflation rate and faster than at any time in recent decades. College costs lagged behind inflation in the 1970s, and

went up only slighly faster than inflation during the previous half century.

While college costs soared in the 1980s, median family income failed to keep pace, rising 5.6 percent a year. However, pre-tax income on stocks and bonds increased faster than the growth in college charges, the report said.

The study said ''no single explanation fully accounts for recent growth in college tuition,'' but that differences can be identified between public and private colleges.

It said the largest increases in charges at public schools took place in the early 1980s, when a recession limited state revenues and tuitions tended to act as ''a buffer at the end of the budget process.''

Tuition increases were less severe once the economic recovery began in the mid-1980s, although competition for funds with other government programs put pressure on college charges, the report said.

Private schools raised charges as competition for students increased. Although economic theory suggests competition should lead to lower prices, private colleges competed on the basis on expanded services that led to higher charges, the study said.

The report said many institutions raised prices ''to keep pace with the trendsetters ... a pattern that has led some observers to comment that in higher education, higher prices are being confused with higher quality.''

Although the study noted that charges to students do not cover all college costs, it said tuition increases occurred at a time when the prices for goods and services bought by colleges rose faster than the overall inflation rate.

#90102u1132 04/12/1990 ~United Press International

WASHINGTON (APRIL 12) UPI - A senior defense official said Thursday ''there's reason to believe'' North Korea is building a nuclear-fuel reprocessing plant that would enable it to make nuclear weapons, a concern that has been raised with the Soviet Union.

''It's a matter of great concern to us,'' said Henry Rowen, assistant defense secretary for international security affairs.

''They have a reactor and (I) guess evidence of a reprocessing facility that may be able to separate the plutonium (from the reactor's spent nuclear fuel rods for nuclear weapons),'' Rowen told reporters at a

breakfast meeting.

North Korea has had a nuclear reactor at Yongbyon, north of Pyongyang, since 1984, but the construction of a nuclear-fuel reprocessing facility nearby was only alluded to previously by unidentified U.S. intelligence sources.

Pressed about his identification of the construction site as a reprocessing facility, Rowen said, ''I think there's reason to believe there is something like that. I wouldn't want to assert that it's complete.''

The assistant defense secretary said the North Korean nuclear program is ''not galloping ahead at a great rate. It's something that is proceeding. I would not want to characterize it as a slow pace, but a deliberate pace.''

Rowen said the issue has been raised with the Soviets, most recently in last week's talks in Washington between Secretary of State James Baker and Soviet Foreign Minister Eduard Shevardnadze.

''We hope that their influence would be enough to get them to ... get it under control, get at least inspectors in there, preferably to end the whole thing, end the separation business.

''So far it hasn't borne fruit,'' Rowen said.

He declined to estimate how long it would take for North Korea to complete the reprocessing plant.

''It depends how fast they work,'' Rowen said. ''They seem to be heading in that direction and that's the worrisome thing.''

North Korea in 1985 signed the Nuclear Non-proliferation Treaty, but so far has refused to allow inspections of its reactor by the International Atomic Energy Agency.

Administration officials have expressed concern that the North Korean program could encourage a nuclear arms race on the Korean peninsula and lead to increased military and political tensions.

In response, the North Korean government has complained there is already an ''existing nuclear threat on the Korean peninsula,'' an allusion to U.S. nuclear forces in South Korea.

#90102u1134 04/12/1990 ~United Press International

KUWAIT (APRIL 12) UPI - Syrian Defense Minister Gen. Mustafa Tlass said in a newspaper interview published Thursday he was optimistic Western hostages in Lebanon would be freed sometime this year.

Tlass also said Syria's traditionally close relations with the Soviet Union had not been affected by Soviet leader Mikhail Gorbachev's new policies.

''Our relations with the Soviet Union have not been affected by the political restructuring there known as perestroika, because our relations with the Soviets form a permanent, strategic link,'' Tlass told the Kuwaiti daily Al Seyasseh in an interview.

The Soviet Union reportedly informed Damascus recently it would no longer be able to finance Syria's desire to achieve strategic parity with Israel, would be reducing military aid and would start pulling some 2,000 Soviet technicians out the country.

Tlass also indicated that Syria was trying to secure the freedom of 18 Western hostages believed held by pro-Iranian Moslem extremists in Lebanon. Syria - Persian Iran's only Arab ally - maintains some 35,000 troops in Lebanon and is considered to be the main power-broker there.

''We hope that this year will witness the end of the crisis of foreign hostages held in Lebanon,'' Tlass reportedly told the daily Al Seyasseh.

Earlier this week, an Iranian newspaper also predicted that the plight of the hostages, who include eight Americans, would end this year.

''Syria, for humanitarian considerations, is exerting efforts to secure the release of all the hostages, regardless of their nationality,'' the newspaper quoted Tlass as saying.

''The Syrian foreign ministry, according to instructions from (Syrian) President Hafez Assad, is doing its utmost to solve this problem once and for all,'' he said.

Tlass's apparent willingness to try and secure freedom for the hostages came after similar statements from Iranian leaders earlier this year. Iranian President Ali Akbar Hashemi Rafsanjani also predicted the hostage drama would be concluded by the end of the year.

On Lebanon, Tlass said Syria had no intention of establishing contacts either with the strife-torn nation's Christian strongman, Gen. Michel Aoun or Samir Geagea, the Lebanese Christian leader Aoun has been fighting for control of East Beirut's Christian sector.

''Syria is backing the legitimate government of Lebanon, and will never go

beyond that and establish contacts with warring parties,'' Tlass was quoted as saying.

''What is going on now is a struggle for power in East Beirut,'' Tlassi said.

#90102u1160 04/12/1990 ~United Press International

WASHINGTON (APRIL 12) UPI - President and Mrs. Bush paid $101,382 in 1989

federal income taxes on a gross income of $456,780, the White House disclosed Thursday.

White House press secretary Marlin Fitzwater, who released copies of the tax returns to reporters, said that of the income Bush received $189,167 was his presidential salary. Also included is $6,229 he received as salary while serving as vice president in 1989.

The Bushes also reported $208,274 in income from other sources as well as $804 in interest income and $16,238 in income from other sources.

A long-term capital gain from his blind trust of $36,068 also was disclosed.

Fitzwater declined to explain why control of the blind trust was shifted from Bush's wealthy long time friend, William Farish to the Bessemer Trust Company of New York.

The federal income tax withheld form the president's salary of $200,000 was $54,686. He had already sent to the IRS an estimated $43,000 and paid an excess $468 in Social Security taxes that were withheld, totaling $98,154. After deductions, the Bushes, who are in the 28 percent bracket had to pay an additional $3,228 in 1989 taxes to make up for the shortfall.

The Bushes claimed $94,702 in itemized deductions, which included $37,272 in contributions to 39 charities, and $594 to charities through the blind trust.

The president's book, ''Looking Forward,'' earned him $14,282 in net royalties, which were split evenly between the United Negro College Fund and the M.D. Anderson Cancer Center, the two charities that received the largest donations from Bush.

Their other contributions included $150 to The Living Bank in Houston, Texas. Both the President and Mrs. Bush have pledged their organs to the bank.

The tax return has been reviewed by the Office of Government Ethics and will be sent to the Philadelphia Regional Office of the Internal Revenue Service, Fitzwater said.

Last year, Bush paid $62,106 in federal income tax on an adjusted gross income of $287,171, of which $115,000 was his salary as vice president.

The vice president's office, meanwhile, reported that Dan Quayle wrote a check to the IRS for $1,266 - for a total payment of $24,213 in federal income taxes on an adjusted gross income of $133,696. The vice president's

salary accounted for $110,243.

However, the second family's tax forms showed considerably fewer charitable contributions than the Bushes, with the Quayles reporting a total of $2,934 in donations. The causes were not listed.

Quayle, who continued to benefit from ownership of his family's newspaper holdings - garnering more than $14,000 in income - also reported a $5,435 loss from the rental of his home in McLean, Va., when his family moved into the vice presidential mansion.

Fitzwater told reporters that despite a slip by Congress, which neglected to require financial statements of top Executive Branch officials for 1989 the president would file his report and has directed Cabinet and other high ranking government officials to do the same.

#90102u1192 04/12/1990 ~United Press International

ATHENS, GREECE (APRIL 12) UPI - Iran's Revolutionary Guards killed nine insurgents and wounded scores of others in a gunfight in the Persian Gulf nation's southeastern corner, Tehran radio said Thursday.

A large quantity of weapons, including mortars, was seized and eight of the rebels were captured after the gun battle Wednesday in Iran's Sistan and Baluchistan province, a state radio dispatch monitored in Athens said.

The official Islamic Republic News Agency described the insurgents as bandits and said the fighting in the Hesar Diyeh heights near Zahedan lasted six hours.

The radio report said nine insurgents were killed and scores hurt. A radio reporter in a voice dispatch from Zahedan put the death toll among the rebels at 15.

Casualties among the guards were not mentioned in the reports.

Tehran radio said guards surrounded the rebels in the Hesar Diyeh hills, some 700 miles southeast of Tehran, after receiving a tip about their whereabouts from tribal informers.

The dispatch said the rebels were engaged in banditry and highway robbery, and the operation against them was carried out with the cooperation of the tribes and local people.

The captured insurgents confessed to several acts of banditry and robbery in recent weeks, the report said.

Iran has faced an insurgency among the mainly Sunni Baluchi tribes in the southeastern regions since 1979 when the Ayatollah Ruhollah Khomeini came to power.

The rebels are believed to be receiving arms and ammunition from Iraq. Iran's ruling clerics hanged two people in Zahedan last month on charges of spying for Iraq.

Iranian officials also claim the insurgents engage in narcotic drug trafficking across Iran's border with Afghanistan and Pakistan. IRNA said ''more than 100 sacks of opium were burnt as the tents of the bandits were set on fire.''

Since the end of the Iran-Iraq War in August 1988, Iran has stepped up operations against insurgents in the southeastern region, including

Baluchistan and the province of Kerman.

Poverty is widespread in the area and pictures in the official media last month - when President Akbar Hashemi-Rafsanjani visited Kerman, his home province - showed people living in ragged straw huts.

Rafsanjani said his government is implementing plans to quicken economic development of the area.

WASHINGTON (APRIL 12) UPI - Stephen Gobie, who claims he ran a gay prostitution ring from the Capitol Hill home of Rep. Barney Frank, D-Mass. spent the night in jail after a clash with an off-duty police officer, police said Thursday.

He was charged with destruction of property and possession of marijuana.

Gobie allegedly smashed through the sunroof of the woman's car after she approached him at a traffic light and asked why he was ''driving in such an erratic manner,'' police said in a statement.

Gobie was arrested at about 2:15 p.m. Wednesday after the incident, which allegedly began when he was seen driving in an ''unsafe manner'' and almost collided with a number of cars, said police spokesman Officer Edward Wilson.

After off-duty officer Karen Zibrat, a four-year police veteran, confronted Gobie at a traffic light, he allegedly got out of his car and stood in front of hers, refusing to let her drive away.

When Zibrat tried to back up, Gobie allegedly jumped onto the hood of her car, broke through the sunroof and fell inside the car, ''where a struggle

ensued,'' said Wilson.

Witnesses called police. Gobie was charged with felony destruction of property. After a search, police also charged Gobie with possession of marijuana.

Gobie, 34, of Arlington, Va., was jailed overnight on $5,000 bond. He was expected to be arraigned Thursday afternoon in D.C. Superior Court.

Last summer, Gobie revealed he had been a sexual partner of Frank from 1985 to 1987. Frank acknowledged he initially hired Gobie for sex after ansering a ''personals'' ad in a local newspaper.

Gobie claimed to have operated a prostitution ring from Frank's apartment with the congressman's knowledge. Frank denied ever knowing about Gobie's business. The allegations led to an investigation by the House ethics committee.

Gobie has a felony record in the District of Columbia and Virginia that includes a conviction for cocaine possession.

#90102u1279 04/12/1990 ~United Press International

DAR ES SALAAM, TANZANIA (APRIL 12) UPI - Tropical rains spawned flooding that killed more than 100 people and left thousands homeless, prompting the government of the impoverished nation Thursday to appeal for tons of food and other relief.

Prime Minister Joseph Warioba, planning to visit the swamped areas and inspect the damage, told Parliament the floods were the worst to hit the eastern African nation since 1944.

The rains began April 3 and weather reports indicated the precipitation was continuing in parts of the country.

The prime minister's office appealed for 100 tents, 110 bales of clothing for children and adults, and 5,000 tons of food for those driven from their homes by floodwaters.

More than 6,800 acres of farmland and 38 villages were badly rain-battered in the Masasi district of southern Tanzania, while 25,000 people in neighboring Lindi were left homeless.

Masasi local official John Milinga said almost half of the 7,000 people affected by the floods urgently needed food, clothing and sleeping accommodations. Heavy rains had destroyed their property and belongings, he said in the area some 300 miles south of Dar es Salaam.

Officials said a shipload of food and medicines had left the capital city's port Monday night for the south as medical teams feared an outbreak of disease in the region.

The rains, which began April 3, also seriously damaged roads and villages in the central Tanzanian areas of Tabora, Singida and Dodoma. The government recently had invested heavily in repairing the roads.

Latest available reports from weather stations in northern Tanzania said rains were still falling.

#90102u1308 04/12/1990 ~United Press International

WASHINGTON (APRIL 12) UPI - The Justice Department expressed concern Thursday over an FBI effort to gain broad authority to seize documents and other evidence in criminal cases without grand jury subpoenas or orders from federal judges.

The proposal, first reported by The New York Times, would allow FBI agents to obtain ''administrative summonses'' authorized by supervisory-level FBI agents.

The concept has generated civil liberties concerns because the FBI has been accused of overstepping constitutional bounds in some politically oriented investigations. Critics say it would remove an important level of supervision over FBI activities.

Currently, the FBI must generally receive authority from a federal judge or Justice Department lawyers before demanding some evidence.

The new proposal would not eliminate search warrants, which must be approved by a judge before police can enter a home or office and seize evidence without the owner's permission. But it would largely eliminate the need for grand jury subpoenas for documents such as office and bank files.

Janlori Goodman, a lawyer for the American Civil Liberties Union, said the FBI is seeking easy access to confidential personal records held by the Social Security Administration, credit agencies and telephone companies.

''We think it's unconstitutional,'' she said. ''The FBI is required by the Constitution to get a court order or a subpoena before they can get access to these documents.''

Goodman added, ''What the FBI is saying is it's inconvenient to get a subpoena. We think at times the Constitution does set up a hurdle that may

make it inconvenient in order to protect people's rights. That's what the Constitution is intended to do.''

The Internal Revenue Service and some other federal agencies already have the authority to issue the ''administrative summonses.''

Critics of the expanded FBI authority note that the agency principally focuses on criminal cases, not civil investigations. A criminal suspect has many more legal protections than those extending to civil cases.

David Runkel, spokesman for Attorney General Dick Thornburgh, quickly moved to distance Thornburgh from the controversy. He also said federal prosecutors had expressed ''concern about the direction'' of the proposal.

''There is a concern about the conduct of investigations under any new proposal,'' Runkel said, indicating that it appeared to go too far.

As attorney general, Thornburgh has overall authority over the FBI, which is one of the Justice Department's many agencies.

''Before anything would go forth, if anything would go forth, the attorney general would get involved at that time,'' Runkel said.

Mike Korten, a spokesman for the FBI, said, ''We are exploring the possibility of widening the administrative summons beyond what we currently have in drug cases.'' He said the FBI had been discussing the issue ''for some time'' with the Justice Department and Congress.

''We're aware of concerns and we're certainly not trying to avoid any debate on it,'' Korten said. ''I'm sure there will be plenty of opportunity for discussion and debate on Capitol Hill.''

Rep. Doug Barnard Jr., D-Ga., had called for legislation to grant the expanded powers to the FBI. Barnard, chairman of a House Government Operations subcommittee, said the FBI is strapped for resources during savings and loan fraud investigations and agents sometimes spend too much time seeking subpoenas.

Steve McSpadden, staff counsel to the committee, said language was contained in a proposed bill authorizing the expanded FBI authority only in banking-related cases.

Because of serious objections by Rep. Don Edwards, D-Calif., the proposed language was killed, McSpadden said. Edwards is a former FBI agent who heads an influential committee on constitutional rights.

McSpadden said the proposal contained provisions to prevent abuse because subpoenas could only be issued by supervisory level FBI agents and any

suspect or financial institution objecting to a subpoena could bring a legal action to quash it.

(APRIL 12) UPI - President Bush checked into the Bethesda Naval Hospital this morning for a stay of just a few hours. The president is undergoing his annual physical examination. A team of three doctors is giving Bush a three-hour checkup. The White House physician, Dr. Burton Lee, is with Bush. Lee described the president's health as excellent prior to the exam. Bush will fly to Bermuda tomorrow for a meeting with British Prime Minister Thatcher. He plans to return to the United States Saturday.

The government says Americans kept their billfolds closed when they could for a second month in a row. Retail sales went down six-tenths of one percent in March. The Commerce Department says last month's decrease in retail sales was the largest monthly drop since a one-point-four percent decline last October. All businesses reported a decline in sales except for food stores. They had an increase of two-tenths of one percent last month. It's been more than three years since retail sales went down two months in a row.

East Germany's new parliament apologized to Jews world-wide today for the Nazi terror. The apology is a dramatic reversal of the former Communist government's claim that East Germans had NO responsibility for the Holocaust. Parliamentarians also apologized for the former Communist authorities' backing of the Soviet invasion of Czechoslovakia in 1968. Deputies elected conservative leader Lothar de Maiziere as East Germany's first non-Communist prime minister.

Romania's exiled former king has given up trying to go home today. Former King Michael abandoned his plans after the government in Bucharest revoked entry visas for Michael and his family. In addition, Swiss Air said it would NOT allow them to fly from Zurich to Bucharest without visas. The former monarch says he just wanted to be in his native land for Easter.

(APRIL 12) UPI - The prison inmate who claims to have started the longest prison riot in Britain this century has told his lawyer he will surrender soon. Paul Taylor is the ringleader of about 15 inmates occupying Manchester's Strangeways Prison for a 12th day. Taylor spoke with his lawyer through a prison gate and the lawyer says Taylor will end his protest in ''the next day or so.''

The Greek Orthodox Patriarch of Jerusalem was tear-gassed and knocked down

today. He was NOT seriously hurt. But one of the small icons Patriarch Diodoros wears around his neck was broken and his clothes were torn. Police dispersed a group of people protesting against Jews moving into the Christian Quarter of the Old City. Police arrested three demonstrators for throwing stones.

Guatemala's leftist rebels have started a four-day cease-fire in observance of Holy Week and Easter. The rebels urged government soldiers to do the same. The rebels announced their unilateral truce yesterday... having a full-page declaration printed in a newspaper in Guatemala City. The announcement says the rebels will continue their operations Monday.

A battle over hunting by natives of Alaska is escalating. The Bush administration threatens to take game management away from the state of Alaska. But Governor Steve Cowper vows to hold on to it. Natives from across the state gathered in Anchorage to find a way to legally practice their traditional hunting and fishing rights. Those rights are in limbo because the state Supreme Court found rural hunting priorities illegal.

#90102u1343 04/12/1990 ~United Press International

LONDON (APRIL 12) UPI - Stock prices ended slightly higher Thursday in thin pre-holiday trading on the London International stock exchange.

The blue-chip Financial Times 100-stock index, which slipped 2.0 points Wednesday, closed up 6.6 points at 2,222.1.

For the holiday-shortened week, the key index, which measures the value of Britain's largest 100 companies in terms of market capitalization, posted a narrow loss of 0.6 points.

The narrower top 30 industrial average gained 7.7 points to 1,741.0 and posted an 0.8 point gain for the week.

Volume amounted to around 320 million shares, compared with 311 million shares changing hands Wednesday.

Analysts noted volume was light as many large institutional players left early for the Easter weekend.

British markets will be closed Friday for Easter. Trading will resume Monday.

On the economic news front, the Central Statistics Office reported Britain's retail price index for March rose 1.0 percent from February and 8.1 percent from year-ago levels.

Market forecasters had expected the report to show a gain of around 0.9 percent for the month.

In a seperate report, the Department of Employment reported the underlying annual rate of increase in average earnings in Britain rose to 9.5 percent in February from 9.25 percent in January.

Average earnings as a whole rose a seasonally adjusted 0.3 percent in February from January and were up 8.9 percent from February 1989.

Meanwhile, Britain's March unemployment was a seasonally adjusted 5.6 percent, unchanged from February, according to provisional estimates from the Department of Employment.

The March rate was down from the 6.7 percent a year earlier.

Analysts said the overall reaction to the government reports would not come until next Tuesday as many dealers had started the Easter holiday early.

On the corporate front, news was centered on pharmaceutical giant Glaxo Holdings.

Glaxo surged 35 cents to $12.99 after a Canadian company, Biochem, made a presentation to analysts on funding by Glaxo of Biochem's development of an anti-AIDS compound.

Wellcome PLC, another pharmaceutical company, fell 24 cents to $11.03 on the news that Glaxo will be a challenger to Wellcome's own anti-AIDS drug Retrovir.

M.L. Laboratories, which is also trying to develop an AIDS treatment, gained 8 cents to $5.32.

Among the day's other highlights, Eurotunnel gained 48 cents to $9.52 on areport of French buying, while Euro Disney climbed 43 cents to $17.68 on renewed investor demand.

Elsewhere in Europe, stock prices on the Frankfurt Stock Exchange ended the shortened week higher in light trading.

The closely watched German Stock Index, which slipped 4.74 points Wednesday, jumped 24.40 points, or 1.3 percent, to 1,918.17.

Traders said the market's recovery, which followed six days of declines, was driven by the blue-chip sector.

Trading in Frankfurt will resume on April 17, as investors take a long

break from the action for the Easter holiday.

#90102u1366 04/12/1990 ~United Press International

WASHINGTON (APRIL 12) UPI - Archbishop Roger Mahony of Los Angeles, a top ranking leader of the nation's Roman Catholic bishops, warned the Soviet Union Thursday against using force against Lithuania's fledgling independence movement.

''We are concerned by some of the actions of your government in recent days,'' Mahony said in a letter to Soviet Ambassador to the U.S. Yuri Dubinin, ''and sincerely hope that they do not relfect a change in your expressed commitment to avoid the use of force in this difficult situation.

Mahony is chairman of the bishops' Committee on International Policy.

''We are also concerned by reports of increased discrimination, hazing and harsh treatment of the vast majority of Lithuanaian soldiers who have remained in the Soviet Army,'' Mahony said.

Mahony's letter said that ''many times in recent years'' the U.S. bishops have ''applauded and supported the more open political climate and the fundamental changes'' being ushered in by Soviet President Mikhail Gorbachev's policies of glasnost and perestroika.

''These policies have helped unleash a deep yearning for freedom, justice and truth in Eastern and Central Europe,'' Mahony said. ''Today, we see these fundamental human aspirations being expressed by the people of Lithuania as they seek to achieve, through peaceful means, their legitimate and long-denied goal of self-determination.''

Mahony called on the Soviet government to establish a ''process of sincere dialogue'' with Lithuanian leaders that will aim at ''a just and peaceful solution to the crisis that will guarantee the legitimate aspirations of the Lithuanian people.''

The letter was released by the Catholic conference along with a seven-page statement by the bishops' 53-member adminsitrative board on ''The New Moment in Eastern and Central Europe'' crediting Europeans' ''faithful witness to the Gospel'' as a key element in the democracy movement that swept the region in 1989.

It said that despite ''severe restrictions and, at times, outright repression,'' Catholics of the region ''did not abandon their faith or the church's essential mission. they have helped preserve a respect for truth, justice, soldiarity and human rights; they have called for nonviolence, dialogue and national reconciliation.''

The statement also said U.S. Catholics have ''a special duty and responsibility'' to aid in the rebuilding of the church in Eastern and Central Europe.

It also said the United States has a ''historic opportunity'' to aid the Eastern European nations and called for a ''reordering of (American) national priorities'' to make resources available for those countries as well as ''other unmet human and social needs both at home and in the developing world.''

''As we help to reshape the political fabric of East-West relations,'' the bishops' statement said, ''we must take advantage of the opportunity presented by this new political situation to diminish and ultimately end the military confrontation between East and West.''

The bishops called for ''much deeper cuts than those envisioned'' in the current round of talks on strategic and nuclear forces.

#90102u1369 04/12/1990 ~United Press International

LONDON (APRIL 12) UPI - Arms experts confirmed that cargo bound for Iraq contained sections of a 40-yard-long gun barrel capable of firing nuclear or chemical warfare shells hundreds of miles, a Customs spokesman said Thursday.

It was the second time in less than two weeks that British authorities had moved against weapon parts bound for Baghdad. British authorities charged three people with trying to smuggle 40 components of nuclear weapon triggers to Iraq on March 29.

Customs chief Douglas Tweddle said weapons experts had confirmed his agents' suspicions that eight crates detained in Teesport, northeast England, contained parts for a huge gun.

The goods were immediately seized, preventing their export, he said.

''We are now satisfied that this equipment is covered by the munitions list of the export of goods control order 1989. There is no question that it could be used as a barrel of a large artillery gun to fire a projectile of some considerable size. It is definitely subject to export licensing controls,'' said a statement issued by Tweddle.

''Investigations will continue to prove intent and to establish whether offenses have been committed.''

A Customs spokesman refused to elaborate.

The 140-ton sections of pipe are described on export papers as steel pipes worth $2.1 million. They were destined for the Ministry for Industry and Minerals in Iraq.

The Iraqi News Agency denied any weapons had been seized and said the ship's cargo consisted of steel pipes for a petrochemical project in Iraq, the British Broadcasting Corp. said.

''This is just another fabricated story just like the one at Heathrow with the triggers that were allegedly for nuclear weapons,'' Iraqi Ambassador Azmi Al-Salihi said in London.

Executives at Sheffield Forgemasters, which manufactured the equipment, denied producing weapons parts for Iraq.

Chief executive Phillip Wright said his firm made petrochemical pipes for Iraq under a June 1988 contract approved by the Department of Trade and Industry.

''What we made were a series of tubes, and they are not like any sort of a gun, and we do make gun barrels. In fact, they would be recognizable,'' he said.

''Iraq asked us to make gun barrels ... and I said, 'No don't touch them,' and we didn't.''

Officials at Walter Somers Ltd. in Halesowen, near Birmingham, said the equipment it had designed for Iraq was for petroleum production not a gun.

Customs officials ''seized some documents'' from both firms, a Customs spokesman said. ''A couple of people were interviewed,'' he said.

In Washington, White House press secretary Marlin Fitzwater said he could not comment on the seizure of cargo bound for Iraq ''because any information we have would come from intelligence sources.''

Fitzwater said, however, that Sen. Robert Dole of Kansas and his delegation were visiting there with a message from President Bush. ''Certainly in Iraq, they will emphasize our protest over their position on chemical weapons, biological weapons, nuclear triggering devices, etc.''

Ian Hogg, an expert on ordnance design and construction, told The Times of London that the gun almost certainly was intended to fire missiles into the stratosphere to give them the extra range needed to reach sensitive targets.

Experts said one of the few people able to design such a weapon was Gerald

Bull, chief of the Space Research Corp. and a leading authority on long-range, high-caliber artillery. He was found dead in his apartment in Belgium last month with five bullets in his head and back.

Bull had advised Iraq, Iran and South Africa on building heavy weapons.

Sources said the detained gun barrel was contained in eight crates of goods aboard the ship Gur Mariner, which was registered in the Bahamas and chartered to the Iraqi Maritime Organization. The vessel arrived in England from Rotterdam in The Netherlands.

#90102u1380 04/12/1990 ~United Press International

LONDON (APRIL 12) UPI - Britain's annual inflation rate has risen above 8 percent, the highest level in nine months, the government said Thursday.

Prices were up 8.1 percent in the year ending in March, according to figures released by the Central Statistical Office. Mortgage interest rates were responsible for much of the increase, the government said.

The worse-than-expected figures make an early drop in mortgage rates unlikely and will add to Prime Minister Margaret Thatcher's political problems, analysts said. She already faces public disapproval over the poll tax imposed in England and Wales Apr. 1.

The retail price index report said prices rose 1 percent in March against 0.6 percent in February, boosting the annual inflation rate to 8.1 percent from 7.5 percent a month ago.

A Treasury spokesman said that the increase was no surprise and that high mortgage rates were largely to blame. Excluding mortgages, inflation is running at a 6.3 percent annual rate, he said.

Analysts said the inflation rate was higher than anticipated but in line with the consensus that inflation would peak in the summer before dropping.

''The outlook isn't good, but it wasn't made worse,'' said Leo Doyle, an economist with investment bank Kleinwort Benson Ltd. He predicted inflation would peak at 9.5 percent.

Equity and foreign exchange markets were subdued in response to the figures. Many dealers had left for their Easter holiday by the time the figures were released, and any reaction was expected Tuesday when the markets reopen, analysts said.

The pound was lower against the dollar, easing to $1.6425 from the previous day's closing $1.6435.

The Financial Times-Stock Exchange index of 100 leading stocks ended the day 6.6 points higher at 2222.1 points.

#90102u1400 04/12/1990 ~United Press International

NEW YORK (APRIL 12) UPI - Ex-middleweight king Rocky Graziano, the dead-end kid who spent most of his youth locked up and went on to become one of boxing's greatest champions, was in serious condition Thursday following a stroke, officials said.

The 69-year-old former boxer was being treated in the intensive care unit at New York Hospital-Cornell Medical Center where he was brought Sunday after suffering the stroke, a hospital spokeswoman said.

The spokeswoman said Graziano was in serious condition, but declined to release further details at the request of his family.

Jake LaMotta, the former middleweight champ whose rough life and controversial career were brought to the silver screen by Robert DeNiro in the film ''Raging Bull,'' said he was distressed about Graziano's poor health.

''I just found out about it when I was out taking a walk. I hope he's going to get better,'' La Motta said, explaining that the two have been intimate friends since childhood.

''We were kids on the lower east side of New York City together. We were in the same reform school. I'm not going to think negative, I'm going to think positive,'' La Motta added.

Graziano had suffered a heart attack on Feb. 5, and was recently discharged from a local hospital. The fighter's wife, Norma, was ''extremely distraught'' at this latest setback, the News said.

Bert Sugar, editor of Boxing Illustrated and a friend of Graziano's, said the former boxer had been ailing for a long time and may be suffering from Alzheimer's disease.

The former middleweight boxing champion's life as a New York hoodlum who spent much of his youth in reform school and jail and as a primitive, devil-may-care fighter was made into a best-selling book and movie, ''Somebody Up There Likes Me.''

Graziano, who honed his fighting skills on the streets of New York, was a bootleg amateur boxer and turned pro in 1942, boxing for 10 years. He fought 83 times and knocked out 52 opponents but is particularly

remembered for three savage fights with Tony Zale, known then in boxing as ''The Man of Steel.''

Perhaps the most consistently good drawing card for a decade in middleweight history, Graziano estimated he earned more than a million dollars with his fists.

But his career didn't stop when he left the ring, and he earned public respect in the unlikely roles of a television performer on the Martha Raye show from 1953 to 1956, and as a crusader against juvenile delinquency.

Sugar said Graziano was considered one of the best boxers ever and one of the country's most popular prizefighters because fans adored his street guts.

''He was a man of the streets and people flocked to see him,'' Sugar said. ''He had one of the greatest right hands in the history of boxing.''

''Boxing was something that straightened his life out. He once told me that if it wasn't for boxing he would have fried in the electric chair,'' Sugar recalled.

#90102u1414 04/12/1990 ~United Press International

CAPE CANAVERAL, FL (APRIL 12) UPI - An Indonesian satellite stranded in space during a 1984 shuttle mission and rescued 10 months later by spacewalking astronauts is ready for a second launch try Friday, this time using an unmanned Delta rocket.

The Palapa B2R satellite, refurbished by Hughes Aircraft Co. after its return to Earth in November 1984, was scheduled for launch at 6:28 p.m. from the Cape Canaveral Air Force Station adjacent to the Kennedy Space Center. Air Force meteorologists predicted a 90 percent chance of good weather.

''At this point, we're looking very good for launch,'' said a spokesman for Delta-builder McDonnell Douglas Space Systems Co. of Huntington Beach, Calif.

Launch will come on a Friday the 13th, the 20th anniversary of an explosion that rocked the Apollo 13 spacecraft, aborting a landing on the moon in one of the greatest space dramas in history. The three-member crew successfully returned to Earth after swinging around the moon.

Once on station 22,300 miles above the Pacific Ocean equator, Palapa B2R - the ''R'' stands for re-flight - will join two other relay stations already in orbit to help link Indonesia's 13,677 islands with telephone,

television and data communications service.

Palapa B2R, a cylindrical 1,437-pound satellite measuring 22 feet long and 7 feet wide, is equipped with 24 radio transponders, each one capable of carrying 1,000 one-way voice circuits or a color television transmission.

Liftoff Friday will come six days after the successful launch of an identical satellite aboard a Chinese Long March rocket that was stranded in space along with Palapa during a February 1984 shuttle mission.

Both Palapa B2 and Westar 6, identical Hughes 376 communications satellites, were fired into useless orbits when their McDonnell Douglas-built ''payload assist module'' solid-fuel rocket motors misfired after deployment from the shuttle Challenger.

Both satellites were left stranded in useless, lopsided orbits and the aerospace insurance industry was forced to pay $105 million to Western Union, the owner of Westar 6, and some $75 million to Perumtel, the state-owned Indonesian communications agency.

But nine months later, after around-the-clock work by Hughes and the underwriters, who now owned the relay stations, both satellites were rescued by spacewalkers Joe Allen and Dale Gardner, who pulled them aboard the shuttle Discovery in one of the most dramatic space missions ever conducted.

The satellites then were carried back to Earth and returned to Hughes for refurbishment and eventual re-launch. Westar 6 later was sold to a consortium based in Hong Kong, renamed Asiasat 1 and launched last Saturday by a Chinese Long March.

Palapa B2 was bought by Sattel, a private company that contracted with the government of Indonesia to refurbish and relaunch the satellite.

The relay station, whose name means ''national unity,'' was scheduled to be carried into orbit by a commercially built $50 million Delta 2 rocket built by McDonnell Douglas Space Systems Co. of Huntington Beach, Calif.

The Delta 2, an upgraded version of the workhorse Delta rockets launched for years by NASA, was designed to carry military Global Positioning System ''Navstar'' satellites into orbit for the Air Force.

But the $669 million contract to build and launch 20 Delta 2s for the Navstar program required McDonnell Douglas to make the rockets available on a commercial basis as part of a program to encourage development of a private-sector launch industry.

#90102u1472 04/12/1990 ~United Press International

(APRIL 12) UPI - TODAY'S PEOPLE:

LEONA SIGNS FOR THE CAMERAS: Tax cheater Leona Helmsley plans to sign a $42,065,000 check to the IRS for the cameras of ''A Current Affair'' Friday. The check is for the balance of her 1989 taxes and not related to the hotel queen's tax fraud conviction last year. ''She wants the public to know she pays her taxes,'' said a spokeswoman for ''A Current Affair.'' The ceremonial signing, which will take place at the Helmsleys' Harley Sandcastle Hotel in Sarasota, Fla., was arranged by New York Post celebrity columnist Cindy Adams, who also will interview Leona and husband Harry about their troubles with the law.

FUN WITH PHILANDERING: ''I Love You to Death,'' the movie comedy about a woman and her bumbling attempts to have her philandering husband killed, is based on the true story of Tony and Frances Toto and now the Totos are promoting the movie. Frances, who is portrayed in the movie by Tracey Ullman, served four years in prison but is now back with Tony, the Allentown, Pa., pizza man who survived two gunshots from Frances's hitmen. ''Most of the scenes are very real,'' said Tony, who is played by Kevin Kline in the movie. ''The movie is great. It's fantastic. We love it. And it's a message for everybody: crime doesn't pay, cheating doesn't pay.'' But the Totos are getting paid well, according to the Los Angeles Times. The couple reportedly were paid a six-figure sum and will get a share of the movie's profits.

LOWE DOWN SUIT: Sex and selling Suzuki commercials don't mix, according to a Japanese advertising company that is sueing Rob Lowe on the grounds that his sex scandal hurt their cause. The Hakuhod Inc. ad firm said Lowe was chosen to appear in commercials for Cultus, a car Suzuki Motors Co. marketed in Japan, ''because of his positive and wholesome public image, which was to be closely associated with the ... automobile.'' Hakuhod claims that Lowe knew when he renewed the contract in March 1989 that the videotape made with an underage girl and another woman in Atlanta could embarrass him and Suzuki, too. The ads were pulled last May immediately after news of the scandal hit Tokyo. In the suit, Hakuhod claims it was damaged by ''the adverse publicity and negative public image'' of Lowe. Hakuhod wants back the $450,000 it paid Lowe and the $130,000 paid to his company Lucky Star.

MONEY FROM THE DEAD: The Grateful Dead sent a $5,000 check to the Carol DiMaiti Stuart scholarship fund, which was started by the family of the woman killed in Boston's bizarre murder tale. Janie Bischoff, who is working on the fund with Carol's parents, Giusto and Evelyn DiMaiti, said the Dead's contribution was totally unsolicited and that it helped push the fund's total to $401,150. The fund was established to benefit students in the Mission Hill section of Boston because the neighborhood suffered adverse publicity after Carol was killed there last October by her husband Charles Stuart, who initially blamed the killing on a black gunman. Bischoff said it is hoped the first scholarships to Mission Hill residents will be awarded in June.

COLE PORTER FIGHTS AIDS: A new AIDS-fighting project will feature rock stars performing Cole Porter songs. The project, called ''Red, Hot and Blue,'' will include David Byrne of Talking Heads, Sinead O'Connor, U2, Fine Young Cannibals, Annie Lenox, Billy Idol and the Neville Brothers singing Porter songs like ''I Got You Under My Skin,'' ''Everytime We Say Goodbye,'' and ''Who Wants To Be A Millionaire?'' The 90-minute collection will be recorded and videotaped for store sales and TV broadcast (Dec. 1 in the United States on ABC) with the proceeds going to AIDS-related charities around the world. Among the directors contributing videos of musicians performing the Porter songs are Stephen Frears, Jonathan Demme, Jim Jarmusch and Diane Keaton.

SRINAGAR, INDIA (APRIL 12) UPI - City residents complained Thursday of beatings by Indian troops scouring Srinagar for the Moslem separatist killers of three hostages, and said a weeklong curfew was causing growing food shortages.

State-run radio said more than 1,500 homes had been raided since Wednesday night and at least 70 people were arrested. A police source put the total number of detainees since April 6 at more than 500.

Worsening food shortages and other hardships have disturbed Srinagar's 800,000 residents who have been confined to their homes without a chance to restock basic goods.

The curfew was imposed April 6 after the Jammu and Kashmir Students Liberation Front seized three hostages. The group has demanded the release of three jailed militants, an end to the house-to-house searches and the lifting of the curfew.

Residents of the militant stronghold of Batmaloo, subjected to three rounds of raids, charged that troops beat young men before taking them away.

The searches continued Thursday, with military trucks outfitted with public address systems broadcasting reminders that curfew violators ''will be shot dead,'' residents reported.

Sayeed Shamsuddin, a retired police officer, said soldiers who searched homes in the Lal Nagar area locked his son, a surgeon, inside a room of their house and beat the soles of his feet with bamboo canes while questioning him.

''We heard the army men shouting at him and he was pleading for mercy. We knocked at the door constantly and they opened it,'' Shamsuddin said. ''We saw our son lying on his back on the floor and they were beating his feet with canes.

''I had an argument with them. They were about to beat me too, but my wife started screaming and they let me go,'' he said.

Officials could not be immediately reached for comment on the charges, although the government has vehemently denied that beatings have taken place.

Among those arrested were prominent politician Abdul Ghani Lone and Dr. Mohammad Azfal Wani, a neurosurgeon who was reportedly accused of aiding in the escape Sunday of Yaseem Malik, an extremist leader, witnesses said. Officials had originally claimed Malik was killed in a security force raid.

Also taken away were the fathers of several key militants helping to engineer a popular uprising against Indian rule of predominantly Moslem Kashmir that erupted in mid-January after security forces shot protesters dead. More than 180 people have died since then.

The police source said the crackdown was being conducted almost exclusively by the military. ''We have been asked not to interfere in the combing operation,'' he said.

The slayings redoubled the government's determination to find the killers, with troops Wednesday fanning out across the city.

Residents said people in many areas had organized relief committees, whose members have been braving the curfew to slip through Srinagar's mazes of narrow lanes, collecting rice and cash from those with enough to spare.

The supplies are then brought to back-alley mosques, from where they are distributed to the needy, who collect their rations also at the risk of being shot, residents said.

One witness said troops sealing approaches to Srinagar, the summer capital

of Jammu and Kashmir state and the focal point of the anti-India insurrection, prevented milk sellers from entering the city on Thursday morning.

Thousands of troops in combat gear raided different parts of the city, 400 miles north of New Delhi, throughout Wednesday night, waking people up and forcing them to stand for hours outside their homes while they were searched, residents said.

The searches continued after daybreak as military trucks outfitted with public address systems rolled through many areas, broadcasting reminders that people seen breaking curfew will be shot dead, residents reported.

Haji Ghulam Mohammad Dar, the chairman of the Kashmir Red Crescent Society - the equivalent of the local Red Cross - said he has sent a letter to the United Nations asking that it intercede with the local government.

CHARLESTON, WV (APRIL 12) UPI - Former Gov. Arch Moore was indicted Thursday on five federal counts, ranging from extortion to income tax violation, and authorities announced he had agreed to plead guilty.

U.S. Attorney Michael Carey said Moore also agreed to cooperate fully with a probe into political corruption in West Virginia.

Carey said an agreement had been reached with Moore, calling for him to plead guilty to the entire indictment handed up in U.S. District Court in Charleston.

The first count charged Moore with using his position as governor-elect and governor to extort about $573,000 in 1985. Moore also is charged in two counts of filing false personnel income tax returns for the years 1984 and 1985.

A fourth count charged him with mail fraud, for allegedly scheming to defraud the state of his salary and other benefits as governor by funneling about $100,000 in cash to his 1984 election.

The fifth count charged him with obstruction of justice by falsifying documents, trying to get witnesses to give false testimony and giving false testimony to federal agents.

#90102u1582 04/12/1990 ~United Press International

MOSCOW (APRIL 12) UPI - Senate Majority Leader George Mitchell warned Soviet President Mikhail Gorbachev Thursday that a use of force in Lithuania would have ''grave consequences'' for U.S.-Soviet relations.

Mitchell, leading a delegation of U.S. Democratic senators on a Soviet visit that also included meetings with Lithuanian leaders in Leningrad, said Gorbachev assured the group he intended to resolve the crisis over Lithuania's desire for independence through peaceful means.

Asked whether he was convinced the Soviets would not use force in Lithuania, Mitchell said no one can predict the future.

''We are not in a position to request or obtain guarantees,'' the Maine senator said.

He said the question of possible U.S. recognition of an independent Lithuania did not arise in the meeting with Gorbachev, but he added that he had restated U.S. policy does not recognize the incorporation of the Baltic republics into the Soviet Union. The states were annexed by the Soviet Union 50 years ago.

''The use of force to resolve the situation in Lithuania would, I advised President Gorbachev, have grave consequences for the relations between out two countries,'' Mitchell said at a news conference after the meetings, adding that he had made a nearly identical statement to Gorbachev.

Mitchell said there was no discussion of military shows of force by the Soviets in Lithuania since the republic's March 11 declaration of independence and no justification was offered for the actions.

The Senate delegation refused to say what they thought of the Soviet handling of the situation. ''This is a very delicate situation and we did not want to do or say anything to aggravate it,'' Mitchell said.

Gorbachev told the delegation that he preferred to settle the crisis peacefully, but said much of the decision on how the dispute would end was up to the Lithuanians, the official Tass news agency reported.

''And senators, like Americans in general, should realize not everything depends on us,'' Gorbachev said. ''Senators, like Americans in general, should realize this and avoid giving lectures. They might prompt resentment in our society affecting Soviet-American relations.''

Tass said there was a mass student rally in the Lithuanian capital of Vilnius Thursday to support the independence declaration, but the Soviet news agency gave no details.

Mitchell said Soviet officials whom the senators met had said several times that congressional resolutions criticizing Soviet actions in Lithuania ''were not helpful.''

He said the Lithuanian leaders the senators met on their trip simply described the situation in the republic and ''did not make any specific demands.''

Besides Mitchell, the Senate Democratic delegation included Bill Bradley of New Jersey, Thomas Daschle of South Dakota, Wyche Fowler of Georgia, John Glenn of Ohio, Paul Sarbanes of Maryland, and James Sasser of Tennessee.

#90102u1635 04/12/1990 ~United Press International

VATICAN CITY (APRIL 12) UPI - Pope John Paul II washed and kissed the feet of 12 priests Thursday during a traditional Holy Week mass commemorating Christ's Last Supper with his disciples before his crucifixion.

The pope's reenactment of Christ's gesture of humility toward his disciples was part of three days of rites in which the world's 840 million Roman Catholics observe the crucifixion, death and resurrection of Jesus.

The pope was driven from the Vatican to the St. John in Lateran Basilica near Rome's southern gate for what is known as the Mass of the Last Supper.

The washing of feet during the mass originated in the 6th century. But the custom lapsed for centuries until the late Pope John XXIII revived it in 1959.

This year the 12 priests whose feet were washed included eight from the Rome seminary, three missionaries and a Sudanese priest.

John Paul poured water from a silver pitcher over the right foot of each priest, then dried it and kissed it.

In his homily the pope spoke of the sacrament of the Eucharist, which was instituted by Christ during the Last Supper.

As is customary, the polyglot pope also delivered brief prayers in various languages.

The mass was attended by the diplomatic corps accredited to the Holy See and by several thousand pilgrims and tourists who filled the basilica, known as the ''mother of all churches.''

The Holy Thursday rites started with the morning ''Mass of the Chrism,'' during which the pope blessed chalices containing the ''holy oil'' used in baptisms, confirmations, the ordination of priests and other ceremonies.

The mass was attended by cardinals, bishops, more than 1,000 priests and some 10,000 tourists and pilgrims from all over the world.

The rites Thursday mark the foundation of the priesthood as successors of the apostles and priests are required to renew their vows.

''Participating in the morning liturgy of Holy Thursday, we turn the eyes of our faith toward the Easter mystery of Christ,'' John Paul said in his homily. ''In this event Jesus Christ himself was revealed as the first born of the dead and the prince of kings on Earth.''

He said it was through Christ's will and grace that priests became ''the administrators of the mystery of God.''

''This liturgy, while it recalls the gift we received on the day of our priestly ordination, at the same time speaks to us of our particular vocation to give ourselves to others,'' the pope said.

On Friday church bells all over the world are silent and altars are stripped of all but a cross and candles in mourning for Christ on the cross.

As has been his practice for the past 11 years, John Paul is expected to slip quietly into St. Peter's Basilica Friday morning to hear the confessions of a few ordinary pilgrims picked from the crowd visiting the Vatican.

On Friday evening the pope leads a ''Way of the Cross'' procession from the ancient Colosseum and up the Palatine hill.

After the traditional Saturday midnight mass, the church bells ring to announce the joy of Christ's resurrection.

On Sunday the pope celebrates mass on the steps of the basilica and gives his blessing Urbi et Orbi (To the city and the world) before some 200,000 pilgrims and tourists in St. Peter's square.

#90102u1653 04/12/1990 ~United Press International

JERUSALEM (APRIL 12) UPI - Prime Minister Yitzhak Shamir predicted Thursday he would be able to block the creation of a government led by Labor's Shimon Peres and establish a coalition headed by his right-wing Likud Party.

''First of all we will prevent the setting up of a government headed by Labor,'' Shamir told Army Radio. ''After this happens, after the setting up of such a government is prevented, I suppose that the president will impose on someone from the Likud the task of setting up a government.''

Peres's plans to present a Labor-led coalition for parliamentary approval were dashed Wednesday when two ultra-Orthodox religious party members of Parliament withdrew their backing despite a signed agreement.

President Chaim Herzog gave Peres a 15-day extension of his initial 21-day mandate to form a government. The Labor leader decided against seeking a vote of confidence because of the last-minute turn of events.

Shamir's government fell in a vote of no-confidence March 15, two days after the 15-month-old Labor-Likud ''national unity'' government coalition collapsed. Shamir remains the caretaker prime minister of a transitional government until a new coalition is formed.

While Peres has been trying to collect a majority in the 120-member Israeli Parliament, the Knesset, to win a vote of confidence, Shamir has been lobbying for support to block the Labor leader's efforts.

Shamir predicted Likud would be able to establish a coalition and win a Knesset vote of confidence if it received a presidential mandate to form a government. Asked whether he would consider another national unity government, Shamir said, ''If they suggest it, we will examine it.''

Shortly after the collapse of the government last month, Shamir turned down a request by Peres to join another coalition government.

Amid reports of internal Labor disputes and possible calls of Peres's removal as head of the party, former Defense Minister Yitzhak Rabin said Thursday he would continue to help Peres establish a government under the conditions of the Labor leader's presidential mandate. Rabin, an architect of Israel's peace initiative, is considered a possible replacement for Peres as leader of the center-left Labor Party.

''I see national and party importance to prevent the setting up of a right-wing narrow government headed by the Likud,'' Rabin said in a statement. ''In time, the institutions of the Labor will have to take steps to ensure this.''

#90102u1658 04/12/1990 ~United Press International
PRAGUE, CZECHOSLOVAKIA (APRIL 12) UPI - PLO chairman Yasser Arafat arrived in Czechoslovakia Thursday for a two-day visit at the invitation of President Vaclav Havel, the official news agency CTK said.

Havel greeted Arafat at Ruzyne airport, which was decorated with their flags, CTK said.

Diplomatic observers said Havel extended the invitation to balance his own trip to Israel, tentatively scheduled for April 26. Czechoslovakia renewed diplomatic relations with Israel Feb. 9.

At a news conference, Arafat said, ''I am happy to be in this friendly country again.''

The PLO leader first visited Czechoslovakia in 1955 as chairman of the Union of Palestinian students, and returned several times during communist rule.

Czechoslovakia was one of the first nations to support the call for a separate Palestinian homeland in 1948.

''This nation has always been on the side of a just cause of our people, its right to freedom and democracy,'' he said.

#90102u1662 04/12/1990 ~United Press International
EAST BERLIN (APRIL 12) UPI - East Germany's parliament Thursday elected the nation's first non-communist leader and, reversing a 40-year policy, accepted responsibility for the Holocaust and apologized to Jews worldwide.

In its dramatic second session, the country's first freely elected parliament chose conservative leader Lothar de Maiziere as prime minister and swore in the 23 members of the broad-based coalition government he will lead.

The installation capped 10 days of arduous negotiations between conservatives, social-democrats and liberals, formalized the end of four decades of communist rule and set the country firmly on the way to reunification with West Germany.

In an agreement signed just before the historic parliamentary session, the seven parties involved in the negotiations signed a coalition agreement that called for swift but responsible German reunification.

The parties agreed that a united Germany would be part of the North Atlantic Treaty Organization during a transitional period until a European security system is developed.

They also said Soviet troops would remain in what is now East Germany during the transitional period.

The election of de Maiziere came as no surprise after the 50-year-old lawyer led the conservative Christian Democratic Union to electoral victory in East Germany's first free elections March 18, giving the party 163 of the 400 parliamentary seats.

De Maiziere was elected prime minister by 265 votes to 108.

Earlier in the day, deputies adopted a dramatic declaration, recognizing that East Germans shared responsibility for the Holocaust and asking Jews to forgive them for the crimes committed by Nazis during World War II.

''We feel sorrow and shame and admit to this burden of German history,'' they said in the statement read by parliamentary leader Sabine Bergmann-Pohl.

The deputies stood in silence during the reading of the document, which reversed 40 years of policy by communist leadership that claimed East Germans could not be blamed for the Holocaust because their state was only founded after the war, in 1949.

''We ask Jews all over the world for forgiveness. We ask the people of Israel for forgiveness for the hypocrisy of official GDR (East German) policies toward the state of Israel and for the persecution and humiliation of Jewish citizens in our country, even after 1945,'' the parliamentarians said.

They said they felt it their duty to give particular support and protection to Jewish religion, culture and tradition in Germany and to maintain Jewish cemetaries, synagogues and memorials.

The statement, adopted almost unanimously, said that parliament, in the name of East German citizens, admitted ''co-responsibility for the humiliation, banishment and murder of Jewish women, men and children ...''

''Nationalism and racialistic frenzy led to genocide, particularly against Jews from all European nations, against the peoples of the Soviet Union, the Polish people and the Sinti and Rom peoples,'' the statement said, referring to those commonly known as Gypsies.

It said Germans should not forget the past, but learn from it.

Former Prime Minister Hans Modrow - a pro-reform communist - earlier acknowledged East Germany's moral responsibility for the Holocaust and agreed the government would provide material support to Jewish victims of the Nazi terror.

Modrow made the statement in February, amid talks between East German and Israeli officials on the establishment of diplomatic ties between the two countries.

In the statement adopted Thursday, parliamentarians also apologized for the former communist authorities' backing of the Soviet invasion of Czechoslovakia in 1968.

They further pledged that Germany would not seek to regain territories it ceded to Poland after World War II and said they recognized East Germany's borders with Poland.

The deputies reaffirmed that the German states would seek reunification within a European framework and stressed that ''the changes in our country would not have been possible without the new thinking and perestroika in the Soviet Union.''

West German Chancellor Helmut Kohl sent a telegram of congratulations to de Maiziere, saying his election was what East Germans have wished for.

-30- 4554
#90102u1670 04/12/1990 ~United Press International
BY UNITED PRESS INTERNATIONAL

(APRIL 12) UPI - Lothar de Maiziere, elected Thursday to become East Germany's first non-Communist leader, is a soft-spoken lawyer and former viola player who only reluctantly entered the political arena.

A slight and unassuming man who readily admits he is not a Western-style, charismatic leader, de Maiziere once said: ''I am a politician by duty rather than calling.''

But his common-sense approach to the problems facing a changing East Germany and his firm commitment to swift German reunification won him high marks with voters in March 18 elections - the first free polls in East Germany's 40-year history.

He also earned the respect of fellow conservatives for managing to clean up the image of his Christian Democratic Union - which had been one of the four block parties allied to the communists until last fall's ouster of the Stalinist leadership.

The CDU won 163 parliamentary seats in the recent elections, more than any other party. De Maiziere was elected prime minister after receiving the backing of a comfortable ed the tricky task of bringing together conservatives,
 social-democrats and liberals to form a new broad-based coalition government.

De Maiziere, who is married and has three daughters, was born March 2, 1940, the descendent of a Huguenot family that fled France to escape religious persecution several centuries ago.

He joined the CDU in 1956 but took care not to play too important a role in the party.

After completing musical studies, de Maiziere became a professional viola player but was eventually forced to give up his 15-year career because of an arm injury.

He went on to qualify as a lawyer after taking correspondence classes at East Berlin's Humboldt University from 1969-75. He also joined the synod of the Federation of Evangelical Churches in East Germany and was appointed its vice-president in 1986.

De Maiziere began playing a more forceful role in party affairs after social unrest rocked East Germany last fall. When Gerald Goetting, the CDU's long-serving leader, was forced to resign late last year following allegations of corruption, the party turned to de Maiziere for leadership.

He kept a low-profile during the campaign that led to the March elections and his presence was largely overshadowed by West German chancellor Helmut Kohl, who gave his backing to East German conservatives and who drew large cheering crowds in the East.

''I don't like the limelight,'' de Maiziere said recently.

But now, with international attention focused on Germany, he will find it hard to escape.

RIO DE JANEIRO, BRAZIL (APRIL 12) UPI - Facing an Apr. 16 deadline, Brazil's Congress approved the most drastic measures of President Fernando Collor de Mello's stabilization plan Thursday, authorizing an 18-month freeze on checking and savings accounts.

The 249-204 vote in favor of the plan was a major victory for Collor, whose administration is less than a month old and who directly controls only a handful of the 570 votes in Congress.

If the measures had not made it through Congress by Apr. 16, they would have been automatically annulled under constitutional law.

The 18-month freeze on all but $1,000 in savings accounts and $500 in checking accounts was the core of Collor's program, which also calls for selling off state companies, cutting the number of ministries to 12 from 23, instituting tax hikes, disposing of government-owned real estate, implementing a price freeze, eliminating state subsidies and reducing tariff barriers for imports.

The plan, by reducing the money supply, has virtually stopped inflation, which in the 12-month period ending Mar. 31 amounted to 4,800 percent.

Inflation is expected to be nearly zero in April, according to government officials, after an 84 percent rise in the cost of living in March.

At the same time, the drastic plan has produced an immediate business

recession.

An estimated 120,000 workers have been laid off and 220,000 were given induced vacations. Another 250,000 workers accepted pay cuts in exchange for job security, according to Labor Ministry and union figures.

Leftists and leaders of the Brazilian Democratic Movement, the nation's largest political party, fought the plan, but 38 of the party's 119 legislators defected to the Collor camp, enabling the legislation to be approved.

Congress also rejected a move by BDM representatives to increase the amount of money that can be withdrawn from savings accounts to $12,000 from $1,000.

''Congress recognized the importance of the plan, combating inflating and rebuilding the economy,'' said Economy Minister Zelia Cardoso de Mello following Collor's legislative victory.

''Our first step was fighting inflation,'' she said. ''Our new step is economic growth, which will be regained.''

BDM leader Ulysses Guimaraes said he was ''disappointed'' at the vote. He said BDM congressmen who backed Collor will be sanctioned.

On Monday and Wednesday this week, Congress authorized the sale of most of the 188 state-owned companies.

While the largest state enterprises, such as oil and communications, will remain in government hands, important official entities like the Sugar and Alcohol Institute and the airplane manufacturing company are to be sold to the private sector.

WASHINGTON (APRIL 12) UPI - Attorneys for Charles Keating, former chairman of the failed Lincoln Savings and Loan Association, Thursday portrayed the executive as the victim of a government vendetta to put him out of business.

Keating said his troubles with regulators intensified after his strong support for changes in federal regulations limiting the amount of direct investments thrifts could make.

''We were starting to become lightening rods for critical comment and it was getting in our way of doing business,'' Keating told U.S. District Court Judge Stanley Sporkin, who is presiding over a pretrial hearing on a government motion seeking to dismiss a lawsuit Keating filed last May seeking to regain control of Lincoln.

Federal regulators, who seized the Irvine, Calif., thrift last April, have said protecting Lincoln's depositors from losses could cost taxpayers as much as $2.5 billion.

Despite the frequent objections of government attorneys, Keating detailed what he termed the ''extreme hostility'' of federal regulators toward Lincoln.

At one point, in overruling an objection, Sporkin said he wanted to make sure Keating had every opportunity to tell his side of the Lincoln story.

''It is his defense that the purported reasons for seizing Lincoln were masking the real reason that there was a vendetta of some kind,'' Sporkin said.

Sporkin appeared fascinated as Keating outlined the friction between Lincoln and its regulators, which, Keating said, caused the accounting firm of Arthur Andersen to drop Lincoln as a client.

''What has happened here is one day there is a takeover of an institution and it is justified on a certain basis,'' Sporkin said. ''The more I get into this, the more I think an organization has a right to have a hearing to explore what happened.''

The direct investment flap stemmed from a 1986 report opposing the tightening of previously loosened regulations governing the amount and types of investments thrifts could make.

The report was financed by Keating and prepared by George Benston and Alan Greenspan, then a private economist and now chairman of the Federal Reserve System.

Benston was subsequently nominated to become a member of the Federal Home Loan Bank Board but was staunchly opposed by the United States League of Savings Institutions, which at the time was headed by William O'Connell.

Keating said his opposition to the rule created friction with O'Connell and with Edwin Gray, then head of the FHLBB.

O'Connell's son, Kevin, was later put in charge of the government's examination of Lincoln. Based on this examination, Lincoln was seized by federal regulators.

Keating said he was not aware of the O'Connell's relationship but was aware of the examiner's hostility toward Lincoln.

''The contacts with O'Connell were extremely hostile,'' Keating said. ''I didn't know who he was or where he was coming from.''

Keating's attorneys produced a memo O'Connell wrote to his superior, Alvin Smuzynski, in which some of Lincoln's deals were called ''scams'' and it's employees ''thieves.''

''Under every document is another scam and they (OTS attorneys) seem to finally understand what type of thieves we are dealing with and why we need to get them out,'' read the memo dated one week before regulators seized Lincoln.

James Murphy, an OTS attorney, said the memo referred to the withdrawal of $40 million by Lincoln's subsidiaries just days before the thrift was placed into bankruptcy protection by Keating.

In an interview, O'Connell said he does not think his appointment to the Lincoln case represents a conflict of interest. O'Connell said he served in a supervisorial role and was not involved in the enforcement of regulations against Lincoln.

He also said he does not believe his father, who is now retired, held a grudge against the thrift or Keating.

After the hearing, Murphy denied federal regulators were out to get Keating.

''There's nothing to it,'' he said of Keating's ''vendetta'' theory. ''I don't think that's true at all.''

#90102u1743 04/12/1990 ~United Press International

WASHINGTON (APRIL 12) UPI - A stray piece of cloth - perhaps left behind accidentally by a technician - apparently caused the $250 million explosion of a rocket in February that destroyed two Japanese communications satellites, officials said Thursday.

Arianespace announced Monday that an inquiry into the Feb. 22 accident found it was caused by a blocked water pipe an a rocket engine. In a statement Thursday, the company acknowledged the pipe was blocked by a piece of cloth.

The announcement came after the water valve and flexible tubing from the rocket's engine were sent from French Guiana where the launch occurred to the Saclay Jet Propulsion Test Center near Paris for testing, the statement said.

''This investigation confirms the Board of Inquiry's original hypothesis that the D engine's water supply line was blocked by a foreign body. In fact, it was a piece of cloth that obstructed the main water valve,'' the statement said.

''The most likely cause for the presence of this textile material is tied to non-standard servicing on this tubing, as initially announced by the Board of Inquiry,'' it said.

Spokeswoman Michelle Lyle said in an interview that the cloth may have been inadvertantly left behind while technicians were working on the pipe in the rocket.

''It's very likely it was a human error,'' she said. ''They had to do some work on the pipe. That's when the piece of cloth got introduced into the pipe.''

The dramatic failure of the 192-foot three-stage rocket two minutes after liftoff from a jungle launch pad grounded Europe's space program. The mishap ended a string of 17 successful launchs for Arianespace, a consortium that competes with the U.S. rocket industry.

Lost with the rocket was Superbird 2, the second in a series of high-power Japanes communications satellites, and BS-2X, a three-channel direct broadcast relay station.

Arianspace said it was implementing recommendations from the inquiry board to prevent future problems, and flights should resume sometime next summer.

#90102u1748 04/12/1990 ~United Press International
WASHINGTON (APRIL 12) UPI - Cost estimates of 95 major U.S. weapons programs rose a hefty $31 billion in a four-month period ending Dec. 31, primarily because of higher inflation, the Pentagon announced Thursday.

The figures are contained in the Pentagon's Selected Acquisition Reports, or SARs, which are sent to Congress as a summary of the latest estimates of cost, schedule and technical status of major defense systems.

This latest quarterly report for 1989 estimates that, as of Dec. 31, 1989, the 95 weapons programs will cost $843.8 billion - about $31 billion more than year-end estimates issued Sept. 1.

The cost increase of $30.981 billion, or 3.8 percent, ''was due primarily to increased outyear inflation rates (which account for $26.5 billion of the total),'' the Pentagon said.

The truck-mobile Midgetman missile rose nearly $2 billion, or 35.1 percent from $5.4 billion to $7.3 billion, the Pentagon said.

Air Force spokesman Roy Lietza said this increase was somewhat deceptive and primarily the result of the ''reintroduction of money that was taken out before'' when the Pentagon sought to terminate the program and Congress reinstated it.

Another large percentage increase, a 28.4 percent jump, was estimated for the Air Force's Advanced Medium-Range Air-to-Air Missile. AMRAAM's program rose $3.3 billion, from $11.6 billion to $14.9 billion, due primarily to projected costs in future years and ''reduced competition savings assumptions.''

WASHINGTON (APRIL 12) UPI - President Bush and Vice President Dan Quayle demonstrated differences over campaign funding on their 1989 income tax forms released by the White House Thursday.

Bush and his wife, Barbara, checked boxes on their joint form, designating $1 each to the Federal Election Commission to help publicly finance presidential campaigns.

Quayle and his wife, Marilyn, however, declined to do so. A spokesman for the Internal Revenue Service said figures show that only about 20 percent of taxpayers earmark $1 of their taxes to the campaign fund, begun in 1972.

#90102u1767 04/12/1990 ~United Press International
GENEVA (APRIL 12) UPI - Exiled former King Michael abandoned plans to return to his native Romania Thursday after the Bucharest government, warning of possible violence, revoked his entry visa.

''I just wanted to be in my country for Easter,'' the former monarch told a news conference in Zurich, from where he was to have flown to Bucharest for his first visit in 42 years.

Clutching his passport in his hands and flanked by his wife, the former Queen Ann, Michael said it was a ''very sad day when a country no longer accepts its citizens.''

He said his planned trip to Romania after four decades in exile was ''entirely motivated by personal and spiritual reasons connected with my wish to spend Easter in my country.'' He said he still hopes to return to Romania as soon as possible.

In an interview later in the day on Swiss television, Michael denied his trip to Romania was planned purely for political purposes - as the government had charged.

''Is it a political decision to go to a country to see the graves of your grandparents?'' asked Michael, near tears. ''Is it a political decision to go to a country of which I was - am - a citizen?

''No, it is a political decision to keep me out. Easter is a very special time for us (Orthodox Christians) and I had wanted to spend it, for the first time since I was a young man, in my country,'' he said.

Michael, who abdicated in 1947 after the communist takeover, flew from

Geneva to Zurich on the first leg of his journey before aborting the trip. Earlier, the air carrier Swiss Air warned it would not allow Michael to fly to Romania without a visa.

''We could be fined if we take a passenger to a destination for which he doesn't have a visa,'' said Gaston Couterier, a spokesman for Swiss Air in Geneva. ''We have heard from our office in Bucharest that his visa has been canceled and we could not have a situation where the plane would go to Bucharest but he would not be able to get off.''

Romania canceled entry visas for Michael, 68, and his family only hours before they were scheduled to depart for Bucharest.

The move came a day after the government formally asked him to postpone his trip until after May 20 elections. The government warned of possible violence during the turbulent period leading up to the country's first democratic vote after more than 40 years of communist rule, which ended when dictator Nicolae Ceausescu was ousted and executed last December.

But aides to the former monarch said he planned to go ahead with the visit.

''And if something happens ... then the government is not really free,'' an aide said.

In Bucharest, about 100 pro-monarchy demonstrators staged a rally in the capital to demand the return of the former king.

''He's not coming for the elections. He's just coming for a nice Easter feast,'' said Julia Dobre, 23, a student who was among the demonstrators.

''It's his right to come. He is a symbol for us. He's a part of our history and maybe of our future,'' she said, adding that restoring the monarchy might help solve Romania's myriad problems.

The reaction to the government's last-minute decision appeared to be mixed. Although few Romanians support the idea of restoring the monarchy, many expressed an interest in at least seeing what the former king looks like.

Although Michael has publicly stated he does not seek the throne and has no political ambitions, the provisional government is concerned about the potential for unrest.

''Regretfully, it was learned the king and his entourage failed to grasp the seriousness of the situation, persisting in his position to take a trip that is as much untimely as it is damaging to their own prestige,'' the government said in a statement carried by the official news agency Rompres.

It said visas for the former king and his family were withdrawn, and ''instructions were issued to all border crossings to take action accordingly.''

(APRIL 12) UPI - British Prime Minster Thatcher heads to Bermuda today, where she will hold a day of talks tomorrow with President Bush. Thatcher and Bush will discuss the recent political changes in Eastern Europe, including the effect of a unified Germany. The prime minister left London this morning aboard a Royal Air Force jet.

Sources say NASA managers have decided to replace a faulty hydraulic power device aboard the space shuttle Discovery, delaying the launch of the Hubble Space Telescope until around April 25th. The mission was postponed Tuesday morning. The unexpected work also threatens to delay the May 9th flight of the shuttle Columbia on a Spacelab astronomy mission.

Greyhound Lines is getting back to doing the driving... restoring service to 286 communities left without service since the beginning of a driver strike 40 days ago. The company says the 28 percent increase in service means Greyhound will be back to almost three-fourths of its pre-strike scheduled service.

Jury selection is under way again today in the case of the man accused of shooting 16-year-old Yusef Hawkins in a racial slaying in Bensonhurst, New York, last August. As of yesterday, 10 jurors had been selected in the trial of Joseph Fama. Lawyers hope to complete jury selection this week and begin opening arguments in the case next week.

#90102u1797 04/12/1990 ~United Press International

PENSACOLA, FL (APRIL 12) UPI - One day after he learned he had been released from house arrest and probation, an activist blocked by a court from pursuing his anti-abortion activities was back picketing a clinic Thursday.

John Burt, 49, a leader of the local anti-abortion movement in its confrontational past, held a picket sign showing a decapitated fetus in a jar when he and a handful of others showed up Thursday outside the Ladies Center.

Burt said he was grateful to be free.

''I have to get out and re-evaluate things in Pensacola,'' said Burt, who found out Wednesday he was released from house arrest and probation. ''I've been kind of out of circulation for three and a half years.''

Burt was a spark behind the local anti-abortion movement during the mid-1980s. From 1984 until 1986, Pensacola was often in the national spotlight over the abortion issue and Burt was often in the center.

In March 1985 he tried to show a 20-week-old fetus on a television newscast. He called the fetus ''Baby Charlie,'' and for the next 10 months he took it to demonstrations until it was buried in January 1986.

Two months later Burt and three others were arrested after storming the Ladies Center clinic. He was convicted of burglary and resisting arrest and was sentenced to time served.

He was released on the stipulation that he curtail his anti-abortion activities.

During the time he was banned from his anti-abortion activities, he concentrated on his ministry - which included casting demons from the possessed or oppressed.

But Burt got into trouble again in May 1988 when he was seen driving past the Ladies Center with a man later arrested with explosives materials in his car. Burt was placed under house arrest for violating conditions of his probation.

He was not scheduled for release from probation until Aug. 17 but twice applied for an early release. Judge William Anderson agreed to release him April 2 after a pastor Burt declined to identify spoke to the judge.

Burt said he did not learn about the ruling until Wednesday.

#90102u1798 04/12/1990 ~United Press International

WASHINGTON (APRIL 12) UPI - President Bush was diagnosed as ''in truly excellent health'' Thursday after a lengthy annual physical that detected the early stages of glaucoma in his left eye.

White House press secretary Marlin Fitzwater said, however, that ''extensive visual testing revealed no loss of any aspect of his visual acuity'' as a result of the glaucoma.

The president, speaking later with reporters, said he was not even aware of the condition that affects an estimated 2 million Americans and made a joking reference to critics during the campaign who said he lacked an overall vision.

''I take a drop now ... one in the morning and one at night but the vision is very good on this,'' Bush said, ''the vision thing is working well.''

Reporting on the more than four hours of comprehensive tests, Fitzwater said most of his tests turned up normal, but ''an early glaucoma of his left eye was detected'' that will require permanent medication.

The glaucoma should not restrict his activites and Bush's personal physician, Dr. Burton Lee, declared the president healthy.

''President Bush is in truly excellent health,'' Fitzwater quoted the doctor as saying. ''He continues to keep extremely fit through vigorous physical activities.''

Bush, returning to the White House, flashed thumbs-up and declared ''all is well.'' He told reporters later in the picture-taking session that he felt ''very very good'' about the test results at Bethesda Naval Hospital and that he has felt no symptoms of the glaucoma.

''I haven't felt a thing, haven't felt it at all,'' Bush said.

And when asked if his vision would remain unimpaired, he added, ''Yeh, I think so because they've detected very little change over the last year. ... So it hadn't deteriorated that much, they tell me, but there is some technical problem.''

To treat the condition, Bush will receive Betagan eye drops, one drop every 12 hours, and will continue the medication permanently.

Glaucoma is characterized by abnormally high fluid pressure within the eye. If uncorrected, that excess pressure squeezes the optic nerve, the eye's communication line to the brain, impairing peripheral vision.

The risk of glaucoma increases with age. It often develops unnoticed and most commonly is treated with eye drops.

The final result can be blindness. About 62,000 victims are legally blind from glaucoma.

''Glaucoma, when detected early, generally does not result in visual loss with appropriate treatment. Most patients are controlled on eye drops alone,'' said Dr. Henry Jampel, an assistant professor of ophthalmology at Johns Hopkins medical school in Baltimore.

Mrs. Bush also has been treated for eye problems related to Graves disease a hormone disorder caused by a hyperactive thyroid gland.

Fitzwater did not describe what doctors meant by ''an early glaucoma.''

The 65-year-old president spent about four hours at the hospital and sported sunglasses on his departure, presumably to shield eyes that were dilated as part of the examination.

The spokesman also said that the president, who wears glasses to read, had had a stye in his right eye for the past week, ''which is almost resolved as the result of treatments with soaks and antibiotics.''

Otherwise, Bush's chest X-ray was normal, X-rays of his hips and neck continued to show the mild degenerative osteoarthritis he has suffered from for years, and a urinalysis, blood tests and stress tests showed no abnormalities, Fitzwater said.

The physicians said Bush, who has a slight hearing loss that was sustained during his flying days in World War II and allergies related to bee stings and seasonal changes, also showed ''no significant problem or change'' in dermatology tests, and ''his allergy problems remain minimal and unchanged.''

Bush went to the hospital on the eve of his trip to Bermuda where he will meet with British Prime Minister Margaret Thatcher on Friday.

#90102u1899 04/12/1990 ~United Press International

ANCHORAGE, AK (APRIL 12) UPI - A June 18 trial date has been set for Exxon on federal criminal charges in the nation's largest oil spill, but lawyers said Thursday the date was much too soon.

Meanwhile, Exxon Valdez Capt. Joseph Hazelwood declared his conviction wrong and his sentence excessive in the Exxon Valdez spill last year.

The Justice Department said no new settlement talks were under way with Exxon and that the oil company would have admitted guilt under a plea bargain proposal that fell apart, leading to the current indictment against the company.

Hazelwood defense lawyer Dick Madson said in a statement of appeal Thursday that the Exxon Valdez skipper's lone conviction should be overturned and his sentence thrown out.

''The sentence imposed was illegal or excessive,'' Madson said, because the 1,000 hours of beach cleanup work ordered by the judge is double the maximum 90-day jail term. He said that with credit for good time Hazelwood could be freed from prison after serving 60 days, but would have to spend 25 standard 40-hour work weeks performing unpaid shoreline cleanup.

''That's like making him a slave for six months,'' Madson said from his Fairbanks office.

He also complained that the $50,000 restitution was imposed without a hearing to determine its appropriateness and Hazelwood's ability to pay.

A jury March 22 found Hazelwood innocent of three serious charges of being reckless and drunk while in command of the tanker but convicted him of negligent discharge of oil, a misdemeanor.

Madson's one-page statement of appeal stays the sentence. Appeal briefs will be filed later.

Hazelwood, 43, of Huntington, N.Y., still faces a Coast Guard licensing hearing and is named in many of the 150 civil suits against Exxon arising out of the March 24, 1989 grounding and 11-million-gallon spill.

Exxon and its subsidiary, Exxon Shipping Co., pleaded innocent to five criminal charges Monday at arraignment in U.S. District Court. No trial date was set then but now has been set for June 18.

Exxon Corp. lawyer Patrick Lynch laughed out loud in his Los Angeles office Thursday upon learning from a reporter that Judge H. Russel Holland had just scheduled trial for mid-June.

Lynch said lawyers needed more time to prepare and will seek a delay. He said Exxon lawyers also requested a bill of particulars from prosecutors that would lay out facts supporting allegations in the eight-page indictment, filed after plea bargaining talks collapsed.

The two Exxon companies are charged with violating the Clean Water Act, Refuse Act and Migratory Bird Act, all misdemeanors, for spilling oil into Alaska waters and killing wildlife.

The companies are charged with felony violations of the Ports and Waterways Safety Act and the Dangerous Cargo Act for employing incompetent crew on the Exxon Valdez.

Under the failed plea barain proposal, Exxon would have paid $550 million into an environmental restoration fund created by the agreement. Exxon faces $700 million in fines plus restitution if convicted of the current criminal charges.

#90102u1904 04/12/1990 ~United Press International

WASHINGTON (APRIL 12) UPI - Republican Party Chairman Lee Atwater returned home from a New York hospital Thursday and his doctors said they were pleased with how he had handled his new treatment for what has been described as a dangerous egg-sized brain tumor.

Atwater, 39, entered Montefiore Medical Center for specialized radiation therapy April 2 after it was determined that the tumor, which had been discovered in March, was more dangerous than first thought.

Last week, Dr. Paul Kornblith, chairman of neurosurgery at the hospital, said the tumor was ''aggressive and dangerous'' and added that Atwater would undergo chemotherapy as well as the intensive radiation treatment.

Atwater aides later said the tumor, located in the right frontal lobe of Atwater's brain, was the size of an egg.

The radiation treatment involved drilling several holes in Atwater's skull and placing radioactive isotopes directly on the tumor. The isotopes were removed after several days and Atwater took his first round of oral chemotherapy on Sunday.

Mary Matalin, Atwater's chief of staff at the Republican National Committee, said Thursday that Atwater was ''in top spirits and was eager to return to his family. His wife, Sally, is expecting their third child any day and Lee was happy to get home before the birth.''

Kornblith, in a statement released by the RNC, said Atwater ''completed his course of interstitial radiation therapy and his first round of chemotherapy successfully.''

Atwater is expected to rest at home for several weeks before returning to Monefiore in early May for more treatment.

Doctors have said they expect it may be up to eight weeks before they can determine whether the special radiation treatment has worked.

#90102u1963 04/12/1990 ~United Press International

NEW YORK (APRIL 12) UPI - The dollar finished mixed in directionless New York trading Thursday as market participants geared down for what in Europe would be a long Easter holiday weekend, amid talk of a weakening U.S. currency.

With trading winding down, there were no strong trends in the market. But sentiment was turning against the dollar, mainly on the basis of more evidence of a slowing U.S. economy that would bode lower interest rates.

''There is a slight mood shift,'' said Lisa Finstrom, a currency analyst with Shearson Lehman Hutton. ''The underlying reason for this is a growing worry or cnnoern ... that U.S. rates could go even lower.''

As traders squared their books in extremely thin New York trading, the dollar stalled at 1.6710 marks, up slightly from 1.6705 marks Wednesday. The dollar fetched 158.15 Japanese yen, up from 157.90.

Commerce Department data out Thursday showed retail sales off 0.6 percent in March, the second straight monthly decline. This followed last week's Labor Department data showing weak March employment growth.

Such evidence of economic slowing could persuade Federal Reserve officials tolower interest rates. A decline in U.S. rates could divert global capital to other markets, lessening demand for dollars.

''The psychology has switched now,'' said Robert White, a First Interstate Bank Corp. vice president and corporate foreign exchange manager. ''I think the weighting is on the (credit) easing side.''

Finstrom said some participants were braced for a possible overnight interest rate hike by the Bank of Japan, whose March 20 increase in the discount rate to 5.25 percent did little to reinforce the yen.

She said a week of minimal intervention by the Fed and other central banks of the Group of Seven, which met Saturday, showed Japan was on its own and is almost obliged to raise rates to shore up the yen.

''It's not the one-for-all-and-all-for-one kind of thing (Japanese officials) were hoping for'' from the G-7 session, Finstrom said.

Other dollar rates: 1.4810 Swiss francs, up from 1.4785; 5.6130 French francs, down from 5.6160; and 1,229 Italian lire, down from 1,229.25.

The British pound slipped to $1.6415 from $1.6435.

In Europe, the dollar closed mostly lower, finishing in Frankfurt at 1.6725 German marks, off from 1.6735 Wednesday. It also declined in Zurich to 1.4820 Swiss francs from 1.4855, in Paris to 5.6295 French francs against 5.6390, and in Milan to 1,233.05 lire against 1,234.75.

In London, the pound retreated to $1.6425 compared to $1.6435.

In Tokyo, the dollar eased against the yen, closing at 158 yen compared with the Wednesday close of 158.50 yen. Players said mark-yen cross trading was the dominant theme of the session, pressuring the U.S. unit.

Republic National Bank in New York closed cash gold at $376 an ounce, up from $374.85 Wednesday. The New York Commodity Exchange settled gold at $375.90 an ounce, ahead from $374.50. In Zurich, gold rose to $375.10 an ounce from $375 Wednesday. London gold rose to $375.25 an ounce from $374.50.

Republic closed cash silver at $5.12 an ounce, down from $5.14. Comex spot silver declined to $5.091 an ounce from $5.129. Silver moved up in Zurich to $5.15 an ounce from $5.10 but fell in London to $5.11 an ounce from $5.12.

(APRIL 12) UPI - NASA sources say the launch of the shuttle Discovery and the Hubble Space Telescope will be delayed until around April 25th. The sources say NASA managers today decided to replace a faulty hydraulic power device aboard the shuttle. The malfunction NOT only delays Discovery's mission by more than two weeks, it also threatens to foul up the space agency's schedule for the year.

The death toll from yesterday's car bombing near the Colombian drug cartel stronghold of Medellin now stands at 22. 16 civilians and six police officers were killed and authorities say at least 66 people were wounded by the blast, which apparently was set off by remote control. Police sources blame the Medellin cartel for the attack.

Pope John Paul today led the world's 840-Million Roman Catholics at the start of traditional rites leading up to Easter Sunday. The Holy Thursday ceremonies in the Vatican conclude with an evening mass commemorating the

Last Supper of Christ with his disciples. A mass this morning was attended by members of the clergy and 10-thousand tourists and pilgrims from all over the world.

Sources in London say British Customs detained cargo bound for Iraq that agents believe contains sections of a 40-yard-long gun barrel capable of firing nuclear or chemical warfare shells hundreds of miles. Customs agents will decide whether to release the shipment after the equipment is reviewed by arms experts. Results of the review are expected tonight.

#90102u1977 04/12/1990 ~United Press International

PARIS (APRIL 12) UPI - A couple who were held hostage in Lebanon until their release earlier this week thanked the French government in a brief appearance Thursday but said they had been asked by authorities to keep quiet about their 2 1/2-year ordeal.

In a brief news conference in Paris, Fernand Houtekins, a 42-year-old Belgian cook, his companion Jacqueline Valente of France, 31, and their young daughter Sophie, issued a short statement thanking President Francois Mitterrand and the French government for obtaining their release on Tuesday.

Houtekins said Belgian authorities, who are still trying to free four other Belgian nationals captured with the couple from a pleasure boat off the coast of Lebanon in 1987, had requested him to remain silent about the ordeal.

''Remember, my brother Emmanuel, his wife and their two children are still in Lebanon,'' Houtekins said as Valente and their daughter stood nearby.

The couple's refusal to elaborate about their experience left numerous unanswered questions, including the exact date of their capture, whether they had been held in Libya or Lebanon, and even the age of their daughter.

At his own news conference Wednesday Andre Metral, Valente's brother-in-law, said he thought the hostages had been detained in a large apartment in Lebanon, but that he was not certain.

Metral also said Sophie would be 4-years-old on May 25, which would mean she was born 18 months before the the Abu Nidal group and French authorities said the hostages were captured.

The Valente family had earlier said Sophie, and another child who died from intestinal complications before the release, had been born in captivity.

The French government, evidently stung by the sharp criticism about its handling of the affair, again denied Thursday it had struck a deal with Libyan leader Col. Moammar Gadhafi to obtain the release of the last French hostages held by extremist groups in the Middle East.

French Foreign Minister Roland Dumas said there was no connection between the release of the hostages and the return to Libya earlier this year of three Mirage jets Paris had blocked since 1986 as part of an arms embargo against Tripoli for its invasion of northern Chad.

Libya also defended France from the widespread international criticism. In a dispatch from Tripoli, the state-run Libyan news agency Jana praised the French Socialist government for standing up to ''American hegemony'' and said London and Washington wanted to ''prevent France from playing a special role'' in the Middle East and Africa.''

Dumas said Morocco, Syria and Egypt had been instrumental in obtaining the release of the hostages and said criticism directed against France was unwarranted.

President Francois Mitterrand, who had earlier thanked Gadhafi for his help in the matter, sent thank-you notes Thursday to King Hassan II of Morocco and Presidents Hosni Moubarak of Egypt and Chadli Bendjedid of Algeria.

Dumas was sharply criticized Wednesday for saying Gadhafi's help in freeing the hostages was a ''noble and humanitarian gesture'' that would be reflected in future relations between Paris and Tripoli.

The foreign minister told a National Assembly committee Thursday that protocol required the French government to thank the Libyan leader. He said President Bush had implicitly supported the French position by declaring that anyone who helps in obtaining the release of a hostage should be given credit for doing so.

ATLANTA (APRIL 12) UPI - A Pepsi-Cola officer told advertising executives Thursday that rather than resist change, they should seek opportunities to create it within their organizations.

Ronald W. Tidmore, president of Pepsi-South, told an audience at the Atlanta Broadcast Advertising Club.said recent reorganizations of Frito-Lay and Pepsi-Cola are examples of change that allowed the companies to become more responsive to their consumers.

But he cautioned, ''Line extensions are a passport to growth only if they're created in response to a genuine consumer need or preference.''

''If you're not in the business of change, you may soon not be in business at all,'' he said. ''You need to anticipate change, not just react to it

when it comes along. If we don't change, grow and lead, we're history.''

Tidmore added that he considers the South to be the best region in the nation for soft-drink sales because of the number of young residents, the mild weather and the relatively high income levels.

He said the estimated 75 million residents of the South make up ''a fertile ground'' for soft-drink sales.

Pepsi's Southern region, based in Dallas, includes 14 states from the Carolinas west to Texas, Kansas and Nebraska.

Tidmore said Pepsi's research shows that the average per capita consumption of soft-drink in the South was more than 50 gallons, compared to the national average of 47 gallons.

''There's a large and growing market for us in the beverage industry to tap into,'' said Tidmore. ''The South is the true Land of Opportunity for us, and we aim to make the most of it.''

Pepsi started out at a New Bern, N.C., pharmacy as Brad's Drink. Coca-Cola was first made in Atlanta by pharmacist Asa Candler.

#90102u2024 04/12/1990 ~United Press International

HAMILTON, BERMUDA (APRIL 12) UPI - Prime Minister Margaret Thatcher arrived in Bermuda Thursday for summit talks with President Bush and tersely stuck by her decision to lift sanctions against South Africa.

The beleaguered prime minister, facing a tax revolt and plummting popularity at home as well as increasing isolation in the international community, was expected to hold nine hours of talks with Bush beginning early Friday - their sixth meeting since Bush was elected in November 1988.

Thatcher said she had explained to Bermuda Premier John Swan earlier in the day her reasons for lifting limited sanctions against South Africa last month even though the African National Congress had requested they remain in place until the racial system of apartheid was abolished.

''I gave my views and the reasons for them, which you know well,'' Thatcher said briefly in a statement to reporters outside Swan's office.

Thatcher's stand on South African sanctions is a particular sore point in Bermuda, a dependent territory of Great Britain. In 1986 Thatcher refused to allow the Bermuda government to impose independent economic sanctions against the African government.

Organizers planned to hold a large anti-apartheid rally Thursday night in Hamilton with a scheduled appearance by Cyril Ramaphosa, president of South Africa's powerful miners union.

Thatcher, whose South African policies have run counter to those of other Commonwealth nations, lifted the limited sanctions to show her approval of President Frederik de Klerk's decision in February to free ANC leader Nelson Mandela and lift a ban on the black nationalist organization.

She said she believed negotiations to end the country's system of apartheid would come soon, pointing out that Mandela and de Klerk had held a conciliatory meeting last week.

''I think we are all optimistic since the meeting between Mr. Mandela and Mr. de Klerk that things will perhaps begin to move more quickly toward negotiations,'' she said.

Thatcher refused to take questions from the press before hurrying off for a tour of Bermuda's Naval Museum and dinner at Camden, the premier's official residence.

Nonetheless, a crowd of 300 Bermudans who showed up to hear her statement applauded her warmly, something she may not be hearing frequently at home in England where her popularity is at an all-time low.

Her new poll tax policy sparked a riot two weeks ago that was considered one of England's worst in this century and her traditional supporters - middle income homeowners - are becoming increasingly unhappy with economic policies that have resulted in higher interest rates.

Thatcher arrived in Hamilton at noon on a Royal Air Force VC-10 jet for a day of talks with government officials before meeting with Bush for their discussions, which aides said would focus on developments in Europe.

''The talks will be very wide ranging with Europe at the center,'' said a spokesman at her 10 Downing Street office in London before her departure.

The two leaders are expected to discuss specifically how a reunified Germany will be defended without alienating Soviet President Mikhail Gorbachev, whom Thatcher will see in Kiev in June, shortly after his summmit with Bush.

Gorbachev has said he has reservations about East Germany leaving the Warsaw Pact and becoming part of NATO through its unification with West Germany, one of NATO's key members.

Bush is meeting with three NATO leaders in 10 days, starting with Canadian Prime Minister Brian Mulroney in Toronto last Tuesday and ending with

French President Mitterrand next Thursday in Key Largo, Fla.

Bush's frequent contacts with other world leaders and the past year's events in Eastern Europe have indicated that Britain is no longer the main focus of interest at the White House.

London maintains, however, the relationship between Britain and the United States remains as strong as ever. Thatcher frequently consulted with former President Reagan.

At the White House, press secretary Marlin Fitzwater said Bush hoped also to brief Thatcher on his recent meeting with Soviet Foreign Minister Eduard Shevardnadze, as well as the upcoming summit meeting with Gorbachev and the status of arms control negotiations.

The continuing showdown in Lithuania also was expected to top the agenda.

''The United States and Britain believe that in this period of rapid change, the cohesion and stability of the western alliance is most important,'' Fitzwater said, reading a prepared statement in advance of the president's departure for Bermuda early Friday.

''For this reason, the president has been consulting with various Western counterparts on the pressing issues in Central and Eastern Europe.''

Thatcher and Bush last met privately Nov. 22-24 at Camp David in Maryland. Both will attend the Group of Seven industrialized nations' summit in Houston in July.

WASHINGTON (APRIL 12) UPI - A class action suit charging the American Federation of State, County and Municipal Employees with racial discrimination was filed in federal court Thursday.

The suit was brought on behalf of three named black workers of the union and other unnamed blacks by the law firm of Sprenger and Lang and charges the union with engaging in deliberate and systematic discriminatory employment practices.

''AFSCME's discriminatory employment practices have been intentional and conducted in a callous disregard of and gross indifference to the rights of named plaintiffs and the class,'' said Jane Lang, the attorney who filed the suit.

The suit ws filed on behalf Mary Craft and Mary Maynard, office assistants at the union's Washington headquarters and Jean Brown, a secretary in AFSCME's Baltimore field office.

AFSCME represents some 1.5 million public employees but officials could not immediately say how large the union's own staff is.

A spokeswoman said the union would have no comment on the lawsuit but she said the union ''believes its employee practices are definitely within the law.''

All three of the named plaintiffs have also filed complaints with the Equal Employment Opportunity Commission.

According to the complaint, AFSCME, ''through the acts and omissions of its overwhelmingly white supervisory workforce, discriminated against black employees and black applicants for employment ... in its hiring, job classification, assignment, promotion, compensation, involuntary termination and disciplinary practices, and in harassment through retaliation.''

''AFSCME's hiring decisions are made almost exclusively by white supervisors using highly subjective selection criteria or none at all,'' the complaint said. It said the union has sought to maintain ''a workforce which is disproportionately white in relation to the available labor market.''

It charged that in 1988, the headquarters workforce of the union was 32 percent black but there were no black department heads. In 1989, only one of 14 department heads was black and occupied only 15 percent of the jobs paying $50,000 or more.

''In contrast,'' the complaint said, ''blacks held 47 percent of the positions in the four lowest pay grades.''

FARGO, ND (APRIL 12) UPI - Three fired Northwest Airlines crew members accused of flying a jetliner while under the influence of alcohol pleaded innocent to misdemeanor charges in Cass County Court Thursday.

The crew members did not appear in court and their attorneys entered the pleas. The attorneys were making arrangements for the three to each post $1,000 bond on each of two North Dakota misdemeanor charges.

The crew members Tuesday pleaded innocent in federal court to felony charges of flying an airliner while intoxicated.

The three allegedly piloted a Boeing 727 with 91 passengers from Fargo to Minneapolis early last March 8 after a night of heavy drinking at a bar in

Moorhead, Minn.

Capt. Norman Prouse, 51, of Conyers, Ga., first officer Robert Kirchner, 35, of Highland Ranch, Colo., and second officer Joseph Balzer, 34, of Antioch, Tenn., were arrested after they landed the plane without incident at Minneapolis-St. Paul International Airport.

The local charges each carry a maximum penalty of one year in jail and $1,000 in fines. County Judge Georgia Dawson set July 10 for jury selection in the case.

If convicted on the federal charges, the crew members could each face a maximum penalty of 15 years in prison and $250,000 in fines.

The crew members also face civil proceedings by the Federal Aviation Administration.

NEW YORK (APRIL 12) UPI - A federal judge fined Marcus Schloss & Co. $480,350 Thursday for securities fraud and conspiracy to trade on inside information.

Marcus Schloss, a specialist firm at the New York Stock Exchange, was convicted in July of two counts in its purchase of American Brands Inc. stock in March 1986.

The firm had faced a maximum fine of $500,000 on each count. However, U.S. Distict Judge Charles Haight Jr. said he decided to combine the counts for the purposes of the fine.

Haight said he reduced the fine by $19,650, the amount Marcus Schloss paid the Securities and Exchange Commission in a settlement.

The judge ordered the firm to pay the fine by the close of business Apr. 19.

#90102u2137 04/12/1990 ~United Press International

JERUSALEM (APRIL 12) UPI - Iraqi President Saddam Hussein told a U.S. Senate delegation led by Minority Leader Robert Dole Thursday that his country was ready to destroy its non-conventional weapons if Israel dismantled theirs.

During the 2 1/2-hour meeting in the northern Iraqi city of Mosul, Saddam also denied a report broadcast Wednesday by NBC that Iraq was attempting

to develop biological weapons, the senators told a news conference in Jerusalem.

''He flatly denied a NBC story ... that Iraq is developing biological weapons capacity,'' said Dole, R-Kan.

The five senators, who are touring the Middle East, had told Saddam the United States was concerned about Iraq developing non-conventional weapons Dole said. The Senate minority leader said the bipartisan delegation also raised the issue of the Iraqi diplomat allegedly involved in a murder conspiracy who was expelled from the United States.

The Iraqi news agency, monitored in Kuwait, reported that Saddam told the senators he would dismantle all his ''weapons of mass destruction'' if Israel did the same.

Sen. James McClure, R-Idaho, said the Iraqi leader had told the delegation to publicize his offer.

''He advocates complete elimination of all weapons of mass destruction in the area and pledged his government's support for such action,'' McClure said.

Dole said Saddam believed news reports about Iraqi alleged plans to develop nuclear and biological weapons were part of a smear campaign.

''He indicated to us that he feels very strongly that there's an American, British, Israeli campaign to tarnish the image of his government and his country,'' Dole said.

The senators said Saddam had repeated his threat to use chemical weapons against Israel if the Jewish state attacked his nation, but he stressed that he would do so only in retaliation. His April 1 speech promising to ''let fire eat half of Israel if it tries to wage anything against Iraq'' heightened Israeli concerns about Iraq's intentions.

''He did say very clearly without any kind of holding back ... that he would launch a full-scale retaliatory strike for anything that came out of Israel,'' said Sen. Alan Simpson, R-Wyo.

On Thursday, Israeli Prime Minister Yitzhak Shamir dismissed the Iraqi president's threats.

''We are not afraid of these statements,'' he told Israel Radio. ''We do not want wars. We want peaceful relations with all the world that surrounds us. But if someone thinks to harm us, he must know that we will be able to pay him back with a double dose because we want peace.''

Sen. Howard Metzenbaum, D-Ohio, said the meeting with the Iraqi leader had been the least satisfactory of the trip, which included talks with the leaders of Egypt, Syria and Jordan.

Metzenbaum said Saddam concentrated on confrontation and weapons during the meeting and did not emphasize peace efforts.

''I think he has somewhat of a war psychosis and has difficultly bringing himself to think of actually going to the peace table without the Israelis' capitulation on all the issues,'' Metzenbaum said.

INA described the meeting as ''frank and practical.'' Dole, who said the discussion was ''frank and candid,'' emphasized the United States wanted to improve relations with Iraq.

On Wednesday, British customs officials discovered a 40-yard-long steel tube that military sources said appeared to be the barrel of a huge cannon to fire shells equipped with chemical or nuclear warheads. The shipment was held pending further investigation.

Less than three weeks ago, British authorities seized nuclear weapons triggers and charged three suspects with attempting to smuggle them to Iraq.

WASHINGTON (APRIL 12) UPI - Stephen Gobie, who claims to have run a homosexual prostitution ring from the Capitol Hill home of Rep. Barney Frank, D-Mass., was jailed after a clash with an off-duty police officer, police said Thursday.

Gobie pleaded innocent at an arraignment in District of Columbia Superior Court Thursday afternoon to charges of destruction of property, assault and possession of marijuana.

Commissioner Kaye Christian denied a request from Gobie's attorney, Lawrence Baskir, to release him on his own recognizance. Bond was set at $2,500. Gobie remained in jail Thursday.

Gobie allegedly smashed through the sunroof of the policewoman's car after she approached him at a traffic light and asked why he was ''driving in such an erratic manner,'' police said in a statement.

Gobie was arrested at about 2:15 p.m. Wednesday after the incident, which allegedly began when he was seen driving in an ''unsafe manner'' and almost collided with a number of cars, said police spokesman officer Edward Wilson.

After off-duty officer Karen Zibrat, a four-year police veteran, confronted Gobie at a traffic light, he allegedly got out of his car and stood in front of hers, refusing to let her drive away.

When Zibrat tried to back up, Gobie allegedly jumped onto the hood of her car, broke through the sunroof and fell inside the car, ''where a struggle ensued,'' said Wilson.

Witnesses called police. Gobie was charged with felony destruction of property. After a search, police also charged Gobie with possession of marijuana. Baskir said Gobie was later also charged with assault.

Gobie, 34, of Arlington, Va., was jailed overnight Wednesday on $5,000 bond, which was reduced Thursday.

Last summer, Gobie revealed he had been a sexual partner of Frank from 1985 to 1987. Frank acknowledged he initially hired Gobie for sex after answering a ''personals'' ad in a newspaper.

Gobie claimed to have operated a prostitution ring from Frank's apartment with the congressman's knowledge. Frank denied ever knowing about Gobie's business. The allegations led to an investigation by the House ethics committee.

Gobie has a felony record in the District of Columbia and Virginia that includes a conviction for cocaine possession.

#90102u2158 04/12/1990 ~United Press International

NEW YORK (APRIL 12) UPI - Stocks wrapped up a listless week with a pre-holiday rally that got additional fuel from optimism about earnings expected for International Business Machines Corp., the market bellwether known as ''Big Blue.''

The Dow Jones industrial average rose 22.07 Thursday to close at 2751.80 for a gain of 34.68 points, or about 1.3 percent, on the week.

Among the broader market averages, the New York Stock Exchange composite index added 2.02 points to close the week at 188.80. Standard & Poor's 500-stock index gained 4.26 to 344.34.

But declines led advances 950-894 among the 2,147 issues traded this week. Big Board volume totaled 534,383,970 shares, compared with 719,984,020 a week earlier and 747,390,220 a year ago.

After mixed performances Monday and Tuesday with gains clustered in the blue chips, the market closed slightly lower Wednesday, dragged down by weakness in oil stocks even as oil prices rebounded from a severe plunge. Fears of a world oil glut sparked the sell-off in that market.

Rather than limp into the Good Friday and Easter holiday weekend, the market posted sharp gains Thursday. Some said the rally was a typical advance before a three-day holiday weekend, while others said it was fueled by optimism about IBM earnings, which are set for release Monday.

An analyst at Smith Barney, Harris Upham raised his estimate of first-quarter profits by 10 cents a share to $1.70. In the year-ago quarter, IBM earned $1.61 a share. The brokerage also apparently repeated a ''buy'' recommendation on the stock.

Smith Barney's actions were said to reflect a belief that the company's order rate during the quarter might have been higher than expected.

''People have been pessimistic about earnings and if some bellwether stocks report earnings in line with expectations or good numbers, it's going to help,'' said Jeff Kaminsky, head of institutional sales trading at Mabon, Nugent & Co.

''We've come through a few tough quarters and estimates (of many companies' earnings) have come down, so if companies can surprise to the upside it will go a long way towards putting some confidence back into the market.''

Kaminsky said investors' lack of confidence in the market has been evidenced not by sell-offs but by a lack of volume. The pace of trading Monday was the second-slowest all year.

''But if we can get a showing of good earnings along with stable interest rates and a stable dollar, the market could be poised for a substantial move to the upside,'' he said.

''We have a good month of earnings to go before the market makes its evaluation (of whether it was a good quarter or not), but if you get a little optimism like we did about IBM, sometimes that's all you need. People want to buy and if you give them a reason to own stocks they're

more than willing to do so,'' Kaminsky said.

Other analysts said the market's rally was typical behavior before a long holiday weekend, but they also conceded the upbeat outlook for IBM played a role in Thursday's, and thus the week's, gains.

''IBM was definitely a good part of it,'' said Jay Goldinger of Capital Insights Inc., an institutional brokerage in Beverly Hills, Calif.

''But I also think it was just more foreign buying, tied to the dollar's recent strength,'' he said.

With gains concentrated in the blue chips, the Thursday rally represented a situation where ''the generals are leading but the soldiers aren't following,'' Goldinger said.

As for what next week may bring, the market will have Friday's economic news to react to when it reopens Monday. The government is scheduled to report Friday on March producer prices, which are expected to be up 0.1 percent on the month, and February business inventories, usually less a market factor. Inventories are expected to be unchanged.

On the trading floor this week, Ames Department Stores was the most active issue, plummeting 1 5/8 to 1 7/8. Ames said Thursday it was renegotiating credit facilities with a group of banks as analysts feared a cash flow crisis could throw the New England retailer into bankruptcy.

Public Service of Colorado followed, off 7/8 to 21 3/8.

Telecom-USA was third, catapulting 16 1/4 to 38 1/8 after agreeing to a buyout by MCI Communications.

Among the blue chips, AT&T rose 1/4 to 41 7/8, IBM gained 1 1/4 to 107 1/8 Philip Morris was up 3/4 to 42, American Express added 1 5/8 to 28 1/4 and General Electric jumped 1 5/8 to 66.

On the American Stock Exchange, the Amex Market Value index lost 3.13 to close Thursday at 357.88. Declines led advances 434-338 among the 983 issues traded.

Amex volume totaled 50,411,675 shares, compared with 80,654,380 traded a week earlier and 59,534,050 traded in the same week a year ago.

Jan Bell Marketing led the Amex actives, off 1 5/8 to 8 5/8.

The National Association of Securities Dealers index rose 5.40 to end the week at 436.30.

NEW YORK (APRIL 12) UPI - The Federal Reserve Board said Thursday the basic U.S. money supply, narrowly defined under the name of M1, rose $4.5 billion in the latest reporting week, while the broader aggregates M2 and M3 shrank.

M2 declined $4.0 billion and M3 fell $7.1 billion.

M1, which is made up of cash, checking accounts and NOW accounts - money that is available for immediate spending - rose to a seasonally adjusted average of $808.3 billion in the week ended April 2 from a revised $804.9 billion the week before.

Over the latest 13 weeks, M1 averaged $800.5 billion, a 4.9 percent rate of increase from the previous 13 weeks, the Fed reported.

The broader measure of money, M2, averaged an estimated $3,269.0 billion in the latest week, versus a revised $3,273.0 billion. M2 includes M1, plus passbook savings, small time deposits, including money market deposit accounts, consumer money market mutual funds and certain other short-term assets.

M3, which includes M2 plus large time deposits, repurchase agreements longer than one day at banks and thrifts, and institutional money market funds, averaged $4,062.3 billion in the latest week, versus a revised $4,069.4 billion, the Fed said.

#90102u2250 04/12/1990 ~United Press International
(APRIL 12) UPI - East Germany's broad new coalition government that was sworn-in today wasted NO time in voicing support for swiftly re-uniting with West Germany. But the new cabinet called for Soviet troops to remain in what's now East Germany while a unified Germany remains a member of NATO for a transitional period. The Soviet foreign minister yesterday reiterated opposition to a unified Germany remaining in the NATO alliance.

Former Sunday school teacher John List was convicted today of murdering his wife, mother and three teen-aged children 18 years ago. The Elizabeth, New Jersey, jury rejected arguments by List's lawyer that the devout Lutheran was compelled by a religious obsession and thought he was saving his children's souls and keeping them from poverty. List hid from police until he was captured last year on a tip generated by a television show.

A candlelight vigil for a black Teaneck, New Jersey, youth who was shot to death this week by a white police officer turned violent... ending in a clash between police and some one-thousand angry mourners. NO serious injuries resulted from last night's melee, but several people were beaten and a number of cars were overturned and windows smashed. Police and witnesses give conflicting reports about Tuesday's slaying of 15-year-old Phillip Pannell.

A leading economist says last month's decline in U-S retail sales was ''unexpected.'' March sales dropped more than one-half of one percent... the largest monthly fall since last October. The nation's food stores were the only businesses that did NOT report a decline in sales. A second economist says the sales drop-off is NOT a disaster because consumers have been spending steadily for nearly seven years.

#90102u2271 04/12/1990 ~United Press International

WASHINGTON (APRIL 12) UPI - StarKist Seafood Co., the world's largest tuna canner, said Thursday it will not purchase any tuna captured in nets along with dolphins nor will it buy any fish caught with gill or drift nets.

StarKist, owned by H.J. Heinz Co. of Pittsburgh, will become the first major tuna company to sell only ''dolphin-safe'' tuna for human and cat consumption.

At a news conference, Heinz Chairman Anthony J.F. O'Reilly said the decision will cost consumers ''a couple of cents'' extra on each can of tuna.

Dolphins in the Eastern Tropical Pacific Ocean, a coastal zone from Chile to Southern California, customarily swim above schools of yellowfin tuna for reasons biologists cannot fully explain. When nets are spread out to catch tuna, dolphin often are caught as well, killing or maiming them.

''The StarKist policy will save dolphin lives. Nothing short of dolphin-safe tuna will be acceptable to StarKist and the public,'' O'Reilly said.

StarKist, based in Long Beach, Calif., said it will only buy tuna that was not caught in association with dolphins. It will only buy tuna that has been certified as dolphin-safe by an observer on a tuna boat. Currently, there are observers on every tuna boat in the U.S. fleet and on 30 percent of the foreign fleet.

Also, StarKist will continue its practice of refusing to buy any fish caught with gill or drift nets, known to be dangerous to marine life. They are sometimes 40 miles in length. However, it will buy fish caught with purse seine netting.

And, within three months, cans of StarKist tuna sold in the United States will carry ''dolphin-safe'' labels with the message, ''No harm to dolphins.'' O'Reilly said the company plans an advertising campaign to promote the company's action.

Environmentalists applauded the decision, with Greenpeace saying StarKist's leadership can help the rest of the tuna industry end its role in marine mammal killings.

Starkist's decision was also hailed by Bumble Bee Seafoods Inc., the nation's No. 3 tuna canner, which said it intends to phase out use of all tuna captured in association with dolphins in the next three to six months.

Bumble Bee tuna cans also will begin to carry ''dolphin-safe'' labels within three months.

However, Dan Sullivan, president of the San Diego-based canner, said his company would not immediately discontinue buying such tuna because ''not everyone in the world is as concerned about this issue as we are in America. If we just shut these suppliers off, we may just drive them to other markets in Europe. We want to work with them to divert them from unsafe techniques.''

Sen. Joseph Biden, D-Del., who has co-sponsored a bill that generally legislates StarKist's voluntary action, called StarKist's decision ''one hell of a sound business judgment.''

David Burney, executive director of the U.S. Tuna Foundation, said StarKist's decision was motivated by consumer outrage over dolphin deaths.

''They had tremendous pressure placed on them both in the marketplace ... and as a target of boycott efforts and that pressure extended up to the shareholders of the company,'' Burney said.

He said his group, which represents the tuna industry, opposes the legislation by Rep. Barbara Boxer, D-Calif., requiring labels on tuna cans indicating if the fish was caught with methods known to kill dolphins.

''Every company has the right to label their products the way they deem appropriate. We don't think it's the role of the federal government to mandate this labeling,'' Burney said.

An official of the American Tunaboat Association, based in San Diego, said he fears other tuna canners will follow StarKist's lead.

''There's no other tuna fleet that will be more severely damaged or even destroyed than the U.S. fleet,'' said August Felando, the association's president representing the 65 vessels in the U.S. fleet. ''There are limited options for this fleet.''

He said dolphins swim with the larger, mature tuna - the kind canners want.

''If canners say we have to catch juveniles, then tuna scientists will say we're hurting tuna conservation,'' Felando said. ''We have an excellent record - 59 percent of our encirclements result in zero mortality.''

Jerry Moss, chairman of A&M Records Co., has been active in save-the-dolphin issues and is credited with being one of the catalysts for O'Reilly's decision.

''I was able to meet with him early in December and we discussed it on non-aggressive terms,'' Moss said. ''We had a really good lunch and it worked.''

Yellowfin tuna becomes light meat tuna fish. StarKist's currently is the only big tuna company to refuse to buy white meat albacore tuna caught by gill or drift nets.

#90102u2280 04/12/1990 ~United Press International

HARRISBURG, PA (APRIL 12) UPI - A Justice Department spokesman said Thursday a federal investigation is underway into allegations of a cocaine scandal and coverup in state government in 1986.

But the spokesman refused to confirm broadcast reports that one of the targets of the federal probe is Henry Barr, who was chief counsel to U.S. Attorney General Dick Thornburgh when Thornburgh was governor of Pennsylvania.

''As governor, Mr. Thornburgh had no connection with, or knowledge of matters relating to the drug investigation which is currently the subject of speculation in Harrisburg,'' said Dan Eramian in Washington.

''Attorney General Thornburgh and members of his personal staff recused themselves from the present federal investigation immediately upon learning of its existence,'' Eramian said.

Westinghouse Broadcasting Co. reported Thursday that Barr is being investigated by federal authorities as part of a grand jury investigation of cocaine use by high-ranking state officials.

Barr, 46, was Thornburgh's top legal advisor in 1986 when allegations of cocaine use and distribution surfaced, leading to the resignation of Richard Guida, then chief of the criminal division in the state attorney general's office.

Barr served under Thornburgh from Sept. 6, 1988, through May 12, 1989, when he left to return to private practice.

Saying he was innocent but unable to prove it, Guida resigned Sept. 18, 1986. He was cleared in an internal investigation by his boss, then-State Attorney General Leroy Zimmerman, after he passed a urinalysis test.

Guida was notified last May that he was under investigation, and he has been cooperating with federal investigators, Westinghouse reported.

Barr's assistant, James West, is now acting U.S. Attorney for Harrisburg, and has removed himself from the cocaine case, Westinghouse said.

#90102u2385 04/12/1990 ~United Press International
MONROE, CT (APRIL 12) UPI - The wife of a police lieutenant walked into a beauty parlor Thursday, shot and wounded the owner with her husband's gun, then shot and killed herself, police said.

Police said the women and the shop owner were neighbors in the Stevenson section of the Fairfield County suburb, but the motive for the shooting was not known.

Shari Carrano, 42, the owner of the Only One beauty parlor was in stable condition at St. Vincent's Medical Center in Bridgeport with a gunshot wound to the head. She was undergoing emergency surgery to repair a ''nick'' in her right carotid artery, said St. Vincents spokesman William Roots.

Judy Gillette, 56, the wife of police Lt. Terry Gillette, died of a self-inflicted gunshot wound to the head, police said.

Sources close to the investigation said Gillette apparently was a regular customer at Carrano's salon.

Gillette was on duty when the call reporting the shooting came through on the 911 emergency line at 10:58 a.m. and arrived at the scene not knowing

his wife was involved, police said.

Witnesses told police Judy Gillette entered the beauty salon and told Carrano she wanted to make an appointment to have her hair done after sitting down in the waiting area.

Witnesses told police when Carrano sat down behind her desk to make the appointment, Gillette stood up and fired a shot from a .38 caliber handgun hitting Carrano in the left eye, police said. Gillette then shot herself in the head with the gun.

Police said the gun was Lt. Gillette's personal weapon and not one he would use on duty.

#90102u2395 04/12/1990 ~United Press International

CINCINNATI (APRIL 12) UPI - Hamilton County Prosecutor Art Ney said Thursday the city of Cincinnati, not the county, will prosecute an obscenity case against the Contemporary Arts Center, in accordance with state law.

A Hamilton County grand jury convened by Ney returned obscenity indictments April 7 against the center and its director, Dennis Barrie, for exhibiting sexually explicit photographs taken by the late Robert Mapplethorpe.

Ney said Ohio law requires the city, not the county, to prosecute the case.

Assistant city prosecutor Frank Prouty said the allegations involve a misdemeanor that occurred within the city and therefore is the city prosecutor's responsibility.

Ney said if the county prosecuted the case, the art gallery and Barrie could make a legal argument that he was being tried in the wrong jurisdiction.

Despite the indictment, the Mapplethorpe exhibition is continuing at the art gallery. No trial date has been set.

#90102u2458 04/12/1990 ~United Press International

SAN DIEGO (APRIL 12) UPI - The FBI has entered the investigation into the stabbing deaths of three young women in the same San Diego neighborhood that might be the work of a serial killer, an agent said Thursday.

FBI agents were first contacted by the San Diego Police Department in

February after a second young woman was found stabbed to death, said investigator John Douglas. The agency has intensified its efforts since the third murder, the April 3 slaying of a visiting Michigan teenager, he said.

''They submitted the case to us for analysis after the second murder in February,'' Douglas, unit chief of the FBI's Behavioral Science Support Unit at the FBI Academy in Quantico, Va., said by telephone.

Douglas, who pioneered the FBI's initial study of serial killers in the 1970s, refused to discuss details of the investigation, but he agreed to describe general tactics the agency has used to catch some of the country's most notorious serial killers, including Ted Bundy and ''Hillside Strangler'' Kenneth Bianchi.

''What we do in crime analysis is check for something, some kind of ritual done to the victims that was unnecessary in the commission of the crime. The modus operandi may change, because that is learned behavior. But the ritual will stay the same,'' Douglas said.

Certain characteristics have led police to theorize that the three slayings in the Clairemont section of San Diego might be the work of a single killer.

All three victims were young women who were stabbed to death; the murders all were committed in the middle of the day in apartments with no sign of forced entry; the victims were found semi-nude; and the crimes took place within a span of four months and an area of several blocks.

Police have declined to say whether there was evidence of sexual assault in the killings.

The first murder occurred Jan. 12 when Tiffany Paige Shultz, a 20-year-old San Diego State University student, was found stabbed to death in her apartment.

Shultz had worked as a part-time nude dancer at Les Girls nightclub. Her boyfriend, who friends said was angry about her dancing job, was questioned by police and held for five days, then released without charges.

On Feb. 16, Janene Marie Weinhold, a 21-year-old student at the University of California, San Diego, was stabbed to death in her apartment just two blocks from the scene of Shultz's murder.

After Weinhold's murder, San Diego police publicly discounted the idea that the crimes were the work of a serial killer but privately called in the FBI.

On April 3, Holly Suzanne Tarr, an 18-year-old high school senior from Okemos, Mich., visiting her brother during spring break, was stabbed to death in his apartment at the same complex where Weinhold was killed.

After Tarr's killing, police acknowledged that they were considering the possibility of serial killings. Several residents moved out of the apartment complex, and security throughout the neighborhood was intensified, both by police and by private security firms.

Armed with this and other information about the crimes that police have not disclosed, Douglas said, agents are trying to determine whether a serial killer is at work and if so, who - and where - the killer is.

''You don't have to look very far when you're searching for suspects,'' he said. ''The nature of the beast is to perpetrate the crimes where they feel the most comfortable. That's usually near their residence or place of employment.''

Publicity about hnzestigations sometimes forces serial killers to move away from their ''comfort zones,'' but they eventually return to the site of the original crime to kill again, Douglas said.

#90102u2466 04/12/1990 ~United Press International

LOS ANGELES (APRIL 13) UPI - An investment group that has acquired 6.6 percent of Pic 'N' Save Corp. may launch a takeover for the close-out retail chain, a Securities and Exchange Commission filing disclosed Thursday.

The group, Girard Partners, paid $25 million for the stock of the 189-store company, which has been posting declining earnings because of the costs of expansion and the cost of its expansion program.

Girard Partners, which is headed by former T. Boone Pickens associate DavidBatchelder, said in the filing that it is seeking consent from Pic 'N' Save management to reorganize its board so it will be dominated by the investor group.

The filing also said the new board would then sell most or all of the company to Girard Partners or another bidder.

The company, whose stock rose 62.5 cents to $14.125 a share in over-the-counter trading Thursday, has not yet commented on the filing.

Pic 'N' Save earned $30.9 million on sales of $475.2 million last year.

#90102u2520 04/12/1990 ~United Press International
(APRIL 12) UPI - President Bush had his annual physical exam today at Bethesda Naval Hospital, and the results were the same as last year- he's in excellent health. Back at the White House following five hours of tests Bush gave the thumbs-up sign and told reporters- ''All is well.'' He was accompanied by Dr. Burton Lee, the White House physician.

The deadline for income tax filing is drawing near, and President Bush is filing his return, just like the rest of us. The White House says the president and Mrs. Bush paid 101-thousand dollars in 1989 federal income taxes on a gross income of almost 457-thousand dollars.

John Emil List was convicted today in Elizabeth, New Jersey, of murdering his wife, his mother and his three teen-age children 18 years ago. He was captured last year on a tip generated by a television show. At the time of the killings in November 1971, New Jersey had NO death penalty, which means List canNOT be executed.

Pope John Paul blessed holy oil today at a mass to mark Holy Thursday. Roman Catholics around the world are to observe a period of mourning until Christ's resurrection is celebrated on Easter Sunday. Tonight, the pope will wash the feet of 12 priests in a re-enactment of Christ's gesture to his apostles at the Last Supper.

Mother Teresa confirmed today that she asked the Vatican to let her resign as head of the Missionaries of Charity order in Calcutta, India, because of her advancing years and ill health. The Vatican announced yesterday that Pope John Paul has given the go-ahead to relieve the Nobel Peace Prize winner. Mother Teresa said- ''nobody is indispensible in this world.''

-30- 1821
#90102u2524 04/12/1990 ~United Press International
AUSTIN, Texas (APRIL 13) UPI - The Office of Public Utility Counsel recommended Thursday that TU Electric Co. receive only about one-fourth of the 25.7 percent increase in base revenues the utility is seeking.

The agency, which represents ratepayers before the Public Utility Commission, said it will probably recommend an even sharper reduction once it finishes an investigation in June of Comanche Peak Nuclear Power Plant costs.

In written recommendations filed with the PUC, the counsel's office estimated that Comanche Peak, which was originally projected to cost about $800 million, will now cost about $11.6 billion to complete.

The Texas Utilities Co. subsidiary's rate hike, filed in January and pending before the PUC, proposes to offset the requested $669.9 million base revenue increase with a $228 million decrease in fuel charges.

The offset would still cost consumers an overall 10.2 percent increase in rates.

When the counsel's office base rate reduction of 6.6 percent is combined with TU Electric's proposed decrease in fuel charges, TU Electric's overall rates would decline by 1.14 percent or $49.8 million a year.

TU Electric spokesman Jim Lawrence said the Dallas-based utility stands by its original request.

''We feel that we can support the request that we have made and are prepared to do that when the hearings begin in Austin,'' he said.

Public interest groups charged last week that TU Electric, which serves about one-third of all Texans, is already overcharging its customers by $350 million a year.

C. Kingsberry Ottmers, director of the counsel's office, said Thursday a net reduction in TU Electric's overall revenues is justified because of declining capital costs, lower federal income taxes, reduced fuel costs and increased revenues since the utility's last rate hike in 1984.

''Our recommendation is consistent with TU Electric's own assertion that operating costs have fallen $800 million since 1984,'' she said. ''Further revenue reductions will be necessary to assure that ratepayers do not pay for the impact of unreasonable Comanche Peak costs and the excessive costs of settling mismanagement lawsuits with the former co-owners of that project.''

Comanche Peak, under construction about 45 miles southwest of Fort Worth, is nearly 10 years behind schedule.

Unit 1 of the twin-unit plant is expected to be producing power at 100 percent within a few weeks, but operation of Unit 2 may be three years away.

Specific cuts in TU Electric revenues recommended by OPUC were:

- $100 million to reduce common equity to shareholders to 11.3 percent. TU Electric is seeking a return of 13 percent.

- $60 million to exclude Comanche Peak costs that should have been assigned to Unit 2.

- $180 million to reflect actual federal income taxes.

- $1.6 million in contributions and donations and $1.9 million for ''image'' advertising.

- $470,000 for personal use of company automobiles.

- $18.3 million to reimburse customers for a franchise tax refund.

#90102u2550 04/12/1990 ~United Press International

(APRIL 12) UPI - Britain's Prime Minister Thatcher arrived in Bermuda today for a summit with President Bush that will focus on the political changes in Eastern Europe. She's to meet today with government officials in Bermuda, and tomorrow with Bush. It's their sixth meeting since Bush was elected president.

NASA sources report that the launch of the shuttle Discovery has been pushed back to April 25th. One official says NASA managers decided to replace the hydraulic power device that failed just before Tuesday's scheduled launch. The problem could also delay later shuttle missions.

Tehran radio today reported that Iran's Revolutionary Guards killed nine rebels and wounded scores of others in a shootout. The government says it seized a large number of weapons and captured eight criminals after the fight yesterday in the nation's southeast corner, where poverty and insurgency is common.

Officials in Washington are concerned that North Korea might be developing the capacity to build nuclear weapons. Senior Defense official Henry Rowen says ''there's reason to believe'' that North Korea is building a nuclear-fuel reprocessing plant that would enable it to make such weapons. U-S officials have voiced their concerns to Moscow.

Syria's defense minister says he hopes Western hostages in Lebanon will be freed this year. General Mustafa Tlass said in a Kuwaiti newspaper interview published today that Syria is working for the release of the 18 Western hostages. The hostages are believed held by pro-Iranian Moslems, and Syria is an Iranian ally.

#90102u2592 04/12/1990 ~United Press International

CHARLESTON, WV (APRIL 12) UPI - Former Gov. Arch Moore was indicted Thursday on five federal charges ranging from extortion to filing false income tax returns, and authorities said he had agreed to plead guilty and cooperate with a continuing political corruption investigation in West

Virginia.

The indictment said Moore received $831,221 during his four-year term and while running for re-election in 1988, and that he illegally diverted $100,000 into his 1984 gubernatorial campaign to buy votes and influence the election.

Thursday's indictment marks the second time Moore has faced federal charges for actions taken while in the governor's office. In 1975, during his second term as governor, Moore and aide William Loy were indicted on one count of conspiring to extort $25,000 from the Diversified Mountaineer Corp., a savings and loan that wanted bank charter. Moore and Loy were acquitted of the charge.

Moore, a decorated World War II veteran and three-term Republican governor faces 36 years in prison and fines totalling $1.2 million in the current case. No arraignment date was set, and the case has not been assigned to a judge.

U.S. Attorney Michael Carey said the office will not to pursue other charges against Moore in light of his impending guilty plea.

In a statement delivered through longtime supporter and aide Audrey Toler, Moore said, ''This news will be greeted with a great joy by many in the state of West Virginia. There will be others who will be sincerely grieved by reason of their devotion to me and my family.''

The first count charged Moore with using his position as governor-elect and governor to extort $573,721 from a coal operator in 1984 and 1985. Two more counts charged him with not reporting income on his 1984 and 1985 federal tax returns.

A fourth count charged Moore with mail fraud for filing false 1984 campaign expense reports with the secretary of state's office. The fifth count charged him with obstruction of justice by falsifying documents, suborning perjury before a federal grand jury and lying himself to federal agents.

Gov. Gaston Caperton, who defeated Moore in a landslide 1988 victory, said the indictment represents a ''tragic day for West Virginia.'' He said he inherited a government that was ''ethically bankrupt. ... The back-room, slipshod politics of the past must forever remain in the past.''

The extortion count said Moore received $573,721 in 1985 from Maben Energy Corp. President Henry Paul Kizer in exchange for obtaining a $2.3 million refund from the state's black lung program.

The count said the two men met when Moore was governor-elect in 1984 to

discuss rdciiving federal approval of Kizer's plan to get the refund by becoming a self-insured company under the state's black lung program. The count said Moore got the money in 1985 and gave $50,00 to an unnamed lawyer.

After Moore took office he encouraged state mining inspectors not to enforce environmental laws at Kizer's company so it would be deemed financially sound and win the federal approval of self-insured status, the count said.

The indictment said Moore back-dated documents to make the payment appear to be for legal services he provided Kizer before winning the 1984 election.

On the tax charges, prosecutors said Moore did not report $20,000 in cash he received in 1984. Of that amount, $10,000 came from former beer lobbyist Sammy D'Annunzio and $10,000 came from officials with Island Creek Coal Co.

D'Annunzio, who helped in the federal corruption probe leading to the convictions of three former state Senate leaders, committed suicide last year.

Moore also allegedly did not report $52,500 received in 1985. Of that, $50,000 came from an agent of Marrowbone Development Co. and $2,500 came from Robert Gilliam. The reasons for those payments were not disclosed.

Moore allegedly obstructed justice when he met with Kizer in October to plan a ''cover story'' to give to a federal grand jury about a $150,000 payment Kizer made to Moore. The indictment said Moore and Kizer met behind the Charleston municipal incinerator to plan their stories. The meeting occurred after Kizer was subpoenaed to testify before the federal grand jury.

The indictment said Moore also met with his 1988 campaign finance chairman John Leaberry, in January 1989 to arrange a story denying the receipt of $35,000 in cash. Unknown to Moore, Leaberry was wearing a recording device.

The two talked about the campaign's receipt of $20,000 from a New York firm interested in developing a West Virginia landfill and $4,000 given directly to Leaberry by Moore.

Moore began his political career in 1952 when he was elected to a two-year term in the West Virginia House of Delegates. In 1956 he was elected to the U.S. House of Representatives and served 12 years there. He won his first term as governor in 1968 and became the first person to serve two consecutive terms. Moore won a third term in 1984.

#90102u2854 04/12/1990 ~United Press International
(APRIL 12) UPI - President Bush gets a physical and pays his taxes... John List is convicted of murdering his family... Pope John Paul leads Roman Catholics in solemn Holy Week ceremonies... and more delays for the shuttle program. Those stories and more, next from U-P-I.

President Bush flashed a thumbs-up sign today following his annual physical exam, and told reporters that- quote- ''all is well.''

He underwent five hours of tests at Bethesda Naval Hospital, and as he left the hospital, said he felt ''like a spring colt.''

White House physician Dr. Burton Lee said the 65-year-old Bush is in excellent health. That's the same assessment made last year when Bush was examined on May 10th, 1989.

Bush jogs regularly and plays tennis. He suffers from a mild case of arthritis in his hips, and a slight hearing loss sustained during his flight days in World War Two.

The White House also issued a report dealing with the president's financial health. Spokesman Marlin Fitzwater says Bush and his wife paid 101-thousand dollars in 1989 federal income taxes on a gross income of 456-thousand dollars.

The vice president's office reported that Dan Quayle paid 24-thousand dollars in federal income taxes on gross income of 133-thousand dollars.

John Emil List, a mild-looking accountant who evaded police for 17 years, was convicted today in Elizabeth, New Jersey, on charges of killing his family in 1971.

The jury deliberated less than nine hours before convicting the 64-year-old List of murdering his wife, his mother and his three teen-age children on November 9th, 1971.

New Jersey had NO death penalty at the time of the killings, which means List can NOT be executed. He faces multiple life sentences that could be imposed consecutively or concurrently. He could be paroled after 14 years.

List was arrested last year in Richmond, Virginia, following a tip generated by the television show, ''America's Most Wanted.''

He had created a nearly normal life for himself after the killings. He called himself Robert Clark and married a woman he met at a church picnic in Denver.

List had left a letter of confession for his pastor that became a key piece of evidence in the trial.

-30- 2413
#90102u2947 04/12/1990 ~United Press International
(APRIL 12) UPI - A candlelight memorial for a black youth shot and killed by a white police officer turned violent in Teaneck, New Jersey, last night.

Officials say gangs of youths broke away from the mourners and went on a rampage, overturning a police cruiser and other cars, looting stores and smashing the front door of the police station.

Teaneck resident and local N-double-A-C-P chief George Powell said the trouble was caused both by people from outside the town and a large police presence in riot gear.

Officials say at least three people are being held on burglary charges arising from the riot. One news camera crew lost its equipment to the rioters.

Powell called for the suspension of Officer Gary Spath, who shot and killed 16-year-old Phillip Pannell Tuesday night.

Police say Spath has been relieved of duty... and says that's ''virtually the same thing'' as a suspension.

The foreign ministers of seven Latin American nations met in Hungary today with counterparts from seven East European nations to discuss trade and other common interests.

Hungarian Foreign Minister Gyula Horn said the meeting in Budapest is especially timely because of the recent unfolding of democracy in both regions.

Horn said both sides intend to develop and replace super-power dependence with co-operation between many countries.

The Hungarian foreign minister said those attending will discuss the fight against terrorism, drug trafficking and environmental pollution.

The Rio Group includes Argentina, Brazil, Colombia, Mexico, Uruguay, Venezuela and Peru.

Eastern Europe sent Hungary, Poland, Bulgaria, Romania, the Soviet Union, Czechoslovakia and East Germany.

-30- 1873
#90102u2966 04/12/1990 ~United Press International
(APRIL 12) UPI - Pope John Paul washed and kissed the feet of 12 priests today during a traditional Holy Week mass that's part of three days of rites that end with Easter Sunday.

The pope celebrated the Mass of the Last Supper at St. John in Lateran Basilica near Rome's southern gate. His washing and kissing of the 12 priests' feet re-enacted Christ's gesture of humility to his 12 disciples.

Holy Thursday celebrations began this morning with a mass at the Vatican that was attended by cardinals, bishops, more than one-thousand priests and some 10-thousand tourists and pilgrims from around the world.

Tomorrow, church bells all over the world are silent and altars are stripped of all but a cross and candles, in mourning for Christ on the cross.

Tomorrow night, John Paul leads a ''Way of the Cross'' procession from the ancient Colosseum and up the Palatine Hill.

On Easter Sunday, the pope celebrates mass on the steps of the basilica in St. Peter's Square.

Jim Bakker's right-hand man at the P-T-L Ministry sobbed for mercy today while seeking a reduced sentence from a federal judge.

58-year-old Richard Dortch said that for five years he's been in a prison of his own making. Dortch said prison is more than a physical place, and he's learned his lesson well.

U-S District Judge Robert Potter said he's leaning toward a reduction of Bortch's eight-year sentence but needs a few days to think about it.

The judge said he sentences for the purpose of deterrence, rather than punishment.

Dortch's testimony was crucial in convicting Bakker.

Dortch pleaded guilty in August to four of 24 counts of fraud and conspiracy.

-30- 1836
#90102u3195 04/12/1990 ~United Press International
(APRIL 12) UPI - After more than four hours of medical tests this morning

President Bush has been diagnosed as ''in truly excellent health.'' The exam detected the early stages of glaucoma in the president's left eye that will require regular medication.

Former West Virginia Governor Arch Moore was indicted in Charleston today on five federal counts ranging from extortion to income tax violation. Authorities say Moore agreed to plead guilty to the charges, most of which date back to 1984 and 1985.

Officials in five states are concerned about the growth of big meatpackers at the expense of small ones. Attorneys general from North and South Dakota and three other states today asked the Justice Department to investigate the industry for possible anti-trust violations.

Solidarity leader Lech Walesa wants to be president of Poland, and today he criticized the current president for NOT doing enough. Walesa told an audience in northern Poland that President Jaruzelski has NOT done enough to implement economic reforms.

The liver disease hepatitis-A is on the upswing, and federal health officials say part of the reason is raw shellfish. They warned Americans to avoid eating raw shellfish and urged restaurant workers to wear gloves when preparing food.

The White House is applauding today's decision by East Germany to try to make a united Germany part of NATO for a transitional period. But East Germany's new government said NATO must drop certain strategies, including first use of nuclear weapons.

-30- 1696

#90102u3197 04/12/1990 ~United Press International

(APRIL 12) UPI - Senate Majority Leader George Mitchell warned Soviet President Gorbachev today that any use of force in Lithuania would have ''grave consequences'' for U-S-Soviet relations. But Mitchell said that during his meeting with Gorbachev today in Moscow, he got NO guarantees against force.

A Milwaukee jury today convicted a woman of attempted homicide for what police say was a Satanic ritual meant to raise Jack the Ripper from the dead. A man survived the woman's ax attack. A judge will now rule on whether the woman was mentally competent at the time of the attack.

A radiation safety industry official today said humans may be four to 14 times as sensitive to radiation as previously believed. Speaking at a health and safety conference in Pittsburgh, the official said radon in the home is the biggest single threat.

-30- 997
#90102u3473 04/12/1990 ~United Press International
(APRIL 12) UPI - A doctor today pronounced President Bush ''in truly excellent health'' after a detailed annual physical. The check-up did reveal the early stages of glaucoma in the president's left eye. Glaucoma is characterized by high fluid pressure within the eye. If uncorrected, the condition impairs peripheral vision and may lead to blindness. It usually is treated with eye drops. The White House said Bush has NO vision loss but will need regular medication.

The Bush administration today signed a trade agreement with Czechoslovakia. The pact exchanges most-favored nation status for the first time with a newly democratic Eastern European nation. U-S Trade Representative Carla Hills in Washington said the deal is a vital first step to making Czechoslovakia a better place in which to do business. It lets U-S companies earn and spend hard currency within Czecholsovakia and protects U-S patents and copyrights.

Authorities in Colombia blame the Medellin drug cartel for yesterday's car bombing that killed 22 people, six of them police officers. The White House says President Bush sent his condolences to the Colombian people. Spokesman Marlin Fitzwater called the attack near Medellin a ''cowardly action.''

The Justice Department voiced concern today about a proposal that would give the F-B-I broad authority to seize documents and other evidence in criminal cases. The proposal would allow agents to obtain summonses authorized by supervisory-level F-B-I agents only. It would bypass authorization by grand jury subpoena or federal judges.

Britain has again confiscated weapons parts bound for Iraq. A Customs official says arms experts confirmed that cargo detained in northeast England contained parts of a gun barrel capable of firing nuclear or chemical warfare shells. Last month, British officials charged three people with trying to smuggle parts of nuclear weapons triggers to Iraq.

-30- 2104
#90102u3808 04/12/1990 ~United Press International
(APRIL 12) UPI - President Bush had his annual physical checkup today. His doctor says he passed with flying colors. The White House quoted the doctor as saying Bush keeps ''extremely fit through vigorous physical activities.'' But the physical revealed early signs of glaucoma, a disease that can cause vision loss by increasing fluid pressure in the eye. Bush says he'll take eye drops twice a day but added- quote- ''the vision thing is working well.''

East Germany's parliament today elected its first-ever NON-communist leader. The parliament chose conservative politician Lothar de Maiziere as prime minister and swore in the 23 members of his coalition government. Deputies also agreed that a united Germany would at least temporarily be part of NATO. Parliament further apologized for East Germany's part in the Holocaust of Jews during World War Two.

Israeli Prime Minister Shamir claims his Likud Party will be able to block the formation of a coalition government led by the Labor Party. Labor's Shimon Peres put together a coalition package, but two ultra-Orthodox religious members of Parliament withdrew their support yesterday- in spite of having signed an agreement to back Peres. The Labor leader has received a 15-day extension to put together a government.

The cost of 95 major U-S weapon programs rose an estimated three-point-eight percent in the last three months of 1989- a rise that translates into a 31-BILLION-dollar increase in the defense budget. Pentagon officials blame the increase on inflation. But the cost estimate for the mobile Midgetman missile rose 35 percent- from five-point-four-BILLION to seven-point-three-BILLION dollars.

-30- 1848

#90102u3846 04/12/1990 ~United Press International

(APRIL 12) UPI - U-S Customs officers today seized a record amount of cash from two Mexican customs officials trying to cross the border in Brownsville, Texas. U-S officials found two-point-four-Million dollars stuffed into cardboard boxes as the Mexican customs officials tried to pass a booth on the U-S side. The money weighed an estimated 500 pounds. Under U-S law, more than 10-thousand dollars must be reported when it is brought into or out of the country.

Officials with the European Ariane space program blame February's 250-Million-dollar rocket explosion on a stray piece of cloth. The cloth is said to have gotten into the rocket engine, where it blocked a water pipe, causing the launch disaster. The cloth may have been left behind accidentally by a technician. One Ariane official says- ''It's very likely it was a human error.''

Evangelist Billy Graham has canceled an eight-day crusade in the New York state capital of Albany after having a rib surgically removed today. The rib problem was discovered during a visit to Minnesota's Mayo Clinic yesterday, and- while the problem is NOT reported to be serious- doctors decided to operate immediately. Graham had injured the rib in previous falls.

The former governor of West Virginia was indicted today on five federal counts including extortion and income tax violation. Authorities in

Charleston say former Governor Arch Moore has agreed to plead guilty and cooperate with an investigation of political corruption in West Virginia.

-30- 1677

#90102u4067 04/12/1990 ~United Press International

(APRIL 12) UPI - President Bush had his annual physical examination at Bethesda Naval Hospital today. Spokesman Marlin Fitzwater quoted the doctor as saying Bush is ''in truly excellent health.'' An eye test did detect the early stages of glaucoma, but that is NOT expected to cause Bush any real problems for years, although he'll have to use eyedrops daily. Bush laughed off the lone spot on his checkup report card, saying... ''The vision thing is working well.''

British Prime Minister Thatcher is in Bermuda, where she's waiting to hold a nine-hour summit with President Bush tomorrow. Thatcher is hoping the summit publicity will bolster her flagging popularity at home, where she's facing a taxpayers' revolt over her decision to impose a poll tax in Britain. In remarks to reporters today, she made attempts to defend her position lifting economic sanctions against South Africa.

The East German parliament today elected the nation's first NON-communist prime minister- conservative leader Lothar de Maiziere . He'll head a coalition government comprising seven political parties. In a remarkable move, the nation also accepted responsibility for the Holocaust and apologized to Jews around the world for the crimes committed by Nazi Germany.

Arms experts confirm that a 40-yard-long stretch of pipe confiscated in England on the way to Iraq could have been used as an immense gun barrel to fire nuclear or chemical shells hundreds of miles. It's the second major Iraqi arms shipment intercepted by British Customs in the last two weeks. Authorities last month seized a shipment of nuclear triggers destined for Baghdad.

-30- 1807

#90102u4106 04/12/1990 ~United Press International

(APRIL 12) UPI - Solidarity leader and Polish presidential hopeful Lech Walesa says a new president should take charge of the country's economic reforms. Walesa said President Jaruzelski ''does NOTHING'' to improve the country. Walesa met about 400 Solidarity union activists at a mechanic's school in Elblag, Poland. Walesa signed autographs but joked that he woN'T once he becomes president.

A jury in Elizabeth, New Jersey, today convicted a former Sunday school teacher of murdering his wife, mother and three children in 1971. The jury rejected the claim that John Emil List was compelled to kill by a

religious obsession. The prosecutor credited the jury for agreeing that a man could murder five family members and NOT be insane. Within two weeks of the killings, List applied for a social security card under a false name.

StarKist says its tuna will soon be dolphin-free. The world's largest tuna canner said in Washington today it will NOT buy any tuna captured along with dolphins, and it will NOT buy any fish caught with gill or drift nets. StarKist says it will only buy tuna that has been certified as dolphin-safe by an observer on a tuna boat. Bumble Bee Seafoods Incorporated says it will adopt the same policies within three to six months. A tuna industry spokesman says the decision came after ''tremendous pressure'' from consumers against killing dolphins.

A report sponsored by higher-education groups says colleges improved quality in the 1980s rather than limit tuition increases. The study was requested by the American Council on Education and the College Board. The study... released in Washington... found colleges and universities competed for fewer students by offering more financial aid and better facilities and services. The study blamed these factors for higher tuitions.

-30- 1994

#90102u4303 04/12/1990 ~United Press International

(APRIL 12) UPI - The StarKist Seafood Company today became the first major tuna canner to take firm measures against the killing of dolphins.

Dolphins are frequently killed in netting for tuna. The practice has aroused environmentalists, who've fought against it.

StarKist announced in Washington, D-C, today it will NOT purchase any tuna captured in nets along with dolphins. And it will NOT buy any fish captured with gill or drift nets- two of the most-efficient killers of dolphins and other marine life.

StarKist announced it intends to become the first company to sell what it calls ''dolphin-safe'' tuna within three months.

Environmentalists applauded the decision, and the Greenpeace environmental group said it would prompt other seafood companies to follow suit.

Bumble Bee Seafoods- the third-largest U-S tuna canner- announced before day's end that it intends to phase out use of all tuna captured with dolphins in three to six months.

#90102u4313 04/12/1990 ~United Press International
(APRIL 12) UPI - The federal Centers for Disease Control today issued new food-preparation guidelines in order to curtail the rising number of cases of hepatitis A.

Americans are urged NOT to eat raw shellfish. And restaurant workers are being advised to wear gloves.

Hepatitis A is a liver disease usually transmitted through feces. There has been a 58 percent increase in cases of the disease over the past six years. Federal health officials blame more than seven percent of all cases on poor food-handling or the eating of raw shellfish.

Hepatitis A rarely results in death. But it can lead to prolonged illness, causing mild fever, fatigue, sore muscles, headache, abdominal pain and upset stomach.

There are about 34-thousand cases of hepatitis A during an average year in the United States.

#90102u4373 04/12/1990 ~United Press International
(APRIL 12) UPI - It was another day of radical change in East Germany.

But today's changes look NOT only to the future but to the past.

Conservative leader Lothar de Maiziere was elected prime minister after putting together a coalition of seven political parties in the East German parliament.

De Maiziere is the first NON-communist leader in the 40-year history of the nation. The coalition's main goal is for a swift but responsible re-unification of Germany.

Before the parliament elevated de Maiziere today, it passed a remarkable statement accepting responsibility for the Holocaust. It recognized East German culpability in the Holocaust and asked forgiveness from Jews around the world.

East Germany's communist leadership had NEVER accepted responsibility for the Holocaust, saying it could NOT be blamed for crimes that took place before East Germany was created.

A delegation of five American senators led by Republican leader Robert Dole returned to Jerusalem today after meeting with Iraqi President Saddam Hussein. They say the Iraqi leader is willing to destroy his NON-conventional weapons if Israel does the same.

The senators met for two-and-a-half hours with Hussein in a city in northern Iraq. At a news conference in Jerusalem, they reported Saddam wants to remove- quote- ''all weapons of mass destruction'' from the Middle East.

Hussein also denied a U-S report that Iraq is developing biological weapons. Hussein argued there is a U-S, British and Israeli conspiracy to tarnish Iraq's world image.

Britain has seized shipments to Iraq twice in the last two weeks, claiming the goods were arms.

Today, British Customs officials said a 40-yard-long section of pipe destined for Iraq was useable as the barrel of a long-distance gun capable of firing shells hundreds of miles. The British firm that produced the pipe denied the allegation.

#90102u4393 04/12/1990 ~United Press International

(APRIL 12) UPI - The director of the Census Bureau acknowledged today that the number of people responding to the census is way below what was expected.

Census Director Barbara Bryant says the national response rate is only 57 percent. The bureau had projected a 70 percent response.

Bryant says now is ''a critical point in the census.'' She says- ''if this slow response rate continues, it will cost the American taxpayer.''

That's because for each address where NO resident fills out a form and mails it back, the Census Bureau will hire people to visit the address.

90-Million census forms that were put in the mail at the end of March.

For each one percent of the return that falls below 70 percent, the bureau says it needs 10-Million more dollars to train and pay counters.

Next week, the agency will begin to determine how many census takers it needs and where they must be placed. The door-to-door count is to begin April 26th.

With April 15th just around the corner, the White House today disclosed President and Mrs. Bush paid 101-thousand dollars in 1989 federal income taxes.

That comes on a gross income of almost 457-thousand dollars.

Copies of the first family's tax return released to reporters show almost 190-thousand dollars of the president's income was from his salary.

The Bushes also reported more than 200-thousand dollars in income from other sources.

The Bushes are in the 28 percent income tax bracket bracket. They claimed 94-thousand dollars in itemized deductions, including 37-thousand in contributions to 39 charities.

The vice president's office reported that Dan Quayle payed 24-thousand dollars in federal income taxes on an adjusted gross income of just under 134-thousand dollars.

Bush and Quayle also differed over campaign funding on their tax forms.

Bush and his wife checked boxes designating one dollar each to help publicly finance presidential campaigns.

Quayle and his wife, Marilyn, however, declined to do so.

#90102u4425 04/12/1990 ~United Press International
(APRIL 12) UPI - NASA officials say the launch of the shuttle Discovery will be delayed until at least April 25th. Engineers have decided to replace a defective hydraulic power device that forced Tuesday's launch to the scrubbed.

Exxon Valdez captain Joseph Hazelwood says the sentence he received for his part in the nation's largest oil spill is excessive. Hazelwood's lawyer is appealing the sentence and says the one-thousand hours of beach work would- quote- ''make him a slave for six months.''

Senate Democratic leader George Mitchell is in the Soviet Union, leading a U-S delegation. Today, Mitchell warned Mikhail Gorbachev that using force in Lithuania would have ''grave consequences'' on U-S-Soviet relations.

Colombian authorities now say a car packed with 400 pounds of dynamite killed 22 people, including six police officers. 66 others were wounded in yesterday's blast on a highway, six miles south of the drug center of Medellin.

A Belgian couple held hostage in Lebanon and freed earlier this week with their young daughter are NOT saying much about their two-and-a-half-year ordeal. 42-year-old Fernand Houtekins says Belgian authorities still are trying to free four other Belgian nationals held hostage.

-30- 1401
#90102u4432 04/12/1990 ~United Press International
(APRIL 12) UPI - Pope John Paul washed and kissed the feet of 12 priests today during a traditional Holy Week mass commemorating Christ's Last Supper. For three days, the world's 840-Million Roman Catholics observe the crucifixion, death and resurrection of Christ.

Romania's exiled King Michael will NOT be returning to his native country as planned. The Bucharest government revoked his entry visa, fearing possible violence. King Michael abdicated the throne 40 years ago and has been living in Switzerland.

In Teaneck, New Jersey, a white police officer has been suspended with pay during an investigation of the shooting death of a black teen-ager. New Jersey Governor Jim Florio is asking for calm in the tense New York City suburb following last night's violence during a candlelight service for the youth.

A grand jury in Providence, Rhode Island, has indicted a mother on a murder charge for allegedly giving her five-year-old daughter a fatal dose of methadone to quiet the girls' cough. If convicted, the 41-year-old woman, a heroin addict, could face life in pison.

Minneapolis city officials say they will NOT allow an eccentric Saudi Arabian sheik to adopt more than three dozen stray cats and dogs. A city spokesman says the sheik has been charged with cruelty to and neglect of animals in Dade County, Florida.

-30- 1502
#90102u4615 04/12/1990 ~United Press International
(APRIL 12) UPI - President Bush took his annual physical today and doctors found out he has the early stages of glaucoma in his left eye. The condition creates pressure in eye fluid, and can reduce or wipe out vision. But, Bush says he hasN'T noticed any vision loss, and doesN'T expect any. A battery of other tests found the 65-year-old president to be fit as a fiddle, thanks largely to daily exercise.

East Germany took two major steps today. The parliament voted conservative politician Lothar de Maiziere prime minister, making him the first NON-communist leader in East German history. And the parliament also affirmed a statement accepting East German responsibility for the Holocaust. East Germany's communist leadership had always rejected blame for Nazi-era crimes.

A delegation of five U-S senators, led by Republican leader Robert Dole,

reports Iraqi President Saddam Hussein is willing to destroy Iraq's NON-conventional weapons arsenal if Israel follows suit. Husseinis said to support the elimination of ''all weapons of mass destruction'' in the Middle East.

British Prime Minister Thatcher traveled to Bermuda today, where she's to meet with President Bush for a nine-hour summit tomorrow. Thatcher defended her stand on South Africa when questioned on the issue by Bermuda Premier John Swan. She has lifted economic sanctions against the apartheid country. Thatcher hopes her meeting with Bush improves her popularity at home, where she's facing a tax revolt.

#90103b0003 04/13/1990 ~Business Wire

ENGLEWOOD, CO (APRIL 15) BUSINESS WIRE - U S WEST (NYSE:USW) Friday filed with the Securities and Exchange Commission a registration statement covering the proposed sale of an expected 14 million shares of the company's common stock.

An additional 2.1 million shares may be sold to cover any over-allotments.

Based on the closing price of U S WEST stock on Thursday, April 12, the gross proceeds from the 14 million share offer would approximate $525 million.

U S WEST announced on April 6 a 2-for-1 split of its common stock. The filing today represents post-split shares -- or 7 million shares on a pre-split basis.

U S WEST said the offering will be made internationally, led by Goldman, Sachs & Co. serving as global coordinator. Nine million of the shares are expected to be offered in the United States, 2.5 million in Japan and 2.5 million outside the United States and Japan.

The planned offering, which will be made only by prospectus, will be sold in the United States and Europe through a group of underwriters managed by Goldman, Sachs & Co., Merrill Lynch Capital Markets and Salomon Brothers Inc. The Japanese portion will be sold through a group of underwriters managed by Yamaichi Securities Co. Ltd.

The net proceeds from the offering will be added to U S WEST's available funds and invested over the next several years in:

-- The expansion and modernization of U S WEST Communications' core telecommunications business.

-- U S WEST Capital Corp.'s financial-services businesses.

-- U S WEST's international communications activities, including cable-television franchises in Hong Kong and the United Kingdom and a personal-communications network in the United Kingdom.

U S WEST Inc. is a diversified telecommunications company whose principal subsidiary, U S WEST Communications, provides telecommunications services to 10 million customers in 14 western states. U S WEST also owns companies involved in data solutions, marketing services and financial services.

#90103b0047 04/13/1990 ~Business Wire

HOUSTON (APRIL 15) BUSINESS WIRE - American General Corp. (NYSE:AGC) Friday said that it was disappointed with the Appeals Court decision allowing Torchmark to solicit proxies for its proposed slate of nominees for directors, and that it will oppose Torchmark's proposed slate.

American General will continue to vigorously urge the courts to uphold the advance notice nomination provisions of American General's bylaws and to find that Torchmark failed to comply with those provisions. If the court ultimately upholds American General's position, the Torchmark nominees would not be eligible for election at American General's annual meeting. A hearing on this matter is scheduled for later this month.

''The court's decision to allow Torchmark to proceed with this challenge opens the door to an attempt to gain control of American General without

ever making a specific detailed offer that will meet regulatory and antitrust hurdles,'' said Harold S. Hook, chairman and chief executive officer of American General. The company believes that the Torchmark solicitation of proxies for director nominees and for resolutions calling for the sale of the company requires prior approval by state insurance regulators, and is pursuing that position in various states.

American General is an insurance and financial services organization with assets of $32 billion and total equity of $4.5 billion. Headquartered in Houston, the company has subsidiaries that operate in 50 states and Canada. The company groups its operating subsidiaries into three business segments: Insurance - Home Service; Insurance - Special Markets; and Finance/Real Estate. American General common stock is listed on the New York, Pacific, London, and Swiss stock exchanges.

#90103b0148 04/13/1990 ~Business Wire

CULVER CITY, CA (APRIL 16) BUSINESS WIRE - MGM/UA Communications Co. (NYSE:MGM) Friday reported its operating results for the second quarter and six months ended Feb. 28, 1990.

During the fiscal 1990 six-month period, a 44 percent increase in home video and pay television revenues and decreased operating expenses contributed to a $31,463,000 overall increase in operating income, which totaled $27,333,000 on total operating revenues of $388,335,000.

This compares with an operating loss of $4.13 million on total operating revenues of $412,228,000 in the fiscal 1989 six-month period.

After net interest costs and other corporate expenses and taxes, the net loss for the six months in 1990 totaled $11,859,000, or 23 cents per share which represents a $42,342,000 reduction from the fiscal 1989 period, when there was a net loss of $54,201,000, or $1.08 per share.

For the fiscal 1990 second quarter ended Feb. 28, 1990, MGM/UA posted operating income of $10,304,000 on total operating revenues of $176,811,000, compared with operating income in the same period last year of $10,195,000 on total operating revenues of $241,882,000.

The net loss for the 1990 second quarter was $9,840,000, or 19 cents per share, versus a net loss of $14,731,000, or 29 cents per share, during the fiscal 1989 second quarter.

Jeffrey C. Barbakow, chairman of the board, president and chief executive officer of MGM/UA, stated: ''Operating revenues decreased during both periods primarily due to a lack of feature films in theatrical release.

However, for the first six months of fiscal 1990, the company posted operating gains due to our successful control of overhead costs, as well as the continued outstanding sales performances of the home video and pay television groups.''

On March 14, 1990, Pathe Communications Corp. commenced a tender offer to acquire up to 100 percent of the outstanding shares of MGM/UA Communications Co. common stock and preferred stock at $20 cash per share.

SEYMOUR, CT (APRIL 15) BUSINESS WIRE - TIE/communications Inc., a leading distributor of advanced telecommunications systems, reported results for the year ending Dec. 31, 1989 and for the fourth quarter of 1989.

Total 1989 sales were $223,188,000 compared with sales of $255,299,000 in 1988. The net loss was $69,825,000 or $2.02 per common share (before accretion and preferred stock dividends of $5,192,000 or 15 cents per common share) versus a net loss of $16,953,000 or 49 cents per common share (before accretion and preferred stock dividends of $6,297,000 or 18 cents per common share) in 1988.

Sales for the fourth quarter of 1989 were $48,430,000 compared with $63,289,000 in the comparable 1988 quarter. The net loss was $59,105,000 or $1.70 per common share (before accretion and preferred stock dividends of $1,281,000 or 4 cents per common share) versus a 1988 net loss of $4,363,000 or 13 cents per common share (before accretion and preferred stock dividends of $1,536,000 or 4 cents per common share).

The substantial loss in the fourth quarter was the result of the plant closing and restructuring of our Canadian facility, $18,014,000; the write-down of inventories in and from this facility and the company, $7,529,000; domestic retructuring charges on operations, $6,802,000; and the write-off of intangible assets of Technicom, Turret and TIE Canada goodwill, $21,724,000.

Notwithstanding the losses, the company ended the year with a cash balance at Dec. 31, 1989, of $20,188,000 versus $21,688,000 at the end of 1988.

On April 11, 1990, the company announced that it had signed an agreement with its Preferred Shareholder, HCR Partners, whereby the company repurchased the shares of preferred stock held by HCR Partners for $46,500,000. The purchase price will be paid through two notes: one for $15,000,000 paid on April 13, 1990 and the other for $31,594,000 payable over six years.

The first payment on this second note is due May 1, 1991. The note bears a 10 percent per annum interest rate and is secured by substantially all the assets of the company and its subsidiaries. In addition HCR Partners have six-year warrants to purchase 1,000,000 shares of the company's common stocks at prices ranging from $1.25 to $3.00.

WATERTOWN, MA (APRIL 15) BUSINESS WIRE - Lifeline Systems Inc. (NASDAQ:LIFE) has joined forces with Motorola Corp. to introduce the Total Communications System -- a personal response telephone and paging system that allows residents of senior living facilities to signal for help or answer routine phone calls by pressing a portable, one-ounce call button.

The Total Communications System provides an unprecedented opportunity for Lifeline Systems Inc., the world's leading manufacturer of personal response systems, and Motorola, an expert in electronic paging systems, to address the needs of the rapidly growing, multi-million dollar senior living facility industry.

The Total Communications System will be marketed to the nursing home industry and members of the National Association of Senior Living Industries (NASLI) by ASI Communications Inc., a subsidiary of senior living facility interior design leader, Arthur Shuster Inc.

''Senior living facility residents want housing that gives them immediate access to emergency care wherever they may be in their living environment '' said Arthur Phipps, Lifline Systems Inc. president and chief executive officer. ''With the Total Communications Systems, site managers and developers can offer residents 24-hour, 365-day-a-year help at the push of a portable button instead of the traditional pull cord. That's a distinct competitive marketing advantage to help developers sell units faster.

The Total Communications System integrates the Lifeline Voice Communicator with the Motorola People Finder paging system. Three system variations are available:

--off-site monitoring using certified Lifeline Central personnel --on-site monitoring that uses trained senior living facility staff; and --on-site monitoring that is fully computerized and automated.

For more information about the Total Communications System, call Lifeline Systems Inc. at 800/451-0525 (ext. 120) or Arthur Shuster Inc. at 800/448-7744; in Minn., 612/631-9200

LITTLE ROCK, AK (APRIL 16) BUSINESS WIRE - Worthern Banking Corp.

(ASE:WOR) recorded net income of $4,097,000, or 37 cents per share, in the first quarter of 1990, which represents a 102 percent increase over the net income of $2,032,000, or 19 cents per share, earned in the first quarter of 1989.

''This $4.1 million net income is the highest quarterly operating earnings ever recorded by the corporation in its 22 year history,'' said Curt Bradbury, chairman, president and chief executive officer.

''It also represents the sixth consecutive quarter that Worthen Banking Corporation has recorded increased net operating earnings, continuing our trend of improved performance,'' Bradbury said.

Worthen Banking Corp.
Operating Earnings
(In thousands of dollars except share data)

	1st Qtr. 1990	4th Qtr. 1989	3rd Qtr. 1989	2nd Qtr. 1989	1st Qtr. 1989	4th Qtr. 1988
Net income	$4,097	$4,048	$2,805	$2,208	$2,032	$1,583
Less: Non-recurring items (a)	--	850	--	--	--	403

(a) - Net recoveries from the bankruptcy estates of Bevill, Bresler & Schulman.

The increase in income from operations in the first quarter of 1990 was due substantially to the reduction in provision for loan loss expense resulting from continuing improvement in asset quality, and due to increased other income and reductions in other expenses, Bradbury said.

At the end of the first quarter of 1990, the corporation had equity capital of $105.5 million and a market capitalization of $131.2 million. This represents a book value of $9.65 per share and a market value of $12 per share at March 31, based on 10,931,399 shares outstanding.

At March 31, Worthen Banking Corp. had total assets of $1.8 billion. The corporation owns 10 banks and other financial service companies throughout Arkansas.

#90103d0000 04/13/1990 ~French/German News Agency

LONDON (APRIL 13) - The doubling of British interest rates over the past two years has led to a slump in the housing market and banks are facing losses of hundreds of millions of pounds, according to the latest studies.

House prices are falling in the south of England and have remained unchanged on a national average over the past year which, taking into account inflation at around eight per cent, represents a significant fall in value, according to figures published Tuesday by the Halifax Building Society, Britain's largest home loan specialist.

According to a study released Thursday by financial agency IBCA, Britain's major banks stand to lose some 750 million pounds (1.23 billion dollars) on their home loan portfolios, as the level of lending has boomed despite the price stagnation.

Home loans total some 32 billion pounds (53.3 billion dollars) according to Bank of England figures, about half of it from Britain's eight major banks.

"In a developed market, it is hard to believe that (lending can more than double) in the course of only two years without credit standards being relaxed," the IBCA said.

It is by no mean's Britain's first housing slump in recent years - there was a major crisis in 1974-75 when galloping inflation at 26 percent well outstripped a 7.6 percent rise in house prices.

The situation was repeated in 1981-82, when house prices rose only 0.3 percent against inflation of 8.6 percent.

But between 1983 and 1988 when interest rates started the spiral which has seen them double to some 15 percent the country experienced a record housing boom, encouraged by measures to encourage home ownership by the government of Prime Minister Margaret Thatcher.

#90103d0200 04/13/1990 ~French/German News Agency

SOFIA (APRIL 13) - Bulgaria's call to postpone all debt repayments for two years reflects a worsening economic crisis which has so far not been stemmed by the government's announcement of plans to introduce a market economy.

Bulgaria said at the end of last month that it wanted to reschedule its 10 billion dollar foreign debt, and Finance Minister Belcho Belchev was quoted as saying in London this week that the country wanted to pospone all debt repayments for up to two years and start repaying short-term debt by 1994.

He said he was optimistic that the situation could be stabilised by the mid-1990's but in the meantime Bulgaria needed fresh credits.

The country's economic situation has been worsening since the beginning of the year, despite the government's announcement of economic reform plans to introduce a market economy.

The outlook for this year's harvest is poor, and spring sales of fruit and vegetables to the West, traditionally a prime source of hard currency revenue, have this year brought in very little.

There is no sign of a slowdown in inflation, estimated at between 10 and 12 percent last year, and the heavy industry sector is running at only 30 per cent of production capacity.

Tourism, generally a good money spinner with visitors from other Eastern European countries, particularly East Germany and Czechoslovakia, flocking to the Black Sea, is also looking grim.

There have been only modest bookings from the West, while those from the Eastern European countries are down some 70 per cent on the normal level.

A crisis package presented by Communist Prime Minister Andrei Loukanov at the end of last month said the government wanted to "stop inflation and curb the rise in unemployment."

TOKYO (APRIL 13) - Japan and the United States ended their extended five-day final session on bilateral lumber trade here Friday without reaching an agreement, official sources said.

Japanese and U.S. officials had originally been scheduled to end the meeting Wednesday after three days but extended the session twice in an effort to reach a compromise.

The officials are to meet again late this month to discuss Washington's demand for greater market access for U.S. lumber in Japan, the sources said.

The United States has been vigorously pressing Japan to cut import tariffs on U.S. lumber.

#90103d0410 04/13/1990 ~French/German News Agency

BEIJING (APRIL 13) - China's leaders need "brilliant ideas" to tackle problems in restructuring the economy and opening the country to the outside world, a top economist was quoted as saying Friday.

"The traditional ways of decision-making based on personal experiences of leading cadres are obviously unfit for the new situation," Ma Hong, president of the Research Center for Economic Development, told colleagues at a national meeting here Thursday.

The center acts as a think tank for the State Council, or cabinet.

Mr. Ma, who is also a member of the Chinese parliament's standing committee,
 said economic advisors should come up with "brilliant ideas" to help policymakers, the official China Daily newspaper reported.

"All new problems and phenomena brought forward by the reforms and open policy have posed higher requirements to the policy researchers as well as the decision-makers themselves," he said.

He urged economists to "cultivate a spirit of devotion in dealing with current problems," including inflation, a sluggish market, business efficiency and export development.

KUALA LUMPUR (APRIL 13) - The Malaysian Rubber Exchange and Licensing Board said Friday that it expects demand for latex to pick up in line with a projected recovery in the rubber gloves industry after a year's oversupply.

The board said in its market review that brisk short-covering and speculative buying for latex concentrate and latex grade Standard Malaysian Rubber had provided support for the market in February.

The protracted drought in both Malaysia and Thailand could result in more severe "wintering", which would affect overall rubber production in the two countries, the board said.

Rubber trees shed their leaves and their latex flow slows during wintering, which occurs during the first quarter of the year.

KUALA LUMPUR (APRIL 13) - Malaysia and other Asian cocoa producing countries can join the International Cocoa Agreement without any reservation now that the pact has been extended for two years, a Malaysian official said.

"The door is now opened completely for non-member producing countries in Asia like Malaysia to join the agreement without any reservation," Primary Industries Minister Lim Keng Yaik told Ivory Coast officials in Abidjan.

The text of his speech delivered on Wednesday at a dinner hosted by Alain Gauze, minister delegate of the president with special responsibility for cocoa affairs, was released here Friday.

Mr. Lim said that the International Cocoa Organisation decision to extend the pact without its economic provisions had removed concern over the liquidation of the ICCO's buffer stock of 250,000 tonnes of cocoa and the attendant disastrous consequences.

"It would only be a matter of time before you all see Malaysia joining the fold," he said, adding that the move was in line with Prime Minister Mahathir Mohamad's advice to put substance into South-South cooperation.

Dr. Lim said that Malaysia was also ready to join the cocoa producers' alliance and contribute to strengthening the position of cocoa producing countries.

NEW YORK (APRIL 16) PR NEWSWIRE - Hallmark Cards, Inc. announced Saturday that it is extending the cash tender offers made through a wholly owned subsidiary for two series of debt securities of Univision Holdings, Inc. to 5 p.m. on Tuesday, April 17.

Hallmark said it decided to extend the offers in light of the latest results of the tender offers. As of midnight on Thursday, April 12, approximately $68 million principal amount of the Univision senior subordinated discount notes due 1998 had been physically tendered and not withdrawn, along with notices of guaranteed delivery with respect to additional notes in an amount which, together with the notes physically tendered, was in excess of 90 percent of the outstanding notes. Also as of midnight, approximately $39 million principal amount of the Univision 13-3/8 percent subordinated debentures due 1999 had been physically tendered and not withdrawn, along with notices of guaranteed delivery with respect to additional debentures in an amount which, together with the debentures physically tendered, was equal to approximately 85 percent of the outstanding debentures.

"We are hopeful that all bondholders will now tender their securities and that the Univision restructuring can be completed promptly," a Hallmark representative said.

Rothschild Inc., the financial advisor to a group of Univision bondholders said yesterday it had recommended acceptance of the offers by the group, and the group announced it intended to accept the offers.

The tender offers were previously scheduled to expire at 12:01 a.m. on Friday, April 13.

Hallmark noted that the minimum condition for each offer requires that 90 percent of each series of debt securities be tendered before Hallmark is obligated to purchase any debt securities.

The tender offers are for all of the discount notes at a price of $553 per $1,000 principal amount and for all of the debentures at a price of $312.25 per $1,000 principal amount, plus interest accrued to Feb. 1, for a total consideration of $379 per $1,000 principal amount.

Univision Holdings, Inc. is a privately held company, based in New York, which owns and operates a Spanish-language television network in the United States and a group of television stations.

THOMASVILLE, GA (APRIL 16) PR NEWSWIRE - The board of directors of Flowers Industries Inc. (NYSE: FLO) voted to increase the quarterly dividend to $.155 per common share, it was announced Friday by Amos R. McMullian, chairman of the board and chief executive officer, following the regular quarterly meeting of the board of directors.

The new annual rate of $.62 per common share represents a 14.8 percent increase over the $.54 annual rate in effect a year ago. The dividend is payble on May 14 to shareholders of record on April 27.

Commenting on the announcement, McMullian said, "this dividend represents our 43rd consecutive quarterly dividend increase and reflects your board of directors' optimism concerning the future of Flowers Industries Inc.

"Your comPany is now repositioned to experience a period of sustained growth over the next several years. We are stronger operationally and financially than ever before. We have the most dedicated work force in our industry as well as the cash flow to take advantage of opportunities for growth as they become available in the future. We look forward to fiscal 1991 with enthusiasm," McMullian concluded.

Flowers Industries Inc. porduces and markets a variety of specialty branded food products throughout the South.

NEW YORK (APRIL 16) PR NEWSWIRE - The Leslie Fay Companies, Inc. (NYSE: LES) announced Saturday that Patricia McAllister, executive vice president of Ladies Ready-to-Wear at Lord & Taylor, will be joining Leslie Fay as a senior vice president of the corporation with responsibility for the newly created Designer and Better Dress Group which includes the Albert Nipon, Castleberry, and Donna Morgan for Non- Stop Divisions.

In making the announcement, John J. Pomerantz, chairman of the board of The Leslie Fay Companies, Inc. stated, "I am looking forward with great anticipation to Pat McAllister's joining us in May. She will bring to our already successful Designer and Better Dress divisions a fresh viewpoint reflecting her retail management accomplishments and her long experience in that field. Her marketing skills and outstanding talents should be readily adaptable to her new duties. The creation of the new group and

her appointment are steps in our previously announced program of increasing our presence in the designer and better dress business."

With Lord & Taylor since 1987, Patricia McAllister became executive vice president of Ladies Ready-to-Wear in April 1989. Prior thereto, she was general merchandise manager and senior vice president in charge of designer, bridge, better, moderate and petite women's dresses, and designer, bridge, pacesetter and junior sportswear, From 1973 to 1987, she held various posts with Woodward & Lothrop and John Wanamaker, and served as general merchandise manager and senior vice president in charge of cosmetics, shoes, accessories and intimate apparel.

Leslie Fay is a leading manufacturer of women's dresses, suits, blouses, sportswear and activewear.

#90103p2497 04/13/1990 ~PR Newswire

SEATTLE (APRIL 16) PR NEWSWIRE - Boeing Commercial Airplane Group announced Friday that it signed a memorandum of understanding April 12 with three Japanese aerospace companies that could lead to a cooperative effort to build the proposed Boeing 767-X wide-body twinjet, if the aircraft is launched into production.

Under terms of the memorandum, Mitsubishi Heavy Industries, Kawasaki Heavy Industries and Fuji Heavy Industries together would share responsibility for providing Boeing with between 15 and 20 percent of the airframe.

It is expected that the three firms would continue to build the same category of items they currently provide for the 767-200 and -300 models, plus some additional airframe structure to be determined in the near future. Items they currently supply include fuselage panels and aerodynamic fairings.

This arrangement would provide the Japanese firms a major role in the 767-X program on a non-equity basis.

"The commercial airplane side of Boeing has been doing business with the Japanese aerospace industry for more than two decades," said Dean D. Thornton, president of Boeing Commercial Airplane Group. "Now we've laid the groundwork for a new agreement that's a logical extension of that long-standing and highly successful relationship."

Boeing announced in December that it is offering the 767-X to prospective customers. The company said that if sufficient orders are received, it would launch the aircraft into production and designate it as the Boeing 777. The targeted time period for initial deliveries is the first half of 1995.

As currently proposed, the aircraft would seat 350-370 passengers in two classes, complementing the current Boeing jetliner family by filling the market niche between the company's 767-300 and 747-400. It would feature a new wing, wider fuselage and the latest high-efficiency turbofan engines.

HOUSTON (APRIL 16) PR NEWSWIRE - American General Corp. (NYSE: AGC) reported Friday that it was disappointed with the Appeals Court decision allowing Torchmark to solicit proxies for its proposed slate of nominees for directors, and that it will oppose Torchmark's proposed slate.

American General will continue to vigorously urge the courts to uphold the advance notice nomination provisions of American General's bylaws and to find that Torchmark failed to comply with those provisions. If the court ultimately upholds American General's position, the Torchmark nominees would not be eligible for election at American General's annual meeting. A hearing on this matter is scheduled for later this month.

"The court's decision to allow Torchmark to proceed with this challenge opens the door to an attempt to gain control of American General without ever making a specific detailed offer that will meet regulatory and antitrust hurdles," said Harold S. Hook, chairman and chief executive officer of American General. The company believes that the Torchmark solicitation of proxies for director nominees and for resolutions calling for the sale of the company requires prior approval by state insurance regulators, and is pursuing that position in various states.

American General is an insurance and financial services organization with assets of $32 billion and total equity of $4.5 billion.

Headquartered in Houston, the company has subsidiaries that operate in 50 states and Canada. The company groups its operating subsidiaries into three business segments: Insurance - Home Service; Insurance - Special Markets; and Finance/Real Estate. American General common stock is listed on the New York, Pacific, London, and Swiss stock exchanges.

CHICAGO (APRIL 16) PR NEWSWIRE - Midway Airlines (NYSE: MDW) Friday

announced increased service from Chicago to Philadelphia, Los Angeles and Cleveland.

Midway Airlines on May 1 will add two round-trip flights between its Midway Airport hub in Chicago and its Philadelphia International Airport hub. The service addition brings the schedule to eight daily round-trips from six.

The additional flights will depart Chicago at 10:30 a.m. and 8:10 p.m., arriving in Philadelphia at 1:25 p.m. and 10:59 p.m.

Return flights will depart Philadelphia at 8:10 a.m. and noon, arriving in Chicago at 9:20 a.m. and 1 p.m.

Midway Airlines MD-87 service between Midway Airport and Los Angeles International Airport will increase June 1 to five daily round- trips from four. The new MD-87 twin jets combine the latest in avionics technology with increased passenger comfort.

The additional flight will depart Chicago at 10:25 a.m., arriving in Los Angeles at 12:55 p.m. The return flight will depart Los Angeles at 2 p.m. arriving in Chicago at 8 p.m.

A sixth daily round-trip between Chicago and Cleveland also begins June 1. The additional flight departs Midway Airport at 8:50 p.m., arriving Cleveland Hopkins at 10:59 p.m. The return flight departs Cleveland at 8:10 a.m., arriving in Chicago 8:20 a.m.

Midway Airlines offers coast-to-coast service from its hubs at Chicago's close-in Midway Airport and Philadelphia International Airport. Midway Airlines and its wholly owned subsidiary, the Midway Commuter, serve 59 destinations in the United States, Canada, U.S. Virgin Islands and the Bahamas.

#90103p2562 04/13/1990 ~PR Newswire

NEW YORK (APRIL 16) PR NEWSWIRE - The LVI Group Inc. (NYSE: LVI) Friday reported a net loss applicable to common stock of $17,981,000, or $.97 per share, for calendar year 1989, which reflected a $.40 per share improvement over the company's net loss applicable to common stock of $26,998,000, or $1.37 per share, in 1988.

The 1988 net loss applicable to common stock included the cost of preferred stock dividends amounting to $1,898,000, or $.10 per share, which were paid in 1989. Revenues earned for 1989 were $446,704,000, a decrease of $25,000,000 from the year ended Dec. 31, 1988.

At the end of 1989, the company had working capital of approximately $20,300,000 and net worth of $1,138,000. For the years ended Dec. 31, 1989 and 1988, there were 20,430,000 and 19,778,000 weighted average number of common shares outstanding, respectively.

For the fourth quarter ended Dec. 31, 1989, revenues in a generally soft construction environment decreased to $93,820,000, compared to $131,224,000 for the fourth quarter 1988.

Net loss applicable to common stock for the quarter decreased to $6,019,000, or $.30 per share, compared to a loss applicable to common stock of $17,954,000, or $.91 per share, for the fourth quarter 1988. The 1988 net loss applicable to common stock included the cost of preferred stock dividend paid, amounting to $475,000, or $.02 per share, not paid in 1989.

The company believes that its working capital, together with cash projected to be available from operations, will be sufficient to fund its operations throughout 1990. Long-term success of the company will be dependent upon the company's continuing program to reduce overhead and increase gross margins. Management also is actively pursuing plans for a substantial reduction of the company's long-term debt through a combination of sales of capital assets and a debt restructuring.

Salvatore J. Zizza, president and chief operating officer of the LVI Group Inc., said that while results for 1989 were disappointing, certain factors point to improvements in 1990. He noted that gross profit as a percentage of revenue earned increased to 9.7 percent in 1989 as compared to 7.5 percent in 1988.

Backlogs of work also advanced. NICO Construction's backlog at March 1, 1990 was approximately $148 millIon, compared with approximately $125 million on March 1, 1989. LVI Environmental's backlog was approximately $30 million (of which approximately $10 million is expected to be completed in 1990), compared with a backlog of approximately $16 million a year earlier.

The LVI Group Inc. is a diversified corporation with operations in interior construction, asbestos abatement, industrial products, electrical products and supplies, energy recovery and forensic engineering.

#90103p2578 04/13/1990 ~PR Newswire

CRYSTAL LAKE, IL (APRIL 16) PR NEWSWIRE - Sun Electric Corp. (NYSE: SE) announced Friday that it was calling for redemption on May 14, 1990 all of the company's 8 percent convertible subordinated debentures due May 15, 2006 at a redemption price of $1,095.78 per $1,000 principal amount of debentures, consisting of $1,056.00 principal amount plus accrued interest of $39.78. At the close of trading on the New York Stock Exchange on April 12, there was outstanding $14,366,000 aggregate principal amount of such debentures.

Until 5:00 p.m. Eastern Daylight Time, on May 9, 1990, holders may convert their debentures into shares of the company's common stock at a price of $11.875 per share, or approximately 84.21 shares of common stock per $1,000 principal amount of debentures. On April 12, 1990, the closing price of the company's common stock, as reported on the New York Stock Exchange Composite Tape, was $16.75 per share. Any debentures not converted on or before May 9, 1990 will be automatically redeemed on May 14, 1990 and interest will cease to accrue.

So long as the market price of the company's common stock is at least $13.125 per share, a holder of the debentures who converts will receive common stock with a market value, plus cash in lieu of any fractional share, greater than the amount of cash the holder would be entitled to receive upon redemption.

In connection with its call for redemption of debentures, the company has today entered into a standby agreement whereby Salomon Brothers Inc will, subject to certain conditions, purchase and offer for resale the number of shares of common stock that would have been issuable upon conversion of debentures which are not surrendered for conversion by 5 p.m. Eastern Daylight Time, on May 9, 1990. The proceeds received by the company under the standby agreement will be used to reimburse the company for payments

made to effect redemption of any unconverted debentures.

In connection with the standby agreement with Salomon Brothers Inc, a registration statement was filed today with and made effective by the Securities and Exchange Commission relating to 1,209,769 shares of Sun Electric Corp. common stock, the maximum number of shares issuable upon the conversion of the debentures outstanding at the close of trading on the New York Stock Exchange on April 12.

A notice of redemption and a letter of transmittal (which may be used to surrender debentures for conversion or redemption), together with a prospectus covering the common stock which may be offered by Salomon Brothers Inc, are being mailed to all registered holders of the debentures. Copies of the notice, the prospectus and the form of the letter of transmittal may be obtained from the conversion and redemption agent, IBJ Schroder Bank & Trust Co., Corporate Trust Department, Floor SC1, One State Street Plaza, New York, N.Y. 10004; telephone 212-858-2391.

Sun Electric Corp. and its subsidiaries are primarily engaged in the design, manufacture, marketing and service of diagnostic, test and service equipment for the motor vehicle industry and motor vehicle manufacturers. The company sells its products in more than 100 countries. The company also markets point-of-sale management systems for the retail petroleum and convenience store industries.

TROY, MI (APRIL 13) PR NEWSWIRE - Sandy Corporation (AMEX: SDY), a performance improvement company specializing in consulting, training and communications, today reported second quarter revenues 34 percent above a year earlier.

Revenues were $7,927,000 compared with $5,900,000 for the period ending Feb. 28, reported Chairman William Sandy.

The net loss after taxes for three months was $672,000 versus a quarterly loss of $1,915,000 a year ago.

Sandy Corporation President Raymond A. Ketchledge noted the second quarter traditionally involves substantial company investments in plans and proposals that do not produce revenue or profit until the fourth quarter when clients, especially automotive companies, introduce and train on new vehicles.

Ketchledge pointed out the company's order backlog at the end of the

second quarter was approximately $17 million, up 47 percent from a year earlier.

#90103p2615 04/13/1990 ~PR Newswire

ARLINGTON, TX (APRIL 13) PR NEWSWIRE - NCNB Texas confirmed that it has accepted transfer of the insured deposits of the former Meridian Savings Association, headquartered here. The institution was closed today and the

deposits transferred to NCNB Texas by the Resolution Trust Corp.

The settlement of the transaction with the Resolution Trust Corp. included a premium of $26,000 paid by NCNB Texas for approximately $362 million in insured deposits. NCNB also has the option of purchasing certain assets. The transaction includes approximately 6,400 accounts from branches in Arlington and Katy, Texas.

"We are pleased with this opportunity to expand our services in Arlington as well as Katy," said Jeffrey K. Wentworth, NCNB's district director for Tarrant County, who will manage the Meridian transition. "These areas represent a very important market to NCNB Texas, and we want to assure the former Meridian Savings depositors that we want them to continue as customers of NCNB Texas."

Wentworth said the former Meridian facilities will reopen according to their regular schedules on Monday, April 16, as NCNB branches.

The former Meridian Savings main office is located at Parkway Central Plaza office building, 611 Ryan Plaza Dr. There are two branches: 2105 E. Interstate Highway 30 in Arlington and 810 S. Mason Rd. in Katy. NCNB Texas reported $33.7 billion in total assets at Dec. 31, 1989. Customers are served through a network of more than 200 banking centers in 69 Texas communities.

CONTACT: Chris Spencer of NCNB Texas, 214-508-0639 or 214-520-3561 (non-business hours).

(APRIL 13) UPI - Doctors say President Bush is in ''truly excellent health.'' Bush underwent a four-hour routine medical exam at Bethesda Naval Hospital Thursday and was pronounced extremely fit. Doctors did find the early stages of glaucoma in the president's left eye, but say the problem woN'T restrict his activities and only will require two eye drops a day.

The world's largest tuna canner is yielding to consumer demands to save the dolphins. StarKist says it woN'T buy tuna captured in nets along with dolphins and will only buy tuna certified dolphin-safe by an observer on a tuna boat. Bumble Bee Seafoods Incorporated and Chicken of the Sea both say they intends to adopt the same measures within three to six months.

East German legislators elected Lothar de Maiziere prime minister Thursday and swore in 23 members of his coalition government. The parliament also asked the world's Jews for forgiveness of the Holocaust. Legislators said it was their duty to give particular support and protection to the Jewish religion and culture in Germany.

Israeli Prime Minister Yitzhak Shamir predicts he'll be able to form a Likud-led coalition and block the formation of a Labor Party government. Shamir is engaged in a political power struggle with Labor leader Shimon Peres, who is trying to gain enough parliamentary support to form his own government.

(APRIL 13) UPI - Census Bureau officials say far fewer people have responded to the census than expected. Bureau Director Barbara Bryant says the response rate is 57 percent and adds it will cost taxpayers more if the slow response rate continues. Census workers will have to personally visit those addresses NOT returning the forms.

A Soviet pilot exposed to radiation during the 1986 Chernobyl nuclear disaster is in Seattle awaiting a bone marrow transplant. Physicians at the Fred Hutchinson Cancer Research Center are particularly interested in the case because it's the first time they have treated someone exposed to potentially lethal doses of radiation.

The National Organization for Women says it will step up its abortion-rights message in Nevada and Oregon. NOW President Molly Yard says her group is targeting those two states because ''there will be ballot questions there this fall.'' Yard says the Oregon abortion initiatives are among the most ''punitive'' in the nation.

#90103u0287 04/13/1990 ~United Press International

(APRIL 13) UPI - Los Angeles may have lost 8-6 in their fourth straight

meeting with San Diego, but two Dodgers had a chance to celebrate nonetheless.

Dodger outfielder Juan Samuel and catcher Rick Dempsey both reached career milestones. Samuel achieved his 1,000th hit in the third inning and Dempsey became only the 18th player and fifth catcher to play in four decades in the major leagues.

But at one point Dempsey, who became a major leaguer in 1969, wasn't sure he would make it.

''Before the game I thought I might be having a heart attack, but it turned out to be just a muscle spasm in my chest,'' he said. ''I said, 'Please, let's get this game going.' You have your usual anxiety before your first game of the season.''

It was also an eventful game for Padre outfielder Joe Carter who hit a two-run single in the eighth ending a 0 for 13 drought and giving San Diego a 6-4 lead. Carter's hit came off reliever Don Aase, 0-1, and gave reliever Calvin Schiraldi his first victory of the season.

''I'm just glad the monkey's off my back now and that it contributed to a victory,'' Carter said. ''If there was a time for me to get a hit, that was it. I've just got to keep going up there swinging. Once I saw it hit the outfield grass, I let out a big sigh of relief.''

Padre manager Jack McKeon was also pleased with Carter's progress.

''It was nice to see Carter get his first hit and RBI,'' McKeon said. ''Before he went up, I told him to put the ball in play. That's all we wanted to do in that position. We needed that run on third.''

Roberto Alomar, whose two-run homer in the sixth tied the score, opened the San Diego eighth with a walk. Tony Gwynn tapped back to Aase who threw to second, but shortstop Alfredo Griffin muffed the throw for an error, sending Alomar to third. Jack Clark walked to load the bases and Carter followed with his two-run single.

Mike Munoz replaced Aase and walked Fred Lynn to re-load the bases. Benito Santiago followed with a single driving in Clark and Carter for an 8-4 San Diego lead.

The Dodgers scored twice in the ninth when pinch-hitter Mike Sharperson delivered a two-run single off Craig Lefferts. Lefferts retired Jeff Hamilton on a fly out to end the game and earn his second save.

In other NL games, Philadelphia nipped Chicago 5-4 in the first game, Chicago beat Philadelphia 6-3 in the second, Pittsburgh downed New York

6-2, and San Franciso pummeled Atlanta 13-4.

Phillies 5, Cubs 4, 1st game

Cubs 6, Phillies 3, 2nd game

At Chicago, Terry Mulholland, 1-0, surrendered just five hits and struck out three in 5 2-3 innings. Roger McDowell recorded the final five outs for his first save. Cubs starter Steve Wilson, 0-1, was roughed up for five runs in 3 1-3 innings. He allowed five hits, gave up five walks and committed a balk. In the second game, Jose Nunez went five innings, allowing six hits and three runs, two of which were earned. Mitch Williams pitched the ninth for his second save.

Pirates 6, Mets 2

At New York, Neal Heaton, 1-0, pitched five innings and scattered six hits and Barry Bonds drove in three runs. Mets starter Sid Fernandez, 0-1, allowed four hits through six innings in taking the loss. He issued three walks, all in the second inning, and two of those runners scored.

Giants 13, Braves 4

At Atlanta, Mike LaCoss, 1-0, surrendered five hits over five innings while striking out four. Will Clark drove in three runs and Brett Butler scored four. The Giants scored five times in the second inning off Atlanta starter and loser John Smoltz, 0-1.

-30- 3790

#90103u0317 04/13/1990 ~United Press International

(APRIL 13) UPI - The Philadelphia 76ers didn't need much of a contribution from Charles Barkley to make their 50th win of the year their most convincing victory of the season.

Hampered by a sore right knee, Barkley played only 22 minutes and scored a mere 11 points Thursday night but Philadelphia rolled over the Minnesota Timberwolves 110-77, with the 33-point difference being the 76ers' largest margin of victory this season.

Barkley injured the knee in a collision with Atlanta's Jon Koncak Tuesday and limped noticeably on the court against the Timberwolves.

''Obviously it's not doing very well,'' he said. ''But there's nothing I can do about it. I just have to relax for a couple of days and hope it gets better by Saturday (when Philadelphia visits Charlotte).''

Ron Anderson came off the bench to spell Barkley and scored 20 points and

Hersey Hawkins added 19, enabling the 76ers to become one of six teams to defeat every other NBA opponent this season.

''I felt somebody had to come in and step up,'' said Anderson, who hit 9 of 14 shots. ''Rick (Mahorn) has a sore knee, Charles was really hurting and Derek (Smith) couldn't play in the second half (because of tendinitis in his knee).

''Somebody had to pick things up.''

The triumph gave Philadelphia 50 wins in a season for the first time in four years as the 76ers held the Timberwolves to 34 points in the second half.

It also reduced the 76ers' magic number for clinching the Atlantic Division title to a combination of four Philadelphia wins or Boston losses.

''As a plateau, 50 wins in the pros are like 20 wins for a college team,'' Philadelphia Coach Jim Lynam said. ''It separates them from the others and it shows we've made progess from last year.''

Hawkins scored seven points as Philadelphia used a 23-5 run midway through the third quarter to take control of the game. Hawkins capped the streak with a 3-point basket that put the 76ers ahead 79-54 with 3:08 to go in the period.

Minnesota, which fell to 5-33 on the road, received 12 points from Tyrone Corbin and 11 from Tony Campbell.

''It takes tough play and execution to win,'' Campbell said. ''If we play consistently, we can win. There was nothing we could do tonight.''

In other games, Cleveland clipped Washington 102-100, Boston beat Miami 139-118, New York nipped Indiana 108-100, Houston stopped Charlotte 117-110, Utah topped the LA Lakers 107-104, San Antonio stopped the LA Clippers 105-98, Phoenix defeated Sacramento 116-114, Seattle sank Denver 113-103 and Dallas dumped Golden State 140-133.

Cavaliers 102, Bullets 100

At Landover, Md., Brad Daughtery scored 8 of his 22 points in the fourth quarter to pace Cleveland. The victory moved the Cavaliers into a tie with idle Atlanta in the race for the final playoff berth in the Eastern Conference. Both teams are 37-40 with five games remaining in the regular season.

Celtics 139, Heat 118

At Boston, Larry Bird scored 21 of his 40 points in the fourth quarter to lift Boston, which remained 1 1/2 games behind Philadelphia. The victory was Boston's fifth straight, equaling its season-high. The loss was Miami's sixth in a row.

Knicks 108, Pacers 100

At New York, Patrick Ewing scored 40 points and added 15 rebounds to guide New York. The loss snapped the Pacers three-game winning streak and left them in seventh place overall in the Eastern Division playoff race, two games ahead of Atlanta and Cleveland.

Rockets 117, Hornets 110

At Houston, Akeem Olajuwon scored 34 points and pulled down 19 rebounds, and Buck Johnson added a career-high 30 points for Houston. The triumph lifted Houston to 38-38 as they remained in the eighth and final Western Conference playoff slot.

Jazz 107, Lakers 104

At Salt Lake City, Karl Malone scored 45 points and pulled down 11 rebounds and John Stockton handed out 23 assists. The victory kept Utah 2 1/2 games ahead of San Antonio in the Midwest Division. The loss snapped a seven-game Los Angeles winning streak.

Spurs 105, Clippers 98

At San Antonio, Texas, David Robinson scored 32 points and grabbed 13 rebounds and Willie Anderson scored 12 of his 26 points in the fourth quarter for San Antonio. Danny Manning came off the bench to score 23 points for the Clippers.

Suns 116, Kings 114

At Sacramento, Calif., Randy Allen was called for goaltending on Tom Chambers' short jumper with 1.5 seconds left giving the Suns the victory. Phoenix converted 34 of 40 foul shots, compared to only 16 of only 20 for the Kings.

Sonics 113, Nuggets 103

At Seattle, Xavier McDaniel scored 26 points and Dale Ellis added 24 for Seattle. Seattle, 38-39, ended a three-game losing streak and picked up a game on the Nuggets, clinging to seventh place in the Western Conference playoff race. Denver, 39-38, has lost 11 of 13 road games to Pacific Division teams this season.

Mavericks 140, Warriors 133

At Oakland, Calif., Sam Perkins scored a career-high 45 points and Roy Tarpley added a season-high 27 to help Dallas snap a three-game losing streak. Tarpley, in his second game since returning from a two-game suspension for missing last Friday's practice, added a team-high 15 rebounds off the bench.

(APRIL 13) UPI - Environmentalists are hailing a decision by the top three tuna canners to adopt dolphin-safe policies. StarKist Seafood Company, the world's number one tuna canner, was the first to announce that it would stop buying tuna caught along with dolphins or caught in drift nets. Bumble Bee Seafood Incorporated and Van Camp Seafood, owner of Chicken of the Sea brand, said they would take similar measures. Dolphins customarily swim above schools of yellowfin tuna and are easily caught and killed in tuna nets.

President and Mrs. Bush paid more than 101-thousand dollars in federal income tax in 1989. The White House released copies of the president's tax return Thursday. The president grossed nearly 457-thousand dollars which puts him in the 28 percent tax bracket. Bush earned about 189-thousand dollars as president and 225-thousand dollars from other sources.

Senate Judiciary Chairman Joseph Biden is calling for increased government spending to coordinate research and use of high-tech weapons to fight the drug war. The Delaware Democrat says new technologies can help detect smuggled drugs. The high-tech devices Biden is pushing for include a laser range-finder and a gamma radiation device that can find hidden compartments and measure the density of areas such as gasoline tanks and airplane wings.

(APRIL 13) UPI - Palestine Liberation Organization leader Yasser Arafat arrived in Czechoslovakia Thursday for a two-day visit. Diplomatic observers say President Vaclav Havel invited Arafat to Prague to offset his own trip to Israel. Czechoslovakia was one of the first countries to support the call for a separate Palestinian homeland in 1948. Quoting Arafat- ''This nation has always been on the side of the just cause of our people.''

A radiation safety expert says humans may be 14 times more sensitive to radiation exposure than previously thought. The president of Applied Health Physics presented his findings at a conference in Pittsburgh Thursday. Robert Gallagher said radon poses the single biggest threat and urged homeowners to have their houses tested for radon... which can cause lung cancer after long-term exposure.

Federal health officials at the national Centers for Disease Control in Atlanta are warning Americans NOT eat raw shellfish. The C-D-C also is advising restaurant workers to wear gloves to help combat an increase in the liver disease hepatitis A. During the past six years, there has been a 58 percent increase in the feces-transmitted form of the disease. It rarely is fatal but can lead to prolonged illness.

#90103u0378 04/13/1990 ~United Press International
(APRIL 13) UPI -

St. Louis goaltender Vincent Riendeau played the part of unlikely hero, preserving a 4-3 victory Thursday night and helping the Blues clinch their first-round series against the Toronto Maple Leafs.

After sitting on the bench as brilliant rookie Curtis Joseph started each of the Norris Division semifinal games, Riendeau drew the assignment in goal midway through the third period.

Joseph suffered a shoulder injury with the Blues leading 4-2 at 8:43, and Riendeau was on deck.

''I never played baseball and I don't know what a pinch-hitter feels, but my situation was tough,'' Riendeau said. ''I don't want to do that again.''

After giving up a goal, he made the save of the game - and the series - robbing Toronto winger Daniel Marois on a breakaway. Marois aimed inside right post, but Riendeau, sprawling, flicked out his glove to catch the puck.

''Thank you, very much,'' Blues winger Brett Hull said. ''That was a great save.''

Said Marois, ''I was trying to go top shelf. He made a good save.''

Hull scored twice, extending his point-scoring streak in the playoffs to five games, and Peter Zezel added a goal and two assists to pace the Blues.

Joseph was solid, but Riendeau performed spectacularly.

''Vinnie has been a big part of this hockey team all year and he was again tonight,'' St. Louis coach Brian Sutter said.

St. Louis, in knocking off Toronto in five games, became the first team to advance in the playoffs this year. St. Louis will face the winner of the Chicago-Minnesota series in the Norris Division final.

''If they won tonight, anything could have happened,'' Hull said. ''But we pulled out all the stops and played a helluva game.''

In the other Norris Division semifinal, Chicago topped Minnesota to take a 3-2 lead in the series.

In the Smythe Division, Calgary blasted Los Angeles 5-1, but trails three games to two in their best-of-seven series. Edmonton also avoided elimination by defeating Winnipeg 4-3. The Oilers trail the Jets in the series 3-2.

The Wales Conference resumes play Friday night with the New York Islanders at the New York Rangers, Washington at New Jersey, Hartford at Boston and Montreal at Buffalo.

The Rangers lead their the best-of-seven series 3-1. The other three series are tied at 2-2.

Norris Division
Blackhawks 5, North Stars 1

At Chicago, Denis Savard had a goal and a pair of assists and goaltender Greg Millen allowed one fluke goal, leading Chicago to a 3-2 lead over Minnesota in their playoff series.

Jeremy Roenick and Savard gave the Blackhawks a 2-0 lead after one period that they never relinquished. The North Stars were outshot 14-2 during the opening 20 minutes and 36-27 on the night.

Greg Gilbert, Michel Goulet and Steve Thomas also scored for the Blackhawks. Brian Bellows was credited with Minnesota's only goal, which

deflected off a Chicago player, for his fourth of the playoffs.

Smythe Division
Flames 5, Kings 1

At Calgary, Alberta, defenseman Ric Nattress scored two goals and center Joe Nieuwendyk scored once and added three assists to lead the defending Stanley Cup Champions over Los Angeles.

The Calgary defenseman fired a shot through traffic to beat starting goaltender Kelly Hrudey at 6:39 of the second period, putting the Flames up 3-0. At 5:53 of the third, Nattress made it 4-1 by skating around Kings' defenseman Brian Benning and slipping the puck past Hrudey.

Calgary outshot Los Angeles 35-15 in the game.

Calgary, holders of the league's best power play during the regular season converted on one of seven power play opportunities.

Los Angeles got its lone goal from defenseman Rob Blake, a power-play goal on a 45-foot slapshot.

Oilers 4, Jets 3

At Edmonton, Alberta, Mark Messier snapped a tie at 3:53 of the third period to rally Edmonton and avoid elimination.

Messier and Glenn Anderson, Edmonton's two leading scorers against the Jets during the regular season, broke free on a two-on-one break. Anderson passed to Messier, who used his linemate as a decoy, and whipped a wrist shot over the glove of goaltender Stephane Beauregard.

It was Anderson's first point of the playoffs and only the second goal for Messier.

A minute later, Brent Ashton scored what appeared to be the game-tying goal, but referee Denis Morel disallowed it because a Winnipeg forward was lying in the Oilers' goal crease. Paul MacDermid was knocked into goaltender Bill Ranford, which left the net wide open for Ashton to fire the puck in.

The Oilers scored two goals, one by Craig Simpson and the other by Mark Lamb, in a 13-second span in the latter part of the second period to tie the game 3-3.

#90103u0388 04/13/1990 ~United Press International

(APRIL 13) UPI - Luis Polonia seemed more concerned with his 1990 role than with his 1989 misfortunes.

''The No. 1 pinch-hitter on the club, I know that's going to be my job,'' Polonia said Thursday after his pinch-hit single in the eighth inning snapped a tie, helping the New York Yankees open their season with a 6-4 victory over the Cleveland Indians.

''I know it's going to be hard for a young guy like me,'' added Polonia, 25. ''But when you know that's your job, you gotta' be ready.''

Last year, Polonia faced more than tough relief pitching. Convicted of having sex with a minor in a Milwaukee incident, he served 27 days in jail. With that finished, he can resume being what he was when the Yankees acquired him in the Rickey Henderson trade.

''He's a big part of our club,'' said Yankee Manager Bucky Dent. ''He's a good little offensive player.''

''I don't worry about anything,'' Polonia said. ''I went through a lot of bad things last year. Now I know what's going on in New York, so I'm ready for everything. I don't think anything can hurt me anymore.''

An outfielder with a reputation as a poor defensive player, Polonia must contribute with his bat and his feet.

''I try to convince everybody that I could play,'' he said. ''Right now it's gonna be my job, I'm gonna' take it. I'm just happy to be here and I hope sooner or later things can change.''

Polonia's hit came on the first pitch thrown by reliever Doug Jones, and made a winner of Eric Plunk. Jesse Orosco took the loss.

''I know the guy,'' Polonia said. ''I know his best pitch is a changeup. I said if he throws me a changeup I'm gonna' hit it. That's exactly what he threw me.''

''I hope I can keep doing my job and turn everyone around and be on my side. That's one of the main things I'm looking for this year.

With the score tied 4-4 in the eighth, Jesse Barfield drew a walk off Orosco and was forced by Roberto Kelly on a ball where Cleveland failed to turn the double-play.

''We didn't execute on the ball hit back to the mound,'' said John McNamara, a loser in his first game as Cleveland's manager. ''It's a different game if that's done.''

''We got to the situation we want with our closers but didn't do the job '' McNamara said.

Bob Geren singled Kelly to third and Jones replaced Orosco. Polonia lined a single to center, scoring Kelly. Steve Sax singled to second baseman Jerry Browne, who dove for the ball, then threw it past first baseman Keith Hernandez for an error, allowing Geren to score.

Tigers 11, Red Sox 7

At Detroit, Tony Phillips had four hits and three RBI to give Detroit their first victory of the season. Urbano Lugo pitched 3 1-3 innings of one-run relief to earn his first victory since 1986 with California.

Blue Jays 7, Rangers 1

At Toronto, Kelly Gruber collected three hits including a three-run homer and Fred McGriff and Pat Borders added solo shots, powering Toronto. Manny Lee also collected three hits, scored twice and drove in a run to pace a 13-hit attack. Mike Flanagan allowed just one run in five innings for the win.

Angels 3, Twins 1

At Anaheim, Calif., Kirk McCaskill combined with two California relievers on a six-hitter and Jack Howell went 3-for-3, leading the Angels to victory over Minnesota. Mark Eichhorn recorded the last seven outs for his second save. Twins starter David West allowed just four hits, but took the loss.

#90103u0394 04/13/1990 ~United Press International

WASHINGTON (APRIL 13) UPI - Announcements by the nation's top three tuna canners to help reduce the killing of dolphins disappointed fishermen, but boosted environmentalists who are lobbying hard for change.

StarKist Seafood Co., the world's largest tuna canner and a subsidiary of H.J. Heinz Co. of Pittsburgh, was first to announce Thursday it would stop buying tuna from fishermen whose nets simultaneously trap and kill dolphins.

At a news conference, Heinz Chairman Anthony J.F. O'Reilly said StarKist's decision will cost consumers ''a couple of cents'' extra on each can of tuna.

Van Camp Seafood Co. of St. Louis, maker of the second most-popular brand, Chicken of the Sea, and No. 3 Bumble Bee Seafood Inc., followed StarKist with similar announcements. Bumble Bee is owned by a Thai investment group.

In addition, StarKist and Van Camp each said they would stop buying fish caught in gill or drift nets, known to be dangerous to marine life.

Dolphins in the Eastern Tropical Pacific Ocean, a coastal zone from Chile to Southern California, customarily swim above schools of yellowfin tuna for reasons biologists cannot fully explain.

When nets are spread to catch tuna, dolphin often are caught as well, killing or maiming them. It has been reported that net trapping kills tens of thousands of dolphins each year.

Last November in New Zealand during a conference of South Pacific nations, delegates agreed to ban the use of drift nets in 3 million square miles of ocean. However, the leading fishing nations of Japan and Taiwan refused to accept the ban, saying they have significantly reduced their drift net fleets.

David Burney, executive director of the U.S. Tuna Foundation in Washington said StarKist's decision was motivated by consumer outrage over dolphin deaths.

''They had tremendous pressure placed on them both in the marketplace ... and as a target of boycott efforts and that pressure extended up to the shareholders of the company,'' said Burney, whose group represents the tuna industry.

But Peter Dykstra, a spokesman for the Washington-based environmental group Greenpeace, said the organization recently bought stock in H.J. Heinz and filed a resolution with the company's board of directors calling for ''essentially what Heinz did'' regarding its StarKist tuna policy.

Dykstra could not provide figures on the amount of stock purchased, but said it was done ''to have our voices heard as shareholders.''

Sen. Joseph Biden, D-Del., who has co-sponsored a bill that generally legislates StarKist's voluntary action, called StarKist's decision ''one hell of a sound business judgment.''

An official of the American Tunaboat Association, based in San Diego, said the actions would curtail, and maybe kill business for tuna fishermen based in the United States.

''There's no other tuna fleet that will be more severely damaged or even destroyed than the (U.S.) fleet,'' said August Felando, the association's president representing the 65 vessels in the U.S. fleet. ''There are limited options for this fleet.''

He said dolphins swim with the larger, mature tuna - the kind canners want.

StarKist pledged full implementation of the new policy within three months

while Bumble Bee said it intended a three- to six-month phase out of tuna caught with dolphins. Both companies pledged to label their product as ''dolphin safe.''

Van Camp did not provide a timetable for its action, but called on tuna producers worldwide ''to join us and cease using suppliers that may contribute to the death of dolphins.''

O'Reilly said the StarKist policy will save dolphin lives. ''Nothing short of dolphin-safe tuna will be acceptable to StarKist and the public,'' he said.

StarKist said it will buy only tuna that has been certified as dolphin-safe by an observer on a tuna boat. There are now observers on every tuna boat in the U.S. fleet and on 30 percent of the foreign fleet.

Dan Sullivan, president of the San Diego-based Bumble Bee canner, said in a statement his company would not immediately stop buying such tuna because ''not everyone in the world is as concerned about this issue as we are in America.

''If we just shut these suppliers off, we may just drive them to other markets in Europe. We want to work with them to divert them from unsafe techniques,'' Sullivan said.

#90103u0398 04/13/1990 ~United Press International

SRINAGAR, India (APRIL 13) UPI - Indian and Pakistani troops exchanged gunfire on their northern border in a clash that killed five Pakistanis and one Indian amid renewed tensions stoked by the slaying of three hostages by Kashmiri Moslem separatists, officials said Friday.

The border clash occurred Thursday along a section of the frontier near the Indian town of Poonch, 425 miles northwest of New Delhi, a Defense Ministry official said.

He said the brief exchange killed five Pakistani soldiers and one Indian soldier. He had no further details.

''Such incidents are not uncommon along the border in view of tense relations between two countries,'' said another Indian official.

In Islamabad, state-run Radio Pakistan said the government has ''categorically denied a report ... that five Pakistani soldiers were killed in an exchange of fire between Indian and Pakistani troops in the Poonch sector.''

''The report of casualties is baseless,'' the radio said. It gave no further details.

Outbreaks of shooting between the two sides occur routinely along the border, mostly in disputed Kashmir, where the frontier is a U.N.-monitored cease-fire line established after the 1948 Indo-Pakistan war, which left two-thirds of the Himalayan region under Indian control.

The two countries also fought over Kashmir in conflicts in 1965 and 1971.

The United News of India news agency said in a dispatch from the Jammu and Kashmir winter capital that Thursday's exchange was triggered when Indian troops objected to the construction of a bunker by Pakistani soldiers in the no man's land along the frontier.

The clash came amid a further sharpening of Indo-Pakistani tensions following the slayings Tuesday of three hostages by a Moslem separatist group helping to engineer a bloody popular uprising for independence of the Indian side of Kashmir.

The insurrection, supported by virtually all 4 million Kashmiri Moslems in India, has left more than 200 people dead since it erupted in mid-January when protesters in the summer capital of Srinagar, 400 miles (640 km) north of New Delhi, were killed by security forces.

New Delhi has repeatedly charged Pakistan with arming and training separatist groups as part of a plan to realize its claim to the entire Himalayan region. Islamabad denies the allegation, but it is openly supporting Kashmiri demands for self-determination and is raising funds for the cause.

The slayings of the hostages provoked the sternest attack yet on Pakistan by Prime Minister V.P. Singh, who Wednesday warned Indians to be ''prepared psychologically'' for any eventuality, a statement widely interpreted as meaning hostilities.

Troops in Srinagar pressed house-to-house searches for separatists, including the killers of the three hostages, as a curfew continued for an eighth day, exacerbating food shortages among the 800,000 residents, who have been confined to their homes without a chance to purchase goods.

In addition to complaining of growing hunger, residents have charged that many people have been beaten by troops of the world's fourth-largest military. The government has not responded to the allegations.

Hundreds of suspected militants, as well prominent political and social figures, have been arrested in the crackdown.

Governor Jagmohan, who has overseen Jammu and Kashmir on New Delhi's behalf since the state administration resigned in mid-January, ordered the searches and curfew after the Jammu and Kashmir Students Liberation Front last Friday kidnapped an Islamic scholar, his aide and a Hindu public enterprise executive.

They were killed after the government rejected the abductors' demands for the release of three jailed militants, an end to the searches and the lifting of the curfew.

#90103u0423 04/13/1990 ~United Press International

LONDON (APRIL 13) UPI - Most European currency markets were closed for the Good Friday holiday.

In Brussels, the dollar opened unchanged from the previous day's close at 34.61 Belgian francs.

In Milan, the dollar was down to 1229 lire against 1233.05.

Markets were closed in Zurich, Frankfurt, Paris and London.

Earlier, the U.S. dollar climbed against the Japanese yen in quiet trading in Tokyo, closing at 158.42 yen, up 0.42 yen from Thursday's close, the Bank of Japan said.

There was no trading in Hong Kong or Singapore.

-30- 687

#90103u0424 04/13/1990 ~United Press International

(APRIL 13) UPI - Cold held the East Coast in a tight grip early Friday from Maine all the way to Georgia, while hail and high winds plagued parts of the Southwest.

Boston was near freezing, but Worcester, Mass., and Bangor, Maine, registered even lower with 26 degrees, the National Weather Service reported.

Residents in Maine's far northern reaches contended with snow flurries, which have stubbornly fallen for several days running. Most of the rest of New England was finally clear of the unwelcome spring showers.

Temperatures dropped well below freezing in Maryland, Pennsylvania, West Virginia and southern New Jersey. Freeze and frost warnings were issued for most of the mid-Atlantic region.

Only New Jersey was spared from mercury readings dipping into the teens or low 20s, registering in the lower 30s early Friday. Skies were mostly clear in the region, although some light snow was reported in parts of western Pennsylvania and the northern panhandle of West Virginia.

Temperatures in the South dropped near freezing in coastal states. Frost warnings were posted for sections of Georgia and North Carolina. Knoxville Tenn., was 38 degrees early Friday. Jacksonville, Fla., was 45; Atlanta, 46; Charleston, S.C., 51 and Miami, 67.

Temperatures warmed up slightly in the Midwest, and light rain showers began sweeping much of the region.

Temperatures throughout Illinois, Indiana and Kentucky ranged from the low 30s to mid 40s. Minnesota, Wisconsin and Michigan had temperatures about 10 degrees cooler.

Rain fell heavily in some areas of eastcentral Missouri and southwest Illinois. One area of particularly heavy rain stretched from Rolla, Mo., to about 70 miles north of St. Louis.

Hail and wind gusts up to 50 mph plagued eastern New Mexico Friday and began swinging into west Texas.

Most of Texas saw rain, but east Texas managed to get by with only some cloudy skies.

Oklahoma was cloudy statewide with some light rain in the east.

Most of Arkansas was partly cloudy and somewhat chilly, with light rain in the west beginning to spread statewide.

In the West, fog shrouded Los Angeles along the coast and Orange County. The far north coast of California was foggy, too, but most of the state was clear.

In Las Vegas, unseasonably warm temperatures continued into Thursday evening.

A weather system approaching Vancouver Island spread mainly high clouds over Washington state and rain is heading in.

In Oregon, high pressure helped to continue a stint of mild dry weather. A weakening frontal system about 300 miles to the west spread considerable high-level cloudiness across the northern half of the state.

#90103u0513 04/13/1990 ~United Press International

MOSCOW (APRIL 13) UPI - A senior Soviet lawmaker said up to 70 percent of state-owned industries will soon be leased to work collectives or individual owners and 70 percent of the prices will be set by the market.

Pavel Bunich, deputy chairman of the Soviet parliamentary committee on economic reform, urged quick reforms but said Thursday he did not want the kind of ''shock treatment'' of rapid price hikes and high unemployment that Poland is experiencing and that has been predicted for the Soviet Union.

He did not explain how the reforms would avoid the high prices if the prices were set by the market but did say the government will continue to set prices for necessities and strategic goods, the official Tass news agency said.

''The Soviet Union will soon have a market of securities, means of production and labor,'' Bunich said. ''The Parliament will pass bills to de-monopolize the economy and promote competition.''

He said under the reforms government ministries now controlling state enterprises will have to adjust to new functions.

''I don't see the need for five-year plans either, at least in their present, binding form,'' Bunich said.

As far back as 1987, Soviet officials said about 13 percent of state enterprises were unprofitable and should be closed. Tass said recently that under the expected economic reforms the unprofitable businesses will be closed and unemployment would rise rapidly.

Bunich said Thursday 10 million people may be unemployed because of the transition to a market economy, but he said a new law on employment would enable the ''dilution'' of about 75 percent of the unemployed through new training and benefits.

#90103u0516 04/13/1990 ~United Press International

(APRIL 13) UPI - Around the world... around the clock... the latest news from U-P-I.

President Bush plans to begin this Good Friday morning in church. Bush is to attend Good Friday sunrise church services in the nation's capital before leaving for Bermuda, where he'll hold talks with British Prime Minister Thatcher. The British leader arrived in Bermuda yesterday.

The president pays the I-R-S. The White House says President and Mrs. Bush

paid taxes of 101-thousandthousand-780 dollars in income. Royalties from the president's book, ''Looking Forward,'' went to the United Negro College Fund and the M.D. Anderson Cancer Center.

The Census Bureau's count is NOT going as well as hoped, with fewer people responding than expected. Bureau Director Barbara Bryant revealed that, as of yesterday, the national check-in response rate was only 57 percent. She warned that if the slow rate of response continues it will cost American taxpayers more.

Charlie the tuna, joined forces with a mermaid and a bee to save dolphins. Makers of the nation's three leading tuna canners... Starkist, Chicken of the Sea and Bumble Bee... pledged to stop buying tuna from fishermen who use nets that trap both tuna and dolphins. Starkist and Chicken of the Sea also vow NOT to buy fish caught in gill or drift nets, known to be dangerous to marine life.

A Los Angeles Times report indicates seeds taken into space on the shuttle and distributed to four-Million students were exposed to cosmic radiation that could result in poisonous tomatoes. The paper quotes a NASA memo as saying- ''There is a remote possibility that radiation-caused mutations could cause the plants to produce toxic fruit.''

-30- 1863

#90103u0555 04/13/1990 ~United Press International

WASHINGTON (APRIL 13) UPI - Wholesale prices fell 0.2 percent in March with tumbling food and energy prices accounting for the first monthly decline since last August, the Labor Department said Friday.

Producer prices for fresh vegetables set a record, plunging 25.5 percent after soaring in January and February, according to the department's Bureau of Labor Statistics.

''Prices turned down sharply for tomatoes, celery and cabbage,'' the monthly report said. ''Prices for lettuce and snap beans also fell.''

Beef and coffee prices were also down.

March gasoline prices fell 2.8 percent, and prices for natural gas turned down 2.5 percent. But the cost of home heating oil increased 10.6 percent in March after dropping 30.2 percent in February.

The wholesale price changes were adjusted to reflect seasonal factors, such as the weather.

The 0.2 percent March decline in the Labor Department's producer price index followed no change in the closely watched economic indicator in

February, and a 1.8 percent jump in January.

The index, itself, stood at 117.0 with 100 equal to $100 in 1982.

Overall food prices, were down 0.6 percent in March, after climbing 0.9 percent in February and 2.1 percent in January. Overall energy prices, were down 2.4 percent in March after falling 5 percent in February and rocketing up 13.6 percent in January in the wake of the Christmas cold snap.

Excluding food and energy prices, producer prices edged up 0.3 percent in March, following gains of 0.4 percent in February and 0.1 percent in January, the Labor Department said.

The index for consumer goods, other than food and energy, was up 0.2 percent in March ''due in part to a downturn in prices for women's apparel pharmaceutical preparations and newspapers,'' the report said.

Wholesale prices fell for new cars, slowed for men's clothing and textiles and increased for alcoholic beverages, children's clothes and gold jewelry. March tobacco prices held steady.

Based on the figures for the first three months of the year, wholesale prices are increasing at annual rate of 6.7 percent. Based on the figures for March, wholesale prices are increasing at an annual rate of 2 percent.

The wholesale price index for intermediate goods, meanwhile, showed no increase in March while the index for crude goods dipped by 1.4 percent, the department said.

#90103u0582 04/13/1990 ~United Press International

(APRIL 13) UPI - Prices on the Tokyo Stock Exchange closed lower Friday in light trading on investors' continuing concern with the fluctuations in the yen-dollar exchange rate.

The blue chip Nikkei Average of 225 selected issues, which gained 182.92 points Thursday, dropped 409.28 points to close at 29,213.92.

The broader-based Tokyo Stock Exchange Index of all listed major shares, which declined 1.96 points Thursday, fell 17.45 points to 2,165.89.

Volume was an estimated 320 million shares, compared with 421.27 million shares Thursday.

Traders said the continued downward slide of the Japanese yen pushed buyers to the sidelines.

The dollar climbed 0.42 yen to close at 158.42 yen on the Tokyo Foreign Exchange.

Shares were also sold when the price of stock futures dropped, dealers said.

Losers outnumbered gaining stocks 672 to 263, with 168 issues unchanged.

Petroleum shares dropped. Precision instruments, including Olympus Optical and Asahi Optical, also fell.

Shipping stocks, including Navix and Iino Kaiun, declined. Nonferrous metals, rubber products and glass issues were also lower.

Elsewhere, markets were closed for the Easter holiday in Hong Kong, Singapore and Sydney. Trading in Singapore and Sydney was scheduled to resume Monday, in Hong Kong Tuesday.

-30- 1481

#90103u0614 04/13/1990 ~United Press International

WASHINGTON (APRIL 13) UPI - It certainly doesn't seem that long ago, but it was 45 years ago last Thursday that the bottom dropped out of the world for a lot of Americans.

That day Franklin D. Roosevelt died. He had been president for 12 years and 39 days, almost surely longer than anyone ever will serve again. For a 17-year-old only dimly aware of someone named Herbert Hoover (Why did they name him after the vacuum cleaner, Ma?), Roosevelt always had been president.

World War II was to end in four months, but while the Nazis clearly were on the run in Europe, even the most knowledgeable of us out in the Midwest did not forsee quick victory in the Pacific. (We had never heard of ''atomic'' bombs.)

We teenagers expected to be drafted as soon as we finished high school. (We also never had heard of college deferments.) In April of 1945, this teenager was getting ready by taking an electronics cram course in hopes of being accepted by the Navy for training in its new- fangled radar program.

On the afternoon of April 12, one of the students arrived late at the class and announced that he was tardy because of the news that Roosevelt was dead. The instructor left the room to check and returned to confirm what the student had said and dismiss the class.

It was a warm spring day in St. Paul, Minn., and for a reason I cannot remember, I walked to the nearby railroad depot. In front, a black man with tears running down his face leaned on a luggage cart. It seems to me I heard a news boy shouting ''Extra!'' I cannot remember boarding a streetcar to return home.

I do remember the next morning's paper, with its ''FDR DEAD'' banner bigger than any of the war headlines. I saved that paper, but it is long since lost. I also remember days of mournful radio music and very little of what was said.

The only pictures I remember were of the draped coffin arriving in Washington from Warm Springs, Ga. It wasn't until years later that I saw the famous photograph of the black Navy accordionist crying as the Roosevelt cortege passed by in Warm Springs. I experienced an eerie jolt of memory recalling the weeping red cap in St. Paul.

The only public event in my life even approaching the impact of FDR's death was the assassination of John F. Kenne- dy 18 years later.

Kennedy's death evoked rage and disappointment that so bright a life had been de- stroyed, but it did not leave me with the feeling of cavernous emptiness and total confusion that persisted for weeks after Roosevelt died. It should be said that by 1963, I was in the business of reporting and writing news, in the course of which it is possible to become accustomed to violence.

Perhaps that is why even though I had covered and talked to Kennedy a number of times when he was a senator and only had seen Roosevelt in the flesh once, the personal impact of FDR's death was far more crushing. Even today, it is hard to say what that effect was - perhaps the death of innocence or the first glimmering of the nasty truth that nothing lasts forever.

#90103u0616 04/13/1990 ~United Press International

(APRIL 14) UPI - As churches and synagogues join in the global celebration of Earth Day, many of them will be working from an agenda that includes far more than ending pollution and preserving nature.

Charles Birch, a biologist and winner of the 1990 Templeton Prize for Progress in Religion, put it starkly:

''The ecological message is clear. Our basic task is to reduce the impact of humanity on the earth's life-support system as rapidly as possible.''

That is no easy task, however, as Birch also notes when he writes that

''total spiritual confusion prevails in the modern world about the relationship of humanity to nature in a technological culture.''

For Birch, and a growing number of other ethicists and theologians, what is needed for a proper religious response to Earth Day is a revolution in values, in lifestyles and in economic and political goals.

The latter promise to be at center stage as churches from around the world prepare for the World Council of Churches' major gathering on ''Justice, Peace and the Integrity of the Creation'' in Seoul, South Korea, in June.

A message from a preliminary meeting in Seoul put the issue for the churches sharply: ''The central issue of justice we want to put forward during the JPIC convocation and beyond is this - the unjust accumulation of wealth and power in our societies and in our churches.''

''When we destroy the environment we commit injustice, especially to future generations,'' the statement said. ''Even when people destroy the environment because of need (and not because of greed) their need is itself the result of another injustice.''

And, they said, ''We should not reduce 'integrity of creation' to the environment, much less counterpose it to justice in a false competition for priority. People and nature are one creation. Injustice to one is injustice to the other.''

But that message is not a popular one nor an easy one to convey.

For Americans, connections between the external debt of nations such as Brazil and Ghana and the destruction of those nation's forests do not come easily. Nor is the religious dimension of such issues readily apparent.

And the Seoul meeting is likely to again open the World Council to charges that it unthinkingly opposes capitalism and Western cultural values.

''We cannot condone the destruction of the environment even if the immediate reason is need,'' the statement said. ''But we must condemn the injustice that force the need to destroy the integrity of creation.''

Will Earth Day be a flash in the pan, an ecological Woodstock celebration and an opportunity for alternating between handwringing and handclapping?

There are some signs the issues highlighted by the event, and by the concern of the World Council's JPIC process, are extending beyond the traditional liberal activist circles in the church.

Richard Land, executive director of the Southern Baptist Convention's Christian Life Commission, recently told a symposium of religious and

political leaders in Nashville, Tenn., that he believes environmental problems ''have reached the stage where something must and will be done in this decade.''

''For Baptists and other evangelicals, the only question is whether we will engage the issue and aggressively join the debate, or whether we will continue to leave the field to a largely secular environmental movement that sometimes sounds as though the creation of man was an act of aggression against the animal and mineral kingdom,'' Land said.

MOSCOW (APRIL 13) UPI - The Soviet Union officially admitted responsibility Friday for the killings of 15,000 Polish officers in the 1940 Katyn Forest massacre, ending 50 years of denials by turning over newly found documents to Polish President Wojciech Jaruzelski.

''The discovery of the archival material allows us to conclude the direct responsibility for the atrocities of the Katyn Forest lies with (secret police head) Lavrenti Beria and his henchmen,'' the official Soviet news agency Tass said.

''The Soviet side expressed profound regret over the Katyn tragedy, declaring that it was one of the most heinous crimes of the Stalin era,'' Tass said.

Moscow Radio's English-language service apparently broke information on the official apology prematurely during a broadcast Thursday night, as it did not repeat the broadcast until the official Tass announcement Friday afternoon.

It was the first time the Soviet Union has admitted responsibility for the slaughter of the Polish officers - an incident that has soured relations between the two countries for 50 years. For years Moscow had officially blamed the Nazis for killing the officers.

The admission came during an official visit by Jaruzelski that will include a trip to Katyn Saturday. The Polish president met with Soviet President Mikhail Gorbachev in Moscow Friday.

Tass said Soviet historians discovered documents showing that Polish officers, taken prisoner as the Soviets moved into Polish territory under Stalin's non-agression pact with Adolf Hitler, were held in camps by the NKVD, then the Soviet security service.

''The documents show that in April and May of 1940, 15,000 Polish officers that were in these camps were taken out,'' Tass said.

''Three-hundred-ninety-four people were transferred to Gryazovetsky concentration camp but the main portion were transferred into the hands of the NKVD.

''There was never again any mention of them.''

Tass said Soviet officials turned over the new documents to Jaruzelski.

Poles and independent historians have claimed since the end of World War II that the Soviet secret police killed the Polish officers. But until Soviet media began publishing information from NKVD documents this month, the official line in Moscow was that the Nazis were responsible.

''Painful chapters in our common history will be brought to light,'' Jaruzelski said before leaving Warsaw Wednesday for his four-day trip to the Soviet Union.

Jaruzelski began the trip in Lvov, a former Polish city in the western Ukraine. He also visited Kiev before traveling to Moscow Thursday.

#90103u0640 04/13/1990 ~United Press International

MINNEAPOLIS (APRIL 13) UPI - Honeywell Inc., Unisys Corp. and the former Sperry Corp. are being sued for $48 million by the federal government for allegedly inflating cost estimates for flight simulators used to train military pilots.

The suit, filed Thursday by the U.S. attorney's office for the Eastern District of New York, in Brooklyn, seeks triple the government's alleged loss of $16 million. It also seeks $5,000 to $10,000 for each allegedly false claim for payment that was submitted to the government.

Honeywell spokesman Tim Morin said the Minneapolis company had not seen a copy of the suit and declined to comment. The simulator suit marks the third major legal entanglement for Honeywell since it acquired the former Sperry operations in 1986 from Unisys, based Blue Bell, Pa.

The simulator suit involves operations based in Herndon, Va., that Honeywell owned from 1986-1988, although the alleged fraud occurred over a period extending back to the late 1970s. During that time, the business unit was owned first by Sperry, based in New York, and later by Unysis, which was formed when Sperry was acquired by Burroughs Corp. in 1986.

Honewyell bought the flight simulator business from Unisys in 1986 as part of its Sperry Aerospace acquisition, and sold the operation to Los Angeles-based Hughes Electronics in 1988.

The government alleges the flight simulator business unit, then owned by Sperry, underbid a government contract in 1979 and 1980, then inflated costs on additonal contracts it received. The suit alleges that fraudulent acts, usually falsely inflating labor cost estimates, netted the corporations as much as 70 percent profits. The government contracts involved were for the production of F-18 and T-45 Navy fighter plane simulators.

In an earlier dispute, Honeywell was accused of cost-accounting problems in its Albuquerque, N.M., military aerospace operations. Those problems were mainly responsible for Honeywell's record loss of $435 million in 1988. As a result, Honeywell sued Unisys for more than $350 million in 1988.

In another episode last year, the government sued Honeywell and Unisys for about $48 million over alleged contract violations at operations in Albuquerque.

Honeywell has said a significant part of that suit involves alleged incidents that occurred before it bought the operations from Unisys. Damages for that period would be covered by a contract clause under which Unisys would bear the costs for its period of ownership, Morin said.

#90103u0667 04/13/1990 ~United Press International

BEIJING (APRIL 13) UPI - Chinese Premier Li Peng will pay an official visit to the Soviet Union starting April 23 at the invitation of Soviet leader Mikhail Gorbachev, the official media said Friday.

The hard-line premier, educated in Moscow before the 1960s Sino-Soviet split over ideological and territorial disputes, was invited by Gorbachev during his ground-breaking trip to Beijing last May.

Li will be the first Chinese premier to visit the Soviet Union since Zhou Enlai in the early 1960s.

''During his visit, Li Peng will have an extensive and in-depth exchange of views with Soviet leaders on bilateral relations and major international issues of common concern,'' said a report carried by the state-run Xinhua News Agency.

But just as Gorbachev's trip to Beijing was marred by massive pro-democracy protests, which overshadowed normalization of Sino-Soviet relations, East Bloc analysts say Li's visit could prove a tempting target for newly emboldened opposition forces in the Soviet Union.

Soviet authorities ''want to be very careful'' to avoid protests,

according to an East Bloc diplomat, noting the trip is crucial for both the Soviet Union and Li, the least popular Chinese leader.

Li's trip comes as the Chinese leadership, isolated further by the recent liberalizations in the Soviet Union and eastern Europe, is maintaining economic and governmental ties with Moscow while continuing to issue sharp internal criticism of Gorbachev for ''betraying Marxism.''

During the premier's upcoming visit, Li and Gorbachev are expected to address the issues of increased Sino-Soviet trade and troop reductions along the two superpowers' common border.

They are also likely to discuss increased ethnic unrest in Soviet Central Asia. China recently sent troops into a remote northwest region near the Soviet border to quell rioting by hundreds of ethnic Moslems, according to Chinese and Western sources.

Chinese leaders have admitted that separatist sentiment among ethnic Moslems in the Soviet Union is affecting minorities in China's neighboring regions.

Li is scheduled to visit Leningrad and Moscow, where he will ''very possibly'' address the Supreme Soviet, according to an East European diplomat.

#90103u0678 04/13/1990 ~United Press International

PITTSBURGH (APRIL 13) UPI - An attorney involved in the five-year-old reorganization of Wheeling-Pittsburgh Steel Corp. has announced a major breakthrough with a tentative agreement among lawyers to submit only one plan to creditors.

Lawyers for the steelmaker, creditors and a New York investment firm reached the compromise Thursday just 15 minutes before the start of a U.S. Bankruptcy Court hearing. The agreement is contingent upon approval by their clients.

''This is a major step forward, no question about it,'' said Lawrence Handelsman, an attorney representing creditors with unsecured company debt. ''If everything works as we hope, it will be supported by all major parties in the case.''

Next Monday marks the fifth anniversary of Wheeling-Pitt's filing for Chapter 11 bankruptcy protection.

In February, bankruptcy Judge Warren Bentz ordered two reorganization plans - one developed by creditors and management and the other by Goldman

Sachs & Co. of New York, which owns 34.2 percent of the company's common stock.

Thursday's agreement basically means Goldman Sachs would drop its plan and support the other plan in return for better treatment of its claims.

The deal was possible after Oppenheimer & Co., a major holder of Wheeling-Pitt's debt, agreed to support the management-backed plan. That plan also has the support of New York financier Ronald LaBow, whose group in 1987 bought $304 million in debt held by bankers.

It was unknown how the latest proposal would affect the LaBow plan, which originally called for payments of 72 cents on the dollar in cash and cash equivalents to general unsecured creditors.

Another unresolved issue is the negotiation of a new labor agreement for Wheeling-Pitt's workers from the United Steelworkers union, which is seeking a pact similar to one negotiated recently with LTV Steel Co., which also is under bankruptcy protection.

WASHINGTON (APRIL 13) UPI - American business inventories declined 0.4 percent in February as the amount of unsold goods stored in warehouse stockpiles decreased across the board, the Commerce Department said Friday.

The decline was the first since December 1989 and the largest since December 1986 when business inventories dropped 0.6 percent. It followed an increase of 0.3 percent in January.

An increase in business inventories can mean industry is out of step with consumer demand. A decrease in inventories indicates managers are keeping a close eye on their stockpiles of products.

The Commerce Department's monthly report also said that total sales in February increased to $535.4 billion from $528.6 billion in January, a surge of nearly 1.3 percent and the largest since August 1989.

February sales of durable goods, costly items made to last three or more years, were up 2.2 percent while sales of non-durable goods increased 0.5 percent, according to the department's Census Bureau.

But retail sales were off 0.3 percent to $149.5 billion.

Inventories of durable goods fell by 0.3 percent in February, while inventories of non-durables were off by 0.5 percent, the government said.

On the retail scene in February, a 0.9 decrease in inventories was led by a 2.2 percent decline in unsold cars, vans and trucks. Overall retail durable inventories were down 1 percent in February.

Excluding autos, retail inventories declined 0.4 percent for the month.

Inventories of non-durable retail goods, which include food and clothing, were off 0.7 percent in February. Clothing and apparel stores scored the

biggest decline as inventories dropped 1.7 percent.

The Commerce Department also said that the inventory-to-sales ratio, a measure of how long it takes business to liquidate inventories, dipped to 1.48 in February after scoring 1.51 in January.

#90103u0685 04/13/1990 ~United Press International

CAPE CANAVERAL, Fla. (APRIL 13) UPI - Work to ready the shuttle Discovery for a second launch try April 25 will expose the ultra-clean mirror of the $1.5 billion Hubble Space Telescope to only a tiny bit of additional light-blocking dust, officials said Friday.

Engineers plan to remove a faulty hydraulic power unit from Discovery on Saturday, along with the the telescope's high-tech nickel-hydrogen batteries so they can be recharged for another launch attempt.

John ''Tip'' Talone, the engineer in charge of Discovery's launch processing, said a new auxiliary power unit, or APU, will be installed and tested next week and that if all goes well, the shuttle will be ready for the start of its second countdown a week from Sunday.

''I feel pretty good about the 25th (of April) right now,'' he told reporters at a news briefing.

Telescope engineer Fred Wojtalik said the additional work would expose the telescope's 94.5-inch mirror to only a slight bit of additional contamination in the form of tiny dust particles inside Discovery's cargo bay.

The launch requirement is for the mirror to have less than 5 percent of its surface covered by dust. It was shipped from the manufacturer with 0.9 percent contamination and currently about 2 percent of the mirror's surface is covered with dust.

Wojtalik said the additional work this week and next will add about 0.1 percent extra contamination, well within the allowable limit.

Discovery and its five-member crew were grounded Tuesday just four minutes before the shuttle's planned launching when one of three auxiliary power units malfunctioned. The APUs provide the hydraulic muscle to move the shuttle's wing flaps, rudder and rocket nozzles for steering during launch.

The suspect APU's computer control unit was removed Wednesday and flown by T-38 jet to APU-builder Sunstrand Corp. in Rockford, Ill., for an analysis. As expected, no problems were found, leaving NASA with no choice but to replace the power unit, a complex job never before attempted at the

launch pad and one that will delay a second takeoff try until around April 25.

The goal of the flight is the deployment of the revolutionary $1.5 billion Hubble Space Telescope, the most powerful instrument ever built to study the cosmos from high above Earth's obscuring atmosphere.

The costly satellite relies on high-tech nickel-hydrogen batteries to provide electrical power from launch until the telescope's solar panels can be opened in orbit and those batteries must now be recharged, a complicated procedure that will take almost a week.

Engineers decided Thursday the safest approach would be to remove the 520-pound powerpacks and to recharge them away from launch pad 39B to minimize the risk of exposing the giant telescope and its near-perfect optical system to contamination.

''We'll take them out Saturday in parallel with the APU coming out'' of Discovery, NASA spokesman George Diller said.

The batteries will be moved to a facility about 4 miles from the launch pad and cooled to 32 degrees. ''Then,'' Diller said, ''we'll be able to charge them up to 70 ampere hours, which is full charge.''

''Those batteries operate best when they're as cold as you can get them,'' he said. ''In the payload bay, we can only get the temperature down to 45 degrees. They will be in better shape when we go the second time than they were the first time'' when they were charged to just 62 amp hours.

Technicians readying Columbia for blastoff May 9 on a Spacelab astronomy mission, meanwhile, are pressing on with plans to move the veteran spaceplane to pad 39A April 20.

If the schedule holds up, it will be the first time two shuttles have been on NASA's two launch pads at the same time since Challenger and Columbia were mounted on pads 39B and 39A in 1986, just a few weeks before Challenger blasted off on its 10th and final flight.

Coincidentally, the space telescope flight marks Discovery's 10th mission, and two of the ship's crew members - co-pilot Charles Bolden and astronomer Steven Hawley - blasted off aboard Columbia Jan. 12, 1986, on the flight that preceded Challenger's final voyage.

#90103u0692 04/13/1990 ~United Press International

NEW YORK (APRIL 13) UPI - A bankruptcy court judge Friday adjourned a hearing in the Eastern Airlines case for several hours to allow the

airline's unsecured creditors a chance to discuss a new proposal offered by the airline.

The hearing was scheduled to consider a request by the unsecured creditors'committee for a trustee to be appointed to take control of Eastern away from its current management and find a buyer for the crippled carrier.

The adjournment was requested by the attorney for the airline's unsecured creditors' committee.

Representatives of Eastern and its parent, Texas Air Corp., contacted the creditors Thursday night regarding a new proposal by the airline, said Joel Zweibel, attorney for the creditors.

The creditors' committee agreed to meet with the airline's representatives and consider the proposal Friday, he said.

He did not elaborate on the details of the airline's proposal.

U.S. Bankruptcy Court Judge Burton Lifland adjourned the hearing, which began at 10 a.m., until 2 p.m.

Eastern filed for bankruptcy protection in March 1989, five days after its unions launched crippling strikes.

#90103u0720 04/13/1990 ~United Press International

(APRIL 13) UPI - President Bush heads for Bermuda to meet with British Prime Minister Thatcher... that story tops the U-P-I news menu, which also includes dolphin-free tuna and spaceage mutant tomatoes.

President Bush is to fly to Bermuda this morning for one day of talks with British Prime Minister Thatcher.

The Bermuda session is one in a series of meetings between Bush and other Western leaders. The content of such talks, as was the case with Canadian Prime Minister Mulroney earlier this week, focuses primarily on the emerging balance of power in Europe.

The White House says Bush and Thatcher will discuss a variety of East-West issues, including German re-unification, NATO and the challenges facing Soviet President Gorbachev.

In a statement issued yesterday, Bush said his meeting with Thatcher is ''crucial'' as a means of maintaining ties with NATO partners amid the political transformation of Europe.

The meeting is also essential for Thatcher, who is experiencing widespread popular discontent because of her conservative economic policies. British pollsters expect the meeting may shore up her flagging popularity.

Soviet President Gorbachev says he hopes the situation in Lithuania can be resolved peacefully. But he says actions taken by the independence-minded Baltic republic will ultimately determine Moscow's response.

Gorbachev made his comments yesterday while speaking with a seven-member Democratic Senate delegation. He also told the group headed by Senate Leader George Mitchell that senators should ''avoid giving lectures'' so as to preserve positive Soviet-American relations.

Mitchell told a news conference after the meeting that he stressed to Gorbachev the importance of settling the situation without resorting to military force.

Other than that, the U-S contingent refused to issue any statements which might appear to upset the fragile Lithuanian situation. Mitchell explained this approach by saying... ''This is a very delicate situation and we did NOT want to do or say anything to aggravate it.''

-30- 2246

#90103u0730 04/13/1990 ~United Press International

(APRIL 13) UPI - An F-B-I proposal may be testing constitutional bounds and the Justice Department and a civil liberties group are expressing concern.

The F-B-I plan at issue would broaden the agency's power to seize documents and other evidence in criminal cases without subpoenas or a judge's O-K.

Instead, F-B-I agents want ''administrative summonses,'' that would be approved by F-B-I supervisers. The I-R-S and some other federal agencies already have the power to issue ''administrative summonses.''

Under current rules, the F-B-I must get an O-K from a federal judge or Justice Department lawyers before demanding evidence.

But the American Civil Liberties Union is yelling ''foul.'' A-C-L-U lawyer Janlori Goodman says the F-B-I is seeking easy access to confidential personal records... documents held by the Social Security Administration, telephone companies and credit agencies.

A spokesman for Attorney General Thornburgh says federal prosecutors are concerned about the direction of the proposal.

America's top-three tuna canners say they're phasing out purchases of tuna from fishing fleets that catch and kill dolphins when netting tuna.

StarKist Seafood- the world's largest tuna canner- was the first to declare its new policy yesterday. The head of the company says in the end it may cost consumers ''a couple of cents'' extra on each can of tuna.

Delaware Democratic Senator Joe Biden says the new policy makes perfect business sense. Biden co-sponsored legislation that, if approved, would have required the ''big three's'' voluntary action.

Yesterday's declaration follows concerted action among environmentalists to end the sale of tuna caught in gill or drift nets. When nets are spread to catch tuna- some nets extending several square miles- they catch dolphins as well. Each year it is estimated that tens of thousands of dolphins die due to this fishing method.

A spokesman for the environmental group Greenpeace applauded the move by Starkist, Chicken of the Sea and Bumble Bee. But the move wasn't greeted enthusiastically by an officials of the American Tunaboat Association, who says it will negatively affect the U-S tuna fleet.

WASHINGTON (APRIL 13) UPI - Wholesale prices fell 0.2 percent in March with tumbling food and energy prices accounting for the first monthly decline since last August, the Labor Department said Friday.

Producer prices for fresh vegetables - recovering from December's brutal cold - set a record, plunging 25.5 percent, according to the department's Bureau of Labor Statistics.

''Prices turned down sharply for tomatoes, celery and cabbage,'' the monthly report said. ''Prices for lettuce and snap beans also fell.''

Beef and coffee prices were also down.

''We had to unwind those big increases,'' said Donald Ratajczak, an economist at Georgia State University. ''It's good news. People like price declines. They like to see vegetables in the stores again.''

March gasoline prices fell 2.8 percent, and prices for natural gas turned down 2.5 percent. But the cost of home heating oil increased 10.6 percent in March after dropping 30.2 percent in February.

Dirk van Dongen, president of the National Association of Wholesaler Distributors, said a lack of unity among members of the Organization of Petroleum Exporting Countries contributed to the decline.

''The OPEC countries are cheating themselves,'' he said. ''They're way ahead of themselves on production quotas.''

The 0.2 percent March decline in the Labor Department's producer price index followed no change in the closely watched economic indicator in February, and a 1.8 percent jump in January.

The wholesale price changes were adjusted to reflect seasonal factors, such as the weather.

But Robert Dederick, chief economist at Northern Trust in Chicago, warned inflation remains a factor.

''The goods news is the winter shock is behind us,'' Dederick said. ''The other side of the coin is inflation - food and energy is stuck in the same mold - 3.5 percent at an annual rate.''

The index, itself, stood at 117.0 with 100 equal to $100 in 1982.

Overall food prices, were down 0.6 percent in March, after climbing 0.9 percent in February and 2.1 percent in January. Overall energy prices, were down 2.4 percent in March after falling 5 percent in February and rocketing up 13.6 percent in January in the wake of the Christmas cold snap.

Excluding food and energy prices, producer prices edged up 0.3 percent in March, following gains of 0.4 percent in February and 0.1 percent in January, the Labor Department said.

The index for consumer goods, other than food and energy, was up 0.2 percent in March ''due in part to a downturn in prices for women's apparel pharmaceutical preparations and newspapers,'' the report said.

Wholesale prices fell for new cars, slowed for men's clothing and textiles and increased for alcoholic beverages, children's clothes and gold jewelry. March tobacco prices held steady.

Based on the figures for the first three months of the year, wholesale prices are increasing at annual rate of 6.7 percent. Based on the figures for March, wholesale prices are increasing at an annual rate of 2 percent.

The wholesale price index for intermediate goods, meanwhile, showed no increase in March while the index for crude goods dipped by 1.4 percent, the department said.

#90103u0857 04/13/1990 ~United Press International

WASHINGTON (APRIL 13) UPI - American business inventories declined 0.4 percent in February as the amount of unsold goods stored in warehouse stockpiles decreased across the board, the Commerce Department said Friday.

The decline was the first since December 1989 and the largest since December 1986 when business inventories dropped 0.6 percent. It followed an increase of 0.3 percent in January.

''Inventory seems to be very much in balance with demand,'' said Dirk van Dongen, president of the National Association of Wholesaler Distributors. ''You don't have a lot of slack inventory holding at the retail level.''

An increase in business inventories can mean industry is out of step with consumer demand. A decrease in inventories indicates managers are keeping a close eye on their stockpiles of products.

''Business is good. It's not excellent,'' van Dongen said. ''That follows the pattern of slow growth in the economy. Profits are tough. Competition is intense.''

The Commerce Department's monthly report also said that total sales in February increased to $535.4 billion from $528.6 billion in January, a surge of nearly 1.3 percent and the largest since August 1989.

February sales of durable goods, costly items made to last three or more years, were up 2.2 percent while sales of non-durable goods increased 0.5 percent, according to the department's Census Bureau.

But retail sales were off 0.3 percent to $149.5 billion.

Inventories of durable goods fell by 0.3 percent in February, while inventories of non-durables were off by 0.5 percent, the government said.

On the retail scene in February, a 0.9 decrease in inventories was led by a 2.2 percent decline in unsold cars, vans and trucks. Overall retail durable inventories were down 1 percent in February.

Excluding autos, retail inventories declined 0.4 percent for the month.

Inventories of non-durable retail goods, which include food and clothing, were off 0.7 percent in February. Clothing and apparel stores scored the biggest decline as inventories dropped 1.7 percent.

The Commerce Department also said that the inventory-to-sales ratio, a measure of how long it takes business to liquidate inventories, dipped to 1.48 in February after scoring 1.51 in January.

#90103u0871 04/13/1990 ~United Press International

DETROIT (APRIL 13) UPI - Chrysler Corp. said Friday company Chairman Lee A. Iacocca took home just under $4 million last year in salary, incentive pay and exercised stock options, up nearly $388,000 from 1988.

Iacocca, 65, earned a total $3,976,359, including $2,413,600 in exercised

stock options and $148,608 worth of stock under a long-term compensation plan, making him the second highest paid chief among the nation's top automakers.

It also made him the only chairman of the Big Three automakers to take home more than in 1988, despite a 66 percent plunge in Chrysler's 1989 profits to $359 million, as the No. 3 automaker struggles to raise its vehicle sales, market share and stock price.

Earlier this week, Ford Motor Co. disclosed that former company Chairman Donald E. Petersen, who retired ahead of schedule March 1, took home over $6.5 million in total remuneration last year, down from $10.5 million in 1988.

General Motors Corp. Chairman Roger B. Smith was paid $2.6 million, down from $3.7 million in 1988.

Iacocca, who plans to stay with Chrysler through 1991, has been repeatedly pushed to run for president. He half jokingly told the Detroit News in an interview this week he would love to run for the nation's highest office on a third party ticket, because both the Republicans and Democrats have become too complacent on vital issues like trade.

''I don't want to go down as the guy who was always complaining,'' said Iacocca, an outspoken critic of the government's trade and health care policies. ''At some point you say, 'be part of the solution.'''

But while Iacocca said the political scene needs to be jarred out of gridlock, he dismissed his political ambition as ''hallucinating.''

Not a hallucination is the fact that if Iacocca were elected, he would have to take a substantial pay cut, since the President of the United States is paid an annual salary of $200,000.

Chrysler also disclosed the 1989 pay of its other top executives, including salary, stock, and other compensation.

Company Vice Chairman Gerald Greenwald was paid a total of $1,133,637, down from $1,207,929 in 1988. Chrysler Motors Chairman Bennett E. Bidwell was paid $1,069,210, down from $1,210,143.

The proxy also showed that Chrysler Motors President Robert A. Lutz was paid $951,436, while Executive Vice President Robert S. Miller Jr. was paid $874,266 last year.

A slate of 20 directors are to stand for re-election at Chrysler annual shareholder's meeting, to be held May 17 at the Sheraton Universal Hotel in Universal City, Calif.

Retiring from Chrysler's Board of Directors is John H. Johnson, 72, president of Johnson Publishing Co.

Two stockholder propsals are to be presented at the meeting, including one voted down last year asking that each director own a minimum 2,000 shares of company stock.

Chrysler is again opposing the proposal, saying directors should be free to choose how much stock they own.

However, two weeks ago, Iacocca urged the company's top exectives to purchase their fair share of Chrysler stock to support the carmaker.

#90103u0880 04/13/1990 ~United Press International

KUALA LUMPUR, Malaysia (APRIL 13) UPI - U.N. officials, amid allegations that Malaysia is turning away Vietnamese boat people, said Friday that Southeast Asian nations should continue granting initial asylum to the refugees.

The U.N. High Commission for Refugees, which reportedly has filed a protest with Malaysia, said it was upholding its part of an agreement by taking from Malaysia more than 50 percent of the Vietnamese refugees it resettles from throughout Indochina.

''It is our hope that governments will continue to adhere strictly to the Comprehensive Plan of Action and refrain from precipitous measures,'' the UNHCR said in a statement.

Under a plan adopted in June by the Geneva conference on Indochinese refugees, all Southeast Asian nations agreed to continue to offer temporary asylum to all those who seek it.

But press reports from the Indonesian capital of Jakarta quoted a UNHCR official as saying Vietnamese boatpeople now seeking refuge in Indonesia claim they had been refused entry to Malaysia.

Malaysia Prime Minister Mahathir Mohamad denied in a recent statement that his country has begun towing Vietnamese boat people away from its waters.

Mahathir also denied the Indonesian press reports saying he received a protest from the UNHCR, and attacked the designated resettlement countries for not fulfilling their promises to offer permanent homes to the boat people.

''They pick the best and leave the bad ones for us,'' he said. ''This is

not right.''

The Geneva conference agreed on a figure the resettlement countries, including the United States, Canada, Australia and France, would absorb over a three-year period.

The target set for the first year of the three-year resettlement plan was that 50 percent of a caseload of 13,994 refugees would come from Malaysia.

''Since 1 July 1989, a total of 7,398 (53 percent of the caseload) have already left Malaysia,'' the UNHCR said. ''The caseload has not only been met,but has far exceeded expectations.''

The resettlement program includes all Vietnamese refugees who sought asylum before the cutoff date set last year by Southeast Asian countries.

Refugees who arrived after March 14 have to undergo screening to determine whether they fled political persecution in Vietnam and therefore qualify for resettlement or are economic migrants who do not.

More than 13,000 Vietnamese boat people arrived in Malaysia since the cutoff date, pushing the total number packed into Malaysian camps to more than 20,000.

''The gravity of the situation calls for a concerted and determined effort to preserve and build on the plan,'' the UNHCR statement said.

The UNHCR also pledged continued cooperation with Malaysia in the screening program.

''The determination of refugee status will substantially reduce the burden on Malaysia while safeguarding the rights of the refugees,'' the statement said.

#90103u0883 04/13/1990 ~United Press International
BOSTON (APRIL 13) UPI - BTR PLC said Friday it had received 64.1 percent of Norton Co.'s stock tendered to its takeover offer, suggesting the British conglomerate would win a proxy fight if Norton's stockholders' meeting is held soon.

BTR also extended the deadline on its $1.64 billion cash offer until April 27, the day after the date originally scheduled for the meeting.

Although the 11.8 million shares tendered would be enough to take control of the Worcester, Mass., abrasives and industrial products company, a BTR spokesman said it still has not received assurances two other demands

would be met: that Norton will neither activate a poison pill defense nor invoke the terms of an existing Massachusetts anti-takeover law.

But the spokesman said the number of shares tendered thus far ''shows that a significant majority of shareholders supported the BTR offer.''

Now the outcome of the takeover attempt seems to turn all the more on a court fight over the date of the annual meeting.

When it rejected BTR's bid as inadequate, Norton also canceled the annual meeting and rescheduled one for June, saying it needed time to consider alternatives to the BTR bid.

If the meeting is held as scheduled, only stockholders of record from March 2 will be eligible to vote in electing a board of directors. That would effectively kill Norton's chances of enlisting the help of friendly investors to fend off BTR's proxy fight for control of the board.

On Wednesday, BTR won a U.S. District Court order directing Norton to hold its meeting as scheduled. However, the company immediately appealed the decision to the 1st U.S. Circuit Court of Appeals, which could hear the matter as soon as Tuesday.

BTR launched its proxy fight for control of the Norton board Thusday, the day after it won the court decision ordering the early annual meeting, with a slate of directors committed to accepting the BTR offer.

#90103u0940 04/13/1990 ~United Press International

(APRIL 13) UPI - The family of a black teen-ager shot and killed by a police officer in suburban New York have filed a wrongful death lawsuit against town officials. A spokesman for the town of Teaneck, New Jersey, could NOT give details of the suit stemming from Tuesday's shooting. It's believed that the family may be seeking in the range of 30-Million dollars to 34-Million dollars. Teaneck was reported calm last night after rioting and looting Wednesday.

Among the winners of this year's Pulitzer Prizes is a nine-person newspaper located in Washington, North Carolina. The Washington Daily News won one of two public service gold medals for its investigation into why city officials sat on the knowledge that the local water supply was contaminated for eight years. Also winning in this category was Gilbert Gaul of the Philadelphia Enquirer, who wrote about the American blood industry's lack of supervision.

Gravel-voiced crooner Tom Waits appeared in a Los Angeles federal court yesterday in connection with his lawsuit against the Frito-Lay Company and

its ad agency. Waits is seeking at least four-Million dollars for the damage done to his reputation by a corn-chip ad that allegedly resembles his unique style. Legal experts are following the case to see if it expands a 1988 ruling that made it illegal to deliberately imitate a distinctive professional singer.

City officials in Suwanee, Georgia, are red-faced after yesterday's hold up of an on-duty police radio dispatcher. Mike Hagler says he forked over six dollars when two men pulled a gun on him. The pair fled through the station's back door when they heard another officer enter the building. Earlier this week, the F-B-I listed Atlanta, of which Suwanee is a suburb, as the nation's crime capital.

#90103u1001 04/13/1990 ~United Press International

NEW YORK (APRIL 13) UPI - Jack Shannon is a burned-out version of the glitzy ''L.A. Law'' attorneys, transplanted to Philadelphia and worrying about getting his kneecaps busted.

He's the hero of ''Shannon's Deal,'' which made its debut as a TV movie, recently rerun on NBC, and now it takes its place as an NBC series, to debut Monday, April 16, 10-11 p.m. Eastern time.

Shannon, played by Jamey Sheridan, once was a hot-shot corporate lawyer, but his gambling was out of control, so was his life, and now he runs a nickel-and-dime office with a secretary (Elizabeth Pena) that he often cannot pay and a ''collection'' agent for the bookies on his case.

In the debut episode, a young woman (Michelle Joyner) storms into his office and claims that a sleazy outfit stole her country music song. He reluctantly takes her case.

Among the people involved is Tanya Tucker, a country singing star who has used Joyner's song - unknowingly - to score a hit comeback. David Crosby of Crosby, Nash and Young plays a fat, sloppy former songwriting legend who now ekes out a bare living stealing other people's songs. Iggy Pop plays a music industry hustler out for a quick score.

The music for ''Shannon's Deal'' is noticeably superior because eight-time Grammy winer Wynton Marsalis scores the series, performs the music and wrote the theme.

As an added note of interest, John Sayles, who helped create the series and wrote the debut episode, wrote himself into the script as Joyner's abusive husband.

What makes the series intriguing is the character of Shannon, and

Sheridan's subtly shaded portrayal of him.

''He's really not much of a bleeding heart,'' Sheridan said in an interview. ''I've encountered people who have the false impression that he gave up his successful career to be a white knight, to be a defender of the poor.

''He's an addict, an addicted personality, a member of Gamblers Anonymous, and he has a real problem. He didn't really have the courage to walk out on his old job. He had to destroy himself and get fired. There's a conscience in there somewhere but he is much more like a regular guy who knew what he had to lose.

''I think he only begins to see what happened as a blessing after the whole house of cards has fallen down. He hadn't struggled like this in a long long time. The bottom line for him is: is this prospective client telling me the truth, the whole story - and can he pay me?

''One of the things that happens is that the people who he holds near to him, like his secretary and his daughter - even the leg-breaker who's becoming almost a friend - they almost function as his conscience, reminding him who he is so that against his will he'll do the right thing. He also makes a lot of mistakes.''

''Shannon's Deal'' is not another series of lawyer as amateur sleuth - in the debut episode some of the wrongdoers go unscathed and the songwriter gets what she wants, which is not necessarily justice.

''It's not really about solving crimes,'' Sheridan said. ''It's about struggle - I'd say about everybody's struggle to do the right thing instead of knowing automatically that a person will do the right thing. I think our show examines what a person goes through in trying to make the right choice and the price of that choice for the person and the price the family pays.

''It's a trial and error life and that's one of the things that's so great about the show - Shannon tries and fails and he often ends up with egg on his face. In entertainment as we know it, how often do we see the main character with egg on his face? It's interesting and dramatic - if success is effortless or inevitable it becomes kind of tiring.''

He pointed to a scene in the pilot where he and his nemisis, Todd - a former associate who has gone on to become a prosecutor - talk about serving the public.

''We both have a big chuckle on that, as if it were a punch line,'' Sheridan said. ''What we were trying to do as actors is take away the white hat and black hat concept and make it more that both of us

understand the way this particular legal system is working. One is not the savior of the people and the other Darth Vader. There's a game there, and it's a poker game that Jack Shannon loves, the one game he can still play.''

The show takes place in Philadelphia, which is off-the-beaten-TV track.

''I think John Sayles just like Philadelphia,'' Sheridan said. ''For one thing it's a black city, which intrigued a lot of us. It's one of the oldest American cities and basically a black city; a city with a whole lot of blue blood and at the same time there's a brand new face on the city.''

#90103u1030 04/13/1990 ~United Press International

WASHINGTON (APRIL 13) UPI - A police officer shot during John Hinckley's

attempt to assassinate President Reagan may not sue the maker of Hinckley's Saturday Night Special handgun, a federal appeals court ruled Friday.

The decision by a three-judge panel for the U.S. Circuit Court of Appeals in Washington upholds a lower court ruling on the liability question.

Hinckley was acquitted of the March 30, 1981, assassination attempt by using an insanity defense and remains in a Washington mental hospital.

He fired explosive ''devastator'' bullets that hit Reagan, presidential press secretary James Brady, a Secret Service agent and District of Columbia police officer Thomas Delahanty.

District of Columbia courts rejected Delahanty's claim that Hinckley's Saturday Night Special, a cheaply made pistol, was defectively designed and abnormally dangerous. After a series of turns through the local and federal court system, the federal appeals court upheld that decision.

#90103u1032 04/13/1990 ~United Press International

WASHINGTON (APRIL 13) UPI - Four Western retail and grocery chains joined environmental groups Friday in announcing a program to let shoppers know which products meet tough environmental standards, including advertising claims.

''There's too much green-collar fraud in the marketplace,'' said Craig Merrilees of the National Toxics Campaign. ''There's too much undocumented unsubstantiated, false and misleading advertising in the marketplace.''

Under the program, products would be rewarded for meeting strict guidelines that benefit the environment. Manufacturers would pay an independent group - the Green Cross Certification Co. - on a fee-for-service basis to audit their products to possibly qualify for a Green Cross Recycling Seal of Approval or the more comprehensive Green Cross Environmental Seal of Approval.

Products would be awarded the recycling seal if they contain the maximum practical state-of-the-art level of recycled content.

The environmental seal would be awarded if a product is made from at least 50 percent sustainable or recycled materials, has no detected residue of highly toxic emissions, will not deplete the ozone, if advertising claims for the product and packaging can be verified, and if the manufacturer adopts an aggressive solid waste reduction policy.

If a product qualifies, its manufacturer could incorporate the seals of

approval in their packaging. The four retailers - Fred Meyer Inc. of Portland, Ore., Raley's of Sacramento, Calif., Ralphs Grocery Co. of Compton, Calif., and ABCO Markets Inc. of Phoenix - will display point-of-sale seals on store shelves.

Manufacturers are recognizing that an increasing number of consumers are environmentally aware, but Merrilees said some environmental claims are false and misleading.

He cited Dow Chemical Co.'s Ziploc Storage Bags, which claim to be made from ''polyethylene, a recyclable and photodegradable material.''

But Merrilees said that is deceptive because plastic is not generally recyclable and for something to be photodegradable, it must be exposed to the sun. Most bags are sent to landfills, which have no sun exposure.

Merrilees also criticized a Hughes Markets plastic grocery bag that claims to be made from recycled materials and to be non-toxic, recyclable and photodegradable. He called this a ''fraudulent and deceptive claim.''

New York Attorney General Robert Abrams said he applauds the coalition of retailers and environmental groups and noted he and seven other attorneys general are investigating false environmental advertising claims.

Abrams said he hopes the Federal Trade Commission will adopt national uniform standards for using such words as ''biodegradable,'' ''non-toxic'' and ''recyclable.''

Lee Peeler, the FTC's assistant director of the Bureau of Consumer Protection, said the agency is now considering the need for national guidelines.

Meanwhile, he said the FTC is ''interested in going after claims that promise environmental benefits that consumers aren't going to get.''

-30- 3278

#90103u1045 04/13/1990 ~United Press International

WASHINGTON (APRIL 13) UPI - The government confirmed Friday it has been asked to investigate an advertised federal auction guide, but the publisher alleges he is the target of embarrassed bureaucrats who sold a $50,000 boat for $10.

U.S. Marshals asked the Federal Trade Commission to investigate what they consider misleading national advertisements for the Action Guide to Government Auctions.

Ronald Laitsch, an FTC attorney in Atlanta, was unable to confirm any

investigation Friday, but he acknowledged that his office had received a complaint from the Marshals Service.

The guide's publisher, George Chelekis, president of Rex Publishing Co. of Clearwater, Fla., said he was not aware of any pending investigation. He defended the ads as truthful.

''We're not doing anything illegal,'' Chelekis said in a telephone interview.

The 560-page book lists addresses and telephone numbers for government agencies that sell property seized from drug dealers. It offers advice to bargain hunters.

One magazine ad declares in bold print: ''How would you like a new house or car courtesy of the United States government? A $150,000 home sold for $15!''

Ads for the $99.95 guide, which have also run in Canada, tell consumers they can ''cash in on the government seizure program,'' such as a Rhode Island man who bought a $50,000 boat for $10.

But Marshals Service officials said the February boat sale was a fluke. Only one person bid on the boat and the agency's auction representative failed to fix a minimum bid for the vessel, the officials said.

''It really seems to be a come-on type of ad, implying that the government is practically giving away property, and that's just not the case,'' said William Dempsey, a Marshals Service spokesman.

Dempsey said the government seeks to sell most auction items for about 90 percent of their appraised value.

Gerald Auerbach, general counsel for the Marshals Service in Alexandria, Va., said he believes advertising for the guide is ''somewhat of a fraud on the public''

Auerbach, whose office drafted the letter to the FTC, said the agency was ''pursuing'' the complaint.

''They're making it out as if there's a boat sold every day for $10. Well, this, believe me, is a one time in forever occurrence. It's never going to happen again,'' Auerbach said.

Chelekis, who said there have been similar bargains at other government auctions, maintains the ads embarrass bureaucrats. They, in turn, have focused on his business because it publicized the snafu, he said.

''Every time we mention this thing with the boat it drives them crazy. It drives them up the wall,'' Chelekis said.

''They are terrified if this (ad) keeps running and if they don't keep coming back and answering these things ... that the (General Accounting Office) will investigate them and they'll get into trouble,'' he said.

Marshals Service officials charge the guide is essentially a directory of government agencies and telephone numbers that consumers could find for free in a library.

Chelekis said the guide is a legitimate home-study course that prepares consumers on what to expect at federal, state and local government auctions, where to look for bargains and what to do when they find them.

''I would think they would send me roses once a week, thanking me for publishing such a book and having people go to government auctions,'' Chelekis said. ''We probably increase their attendance.''

VATICAN CITY (APRIL 13) UPI - Pope John Paul II donned a priest's simple black cassock and heard the confessions of 13 pilgrims in St. Peter's Basilica Friday in a Holy Week gesture he has practiced since 1980.

More than 1,000 pilgrims and tourists applauded from behind wooden barriers as the 69-year-old head of the world's 840 million Roman Catholics slipped into the world's largest church by a side door.

The pope donned the black cassock of an ordinary priest over his white robes before starting to hear the confessions, which lasted a total of 70 minutes.

The pope has said that he started the practice of hearing confessions each Good Friday in order to stress the importance of individual confession in an era when many Catholics, particularly in the United States, prefer to receive general indulgence of sins.

For the past 11 years, John Paul has never failed to make the gesture as a prelude to solemn ceremonies on Good Friday, when Christians commemorate the crucifixion of Christ.

The observance is part of Holy Week, the most solemn of the year for Christians, which culminates in Easter Sunday's celebration of the resurrection.

Candidates for the papal confession are chosen at random by Vatican officials from the crowd of visitors in the basilica.

This year, the pope heard the confessions of 13 pilgrims, including an American of Calabrian origin, a married couple from Goa in India, a nun from the central African republic of Zaire, a young Pole and eight

Italians.

The Italians included a young engaged couple, a retiree, a mechanic, two businessmen, a Rome factory worker and a clerk from southern Italy who had asked during John Paul's weekly general audience on Wednesday to be among those confessed.

As usual, Vatican officials did not identify by name the people who confessed to the pope in the ornate wooden confessionals lining the walls at the rear of St. Peter's Basilica.

Later, the pope presided over somber ''Passion of the Lord'' rites in the basilica, commemorating Christ's suffering and death on the cross.

In the late evening, he was to lead the traditional ''Way of the Cross'' ceremony from the ancient Colosseum, where early Christians were thrown to the lions, up the nearby Palatine Hill.

The torchlit ceremony is televised live to more than 20 countries. This year, for the first time, the Soviet Union is among the countries receiving the Italian television broadcast, Vatican officials said.

#90103u1087 04/13/1990 ~United Press International

WASHINGTON (APRIL 13) UPI - Federal anti-drug chief William Bennett said Friday the nation's capital is ''still in trouble,'' a year after he dubbed it a test case in the war on drugs and promised an unprecedented federal-local drug eradication effort.

''I think it's fair to say the record is mixed, spotty, incomplete - not nearly as good as anyone would like, but also not as bad as many people might imagine,'' said Bennett.

Bennett, in his first major initiative as drug control policy director last spring, pledged an extra $100 million to drug programs in Washington, ordered military prosecutors to assist in drug cases and offered federal funds for treatment centers.

He has since been criticized by city officials for not living up to his vows. But Friday he defended the efforts and said the city has failed to spend all available federal resources.

''I think the federal government has done the right thing by offering assistance to Washington,'' he said. ''We have kept the promises we made to Washington's residents last year.''

But Bennett noted that the city's murder rate, the nation's highest per

capita last year with 438 killings, continues unabated, which he called a ''bitter disappointment to all concerned.'' Police link most of the murders to drugs.

''So what's the bottom line? The city of Washington is still in trouble,'' said Bennett. ''Helping fix that trouble is not easy - has not been easy - as I knew and said last year at this time. Work in some very serious areas on some very serious subjects, is not as far along as I'd like to see. But progress in some other areas has been made, and shouldn't be minimized.''

Sterling Tucker, the city's own drug control policy director, said he was generally pleased with the progress of the joint effort and looked forward to more federal help.

The tone of the news conference differed sharply from reports that both federal and local officials were classifying the effort as a failure.

''This may come as a surprise to some of you, but reports concerning the death of federal anti-drug efforts in the District of Columbia are wrong '' Bennett said. ''I am not here to declare failure.''

Bennett later said city residents are ''mobilizing, neighborhood by neighborhood, to take back their homes and streets and schools. I intend to finish the work we set out to do for them.''

Bennett said federal aid to the city through four basic grant programs increased by more than 40 percent last year, but said the city did not spend the money fast enough.

But he also acknowledged that federal officials did not provide a single bed for drug treatment in the city in 1989. Two centers capable of providing outpatient treatment services to 750 clients a year are slated for completion by next November, Bennett said.

Plans to build a federal prison in the region were stymied because federal and local officials could not agree upon a site, but Bennett expressed hope that a 500-cell pre-trial detention center will be built on federal land in the city.

Other initiatives promised by Bennett are in their initial stages, he said. They include a plan to transfer more city jail prisoners to federal prisons, a special operations unit to evict illegal occupants from targeted crack houses, and a transfer of Department of Defense attorneys and FBI agents to local city offices.

Bennett would not comment on whether the Jan. 18 arrest of Mayor Marion Barry on a cocaine possession charge and his subsequent indictment on

eight drug and perjury charges hampered the anti-drug effort. Barry is scheduled to stand trial June 4.

''I don't really want to comment on the mayor,'' said Bennett, who specifically mentioned the cooperation of Tucker, City Administrator Carol Thompson and Police Chief Isaac Fulwood. ''I don't really think about the mayor.''

#90103u1096 04/13/1990 ~United Press International

CAPE CANAVERAL, Fla. (APRIL 13) UPI - A $60 million Indonesian communications satellite lost in space six years ago and dramatically rescued by spacewalking shuttle astronauts was primed for a second launch try Friday atop an unmanned Delta 2 rocket.

A successful launch of the Palapa B-2R satellite would bring one of the most dramatic space adventures ever conducted to a triumphant resurgence and further cement close ties between Indonesia and the United States, which has launched five radio relay stations for the Pacific island nation since 1976.

''The launching demonstrates how close the bilateral relationships are between the United States and Indonesia,'' said T. Dahlia Soemolang, Indonesia's consul general to the United States. ''May God almighty bless the launching,''

With ideal weather expected, the $50 million Delta 2 was scheduled for liftoff at 6:28 p.m. from the Cape Canaveral Air Force Station, just six days after a Chinese Long March rocket successfully boosted an identical satellite into orbit that was stranded in space along with Palapa B-2R in 1984.

''Now completely refurbished, the two satellites are returning to space,'' said David Braverman, a vice president with Hughes Aircraft Co., builder of both satellites. ''Today we are to witness the completion of this spectacular story.''

The flight plan called for the commercially built Delta 2 rocket to release the Palapa B-2R satellite into a preliminary egg-shaped orbit about 26 minutes after blastoff. Onboard rockets were to fire later to put the satellite into a circular orbit 22,300 miles above the Pacific Ocean equator in the sky over Indonesia.

Once checked out and in operation, Palapa B-2R - the ''R'' stands for re-flight - will replace an aging satellite launched from the shuttle Challenger in 1983 and join one launched by a Delta in 1987 to help link Indonesia's 13,677 islands with quality telephone, television and data

communications service.

Palapa B-2R, a cylindrical 1,437-pound satellite measuring 22 feet long and 7 feet wide, is equipped with 24 radio transponders, each one capable of carrying 1,000 one-way voice circuits or a color television transmission. Spread out over

The operational two-satellite constellation is used to support domestic Indonesian communications as well as those of other nations in the area.

The rebuilt Palapa B-2R satellite was valued at roughly $60 million. Throwing in the cost of the rocket and a $27.5 million insurance premium, the flight Friday represented a $137.5 million project.

Palapa - the name means ''national unity'' - and an identical satellite called Westar 6, originally owned by Western Union, were stranded in useless, lopsided orbits in February 1984 when their solid-fuel boosters, built by McDonnell Douglas, misfired after launch from the shuttle Challenger.

The aerospace insurance industry was forced to pay out $105 million to Western Union, the owner of the Westar 6 satellite, and some $75 million to Perumtel, the state-owned Indonesian telecommunications agency.

Nine months later, after around-the-clock work by NASA, Hughes and the underwriters, who now owned both relay stations, the two satellites were rescued by spacewalkers Joe Allen and Dale Gardner, who pulled them aboard the shuttle Discovery in one of the most dramatic space missions ever conducted.

The satellites then were carried back to Earth and returned to Hughes for refurbishment and eventual re-launch. Westar 6 later was sold to a consortium based in Hong Kong, renamed Asiasat 1 and successfully launched last Saturday by a Chinese Long March rocket.

Palapa B-2R was bought by Sattel Technologies Inc., a private company that contracted with the government of Indonesia to refurbish and relaunch the satellite.

''The spacecraft was in super shape,'' said Braverman. ''The nine months of orbital exposure it had were very benign and basically we only had to replace the items we used extensively during the nine months, the batteries, the on-board ... propulsion system.''

The Delta 2, an upgraded version of the workhorse Delta rockets launched for years by NASA, was designed to carry military Global Positioning System ''Navstar'' satellites into orbit for the Air Force.

But the $669 million contract to build and launch 20 Delta 2s for the Navstar program required McDonnell Douglas to make the rockets available on a commercial basis as part of a program to encourage development of a private-sector launch industry.

#90103u1115 04/13/1990 ~United Press International

LONDON (APRIL 13) UPI - Two more Strangeways Prison inmates gave up Friday but others appeared to back out of a surrender agreement, leaving 13 prisoners to continue Britain's longest prison takeover.

Authorities thought after hours of negotiations conducted across barricaded gateways and stairwells that they had persuaded most of the die-hard inmates in the Manchester prison to end the 13-day siege.

But at the last minute, as a group of men was walking downstairs toward waiting guards, most turned back. Only two gave up.

Paul Taylor, leader of the dwindling band of inmates still occupying Strangeways, has promised to surrender soon, said his lawyer, John Ballam.

Fulfilling one of his demands, a Manchester radio station Thursday night read a statement Taylor had dictated to Ballam. Taylor is unhappy with conditions at the overcrowded Victorian-era prison 200 miles northwest of London.

Some of the prisoners insist on reunions with their families as a condition for surrendering. Taylor's mother arrived at the prison but she was not allowed to see her son.

Two small fires were set at the prison Thursday night but they were extinguished before causing serious damage. No injuries were reported.

Ballam was at Strangeways for the third day, joining authorities inside the main accommodation wing who were trying to persuade the holdouts to end the takeover, which began April 1.

They spoke to inmates across gateways and stairwells that are blocked by wreckage created in the dispute. The holdout prisoners hold the central rotunda, from which they can control access to the jail's five main wings.

A Home Office spokesman said using force to end the uprising was an option but that authorities were reluctant to put prison staff at risk.

Ten British prisons in recent days have been affected by agitation staged to show solidarity with the Strangeways inmates and to protest crowded and allegedly inhuman conditions.

A riot by young offenders at a facility in Portland, on the southern coast of England, was swiftly controlled by riot police Thursday night, said the Home Office, which oversees the nation's 125 penal institutions.

Two prisoners have died and dozens of inmates and guards have been wounded in the disturbances, which also have resulted in severe damage. A prison officer died of a heart attack suffered during the initial uprising at Strangeways.

Britain has the highest per capita prison population in Europe and the uprisings have prompted calls for an overhaul of the 47,000-inmate system.

Before Friday's surrender, two prisoners appeared on the steeply pitched, tiled roof at Strangeways. They appeared relaxed as they sipped hot drinks ate chocolate bars and smoked.

After a peaceful night, police early Friday switched on sirens and noisily banged their batons on riot shields. Authorities have been using loud music, swooping helicopters and other intimidatory tactics to try to break the resolve of the die-hard inmates.

#90103u1123 04/13/1990 ~United Press International

KATMANDU, Nepal (APRIL 13) UPI - King Birendra agreed with the leader of a newly legalized opposition party Friday to hold ''earnest discussions'' on demands that the government and Parliament be dissolved, a party official said.

The demands by the Nepali Congress Party and the United Left Front - a coalition of seven communist parties - were issued Wednesday as preconditions before the opposition would participate in a provisional government.

In an hourlong private meeting at the royal palace, the King told Ganesh Man Singh, leader of the Congress Party that he was willing to talk about the conditions, which also include the release of political prisoners.

''Mr. Singh requested his majesty to implement the eight-point demand formulated in a joint statement and issued April 11,'' said Yog Prasad Upadhaya, the party's assistant general secretary, reading from a prepared statement.

''His majesty assured Mr. Singh that as a follow-up of the present meeting earnest discussions about them will be started from April 15,'' he said.

Answering a reporter's question, Upadhaya said the king apparently did not

object to the demands and that future meetings would be held to ''work out the details'' of implementing them.

King Birendra agreed Sunday to legalize political parties for the first time in 29 years. The king had been under mounting political pressure from a 6-week-old pro-democracy movement that resulted in huge rallies and clashes with security forces. At least 52 people were killed in the violence.

The king has tried to diffuse the situation by dismissing the government of hardline Prime Minister Marich Man Singh Shrestha and appointing a new administration.

But the move did not satisfy the opposition and some 200,000 people in Katmandu rushed into the streets to demand an end to the 3-decade-old ban on political parties.

Upadhaya said in his statement Friday that the king agreed that the formation of a new government should not be delayed any longer. The king also agreed to present opposition leaders with a ''royal commission'' to form a govenment if he decides he does not want to head a provisional government.

Opposition leaders had earlier said they would not object if the king chose to head the temporary government until elections could be held.

Krishna Prashad Bhattarai, acting president of the Congress Party, said he expected the provisional government to be formed in the near future.

''I think that by next week we will able to sort it out,'' said Bhattarai. ''I think a government will be formed by the end of next week.''

Opposition leaders believe the existing government and Parliament are illegal because they were formed under the partyless Panchayat system.

Earlier, Foreign Minister Pashupati Shunshere Rana said Prime Minister Lokendra Bahadur Chand had sent formal letters to opposition leaders, inviting them to discuss the political situation. Rana said the meeting had been slated for sunday.

The Nepal Medical Association said Friday it would launch a ''relay hunger strike'' beginning Sunday to press their demands for the resignation of Home Minister Nain Bahadur Awanr. The relay involves three doctors at a time giving up food in 12-hour shifts.

The association in a written statement this week accused security forces of abusing doctors and patients when violence erupted in last Friday'spro-democracy demonstration in Katmandu.

The police department is under the ministry's authority.

Also Friday, the government said it had withdrawn all criminal charges against people arrested during the pro-democracy movement. The government did not say how many people had been charged.

And two independent human rights organizations convened a joint committee and requested that people provide them with any information they may have concerning human rights violations which occured during the protests.

#90103u1157 04/13/1990 ~United Press International

(APRIL 13) UPI - President Bush and British Prime Minister Thatcher are set to meet today in Bermuda. This is the seventh time the pair will meet since Bush was elected president in 1988. The White House says the two will discuss a wide range of international issues, focusing especially on Europe's political climate.

The U-S Census Bureau says it looks as if this year's tally is going to cost taxpayers more money. The head of the Bureau says only 57 percent of the population has mailed in census forms, well under the Bureau's estimate of a 70 percent return rate. For each percentage point beneath the 70 percent estimate, the count could cost an additional 10-Million dollars.

America's three leading tuna canners say they'll NO longer buy tuna from fishing fleets that do NOT employ dolphin-safe fishing techniques. Environmentalists have pressed the three- StarKist, Chicken of the Sea and Bumble Bee- to adopt the policy to protect dolphins that are indiscriminately caught and killed in tuna nets.

Indian officials say renewed hostility along the Indian-Pakistani border has left five Pakistani soldiers and one Indian soldier dead. The incident occurred yesterday when Pakistani troops tried to set up a bunker in the de-militarized zone separating the two countries. Pakistan denies the incident took place.

The F-B-I is making a bid to allow internal authorization for the seizure of documents such as bank and office files. Current rules require subpoenas granted by a grand jury or federal judge to obtain such information. A lawyer for the American Civil Liberties Union says approval of such a rule would contradict the Constitution.

#90103u1182 04/13/1990 ~United Press International

(APRIL 13) UPI - Town officials in Teaneck, New Jersey, say the New York suburb is the target of a wrongful death lawsuit filed by the family of a teen-ager who was shot and killed Tuesday by a Teaneck police officer. News of the lawsuit comes after the town suspended with pay the officer involved in the shooting.

Maryland State Police have charged two New York men with the March 29th slaying of state trooper Ted Wolf. The suspects are being held at the Bronx House of Detention on unrelated weapons charges. State police expect to initiate extradition proceedings to return them to Maryland for trial.

New York Transit Police are investigating the fatal shooting of a would-be robber last night on a Manhattan-bound subway train. A transit Police spokesman says the shooting apparently occurred as a group of three or four youths attempted to hold up a middle-aged rider. The rider resisted and pulled a gun that he used to kill one of the aggressors.

Senate Judiciary Chairman Joe Biden says it's time for the United States to adapt high-tech military gadgets for the war on drugs. The Delaware Democrat has joined with Maine Republican Senator William Cohen in calling for the creation of a federal agency to orchestrate the use of sophisticated equipment to detect drugs coming through the nation's ports.

Greek police have NO suspects and NO clues in yesterday's heist of a truckload of priceless antiquities from a museum in ancient Corinth. The semi-official Athens News Agency says thieves broke into the building and made off with items dating back to classical times and earlier.

#90103u1192 04/13/1990 ~United Press International

ROCHESTER, N.Y. (APRIL 13) UPI - A state environmental engineer told his superiors Eastman Kodak Co. ''essentially lied'' by withholding key data from applications to operate an industrial landfill, a published report said Friday.

The Rochester Democrat and Chronicle said it obtained an internal memo written two weeks ago by James Craft, a hydrologist for the state Department of Environmental Conservation.

''By withholding data critical to site evaluation, it appears that the applicant displayed a lack of good faith (essentially lied) and obtained the initial Part 360 permit under false pretenses,'' Craft wrote.

The omitted data deals with the level of groundwater contamination at the industrial landfill site, located along Weiland Road on Rochester's west side.

Kodak spokesman James Blamphin said the omission in the 1985 permit application and one submitted earlier this year might have been ''an oversight,'' or more current information may have been included in its place.

Craft reportedly reached his conclusion after cross-checking Kodak's application with data on groundwater contamination offered by Kodak to the DEC following reports that the Kodak Park industrial complex was contaminated.

Albert Butkas, director of regulatory affairs for the DEC's regional office in Avon, told the newspaper many DEC environmental staffers share Craft's view that Kodak should be more closely scrutinized. But that view is not shared by all DEC officials involved with issuing the company permits.

Butkas was not ready to accuse Kodak of criminal intent, saying ''I don't know if they did it on purpose or if they left it out accidentally.''

The data from tests done in 1983 show the presence of low levels of several organic chemicals ''downgradient,'' or geologically downhill, from the landfill.

A lack of samples from ''above'' the landfill eliminates the ability to compare the downgradient groundwater with the overall groundwater quality. But Craft wrote ''evidence of groundwater contamination quality is ... irrefutable and conclusive.''

Kodak has said groundwater under the landfill is essentially clean. While some organic contamination has been found, it was in single tests that weren't able to be duplicated.

Kodak last week pleaded guilty to two misdemeanor violations of state environmental law, concluding a two-year probe by the state attorney general's office and DEC into chemical contamination at Kodak Park.

The company paid a record $2.15 million in fines and agreed to massive clean-up and monitoring programs. Kodak got assurances the state would not file charges for violations that may have occurred before last week.

But a spokesman for the attorney general's office said the agreement would not prevent the state from investigating ongoing Kodak contamination problems.

#90103u1213 04/13/1990 ~United Press International

PARIS (APRIL 13) UPI - Three European hostages freed this week in Beirut

were captured by Col. Moammar Gadhafi's government and held in Libya, not Lebanon, the daily Le Figaro said Friday. The French government said it could not confirm or deny the report.

The conservative Paris newspaper cited unnamed sources in Paris, Brussels and Beirut as saying the government of Algeria - and not Gadhafi - served as the principal mediator in negotiations to free the hostages.

The revelations were certain to further embarrass France's Socialist government, which has come under intense international criticism for profusely thanking the Gadhafi for what Foreign Minister Roland Dumas called the Libyan leader's ''noble and humanitarian gesture'' in helping to free the captives.

The foreign and French media have condemned the French position and the U.S. State Department asked Paris to give it a full accounting of the circumstances leading to the release.

France's conservative political opposition has remained silent on the issue.

With politicians away for the long Easter weekend, there was little reaction Friday to the Figaro article, which appeared to confirm the widespread belief that the hostages were exchanged for the delivery to Tripoli earlier this year of three Mirage jet fighters.

Paris had blocked the shipment since 1986 as part of an arms embargo against Gadhafi.

The Foreign Ministry said it could not deny the Figaro report, saying it remains unclear precisely where and when the freed hostages and five other persons were taken prisoner as well as who actually carried out the operation.

''There are many questions without answers,'' a Foreign Ministry spokesman told United Press International. ''We are not certain about the place of detention.''

The spokesman refused to comment on Le Figaro's assertion that the Algerian government had been the key intermediary in the case.

President Francois Mitterrand on Thursday publicly thanked Algerian President Chadli Bendjedid, King Hassan II of Morocco and President Hosni Moubarak of Egypt for their help in freeing the hostages.

Le Figaro said the three freed captives - Fernand Houtekins, a 42-year-old Belgian cook, his 31-year-old French companion, Jacqueline Valente, and their daughter, Sophie - were flown April 8 to Damascus from Tripoli

aboard a private Algerian airplane.

The daily said the Syrians then arranged for the hostages to travel by car from Damascus to Saida in southern Lebanon, where they changed automobiles for the hourlong coastal drive to the French Embassy in Beirut.

''This solution was convenient for everyone: for the Syrian leaders, who affirmed their power in the region and their goodwill towards France, for the Algerians, who could prove their gifts as negotiators, and for Col. Gadhafi, who was officially unconnected to the case and who did not want to use one of his planes for the transfer,'' Le Figaro said.

Two different sources told UPI in Beirut that the hostages had been held in the Syrian-controlled Bekaa Valley in eastern Lebanon. A Moslem source said the eight prisoners were detained near the village of Qob Elias, 21 miles east of Beirut, where Abu Nidal's Fatah Revolutionary Council has a base. A French Embassy source said they were held near the ancient city of Baalbeck, 52 miles east of Beirut.

Witnesses said Valente told reporters when she arrived at the French Embassy that she was tired ''after so much traveling.'' Le Figaro attributed a similar remark to Houtekins, saying he was cut off by an embassy worker who took him aside and asked him not to reveal any more details.

Since their return to Paris Tuesday, the former hostages have refused to comment on their detention, citing a request by the Belgian government, and have limited themselves to a statement thanking the French government.

But Andre Metral, Valente's bother-in-law, told reporters in Paris Wednesday that it was not certain where the three freed hostages and four other Belgians still being held were kept.

The Figaro account also cast doubt on the claim by the extremist Abu Nidal group that it captured the eight passengers aboard a converted tuna boat off the Israeli-occupied Gaza Strip in November 1987. The newspaper said some officials believe the ship was intercepted by Libya's navy off the Lebanese coast.

The Le Figaro account said the Abu Nidal group was used by Gadhafi to cover the Libyan navy's role in taking the hostages from the boat, called the Silco.

Le Figaro said the Abu Nidal group played its assigned role so clumsily that at one point it demanded that two convicted terrorists be released from Belgian prisons in exchange for the hostages when in fact the prisoners it mentioned were being held in Austria, where they had been tried.

The newspaper said Valente lied about the age of her daughter, Sophie, who had been reported to have born in captivity. It cited witnesses in Sicily, where the Silco had stopped in July 1986, as saying they had not seen a pregnant woman on board.

The account was corroborated by Metral, Valente's brother-in-law, who said Sophie would be 4 years old on May 25. The family had given the child's age as 2 1/2. The couple claimed a second child born in captivity died of intestinal complications.

#90103u1257 04/13/1990 ~United Press International

WASHINGTON (APRIL 13) UPI - Trace levels of a banned antibiotic have been found in milk samples, but Friday the Food and Drug Administration pronounced the U.S. milk supply safe and essentially pure.

A two-month study of drug residues in milk found indications that a small number of dairy farmers treat their cows with disallowed drugs but ''confirms the essential safety and purity of the milk supply,'' the FDA said.

The report stems from tests on 70 milk samples collected in 14 cities. An initial analysis released Feb. 5 failed to find any signs of antibiotics at or above levels considered safe - 10 parts per billion, the FDA said.

A further analysis that ''pushed milk testing methodology well past the lowest safety-concern thresholds'' found traces of one to three parts per billion of the antibiotic sulfamethazine in ''three of the 70 milk samples that had shown no confirmable residues when tested to 10 parts per billion '' the FDA said.

In addition, the tests found 58 samples showed some traces of unconfirmed ''sulfa drugs'' in levels of one to three parts per billion, ''which are far below the level of public health concern,'' the FDA said.

''The traces, while not of safety concern, nevertheless show that a few dairy farmers or veterinarians have improperly used the drug. While high levels of sulfa drugs have been and continue to be used in human medicine, sulfamethazine is not currently used in human medicine and is not approved for lactating cows,'' the FDA said.

''FDA will soon publish a proposal to eliminate uses of sulfamethazine in other food animals as well because that drug may be carcinogenic at some levels,'' the agency said.

The FDA stressed the findings indicate abuse of antibiotics by dairy

farmers use is extremely limited.

''For example, one cow treated with sulfamethazine can cause detectable residues when that milk is blended with the milk of 70,000 untreated cows '' the FDA said.

''However ... the responsibility falls on the dairy community and veterinarians to take aggressive steps to eliminate all illegal uses of veterinary drug products,'' the FDA said.

#90103u1274 04/13/1990 ~United Press International

PITTSBURGH (APRIL 13) UPI - USX Corp. released Friday a letter sent to stockholders in which Chairman and Chief Executive Officer Charles Corry urges them to reject Carl Icahn's proposal to spin off the company's steel and oil units.

Icahn, whose 13.3 percent stake makes him the company's largest stockholder, is seeking consents from other stockholders over his proposal to split up the company via a group called the USX Shareholders Advisory Committee. They will take up the issue at the company's May 7 annual meeting in Findlay, Ohio.

''Icahn contends in his proposal that two separate companies will be worth more than one,'' Corry said in the letter. ''We have reviewed Icahn's solicitation materials and we continue to strongly disagree with his proposal.''

Icahn's proposal would see USX divided into Marathon Oil Co., to handle USX's energy business, and U.S. Steel.

''Icahn has expressed in his own proxy statement an opinion that a substantial stockholder vote for his proposal should be regarded as a mandate to the USX board,'' Corry's letter said.

''Icahn's opinion highlights the danger of voting for the spin-off proposal. Such a specific mandate is disadvantageous to stockholders and would undermine your board's ongoing efforts to take action which it believes is in the best interests of the stockholders.''

Corry argued that a restructuring undertaken over the past decade ''built stockholder value by reshaping USX in a constructive and thoughtful manner. This restructuring yielded in 1989 the best operating income ever earned by this company, with return on common equity climbing to 18.5 percent.

''USX has examined actions similar to Icahn's proposal and has determined

that they would not be in the best interest of the company or its stockholders. Icahn's proposal suggests that your board abandon its prudent restructuring efforts, study of alternatives and attention to timing and marketplace considerations.''

The letter was the second one signed by Corry that was sent to shareholders urging them to reject Icahn's proposal.

#90103u1287 04/13/1990 ~United Press International

HAMILTON, Bermuda (APRIL 13) UPI - President Bush and British Prime Minister Margaret Thatcher, after a Good Friday summit to discuss sweeping changes in Europe, warned Moscow to not escalate tensions with independence-minded Lithuania or risk hurting relations with the West.

Emerging after four hours of talks at a storm-swept island resort, Bush said he found ''deeply disturbing'' reports that Soviet President Mikhail Gorbachev had given Lithuania a two-day ultimatum, threatening to cut off some supplies to the republic if it does not rescind various independence-related laws.

Thatcher, hoping that the meeting with Bush can boost her flagging popularity at home, said improving relations between the Soviet Union and NATO could not continue if Moscow used force to stop Lithuania from breaking away.

''We have a duty to say what we think,'' said Thatcher at a post-summit news conference. ''We've come a long way in relations between the Soviet Union and the free world ... (which) could not continue if the Soviet Union were to resolve this by force.''

Bush was careful to not delve too deeply into the subject, stressing that he had been told of the development just before the news conference and was not sure of the details. But he warned Moscow that ''now is no time for escalation. It's time for talk.''

The president added that he and Thatcher had made it ''crystal clear'' to Gorbachev ''that coercion, escalation is not the way to go. The way to go is dialogue. (We are) calling on them to heed those words.''

Responding to reports that Gorbachev was uncomfortable with what he considers lectures from the West, Thatcher said she and Bush were ''not lecturing anyone. This is not a problem that can be solved by force.''

On other levels, Bush and Thatcher declared that their mini-summit was a success and touched on a wide range of subjects - all a prelude to Bush's scheduled May summit with Gorbachev in the United States. ''We discussed

just about everything and I think we agree on just about everything,'' said Thatcher.

Among the topics touched on were German reunification and the ramifications for continuing arms control negotiations.

The president, speaking to reporters en route to the conference, said he viewed ''as positive'' statements from Moscow predicting that a strategic nuclear arms reduction pact would be ready for approval by the time Bush meets with Gorbachev.

''What (Gorbachev) said about instructing his people to go forward, I viewed that as a very positive statement, and we're sending the same signals to our negotiators,'' Bush said.

Additionally, the president said that despite Thatcher's plummeting popularity at home and her battles on a variety of domestic political fronts, he continued to appreciate her insight and he restated the importance of the U.S.-British relationship.

''We're very close together on our assessment on the changes that are taking place inside the Soviet Union. ... She has a very clear view of the realities of the world,'' Bush said. ''We've got a special relationship with the U.K. We always have. (And) I have a very frank and open relationship with Margaret Thatcher, for whom I have tremendous respect.''

The meetings were broken up by a good deal of pomp, circumstance and food.

Upon his arrival, Bush was greeted with military fanfare and a blustery wind and overcast skies. After a working lunch, he joined Thatcher and a group of about 20 children in Bermuda's custom of marking Good Friday by flying colorful kites. They were to close the meetings with a shipboard reception and a private dinner on the resort island.

The dominant theme was the rapid change in the communist world and its attendant problems and opportunities. Bush sought advice and help from Thatcher before his summit with Gorbachev May 30-June 3, when the two superpower leaders hope to lock up major arms control agreements. Thatcher meets with Gorbachev in Kiev later in June.

Thatcher agrees with Bush that a unified Germany must remain a full partner in the NATO alliance, a stance opposed by the Soviets, but Thatcher was expected to press Bush for the continued presence of NATO forces and modernized nuclear weapons in Germany.

Bush, who has proposed sweeping reductions in both conventional forces and nuclear arms, said he would discuss the issue, as he did at their last meeting at Camp David in November, but added: ''Our position is that this

matter is really a collective decision for NATO still, and obviously with a lot of concern for how Germany will treat this.''

The two countries also share special concerns about Iraq.

The United States and Britain cooperated in an investigation that resulted in the seizure of nuclear weapon trigger parts in Britain that allegedly were destined for Iraq. And this week, British authorities seized huge tubes headed for Iraq that it feared could be used to build a huge artillery gun capable of firing on Israel.

The Iraqi government denied it had a role in obtaining the nuclear trigger parts and said the tubes were for an oil production project.

For Thatcher, the meeting with Bush was opportune: A chance to buttress her standing domestically, where she has fallen to an all-time low in popularity and been the object of scorn by a massive anti-tax protest, and abroad, where her stubbornly independent foreign policy has increasingly isolated Britain.

For Bush, who readily lent his support to the prime minister, offering even to travel to London if she desired, the quick trip to the pastel-colored seaside resort was just the latest in a series of diplomatic adventures. The momentous change in Europe has kept Bush in

MASSENA, N.Y. (APRIL 13) UPI - A General Motors Corp. study has put a $37.5 million pricetag on cleaning up a Superfund site that polluted waters at an adjacent Mohawk Indian reservation - $100 million less than proposed by the EPA.

The Environmental Protection Agency proposed last month that GM spend $138 million to clean up PCBs, or polychlorinated biphenyls, and other toxic materials from areas fouled by years of waste dumping at the GM Central Foundry in upstate New York.

The company's $37.5 million plan differs from the EPA's in several ways, said Doug Premo, an environmental engineer for the auto manufacturer. He spoke at a meeting Thursday night of the Citizens' Advisory Committee for the St. Lawrence River Remedial Action Plan.

The federal agency recommends the dredging and excavation of soils and sediments contaminated with PCBs, while Premo said containment and biological treatment of the waste would be more cost-effective and have less impact on the environment.

But GM's proposal for cleaning the site, which is on the St. Lawrence River near the St. Regis Indian Reservation, did not go over well with the Mohawks,who said the plan does not do enough to rectify the problem.

According to James Ransom, a Mohawk environmentalist, dredging and excavation offer a more permanent solution to the hazardous waste problem, which he said has destroyed the Mohawks' traditional hunting and fishing grounds.

Under tribal recommendations, Ransom said the cleanup would take as many as 10 years to accomplish and cost an estimated $280 million.

(APRIL 13) UPI - British firms that designed tubing for Iraq are challenging weapons experts who say the pipes seized by Customs are a gun barrel for firing shells for nuclear warfare. The goods were seized yesterday in northeast England. A Customs officials says experts confirmed suspicions that eight crates seized held parts for a 40-yard-long gun. Executives of Sheffield Forgemasters, makers of the equipment, denies producing weapons parts for Iraq.

Convicted killer John List faces multiple life terms after an Elizabeth, New Jersey, jury found him guilty in the 1971 slayings of his family. The jury deliberated nine hours before finding List guilty yesterday of first-degree murder in the slayings of his wife, mother and three children. List cannot be executed since the state had NO death penalty in 1971, but he faces a minimum of about 15 years on each count.

A commercially made Delta-2 rocket is set for blast off tonight to put an Indonesian communications satellite in orbit. The 50-Million-dollar rocket is set for lift-off from Cape Canaveral Air Force station adjacent to the Kennedy Space Center. The satellite was stranded in a useless orbit in 1984 until shuttle astronauts retrieved it nine months later. The orbiter has been refurbished for launch today.

Pittsburgh authorities report a striking Greyhound driver was arrested this week and charged with criminal mischief for allegedly flattening the tires on two buses. 52-year-old Dan Brown was charged with reckless endangerment and propulsion of missiles onto the highway. About nine-thousand Greyhound employees walked off the job last month in a strike marred by violence.

WASHINGTON (APRIL 13) UPI - The administration eased travel restrictions

Friday for foreigners with AIDS attending U.S. conferences - a move that drew mixed reviews from activists pushing for the removal of all restrictions.

Currently, visitors to the United States must state whether or not they are infected with the human immunodeficiency virus, or HIV, which causes acquired immune deficiency syndrome.

HIV-infected people are barred from travel or immigration in the United States, but can obtain waivers allowing them to visit for 30 days.

Under a policy change announced Friday, the Immigration and Naturalization Service will not require AIDS testing for foreigners planning to attend ''professional, scientific or academic conferences'' judged to be ''in the public interest.''

''The administration is committed to ensuring that persons seeking admission to the United States are treated with fairness and compassion,'' the INS said in a prepared statement.

Activists who object to any AIDS-related travel restrictions have vowed to shun the International AIDS Conference in San Francisco in June and the International Hemophilia Congress in Washington in August.

Dr. Mervyn Silverman, president of the American Foundation for AIDS Research, called Friday's announcement ''a tremendous disappointment,'' saying his group had hoped President Bush would totally lift the ''discriminatory'' rules.

''The people who are boycotting the conferences are boycotting as a matter of principle, not convenience,'' said Silverman, whose group is a co-sponsor of the San Francisco meeting.

But he acknowleged that the rules might make traveling easier for the estimated 12,000 people expected to attend that conference.

Silverman noted the AIDS virus is only spread by sexual or blood-to-blood contact, like drug users sharing needles. ''AIDS is not a highly contagious disese. ... Short of being raped, I can't give you AIDS unless you let me,'' he said.

Besides the United States, the only nations that had AIDS-related travel restrictions as of December were: Bulgaria, Chile, China, Cuba, East Germany Hungary, Iraq, Pakistan and South Africa.

Health and Human Services Secretary Louis Sullivan has decided that the first two conferences to qualify for the new 10-day visas are the AIDS and hemophilia conferences, INS officials said.

Other types of travelers will still have to undergo AIDS testing and apply for 30-day waivers to enter the United States. HIV-infected foreigners will still also be barred from immigration.

Dr. June Osborn, chairwoman of the National AIDS Commission, said she considers the policy shift an encouraging show of sensitivity on the part of the administration.

''Every bit of progress has to be considred a welcome change. I hope in the longer run, the legislative intiative can go through and we can get rid of the restrictions entirely,'' Osborn said.

Sen. Edward Kennedy, D-Mass., called Friday's action encouraging, but added, ''The adminisration needs to continue to work with Congress in order to realign U.S. immigration policy with sound public health principles.''

A bill introduced last week by Rep. J. Roy Rowland, D-Ga., would give the health secretary power to decide what contagious diseases, such as AIDS and tuberculosis, would be grounds from barring a foreigner from the United States.

The secretary made such decisions until 1987, when Congress passed legislation requiring that foreigners infected with the AIDS virus be forbidden from entering the country.

Earlier this year, the Bush administration ordered the immigration service to stop its practice of marking the passports of AIDS-infected travelers. But administration officials have said the 1987 law prohibits them from totally lifting AIDS-related travel restrictions.

#90103u1327 04/13/1990 ~United Press International

WASHINGTON (APRIL 13) UPI - Mayor Marion Barry Friday denied that his legal and personal problems have thwarted statehood efforts and offered to resign if Congress would vote to make the District of Columbia the nation's 51st state.

''I've been in office for 12 years. We've been without statehood, local government since 1791 when George Washington designated this area as our nation's capitol,'' Barry said in an interview on ABC's ''Good Morning America.''

''When Gov. (Marvin) Mandel was convicted in Maryland (in 1977 of racketeering and mail fraud, a conviction that was later thrown out), there was no effort to take Maryland back from the United States.

''The Texas S&L scandal is outrageous. There's no effort to take Texas out of the union. So I think these are preposterous arguments. They are red herrings. They don't make any sense.''

Barry was arrested Jan. 18 on a cocaine possession charge. He was later indicted on eight counts of perjury and cocaine possession and faces a June 4 trial.

On Thursday, Barry sent a letter to Delegate Walter Fauntroy, D-D.C., the city's non-voting member of the House, asking him to seek legislation to exempt city residents from paying federal taxes as long as they have no voting representation in Congress.

Fauntroy, a mayoral candidate, said he would not seek the legislation.

Barry said his legal problems give statehood opponents an easy target, and said: ''If the majority of congressmen would vote for statehood, then Monday morning I'll resign as Mayor, if that would happen.''

''This country went to war against the British about a simple (notion) of taxation without representation,'' Barry said. ''It was wrong then. It's wrong now. So, it's not a crazy idea.''

Barry, 54, has refused to step down despite the legal charges against him, and said Friday that if he chooses to seek re-election, he would win.

''What my supporters tell me, if I were to run, I would be victorious in September (the Democratic primary) and on to victory in November,'' said Barry.

Under city law, Barry would be forced from office only if jailed after a felony conviction.

By VERNON SCOTT

HOLLYWOOD (APRIL 13) UPI - Zen was for a long time the most overworked, least understood buzzword in common usage.

There were Zen pizza parlors, Zen workout studios and Zen macrame classes. There were books applying Zen to everything from dune buggy driving to sock darning.

The distinguished screenwriter and novelist Ray Bradbury - apparently too

laid-back to have been affected by the first Zen wave - has caught up with the movement in his book ''Zen in the Art of Writing: Essays on Creativity.''

Bradbury is principally known for his science-fiction novels and film credits that include ''Fahrenheit 451'' and ''It Came from Outer Space.''

His application of Zen to writing makes more proper use of Zen than have most other commercial endeavors.

According to Webster, Zen is abstracted from Zen Buddhism, a Chinese and Japanese school of Mahayana Buddhism that seeks enlightenment by meditation, self-contemplation and intuition rather than by scripture.

In other words, go with the flow.

Bradbury's book contains chapters headed ''How to Keep and Feed a Muse,'' ''Drunk and in Charge of a Bicycle'' and ''Just this Side of Bysantium: Dandelion Wine,'' all written in his smooth, easy-to-read style.

His small volume gives avuncular advice to writers and would-be writers, filled with bits of wisdom gleaned over the years and folksy reminiscences.

Bradbury, white-haired, bulky and relaxed, said he enjoys writing poetry as much as he does essays, novels and screenplays.

''The difficulty most writers face is sitting down and actually doing the writing,'' he said. ''One day I was talking to a couple of writer friends and one told me his psychiatrist was a former German U-boat commander.

''We all thought it would make a good story. They did nothing about it. I ran home and wrote a short story with the psychiatrist shouting 'Dive! Dive!' in the middle of a session with me scrambling to get under the couch.

''The story sold, but it's this recognition of something fascinating in the moment of hearing about it that should cause you to write about it - quickly.''

Bradbury is puzzled why he is so widely known as a science-fiction writer. Fantasy represents only a fraction of his work.

He recently completed another novel, due for publication later this year, titled ''A Graveyard for Lunatics.'' It's a big book about a movie studio patterned after Paramount.

''That's what a studio is, a graveyard for lunatics,'' Bradbury said, grinning. ''Writers go to studios to die.

''I love to write and I kept after it until I got good. I wrote really dreadful poetry for 25 years. Then I learned how to relax and read all the great poets of the world. It got into my bloodstream. I began to do good work.

''I've written nine books of poetry, but only three poems I think are fantastic and will be around long after I'm gone.

''But I favor no single discipline. I've written seven or eight novels, 10 or 12 books of short stories and about 20 plays have been printed. Four or five of my screenplays have been made into movies.

''An aspiring screenwriter must learn that studios are run by dreadful people. Some of the people you work for are wonderful, but in the higher echelons they're terrible.

''In this Zen book I try to convince readers they are full of seeds of ideas that they don't know are there. Each of us is a pomegranate. Some of us have more seeds than others. Everyone has a storehouse of stories, but they don't know the process of getting them out.

''If I can conjure up thoughts of past experiences, even those I'm not sure of, it can happen to other people if they dredge down deep enough. And the way to do that is by surprise and word association.

''However, there are a lot of people who only think they want to be writers. Those of us who write are sort of genetic freaks.

''The more I see of life, the more I realize that we are much more the product of genetics than of environment.

''I used the term Zen as an amusing thing to do, as I did when I started out more than 30 years ago after reading 'Zen in the Art of Archery.'

''We're trying to learn to imitate the animals who know all about the principles of Zen. That meditative process whereby there's no time to think, only do.

''If I can teach people to do and get rid of the concept that they have to be thinking all the time, it will help them to write.''

SAN PEDRO CUTUD, Philippines (APRIL 13) UPI - At least 17 Filipinos were nailed to crosses and thousands of penitents scourged their backs with glass-studded whips in grisly Good Friday rituals that have degenerated

into a commercial spectacle.

Thousands of spectators, many of them foreigners, watched under a hot sun as 12 men were nailed and hoisted on 15-foot crosses atop a mound in the farming village of San Pedro Cutud, about 50 miles north of Anta Lucia and in Bulacan province, organizers said.

The Filipino ''Christs,'' accompanied by horse-riding men dressed as Roman centurions, paraded for at least a mile from the village chapel to the mound which was surrounded by barbed wire in the middle of a rice paddy. Onlookers chanted, ''Crucify them, crucify them.''

Police estimated the crowd in San Pedro Cutud at 30,000. Many of them were foreigners, including U.S. servicemen from the nearby U.S. Clark Air Base, who came with their families in cars and luxury vans to watch the crucifixions.

''It is very painful,'' yelled Maynardo Pabustan, 22, still nailed to the cross when asked how he felt. ''But I have to do this for the sake of my younger sister who is paralyzed.''

When Gary Briones was put up on the cross, the nail in his left hand was pulled. The 22-year-old mechanic grimaced but managed to wave to the crowd who gave him a round of applause, witnesses said.

''I have plenty of sins. I am a good liar,'' Briones said afterward.

Kriss Joseph, a U.S. serviceman from Clark, said: ''It was moving. The people who did that were very brave.''

But other spectators were not impressed. Leslie Alaan, an engineer from Israel, said, ''I don't think this is good for the peoples' faith. This was a thing Jesus Christ did for the people, so it takes away the glory from Him.''

The village of San Pedro, an otherwise quiet town of some 4,000 residents, took a fiesta-like atmosphere Friday, contrasting with the solemnity traditionally marking the Good Friday death of Jesus Christ.

Hundreds of vendors peddled souvenirs, straw hats, soft drinks, beer and food on makeshift stands. Private homes tendered parties and reunions replete with roasted pig and other native delicacies, violating a Roman Catholic ban on eating meat during the occasion.

Disco music blared from homes adjacent to the village chapel where old women were singing religious hymns.

Raymund Enriquez, a local businessman, claimed the penitents were paid

from $230 to $450 each to play Christ in the yearly ritual that has become a tourist attraction for the cash-strapped nation. Organizers denied this.

Enriquez said funds are collected from businessmen and residents two months before Holy Week. He said the robes of Roman centurions were provided by the Department of Tourism.

Throughout the nation, thousands of other devotees paraded through their towns, slashing their backs with razors and beating them bloody with bamboo sticks studded with glass granules to show remorse for their sins.

Roman Catholic church officials have described the bloody Easter rituals as ''ridiculous'' but the faithful say they continue to seek pain and suffering in hopes of redemption.

Historians say the tradition of self-flagellation and crucifixion can be traced back to a combination of pagan practices and Catholicism introduced in the country by Spanish friars in the 16th century.

Similar Good Friday crucifixion rituals are observed in several Latin American countries, although they do not involve actually nailing people to crosses.

The tradition has been carried on in Mexico for more than 140 years, highlighted by Friday's annual gathering of more than 2 million people in Mexico City's southeastern Iztapalapa neighborhood, where the faithful are tied to their crosses.

In small rural towns of the Peruvian Andes, children are whipped to recall the Calvary and fed castor oil to recall the vinegar Christ was fed when he said he was thirsty.

#90103u1465 04/13/1990 ~United Press International

HAMILTON, BERMUDA (APRIL 13) UPI - President Bush and British Prime Minister Margaret Thatcher, concerned by Moscow's latest threats against Lithuania, used a Good Friday summit to warn the Soviet Union that escalated pressure against the republic could hurt relations with the West.

Emerging after four hours of talks at a storm-swept island resort, Bush said he found the reports from Moscow ''deeply disturbing.'' The Soviet news agency Taas reported that Soviet President Mikhail Gorbachev had given Lithuania a two-day ultimatum, threatening to cut off some supplies to the republic if it does not rescind various independence-related laws.

Thatcher, hoping that the meeting with Bush can boost her flagging popularity at home, said improving relations with the Soviet Union could not continue if Moscow used force to stop Lithuania from breaking away from the grip of the communist giant.

''We have a duty to say what we think,'' said Thatcher at a post-summit news conference. ''We've come a long way in relations between the Soviet Union and the free world ... (which) could not continue if the Soviet Union were to resolve this by force.''

Bush was careful to not delve too deeply into the subject, stressing that

he had been told of the development just before the news conference and was not sure of the details. Thatcher also said the severity of the threat from Moscow was not clear.

But Bush warned Moscow that ''now is no time for escalation. It's time for talk.''

The president added that he and Thatcher had made it ''crystal clear'' to Gorbachev ''that coercion, escalation is not the way to go. The way to go is dialogue.''

Responding to reports that Gorbachev was annoyed with what he considers lectures from the West, Thatcher said she and Bush were ''not lecturing anyone. This is not a problem that can be solved by force.''

On other matters, Bush and Thatcher declared that their mini-summit was a success and touched on a wide range of subjects - many of them a prelude to Bush's scheduled May 30-June 3 summit with Gorbachev in the United States.

''We discussed just about everything and I think we agree on just about everything,'' said Thatcher, who is meeting with Gorbachev herself later in June.

Among the topics discussed were German reunification and the outlook for continuing arms control negotiations. Both leaders said they remained in agreement that a unified Germany should be part of NATO.

Concerning a nuclear weapons agreement, Bush said he viewed as positive reports that Gorbachev wanted a pact ready for signing by the time of the summit.

''What (Gorbachev) said about instructing his people to go forward, I viewed that as a very positive statement, and we're sending the same signals to our negotiators,'' Bush said.

On other subjects:

-Bush and Thatcher talked about, but had no further information on, speculation that Iraq had attempted to obtain a huge gun capable of firing chemical or nuclear weapons over long distances. British authorities this week seized huge tubes headed for Iraq that it feared could be used to build the weapon. Earlier, the United States and Britain cooperated in seizing nuclear weapon trigger parts that allegedly were destined for Iraq.

-The two leaders discussed the British government's decision to lift some sanctions against South Africa. The U.S. has not lifted any of the economic penalties it imposed on South Africa for backing apartheid.

-Bush said the United States and Britain are still trying to solve the ''cowardly, dastardly'' 1988 bombing of a Pan American jumbo jet over Lockerbie, Scotland, that killed 270 people. Prompted by a pamphlet from two relatives of victims, Bush said he wanted to ''reiterate our conviction that these dastardly terrorist acts must stop.''

Going into the summit, Bush said despite Thatcher's plummeting popularity at home and her battles on a variety of domestic political fronts, he continued to appreciate her insight and he restated the importance of the U.S.-British relationship.

''We're very close together on our assessment on the changes that are taking place inside the Soviet Union. ... She has a very clear view of the realities of the world,'' Bush said. ''We've got a special relationship with the U.K. We always have. I have a very frank and open relationship with Margaret Thatcher, for whom I have tremendous respect.''

The meetings were broken up by a good deal of pomp, circumstance and food.

Upon his arrival, Bush was greeted with military fanfare and a blustery wind and overcast skies. After a working lunch, he joined Thatcher and a group of about 20 children in Bermuda's custom of marking Good Friday by flying colorful kites.

For Thatcher, the meeting with Bush was opportune: A chance to buttress her standing domestically, where she has fallen to an all-time low in popularity and been the object of scorn by a massive anti-tax protest, and abroad, where her stubbornly independent foreign policy has increasingly isolated Britain.

For Bush, who readily lent his support to the prime minister, offering even to travel to London if she desired, the quick trip to the pastel-colored seaside resort was just the latest in a series of diplomatic adventures. The momentous change in Europe has kept Bush in frequent contact with Western friends.

The president plans to meet next week with French President Francois Mitterand in Key Largo, Fla., and said Friday that European security would be a main topic.

#90103u1476 04/13/1990 ~United Press International

WASHINGTON (APRIL 13) UPI - The Census Bureau said Friday that the nation's lethargic rate of census returns jumped by 2 points in 24 hours to 59 percent with Wisconsin, Iowa and other Midwestern states leading the country.

''Stand up and be counted now!'' Census Bureau Director Barbara Bryant said. ''Fill out and return your 1990 census forms this weekend.''

The 1990 census has been plagued by reports of foul-ups, confusion, missed addresses, housing units that do not show up on official lists, undelivered forms and other nagging problems.

At a news conference Thursday, Bryant warned that the national check-in response rate was an alarming 57 percent - far fewer answers than expected for the nationwide count held every 10 years.

The government hoped to have a 70 percent return of the 90 million census forms that were put in the mail at the end of March, and Bryant blamed some of the slow response on ''sociological trends such as the dual career couple.''

According to its latest estimates released Friday, ''Wisconsin remains ahead in statewide returns of census forms, with 73.4 percent closely followed by Iowa at 72.2 percent,'' the bureau said.

''Both states added 1 percentage point overnight, while the nationwide tally of census returns jumped 2 points to 59 percent,'' it said.

South Dakota, Minnesota, Ohio, North Dakota, Indiana and Michigan were close behind, officials said.

In addition, ''South Carolina and the District of Columbia crossed the 50 percent threshold, leaving only Alabama (49.6 percent) and Alaska (45.0 percent) below their halfway points among the states,'' the bureau said.

Among the nation's major cities Indianapolis leads with a 67.4 percent response rate followed by Columbus, Ohio, at 65.5 percent, Minneapolis-St. Paul at 64.1 percent, Seattle at 62.1 percent and San Antonia, Texas, at 61.2 percent, the bureau said.

The census is used to allocate seats in the House of Representatives and state legislatures, and also determines how much money states, cities and counties receive from federal programs.

Next week, the Census Bureau is expected to determine how many census takers it will need to employ and where they must be stationed for the door-to-door count that will begin April 26. Those addresses not mailing back forms will be visited in person by a census taker.

#90103u1478 04/13/1990 ~United Press International

WASHINGTON (APRIL 13) UPI - Following is the updated list of states and return rates for the 1990 mail-in census questionnaire released Friday by the Census Bureau:

Alabama: 49.6.
Alaska: 45.0.
Arizona: 54.7.
Arkansas: 60.5.
California: 55.1.
Colorado: 61.3.
Connecticut: 60.7.
District of Columbia: 50.2.
Delaware: 60.0.
Florida: 55.0.
Georgia: 57.3.
Hawaii: 56.8.
Idaho: 64.1.
Illinois: 62.7.
Indiana: 66.3.
Iowa: 72.2.
Kansas: 60.9.
Kentucky: 64.9.
Louisiana: 53.1.
Maine: 52.1.
Maryland: 59.1.
Massachsuetts: 58.5.
Michigan: 65.8.
Minnesota: 68.6.
Mississippi: 55.1.
Missouri: 62.8.
Montana: 59.3.
Nebraska: 64.2.
Nevada: 56.8.
New Hampshire: 55.1.
New Jersey: 56.2.
New Mexico: 53.8.
New York: 53.3.
North Carolina: 58.0.
North Dakota: 67.3.
Ohio: 68.4.
Oklahoma: 57.3.
Oregon: 59.0.
Pennsylvania: 62.1.
Rhode Island: 57.1.
South Carolina: 51.2.
South Dakota: 68.8.
Tennessee: 56.7.
Texas: 53.6.
Utah: 59.2.
Vermont: 54.9.
Virginia: 61.7.
Washington: 59.4.
West Virginia: 60.3.
Wisconsin: 73.4.
Wyoming: 56.4.

#90103u1481 04/13/1990 ~United Press International

NEW YORK (APRIL 13) UPI - Americans earned $900 million in 1989 by recycling up to 61 percent of the nation's aluminum beverage cans, according to a report issued by the Aluminum Association.

Consumers recycled 49.4 billion all-aluminum cans in 1989, up from 42 billion in 1988, earning an average of $75 million a month, the report by the Washington-based trade group said.

''Recycling almost 50 billion aluminum cans - six of every 10 produced - is an unparalleled environmental achievement,'' said Dave Parker, president of the association.

''The aluminum industry wants to recycle and reuse even more metal,'' he added. ''That's why we are working to make aluminum recycling a reality in

every corner of the country.''

Aluminum companies recycled more than half of the aluminum beverage cans produced during the 1980s, or 320 billion cans amounting to 6 million tons the report said.

Recycling not only helps address the landfill crisis but also saves about 95 percent of the energy required to produce aluminum from its primary ore bauxite.

The energy savings from recycling 49.2 billion cans last year amounted to more than 12 billion kilowatt hours of electricity - the energy equivalent of 20 million barrels of oil, the report said.

Aluminum recycling also involves other products such as pie plates or frozen food trays and the industry urged consumers to them aside as scrap.

(APRIL 13) UPI - President Bush is in Bermuda, where he said he looks forward to ''constructive talks'' with British Prime Minister Thatcher. Bush and Thatcher will discuss the future of the Western Alliance and the coming super-power summit in Washington. Bush says today's meeting with Thatcher is part of a series of consultations to keep allies informed during the rapid changes taking place in Europe.

The Labor Department reports that tumbling food and energy prices produced a two-tenths of one percent decline in wholesale prices in March... the first monthly dip since last August. The Bureau of Labor Statistics says producer prices for fresh vegetables plunged a record 25 and one-half percent in March, with prices down sharply for tomatoes, celery and cabbage. Wholesale gasoline prices fell two-point-eight percent, but home heating oil climbed 10-point-six percent after a 30-point-two percent plunge in February.

The Soviet Union is ending 50 years of denials today by officially admitting responsibility for the 1940 Katyn Forest massacre. Soviet authorities turned over newly found documents to Polish President Jaruzelski concerning the slayings of 15-thousand Polish officers. The Soviet news agency Tass says the the discovery of archival material blames the killings on a former chief of the secret police and his henchmen.

The family of a black Teaneck, New Jersey, teen-ager who was shot to death by a white police officer earlier this week is suing the town for 30-Million dollars. The family of Phillip Pannell filed a suit charging wrongful death and claiming civil rights violations. The officer involved in the shooting, which sparked a melee, was been suspended with pay.

By VERNON SCOTT

HOLLYWOOD (APRIL 13) UPI - When a TV news crew hits the street to interview typical Americans about the issues of the day the reporters usually aim for a guy who looks like Jeff Daniels.

Daniels has a face that is pure Midwest (which is where he lives), of WASP heritage (he is) and slightly self-conscious (yep).

Those attributes and a major acting talent have made the tall, gangly Daniels a movie star of sorts.

He is the guy next door, especially in his native Michigan where he still makes his home.

A recent project was the TV drama ''No Place Like Home,'' the story of a young family man who loses his job and ends up homeless. Daniels can relate to that. He was on his uppers in New York City for seven or eight years.

''I had less than $2,000 in the bank and no job when I came out here to make 'Terms of Endearment,''' he said.

Brushing a thatch of light brown hair from his eyes, Daniels said that

film assignment kept his acting hopes alive.

''I'd been with the company for a couple of weeks when Shirley (MacLaine) and Debra (Winger) began to disagree. I thought, oh, no, girls. I need this gig. Until then I'd only had a little part in 'Ragtime.' A lot was riding on the picture.

''You can imagine how impressed I was working with MacLaine, Winger and Jack Nicholson. I just prayed I wouldn't mess up my lines. I was diving into the deep end with that picture.

''Debra turned out to be my life jacket. She took very good care of me, making sure I was OK. She made me a better actor in every scene. It's a matter of connecting with the other person and forgetting about yourself.

''I was still in over my head when I did 'The Purple Rose of Cairo' working with that mildly talented genius Woody Allen.

''I've been lucky. I worked with Sissy Spacek in 'Marie' and then with Nicholson again and Meryl Streep in 'Heartburn.'

''Nothing helps a young actor's career more than working with super actors. These people have been around a long time and have made all the mistakes. Now they're doing it right. And it's my job to stand around and steal from them. Learn what they're doing and then rip 'em off.

''One of the top four questions you always ask yourself before committing to a movie - even before you get down to the money - is who's involved. Because if the people around it are good, the movie will have a chance of succeeding.

''Then, too, you know you're going to come out of it a better actor.

''It's a fact that you're going to learn a lot. On 'Terms of Endearment' I watched Nicholson's astronaut speech in the dailies. I saw him do 10 different takes and I saw him bad - not very good - in the first four takes.

''I sat there and watched him get better through takes five, six and seven as he put it all together. Eight, nine and 10 were perfect and our director Jim Brooks turned around and said, 'Jesus, which one do I choose?'

''So it pays to ask about the cast before you sign. I also want to know about the director right away and whether it's a good script. And, I guess who's the girl.

''That last question was important with 'Something Wild.' Thanks to (director) Jonathan Demme, we were all making the same picture. And that

doesn't always happen. It was fun. It worked and that can be rare.

''But my story isn't all upbeat. The last couple of movies I've made have gone straight to videocassette, like 'Checking Out' and 'Love Birds.'''

Daniels came into his own as a leading man in ''Something Wild,'' starring with Melanie Griffith.

''Melanie and I liked each other,'' he said, ''but that doesn't mean your work is better than if you don't like each other. The important thing is to make a connection, like plugging into an electric circuit.''

Daniels is one of Hollywood's busiest young performers. He's made a dozen films in the past five years.

''I've worked with so many talented people that if I didn't plug into their energy, I'll find they steal every scene,'' he said, laughing. ''It's not a malicious attempt to make you look bad. They're just that good.''

Daniels will soon be seen in ''Love Hurts'' with Judith Ivy and he stars in Steven Spielberg's new thriller ''Arachniphobia.''

He may be the guy next door, but he's also become the movie star next door.

#90103u1547 04/13/1990 ~United Press International

WASHINGTON (APRIL 13) UPI - Seeds exposed to cosmic radiation and sent to millions of school children will not yield ''killer tomatoes'' and should produce fruit as safe as any grown in back yard gardens, government officials said Friday.

''The killer tomatoes that you hear about in the press today, I don't know what they're referring to,'' said Alvin Young, director of the office of agriculture biotechnology at the Agriculture Department.

''I've never heard of a killer tomato, and I dont think we've got a killer tomato plant here either,'' said Young at a hastily called news conference at NASA headquarters.

The Los Angeles Times reported Friday a memo about a NASA project to send some 12 million seeds to 4 million students said there was a ''remote possibility'' mutations from cosmic radiation could cause the plants to produce ''toxic fruit.''

But officials stressed there is no reason for concern because the seeds tested negatively for radioactivity and the possibility of the seeds

producing poisonous fruit is no more likely than Earth-grown fruit.

''We have no information to suggest that it's anything other than safe for children to eat these tomatoes - as safe as eating a tomato of any other type or derivation,'' said Kenneth Pedersen, NASA's associate administrator for external relations. ''I will be happy to eat the tomato.''

Students are urged against eating the tomatoes because they are intended as classroom experiments aimed at spurring their interest in science and not for a ''bacon, lettuce and tomato sandwich,'' Young said.

But there is no unusual danger to anyone who is not allergic to tomatoes since plants naturally undergo mutations from radiation on Earth, the officials said.

''We took every health and safety precaution in designing this program,'' said Robert Brown, director of NASA's educational affairs division. ''We assured ourselves there is no deleterious effects expected from this experiment, any more than the tomatoes you'd buy in the supermarket or grow in your own garden.''

Nelson Ehrlich, associate project director for the aerospace education project at Oklahoma State University in Stillwater, Okla., who is under contract to NASA, wrote the memo as background material for some 30 employees who visit schools and make presentations about NASA.

In a telephone interview before the news conference, Ehrlich said he regretted including the reference to the possibility the tomatoes could become poisonous.

''I'm just sick that this kind of information has gotten out and people are going to fear these plants and not grow them,'' said Ehrlich.

Ehrlich said he thought it would be interesting to mention that tomato plants come from a family of plants whose leaves can be toxic while the fruit is not. He said it is possible a mutation could occur, causing the toxic substances from the leaves to be found in the fruit.

But Ehrlich and Brown said that possibility was so remote that it is not worth being concerned about. Genetic mutations can occur in plants on Earth, where they are also exposed to low levels of natural radiation, Brown said.

''There is a remote possibility that (the radiation) could cause mutations that could possibly produce toxic fruit. We can't rule it out. But I don't think there would be any danger from that aspect. It's more remote than getting struck with a meteor,'' Ehrlich said. ''There should be no need

for alarm for growing these plants or experimenting with them.''

The seeds, part of the Space Exposed Experiment Developed for Students - SEEDS - project, were carried aboard the Long Duration Exposure Facility satellite launched six years ago by the space shuttle Challenger.

After the LDEF satellite was retrieved in January by the space shuttle Columbia, the 12.5 million seeds were circulated around the nation to some 4 million students, ranging from elementary school pupils to college students.

The students were to plant a set of space-exposed seeds and a set of seeds that did not go into space, compare their growth and report any differences to NASA. The experiment is designed to spur student interest in space science.

Because radiation levels are greater in space than on Earth, the space-exposed seeds were considered likely to have had their genetic makeup changed.

#90103u1653 04/13/1990 ~United Press International

(APRIL 13) UPI - The day's first meeting between President Bush and British Prime Minister Thatcher is under way today in Bermuda. The allied leaders were to discuss a number of bilateral issues, including the Western Alliance and next month's U-S-Soviet summit. Bush says the meeting is aimed strengthening NATO in the face of Europe's dramatic changes.

Wholesale prices for March suffered their first monthly decline since last August. The Labor Department says tumbling food and energy prices contributed to a drop of two-tenths of one percent in wholesale prices last month. Producer prices for fresh vegetables plunged a record 25-and-a-half percent.

Polish President Jaruzelski received a formal apology from the Soviet Union during his visit to the communist super-power. The Tass news agency says Moscow has admitted responsibility for the 1940 Katyn Forest massacre... in which 15-thousand Polish officers were killed. Jaruzelski met today with Mikhail Gorbachev in Moscow.

NASA engineers say that if all goes well, the shuttle Discovery will be ready for the start of its second countdown one week from Sunday. Engineer John Talone said at Cape Canaveral today that he feels ''pretty good'' about an April 25th date for a second launch attempt. Discovery was grounded on Tuesday when a hydraulic power unit malfunctioned.

#90103u1661 04/13/1990 ~United Press International

NEW YORK (APRIL 13) UPI - Stanley Stahl, the New York real estate magnate seeking a controlling stake in Apple Bancorp Inc., said Friday he has brought action against the bank and its directors in a Delaware court.

Stahl's Delaware Court of Chancery complaint accused the board of acting improperly in postponing the bank's annual meeting after Stahl made his $38-a-share tender offer March 28, and challenged board amendments of company bylaws reinforcing a ''poison pill'' defense.

Apple Bancorp directors advised stockholders Tuesday that they should reject Stahl's offer for all outstanding stock, citing the judgment of financial advisors that the offer was ''unfair.'' They also said they would look for a third party buyout or merger to fend off Stahl.

In addition, the board rescinded an April 17 record date - a cutoff point for shareholder annual meeting voting eligibility - and indefinitely put off the meeting, previously set for late May. Stahl's tender offer was to expire at midnight, April 25.

Stahl's complaint charged that, ''by forestalling a vote that the incumbent directors feared they would lose, they wrongfully attempted to manipulate the corporate election machinery in order to entrench themselves and, at the same time, they have effectively disenfranchised their stockholders.''

Stahl said amendments to the poison pill defense, a so-called flip-in right allowing stockholders to buy additional shares at half market value in the event of a successful takeover, were ''an unreasonable response to any threat Apple's board could have believed his offer posed.'' He said the changes were a ''breach of the fiduciary obligations'' of the board.

Stahl asked the court to nullify the board's withdrawal of the record date todirect Apple and its directors to convene the 1990 annual meeting on or before June 16, to prohibit Apple and its directors from taking any other improper steps to influence the election of directors at the meeting and to invalidate the poison pill amendments to bylaws.

The Apple Bancorp board announced earlier in the week that it planned to bring suit in U.S. District Court in Delaware, alleging Stahl's offer violated disclosure requirements of the Securities and Exchange Act of 1934 and is misleading.

Apple Bancorp, the former Harlem Savings Bank, has assets of $3.8 billion and 33 New York City and Long Island banking branches. Stahl is a Manhattan real estate investor whose holdings include the Chemical Bank Building on Park Avenue and part of the Lunt-Fontanne Theater.

(APRIL 13) UPI - President Bush is meeting today with British Prime Minister Thatcher in Bermuda for talks on East-West issues such as German re-unification and NATO. The two leaders also are expected to discuss the coming summit between Bush and Soviet President Gorbachev in Washington, D-C. Before today's first meeting, Bush told reporters that he and Thatcher are ''very close'' in their assessment of the changes taking place in Europe.

China's official news agency says Premier Li Peng will make an official visit to the Soviet Union starting April 23rd. The hard-line premier was

invited by Mikhail Gorbachev during the Soviet leader's trip to Beijing last May. Li was educated in Moscow before the Kremlin and Beijing split in the 1960's over ideological and territorial disputes. He will become the first Chinese premier to visit the country since the early 1960's.

The three hostages released this week in Beirut apparently were NOT held in Lebanon, as had been thought. A report out of Paris says the hostages were captured by the government of Moammar Gadhafi and were held in Libya, NOT Lebanon. The report says it was the Algerian government, NOT Gadhafi, that played the principal role in negotiations to free the hostages. France earlier praised Gadhafi for his ''humanitarian gesture'' in helping free the hostages.

Security sources in Lebanon say five people were killed today in sporadic skirmishes between rival Christian forces near Beirut. The two sides traded rocket and machine-gun fire along front lines dividing Beirut's Christian enclave. The Voice of Lebanon radio says some of the shells slammed into a residential area in east Beirut and near a naval station.

#90103u1882 04/13/1990 ~United Press International

STAMFORD, CT (APRIL 13) UPI - Vestron Inc. reported Friday a fourth-quarter loss of $47.2 million, compared with net income of $1.7 million, or 5 cents a share, posted in the same period in 1988.

Revenues decreased to $66.7 million in the latest quarter from $94.4 million in the 1988 period.

For all of 1989, Vestron's loss came to $135.1 million, compared with profits of 20.6 million, or 55 cents a share, recorded in 1988.

Full-year revenues were $236.2 million in 1989, down from 1988's $321 million.

The company said the 1989 loss resulted from a restructuring made necessary by a ''constricted cash situation'' brought on by Security Pacific National Bank's decision in October 1988 to terminate a six-year, $100 million line of credit.

The termination, Vestron said, led to the suspension of a debt securities offering and ''severely impacted'' the company's ability to line up alternate financing.

Vestron last year entered into a $65 million reducing revolving credit facility with Chemical Bank N.A. and Credit Lyonnais Bank Nederland N.V., secured by the company's assets. Terms of the facility requires Vestron to sell operations and/or assets.

The losses reflected writedowns, discontinuance of the company's retail video store operations and the sale of certain other assets. Losses from the sale of discontinued operations were $11.6 million in the 1989 quarter and $20.1 million for all of last year.

The company also said it is ''continuing active negotiations'' with Live Entertainment Inc. on Live's proposal to acquire Vestron in which Live would exchange equity securities.

-30- 1804

#90103u1908 04/13/1990 ~United Press International

(APRIL 13) UPI - The government says there were fewer unsold goods stored in warehouse stockpiles in February. The Commerce Department reports a four-tenths of one percent decline in American business inventories for the month of February. The decline is the first since December 1989 and the largest since a sixth-tenths of one percent drop in December 1986.

Evangelist Billy Graham is in stable condition at the Mayo Clinic in Rochester, Minnesota, following surgery to remove part of a painful lower rib. The 71-year-old Graham came to the clinic earlier this week complaining of severe pain in his left rib cage and lower back. The pain had intensified after an accidental fall three weeks ago. The clinic says the surgery was performed Wednesday.

#90103u1930 04/13/1990 ~United Press International

LOS ANGELES (APRIL 13) UPI - Northrop Corp., facing criticism over the high cost of the B-2 stealth bomber, has started an effort to trim the aircraft's costs, a Northrop spokesman said Friday.

The cost-cutting program will involve some layoffs and reductions in inspection and security programs, spokesman Tony Cantafio said. He did not disclose exactly how much the actions may save.

''These moves are part of the overall corporate cost-cutting strategy we announced at our annual meeting last May,'' Cantafio said.

Congressional critics have been pushing to reduce the current Defense Department plan to buy 132 of the bat-shaped aircraft, designed to penetrate enemy radar without detection, at an estimated cost of $75 billion.

The company, among its potential actions, could lay off as many as 500 of the 12,000 Northrop B-2 employees at plants in Palmdale and Pico Rivera, Calif. Northrop could also cut the number of inspections of parts by

having employees inspect their own work.

Also, the company has been moving to cut security costs, which can be particularly expensive on a classified program such as the B-2, and will also consolidate its three computer centers at Pico Rivera into two, cut travel expenses and reduce outside contracting for labor.

KANSAS CITY, MO. (APRIL 13) UPI - A 22-year-old man was charged Friday with killing six women since September, and police said he told investigators he used a promise of crack cocaine to lure one of the victims to her doom.

Ray Shawn Jackson of Kansas City also was charged with aggravated assault in an attack on a woman Monday, authorities said. They said she survived.

The bodies of the six women were found in or near Gillham Park in Kansas City's midtown area. Jackson lived just a few blocks from the park, police said.

All of the six women found dead were black and in their 20s and 30s, police said. Several of them were addicted to crack and most had links to prostitution, police said.

Five of the women were strangled and the sixth was suffocated with mud forced down her throat.

David Fry, the chief warrant officer for the Jackson County prosecutor's office, said he asked Circuit Judge George Aylward to order Jackson held without bond.

However, the judge instead set bond Friday at $100,000 on each of the counts for a total of $700,000. Jackson was being held at the county jail.

Police said Rita Cheadle, 27, told them a man followed her Monday as she walked along the street, then grabbed her around the neck with his arm. She said he dragged her into some bushes, knocked her to the ground and began choking her with his hands.

Another man, walking his dog, interrupted the attack, and the assailant fled. Cheadle later identified Jackson as the man who choked her, investigators said.

Jackson was taken into custody Thursday and questioned for several hours, authorities said. Police said they had received hundreds of calls since the drawing of a possible suspect in the slayings was released last week.

Police said the suspect admitted to at least one of the killings. He told police he approached the victim and told her he knew where to get crack. In a statement, he admitted choking her, tying a shirt around her neck and tying a headband she was wearing around her eyes.

NEW YORK (APRIL 13) UPI - Facing a ''serious cash problem,'' Eastern Airlines sought bankruptcy court approval Friday to use $80 million in proceeds from asset sales as the troubled carrier's unsecured creditors rejected another settlement offer.

The creditors' decision to reject the 11th-hour plan by Eastern prompted the opening of a hearing before U.S. Bankruptcy Court Judge Burton Lifland on their request for a trustee to take control and find a buyer for the airline, a Texas Air Corp. subsidiary.

Eastern will need the $80 million in cash by Monday or Tuesday, said Eastern bankruptcy attorney Bruce Zirinsky.

''The consensus is the company has sufficient resources to keep flying at least through the end of the month,'' said Texas Air spokesman Art Kent. ''Certain bills come due at the end of April. You have to pay your bills. There's a serious cash problem.''

The latest plan offered to creditors by Eastern would have held them ''harmless from further losses'' by the carrier, Zirinsky said during Friday's proceedings.

Neither the creditors nor Eastern gave any further details of Eastern's latest offer to the creditors, who are owed $980 million.

Outside the courtroom, Eastern President Phil Bakes, who attended the crowded hearing along with Texas Air Chairman Frank Lorenzo, refused to comment on the plan.

The creditors rejected the plan after a late morning meeting with representatives of Eastern and Texas Air, said Joel Zweibel, an attorney for the creditors committee.

Citing Eastern's staggering losses and missed financial projections, the creditors ''reluctantly but firmly'' decided to proceed with their request for a trustee to oust Eastern's management, oversee the sale of its Latin American routes to American Airlines and find a buyer, Zweibel said.

Eastern's attorney charged the creditors' request for a trustee was a

thinly veiled attempt to liquidate Eastern - an accusation the creditors' attorney denied.

Zirinsky read a March 27 resolution by the creditors' committee in which they decided to ''prepare a liquidation plan and, contemporaneously, a motion for appointment of a trustee to achieve the same result.''

The creditors are only ''paying lip service'' when they insist they do not want the airline liquidated, he said.

Zirinsky said the creditors' request was a sign of ''frustration'' with Eastern, which filed for bankruptcy protection in March 1989.

''Nobody is suggesting for a moment that this management is perfect. No one is suggesting they made every decision the right way,'' Zirinsky said. ''This management has done a highly competent job under extremely adverse conditions, while people are shooting at it all the time.''

Eastern filed for protection from creditors five days after its major unions launched a bitter and crippling strike.

''This management is the management that rebuilt Eastern Airlines,'' Zirinsky added.

He said Eastern's financial forecasts were closer to the mark then those of major financial analysts, including Goldman, Sachs & Co.

He also said that much of Eastern's reorganization efforts last year were predicated on the sale of its Latin American routes to American and that those negotiations faltered last summer. The two carriers have since reached an agreement on the sale for $350 million.

First on the witness stand was Arthur Newman, a financial advisor to the creditors committee, who testified that Eastern lost $1.036 billion in the eleven months after the banktuptcy filing - $222 million worse than Eastern had forecast, he said.

''My belief is this company's management was not able to or willing to face the realities in the marketplace for Eastern,'' said Newman.

The creditors decided to seek a trustee in the case after the collapse of a tentative agreement with Eastern that would have paid them 50 cents on the dollar.

Eastern reneged on the deal in late March, citing lower-than-anticipated revenues.

The creditors alo rejected a more recent offer by Eastern to pay them 25

cents on the dollar.

The creditors plan to put two witnesses on the stand, including Newman, while Eastern plans to present testimony from eight witnesses, including Bakes and Lorenzo, Zirinsky said.

(APRIL 13) UPI - NASA officials say the work on the shuttle Discovery will expose the ultra-clean mirror of the Hubble Space Telescope to light-blocking dust. But engineers say the work to prepare Discovery for a second launch try on April 25th will expose the mirror to only a tiny amount of dust particles inside the shuttle's cargo bay. Launch requirements call for less than five percent of the mirror to be covered by dust.

President Bush and British Prime Minister Thatcher met in Bermuda this morning and were having a working lunch to continue bilateral discussions. Before the session, Bush expressed hopes that the talks on the rapidly changing face of Europe would be ''constructive.'' He says he and Thatcher are very close together in their assessment of the changes.

India's prime minister today ruled out talks with Pakistan over rising tensions in Kashmir, the disputed region along the India-Pakistan border. Prime Minister V-P Singh accused Pakistan of supporting a popular uprising in Kashmir as part of a plan to gain control of the region. He says India canNOT hold talks with Pakistan when it is- quoting now- ''freely supplying arms, finance and drugs to the terrorists.'' Islamabad denies it is arming and training the militants.

It DIDN'T seem much like spring today in the East. Temperatures fell to the teens and low 20's in parts of New York State, and well below freezing in Maryland, Pennsylvania, West Virginia and southern New Jersey. It was 26 degrees in Worcester, Massachusetts, and Bangor, Maine... and snow fell in northern Maine. Even the South felt the chill, with Knoxville, Tennessee, reporting a chilly 38 degrees.

NEW YORK (APRIL 13) UPI - A scanner designed to detect explosives in airport luggage failed to catch the presence of bombs in a series of tests of the device, posing questions of its accuracy, a television news report said Friday.

NBC said the Federal Aviation Administration has touted the thermal neutron analyzer as one answer to airport security concerns and plans to

order airlines to buy 150 scanners within a few years at almost $1 million each.

Following the bombing of Pan Am Flight 103 over Scotland in December 1988, the federal government ran tests to simulate the detonation and to determine how much explosive is needed to blow up a passanger jet.

Sources said cargo containers, like those used by Pan Am, were filled with bags and bombs of different sizes and blown up, according to NBC. The results indicated that a bomb of barely more than a pound could, under the right circumstances, destroy a jet.

The scanner's accuracy was gauged in seven months of tests at Kennedy International Airport. Simulated 2-pound bombs escaped detection 7 percent of the time, and explosives of up to a pound were not caught 25 percent of the time, NBC reported.

FAA Administrator James Busey told NBC the thermal detector is the only option available to screen for bombs.

TUSAYAN, AZ (APRIL 13) UPI - A small airplane crashed Friday on takeoff from the Grand Canyon National Park Airport but all seven people aboard the single-engine craft survived.

A Coconino County sheriff's spokeswoman in Flagstaff said five of the people suffered serious injuries, while two others were able to walk away from the crash site.

Two of the most seriously injured were flown by a state Department of Public Safety helicopter to a hospital in Flagstaff.

The plane went down about 3 p.m. in a ravine about a mile from the end of the runway at the airport, which is just outside the boundaries to the Grand Canyon National Park.

On Sept. 27, 1989, 10 people were killed and 11 others survived when a sightseeing plane crashed while landing at the airport.

A midair collision over the canyon June 18, 1986, claimed the lives of 25 people. That crash involved an airplane and a helicopter, both of which were flying tourists on a brief sightseeing tour below the canyon rim.

As a result of that crash, Congress ordered the Federal Aviation Administration to ban flights below the canyon's rim.

#90103u2127 04/13/1990 ~United Press International
MOSCOW (APRIL 13) UPI - President Mikhail Gorbachev gave Lithuania a two-day ultimatum Friday, saying he would cut off some supplies to the republic if its legislature did not rescind laws passed since a March 11 declaration of independence.

Gorbachev and Prime Minister Nikolai Ryzhkov sent a letter to the Lithuanian Parliament warning it to withdraw resolutions challenging the sovereignty of the Soviet Union, saying the republic's moves toward secession ''can no longer be tolerated.''

''We are looking to the Lithuanian Supreme Soviet and Council of Ministers to take decisions that will restore the republic's position to that of March 10, 1990,'' before the declaration of independence, said the letter, carried in full by the Tass news agency.

''If the Supreme Soviet and the Council of Ministers of the Lithuanian S.S.R. do not rescind the above decisions within the next two days, instructions will be given to stop supplies to the Lithuanian S.S.R. from other constituent republics of those categories of products that are sold on external markets for freely convertible currency,'' the letter said.

Lithuanian President Vytautas Landsbergis said the republic's Parliament would not rescind the independence laws and would not even interrupt its Easter holiday to discuss the threat.

''They know very well that we cannot fulfill this demand,'' the Lithuanian information center quoted Landsbergis as saying. ''We cannot rescind the declaration of independence.''

President Bush and British Prime Minister Margaret Thatcher, during their one-day summit in Bermuda, warned the Kremlin that escalated pressure against Lithuania could hurt relations with the West.

''Now is no time for escalation. It's time for talk,'' said Bush, who described the reports from Moscow as ''deeply disturbing.''

''We have a duty to say what we think,'' Thatcher said. ''We've come a long way in relations between the Soviet Union and the free world ... (which) could not continue if the Soviet Union were to resolve this by force.''

The letter from Gorbachev and Ryzhkov did not identify the products that would be stopped from entering Lithuania, but the republic is dependent on the Soviet Union for many essentials, including oil, gas and cotton for its textile industry.

The letter specifically told Lithuania to rescind resolutions requiring Lithuanian rather than Soviet identity cards, calling for a halt to conscription into the Soviet armed forces and seeking to use Communist Party buildings.

''Artificially and illicitly provoked by the Lithuanian leadership, the issue of the republic's position in the federal state tightens into an ever tighter knot,'' the letter said.

''We do not want things to go as far as this measure, but the situation now fully depends on the Lithuanian leadership,'' the letter said.

Landsbergis told local reporters in the republic's capital Vilnius that the timing of the ultimatum was inappropriate, with the threat against predominantly Catholic Lithuania coming on Good Friday with an Easter Sunday deadline.

''Over these two days we will do nothing special,'' the Lithuanian information center quoted him as telling the reporters.

The Lithuanian president said the effects of an economic blockade would be felt slowly but suggested it might be good for the republic in the long run.

''It would create difficult problems for us, not tomorrow or the day after tomorrow (but) in some months,'' Landsbergis said in a telephone interview with Cable News Network. ''I think the problems will begin after a month or two months if we have no help from the outside.

''We are restructuring our economy to free-market principles and possibilities and we will do it,'' he said. ''Now we have the possibility to do it more freely and more successfully.''

''We will survive in very difficult conditions but we will survive,'' Landsbergis later told CBS News. ''We have ... a will to be a free people. We have a tenacity and we must survive.''

In an interview with NBC News, the Lithuanian president acknowledged the republic could face a severe shortage of oil and spare parts if the Soviet Union imposed the sanctions, but he said he expected some Western nations to volunteer help.

''We will ask and we will wait, also without asking,'' for help from the West, he said, adding: ''We have had some propositions before from Scandinavian countries.''

Landsbergis told NBC he had not tried to contact Gorbachev about the

letter as late as Friday evening, but he said he did not expect a violent confrontation with the Soviet authorities.

''Our struggle is only (a) peaceful struggle,'' he told NBC. ''We have no tanks. And we will have no resistance with weapons. Our resistance is possible only as not participating, as a passive resistance.''

A key Soviet military commander said Friday that Lithuania's secession would endanger the security of the Baltic republic, the Soviet Union and all Europe.

''The withdrawal of the republic's territory from the present air defense system threatens disrupting the united air defense system of not only the Soviet Union but the entire northern flank of the Warsaw Treaty,'' Vladimir Denisov, deputy chief of the Soviet general staff, told the military newspaper Trud.

MIAMI (APRIL 13) UPI - Outspoken billionaire Donald Trump lambasted the ''dishonest press'' Friday for linking him romantically to women he said he doesn't even know, and criticized politicians for refusing to discuss legalizing drugs.

''There's a huge dishonesty in the press,'' the New York developer told a group of Miami businessmen. ''This recent situation - I almost said this recent affair, which would not have been appropriate - is just ridiculous. They have me linked to women I've never even met.''

Speaking at the request of millionaire Abe Hirschfeld at The Miami Herald's Florida Company of The Year Lunch, Trump insisted he was only a casual acquaintance of ice skater Peggy Fleming and actress Robin Givens, with whom he has been romantically linked.

Protesting the daily coverage of his personal life in New York newspapers, he made one reference to Marla Maples, the Georgia woman reportedly responsible for his separation from his wife, Ivana.

''There is dishonesty in the press, whether it be the dishonesty on a Marla Maples, the dishonesty on a Peggy Fleming, the dishonesty on all of them in terms of the level (of coverage). The (New York) Post and the (New York Daily) News had (stories) 20-some-odd days in a row,'' he said.

Trump, who said he had no interest in running for political office, dismissed the federal government's efforts to stop the importation and use of illegal drugs.

''You add it all up, and we're losing badly on the war on drugs,'' he said. ''We'll never win that war. In my opinion, you have to legalize drugs in order to win the war. You have to legalize drugs to take the profit out of these drug czars that are making billions of dollars in cash.''

(APRIL 13) UPI - President Bush is in Bermuda today for his sixth meeting with British Prime Minister Margaret Thatcher. They discussed German reunification, arms control and super-power relations. Thatcher reportedly agrees with Bush that a unified Germany must remain in NATO but is against Bush's proposals for deep arms cuts in Germany.

On his way to the meeting, Bush said the time has come for the world to

forgive Germany for the mass slaying of Jews during World War Two. The president says religious people have the capacity to forgive but need NOT forget. Bush said that is his PERSONAL view, and NOT a U-S policy statement.

The United Nations today responded to reports that Malaysia is turning away Vietnamese boat people. U-N officials say Southeast Asian nations should continue granting temporary asylum to the refugees, as agreed last year. Malaysia's prime minister complains that re-settlement countries like the United States take away only ''the best'' refugees.

Japanese tuna canners say yesterday's decision by American firms to use only dolphin-safe tuna will NOT affect them. Japan's tuna industry says it will continue to use dolphin-threatening fishing methods while studying alternatives. Japanese fishermen provide about 30 percent of the world's tuna.

New York transit police say a middle-aged man who shot and killed a bandit on a Brooklyn subway train last night had been robbed by the victim and his companions moments before the shooting. Transit police are questioning youths believed to have been traveling with the youths who were involved in the violence.

#90103u2605 04/13/1990 ~United Press International

(APRIL 13) UPI - The prime minister of India today refused to negotiate with Pakistan over the rising separatist movement in the border region of the two countries.

Prime Minister V-P Singh accused Pakistan of providing ''arms, finance and drugs'' to Moslem rebels who are behind a popular uprising against Indian

rule in the Kashmir region.

Singh says Pakistan is supporting the uprising as part of a plan to gain control of Kashmir.

Islamabad denies that it is arming and training the militants, but it openly supports self-determination for the region.

Pakistan also denied Indian reports that one Indian and as many as eight Pakistani troops died yesterday in gunfights on their northern border.

Shootings break out routinely in Kashmir, which has been disputed between India and Pakistan for years. The frontier was established after the 1948 Indo-Pakistan war.

The two countries also fought over Kashmir in 1965 and 1971.

Thousands of Christians marked Good Friday in Jerusalem today by marching along the route Jesus is believed to have taken to his crucifixion.

Some of the faithful carried wooden crosses in the procession, which ends at the Church of Holy Sepulchre.

A few hundred yards away, militant Jews continued to settle into a 72-room house despite the objections of the owner, the Greek Orthodox Church. More than two dozen armed police were outside the structure to prevent demonstrations.

Yesterday, the Greek Orthodox patriarch was overcome by police tear gas fired to break up a demonstration against the Jewish residents.

A court injunction has blocked an eviction order issued by a lower court.

At the Vatican, Pope John Paul heard the confessions of 13 pilgrims in St. Peter's Basilica today. It's a Holy Week gesture he has performed since 1980.

(APRIL 13) UPI - The British company that made steel pipes that were seized yesterday on their way to Iraq says the idea that the pipes were part of a gun is absurd.

Sheffield Forgemasters says the equipment was for petroleum production machinery.

British customs yesterday seized the shipment, saying it contained the

barrel for a gun that could fire nuclear or chemical shells hundreds of miles. Two weeks ago, British authorities seized what they said were nuclear weapons triggers also bound for Iraq.

Sheffield Forgemasters chief executive Phillip Wright today said his company refused past requests from Iraq for weapons. He said it's ''like something out of a best-seller'' to suggest that the company has been conned into producing the barrel of a giant gun.

A company spokesman said the firm got documentation from authorities for clearance to manufacture the tubes.

After 50 years of denial, the Soviet Union is stepping forward and taking responsibility for the 1940 Katyn Forest massacre.

Soviet officials had always said Nazi Germany was responsible for the World War Two slayings of 15-thousand Polish army officers.

But authorities turned over documents to Polish President Jaruzelski in Moscow today that show the Soviet Union carried out the killings.

The Tass news agency says material found in secret police archives shows that the one-time head of the secret police and his henchmen were responsible for the slayings.

Tass says Soviet officials expressed ''profound regret'' about the Katyn tragedy, calling it- quote- ''one of the most heinous crimes of the Stalin era.''

The Katyn massacre had soured relations between Poland and the Soviet Union for half a century. Jaruzelski will travel to Katyn tomorrow.
